- the firearms and ammunition would be brought with to all their suspect raids.

GSM

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these two (2) 9mm Parrabellum pistols and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at number 4 Oribi road Mandini, the Cato Manor members who were present are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of

GSM

other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 18 September 2008. In Counts 14 and 18, the date is the 18 September 2008 at around 16h30.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

GSM

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and Incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14

GSM

Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes It is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 4 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to

G SM

18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

GSM

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and Nkosinathi Mthembu.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South

G SM

African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

G SM

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and ankosinathi Mthembu.He also briefed the other members on the information at his disposal at Mandini before the team set off to number 4 Oribi road Mandini in search of their suspects.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 5 Eric Nel
Accused 8 Phumelela Makhanya
Accused 15 Anton Lockem
Accused 16 Eugene van Tonder
Accused 1 Johan Booysen
Accused 9 Cornelius Olivier

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

GSM

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 4 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was tracked at number 4 Oribi road Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These includes the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, at 4 Oribi road Mandini.

7.2.3 Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 4 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the

G SM

environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.8 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 4 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- murder of Nkosinathi Mthembu that was committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 4 participated in include the predicate offences that are listed on Page 25 of this submission:

G SM

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 4 in these activities have been outlined in the incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in

G SM

particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

COUNTS 15 – 18
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 8: PHUMELA MAKHAYA

Although the accused separated Count 15, 16, and 17 from Count 18 in their request, the State deals with all the Counts 15 to 18 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- 9mm Parabellum Calibre LEW Model Z88 pistol with serial number obliterated with one (1) magazine and six (6) rounds,

- 9mm Parabellum Calibre CZ Model 75 with serial number G2921 with a magazine and 13 rounds

which were allegedly found at the scene of Mzameni Ntuli and Nkosinathi's shooting incident at 4 Oribi road, Mandini on 18 September 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court g for VIP Protection.

GSM

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 September 2008

1.2.2 The time of the act is around 16h30

1.2.3 The place of the act is on the 4 Oribi road Mandini.

1.3 No the State does not rely on an omission.

G SM

1.4 The firearm concerned are:-

- a 9mm Parabellum Calibre LEW Model Z88 pistol with serial number obliterated with a magazine and six(6) cartridges and

- a 9mm Parbellum Calibre CZ Model 75 pistol with serial number G2921 with a magazyn and thirteen (13) cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, It is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure

GSM

these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

G.S.M

2.3.1 on the 18 September 2008 when these two (2) 9mm Parrabellum pistols and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at number 4 Oribi road Mandini, the Cato Manor members who were present are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 18 September 2008. In Counts 14 and 18, the date is the 18 September 2008 at around 16h30.

3. PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIPQUA THE ENTERPRISE

G 5m

4.1 Yes, It is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, It is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal

GSM

entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police

G SM

units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 8 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

GSM

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzamani Ntuli and Nkosinathi Mthembu.

5.5.4 It is not clear when the common purpose was formed.

5.5.5 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.6 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the

GSM

doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and Nkosinathi Mthembu.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13,

GSM

proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and ankosinathi Mthembu.He also briefed the other members on the information at his disposal at Mandini before the team set off to number 4 Oribi road Mandini in search of their suspects.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 5 Eric Nel
Accused 8 Phumelela Makhanya
Accused 15 Anton Lockem
Accused 16 Eugene van Tonder
Accused 1 Johan Booysen
Accused 9 Cornelius Olivier

GSM

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 4 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise,

GSM

these are the members who were on duty and were available on 18 September 2008 when the deceased was tracked at number 4 Oribi road Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, at 4 Oribi road Mandini.

7.2.3 Accused 8 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 8 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.9 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

GSM

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 8 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- murder of Nkosinathi Mthembu that was committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 8 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 4 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15

GSM

Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

1.2 – 8.8 Yes same as 6.3 above.

COUNTS 15 – 18
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 10: THEMBINKOSI MKHWANAZI

Although the accused separated Count 15, 16, and 17 from Count 18 in their request, the State deals with all the Counts 15 to 18 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- 9mm Parabellum Calibre LEW Model Z88 pistol with serial number obliterated with one (1) magazine and six (6) rounds,

GSM

- 9mm Parabellum Calibre CZ Model 75 with serial number G2921 with a magazine and 13 rounds

which were allegedly found at the scene of Mzameni Ntuli and Nkosinathi's shooting incident at 4 Oribi road, Mandini on 18 September 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court g for VIP Protection.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212

G SM

found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 September 2008

1.2.2 The time of the act is around 16h30

1.2.3 The place of the act is on the 4 Oribi road Mandini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned are:-

- a 9mm Parabellum Cailbre LEW Model Z88 pistol with serial number obliterated with a magazine and six(6) cartridges and

- a 9mm Parbellum Calibre CZ Model 75 pistol with serial number G2921 with a magazyn and thirteen (13) cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they

G SM

prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger

GSM

to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these two (2) 9mm Parrabellum pistols and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at number 4 Oribi road Mandini, the Cato Manor members who were present are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 18 September 2008. In Counts 14 and 18, the date is the 18 September 2008 at around 16h30.

G SM

3. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised

GSM

Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and Incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

GSM

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 10 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without

GSM

engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.7 It is not clear when the common purpose was formed.

5.5.8 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.9 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

GSM

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and Nkosinathi Mthembu.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

GSM

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and ankosinathi Mthembu.He also briefed the other members on the information at his disposal at Mandini before the team set off to number 4 Oribi road Mandini in search of their suspects.

6.3 dealt with at 6.1 above.

GSM

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 5 Eric Nel
Accused 8 Phumelela Makhanya
Accused 15 Anton Lockem
Accused 16 Eugene van Tonder
Accused 1 Johan Booysen
Accused 9 Cornelius Olivier

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the

GSM

Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 10 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was tracked at number 4 Oribi road Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, at 4 Oribi road Mandini.

7.2.3 Accused 10 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 10 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

E 3 m

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.10 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 10 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- murder of Nkosinathi Mthembu that was committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 10 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 98 – 101 the killing of Mfanafuthi Zwane and

8.2- 8.4 The extent of participation of Accused 4 in these activities have been outlined in the incidents:

GSM

Counts 13 – 18 dealt with in Incident 6 and
Counts 98 – 101 dealt with in Incident 2.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

1.2 – 8.8 Yes same as 6.3 above.

COUNTS 15 – 18
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 10: THATHAYIPHI MDLALOSE

Although the accused separated Count 15, 16, and 17 from Count 18 in their request, the State deals with all the Counts 15 to 18 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- 9mm Parabellum Calibre LEW Model Z88 pistol with serial number obliterated with one (1) magazine and six (6) rounds,

- 9mm Parabellum Calibre CZ Model 75 with serial number G2921 with a magazine and 13 rounds

which were allegedly found at the scene of Mzameni Ntuli and Nkosinathi's shooting incident at 4 Oribi road, Mandini on 18 September 2008 were

G S M

brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court g for VIP Protection.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

GSM

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 September 2008

1.2.2 The time of the act is around 16h30

1.2.3 The place of the act is on the 4 Oribi road Mandini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned are:-

- a 9mm Parabellum Cailbre LEW Model Z88 pistol with serial number obliterated with a magazine and six(6) cartridges and

- a 9mm Parbellum Calibre CZ Model 75 pistol with serial number G2921 with a magazyn and thirteen (13) cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

G 5m

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

G SM

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these two (2) 9mm Parrabellum pistols and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at number 4 Oribi road Mandini, the Cato Manor members who were present are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 18 September 2008. In Counts 14 and 18, the date is the 18 September 2008 at around 16h30.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

Gsm

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, It is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

GJM

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes It is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo

GSM

Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No; Accused 11 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

GSM

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

GSM

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and Nkosinathi Mthembu.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each

GSM

person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and ankosinathi Mthembu.He also briefed the other members on the information at his disposal at Mandini before the team set off to number 4 Oribi road Mandini in search of their suspects.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

G S m

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 5 Eric Nel
Accused 8 Phumelela Makhanya
Accused 15 Anton Lockem
Accused 16 Eugene van Tonder
Accused 1 Johan Booysen
Accused 9 Cornelius Olivier

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

 G SM

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes It is alleged that Accused 11 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was tracked at number 4 Oribi road Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Mzamani Ntuli and Nkosinathi Mthembu together, at 4 Oribi road Mandini.

7.2.3 Accused 11 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 11 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that

G 5m

SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.11 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 11 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- murder of Nkosinathi Mthembu that was committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 11 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 35 – 38 the killings of Thabo Msimango
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and

8.2- 8.4 The extent of participation of Accused 11 in these activities have been outlined in the Incidents:

Counts 13 – 18 dealt with in Incident 6

6 sm

Counts 35 – 38 dealt with in Incident 1
Counts 66 – 69 dealt with in Incident 18
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

1.2 – 8.8 Yes same as 6.3 above.

COUNTS 15 – 18
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 12: BONGANI ZONDI

Although the accused separated Count 15, 16, and 17 from Count 18 in their request, the State deals with all the Counts 15 to 18 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- 9mm Parabellum Calibre LEW Model Z88 pistol with serial number obliterated with one (1) magazine and six (6) rounds,

- 9mm Parabellum Calibre CZ Model 75 with serial number G2921 with a magazine and 13 rounds

which were allegedly found at the scene of Mzameni Ntuli and Nkosinathi's shooting incident at 4 Oribi road, Mandini on 18 September 2008 were brought by the accused to the scene so that they could justify their unlawful

GSM

shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court g for VIP Protection.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi" or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

G.S.M

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 September 2008

1.2.2 The time of the act is around 16h30

1.2.3 The place of the act is on the 4 Oribi road Mandini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned are:-

- a 9mm Parabellum Cailbre LEW Model Z88 pistol with serial number obliterated with a magazine and six(6) cartridges and

- a 9mm Parbellum Calibre CZ Model 75 pistol with serial number G2921 with a magazyn and thirteen (13) cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY

UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

G SM

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

G SM

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these two (2) 9mm Parrabellum pistols and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at number 4 Oribi road Mandini, the Cato Manor members who were present are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 18 September 2008. In Counts 14 and 18, the date is the 18 September 2008 at around 16h30.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

G S M

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

GSM

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and Incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo

G-SM

Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 12 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 15 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzamani Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

G rm

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

GSM

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and Nkosinathi Mthembu.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each

GSM

person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and ankosinathi Mthembu.He also briefed the other members on the information at his disposal at Mandini before the team set off to number 4 Oribi road Mandini in search of their suspects.

6.3 dealt with at 6.1 above.

6.4 Yes It is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

GSM

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 5 Eric Nel
Accused 8 Phumelela Makhanya
Accused 15 Anton Lockem
Accused 16 Eugene van Tonder
Accused 1 Johan Booysen
Accused 9 Cornelius Olivier

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

G S M

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 12 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was tracked at number 4 Oribi road Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, at 4 Oribi road Mandini.

7.2.3 Accused 12 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 12 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that

GSM

SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.12 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 12 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- murder of Nkosinathi Mthembu that was committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 12 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu

8.2- 8.4 The extent of participation of Accused 11 in these activities have been outlined in the Incidents:

Counts 13 – 18 dealt with in Incident 6

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe

G Son

Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

1.2 – 8.8 Yes same as 6.3 above.

COUNTS 15 – 18
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 13: RUBENDREN NAIDOO

Although the accused separated Count 15, 16, and 17 from Count 18 in their request, the State deals with all the Counts 15 to 18 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- 9mm Parabellum Calibre LEW Model Z88 pistol with serial number obliterated with one (1) magazine and six (6) rounds,

- 9mm Parabellum Calibre CZ Model 75 with serial number G2921 with a magazine and 13 rounds

which were allegedly found at the scene of Mzameni Ntuli and Nkosinathi's shooting incident at 4 Oribi road, Mandini on 18 September 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and

G-SM

similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213

G SM

found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 September 2008

1.2.2 The time of the act is around 16h30

1.2.3 The place of the act is on the 4 Oribi road Mandini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned are:-

- a 9mm Parabellum Calibre LEW Model Z88 pistol with serial number obliterated with a magazine and six(6) cartridges and

- a 9mm Parbellum Calibre CZ Model 75 pistol with serial number G2921 with a magazyn and thirteen (13) cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho

GSM

was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- Immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many

police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these two (2) 9mm Parrabellum pistols and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Mzamani Ntuli and Nkosinathi Mthembu at number 4 Oribi road Mandini, the Cato Manor members who were present are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 18 September 2008. In Counts 14 and 18, the date is the 18 September 2008 at around 16h30.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

G SM

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

G SM

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the

Incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 13 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 15 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.4.1 It is not clear when the common purpose was formed.

5.4.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.4.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi

G Sm

road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and Nkosinathi Mthembu.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and ankosinathi Mthembu.He also briefed the other members on the information at his disposal at Mandini before the team set off to number 4 Oribi road Mandini in search of their suspects.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Tosm

Accused 4 Paul Mostert
Accused 5 Eric Nel
Accused 8 Phumelela Makhanya
Accused 15 Anton Lockem
Accused 16 Eugene van Tonder
Accused 1 Johan Booysen
Accused 9 Cornelius Olivier

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

GSM

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 13 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was tracked at number 4 Oribi road Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, at 4 Oribi road Mandini.

7.2.3 Accused 13 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 13 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

GSM

7.13 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 13 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- murder of Nkosinathi Mthembu that was committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 13 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 25 – 30 the killing of Sibongiseni Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Bonagi Biyela and Khanyisani Biyela
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 70 – 79 the killing of Simphiwe Shozi
Counts 80 – 93 the killings of Jabulani Bhengu, Dumisani Mghobozi and Boysie Mbonambi
Counts 102 – 103 the killing of Sanele Majola and
Counts 113 – 116 the killing of Nhlanhla Mhlongo

8.2- 8.4 The extent of participation of Accused 13 in these activities have been outlined in the Incidents:

G5m

Counts 3 – 7 dealt with in Incident 4
Counts 13 – 18 dealt with in Incident 6
Counts 25 – 30 dealt with in Incident 13
Counts 35 – 38 dealt with in Incident 1
Counts 39 – 52 dealt with in Incident 9
Counts 58 – 61 dealt with in Incident 14
Counts 70 – 79 dealt with in Incident 19
Counts 80 – 93 dealt with in Incidents 20 – 22
Counts 102 – 103 dealt with in Incident 3
Counts 113 – 116 dealt with in Incident 17

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7– 8.8 Yes same as 6.3 above.

COUNTS 15 – 18
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 15: ANTON LOCKEM

Although the accused separated Count 15, 16, and 17 from Count 18 in their request, the State deals with all the Counts 15 to 18 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- 9mm Parabellum Calibre LEW Model Z88 pistol with serial number obliterated with one (1) magazine and six (6) rounds,

GSM

- 9mm Parabellum Calibre CZ Model 75 with serial number G2921 with a magazine and 13 rounds

which were allegedly found at the scene of Mzameni Ntuli and Nkosinathi's shooting incident at 4 Oribi road, Mandini on 18 September 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court g for VIP Protection.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212

G 5m

found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 September 2008

1.2.2 The time of the act is around 16h30

1.2.3 The place of the act is on the 4 Oribi road Mandini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned are:-

- a 9mm Parabellum Cailbre LEW Model Z88 pistol with serial number obliterated with a magazine and six(6) cartridges and

- a 9mm Parbellum Calibre CZ Model 75 pistol with serial number G2921 with a magazyn and thirteen (13) cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they

Gsm

prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger

to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these two (2) 9mm Parrabellum pistols and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at number 4 Oribi road Mandini, the Cato Manor members who were present are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 18 September 2008. In Counts 14 and 18, the date is the 18 September 2008 at around 16h30.

Gsm

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group

GSM

Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

GSM

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 Yes, Accused 15 did manage the activities of the enterprise, together with Accused 9, 6, and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 15 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without

GSM

engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.4.4 It is not clear when the common purpose was formed.

5.4.5 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.4.6 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

GSM

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and Nkosinathi Mthembu.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

G S M

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and ankosinathi Mthembu.He also briefed the other members on the information at his disposal at Mandini before the team set off to number 4 Oribi road Mandini in search of their suspects.

6.3 dealt with at 6.1 above.

GSM

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 5 Eric Nel
Accused 8 Phumelela Makhanya
Accused 15 Anton Lockem
Accused 16 Eugene van Tonder
Accused 1 Johan Booysen
Accused 9 Cornelius Olivier

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Maimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the

GSM

Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 15 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was tracked at number 4 Oribi road Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, at 4 Oribi road Mandini.

7.2.3 Accused 15 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 15 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

G sm

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 15 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- murder of Nkosinathi Mthembu that was committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 15 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 8 – 12 the killing of Magojela Ndimande and Sibusiso Tembe
Counts 39 – 52 the killings of Bonagi Biyela and Khanyisani Biyela
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 80 – 93 the killings of Jabulani Bhengu, Dumisani Mghobozi and Boysie Mbonambi

G S M

Counts 98 – 101 the killing of Fukwane Zwane
Counts 102 – 103 the killing of Sanele Majola
Counts 109 – 112 the killing of Dan Phiri and
Counts 113 – 116 the killing of Nhlanhla Mhlongo

8.2- 8.4 The extent of participation of Accused 15 in these activities have been outlined in the Incidents:

Counts 13 – 18 dealt with in Incident 6
Counts 8 – 12 dealt with in Incident 5
Counts 39 – 52 dealt with in Incident 9
Counts 58 – 61 dealt with in Incident 14
Counts 70 – 79 dealt with in Incident 19
Counts 80 – 93 dealt with in Incidents 20 – 22
Counts 98 – 101 dealt with in Incident 2
Counts 102 – 103 dealt with in Incident 3
Count 109 – 112 dealt with in Incident 11
Counts 113 – 116 dealt with in Incident 17

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.8 Yes same as 6.3 above

AD COUNT 18: DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 3: ADRIAAN STOLTZ

1.1 It is the State's case that the firearms and ammunition, which was allegedly found at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting incident at number 4 Oribi road, Mandini on 18 September 2008 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence

GSM

to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:-

- The deceased Mzameni Ntull and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntull and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi" or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

GSM

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- Evidence of photos taken by witness 17, Insp Zondi and the respective locations of the rifles and cartridges found on the scene.

- Evidence of witness 30, Mr Steyl relating to his observations and conclusions about where the firearms and cartridges were depicted on the scene.

1.1.1 The date of the act is 18 September 2008.

1.1.2 The time of the act is around 16h30.

1.2.3 The place of the act is at number 4 Oribi road Mandini.

1.3 No, the State's case is not based on an omission in respect of Accused 3.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed

GSM

on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many

G-S m

police officials who would be part of the pursuit team or the police raid.

2.3 the members who would took part in this incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these 9mm Parabellum pistols and their ammunition were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at 4 Oribi road Mandini, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 13 to 18 the date is the 18 September 2008 at around 16h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi used consitently at any of the suspect raids that they

G S M

were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

G 5 m

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the offences were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to

TGSM

commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 3 did not manage the activities of the enterprise, Accused 9, together with Accused 1, 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

GSM

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15. Accused 3, 4, 6, 8, 11, 12, 13 and 15 proceeded to 4 Oribi road, Mandini where they cornered Mzameni Ntuli and Nkosinathi Mthembu and shot and killed them, thereafter placed a 9mm Parabellum pistol next to the body of each deceased person to accord with their version of self defence.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

G 8m

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Magojela and Tembe. He started when he instructed the owner of the VIP protection that was providing security services to the KwaMaphumulo to remove their securities from their members. He must have placed the AK47 rifle next to the deceased and then called the owner of the VIP security whom he had earlier warned to remove the securities from members of the KwaMaphumulo Taxi Association, witness 29 and 30 to the scene to come and see what he did to their employee.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South

G SM

African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:-

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

G SM

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 3 Adriaan Stoitz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhanya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South

G SM

African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 3 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was traced the accused and cornered them at 4 Oribi road, Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These includes the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, and cornering them at 4 Oribi road, Mandini.

7.2.3 Accused 3 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 3 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

G S M

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.8 Same as 7.6 above.

7.8 -7.9 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 3 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- Murder of Nkosinathi Mthembu committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

on the basis of being managers that associated themselves with the conduct of the members of the enterprise, that knew or ought to have known of the operations of the members of the enterprise.

The other activities that Accused 3 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 20 – 24 the killing of Bongani Mkhize
Counts 25 – 30 the killing of Sibongiseni Ndimande and
Counts 62 – 65 the killing of Prince Thabethe

GSM

8.2- 8.4 The extent of participation of Accused 3 in these activities have been outlined in the Incidents:

Counts 13 – 18 dealt with in Incident 6
Counts 20 – 24 dealt with in Incident 10
Counts 25 – 30 dealt with in Incident 13
Counts 62 – 65 dealt with in Incident 16.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

AD COUNT 18: DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 4: PAUL MOSTERT

1.1 It is the State's case that the firearms and ammunition, which was allegedly found at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting incident at number 4 Oribi road, Mandini on 18 September 2008 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:-

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

G SM

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi" or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- Evidence of photos taken by witness 17, Insp Zondi and the respective locations of the rifles and cartridges found on the scene.

- Evidence of witness 30, Mr Steyl relating to his observations and conclusions about where the firearms and cartridges were depicted on the scene.

1.2.1 The date of the act is 18 September 2008.

G SM

1.2.2 The time of the act is around 16h30.

1.2.3 The place of the act is at number 4 Oribi road Mandini.

1.3 No, the State's case is not based on an omission in respect of Accused 4.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

GSM

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would took part in this incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these 9mm Parabellum pistols and their ammunition were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at 4 Oribi road Mandini, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 3 Adriaan Stoltz

GSM

Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 13 to 18 the date is the 18 September 2008 at around 16h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi used consitently at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

G S M

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

G SM

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the offences were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

G SM

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 4 did not manage the activities of the enterprise, Accused 9, together with Accused 1, 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

G S M

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15. Accused 3, 4, 6, 8, 11, 12, 13 and 15 proceeded to 4 Oribi road, Mandini where they cornered Mzameni Ntuli and Nkosinathi Mthembu and shot and killed them, thereafter placed a 9mm Parabellum pistol next to the body of each deceased person to accord with their version of self defence.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a

G SM

child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Magojela and Tembe. He started when he instructed the owner of the VIP protection that was providing security services to the KwaMaphumulo to remove their securities from their members. He must have placed the AK47 rifle next to the deceased and then called the owner of the VIP security whom he had earlier warned to remove the securities from members of the KwaMaphumulo Taxi Association, witness 29 and 30 to the scene to come and see what he did to their employee.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person

G S M

employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:-

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhanya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose

GSM

Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

GSM

7.1 Yes it is alleged that Accused 3 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was traced the accused and cornered them at 4 Oribi road, Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These includes the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, and cornering them at 4 Oribi road, Mandini.

7.2.3 Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 4 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.9 Same as 7.6 above.

GSM

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 4 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- Murder of Nkosinathi Mthembu committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

on the basis of being managers that associated themselves with the conduct of the members of the enterprise, that knew or ought to have known of the operations of the members of the enterprise.

The other activities that Accused 4 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killings of Magojela Ndimande and Sibusiso Temebe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killing of Bongane Biyela and Khanyiseni Biyela
Counts 53 – 57 the killing of Thokozane Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killing of Jabulane Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killings of Mfanafuthi Zwane

GSM

G SM

Counts 102 – 103 the killing of Muzi Majola

8.2- 8.4 The extent of participation of Accused 3 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Count 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Counts 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16.
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 -22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2
Counts 102 – 103 dealt with in Incident 3

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

AD COUNT 18: DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 8: PHUMELELA MAKHANYA

1.1 It is the State's case that the firearms and ammunition, which was allegedly found at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting incident at number 4 Oribi road, Mandini on 18 September 2008 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence

GSM

to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:-

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

G SM

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- Evidence of photos taken by witness 17, Insp Zondi and the respective locations of the rifles and cartridges found on the scene.

- Evidence of witness 30, Mr Steyl relating to his observations and conclusions about where the firearms and cartridges were depicted on the scene.

1.2.1 The date of the act is 18 September 2008.

1.2.2 The time of the act is around 16h30.

1.2.3 The place of the act is at number 4 Oribi road Mandini.

1.3 No, the State's case is not based on an omission in respect of Accused 4.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed

G rm

on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many

G S M

police officials who would be part of the pursuit team or the police raid.

2.3 the members who would took part in this incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these 9mm Parabellum pistols and their ammunition were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at 4 Oribi road Mandini, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 13 to 18 the date is the 18 September 2008 at around 16h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi used consitently at any of the suspect raids that they

G SM

were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

G S M

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and Incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the offences were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to

GSM

commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 8 did not manage the activities of the enterprise, Accused 9, together with Accused 1, 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

G SM

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15. Accused 3, 4, 6, 8, 11, 12, 13 and 15 proceeded to 4 Oribi road, Mandini where they cornered Mzameni Ntuli and Nkosinathi Mthembu and shot and killed them, thereafter placed a 9mm Parabellum pistol next to the body of each deceased person to accord with their version of self defence.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

G S M

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Magojela and Tembe. He started when he instructed the owner of the VIP protection that was providing security services to the KwaMaphumulo to remove their securities from their members. He must have placed the AK47 rifle next to the deceased and then called the owner of the VIP security whom he had earlier warned to remove the securities from members of the KwaMaphumulo Taxi Association, witness 29 and 30 to the scene to come and see what he did to their employee.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South

G-5m

African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:-

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

Ga SM

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhanya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South

G SM

African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 8 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was traced the accused and cornered them at 4 Oribi road, Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These includes the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, and cornering them at 4 Oribi road, Mandini.

7.2.3 Accused 8 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 8 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

G S M

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 8 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- Murder of Nkosinathi Mthembu committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

on the basis of being managers that associated themselves with the conduct of the members of the enterprise, that knew or ought to have known of the operations of the members of the enterprise.

The other activities that Accused 8 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killings of Magojela Ndimande and Sibusiso Ternebe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 35 – 38 the killing of Thabo Maimango

Gr 5 m

Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killings of Mfanafuthi Zwane

8.2- 8.4 The extent of participation of Accused 8 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Count 13 – 18 dealt with in Incident 6
Counts 35 – 38 dealt with in Incident 1
Counts 66 – 69 dealt with in Incident 18
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS.

7.8 – 8.8 Yes same as 6.3 above.

AD COUNT 18: DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 10: THEMBINKOSI MKHWANAZI

1.1 It is the State's case that the firearms and ammunition, which was allegedly found at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting incident at number 4 Oribi road, Mandini on 18 September 2008 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:-

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst

G.S.M

travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

EGSM

- Evidence of photos taken by witness 17, Insp Zondi and the respective locations of the rifles and cartridges found on the scene.

- Evidence of witness 30, Mr Steyl relating to his observations and conclusions about where the firearms and cartridges were depicted on the scene.

1.2.2 The date of the act is 18 September 2008.

1.2.3 The time of the act is around 16h30.

1.2.4 The place of the act is at number 4 Oribi road Mandini.

1.3 No, the State's case is not based on an omission in respect of Accused 10.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association

G 5 M

and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

GSM

2.3 the members who would took part in this incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these 9mm Parabellum pistols and their ammunition were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at 4 Oribi road Mandini, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 13 to 18 the date is the 18 September 2008 at around 16h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi used consitently at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable

G SM

in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

G.SM

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the offences were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the

GSM

incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 10 did not manage the activities of the enterprise, Accused 9, together with Accused 1, 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

GSM

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15. Accused 3, 4, 6, 8, 11, 12, 13 and 15 proceeded to 4 Oribi road, Mandini where they cornered Mzameni Ntuli and Nkosinathi Mthembu and shot and killed them, thereafter placed a 9mm Parabellum pistol next to the body of each deceased person to accord with their version of self defence.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

G sm

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Magojela and Tembe. He started when he instructed the owner of the VIP protection that was providing security services to the KwaMaphumulo to remove their securities from their members. He must have placed the AK47 rifle next to the deceased and then called the owner of the VIP security whom he had earlier warned to remove the securities from members of the KwaMaphumulo Taxi Association, witness 29 and 30 to the scene to come and see what he did to their employee.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South

GSM

African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:-

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.3 dealt with at 6.1 above.

6.4 Yes It is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

G.S.M

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhanya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South

ESM

African Police Service, a legal entity established by legislati
of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that memb
Crime section acted loosely as individuals outside the le
entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 10 committed the crime o
the course of Justice jointly with the other accused whilst em
the enterprise.

7.2 The enterprise remains the same in respect of all the
only difference is the members who participated in the
these are the members who were on duty and were availa

African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 10 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was traced the accused and cornered them at 4 Oribi road, Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These includes the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, and cornering them at 4 Oribi road, Mandini.

7.2.3 Accused 10 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 10 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

GSM

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 10 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- Murder of Nkosinathi Mthembu committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

on the basis of being managers that associated themselves with the conduct of the members of the enterprise, that knew or ought to have known of the operations of the members of the enterprise.

The other activities that Accused 10 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 98 – 101 the killings of Mfanafuthi Zwane

GSM

8.2- 8.4 The extent of participation of Accused 10 in these activities have been outlined in the Incidents:

Count 13 – 18 dealt with in Incident 6
Counts 98 – 101 dealt with in Incident 2

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

AD COUNT 18: DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 11: THEMBINKOSI MKHWANAZI

1.1 It is the State's case that the firearms and ammunition, which was allegedly found at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting incident at number 4 Oribi road, Mandini on 18 September 2008 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:-

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

G 5M

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- Evidence of photos taken by witness 17, Insp Zondi and the respective locations of the rifles and cartridges found on the scene.

- Evidence of witness 30, Mr Steyl relating to his observations and conclusions about where the firearms and cartridges were depicted on the scene.

1.2.1 The date of the act is 18 September 2008.

G SM

1.2.2 The time of the act is around 16h30.

1.2.3 The place of the act is at number 4 Oribi road Mandini.

1.3 No, the State's case is not based on an omission in respect of Accused 11.

AD: PATTERN OF RACKETEERING ACTIVITY
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

GSM

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would took part in this incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these 9mm Parabellum pistols and their ammunition were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at 4 Oribi road Mandini, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 3 Adriaan Stoltz

GSM

Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 13 to 18 the date is the 18 September 2008 at around 16h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi used consitently at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

G J M

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

 GSM

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the offences were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

G S M

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 11 did not manage the activities of the enterprise, Accused 9, together with Accused 1, 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

G SM

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15. Accused 3, 4, 6, 8, 11, 12, 13 and 15 proceeded to 4 Oribi road, Mandini where they cornered Mzameni Ntuli and Nkosinathi Mthembu and shot and killed them, thereafter placed a 9mm Parabellum pistol next to the body of each deceased person to accord with their version of self defence.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a

G SM

child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Magojela and Tembe. He started when he instructed the owner of the VIP protection that was providing security services to the KwaMaphumulo to remove their securities from their members. He must have placed the AK47 rifle next to the deceased and then called the owner of the VIP security whom he had earlier warned to remove the securities from members of the KwaMaphumulo Taxi Association, witness 29 and 30 to the scene to come and see what he did to their employee.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person

G SM

employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:-

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhanya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thatheyiphi Mdlalose

GSM

Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

G SM

7.1 Yes it is alleged that Accused 11 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was traced the accused and cornered them at 4 Oribi road, Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These includes the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, and cornering them at 4 Oribi road, Mandini.

7.2.3 Accused 11 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 11 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.8 Same as 7.6 above.

G SM

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 11 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- Murder of Nkosinathi Mthembu committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

on the basis of being managers that associated themselves with the conduct of the members of the enterprise, that knew or ought to have known of the operations of the members of the enterprise.

The other activities that Accused 11 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killings of Magojela Ndimande and Sibusiso Temebe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killing of Bongane Biyela and Khanyiseni Biyela
Counts 53 – 57 the killing of Thokozane Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killing of Jabulane Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killings of Mfanafuthi Zwane

G SM

Counts 102 – 103 the killing of Muzi Majola

8.2- 8.4 The extent of participation of Accused 11 in these activities have been outlined in the incidents:

Count 13 – 18 dealt with in incident 6
Counts 35 – 38 dealt with in incident 1
Counts 66 – 69 dealt with in incident 18
Counts 94 – 97 dealt with in incident 23
Counts 98 – 101 dealt with in incident 2

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

AD COUNT 18: DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 12: BONGANI ZONDI

1.1 It is the State's case that the firearms and ammunition, which was allegedly found at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting incident at number 4 Oribi road, Mandini on 18 September 2008 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:-

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt

G 5m

Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi" or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- Evidence of photos taken by witness 17, Insp Zondi and the respective locations of the rifles and cartridges found on the scene.

G sm

- Evidence of witness 30, Mr Steyl relating to his observations and conclusions about where the firearms and cartridges were depicted on the scene.

1.2.1 The date of the act is 18 September 2008.

1.2.2 The time of the act is around 16h30.

1.2.3 The place of the act is at number 4 Oribi road Mandini.

1.3 No, the State's case is not based on an omission in respect of Accused 12.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted

E5 m

them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would took part in this incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these 9mm Parabellum pistols and their ammunition were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at 4 Oribi road Mandini, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 13 to 18 the date is the 18 September 2008 at around 16h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi used consitently at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

G Jm

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

GSM

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the offences were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and

GSM

other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 12 did not manage the activities of the enterprise, Accused 9, together with Accused 1, 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the

 GSM

members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15. Accused 3, 4, 6, 8, 11, 12, 13 and 15 proceeded to 4 Oribi road, Mandini where they cornered Mzameni Ntuli and Nkosinathi Mthembu and shot and killed them, thereafter placed a 9mm Parabellum pistol next to the body of each deceased person to accord with their version of self defence.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

 G S M

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Magojela and Tembe. He started when he instructed the owner of the VIP protection that was providing security services to the KwaMaphumulo to remove their securities from their members. He must have placed the AK47 rifle next to the deceased and then called the owner of the VIP security whom he had earlier warned to remove the securities from members of the KwaMaphumulo Taxi Association, witness 29 and 30 to the scene to come and see what he did to their employee.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

 GSM

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:-

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert

GSM

Accused 6 Neville Eva
Accused 8 Phumelela Makhanya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

GSM

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 12 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was traced the accused and cornered them at 4 Oribi road, Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These includes the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, and cornering them at 4 Oribi road, Mandini.

7.2.3 Accused 12 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 12 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

GSM

7.9 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 12 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- Murder of Nkosinathi Mthembu committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

on the basis of being managers that associated themselves with the conduct of the members of the enterprise, that knew or ought to have known of the operations of the members of the enterprise.

The other activities that Accused 12 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu

8.2- 8.4 The extent of participation of Accused 12 in these activities have been outlined in the Incidents:

Count 13 – 18 dealt with in Incident 6

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in

particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7– 8.8 Yes same as 6.3 above.

AD COUNT 18: DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 13: THEMBINKOSI MKHWANAZI

1.1 It is the State's case that the firearms and ammunition, which was allegedly found at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting incident at number 4 Oribi road, Mandini on 18 September 2008 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:-

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli

GSM

with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayl' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

- the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- Evidence of photos taken by witness 17, Insp Zondi and the respective locations of the rifles and cartridges found on the scene.

- Evidence of witness 30, Mr Steyl relating to his observations and conclusions about where the firearms and cartridges were depicted on the scene.

1.2.1 The date of the act is 18 September 2008.

1.2.2 The time of the act is around 16h30.

1.2.3 The place of the act is at number 4 Oribi road Mandini.

1.3 No, the State's case is not based on an omission in respect of Accused 13.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

GSM

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

GSM

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would took part in this incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these 9mm Parabellum pistols and their ammunition were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at 4 Oribi road Mandini, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

GSM

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 13 to 18 the date is the 18 September 2008 at around 16h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi used consitently at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects

 G.S.M

without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1

Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 89 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the offences were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

GSM

5.1 No, Accused 13 did not manage the activities of the enterprise, Accused 9, together with Accused 1, 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

GJM

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15. Accused 3, 4, 6, 8, 11, 12, 13 and 15 proceeded to 4 Oribi road, Mandini where they cornered Mzameni Ntuli and Nkosinathi Mthembu and shot and killed them, thereafter placed a 9mm Parabellum pistol next to the body of each deceased person to accord with their version of self defence.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased,

G Ron

they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Magojela and Tembe. He started when he instructed the owner of the VIP protection that was providing security services to the KwaMaphumulo to remove their securities from their members. He must have placed the AK47 rifle next to the deceased and then called the owner of the VIP security whom he had earlier warned to remove the securities from members of the KwaMaphumulo Taxi Association, witness 29 and 30 to the scene to come and see what he did to their employee.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:-

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a

child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhanya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

G sm

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 13 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008 when the deceased was traced the accused and cornered them at 4 Oribi road, Mandini.

G&m

7.2.2 The association was by means of conduct that is destined to achieve the same results. These includes the tracing of Mzameni Ntuli and Nkosinathi Mthembu together, and cornering them at 4 Oribi road, Mandini.

7.2.3 Accused 13 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 13 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 13 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

GSM

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- Murder of Nkosinathi Mthembu committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

on the basis of being managers that associated themselves with the conduct of the members of the enterprise, that knew or ought to have known of the operations of the members of the enterprise.

The other activities that Accused 13 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killings of Magojela Ndimande and Sibusiso Temebe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killing of Bongane Biyela and Khanyiseni Biyela
Counts 53 – 57 the killing of Thokozane Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killing of Jabulane Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killings of Mfanafuthi Zwane
Counts 102 – 103 the killing of Muzi Majola

8.2- 8.4 The extent of participation of Accused 13 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Count 13 – 18 dealt with in Incident 6
Counts 35 – 38 dealt with in Incident 1
Counts 39 – 52 dealt with in Incident 9

G 5m

Counts 58 – 61 dealt with in Incident 14
Counts 80 – 93 dealt with in Incident 20 -22
Counts 70 – 79 dealt with in Incident 19
Counts 102 – 103 dealt with in Incident 3
Counts 113 – 116 dealt with in Incident 17

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS.

8.8 – 8.8 Yes same as 6.3 above.

AD COUNT 18: DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 15: ANTON LOCKEM

1.1 It is the State's case that the firearms and ammunition, which was allegedly found at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting incident at number 4 Oribi road, Mandini on 18 September 2008 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:-

- The deceased Mzameni Ntuli and Nkosinathi Mthembu were suspected of involvement in the killing of Supt Choncho on 27 August 2008 whilst travelling on the R74 road in a convoy, transporting acuused persons from Kranskop police station to KwaDukuza court.

- Both deceased were members of the KwaMaphumulo Taxi Association who were suspected to have hatched and funded the plan to kill Supt Choncho as he was allegedly victimising members of their taxi association.

GSM

- Inspector Mazibuko (Witness 33) arrived at the scene of Mzameni Ntuli and Nkosinathi Mthembu's shooting at 16h50 and only got to the scene or got inside the house at 17h10.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi" or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- Evidence of photos taken by witness 17, Insp Zondi and the respective locations of the rifles and cartridges found on the scene.

- Evidence of witness 30, Mr Steyl relating to his observations and conclusions about where the firearms and cartridges were depicted on the scene.

1.2.2 The date of the act is 18 September 2008.

GSM

1.2.2 The time of the act is around 16h30.

1.2.3 The place of the act is at number 4 Oribi road Mandini.

1.3 No, the State's case is not based on an omission in respect of Accused 11.

AD: PATTERN OF RACKETEERING ACTIVITY
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

GSM

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would took part in this incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 September 2008 when these 9mm Parabellum pistols and their ammunition were possessed by the members who took part in the tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu at 4 Oribi road Mandini, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 3 Adriaan Stoltz

G SM

Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhaya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 13 to 18 the date is the 18 September 2008 at around 16h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi used consitently at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

Gom

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the offences were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when Accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 Yes, Accused 15 did manage the activities of the enterprise, together with Accused 1, 6, and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Mandini before they set on tracking Mzameni Ntuli and Nkosinathi Mthembu. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

G-5m

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 3, 4, 6, 8, 10, 11, 12, 13 and 15. Accused 3, 4, 6, 8, 11, 12, 13 and 15 proceeded to 4 Oribi road, Mandini where they cornered Mzameni Ntuli and Nkosinathi Mthembu and shot and killed them, thereafter placed a 9mm Parabellum pistol next to the body of each deceased person to accord with their version of self defence.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a

Gom

child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

5.6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Mzameni Ntuli and Nkosinathi Mthembu.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:-

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi

GSM

road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 3 Adriaan Stoltz
Accused 4 Paul Mostert
Accused 6 Neville Eva
Accused 8 Phumelela Makhanya
Accused 10 Thembinkosi Mkhwanazi
Accused 11 Thathayiphi Mdlalose
Accused 12 Bongani Zondi
Accused 13 Rubendren Naidoo and
Accused 15 Anton Lockem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Mzameni Ntuli and Nkosinathi Mthembu.

GSM

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 15 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 September 2008

G sm

when the deceased was traced the accused and cornered them at 4 Oribi road, Mandini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These includes the tracing of Mzamani Ntuli and Nkosinathi Mthembu together, and cornering them at 4 Oribi road, Mandini.

7.2.3 Accused 15 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 15 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.10 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

Gsm

8.1 The affairs of the enterprise that Accused 15 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Mzameni Ntuli that was committed on 18 September 2008.
- Murder of Nkosinathi Mthembu committed on the same day.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

on the basis of being managers that associated themselves with the conduct of the members of the enterprise, that knew or ought to have known of the operations of the members of the enterprise.

The other activities that Accused 15 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killings of Magojela Ndimande and Sibusiso Temebe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killing of Bongane Biyela and Khanyiseni Biyela
Counts 53 – 57 the killing of Thokozane Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killing of Jabulane Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killings of Mfanafuthi Zwane
Counts 102 – 103 the killing of Muzi Majola

8.2- 8.4 The extent of participation of Accused 15 in these activities have been outlined in the Incidents:

Counts 8 – 12 dealt with in Incident 5

GSM

Count 13 – 18 dealt with in Incident 6
Counts 58 – 61 dealt with in Incident 14
Counts 80 – 93 dealt with in Incident 20 -22
Counts 98 – 101 dealt with in Incident 2

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

G.S.M

COMMON PURPOSE

AD INCIDENT ON THE 18 SEPTEMBER 2008: THE SHOOTING OF MZAMENI NTULI AND NKOSINATHI MTHEMBU: COUNTS 13 – 18

ACCUSED 3:ADRIAAN STOLTZ

ACCUSED 4: PAUL MOSTERT

ACCUSED 8: PHUMELELA MAKHANYA

ACCUSED 10: THEMBINKOSI MKHWANAZI

ACCUSED 11: THATHAYIPHI MDLALOSE

ACCUSED 12: BONGANI ZONDI

ACCUSED 13: RUBENDREN NAIDOO AND

ACCUSED 15 ANTON LOCKEM

It appears from the predominant facts at the State's disposal that a common pupose to commit the offences outlined can be inferred from the conduct of the members of the enterprise in the commission of the offences which form part of the pattern of racketeering acivity. The incident on the 18 September 2008 cannot be taken in isolation of other incidents or operations of the enterprise, it must be considered in the light of all the incidents as outlines in the table on Page 6 of this submission, Incident 1 on 24 May 2008 (the killing of Thabo Msimango) until Incident 23 on 23 September 2008 (the killing of Philangenkosi Gwala). One must also not loose sight of the regular briefings which the members of the enterprise get involved in prior to each and every operation where suspects are traced.

1. The accused who form part of the particular incident as outlined on the table Pages 6 to 23 formed a prior agreement in respect of that particular incident in which they were involved for instance in Count 13 – 18, it is the State's case that the following accused persons did form a common purpose to kill Mzameni Ntuli and Nkosinathi Mthembu:-

   Accused 3: Adriaan Stoltz
   Accused 4: Paul Mostert
   Accused 8: Phumelela Makhanya
   Accused 10: Thembinkosi Mkhwanazi
   Accused 11: Thathayiphi Mdlalose
   Accused 12 Bongani Zondi
   Accused 13 Rubendren Naidoo and
   Accused 15 Anton Lockem

G sm

1.1.1 The is not precisely certain about the time that the accused became party to the prior agreement to commit the offences on 18 September 2008, safe to state that when they left the Cato Manor offices and when they met again at a place in Mandini where Accused 4 gave them a briefing and when they set on to get to 4 Oribi road Mandini, a prior agreement to commit the offences that have been listed in Count 13-18 was formed by the accused persons.

1.1.2 Same as in paragraph 1.1 above

1.1.3 The terms of the agreement is a matter of evidence.

1.1.4 All the parties involved in the agreement and their roles can be repeated as follows:

- Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He entered the premises of 4 Oribi road, entered the house through the sliding door together with Accused 3 and 13, proceeded in the passage that leads to the bedrooms where Accused 4 spoke to a child in Zulu and told him to vacate the house for his safety, and went to the bedroom that the child pointed as the place where they were hiding.

- Accused 3 kicked the door to open it without success when Accused 4 stepped forward and kicked it open. Accused 3 and 13 entered the bedroom and saw that the doors of the cupboards were half closed. A male with an orange shirt came out and both Accused 3 and 13 fired shots at him. As they were focused on this deceased, they heard gunshots on their right as Accused 4 fired shots at the second suspect who also came out of the cupboards.

- Accused 6, 8, 10, 11, 12 and 15 took positions outside the house to prevent possible escapes from the house.

1.1.5 Same as 1.1.4 above

1.1.6 The date, time and place of the act are the same as in paragraph 1.1 above.

E SM

2. Yes it is alleged that the accused formed an act of association with one another.

2.1.1 Same as in paragraph 1.1.4 above.

2.1.2 Same as in paragraph 1.1.1 above.

2.1.3 Same as in paragraph 1.1.1 above.

2.1.4 Same as in paragraph 1.1.4 above.

2.1.5 Same as in paragraph 1.1.4 above.

3. The State relies on prior agreement in the main argument, in the alternative the State will argue that it can be inferred from the proven facts.

GSM

INCIDENT DATE: 4 SEPTEMBER 2011

DECEASED: QINISANI GWALA

ACCUSED 4: PAUL MOSTERT

ACCUSED 8: PHUMELELA MAKHANYA

ACCUSED 11: THATHAYIPHI MDLALOSE

ACCUSED 16: EUGENE VAN TONDER

ACCUSED 25: CHARLES JOHN SMITH

ACCUSED 26: JEREMY MARTEM

COUNTS 94 – 97

GSM

COUNT 94: MURDER
AD ACCUSED 4: PAUL MOSTERT
DECEASED: QINISANI GWALA

1.1 The State will rely on acts (and not ommisions) of the following witnesses to found a conviction on murder:

- viva voce evidence of witnesses who informed the police that the person that they tied withcable ties, was Qinisani Philangenkosi Gwala and not Philani Ndlovu who has an alias of "Bha" that they were looking for. The police were mistaken as to the identity of the deceased, which could have been cleared even by production of his ID book which was in his sling bag.

- Photos of the scene and the observations of Constable Masango who visited the scene and took photos of the scene on 3 September 2011 at 12h50.
- The reconstruction of the scene which was done by Captain Mangena as well as his conclusions and findings having looked at the scene and the post mortem findings conducted by Dr S J Ntsele.

1.2.1 3 September 2011
1.2.2 Around 11h30
1.2.3 Mabuyeni Reserve, Esikhawini.

1.3 The State does not rely on an omission.

1.4 Yes, it is the State's case that Accused 25 and Accused 26 fired shots at the deceased in circumstances when it was not justifiable in terms of section 49 (2) of Act 51 of 1977. Accused 4, 8, 11 and 16 provided Accused 25 and 26 with the necessary back-up and support and created an environment where Accused 25 and 26 could focus on the deceased.

1.5 Accused 25 fired two (2) shots in the direction of the deceased with an R5 Rifle; Accused 26 fired one (1) shot in the direction of the deceased with his (9 mm pistol.

GSm

1.6 Yes, the shots that were fired by both Accused 25 and Accused 26 struck the deceased.

1.7 The deceased was struck with three (3) bullets in the chest, in the skull and in the hand.

1.8 The bullet fired by Accused 26 with a 9mm pistol struck the deceased in the head; the bullets fired by Accused 25 with an R5 rifle struck the deceased in the chest and hand.

1.9 Yes, the bullets fired by both Accused 25 and Accused 26 caused the death of the deceased, Accused 26's bullets in the head could kill instantly; Accused 25's shots with the R5 in the chest was fatal as it shattered the right atrium and ventricle of the heart.

2 **AD PATTERN OF RACKETEERING ACTIVITY**

MURDER

2.1 Yes, it is the State case that the accused's conduct forms part of a pattern of racketeering activity as defined by Section 121 of 1998.

2.2.1 the precise date and time the accused formed the plan to commit the offence is unknown to the State, safe to state that immediately after Qinisani Gwala was taken from the Community Hall at Esikhaweni to his homestead on 3 September 2011, the Cato Mano police had already made up their minds to eliminate him.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whe the Cato Manor police took the deceased and placed him in the back of the van, they had already decided to take him to his residence to trump up a search and shoot him in that process.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of murder.

GSM

2.3 The persons who participated in the killing of the deceased are the following:-

2.3.1 Accused 4 came with information to his colleagues that a suspect in a murder and robbery of a police officer Nyoni CAS 158/08/2010, Philani Ndlovu (also known as "Bha") was hiding in the Esikhawini area, near Richardsbay.

Accused 4, 8, 11, 16, 25, and 26, accompanied by an informer, proceeded to a community hall at Mabuyeni reserve where the informer pointed a suspect. Accused 25 and Accused 26 placed the deceased under arrest and took himto the police vehicle after his hands were tied from the back with cable ties.

The police drove away with Qinisani Gwala only to return a few minutes thereafter, looking for his sling bag and a cell phone belonging to Qinisani, which Sandile Gwala handed over to them. They drove with Qinisani Gwala to his homestead, where they started searching the rooms. Sandile got to his homestead before the police arrived but before he could open the door, they confronted him at his door. He saw that the deseased was still handcuffed.

Accused 8, 25 and 26 searched the first room and as they were conducting a search in the second room, Accused 25 and 26 fired shots at the deceased, alledging that he was lunging forward for a gun when they shot at him. It is the State case that it is highly unlikely that one person who is cuffed at the back would attempt to grab a firearm in the presence of three (3) armed police officers, one of whom is srmed with an R5 rifle. The State will argue that the cable ties were not removed there was no need to do so, only the police were searching, not the suspect.

2.3.2 Same as 2.3.1 above

2.3.3 Same as 2.3.1 above

2.3.4 The date time and place is the same as 1.2 above.

3 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP WITH PRECDICATE OFFENCES

3.1 Yes, the accused's conduct is related to the offences depicted in the Indictment.

3.2 The following are the common feature that provides the nexus between the conduct of the accused and other offences in the Indictment:-

- The modus operandi that is prevalent in most of the offences in the Indictment of placing a firearm next to the deceased body to create an impression that the deceased was posing some form of danger to the accused to make their shooting justifiable in terms of section 49 (2) of Act 51 of 1977, is a common threat that connects the offences listed in the Indictment.

- All the suspects that are tracked, traced and later killed are suspected to have been suspects in the killing of a police officer. A striking common factor is that in most of these instances, there is not a shread of evidence that connects the suspects to the offences in the dockets concerned, put differently, if anyone were to place the Choncho or Inkosi Zondi dockets before a prosecutor for the consideration of a J50 warrant of arrest, it would not be authorised as there would be nothing linking the suspect to the offences in question.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA THE ENTERPRISE

4.1 The crime of Murder that the accused are alleged to have committed is related to the enterprise as defined in Section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of police officers in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association and any other suspect that they trace, who are suspected of involvement in ATM bombings, serious robberies and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi",

GSM

"spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism and attention, this why they were able to kill so many people without the law detecting their trick.

The members of the enterprise remain predominantly the same in most of the operations of the enterprise so that the objectives of the enterprise are achieved. The nucleus of the operation is maintained wherever possible, with members of the SVC section who have been working together for a while as they have developed an understanding of each other and what they all need to do in advancing the objectives of the enterprise.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

GSM

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

GSM

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5 **WHILST MANAGING THE ENTERPRISE**

5.1 No, Accused 4 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role.

5.2 Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in

G 5m

the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 26 and 26.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the arrest and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the

G J M

deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called the Cato Manor members to assemble and get them ready to travel to Esikhaweni to conduct a search for the suspect.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of murder whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

G SM

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder

G & M

Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 4 committed the crime of murder jointly with the other accused whist employed or associated with the enterprise.

G SM

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 4 September 2008 when the deceased was traced and found at Mabuyeni Community hall at Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Phillsani Ndlovu ("Bha") together at a hall at Mabuyeni Reserves at Esikhawini and ensuring that they are shot and killed. They were so determined to take Qinisani Gwala to an extent that even when he tells them that they have a wrong person and other community members confirm, even despite seeing his ID book, they still deatain him, take him to his homestead where they execute their initial plan to kill him.

7.2.3 The association of the Cato Manor group dares back to the time of the Serious Violent Crime Unit days when they worked closely to deal with serious crime. Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 4 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.2.5 It is nit clear when and where exactly the association started safe to say that in was in existence just prior and during the execution of the offences.

7.2.6 Same as 6.5.7 above.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes, each member of the group formed a common purpose to engage in the activities of the enterprise.

G SM

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 4 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- Capture and arrest of Qinisani Gwala at the Community hall even when he convincingly told them that he was not the person they were looking for, Philani Ndlovu "Bha", the community members supporting his version and showing them his own ID Book to confirm so.
- murder of Qinisani Gwala that was committed on 3 September 2011.
- the unlawful possession of firearms committed on the same day.
- the unlawful possession of ammunition committed on the same day.
- the defeating the ends of justice committed on the same day.

The other activities that Accused 4 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande

G SM

Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 4 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Qinisani Gwala. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

GSM

COUNT 94: MURDER
AD ACCUSED 8: PHUMELELA MAKHANYA
DECEASED: QINISANI GWALA

1.1 The State will rely on acts (and not ommisions) of the following witnesses to found a conviction on murder:

- viva voce evidence of witnesses who informed the police that the person that they tied withcable ties, was Qinisani Philangenkosi Gwala and not Philani Ndlovu who has an alias of "Bha" that they were looking for. The police were mistaken as to the identity of the deceased, which could have been cleared even by production of his ID book which was in his sling bag.

- Photos of the scene and the observations of Constable Masango who visited the scene and took photos of the scene on 3 September 2011 at 12h50.
- The reconstruction of the scene which was done by Captain Mangena as well as his conclusions and findings having looked at the scene and the post mortem findings conducted by Dr S J Ntsele.

1.2.1 September 2011
1.2.2 Around 11h30
1.2.3 Mabuyeni Reserve, Esikhawini.

1.3 The State does not rely on an omission.

1.4 Yes, it is the State's case that Accused 25 and Accused 26 fired shots at the deceased in circumstances when it was not justifiable in terms of section 49 (2) of Act 51 of 1977. Accused 4, 8, 11 and 16 provided Accused 25 and 26 with the necessary back-up and support and created an environment where Accused 25 and 26 could focus on the deceased.

1.5 Accused 25 fired two (2) shots in the direction of the deceased with an R5 Rifle; Accused 26 fired one (1) shot in the direction of the deceased with his (9 mm pistol.

G JM

1.6 Yes, the shots that were fired by both Accused 25 and Accused 26 struck the deceased.

1.7 The deceased was struck with three (3) bullets in the chest, in the skull and in the hand.

1.8 The bullet fired by Accused 26 with a 9mm pistol struck the deceased in the head; the bullets fired by Accused 25 with an R5 rifle struck the deceased in the chest and hand.

1.9 Yes, the bullets fired by both Accused 25 and Accused 26 caused the death of the deceased, Accused 26's bullets in the head could kill instantly; Accused 25's shots with the R5 in the chest was fatal as it shattered the right atrium and ventricle of the heart.

2 **AD PATTERN OF RACKETEERING ACTIVITY**

MURDER

2.1 Yes, it is the State case that the accused's conduct forms part of a pattern of racketeering activity as defined by Section 121 of 1998.

2.2.1 the precise date and time the accused formed the plan to commit the offence is unknown to the State, safe to state that immediately after Qinisani Gwala was taken from the Community Hall at Esikhaweni to his homestead on 3 September 2011, the Cato Mano police had already made up their minds to eliminate him.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whe the Cato Manor police took the deceased and placed him in the back of the van, they had already decided to take him to his residence to trump up a search and shoot him in that process.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of murder.

E SM

2.3 The persons who participated in the killing of the deceased are the following:-

2.3.1 Accused 4 came with information to his colleagues that a suspect in a murder and robbery of a police officer Nyoni CAS 158/08/2010, Philani Ndlovu (also known as "Bha") was hiding in the Esikhawini area, near Richardsbay.

Accused 4, 8, 11, 16, 25, and 26, accompanied by an informer, proceeded to a community hall at Mabuyeni reserve where the informer pointed a suspect. Accused 25 and Accused 26 placed the deceased under arrest and took himto the police vehicle after his hands were tied from the back with cable ties.

The police drove away with Qinisani Gwala only to return a few minutes thereafter, looking for his sling bag and a cell phone belonging to Qinisani, which Sandile Gwala handed over to them. They drove with Qinisani Gwala to his homestead, where they started searching the rooms. Sandile got to his homestead before the police arrived but before he could open the door, they confronted him at his door. He saw that the deseased was still handcuffed.

Accused 8, 25 and 26 searched the first room and as they were conducting a search in the second room, Accused 25 and 26 fired shots at the deceased, alledging that he was lunging forward for a gun when they shot at him. It is the State case that it is highly unlikely that one person who is cuffed at the back would attempt to grab a firearm in the presence of three (3) armed police officers, one of whom is armed with an R5 rifle. The State will argue that the cable ties were not removed there was no need to do so, only the police were searching, not the suspect.

2.3.2 Same as 2.3.1 above

2.3.3 Same as 2.3.1 above

2.3.4 The date time and place is the same as 1.2 above.

E SM

3 **PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP WITH PRECDICATE OFFENCES**

4.1 Yes, the accused's conduct is related to the offences depicted in the indictment.

4.2 The following are the common feature that provides the nexus between the conduct of the accused and other offences in the indictment:-

- The modus operandi that is prevalent in most of the offences in the indictment of placing a firearm next to the deceased body to create an impression that the deceased was posing some form of danger to the accused to make their shooting justifiable in terms of section 49 (2) of Act 51 of 1977, is a common threat that connects the offences listed in the indictment.

- All the suspects that are tracked, traced and later killed are suspected to have been suspects in the killing of a police officer. A striking common factor is that in most of these instances, there is not a shread of evidence that connects the suspects to the offences in the dockets concerned, put differently, if anyone were to place the Choncho or Inkosi Zondi dockets before a prosecutor for the consideration of a J50 warrant of arrest, it would not be authorised as there would be nothing linking the suspect to the offences in question.

5. **PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA THE ENTERPRISE**

5.1 The crime of Murder that the accused are alleged to have committed is related to the enterprise as defined in Section 1 of Act 121 of 1998.

5.2 Yes,

5.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of police officers in a manner that is acceptable in the eyes of the law and the community. It is for this

G S M

reason that the shootings of the members of KwaMaphumulo Taxi Association and any other suspect that they trace, who are suspected of involvement in ATM bombings, serious robberies and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism and attention, this why they were able to kill so many people without the law detecting their trick.

The members of the enterprise remain predominantly the same in most of the operations of the enterprise so that the objectives of the enterprise are achieved. The nucleus of the operation is maintained wherever possible, with members of the SVC section who have been working together for a while as they have developed an understanding of each other and what they all need to do in advancing the objectives of the enterprise.

5.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

5.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

5.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South

G sm

African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

5.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the

G SM

relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5 WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 8 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role.

5.2 Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from

G SM

his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 26 and 26.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the arrest and ultimate shooting of the deceased.

GJM

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called the Cato Manor members to assemble and get them ready to travel to Esikhaweni to conduct a search for the suspect.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

GSM

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of murder whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

G S M

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations

GSM

(DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 8 committed the crime of murder jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 4 September 2008 when the deceased was traced and found at Mabuyeni Community hall at Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philisani Ndlovu ("Bha") together at a hall at Mabuyeni Reserves at Esikhawini and ensuring that they are shot and killed. They were so determined to take Qinisani Gwala to an extent that even when he tells them that they have a wrong person and other community members confirm, even despite seeing his ID book, they still deatain him, take him to his homestead where they execute their initial plan to kill him.

7.2.3 The association of the Cato Manor group dares back to the time of the Serious Violent Crime Unit days when they worked closely to deal with serious crime. Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 8 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were

G S M

working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.2.5 It is not clear when and where exactly the association started safe to say that in was in existence just prior and during the execution of the offences.

7.2.6 Same as 6.5.7 above.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes, each member of the group formed a common purpose to engage in the activities of the enterprise.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 8 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- Capture and arrest of Qinisani Gwala at the Community hall even when he convincingly told them that he was not the person they were looking for, Philani Ndlovu "Bha", the community members supporting his version and showing them his own ID Book to confirm so.

GSM

- murder of Qinisani Gwala that was committed on 3 September 2011.
- the unlawful possession of firearms committed on the same day.
- the unlawful possession of ammunition committed on the same day.
- the defeating the ends of justice committed on the same day.

The other activities that Accused 8 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 8 in these activities have been outlined in the incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16

GSM

Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Qinisani Gwala. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Qinisani Gwala. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

COUNT 94: MURDER
AD ACCUSED 11: THATHAYIPHI MDLALOSE
DECEASED: QINISANI GWALA

1.1 The State will rely on acts (and not ommisions) of the following witnesses to found a conviction on murder:

- viva voce evidence of witnesses who informed the police that the person that they tied withcable ties, was Qinisani Philangenkosi Gwala and not Philani Ndlovu who has an alias of "Bha" that they were looking for. The police were mistaken as to the identity of the

G S M

deceased, which could have been cleared even by production of his ID book which was in his sling bag.

- Photos of the scene and the observations of Constable Masango who visited the scene and took photos of the scene on 3 September 2011 at 12h50.
- The reconstruction of the scene which was done by Captain Mangena as well as his conclusions and findings having looked at the scene and the post mortem findings conducted by Dr S J Ntsele.

1.2.1 September 2011

1.2.2 Around 11h30

1.2.3 Mabuyeni Reserve, Esikhawini.

1.3 The State does not rely on an omission.

1.4 Yes, it is the State's case that Accused 25 and Accused 26 fired shots at the deceased in circumstances when it was not justifiable in terms of section 49 (2) of Act 51 of 1977. Accused 4, 8, 11 and 16 provided Accused 25 and 26 with the necessary back-up and support and created an environment where Accused 25 and 26 could focus on the deceased.

1.5 Accused 25 fired two (2) shots in the direction of the deceased with an R5 Rifle; Accused 26 fired one (1) shot in the direction of the deceased with his (9 mm pistol.

1.6 Yes, the shots that were fired by both Accused 25 and Accused 26 struck the deceased.

1.7 The deceased was struck with three (3) bullets in the chest, in the skull and in the hand.

1.8 The bullet fired by Accused 26 with a 9mm pistol struck the deceased in the head; the bullets fired by Accused 25 with an R5 rifle struck the deceased in the chest and hand.

GSM

1.9 Yes, the bullets fired by both Accused 25 and Accused 26 caused the death of the deceased, Accused 26's bullets in the head could kill instantly; Accused 25's shots with the R5 in the chest was fatal as it shattered the right atrium and ventricle of the heart.

2 **AD PATTERN OF RACKETEERING ACTIVITY**
MURDER

2.1 Yes, it is the State case that the accused's conduct forms part of a pattern of racketeering activity as defined by Section 121 of 1998.

2.2.1 the precise date and time the accused formed the plan to commit the offence is unknown to the State, safe to state that immediately after Qinisani Gwala was taken from the Community Hall at Esikhaweni to his homestead on 3 September 2011, the Cato Mano police had already made up their minds to eliminate him.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whe the Cato Manor police took the deceased and placed him in the back of the van, they had already decided to take him to his residence to trump up a search and shoot him in that process.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of murder.

2.3 The persons who participated in the killing of the deceased are the following:-

2.3.1 Accused 4 came with information to his colleagues that a suspect in a murder and robbery of a police officer Nyoni CAS 158/08/2010, Philani Ndlovu (also known as "Bha") was hiding in the Esikhawini area, near Richardsbay.

Accused 4, 8, 11, 16, 25, and 26, accompanied by an informer, proceeded to a community hall at Mabuyeni reserve where the informer pointed a suspect. Accused 25 and Accused 26 placed the deceased under arrest and took

G 1m

himto the police vehicle after his hands were tied from the back with cable ties.

The police drove away with Qinisani Gwala only to return a few minutes thereafter, looking for his sling bag and a cell phone belonging to Qinisani, which Sandile Gwala handed over to them. They drove with Qinisani Gwala to his homestead, where they started searching the rooms. Sandile got to his homestead before the police arrived but before he could open the door, they confronted him at his door. He saw that the deseased was still handcuffed.

Accused 8, 25 and 26 searched the first room and as they were conducting a search in the second room, Accused 25 and 26 fired shots at the deceased, alledging that he was lunging forward for a gun when they shot at him. It is the State case that it is highly unlikely that one person who is cuffed at the back would attempt to grab a firearm in the presence of three (3) armed police officers, one of whom is srmed with an R5 rifle. The State will argue that the cable ties were not removed there was no need to do so, only the police were searching, not the suspect.

2.3.2 Same as 2.3.1 above

2.3.3 Same as 2.3.1 above

2.3.4 The date time and place is the same as 1.2 above.

3 **PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP WITH PRECDICATE OFFENCES**

3.1 Yes, the accused's conduct is related to the offences depicted in the indictment.

3.2 The following are the common feature that provides the nexus between the conduct of the accused and other offences in the indictment:-

- The modus operandi that is prevalent in most of the offences in the indictment of placing a firearm next to the deceased body to create an impression that the deceased was posing some form of danger to the accused to make their shooting justifiable in terms of section 49 (2) of Act

G SM

51 of 1977, is a common threat that connects the offences listed in the indictment.

- All the suspects that are tracked, traced and later killed are suspected to have been suspects in the killing of a police officer. A striking common factor is that in most of these instances, there is not a shread of evidence that connects the suspects to the offences in the dockets concerned, put differently, if anyone were to place the Choncho or Inkosi Zondi dockets before a prosecutor for the consideration of a J50 warrant of arrest, it would not be authorised as there would be nothing linking the suspect to the offences in question.

4 **PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA THE ENTERPRISE**

4.1 The crime of Murder that the accused are alleged to have committed is related to the enterprise as defined in Section 1 of Act 121 of 1998.

4.2 Yes,

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of police officers in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association and any other suspect that they trace, who are suspected of involvement in ATM bombings, serious robberies and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism and attention, this why they were able to kill so many people without the law detecting their trick.

The members of the enterprise remain predominantly the same in most of the operations of the enterprise so that the objectives of the enterprise are achieved. The nucleus of the operation is maintained

Gsm

wherever possible, with members of the SVC section who have been working together for a while as they have developed an understanding of each other and what they all need to do in advancing the objectives of the enterprise.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5

GSM

Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their

GSM

version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5 WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 11 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role.

5.2 Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabúyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

GSM

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 26 and 26.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the arrest and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community

GSM

Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called the Cato Manor members to assemble and get them ready to travel to Esikhaweni to conduct a search for the suspect.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of murder whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

G SM

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and

GSM

Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 11 committed the crime of murder jointly with the other accused whilst employed or associated with the enterprise.

GSM

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 4 September 2008 when the deceased was traced and found at Mabuyeni Community hall at Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philisani Ndlovu ("Bha") together at a hall at Mabuyeni Reserves at Esikhawini and ensuring that they are shot and killed. They were so determined to take Qinisani Gwala to an extent that even when he tells them that they have a wrong person and other community members confirm, even despite seeing his ID book, they still deatain him, take him to his homestead where they execute their initial plan to kill him.

7.2.3 The association of the Cato Manor group dares back to the time of the Serious Violent Crime Unit days when they worked closely to deal with serious crime. Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 11 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.2.5 It is not clear when and where exactly the association started safe to say that in was in existence just prior and during the execution of the offences.

7.2.6 Same as 6.5.7 above.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes, each member of the group formed a common purpose to engage in the activities of the enterprise.

7.5 Same as in 6.5 above.

GSM

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 11 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- Capture and arrest of Qinisani Gwala at the Community hall even when he convincingly told them that he was not the person they were looking for, Philani Ndlovu "Bha", the community members supporting his version and showing them his own ID Book to confirm so.
- murder of Qinisani Gwala that was committed on 3 September 2011.
- the unlawful possession of firearms committed on the same day.
- the unlawful possession of ammunition committed on the same day.
- the defeating the ends of justice committed on the same day.

The other activities that Accused 11 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango

GSM

Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 11 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Qinisani Gwala. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

GSM

COUNT 94: MURDER

AD ACCUSED 18: EUGENE VAN TONDER

DECEASED: QINISANI GWALA

1.1 The State will rely on acts (and not ommisions) of the following witnesses to found a conviction on murder:

- viva voce evidence of witnesses who informed the police that the person that they tied withcable ties, was Qinisani Philangenkosi Gwala and not Philani Ndlovu who has an alias of "Bha" that they were looking for. The police were mistaken as to the identity of the deceased, which could have been cleared even by production of his ID book which was in his sling bag.

- Photos of the scene and the observations of Constable Masango who visited the scene and took photos of the scene on 3 September 2011 at 12h50.
- The reconstruction of the scene which was done by Captain Mangena as well as his conclusions and findings having looked at the scene and the post mortem findings conducted by Dr S J Ntsele.

1.1.1 3 September 2011

1.1.2 Around 11h30

1.1.3 Mabuyeni Reserve, Esikhawini.

1.2 The State does not rely on an omission.

1.3 Yes, it is the State's case that Accused 25 and Accused 26 fired shots at the deceased in circumstances when it was not justifiable in terms of section 49 (2) of Act 51 of 1977. Accused 4, 8, 11 and 16 provided Accused 25 and 26 with the necessary back-up and support and created an environment where Accused 25 and 26 could focus on the deceased.

1.4 Accused 25 fired two (2) shots in the direction of the deceased with an R5 Rifle; Accused 26 fired one (1) shot in the direction of the deceased with his (9 mm pistol.

GSM

1.5 Yes, the shots that were fired by both Accused 25 and Accused 26 struck the deceased.

1.6 The deceased was struck with three (3) bullets in the chest, in the skull and in the hand.

1.7 The bullet fired by Accused 26 with a 9mm pistol struck the deceased in the head; the bullets fired by Accused 25 with an R5 rifle struck the deceased in the chest and hand.

1.8 Yes, the bullets fired by both Accused 25 and Accused 26 caused the death of the deceased, Accused 26's bullets in the head could kill instantly; Accused 25's shots with the R5 in the chest was fatal as it shattered the right atrium and ventricle of the heart.

2 **AD PATTERN OF RACKETEERING ACTIVITY**
MURDER

2.1 Yes, it is the State case that the accused's conduct forms part of a pattern of racketeering activity as defined by Section 121 of 1998.

2.1.1 the precise date and time the accused formed the plan to commit the offence is unknown to the State, safe to state that immediately after Qinisani Gwala was taken from the Community Hall at Esikhaweni to his homestead on 3 September 2011, the Cato Mano police had already made up their minds to eliminate him.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whe the Cato Manor police took the deceased and placed him in the back of the van, they had already decided to take him to his residence to trump up a search and shoot him in that process.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of murder.

2.2 The persons who participated in the killing of the deceased are the following:-

G SM

2.2.1 Accused 4 came with information to his colleagues that a suspect in a murder and robbery of a police officer Nyoni CAS 158/08/2010, Philani Ndlovu (also known as "Bha") was hiding in the Esikhawini area, near Richardsbay.

Accused 4, 8, 11, 16, 25, and 26, accompanied by an informer, proceeded to a community hall at Mabuyeni reserve where the informer pointed a suspect. Accused 25 and Accused 26 placed the deceased under arrest and took himto the police vehicle after his hands were tied from the back with cable ties.

The police drove away with Qinisani Gwala only to return a few minutes thereafter, looking for his sling bag and a cell phone belonging to Qinisani, which Sandile Gwala handed over to them. They drove with Qinisani Gwala to his homestead, where they started searching the rooms. Sandile got to his homestead before the police arrived but before he could open the door, they confronted him at his door. He saw that the deseased was still handcuffed.

Accused 8, 25 and 26 searched the first room and as they were conducting a search in the second room, Accused 25 and 26 fired shots at the deceased, alledging that he was lunging forward for a gun when they shot at him. It is the State case that it is highly unlikely that one person who is cuffed at the back would attempt to grab a firearm in the presence of three (3) armed police officers, one of whom is armed with an R5 rifle. The State will argue that the cable ties were not removed there was no need to do so, only the police were searching, not the suspect.

2.2.2 Same as 2.3.1 above

2.2.3 Same as 2.3.1 above

2.2.4 The date time and place is the same as 1.2 above.

3 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP WITH PRECDICATE OFFENCES

31. Yes, the accused's conduct is related to the offences depicted in the indictment.

G SM

3.1 The following are the common feature that provides the nexus between the conduct of the accused and other offences in the indictment:-

- The modus operandi that is prevalent in most of the offences in the indictment of placing a firearm next to the deceased body to create an impression that the deceased was posing some form of danger to the accused to make their shooting justifiable in terms of section 49 (2) of Act 51 of 1977, is a common threat that connects the offences listed in the indictment.

- All the suspects that are tracked, traced and later killed are suspected to have been suspects in the killing of a police officer. A striking common factor is that in most of these instances, there is not a shread of evidence that connects the suspects to the offences in the dockets concerned, put differently, if anyone were to place the Choncho or Inkosi Zondi dockets before a prosecutor for the consideration of a J50 warrant of arrest, it would not be authorised as there would be nothing linking the suspect to the offences in question.

4 **PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA THE ENTERPRISE**

4.1 The crime of Murder that the accused are alleged to have committed is related to the enterprise as defined in Section 1 of Act 121 of 1998.

4.2 Yes,

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of police officers in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association and any other suspect that they trace, who are suspected of involvement in ATM bombings, serious robberies and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed

GSM

next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism and attention, this why they were able to kill so many people without the law detecting their trick.

The members of the enterprise remain predominantly the same in most of the operations of the enterprise so that the objectives of the enterprise are achieved. The nucleus of the operation is maintained wherever possible, with members of the SVC section who have been working together for a while as they have developed an understanding of each other and what they all need to do in advancing the objectives of the enterprise.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they

GSM

are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the

GSM

scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5 WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 16 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role.

5.2 Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

GSM

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 26 and 26.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the arrest and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

GSM

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayl's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their livee in danger by taking it out.

5.6.2 Accused 4 managed the tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called the Cato Manor members to assemble and get them ready to travel to Esikhaweni to conduct a search for the suspect.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

GSM

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of murder whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

G JM

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

G SM

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 16 committed the crime of murder jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 4 September 2008 when the deceased was traced and found at Mabuyeni Community hall at Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philisani Ndlovu ("Bha") together at a hall at Mabuyeni Reserves at Esikhawini and ensuring that they are shot and killed. They were so determined to take Qinisani Gwala to an extent that even when he tells them that they have a wrong person and other community members confirm, even despite seeing his ID book, they still deatain him, take him to his homestead where they execute their initial plan to kill him.

7.2.3 The association of the Cato Manor group dares back to the time of the Serious Violent Crime Unit days when they worked closely to deal with serious crime. Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 16 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.2.5 It is not clear when and where exactly the association started safe to say that in was in existence just prior and during the execution of the offences.

7.2.6 Same as 6.5.7 above.

GSM

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes, each member of the group formed a common purpose to engage in the activities of the enterprise.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.9 Same as 7.6 above.

7.10 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 16 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- Capture and arrest of Qinisani Gwala at the Community hall even when he convincingly told them that he was not the person they were looking for, Philani Ndlovu "Bha", the community members supporting his version and showing them his own ID Book to confirm so.
- murder of Qinisani Gwala that was committed on 3 September 2011.
- the unlawful possession of firearms committed on the same day.
- the unlawful possession of ammunition committed on the same day.
- the defeating the ends of justice committed on the same day.

G SM

The other activities that Accused 16 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 16 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

GSM

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Qinisani Gwala. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

COUNT 94: MURDER
AD ACCUSED 25: CHARLES JOHN SMITH
DECEASED: QINISANI GWALA

1.1 The State will rely on acts (and not ommisions) of the following witnesses to found a conviction on murder:

- viva voce evidence of witnesses who informed the police that the person that they tied withcable ties, was Qinisani Philangenkosi Gwala and not Philani Ndlovu who has an alias of "Bha" that they were looking for. The police were mistaken as to the identity of the deceased, which could have been cleared even by production of his ID book which was in his sling bag.

- Photos of the scene and the observations of Constable Masango who visited the scene and took photos of the scene on 3 September 2011 at 12h50.
- The reconstruction of the scene which was done by Captain Mangena as well as his conclusions and findings having looked at the scene and the post mortem findings conducted by Dr S J Ntsele.

1.1.1 3 September 2011
1.1.2 Around 11h30
1.1.3 Mabuyeni Reserve, Esikhawini.

1.2 The State does not rely on an omission.

G SM

1.3 Yes, it is the State's case that Accused 25 and Accused 26 fired shots at the deceased in circumstances when it was not justifiable in terms of section 49 (2) of Act 51 of 1977. Accused 4, 8, 11 and 16 provided Accused 25 and 26 with the necessary back-up and support and created an environment where Accused 25 and 26 could focus on the deceased.

1.4 Accused 25 fired two (2) shots in the direction of the deceased with an R5 Rifle; Accused 26 fired one (1) shot in the direction of the deceased with his (9 mm pistol.

1.5 Yes, the shots that were fired by both Accused 25 and Accused 26 struck the deceased.

1.6 The deceased was struck with three (3) bullets in the chest, in the skull and in the hand.

1.7 The bullet fired by Accused 26 with a 9mm pistol struck the deceased in the head; the bullets fired by Accused 25 with an R5 rifle struck the deceased in the chest and hand.

1.8 Yes, the bullets fired by both Accused 25 and Accused 26 caused the death of the deceased, Accused 26's bullets in the head could kill instantly; Accused 25's shots with the R5 in the chest was fatal as it shattered the right atrium and ventricle of the heart.

2 **AD PATTERN OF RACKETEERING ACTIVITY**
MURDER

2.1 Yes, it is the State case that the accused's conduct forms part of a pattern of racketeering activity as defined by Section 121 of 1998.

2.1.1 the precise date and time the accused formed the plan to commit the offence is unknown to the State, safe to state that immediately after Qinisani Gwala was taken from the Community Hall at Esikhaweni to his homestead on 3 September 2011, the Cato Mano police had already made up their minds to eliminate him.

2.2.2 the place where the plan was hatched is unknown to the State.

GSM

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whe the Cato Manor police took the deceased and placed him in the back of the van, they had already decided to take him to his residence to trump up a search and shoot him in that process.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of murder.

2.2 The persons who participated in the killing of the deceased are the following:-

2.2.1 Accused 4 came with information to his colleagues that a suspect in a murder and robbery of a police officer Nyoni CAS 158/08/2010, Philani Ndlovu (also known as "Bha") was hiding in the Esikhawini area, near Richardsbay.

Accused 4, 8, 11, 16, 25, and 26, accompanied by an informer, proceeded to a community hall at Mabuyeni reserve where the informer pointed a suspect. Accused 25 and Accused 26 placed the deceased under arrest and took himto the police vehicle after his hands were tied from the back with cable ties.

The police drove away with Qinisani Gwala only to return a few minutes thereafter, looking for his sling bag and a cell phone belonging to Qinisani, which Sandile Gwala handed over to them. They drove with Qinisani Gwala to his homestead, where they started searching the rooms. Sandile got to his homestead before the police arrived but before he could open the door, they confronted him at his door. He saw that the deseased was still handcuffed.

Accused 8, 25 and 26 searched the first room and as they were conducting a search in the second room, Accused 25 and 26 fired shots at the deceased, alledging that he was lunging forward for a gun when they shot at him. It is the State case that it is highly unlikely that one person who is cuffed at the back would attempt to grab a firearm in the presence of three (3) armed police officers, one of whom is armed with an R5 rifle. The State will argue that the cable ties were not removed there was no need to do so, only the police were searching, not the suspect.

G SM

2.2.2 Same as 2.3.1 above

2.2.3 Same as 2.3.1 above

2.2.4 The date time and place is the same as 1.2 above.

3 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP WITH PRECDICATE OFFENCES

3.1 Yes, the accused's conduct is related to the offences depicted in the indictment.

3.2 The following are the common feature that provides the nexus between the conduct of the accused and other offences in the indictment:-

- The modus operandi that is prevalent in most of the offences in the indictment of placing a firearm next to the deceased body to create an impression that the deceased was posing some form of danger to the accused to make their shooting justifiable in terms of section 49 (2) of Act 51 of 1977, is a common threat that connects the offences listed in the indictment.

- All the suspects that are tracked, traced and later killed are suspected to have been suspects in the killing of a police officer. A striking common factor is that in most of these instances, there is not a shread of evidence that connects the suspects to the offences in the dockets concerned, put differently, if anyone were to place the Choncho or Inkosi Zondi dockets before a prosecutor for the consideration of a J50 warrant of arrest, it would not be authorised as there would be nothing linking the suspect to the offences in question.

4 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA THE ENTERPRISE

4.1 The crime of Murder that the accused are alleged to have committed is related to the enterprise as defined in Section 1 of Act 121 of 1998.

G S M

4.2 Yes,

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of police officers in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association and any other suspect that they trace, who are suspected of involvement in ATM bombings, serious robberies and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism and attention, this why they were able to kill so many people without the law detecting their trick.

The members of the enterprise remain predominantly the same in most of the operations of the enterprise so that the objectives of the enterprise are achieved. The nucleus of the operation is maintained wherever possible, with members of the SVC section who have been working together for a while as they have developed an understanding of each other and what they all need to do in advancing the objectives of the enterprise.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

GJM

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing

G S M

requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5 WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 25 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role.

5.2 Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 26 and 26.

GSM

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the arrest and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called the Cato Manor members to assemble and get them ready to travel to Esikhaweni to conduct a search for the suspect.

GSM

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of murder whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

G SM

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23,

G SM

which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 25 committed the crime of murder jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 4 September 2008 when the deceased was traced and found at Mabuyeni Community hall at Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Phillsani Ndlovu ("Bha") together at a hall at Mabuyeni Reserves at Esikhawini and ensuring that they are shot and killed. They were so determined to take Qinisani Gwala to an extent that even when he tells them that they have a wrong person and other community members confirm, even despite seeing his ID book, they still deatain him, take him to his homestead where they execute their initial plan to kill him.

7.2.3 The association of the Cato Manor group dares back to the time of the Serious Violent Crime Unit days when they worked closely to deal with serious crime. Accused 4 associated himself with the enterprise when he

GSM

performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 25 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.2.5 It is not clear when and where exactly the association started safe to say that in was in existence just prior and during the execution of the offences.

7.2.6 Same as 6.5.7 above.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes, each member of the group formed a common purpose to engage in the activities of the enterprise.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

G SM

8.1 The affairs of the enterprise that Accused 25 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- Capture and arrest of Qinisani Gwala at the Community hall even when he convincingly told them that he was not the person they were looking for, Philani Ndlovu "Bha", the community members supporting his version and showing them his own ID Book to confirm so.
- murder of Qinisani Gwala that was committed on 3 September 2011.
- the unlawful possession of firearms committed on the same day.
- the unlawful possession of ammunition committed on the same day.
- the defeating the ends of justice committed on the same day.

The other activities that Accused 25 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 25 in these activities have been outlined in the incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5

G SM

Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Qinisani Gwala. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

COUNT 94: MURDER
AD ACCUSED 25: JEREMY MARTEM
DECEASED: QINISANI GWALA

1.1 The State will rely on acts (and not ommisions) of the following witnesses to found a conviction on murder:

- viva voce evidence of witnesses who informed the police that the person that they tied withcable ties, was Qinisani Philangenkosi Gwala and not Philani Ndlovu who has an alias of "Bha" that they were looking for. The police were mistaken as to the identity of the deceased, which could have been cleared even by production of his ID book which was in his sling bag.

G SM

- Photos of the scene and the observations of Constable Masango who visited the scene and took photos of the scene on 3 September 2011 at 12h50.
- The reconstruction of the scene which was done by Captain Mangena as well as his conclusions and findings having looked at the scene and the post mortem findings conducted by Dr S J Ntsele.

1.2.1 3 September 2011

1.2.2 Around 11h30

1.2.3 Mabuyeni Reserve, Esikhawini.

1.1 The State does not rely on an omission.

1.2 Yes, it is the State's case that Accused 25 and Accused 26 fired shots at the deceased in circumstances when it was not justifiable in terms of section 49 (2) of Act 51 of 1977. Accused 4, 8, 11 and 16 provided Accused 25 and 26 with the necessary back-up and support and created an environment where Accused 25 and 26 could focus on the deceased.

1.3 Accused 25 fired two (2) shots in the direction of the deceased with an R5 Rifle; Accused 26 fired one (1) shot in the direction of the deceased with his (9 mm pistol.

1.4 Yes, the shots that were fired by both Accused 25 and Accused 26 struck the deceased.

1.5 The deceased was struck with three (3) bullets in the chest, in the skull and in the hand.

1.6 The bullet fired by Accused 26 with a 9mm pistol struck the deceased in the head; the bullets fired by Accused 25 with an R5 rifle struck the deceased in the chest and hand.

1.7 Yes, the bullets fired by both Accused 25 and Accused 26 caused the death of the deceased, Accused 26's bullets in the head could kill instantly; Accused 25's shots with the R5 in the chest was fatal as it shattered the right atrium and ventricle of the heart.

G S M

2 **AD PATTERN OF RACKETEERING ACTIVITY**

MURDER

2.1 Yes, it is the State case that the accused's conduct forms part of a pattern of racketeering activity as defined by Section 121 of 1998.

2.1.1 the precise date and time the accused formed the plan to commit the offence is unknown to the State, safe to state that immediately after Qinisani Gwala was taken from the Community Hall at Esikhaweni to his homestead on 3 September 2011, the Cato Mano police had already made up their minds to eliminate him.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whe the Cato Manor police took the deceased and placed him in the back of the van, they had already decided to take him to his residence to trump up a search and shoot him in that process.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of murder.

2.2 The persons who participated in the killing of the deceased are the following:-

2.2.1 Accused 4 came with information to his colleagues that a suspect in a murder and robbery of a police officer Nyoni CAS 158/08/2010, Philani Ndlovu (also known as "Bha") was hiding in the Esikhawini area, near Richardsbay.

Accused 4, 8, 11, 16, 25, and 26, accompanied by an informer, proceeded to a community hall at Mabuyeni reserve where the informer pointed a suspect. Accused 25 and Accused 26 placed the deceased under arrest and took himto the police vehicle after his hands were tied from the back with cable ties.

The police drove away with Qinisani Gwala only to return a few minutes thereafter, looking for his sling bag and a cell phone belonging to Qinisani, which Sandile Gwala handed over to them. They drove with Qinisani Gwala to his homestead, where they started searching the rooms. Sandile got to his

G 5m

homestead before the police arrived but before he could open the door, they confronted him at his door. He saw that the deseased was still handcuffed.

Accused 8, 25 and 26 searched the first room and as they were conducting a search in the second room, Accused 25 and 26 fired shots at the deceased, alledging that he was lunging forward for a gun when they shot at him. It is the State case that it is highly unlikely that one person who is cuffed at the back would attempt to grab a firearm in the presence of three (3) armed police officers, one of whom is armed with an R5 rifle. The State will argue that the cable ties were not removed there was no need to do so, only the police were searching, not the suspect.

2.2.2 Same as 2.3.1 above

2.2.3 Same as 2.3.1 above

2.2.4 The date time and place is the same as 1.2 above.

3 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP WITH PRECDICATE OFFENCES

3.1 Yes, the accused's conduct is related to the offences depicted in the indictment.

3.2 The following are the common feature that provides the nexus between the conduct of the accused and other offences in the indictment:-

- The modus operandi that is prevalent in most of the offences in the indictment of placing a firearm next to the deceased body to create an impression that the deceased was posing some form of danger to the accused to make their shooting justifiable in terms of section 49 (2) of Act 51 of 1977, is a common threat that connects the offences listed in the indictment.

- All the suspects that are tracked, traced and later killed are suspected to have been suspects in the killing of a police officer. A striking common factor is that in most of these instances, there is not a shread of evidence that connects the suspects to the offences in the dockets concerned, put

GM

differently, if anyone were to place the Choncho or Inkosi Zondi dockets before a prosecutor for the consideration of a J50 warrant of arrest, it would not be authorised as there would be nothing linking the suspect to the offences in question.

4 **PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA THE ENTERPRISE**

4.1 The crime of Murder that the accused are alleged to have committed is related to the enterprise as defined in Section 1 of Act 121 of 1998.

4.2 Yes,

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of police officers in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association and any other suspect that they trace, who are suspected of involvement in ATM bombings, serious robberies and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism and attention, this why they were able to kill so many people without the law detecting their trick.

The members of the enterprise remain predominantly the same in most of the operations of the enterprise so that the objectives of the enterprise are achieved. The nucleus of the operation is maintained wherever possible, with members of the SVC section who have been working together for a while as they have developed an understanding of each other and what they all need to do in advancing the objectives of the enterprise.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation.

G SM

The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, It is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16

G SM

Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5 WHILST MANAGING THE ENTERPRISE

G SM

5.1 No, Accused 26 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role.

5.2 Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the

G SM

Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 26 and 26.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the arrest and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in

G SM

the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called the Cato Manor members to assemble and get them ready to travel to Esikhaweni to conduct a search for the suspect.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of murder whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

GSM

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

GSM

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 26 committed the crime of murder jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 4 September 2008 when the deceased was traced and found at Mabuyeni Community hall at Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philisani Ndlovu ("Bha") together at

GSM

a hall at Mabuyeni Reserves at Esikhawini and ensuring that they are shot and killed. They were so determined to take Qinisani Gwala to an extent that even when he tells them that they have a wrong person and other community members confirm, even despite seeing his ID book, they still deatain him, take him to his homestead where they execute their initial plan to kill him.

7.2.3 The association of the Cato Manor group dares back to the time of the Serious Violent Crime Unit days when they worked closely to deal with serious crime. Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 26 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.2.5 It is not clear when and where exactly the association started safe to say that in was in existence just prior and during the execution of the offences.

7.2.6 Same as 6.5.7 above.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes, each member of the group formed a common purpose to engage in the activities of the enterprise.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

G 5m

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 26 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- Capture and arrest of Qinisani Gwala at the Community hall even when he convincingly told them that he was not the person they were looking for, Philani Ndlovu "Bha", the community members supporting his version and showing them his own ID Book to confirm so.
- murder of Qinisani Gwala that was committed on 3 September 2011.
- the unlawful possession of firearms committed on the same day.
- the unlawful possession of ammunition committed on the same day.
- the defeating the ends of justice committed on the same day.

The other activities that Accused 26 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndlmande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and

Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 26 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Qinisani Gwala. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

COUNTS 95 – 96
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 8: PHUMELELA MAKHANYA

Although the accused separated Count 95 and 96 in their request, the State deals with all the Counts 95 to 96 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms

G5m

concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- .38 Special Calibre Rossi Revolver with serial number obliterated,

- Five (5) .38 Special Calibre unmarked cartridges

which were allegedly found at the scene of Qinisani Gwala's shooting incident at Mabuyeni Reserves, Esikhawini on 3 September 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

G S M

- the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

- the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is on the the Mabuyeni Reserves, Esikhawini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a .38 Special Calibre Rossi Revolver with serial number obliterated and
- five (5) .38 Special Calibre unmarked cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY

UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

GSM

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this special revolver and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Qinisani Gwala at Mabuyeni Reserves,Esikhawini, the Cato Manor members who were present are the following:-

Accused 4 Paul Mostert
Accused 6 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid

G SM

itself, being 3 September 2011. In Counts 95 and 96, the date is the 3 September 2011 at around 11h30.

3. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 it is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

G SM

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12

G SM

Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

GS m

5.1 No, Accused 8 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Esikhawini before they set on tracking Philani Ndlovu at Mabuyeni Reserves. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26.

GSM

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6 SM

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

GSM

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

GSM

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 4 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was tracked and arrested Mabuyeni Reserves Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Qinisani Gwala at Mabuyeni Reserves Esikhawini.

G SM

7.2.3 Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 4 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 8 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

G SM

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 8 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Blyela and Bongani Blyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 8 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18

EG SM

Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.8 – 8.8 Yes same as 6.3 above.

COUNTS 95 – 96
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 11: THATHAYIPHI MDLALOSE

Although the accused separated Count 95 and 96 in their request, the State deals with all the Counts 95 to 96 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- .38 Special Calibre Rossi Revolver with serial number obliterated,
- Five (5) .38 Special Calibre unmarked cartridges

which were allegedly found at the scene of Qinisani Gwala's shooting incident at Mabuyeni Reserves, Esikhawini on 3 September 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact

GSM

evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

GSM

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is on the the Mabuyeni Reserves, Esikhawini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a .38 Special Calibre Rossi Revolver with serial number obliterated and
- five (5) .38 Special Calibre unmarked cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, It is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the

GSM

murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

G SM

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this special revolver and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Qinisani Gwala at Mabuyeni Reserves,Esikhawini, the Cato Manor members who were present are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 3 September 2011. In Counts 95 and 96, the date is the 3 September 2011 at around 11h30.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the

G SM

deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

G SM

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011

G SM

with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 11 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Esikhawini before they set on tracking Philani Ndlovu at Mabuyeni Reserves. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources

G SM

without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Qinisani Gwala.

5.4.1 It is not clear when the common purpose was formed.

5.4.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.4.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

G SM

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

G SM

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

G SM

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor

G SM

functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 11 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was tracked and arrested Mabuyeni Reserves Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Qinisani Gwala at Mabuyeni Reserves Esikhawini.

7.2.3 Accused 11 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 11 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

G SM

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.8 Same as 7.6 above.

7.8 Same as 7.6 above
7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 11 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 11 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande

G S M

Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 11 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

5.5 – 8.8 Yes same as 6.3 above.

G S M

COUNTS 95 – 96
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 16: ANTON LOCKEM

Although the accused separated Count 95 and 96 in their request, the State deals with all the Counts 95 to 96 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- .38 Special Calibre Rossi Revolver with serial number obliterated,
- Five (5) .38 Special Calibre unmarked cartridges

which were allegedly found at the scene of Qinisani Gwala's shooting incident at Mabuyeni Reserves, Esikhawini on 3 September 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his protest and proof by means of showing his ID book, the police arrested him.
- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.
- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

G SM

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is on the the Mabuyeni Reserves, Esikhawini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a .38 Special Calibre Rossi Revolver with serial number obliterated and

G SM

- five (5) .38 Special Calibre unmarked cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they

G SM

bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this special revolver and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Qinisani Gwala at Mabuyeni Reserves,Esikhawini, the Cato Manor members who were present are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder

G S M

Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 3 September 2011. In Counts 95 and 96, the date is the 3 September 2011 at around 11h30.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who

G S M

are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

G.S.M

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

G.S.M

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 16 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Esikhawini before they set on tracking Philani Ndlovu at Mabuyeni Reserves. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the

G5m

Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26

GS M

fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

G S M

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

GSM

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 16 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

G5m

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was tracked and arrested Mabuyeni Reserves Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Qinisani Gwala at Mabuyeni Reserves Esikhawini.

7.2.3 Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 4 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.9 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

GSM

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 16 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 16 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 16 in these activities have been outlined in the incidents:

Counts 3 – 7 dealt with in Incident 4

G 5m

Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.9 – 8.8 Yes same as 6.3 above.

COUNTS 95 – 96
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 25: PAUL MOSTERT

Although the accused separated Count 95 and 96 in their request, the State deals with all the Counts 95 to 96 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

GSM

- .38 Special Calibre Rossi Revolver with serial number obliterated,

- Five (5) .38 Special Calibre unmarked cartridges

which were allegedly found at the scene of Qinisani Gwala's shooting incident at Mabuyeni Reserves, Esikhawini on 3 September 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

GJM

- the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is on the the Mabuyeni Reserves, Esikhawini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a .38 Special Calibre Rossi Revolver with serial number obliterated and

- five (5) .38 Special Calibre unmarked cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977,

GSM

when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

GJM

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this special revolver and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Qinisani Gwala at Mabuyeni Reserves,Esikhawini, the Cato Manor members who were present are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 3 September 2011. In Counts 95 and 96, the date is the 3 September 2011 at around 11h30.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

GSM

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

GSM

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23

GSM

Counts 98 – 101 dealt with in incident 2 and
Counts 102 – 103 dealt with in incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 25 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from

G.Sm

his informer and then shared it in the briefing with other members at Esikhawini before they set on tracking Philani Ndlovu at Mabuyeni Reserves. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Qinisani Gwala.

5.5.10 It is not clear when the common purpose was formed.

GSM

5.5.11 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.12 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations

GSM

(DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in

GSM

the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

GSM

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 25 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was tracked and arrested Mabuyeni Reserves Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Qinisani Gwala at Mabuyeni Reserves Esikhawini.

7.2.3 Accused 25 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

GSM

7.2.4 Accused 25 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.10 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 25 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

G sm

The other activities that Accused 25 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndlmande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 25 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

COUNTS 95 – 96
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 26: JEREMY MARTEM

Although the accused separated Count 95 and 96 in their request, the State deals with all the Counts 95 to 96 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- .38 Special Calibre Rossi Revolver with serial number obliterated,
- Five (5) .38 Special Calibre unmarked cartridges

which were allegedly found at the scene of Qinisani Gwala's shooting incident at Mabuyeni Reserves, Esikhawini on 3 September 2011 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as

G S M

Philani Ndlovu and despite his protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdlull where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

GSM

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is on the the Mabuyeni Reserves, Esikhawini.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a .38 Special Calibre Rossi Revolver with serial number obliterated and
- five (5) .38 Special Calibre unmarked cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, It is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the

GSM

State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

GSM

2.3.1 on the 3 September 2011 when this special revolver and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Qinisani Gwala at Mabuyeni Reserves,Esikhawini, the Cato Manor members who were present are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself, being 3 September 2011. In Counts 95 and 96, the date is the 3 September 2011 at around 11h30.

3. **PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA PREDICATE OFFENCES**

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

G SM

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

G S M

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

G SM

4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 25 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 13 to 18, Accused 4 had more information from his informer and then shared it in the briefing with other members at Esikhawini before they set on tracking Philani Ndlovu at Mabuyeni Reserves. Accused 4 and others made sure that the "mbombayi's" are taken with for the operation.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

G SM

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

G SM

The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

G S M

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 Accused 4 managed the tracking, tracing and ultimate shooting of the deceased Qinisani Gwala. He started when he called in the members of Cato Manor to assist in the operation at Esikhawini.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

G sm

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

G SM

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 4 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was tracked and arrested Mabuyeni Reserves Esikhawini.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Qinisani Gwala at Mabuyeni Reserves Esikhawini.

7.2.3 Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 4 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

G SM

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

5.6 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 25 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 25 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo

G J M

Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2- 8.4 The extent of participation of Accused 25 in these activities have been outlined in the Incidents:

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.10 – 8.8 Yes same as 6.3 above.

GJM

AD COUNT 97:
ACCUSED 4: PAUL MOSTERT
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

1.1 It is the State's case that the .38 Special Calibre Rossi Revolver with serial number obliterated and the five (5) .38 SpecialCalibre unmarkedcartridges, which was allegedly found at the scene of Qinisani Gwala's shooting incident at house 50870 Mabuyeni Reserves, Esikhawini on 3 September 2011 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, and position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police

G S M

members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

- the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.
- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- The principle of joint possession by one person on behalf of others.
- Evidence of photos taken by Cinstable Joel Sabelo Masango and the position of the .38 Special Revolver and cartridges found on the scene.
- Evidence of witness 189, Captain Mangena relating to his observations and conclusions about where the .38 Special Revolver and cartridges were depicted on the scene.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is at house 50870 Mabuyeni Reserves, Esikhawini.

1.3 No, the State's case is not based on an omission in respect of Accused 4.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

G S M

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

G Sm

- the firearms and ammunition would be brought with to all their suspect raids.
- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.
- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this .38 Special Calbre Rossi Revolver and its ammunition were possessed by the members who took part in the tracking arresting and shooting of Qinisani Gwala, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles.

G SM

The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 95 - 97 the date is the 3 September 2011 at around 11h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho or any police officer in a manner that is acceptable in the eyes of the law and the community without deeper scrutiny. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating

G SM

suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, It is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15

G SM

Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Qinisani Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue, get repeated and are planned over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences and their connection is a guiding factor. In this instance, various shootings take place over a period of time.

4.9 – 4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents), the duty officer and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the

G S m

scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 4 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 94 to 97, Accused 4 had more information from his informer and then shared it in the briefing with other members at Nandi Drive petrol station in Newlands before they set on tracking Philani Ndlovu also known as "Bha" at Esikhawini. The Cato Manor members were accompanied by their informer to Mabuyeni Community hall, where the informer pointed Qinisani Gwala. Who was then placed under arreset by Accused 25 and 26.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the whereabouts of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

G SM

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier, Accused 9 as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26. Accused 4, 5, 8, 15 and 16 drove to Mabuyeni hall at Esikhawini where qinisani Gwala was pointed by their informer and Accused 25 and 26 placed hom ubder arrest in the presence and supported by the rest of the crew.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracing, arrest and ultimate shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community

G SM

Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

Despite being convinced that they arrested a wrong person, the deceased was taken to his home at 50870 Mabuyeni Reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He assembled the members and briefed them before they travelled to collect his informer and ultimately proceeded to Mabuyeni, Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

G. J M

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mbuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 the identity of the members of the enterprise who were involved in this count have been outlined in paragraph 5.3 above. Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He started when he assembled the team and briefed them before they set for Esikhawini to trace Philani Ndlovu.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya

G SM

Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracing, arrest and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

G SM

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 4 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was traced at Mabuyeni hall and taken to his home for a search whilst they knew that they had a wrong suspect, having verified through his identity book.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philani Ndlovu together, when he is found, taking him to his home for a search and ultimately shooting him.

7.2.3 Accused 4 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 4 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal

G S M

entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 - 7.9 Same as 7.6 above

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 4 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:-

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day

The other activities that Accused 4 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and

G S m

Counts 102 – 103 the killing of Sanele Majola

8.2 - 8.4 The extent of participation of Accused 4 in these activities have been outlined in the Incidents:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police.In particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS. It is accepted that there was also a payment after the killing of Qinisani Gwala.

8.7 – 8.8 Yes same as 6.3 above.

AD COUNT 97:
ACCUSED 8: PHUMELELA MAKHANYA
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

1.1 It is the State's case that the .38 Special Calibre Rossi Revolver with serial number oblitrrated and the five (5) .38 SpecialCalibre unmarkedcartridges, which

c > m

was allegedly found at the scene of Qinisani Gwala's shooting incident at house 50870 Mabuyeni Reserves, Esikhawini on 3 September 2011 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his (Gwala's) protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, and position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212

found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- The principle of joint possession by one person on behalf of others.
- Evidence of photos taken by Cinstable Joel Sabelo Masango and the position of the .38 Special Revolver and cartridges found on the scene.
- Evidence of witness 189, Captain Mangena relating to his observations and conclusions about where the .38 Special Revolver and cartridges were depicted on the scene of Qinisani Gwala's death at Mabuyeni Reserves.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is at house 50870 Mabuyeni Reserves, Esikhawini.

1.3 No, the State's case is not based on an omission in respect of Accused 8.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting

G JM

of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayl" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.
- Immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is

G S M

doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this .38 Special Calbre Rossi Revolver and its ammunition were possessed by the members who took part in the tracking arresting and shooting of Qinisani Gwala, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 95 - 97 the date is the 3 September 2011 at around 11h30.

G SM

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho or any police officer in a manner that is acceptable in the eyes of the law and the community without deeper scrutiny. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

GSM

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22

G M

Counts 94 – 97 dealt with in incident 23
Counts 98 – 101 dealt with in incident 2 and
Counts 102 – 103 dealt with in incident 3.

4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Qinisani Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue, get repeated and are planned over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences and their connection is a guiding factor. In this instance, various shootings take place over a period of time.

4.9 – 4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents), the duty officer and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

G S M

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 8 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 94 to 97, Accused 4 had more information from his informer and then shared it in the briefing with other members at Nandi Drive petrol station in Newlands before they set on tracking Philani Ndlovu also known as "Bha" at Esikhawini. The Cato Manor members were accompanied by their informer to Mabuyeni Community hall, where the informer pointed Qinisani Gwala. Who was then placed under arreset by Accused 25 and 26.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the whereabouts of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier, Accused 9

GSM

as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26. Accused 4, 5, 8, 15 and 16 drove to Mabuyeni hall at Esikhawini where qinisani Gwala was pointed by their informer and Accused 25 and 26 placed hom ubder arrest in the presence and supported by the rest of the crew.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracing, arrest and ultimate shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

G I M

Despite being convinced that they arrested a wrong person by the deceased himself, the deceased was taken to his home at 50870 Mabuyeni Reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He assembled the members and briefed them before they travelled to collect his informer and ultimately proceeded to Mabuyeni, Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from

GSM

his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him (Accused 26). They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 the identity of the members of the enterprise who were involved in this count have been outlined in paragraph 5.3 above. Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He started when he assembled the team and briefed them before they set for Esikhawini to trace Philani Ndlovu.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and

G 3 m

Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracing, arrest and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, It is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

G SM

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 8 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was traced at Mabuyeni hall and taken to his home for a search whilst they knew tjhat they had a wrong suspect, having verified through his identity book.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philani Ndlovu together, when he is found, taking him to his home for a search and ultimately shooting him.

7.2.3 Accused 8 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 8 kept a close and loyal and friendly relationship with Accused 9, Captain Ollvier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal

G.S.M

entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 - 7.9 Same as 7.6 above

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 8 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:-

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day

The other activities that Accused 8 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndlmande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and

GSM

Counts 102 – 103 the killing of Sanele Majola

8.2 - 8.4 The extent of participation of Accused 8 in these activities have been outlined in the Incidents:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000,- 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS. It is accepted that there was also a payment after the killing of Qinisani Gwala.

8.7 – 8.8 Yes same as 6.3 above.

AD COUNT 97:
ACCUSED 11: THATHAYIPHI MDLALOSE
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

1.1 It is the State's case that the .38 Special Calibre Rossi Revolver with serial number obliterated and the five (5) .38 SpecialCalibre unmarkedcartridges, which

GSM

was allegedly found at the scene of Qinisani Gwala's shooting incident at house 50870 Mabuyeni Reserves, Esikhawini on 3 September 2011 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his (Gwala's) protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, and position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212

GSM

found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- The principle of joint possession by one person on behalf of others.
- Evidence of photos taken by Cinstable Joel Sabelo Masango and the position of the .38 Special Revolver and cartridges found on the scene.
- Evidence of witness 189, Captain Mangena relating to his observations and conclusions about where the .38 Special Revolver and cartridges were depicted on the scene of Qinisani Gwala's death at Mabuyeni Reserves.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is at house 50870 Mabuyeni Reserves, Esikhawini.

1.3 No, the State's case is not based on an omission in respect of Accused 11.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting

of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.
- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is

doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this .38 Special Calbre Rossi Revolver and its ammunition were possessed by the members who took part in the tracking arresting and shooting of Qinisani Gwala, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 8 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 95 - 97 the date is the 3 September 2011 at around 11h30.

G SM

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho or any police officer in a manner that is acceptable in the eyes of the law and the community without deeper scrutiny. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

GSM

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22

G SM

Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Qinisani Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue, get repeated and are planned over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences and their connection is a guiding factor. In this instance, various shootings take place over a period of time.

4.9 – 4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents), the duty officer and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

GJM

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 11 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 94 to 97, Accused 4 had more information from his informer and then shared it in the briefing with other members at Nandi Drive petrol station in Newlands before they set on tracking Philani Ndlovu also known as "Bha" at Esikhawini. The Cato Manor members were accompanied by their informer to Mabuyeni Community hall, where the informer pointed Qinisani Gwala. Who was then placed under arreset by Accused 25 and 26.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the whereabouts of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier, Accused 9

GSM

as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26. Accused 4, 5, 8, 15 and 16 drove to Mabuyeni hall at Esikhawini where qinisani Gwala was pointed by their informer and Accused 25 and 26 placed hom ubder arrest in the presence and supported by the rest of the crew.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracing, arrest and ultimate shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him (Accused 26). They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

G 5m

Despite being convinced that they arrested a wrong person by the deceased hmself, the deceased was taken to his home at 50870 Mabuyeni Reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He assembled the members and briefed them before they travelled to collect his informer and ultimately proceeded to Mabuyeni, Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from

GSM

his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him (Accused 26). They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 the identity of the members of the enterprise who were involved in this count have been outlined in paragraph 5.3 above. Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He started when he assembled the team and briefed them before they set for Esikhawini to trace Philani Ndlovu.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and

G S M

Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracing, arrest and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

GSM

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 11 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was traced at Mabuyeni hall and taken to his home for a search whilst they knew tjhat they had a wrong suspect, having verified through his identity book.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philani Ndlovu together, when he is found, taking him to his home for a search and ultimately shooting him.

7.2.3 Accused 11 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 11 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal

G Sm

entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 - 7.9 Same as 7.6 above

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 11 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:-

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day

The other activities that Accused 11 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and

GSM

Counts 102 – 103 the killing of Sanele Majola

8.2 - 8.4 The extent of participation of Accused 11 in these activities have been outlined in the Incidents:-.

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS. It is accepted that there was also a payment after the killing of Qinisani Gwala.

8.7 – 8.8 Yes same as 6.3 above.

AD COUNT 97:
ACCUSED 16: EUGENE VAN TONDER
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

1.1 It is the State's case that the .38 Special Calibre Rossi Revolver with serial number oblitrrated and the five (5) .38 SpecialCalibre unmarkedcartridges, which

G S M

was allegedly found at the scene of Qinisani Gwala's shooting incident at house 50870 Mabuyeni Reserves, Esikhawini on 3 September 2011 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his (Gwala's) protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, and position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212

GSM

found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- The principle of joint possession by one person on behalf of others.
- Evidence of photos taken by Cinstable Joel Sabelo Masango and the position of the .38 Special Revolver and cartridges found on the scene.
- Evidence of witness 189, Captain Mangena relating to his observations and conclusions about where the .38 Special Revolver and cartridges were depicted on the scene of Qinisani Gwala's death at Mabuyeni Reserves.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is at house 50870 Mabuyeni Reserves, Esikhawini.

1.3 No, the State's case is not based on an omission in respect of Accused 16.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting

G5 m

of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.
- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is

G 5 n

doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this .38 Special Calbre Rossi Revolver and its ammunition were possessed by the members who took part in the tracking arresting and shooting of Qinisani Gwala, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 95 - 97 the date is the 3 September 2011 at around 11h30.

G SM

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the Indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho or any police officer in a manner that is acceptable in the eyes of the law and the community without deeper scrutiny. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

G SM

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and Incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22

G SM

Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Qinisani Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue, get repeated and are planned over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences and their connection is a guiding factor. In this instance, various shootings take place over a period of time.

4.9 – 4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents), the duty officer and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

G SM

5. WHILST MANAGING THE ENTERPRISE

5.1 Yes, Accused 16 did manage the activities of the enterprise, together with Accused 9, 6, and 15, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role, in this instance Accused 16 being the most senior who was present, he took over the management of the activities of the enterprise. In Counts 94 to 97, Accused 4 had more information from his informer and then shared it in the briefing with other members at Nandi Drive petrol station in Newlands before they set on tracking Philani Ndlovu also known as "Bha" at Esikhawini. The Cato Manor members were accompanied by their informer to Mabuyeni Community hall, where the informer pointed Qinisani Gwala. Who was then placed under arreset by Accused 25 and 26.

5.2 Yes, Accused 9, 15 and 16, as co-mangers of the activities of the enterprise, created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the whereabouts of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

GSM

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier, Accused 9 as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26. Accused 4, 5, 8, 15 and 16 drove to Mabuyeni hall at Esikhawini where qinisani Gwala was pointed by their informer and Accused 25 and 26 placed hom ubder arrest in the presence and supported by the rest of the crew.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracing, arrest and ultimate shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community

G S m

Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

Despite being convinced that they arrested a wrong person by the deceased hmself, the deceased was taken to his home at 50870 Mabuyeni Reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He assembled the members and briefed them before they travelled to collect his informer and ultimately proceeded to Mabuyeni, Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

GSM

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him (Accused 26). They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 the identity of the members of the enterprise who were involved in this count have been outlined in paragraph 5.3 above. Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He started when he assembled the team and briefed them before they set for Esikhawini to trace Philani Ndlovu.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya

G S M

Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracing, arrest and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

G S M

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 16 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was traced at Mabuyeni hall and taken to his home for a search whilst they knew that they had a wrong suspect, having verified through his identity book.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philani Ndlovu together, when he is found, taking him to his home for a search and ultimately shooting him.

7.2.3 Accused 16 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 16 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal

G SM

entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.8 Same as 7.6 above.

7.8 - 7.9 Same as 7.6 above

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 16 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:-

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day

The other activities that Accused 16 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and

G rm

Counts 102 – 103 the killing of Sanele Majola

8.2 - 8.4 The extent of participation of Accused 16 in these activities have been outlined in the Incidents:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS. It is accepted that there was also a payment after the killing of Qinisani Gwala.

8.7 – 8.8 Yes same as 6.3 above.

G SM

AD COUNT 97:

ACCUSED 25: CHARLES JOHN SMITH

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

1.1 It is the State's case that the .38 Special Calibre Rossi Revolver with serial number oblitrrated and the five (5) .38 SpecialCalibre unmarkedcartridges, which was allegedly found at the scene of Qinisani Gwala's shooting incident at house 50870 Mabuyeni Reserves, Eslkhawini on 3 September 2011 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his (Gwala's) protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, and position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police

GSM

members in the Quantum, only to return immediately, asking Mdlull where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

- the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.
- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- The principle of joint possession by one person on behalf of others.
- Evidence of photos taken by Constable Joel Sabelo Masango and the position of the .38 Special Revolver and cartridges found on the scene.
- Evidence of witness 189, Captain Mangena relating to his observations and conclusions about where the .38 Special Revolver and cartridges were depicted on the scene of Qinisani Gwala's death at Mabuyeni Reserves.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is at house 50870 Mabuyeni Reserves, Esikhawini.

1.3 No, the State's case is not based on an omission in respect of Accused 25.

GSM

AD: PATTERN OF RACKETEERING ACTIVITY
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were

GSM

conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.
- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.
- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this .38 Special Calbre Rossi Revolver and its ammunition were possessed by the members who took part in the tracking arresting and shooting of Qinisani Gwala, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and

G S M

Accused 26 Jeremy Martem

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 95 - 97 the date is the 3 September 2011 at around 11h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho or any police officer in a manner that is acceptable in the eyes of the law and the community without deeper scrutiny. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and

G5 M

suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and Incidents above as follows:-

GSM

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Qinisani Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue, get repeated and are planned over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences and their connection is a guiding factor. In this instance, various shootings take place over a period of time.

4.9 – 4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents), the duty officer and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

G PM

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 25 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 94 to 97, Accused 4 had more information from his informer and then shared it in the briefing with other members at Nandi Drive petrol station in Newlands before they set on tracking Philani Ndlovu also known as "Bha" at Esikhawini. The Cato Manor members were accompanied by their informer to Mabuyeni Community hall, where the informer pointed Qinisani Gwala. Who was then placed under arreset by Accused 25 and 26.

5.2 Yes, Accused 9, 15 and 16, as co-mangers of the activities of the enterprise, created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the whereabouts of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

GSM

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier, Accused 9 as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26. Accused 4, 5, 8, 15 and 16 drove to Mabuyeni hall at Esikhawini where qinisani Gwala was pointed by their informer and Accused 25 and 26 placed hom ubder arrest in the presence and supported by the rest of the crew.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracing, arrest and ultimate shooting of Qinisani Gwala.

5.5.1 it is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

GSM

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

Despite being convinced that they arrested a wrong person by the deceased hmself, the deceased was taken to his home at 50870 Mabuyeni Reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He assembled the members and briefed them before they travelled to collect his informer and ultimately proceeded to Mabuyeni, Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

GSM

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayl's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him (Accused 26). They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 the identity of the members of the enterprise who were involved in this count have been outlined in paragraph 5.3 above. Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He started when he assembled the team and briefed them before they set for Esikhawini to trace Philani Ndlovu.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

G S M

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracing, arrest and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

G SM

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 25 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was traced at Mabuyeni hall and taken to his home for a search whilst they knew tjhat they had a wrong suspect, having verified through his identity book.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philani Ndlovu together, when he is found, taking him to his home for a search and ultimately shooting him.

7.2.3 Accused 25 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 25 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

G SM

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 - 7.9 Same as 7.6 above

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 25 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:-

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day

The other activities that Accused 25 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu
Counts 31 – 34 the killing of Sifiso Ndimande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha

GSM

Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2 - 8.4 The extent of participation of Accused 25 in these activities have been outlined in the Incidents:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS. It is accepted that there was also a payment after the killing of Qinisani Gwala.

8.7 – 8.8 Yes same as 6.3 above.

G S M

AD COUNT 97:
ACCUSED 26: JEREMY MARTEM
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

1.1 It is the State's case that the .38 Special Calibre Rossi Revolver with serial number obliterated and the five (5) .38 SpecialCalibre unmarkedcartridges, which was allegedly found at the scene of Qinisani Gwala's shooting incident at house 50870 Mabuyeni Reserves, Esikhawini on 3 September 2011 was brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the offence of Defeating or Obstructing the course of Justice. The following objective facts will, be proved:

- The suspect Philani Ndlovu "Bha", was suspected of involvement in the killing of a police officer in Nyoni CAS 158/08/2010. The deceased Qinisani Gwala was mistakenly pointed by Accused 4's informer as Philani Ndlovu and despite his (Gwala's) protest and proof by means of showing his ID book, the police arrested him.

- Constable Masango of the local LCRC arrived at the scene at approximately 12h50 and took photos and made a sketch and plan of the scene.

- Dr S J Ntsele conducted a post mortem of the body of the deceased and noted the positions of the wounds.

- Captain Christian Mangena did a reconstruction of the scene, made observations of the wounds, blood spatters, and position of the revolver and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as :-

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police

G S M

members in the Quantum, only to return immediately, asking Mdlull where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

- the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.
- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

- The principle of joint possession by one person on behalf of others.
- Evidence of photos taken by Cinstable Joel Sabelo Masango and the position of the .38 Special Revolver and cartridges found on the scene.
- Evidence of witness 189, Captain Mangena relating to his observations and conclusions about where the .38 Special Revolver and cartridges were depicted on the scene of Qinisani Gwala's death at Mabuyeni Reserves.

1.2.1 The date of the act is 3 September 2011

1.2.2 The time of the act is around 11h30

1.2.3 The place of the act is at house 50870 Mabuyeni Reserves, Esikhawini.

1.3 No, the State's case is not based on an omission in respect of Accused 26.

AD: PATTERN OF RACKETEERING ACTIVITY

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

GSM

2.1 Yes, it is the State case that the offence of Defeating or obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of Defeating or obstructing the course of justice and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. The Cato Manor police decided to take sides in taxi violence that was going on between the Stanger Taxi Association and KwaMaphumulo Taxi Association, which was being investigated by Choncho. Members of the Stanger Taxi Association filled them with information of the involvement of KwaMaphumulo members in the killing of Choncho and they hunted them down in disregard of the law. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 4 when they were going to plant it at the scene.

GSM

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of Defeating or obstructing the course of Justice:

- the firearms and ammunition would be brought with to all their suspect raids.
- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.
- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 3 September 2011 when this .38 Special Calbre Rossi Revolver and its ammunition were possessed by the members who took part in the tracking arresting and shooting of Qinisani Gwala, with the blessing of their managers, Accused 1 and 9 who are the following:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhaya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

G S M

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect raid itself. In Counts 95 - 97 the date is the 3 September 2011 at around 11h30.

PATTERN OF RACKETEERING ACTIVITY
RELATION QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of Defeating or obstructing the course of Justice is related to other charges in the Indictment.

3.2 the offence of Defeating or Obstructing the course of Justice was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms with an intention to plant them at the scenes where the shootings take place to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIP QUA THE ENTERPRISE

4.1 Yes, it is the State case that the offence of Defeating or Obstructing the course of Justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho or any police officer in a manner that is acceptable in the eyes of the law and the community without deeper scrutiny. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence

GSM

have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4

GSM

Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Qinisani Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue, get repeated and are planned over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences and their connection is a guiding factor. In this instance, various shootings take place over a period of time.

4.9 – 4.10 Accused 4 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents), the duty officer and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

GSM

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 26 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 94 to 97, Accused 4 had more information from his informer and then shared it in the briefing with other members at Nandi Drive petrol station in Newlands before they set on tracking Philani Ndlovu also known as "Bha" at Esikhawini. The Cato Manor members were accompanied by their informer to Mabuyeni Community hall, where the informer pointed Qinisani Gwala. Who was then placed under arreset by Accused 25 and 26.

5.2 Yes, Accused 9, 15 and 16, as co-managers of the activities of the enterprise, created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 4, 8, 11, 16, 25 and 26.

5.2.2 Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the whereabouts of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

GSM

Accused 9, 15 and 16 as the Group Commanders created an environment in which the offences could be committed by providing the resources that enabled the members to commit the offences with the blessings from the Provincial Commander, General Booysen.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier, Accused 9 as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 4, 8, 11, 16, 25 and 26. Accused 4, 5, 8, 15 and 16 drove to Mabuyeni hall at Esikhawini where qinisani Gwala was pointed by their informer and Accused 25 and 26 placed hom ubder arrest in the presence and supported by the rest of the crew.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracing, arrest and ultimate shooting of Qinisani Gwala.

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

G M

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him. They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

Despite being convinced that they arrested a wrong person by the deceased hmself, the deceased was taken to his home at 50870 Mabuyeni Reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

5.6.2 Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He assembled the members and briefed them before they travelled to collect his informer and ultimately proceeded to Mabuyeni, Esikhawini.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

GSM

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of Defeating or Obstructing the course of Justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation. The police proceeded to Mabuyeni Community hall where the deceased was pointed out by the informer and Accused 26 placed him under arrest, Accused 8 was interpreting for him (Accused 26). They returned to the Community Hall to fetch the deceased'd bag which contained his ID book and Accused 25 noted his correct identity on the ID book.

The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.2 the identity of the members of the enterprise who were involved in this count have been outlined in paragraph 5.3 above. Accused 4 managed the tracing, arrest and ultimate shooting of the deceased Qinisani Gwala. He started when he assembled the team and briefed them before they set for Esikhawini to trace Philani Ndlovu.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Qinisani Gwala.

G S M

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 4 Paul Mostert
Accused 8 Phumelela Makhanya
Accused 11 Thathayiphi Mdlalose
Accused 16 Eugene van Tonder
Accused 25 Charles John Smith and
Accused 26 Jeremy Martem

6.5.3 The terms or nature of the conduct agreed upon was the tracing, arrest and shooting of Qinisani Gwala.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

GSM

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 26 committed the crime of Defeating or Obstructing the course of Justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 3 September 2011 when the deceased was traced at Mabuyeni hall and taken to his home for a search whilst they knew tjhat they had a wrong suspect, having verified through his identity book.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Philani Ndlovu together, when he is found, taking him to his home for a search and ultimately shooting him.

7.2.3 Accused 26 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 26 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

G S M

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.9 Same as 7.6 above.

7.8 - 7.9 Same as 7.6 above

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 26 is alleged to have taken part in or participated in through a pattern of racketeering activities include the:-

- murder of Qinisani Gwala that was committed on 3 September 2011.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day

The other activities that Accused 26 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 3 – 7 the killing of Lindelani Buthelezi
Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killings of Mzameni Ntuli and Nkosinathi Mthembu

GSM

Counts 31 – 34 the killing of Sifiso Ndlmande
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 62 – 65 the killing of Prince Thabethe
Counts 66 – 69 the killing of Kwazi Ndlovu
Counts 80 – 93 the killings of Jabulani Bhengu
Counts 94 – 97 the killing of Qinisani Gwala
Counts 98 – 101 the killing of Mfanafuthi Zwane and
Counts 102 – 103 the killing of Sanele Majola

8.2 - 8.4 The extent of participation of Accused 26 in these activities have been outlined in the Incidents:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. This killing was also used to get monetary rewards and certificates within the SAPS. It is accepted that there was also a payment after the killing of Qinisani Gwala.

GSM

8.7 – 8.8 Yes same as 6.3 above.

COMMON PURPOSE

AD INCIDENT ON THE 3 SEPTEMBER 2011: THE SHOOTING OF QINISANI GWALA: COUNTS 13 – 18

ACCUSED 4: PAUL MOSTERT

ACCUSED 8: PHUMELELA MAKHANYA

ACCUSED 11: THATHAYIPHI MDLALOSE

ACCUSED 16: EUGENE VAN TONDER

ACCUSED 25: CHARLES JOHN SMITH AND

ACCUSED 26: JEREMY MARTEM

It appears from the predominant facts at the State's disposal that a common pupose to commit the offences outlined can be inferred from the conduct of the members of the enterprise in the commission of the offences which form part of the pattern of racketeering acivity. The incident on the 3 September 2011 cannot be taken in isolation of other incidents or operations of the enterprise, it must be considered in the light of all the incidents as outlines in the table on Page 6 of this submission, Incident 1 on 24 May 2008 (the killing of Thabo Msimango) until Incident 23 on 3 September 2011 (the killing of Philangenkosi Gwala). One must also not loose sight of the regular briefings which the members of the enterprise get involved in prior to each and every operation where suspects are traced.

6. The accused who form part of the particular incident as outlined on the table Pages 6 to 23 formed a prior agreement in respect of that particular incident in which they were involved for instance in Count 94 – 97, it is the State's case that the following accused persons did form a common purpose to kill Qinisani Gwala:-

   Accused 4: Paul Mostert
   Accused 8: Phumelela Makhanya
   Accused 11: Thathayiphi Mdlalose
   Accused 16: Eugene van Tonder
   Accused 25: Charles John Smith and

GSM

Accused 26: Jeremy Martem

6.1.1 The is not precisely certain about the time that the accused became party to the prior agreement to commit the offences on 3 September 2011, safe to state that when they left the Nandi Drive petrol station and when they met again at a place in Esikhawini where Accused 4 gave them a briefing and when they set on to get to Mabuyeni hall in Esikhawini, a prior agreement to commit the offences that have been listed in Count 94- 97 was formed by the accused persons.

6.1.2 Same as in paragraph 1.1 above

6.1.3 The terms of the agreement is a matter of evidence.

6.1.4 All the parties involved in the agreement and their roles can be repeated as follows:

- Accused 4 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation. He proceeded to the Mabuyeni Community hall, accompanied by Accused 8, 11, 16, 25 and 26, entered the premises of the Community hall where Qinisani Gwala was placed under arrest by Accused 25 and 26, proceeded to the residence of Qinisani Gwala at Mabuyeni Reserve and conducted a search for weapons at this residence.

- The deceased was taken to his home at 50870 Mabuyeni reserves, to conduct a search, Accused 25 and 26 went to the first room to search when Accused 4 and 8 rushed to Sandile Gwala's room to search it. As the second room was being searched, Accused 25 fired a shot with his 9mm pistol in the head and Accused 26 fired two (2) shots with his R5 rifle at the deceased striking him in the chest, alleging that he leaned forward and produced a gun. The accused then placed a revolver next to the deceased to create an impression that he placed their lives in danger by taking it out.

6.1.5 Same as 1.1.4 above

GSM

6.1.6 The date, time and place of the act are the same as in paragraph 1.1 above.

7. Yes it is alleged that the accused formed an act of association with one another.

7.1.1 Same as in paragraph 1.1.4 above.

7.1.2 Same as in paragraph 1.1.1 above.

7.1.3 Same as in paragraph 1.1.1 above.

7.1.4 Same as in paragraph 1.1.4 above.

7.1.5 Same as in paragraph 1.1.4 above.

8. The State relies on prior agreement in the main argument, in the alternative the State will argue that it can be inferred from the proven facts.

GSM

INCIDENT DATE: 18 MARCH 2009

ACCUSED 5: ERIC NEL

ACCUSED 15: ANTON LOCKEM

ACCUSED 25: CHARLES JOHN SMITH

DECEASED: DAN CHESTER PHIRI

COUNTS 109 – 112

GSM

COUNT 109: MURDER
DECEASED: DAN CHESTER PHIRI
AD ACCUSED 5: ERIC NEL

1.1 The State will rely on acts (and not ommisions) of the following evidence to found a conviction on murder:

- viva voce evidence of witnesses who were present at the scene of Dan Phiri's arrest who saw how Accused 5 opened the driver's door of the deceased's vehicle and shot him at close range despite the fact that the deceased posed no danger to him. Despite being crippled from a previous shooting, it is clear that the deceased was pleading with Accused 5 not to shoot and had his arms oround his head as a sign of surrender when Accused 5 fired shots at him.

- Photos of the scene and the observations of Warrant Officer Karrim who visited the scene and took photos of the scene and collected exhibits from the scene on 18 March 2009 at 12h05.

- The reconstruction of the scene which was done by witness 30, Jacobus Steyl as well as his conclusions and findings having looked at the scene and the post mortem findings conducted by Dr Reggie Perumal.

- The findings of Dr Reggie Perumal who considered the post mortem examination on the body of the deceased conducted by Dr Threnesan Naidoo on 24 March 2009 as well as the documents presented to him (Dr Perumal).

- Photos taken by Cst Mdlalose during the post mortem examination at Phoenix mortuary on 24 March 2009.

1.2.1 The date of the act is 18 March 2009
1.2.2 Around 09h50
1.2.3 At Noodsberg road (R614), near Spioenskop supermarket in Tongaat.

1.3 The State does not rely on an omission.

G SM

1.4 Yes, it is the State's case that Accused 5 fired shots at the deceased in circumstances when it was not justifiable in terms of section 49 (2) of Act 51 of 1977. Accused 15 and 25 provided Accused 5 with the necessary back-up and support and created an environment where Accused 5 could focus on the deceased.

1.5 Accused 5 fired four (4) shots in the direction of the deceased with a 9mm Calibre LEW Z88 pistol at the deceased whils he was in a seated position and asking and pleading not to be shot.

1.6 Yes, the shots that were fired by Accused 5 struck the deceased.

1.7 The deceased was struck with three (3) bullets in the chest, twice in the face and in the chest.

1.8 The bullet fired by Accused 5 with a 9mm pistol struck the deceased in the head; in the chest and hand.

1.9 Yes, the bullets fired by both Accused 5 caused the death of the deceased.

2 **AD PATTERN OF RACKETEERING ACTIVITY**
MURDER

2.1 Yes, it is the State case that the accused's conduct forms part of a pattern of racketeering activity as defined by Section 121 of 1998.

2.2.1 the precise date and time the accused formed the plan to commit the offence is unknown to the State, safe to state that immediately after Dan Phiri was spotted in his vehicle along the Noodsberg road (R614), chased the deceased's white Corolla and forced it to stop next to Spionskop supermarket on 18 March 2009, Accused 15 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day.

G S M

The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whe the Cato Manor police shot at the deceased whilst he was in a seated position in his car and crying and pleading with the police not to kill him.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of murder.

2.3 The persons who participated in the killing of the deceased are the following:-

2.3.1 Accused 5, 15 and 25 were survailing the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

GSM

2.3.2 Same as 2.3.1 above

2.3.3 Same as 2.3.1 above

2.3.4 The date time and place is the same as 1.2 above.

3 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP WITH PRECDICATE OFFENCES

3.2 Yes, the accused's conduct is related to the offences depicted in the indictment.

3.3 The following are the common feature that provides the nexus between the conduct of the accused and other offences in the indictment:-

- The modus operandi that is prevalent in most of the offences in the indictment of placing a firearm next to the deceased body to create an impression that the deceased was posing some form of danger to the accused to make their shooting justifiable in terms of section 49 (2) of Act 51 of 1977, is a common threat that connects the offences listed in the indictment.

- All the suspects that are tracked, traced and later killed are suspected to have been suspects in the killing of a police officer or for suspected involvement in ATM bombings. A striking common factor is that in most of these instances, there is not a shread of evidence that connects the suspects to the offences in the dockets concerned, put differently, if anyone were to place the Choncho or Inkosi Zondi dockets before a prosecutor for the consideration of a J50 warrant of arrest, it would not be authorised as there would be nothing linking the suspect to the offences in question.

4 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA THE ENTERPRISE

4.1 The crime of Murder that the accused are alleged to have committed is related to the enterprise as defined in Section 1 of Act 121 of 1998.

G SM

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of police officers or ATM bombings in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association and any other suspect that they trace, who are suspected of involvement in ATM bombings, serious robberies and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism and attention, this why they were able to kill so many people without the law detecting their trick.

The members of the enterprise remain predominantly the same in most of the operations of the enterprise so that the objectives of the enterprise are achieved. The nucleus of the operation is maintained wherever possible, with members of the SVC section who have been working together for a while as they have developed an understanding of each other and what they all need to do in advancing the objectives of the enterprise.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops. In this instance Accused 15 was the most senior member present on this scene.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, It is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under

G SM

Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and Incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the

GSM

incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 15 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

6 WHILST MANAGING THE ENTERPRISE

5.1 No, Accused 5 did not manage the activities of the enterprise, Accused 9, together with Accused 6, 15 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role.

5.2 Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 5, 15 and 25.

GSM

5.2.2 Accused 5, 15 and 25 were survailing the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 5, 15, and 25.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Dan Phiri.

GSM

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the arrest and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

4.2.1 Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he received from his informers. He also ensured that the "mbombayi's" are taken along for the operation. Accused 5, 15 and 25 were survailing the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.6.2 Accused 15 managed the tracing and ultimate shooting of the deceased Dan Phiri. He supervised the survailence of the movements of Dan Phiri.

G5M

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of murder whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to

G sm

walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

6.2 Accused 15 managed the tracking, tracing and ultimate shooting of the deceased Dan Phiri.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Dan Phiri.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 5 Eric Nel
Accused 15Anton Lockem and
Accused 25 Charles John Smith

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Dan Phiri.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

GSM

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 5 committed the crime of murder jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 March 2009 when the deceased was traced and found at the R614 Noordberg road at Tongaat.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Dan Phiri together at Tongaat. They were so determined to take Dan Phiri to an extent that they used the driver of the silver Jetta to lue the deceased to their direction where they were waiting for him.

7.2.3 The association of the Cato Manor group dates back to the time of the Serious Violent Crime Unit days when they worked closely to deal with serious crime. Accused 5 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

GSM

7.2.4 Accused 5 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.2.5 It is nit clear when and where exactly the association started safe to say that in was in existence just prior and during the execution of the offences.

7.2.6 Same as 6.5.7 above.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes, each member of the group formed a common purpose to engage in the activities of the enterprise.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.9 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 5 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- Tracing, surveiling and arrest of Dan Phiri at Tongaat.

G.S.M

- murder of Dan Phiri that was committed on 18 March 2009.
- the unlawful possession of firearms committed on the same day.
- the unlawful possession of ammunition committed on the same day.
- the defeating the ends of justice committed on the same day.

The other activities that Accused 5 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 8 – 12 the killing of Magojela and Tembe
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 102 – 103 the killing of Sanele Majola
Counts 104 – 108 the killing of Nhlanhla Masondo

8.2- 8.4 The extent of participation of Accused 5 in these activities have been outlined in the Incidents:

Counts 8 – 12 dealt with in Incident 5
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 102 – 103 dealt with in Incident 3 and
Counts 104 – 108 dealt with in Incident 8.

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Dan Phiri. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

GSM

COUNT 109: MURDER
DECEASED: DAN CHESTER PHIRI
AD ACCUSED 15: ANTON LOCKEM

1.1 The State will rely on acts (and not ommisions) of the following evidence to found a conviction on murder:

- viva voce evidence of witnesses who were present at the scene of Dan Phiri's arrest who saw how Accused 5 opened the driver's door of the deceased's vehicle and shot him at close range despite the fact that the deceased posed no danger to him. Despite being crippled from a previous shooting, it is clear that the deceased was pleading with Accused 5 not to shoot and had his arms oround his head as a sign of surrender when Accused 5 fired shots at him. Accused 15 and 25 opened the passanger doors and pulled the passasngers out of the car.

- Photos of the scene and the observations of Warrant Officer Karrim who visited the scene and took photos of the scene and collected exhibits from the scene on 18 March 2009 at 12h05.

- The reconstruction of the scene which was done by witness 30, Jacobus Steyl as well as his conclusions and findings having looked at the scene and the post mortem findings conducted by Dr Reggie Perumal.

- The findings of Dr Reggie Perumal who considered the post mortem examination on the body of the deceased conducted by Dr Threnesan Naidoo on 24 March 2009 as well as the documents presented to him (Dr Perumal).

- Photos taken by Constable Mdlalose during the post mortem examination at Phoenix mortuary on 24 March 2009.

1.2.1 The date of the act is 18 March 2009
1.2.2 Around 09h50
1.2.3 At Noodsberg road (R614), near Spioenskop supermarket in Tongaat.

GSM

1.3 The State does not rely on an omission.

1.4 Yes, it is the State's case that Accused 5 fired shots at the deceased in circumstances when it was not justifiable in terms of section 49 (2) of Act 51 of 1977. Accused 15 and 25 provided Accused 5 with the necessary back-up and support and created an environment where Accused 5 could focus on the deceased.

1.5 Accused 5 fired four (4) shots in the direction of the deceased with a 9mm Calibre LEW Z88 pistol at the deceased whils he was in a seated position and asking and pleading not to be shot. Accused 15 and 25 did not fire any shots.

1.6 Yes, the shots that were fired by Accused 5 struck the deceased.

1.7 The deceased was struck with three (3) bullets in the chest, twice in the face and in the chest.

1.8 The bullet fired by Accused 5 with a 9mm pistol struck the deceased in the head; in the chest and hand.

1.9 Yes, the bullets fired by Accused 5 caused the death of the deceased.

2 **AD PATTERN OF RACKETEERING ACTIVITY**
MURDER

2.1 Yes, it is the State case that the accused's conduct forms part of a pattern of racketeering activity as defined by Section 121 of 1998.

2.2.1 the precise date and time the accused formed the plan to commit the offence is unknown to the State, safe to state that immediately after Dan Phiri was spotted in his vehicle along the Noodsberg road (R614), chased the deceased's white Corolla and forced it to stop next to Spionskop supermarket on 18 March 2009, Accused 15 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan

G-SM

Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whe the Cato Manor police shot at the deceased whilst he was in a seated position in his car and crying and pleading with the police not to kill him.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of murder.

2.3 The persons who participated in the killing of the deceased are the following:-

2.3.1 Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

GSM

2.3.2 Same as 2.3.1 above

2.3.3 Same as 2.3.1 above

2.3.4 The date time and place is the same as 1.2 above.

3 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP WITH PRECDICATE OFFENCES

3.2 Yes, the accused's conduct is related to the offences depicted in the indictment.

3.3 The following are the common feature that provides the nexus between the conduct of the accused and other offences in the indictment:-

- The modus operandi that is prevalent in most of the offences in the indictment of placing a firearm next to the deceased body to create an impression that the deceased was posing some form of danger to the accused to make their shooting justifiable in terms of section 49 (2) of Act 51 of 1977, is a common threat that connects the offences listed in the indictment.

- All the suspects that are tracked, traced and later killed are suspected to have been suspects in the killing of a police officer or for suspected involvement in ATM bombings. A striking common factor is that in most of these instances, there is not a shread of evidence that connects the suspects to the offences in the dockets concerned, put differently, if anyone were to place the Choncho or Inkosi Zondi dockets before a prosecutor for the consideration of a J50 warrant of arrest, it would not be authorised as there would be nothing linking the suspect to the offences in question.

4 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA THE ENTERPRISE

 GSM

4.1 The crime of Murder that the accused are alleged to have committed is related to the enterprise as defined in Section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of police officers or ATM bombings in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association and any other suspect that they trace, who are suspected of involvement in ATM bombings, serious robberies and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism and attention, this why they were able to kill so many people without the law detecting their trick.

The members of the enterprise remain predominantly the same in most of the operations of the enterprise so that the objectives of the enterprise are achieved. The nucleus of the operation is maintained wherever possible, with members of the SVC section who have been working together for a while as they have developed an understanding of each other and what they all need to do in advancing the objectives of the enterprise.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops. In this instance Accused 15 was the most senior member present on this scene.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

 GSM

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing

GSM

requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 15 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

7 WHILST MANAGING THE ENTERPRISE

5.1 Yes, Accused 15 did manage the activities of the enterprise, together with Accused 6, 9 and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role.

5.2 Accused 6, 9 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 5, 15 and 25.

GSM

5.2.3 Accused 5, 15 and 25 were survailing the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 5, 15, and 25.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Dan Phiri.

GSM

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the arrest and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he received from his informers. He also ensured that the "mbombayi's" are taken along for the operation. Accused 5, 15 and 25 were survalling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

G SM

5.6.2 Accused 15 managed the tracing and ultimate shooting of the deceased Dan Phiri. He supervised the survallence of the movements of Dan Phiri.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of murder whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away

 G-SM

from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

6.2 Accused 15 managed the tracking, tracing and ultimate shooting of the deceased Dan Phiri.

6.3 dealt with at 6.1 above.

6.4 Yes It is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Dan Phiri.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 5 Eric Nel
Accused 15 Anton Lockem and
Accused 25 Charles John Smith

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Dan Phiri.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23,

 GSM

which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 15 committed the crime of murder jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 March 2009 when the deceased was traced and found at the R614 Noordberg road at Tongaat.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Dan Phiri together at Tongaat. They were so determined to take Dan Phiri to an extent that they used the driver of the silver Jetta to lue the deceased to their direction where they were waiting for him.

7.2.3 The association of the Cato Manor group dates back to the time of the Serious Violent Crime Unit days when they worked closely to deal with serious crime. Accused 15 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

 G5m

7.2.4 Accused 15 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.2.5 It is not clear when and where exactly the association started safe to say that in was in existence just prior and during the execution of the offences.

7.2.6 Same as 6.5.7 above.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes, each member of the group formed a common purpose to engage in the activities of the enterprise.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 15 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

 GSM

- Tracing, surveiling and arrest of Dan Phiri at Tongaat.
- murder of Dan Phiri that was committed on 18 March 2009.
- the unlawful possession of firearms committed on the same day.
- the unlawful possession of ammunition committed on the same day.
- the defeating the ends of justice committed on the same day.

The other activities that Accused 15 associated themselves with sufficiently to an extent of approving them without questioning them In include the predicate offences that are listed on Page 25 of this submission:

Counts 8 – 12 the killing of Magojela and Tembe
Counts 13 – 18 the killing of Mzameni Ntuli and Nkosinathi Mthembu
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 80 – 93 the killing of Jabulani Bhengu
Counts 98 – 101 the killing of Mfanafuthi Zwane
Counts 109 – 112 the killing of Dan Phiri

8.2- 8.4 The extent of participation of Accused 15 in these activities have been outlined in the Incidents:

Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Count 58 – 61 dealt with in Incident 14
Counts 80 – 93 dealt with in Incident 20
Counts 98 – 101 dealt with in Incident 2 and
Counts 109 – 112 dealt with in Incident 11.

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Dan Phiri. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

 G.S.M

COUNT 109: MURDER
DECEASED: DAN CHESTER PHIRI
AD ACCUSED 25: CHARLES JOHN SMITH

1.1 The State will rely on acts (and not ommisions) of the following evidence to found a conviction on murder:

- viva voce evidence of witnesses who were present at the scene of Dan Phiri's arrest who saw how Accused 5 opened the driver's door of the deceased's vehicle and shot him at close range despite the fact that the deceased posed no danger to him. Despite being crippled from a previous shooting, it is clear that the deceased was pleading with Accused 5 not to shoot and had his arms oround his head as a sign of surrender when Accused 5 fired shots at him. Accused 15 and 25 opened the passanger doors and pulled the passasngers out of the car.

- Photos of the scene and the observations of Warrant Officer Karrim who visited the scene and took photos of the scene and collected exhibits from the scene on 18 March 2009 at 12h05.

- The reconstruction of the scene which was done by witness 30, Jacobus Steyl as well as his conclusions and findings having looked at the scene and the post mortem findings conducted by Dr Reggie Perumal.

- The findings of Dr Reggie Perumal who considered the post mortem examination on the body of the deceased conducted by Dr Threnesan Naidoo on 24 March 2009 as well as the documents presented to him (Dr Perumal).

- Photos taken by Constable Mdlalose during the post mortem examination at Phoenix mortuary on 24 March 2009.

1.2.1 The date of the act is 18 March 2009
1.2.2 Around 09h50
1.2.3 At Noodsberg road (R614), near Spioenskop supermarket in Tongaat.

 G Sm

1.3 The State does not rely on an omission.

1.4 Yes, it is the State's case that Accused 5 fired shots at the deceased in circumstances when it was not justifiable in terms of section 49 (2) of Act 51 of 1977. Accused 15 and 25 provided Accused 5 with the necessary back-up and support and created an environment where Accused 5 could focus on the deceased. Accused 15 and 25 did not fire any shots.

1.5 Accused 5 fired four (4) shots in the direction of the deceased with a 9mm Calibre LEW Z88 pistol at the deceased whils he was in a seated position and asking and pleading not to be shot. Accused 15 and 25 did not fire any shots.

1.6 Yes, the shots that were fired by Accused 5 struck the deceased.

1.7 The deceased was struck with three (3) bullets in the chest, twice in the face and in the chest.

1.8 The bullet fired by Accused 5 with a 9mm pistol struck the deceased in the head; in the chest and hand.

1.9 Yes, the bullets fired by Accused 5 caused the death of the deceased.

2 **AD PATTERN OF RACKETEERING ACTIVITY**
MURDER

2.1 Yes, it is the State case that the accused's conduct forms part of a pattern of racketeering activity as defined by Section 121 of 1998.

2.2.1 the precise date and time the accused formed the plan to commit the offence is unknown to the State, safe to state that immediately after Dan Phiri was spotted in his vehicle along the Noodsberg road (R614), chased the deceased's white Corolla and forced it to stop next to Spionskop supermarket on 18 March 2009, Accused 15 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan

 GSM

Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whe the Cato Manor police shot at the deceased whilst he was in a seated position in his car and crying and pleading with the police not to kill him.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of murder.

2.3 The persons who participated in the killing of the deceased are the following:-

2.3.1 Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

G SM

2.3.2 Same as 2.3.1 above

2.3.3 Same as 2.3.1 above

2.3.4 The date time and place is the same as 1.2 above.

3 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP WITH PRECDICATE OFFENCES

3.2 Yes, the accused's conduct is related to the offences depicted in the indictment.

3.3 The following are the common feature that provides the nexus between the conduct of the accused and other offences in the indictment:-

- The modus operandi that is prevalent in most of the offences in the indictment of placing a firearm next to the deceased body to create an impression that the deceased was posing some form of danger to the accused to make their shooting justifiable in terms of section 49 (2) of Act 51 of 1977, is a common threat that connects the offences listed in the indictment.

- All the suspects that are tracked, traced and later killed are suspected to have been suspects in the killing of a police officer or for suspected involvement in ATM bombings. A striking common factor is that in most of these instances, there is not a shread of evidence that connects the suspects to the offences in the dockets concerned, put differently, if anyone were to place the Choncho or Inkosi Zondi dockets before a prosecutor for the consideration of a J50 warrant of arrest, it would not be authorised as there would be nothing linking the suspect to the offences in question.

4 PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA THE ENTERPRISE

 G5m

4.1 The crime of Murder that the accused are alleged to have committed is related to the enterprise as defined in Section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of police officers or ATM bombings in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association and any other suspect that they trace, who are suspected of involvement in ATM bombings, serious robberies and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism and attention, this why they were able to kill so many people without the law detecting their trick.

The members of the enterprise remain predominantly the same in most of the operations of the enterprise so that the objectives of the enterprise are achieved. The nucleus of the operation is maintained wherever possible, with members of the SVC section who have been working together for a while as they have developed an understanding of each other and what they all need to do in advancing the objectives of the enterprise.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops. In this instance Accused 15 was the most senior member present on this scene.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

 GSM

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing

GSM

requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 15 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

8 WHILST MANAGING THE ENTERPRISE

5.1 Yes, Accused 25 did not manage the activities of the enterprise, Accused 9 together with Accused 6, and 16, who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role.

5.2 Accused 6, 9 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 5, 15 and 25.

G5M

5.2.4 Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 5, 15, and 25.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, pursuit and shooting of Dan Phiri.

FSM

5.5.1 It is not clear when the common purpose was formed.

5.5.2 the parties to the common purpose are all the accused persons who took part in the arrest and ultimate shooting of the deceased.

5.5.3 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he received from his informers. He also ensured that the "mbombayi's" are taken along for the operation. Accused 5, 15 and 25 were survailing the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for ghim for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

G SM

5.6.2 Accused 15 managed the tracing and ultimate shooting of the deceased Dan Phiri. He supervised the survailence of the movements of Dan Phiri.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of murder whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away

GSM

from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

6.2 Accused 15 managed the tracking, tracing and ultimate shooting of the deceased Dan Phiri.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, tracking and shooting of Dan Phiri.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 5 Eric Nel
Accused 15 Anton Lockem and
Accused 25 Charles John Smith

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Dan Phiri.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23,

G. SM

which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 25 committed the crime of murder jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 March 2009 when the deceased was traced and found at the R614 Noordberg road at Tongaat.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Dan Phiri together at Tongaat. They were so determined to take Dan Phiri to an extent that they used the driver of the silver Jetta to lue the deceased to their direction where they were waiting for him.

7.2.3 The association of the Cato Manor group dates back to the time of the Serious Violent Crime Unit days when they worked closely to deal with serious crime. Accused 25 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

GSM

7.2.4 Accused 25 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.2.5 It is not clear when and where exactly the association started safe to say that in was in existence just prior and during the execution of the offences.

7.2.6 Same as 6.5.7 above.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes, each member of the group formed a common purpose to engage in the activities of the enterprise.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 25 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

GSM

- Tracing, surveiling and arrest of Dan Phiri at Tongaat.
- murder of Dan Phiri that was committed on 18 March 2009.
- the unlawful possession of firearms committed on the same day.
- the unlawful possession of ammunition committed on the same day.
- the defeating the ends of justice committed on the same day.

The other activities that Accused 25 associated themselves with sufficiently to an extent of approving them without questioning them in include the predicate offences that are listed on Page 25 of this submission:

Counts 39 – 52 the killing of Khanyisani and Bongani Biyela
Counts 94 – 97 the killing of Qinisani Gwala
Counts 109 – 112 the killing of Dan Phiri

8.2- 8.4 The extent of participation of Accused 25 in these activities have been outlined in the Incidents:

Counts 39 – 52 dealt with in Incident 9
Counts 94 – 97 dealt with in Incident 23 and
Counts 109 – 112 dealt with in Incident 11.

8.5 – 8.6 Yes members of Cato Manor benefited from the killing of Dan Phiri. This killing was also used to get monetary rewards and certificates within the SAPS which enhanced their position as a hard working team in the KZN region.

8.7 – 8.8 Yes same as 6.3 above.

COUNTS 110 – 111
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 5: ERIC NEL

Although the accused separated Count 110 and 111 in their request, the State deals with all the Counts 110 to 111 at the same time all the offences were committed at

GSM

the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- 7.65mm Calibre CZ semi-automatic pistol with serial number obliterated, which was marked by Warrant Tilakdharee of the Ballistic Unit 60233F and

- one (1) magazine, three (3) 7.65 Calibre cartridges and two (2) fired 7.65 Calibre cartridges which he marked 60233 E1 and E2

which were allegedly found at the scene of Dan Phiri's shooting incident at the Noordberg Road, Tongaat on 18 March 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased was a suspect in an ATM bombing case Nyoni CAS 41/04/2008 and 105/05/2008. The deceased Dan Phiri was waylaid to a place where the accused were waiting for him by a person dring a silver Jetta under the guise of a sale of a car.

- Inspector Karrim of the local LCRC arrived at the scene at approximately 12h05 on 18/03/2009 and took photos and made a sketch and plan of the scene.

- Dr T Naidoo conducted a post mortem of the body of the deceased and noted the positions of the wounds. Dr Perumal studied the post mortem, photos of the scene and other documents and made his observations.

- Mr Steyl did a reconstruction of the scene, made observations of the wounds, the position of the 7.65 Calibre CZ semi-automatic pistol and drew his conclusions.

 GSM

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 March 2009

1.2.2 The time of the act is around 10h30

1.2.3 The place of the act is on the Noordberg road (R614), Tongaat.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a 7.65 Calibre CZ semi-automatic pistol with serial number obliterated and

- a magazine with three (3) 7.65 Calibre cartridges

GSM

- and two (2) 7.65 fired cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official or ATM bombings irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they

GSM

bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 15 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- Immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 March 2009 when this 7.65 Calibre CZ semi-automatic pistol, a magazine and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Dan Phiri at Noodsberg road (R614),Tongaat, the Cato Manor members who were present are the following:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25: Charles John Smith

GSM

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect surveilance itself, being 18 March 2009. In Counts 110 - 111, the date is the 18 March 2009 at around 12h05.

3. **PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA PREDICATE OFFENCES**

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official or the ATM bombings, in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the

Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

GCM

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 15 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

GSM

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 5 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 110 to 111, Accused 15 had more information from his informer who was using the silver Jetta to lure the deceased to their direction.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 5, 15 and 25.

5.2.2 Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

GSM

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 5, 15 and 25.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Dan Phiri.

5.5.4 It is not clear when the common purpose was formed.

5.5.5 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.6 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away

GSM

from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.6.2 The accused managed the tracking, locating and ultimate shooting of Dan Phiri.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from

GSM

his informers. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

6.2 Accused 15 managed the tracking, tracing and ultimate shooting of the deceased Dan Phiri.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Dan Phiri.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and

GSM

Accused 25 Charles John Smith

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Dan Phiri.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

G SM

7.1 Yes it is alleged that Accused 5 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 March 2009 when the deceased was tracked and shot at along Noordberg road (R614) Tongaat.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Dan Phiri at Tongaat.

7.2.3 Accused 5 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 5 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

G sm

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 5 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Dan Phiri that was committed on 18 Marchr 2009.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 5 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 8 – 12 the killing of Magojela and Tembe
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 102 – 103 the killing of Sanele Majola
Counts 104 – 108 the killing of Nhlanhla Masondo
Counts 109 – 112 the killing of Dan Phiri

8.2- 8.4 The extent of participation of Accused 5 in these activities have been outlined in the incidents:

Counts 8 – 12 dealt with in Incident 5
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 102 – 103 dealt with in Incident 3
Counts 104 – 108 dealt with in Incident 8
Counts 109 – 112 dealt with in Incident 11.

GSM

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

COUNTS 110 – 111
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 15: ANTON LOCKEM

Although the accused separated Count 110 and 111 in their request, the State deals with all the Counts 110 to 111 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- 7.65mm Calibre CZ semi-automatic pistol with serial number obliterated, which was marked by Warrant Tilakdharee of the Ballistic Unit 60233F and

- one (1) magazine, three (3) 7.65 Calibre cartridges and two (2) fired 7.65 Calibre cartridges which he marked 60233 E1 and E2

which were allegedly found at the scene of Dan Phiri's shooting incident at the Noordberg Road, Tongaat on 18 March 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact

GSM

evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased was a suspect in an ATM bombing case Nyoni CAS 41/04/2008 and 105/05/2008. The deceased Dan Phiri was waylaid to a place where the accused were waiting for him by a person dring a silver Jetta under the guise of a sale of a car.

- Inspector Karrim of the local LCRC arrived at the scene at approximately 12h05 on 18/03/2009 and took photos and made a sketch and plan of the scene.

- Dr T Naidoo conducted a post mortem of the body of the deceased and noted the positions of the wounds. Dr Perumal studied the post mortem, photos of the scene and other documents and made his observations.

- Mr Steyl did a reconstruction of the scene, made observations of the wounds, the position of the 7.65 Calibre CZ semi-automatic pistol and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdlull where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the

G SM

unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 March 2009

1.2.2 The time of the act is around 10h30

1.2.3 The place of the act is on the Noordberg road (R614), Tongaat.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a 7.65 Calibre CZ semi-automatic pistol with serial number obliterated and
- a magazine with three (3) 7.65 Calibre cartridges
- and two (2) 7.65 fired cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they

Gsm

brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official or ATM bombings irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 15 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body

GSM

of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 March 2009 when this 7.65 Calibre CZ semi-automatic pistol, a magazine and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Dan Phiri along Noodsberg road (R614),Tongaat, the Cato Manor members who were present are the following:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25: Charles John Smith

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect surveilance itself, being 18 March 2009. In Counts 110 - 111, the date is the 18 March 2009 at around 12h05.

GSM

3. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official or the ATM bombings, in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of

GSM

the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12

Gom

Counts 58 – 61 dealt with in incident 14
Counts 62 – 65 dealt with in incident 16
Counts 66 – 69 dealt with in incident 18
Counts 80 – 93 dealt with in incident 20 - 22
Counts 94 – 97 dealt with in incident 23
Counts 98 – 101 dealt with in incident 2 and
Counts 102 – 103 dealt with in incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 15 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting.

GSm

Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE

5.1 Yes, Accused 15 did not manage the activities of the enterprise together with, Accused 9, 6, and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 110 to 111, Accused 15 had more information from his informer who was using the silver Jetta to lure the deceased to their direction.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 5, 15 and 25.

5.2.2 Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

GSM

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 5, 15 and 25.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Dan Phiri.

5.5.4 It is not clear when the common purpose was formed.

5.5.5 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.6 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as

G S M.

he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.6.2 The accused managed the tracking, locating and ultimate shooting of Dan Phiri.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

GSm

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

6.2 Accused 15 managed the tracking, tracing and ultimate shooting of the deceased Dan Phiri.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Dan Phiri.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

GSM

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25 Charles John Smith

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Dan Phiri.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

GSM

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 15 committed the crime of possession of firearms and ammunition jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 March 2009 when the deceased was tracked and shot at along Noordberg road (R614) Tongaat.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Dan Phiri at Tongaat.

7.2.3 Accused 15 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 15 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of

GSM

the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.7 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8. CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 15 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Dan Phiri that was committed on 18 Marchr 2009.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 15 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 8 – 12 the killing of Magojela and Tembe
Counts 58 – 61 the killing of Lindokuhle Nzuzo
Counts 80 – 93 the killing of Jabulani Bhengu
Counts 98 – 101 the killing of Mfanafuthi Zwane
Counts 109 – 112 the killing of Dan Phiri and
Counts 113 – 116 the killing of Nhlanhla Mhlongo

8.2- 8.4 The extent of participation of Accused 15 in these activities have been outlined in the Incidents:

Counts 8 – 12 dealt with in Incident 5
Counts 58 – 61 dealt with in Incident 14

GSM

Counts 80 – 93 dealt with in Incident 20
Counts 98 – 101 dealt with in Incident 2
Counts 109 – 112 dealt with in Incident 11 and
Counts 113 – 116 dealt with in Incident 17.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

COUNTS 110 – 111
UNLAWFUL POSSESSION OF A FIREARM
UNLAWFUL POSSESSION OF AMMUNITION
ACCUSED 25: CHARLES JOHN SMITH

Although the accused separated Count 110 and 111 in their request, the State deals with all the Counts 110 to 111 at the same time all the offences were committed at the same time by the same accused persons, the ammunition being inside the firearms concerned, it does not make sense really to separate them as if they are in fact separate conduct of separate accused persons.

1.1 It is the State's case that the:

- 7.65mm Calibre CZ semi-automatic pistol with serial number obliterated, which was marked by Warrant Tilakdharee of the Ballistic Unit 60233F and

- one (1) magazine, three (3) 7.65 Calibre cartridges and two (2) fired 7.65 Calibre cartridges which he marked 60233 E1 and E2

GSM

which were allegedly found at the scene of Dan Phiri's shooting incident at the Noordberg Road, Tongaat on 18 March 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased was a suspect in an ATM bombing case Nyoni CAS 41/04/2008 and 105/05/2008. The deceased Dan Phiri was waylaid to a place where the accused were waiting for him by a person dring a silver Jetta under the guise of a sale of a car.

- Inspector Karrim of the local LCRC arrived at the scene at approximately 12h05 on 18/03/2009 and took photos and made a sketch and plan of the scene.

- Dr T Naidoo conducted a post mortem of the body of the deceased and noted the positions of the wounds. Dr Perumal studied the post mortem, photos of the scene and other documents and made his observations.

- Mr Steyl did a reconstruction of the scene, made observations of the wounds, the position of the 7.65 Calibre CZ semi-automatic pistol and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212

GSM

found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 March 2009

1.2.2 The time of the act is around 10h30

1.2.3 The place of the act is on the Noordberg road (R614), Tongaat.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a 7.65 Calibre CZ semi-automatic pistol with serial number obliterated and
- a magazine with three (3) 7.65 Calibre cartridges
- and two (2) 7.65 fired cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
UNLAWFUL POSSESSION OF FIREARM AND AMMUNITION

2.1 Yes, it is the State case that the unlawful possession of the firearm and ammunition formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977,

GSM

when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official or ATM bombings irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 15 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

GSM

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 March 2009 when this 7.65 Calibre CZ semi-automatic pistol, a magazine and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Dan Phiri at Noodsberg road (R614),Tongaat, the Cato Manor members who were present are the following:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25: Charles John Smith

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect surveilance itself, being 18 March 2009. In Counts 110 - 111, the date is the 18 March 2009 at around 12h05.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the unlawful possession of the firearms and ammunition is related to other charges in the indictment.

GSM

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the unlawful possession of firearms and ammunition is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official or the ATM bombings, in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban

GSM

Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and Incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

GSM

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 15 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 25 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 110 to 111, Accused 15 had more information from his informer who was using the silver Jetta to lure the deceased to their direction.

GSM

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 5, 15 and 25.

5.2.2 Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 5, 15 and 25.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Dan Phiri.

5.5.7 It is not clear when the common purpose was formed.

5.5.8 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

G SM

5.5.9 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.6.2 The accused managed the tracking, locating and ultimate shooting of Dan Phiri.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

Esm

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of unlawful possession of firearms and ammunition whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he

G Sm

was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

6.2 Accused 15 managed the tracking, tracing and ultimate shooting of the deceased Dan Phiri.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Dan Phiri.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25 Charles John Smith

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Dan Phiri.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

GSM

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 25 committed the crime of possession of firearms and ammunition jointly with the other accused whilst employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 March 2009 when the deceased was tracked and shot at along Noordberg road (R614) Tongaat.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Dan Phiri at Tongaat.

7.2.3 Accused 25 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

G Sm

7.2.4 Accused 25 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.8 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 25 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Dan Phiri that was committed on 18 Marchr 2009.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

GSM

The other activities that Accused 25 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 94 – 97 the killing of Qinisani Gwala
Counts 109 – 112 the killing of Dan Phiri

8.2- 8.4 The extent of participation of Accused 25 in these activities have been outlined in the Incidents:

Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 94 – 97 dealt with in Incident 23
Counts 109 – 112 dealt with in Incident 11.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7 – 8.8 Yes same as 6.3 above.

COUNT 112
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 5: ERIC NEL

1.1 It is the State's case that the:

- 7.65mm Calibre CZ semi-automatic pistol with serial number obliterated, which was marked by Warrant Tilakdharee of the Ballistic Unit 60233F and

GSM

- one (1) magazine, three (3) 7.65 Calibre cartridges and two (2) fired 7.65 Calibre cartridges which he marked 60233 E1 and E2

which were allegedly found at the scene of Dan Phiri's shooting incident at the Noordberg Road, Tongaat on 18 March 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased was a suspect in an ATM bombing case Nyoni CAS 41/04/2008 and 105/05/2008. The deceased Dan Phiri was waylaid to a place where the accused were waiting for him by a person dring a silver Jetta under the guise of a sale of a car.

- Inspector Karrim of the local LCRC arrived at the scene at approximately 12h05 on 18/03/2009 and took photos and made a sketch and plan of the scene.

- Dr T Naidoo conducted a post mortem of the body of the deceased and noted the positions of the wounds. Dr Perumal studied the post mortem, photos of the scene and other documents and made his observations.

- Mr Steyl did a reconstruction of the scene, made observations of the wounds, the position of the 7.65 Calibre CZ semi-automatic pistol and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mdull with other police members in the Quantum, only to return immediately, asking Mdlull where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

- the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

- The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.1.1 The date of the act is 18 March 2009

1.1.2 The time of the act is around 10h30

1.1.3 The place of the act is on the Noordberg road (R614), Tongaat.

1.2 No the State does not rely on an omission.

1.3 The firearm concerned is:-

- a 7.65 Calibre CZ semi-automatic pistol with serial number obliterated and

- a magazine with three (3) 7.65 Calibre cartridges

- and two (2) 7.65 fired cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the Defeating or Obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the

Esm

shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official or ATM bombings irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayl" or "spoek" which is a term that they used, in particular, Accused 15 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to

GSM

create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 March 2009 when this 7.65 Calibre CZ semi-automatic pistol, a magazine and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Dan Phiri at Noodsberg road (R614),Tongaat, the Cato Manor members who were present are the following:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25: Charles John Smith

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect surveilance itself, being 18 March 2009. In Counts 110 - 111, the date is the 18 March 2009 at around 12h05.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

G sm

3.1 Yes, it is the State's case that the offence of defeating the course of justice is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the defeating or obstructing the course of justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official or the ATM bombings, in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

E.sm

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23

GSM

Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 15 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 5 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 110 to 111, Accused 15 had more information

G sm

from his informer who was using the silver Jetta to lure the deceased to their direction.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 5, 15 and 25.

5.2.2 Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 5, 15 and 25.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Dan Phiri.

5.5.10 It is not clear when the common purpose was formed.

G S M

5.5.11 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.12 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.6.2 The accused managed the tracking, locating and ultimate shooting of Dan Phiri.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations

G SM

(DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of defeating or obstructing the course of justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

G Sm

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

6.2 Accused 15 managed the tracking, tracing and ultimate shooting of the deceased Dan Phiri.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Dan Phiri.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25 Charles John Smith

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Dan Phiri.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

GSM

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 5 committed the crime of defeating or obvstructing the course of justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 March 2009 when the deceased was tracked and shot at along Noordberg road (R614) Tongaat.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Dan Phiri at Tongaat.

G JM

7.2.3 Accused 5 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 5 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

7.9 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 5 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Dan Phiri that was committed on 18 Marchr 2009.
- The unlawful posesession of firearms committed on the same day.

GSM

- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 5 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 8 – 12 the killing of Magojela and Tembe
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 102 – 103 the killing of Sanele Majola
Counts 104 – 108 the killing of Nhlanhla Masondo
Counts 109 – 112 the killing of Dan Phiri

8.2- 8.4 The extent of participation of Accused 5 in these activities have been outlined in the Incidents:

Counts 8 – 12 dealt with in Incident 5
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 102 – 103 dealt with in Incident 3
Counts 104 – 108 dealt with in Incident 8
Counts 109 – 112 dealt with in Incident 11.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.8 – 8.8 Yes same as 6.3 above.

GSM

COUNT 112

DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

ACCUSED 15: ANTON LOCKEM

1.1 It is the State's case that the:

- 7.65mm Calibre CZ semi-automatic pistol with serial number obliterated, which was marked by Warrant Tilakdharee of the Ballistic Unit 60233F and

- one (1) magazine, three (3) 7.65 Calibre cartridges and two (2) fired 7.65 Calibre cartridges which he marked 60233 E1 and E2

which were allegedly found at the scene of Dan Phiri's shooting incident at the Noordberg Road, Tongaat on 18 March 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased was a suspect in an ATM bombing case Nyoni CAS 41/04/2008 and 105/05/2008. The deceased Dan Phiri was waylaid to a place where the accused were waiting for him by a person dring a silver Jetta under the guise of a sale of a car.

- Inspector Karrim of the local LCRC arrived at the scene at approximately 12h05 on 18/03/2009 and took photos and made a sketch and plan of the scene.

- Dr T Naidoo conducted a post mortem of the body of the deceased and noted the positions of the wounds. Dr Perumal studied the post mortem, photos of the scene and other documents and made his observations.

G SM

- Mr Steyl did a reconstruction of the scene, made observations of the wounds, the position of the 7.65 Calibre CZ semi-automatic pistol and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

1.2.1 The date of the act is 18 March 2009

1.2.2 The time of the act is around 10h30

1.2.3 The place of the act is on the Noordberg road (R614), Tongaat.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a 7.65 Calibre CZ semi-automatic pistol with serial number obliterated and

GSM

- a magazine with three (3) 7.65 Calibre cartridges
- and two (2) 7.65 fired cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the Defeating or Obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official or ATM bombings irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

G SM

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayi" or "spoek" which is a term that they used, in particular, Accused 15 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 March 2009 when this 7.65 Calibre CZ semi-automatic pistol, a magazine and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Dan Phiri at Noodsberg road (R614),Tongaat, the Cato Manor members who were present are the following:-

GSM

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25: Charles John Smith

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayi's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect surveillance itself, being 18 March 2009. In Counts 110 - 111, the date is the 18 March 2009 at around 12h05.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of defeating the course of justice is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

4. PATTERN OF RACKETEERING ACTIVITY
RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the defeating or obstructing the course of justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official or the ATM bombings, in a manner that is acceptable in the eyes of the law and the

GSM

community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

G.sm

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 15 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the

GSM

IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 Yes, Accused 15 did manage the activities of the enterprise, together with Accused 9, 6, and 16, in their capacity as Commanders at SVC section, together they were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 110 to 112, Accused 15 had more information from his informer who was using the silver Jetta to lure the deceased to their direction.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 5, 15 and 25.

5.2.2 Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato

G5m

Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 5, 15 and 25.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Dan Phiri.

5.5.13 It is not clear when the common purpose was formed.

5.5.14 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.15 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for

GSM

him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.6.2 The accused managed the tracking, locating and ultimate shooting of Dan Phiri.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of defeating or obstructing the course of justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise, which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

GSM

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

6.2 Accused 15 managed the tracking, tracing and ultimate shooting of the deceased Dan Phiri.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Dan Phiri.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

GSM

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25 Charles John Smith

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Dan Phiri.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

G sm

7.1 Yes it is alleged that Accused 15 committed the crime of defeating or obvstructing. the course of justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 March 2009 when the deceased was tracked and shot at along Noordberg road (R614) Tongaat.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Dan Phiri at Tongaat.

7.2.3 Accused 15 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 15 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

GSM

7.10 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 15 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Dan Phiri that was committed on 18 Marchr 2009.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 15 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 8 – 12 the killing of Magojela and Tembe
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 102 – 103 the killing of Sanele Majola
Counts 104 – 108 the killing of Nhlanhla Masondo
Counts 109 – 112 the killing of Dan Phiri

8.2- 8.4 The extent of participation of Accused 15 in these activities have been outlined in the Incidents:

Counts 8 – 12 dealt with in Incident 5
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 102 – 103 dealt with in Incident 3
Counts 104 – 108 dealt with in Incident 8

GSM

Counts 109 – 112 dealt with in Incident 11.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.7– 8.8 Yes same as 6.3 above.

COUNT 112
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE
ACCUSED 25: CHARLES JOHN SMITH

1.1 It is the State's case that the:

- 7.65mm Calibre CZ semi-automatic pistol with serial number obliterated, which was marked by Warrant Tilakdharee of the Ballistic Unit 60233F and

- one (1) magazine, three (3) 7.65 Calibre cartridges and two (2) fired 7.65 Calibre cartridges which he marked 60233 E1 and E2

which were allegedly found at the scene of Dan Phiri's shooting incident at the Noordberg Road, Tongaat on 18 March 2008 were brought by the accused to the scene so that they could justify their unlawful shooting of the deceased. The State relies on circumstantial evidence and similar fact evidence to found a conviction on the unlawful possession of the firearm and ammunition. The following objective facts will, be proved:

- The deceased was a suspect in an ATM bombing case Nyoni CAS 41/04/2008 and 105/05/2008. The deceased Dan Phiri was waylaid to a

G SM

place where the accused were waiting for him by a person dring a silver Jetta under the guise of a sale of a car.

- Inspector Karrim of the local LCRC arrived at the scene at approximately 12h05 on 18/03/2009 and took photos and made a sketch and plan of the scene.

- Dr T Naidoo conducted a post mortem of the body of the deceased and noted the positions of the wounds. Dr Perumal studied the post mortem, photos of the scene and other documents and made his observations.

- Mr Steyl did a reconstruction of the scene, made observations of the wounds, the position of the 7.65 Calibre CZ semi-automatic pistol and drew his conclusions.

- Similar fact evidence relating to other incidents in which Accused 4 and other Cato Manor police brought firearms to the scene will also be relied upon, such as

    - the scene of Prince Thabede's death at KwaMashu township on 26 November 2009 when Accused 4 went into the house carrying his official R5 rifle, leaving Nqaba Mduli with other police members in the Quantum, only to return immediately, asking Mdluli where his "mbombayi' or "spoek" is, and this was the firearm that was brought to be planted on the scene.

    - the scene of Khanyisani Biyela's shooting at Melmorth on 23 November 2008 where Captain Chris Mangena, witness 212 found that the firearm found next to the deceased arm as depicted on page 27 of his report (pattern 5) was clean, or clear of blood spatter on a bloodied scene, attracting the unavoidable conclusion that it was placed on the scene after the shooting.

    - The scene of Sibusiso Tembe's shooting on the N3 highway at Howick on 16 September 2008 where Jacob Steyl, witness 213 found that the AK47 cartridge cases found inside the vehicle were on top of the blood without any blood spatter on a bloodied scene.

G SM

1.2.1 The date of the act is 18 March 2009

1.2.2 The time of the act is around 10h30

1.2.3 The place of the act is on the Noordberg road (R614), Tongaat.

1.3 No the State does not rely on an omission.

1.4 The firearm concerned is:-

- a 7.65 Calibre CZ semi-automatic pistol with serial number obliterated and
- a magazine with three (3) 7.65 Calibre cartridges
- and two (2) 7.65 fired cartridges.

2. AD PATTERN OF RACKETEERING ACTIVITY
DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE

2.1 Yes, it is the State case that the Defeating or Obstructing the course of justice formed part of the racketeering activity as defined by section 1 of Act 121 of 1998.

2.2 the modus operandi which was consistently used by the accused involved the placing of a firearm next to the body of the deceased immediately after the shooting to create the impression that the deceased was having a firearm thereby posing some danger to the Cato Manor police so that their shooting of the deceased is made justifiable in terms of section 49(2) of Act 51 of 1977, when in fact they brought that unlicensed firearm with so that it is planted at the scene. At most of the scenes, they prevented other police units from getting closer to the scene until they had doctored the scene by planting a firearm next to the deceased.

2.2.1 the precise date and time the accused formed the plan to commit the offence of unlawful possession of firearms and ammunition and the rest of the murders is unknown to the State, safe to state that immediately after Superintendent Choncho was killed on 27 August 2008, the Cato Mano police

 GSM

made it their business to track and trace anyone that they suspected of having taken a part in the killing of Sup Choncho and any other police official or ATM bombings irrespective of the amount of evidence that they had against the person concerned, to the extent of revenging the death of Sup Choncho. It is the State case that the idea to procure these unlicensed firearms and use them at the scenes of shooting where KwaMaphumulo Taxi members are shot, was hatched.

2.2.2 the place where the plan was hatched is unknown to the State.

2.2.3 the full terms of the plan is a matter of evidence, safe to indicate that whenever the Cato Manor police travelled to the places where they were conducting raids, they would as part of their planning make sure that they bring the "mbombayl" or "spoek" which is a term that they used, in particular, Accused 15 when they were going to plant it at the scene.

2.2.4 Yes, it is the State case that more than one person was involved in the plan to commit the offence of unlawful possession of firearm and ammunition:

- the firearms and ammunition would be brought with to all their suspect raids.

- immediately after the shooting one member was tasked to prevent other units or individuals from getting closer to the scene until it is doctored by placing a firearm next to the body of the deceased to create the impression that the deceased posed some form of danger to the police that would make their shooting justifiable in terms of the law.

- It is not surprising that not a single one of them got injured nor any of their vehicles got damaged despite all these suspects who fire shots at them. It is equally surprising that a suspect who knew them would, while being alone think about producing a firearm against so many police officials who would be part of the pursuit team or the police raid.

 GSM

2.3 the members who would take part in any of the incident which formed part of a racketeering activity would depend on the availability of the member and on who is on duty on the date in question.

2.3.1 on the 18 March 2009 when this 7.65 Calibre CZ semi-automatic pistol, a magazine and ammunition mentiones in paragraph 1.4 above were possessed by the members who took part in the tracking and shooting of Dan Phiri at Noodsberg road (R614),Tongaat, the Cato Manor members who were present are the following:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25: Charles John Smith

2.3.2 – 2.3.4 the bringing along of the unlawful firearms, "spoeks", or "mbombayl's to suspect raids was a joint responsibility of the members, including the preventing of other units of the SA Police Service from accessing the scene before it is doctored properly. In most instances accused 4 and accused 6 did most of these two roles. The date, time and place of the act of participation will be the date of the suspect surveilance itself, being 18 March 2009. In Counts 110 - 111, the date is the 18 March 2009 at around 12h05.

3. **PATTERN OF RACKETEERING ACTIVITY**
RELATIONSHIP QUA PREDICATE OFFENCES

3.1 Yes, it is the State's case that the offence of defeating the course of justice is related to other charges in the indictment.

3.2 the unlawful possession of firearms and ammunition was part of the accused's modus operandi at any of the suspect raids that they were executing. The accused required the unlawful firearms to make their shooting justifiable in terms of the law. The firearm had to be placed next to the deceased so that it is more acceptable that the deceased posed some danger to the deceased.

 GSM

4. PATTERN OF RACKETEERING ACTIVITY

RELATIONSHIPQUA THE ENTERPRISE

4.1 Yes, it is the State case that the defeating or obstructing the course of justice is related to the enterprise as defined in section 1 of Act 121 of 1998.

4.2.1 It is the objective of the enterprise to eliminate all the suspects who are linked with the killing of Sup Choncho and any other police official or the ATM bombings, in a manner that is acceptable in the eyes of the law and the community. It is for this reason that the shootings of the members of KwaMaphumulo Taxi Association who are suspected of involvement in the Choncho killing and suspects of ATM bombings and ordinary civilians suspected of gang violence have to be made justifiable by using a "mbombayi", "spoek" or unlicensed firearm which is placed next to the deceased to create the requisite threat that makes it a justifiable shooting. The enterprise required to continue eliminating suspects without drawing a lot of criticism, this why they were able to kill so many people without the law detecting their trick.

4.2.2 the enterprise remains the same in all the charges, only the members may differ depending on who is on duty and available on the date of the operation. The organisational structure of the enterprise is the same as has been outlined on Page 4 of this submission.

4.2.3 the operational structure is the same as has been outlined on page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

4.2.4 the hierarchal structure of the persons managing, employed by or associated with the enterprise has been outlined on Page 4 of this submission.

4.2.5 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the

GSM

Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

4.2.6 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact. It means disguising that they are police officials when their deeds are in fact those of criminals, which would never be authorised as police action.

4.2.7 the affairs, operations and activities of the enterprise have been outlined as Counts and incidents above as follows:-

Counts 3 – 7 dealt with in Incident 4
Counts 8 – 12 dealt with in Incident 5
Counts 13 – 18 dealt with in Incident 6
Counts 31 – 34 dealt with in Incident 15
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 58 – 61 dealt with in Incident 14
Counts 62 – 65 dealt with in Incident 16
Counts 66 – 69 dealt with in Incident 18
Counts 80 – 93 dealt with in Incident 20 - 22
Counts 94 – 97 dealt with in Incident 23
Counts 98 – 101 dealt with in Incident 2 and
Counts 102 – 103 dealt with in Incident 3.

4.3 4.3 – 4.8 Yes it is alleged that the killings were PLANNED, ONGOING, CONTINUOUS or REPEATED as is required in Section 1 of Act 121 of 1998. The killings commenced or continued from the 24 May 2008 with that of Thabo Msimango, continued on various dates as outlined in the table on page 6 of this submission until the 23 September 2011 with the killing of Philangenkosi Gwala. The continuous and ongoing requirement does not necessarily require the incident to commence and finish in a particular year or month, what is required is just that the incidents continue over a period of time to form a pattern of

GSM

racketeering activity. The nature of the predicate offences and the relationship between the offences is a guiding factor. In this instance, various shootings take place over a period of time.

4.10 Accused 15 and other accused were involved in the procurement of the Mbombayi's and making sure that they are taken along when the suspect raids and other suspect tracing take place so that they can be placed on the scenes next to the deceased immediately after the shooting has taken place, before the relevant police units are invited to take photographs (LCRC), the IPID (for police incidents) and other experts to the scenes, to make the shootings appear justifiable in terms of the law.

Accused 6 was tasked in most instances with the control and protection of the scenes immediately after the shootings and would ensure that other police units are not allowed on the scene before the scene is doctored to accord with their version of a justifiable shooting. Other accused persons would take this responsibility when accused 6 was unavailable on that operation.

5. **WHILST MANAGING THE ACTIVITIES OF THE ENTERPRISE**

5.1 No, Accused 25 did not manage the activities of the enterprise, Accused 9, 6, 15 and 16, in their capacity as Commanders at SVC section, together with who were the co-managers of the enterprise. Whenever any of them would not be at that particular scene, the most senior member would fulfil that management role. In Counts 110 to 111, Accused 15 had more information from his informer who was using the silver Jetta to lure the deceased to their direction.

5.2 Yes, Accused 9, 15 and 16 created an environment in which the activities of the enterprise could take place by giving his members access to resources without engaging the Unit Commander, knowing that he has the blessings of the Provincial Commander.

5.2.1 The enterprise remains the same and continues to be the same in all its activities. In this incident, the accused persons who participated in the enterprise are Accused 5, 15 and 25.

 G.S.M

5.2.2 Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect. He also ensured that the "mbombayi's" are taken along for the operation.

5.2.3 the organisational structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.2.4 the operational structure of the enterprise remains the same as has been outlined on Page 4 of this submission. It operated the same as the Cato Manor section of Durban Organised Crime Unit with Sup Olivier as the Section Commander and the Captains as Group Commanders. The most senior on the day who is available, takes charge of the troops.

5.2.5 the hierarchical structure of the enterprise remains the same as has been outlined on Page 4 of this submission.

5.3 Yes the enterprise was a group of persons who included Accused 5, 15 and 25.

5.4 Yes, each person who was part of the enterprise formed a common purpose to take part actively in the tracking, arrest and shooting of Dan Phiri.

5.5.16 It is not clear when the common purpose was formed.

5.5.17 the parties to the common purpose are all the accused persons who took part in the chasing and ultimate shooting of the deceased.

5.5.18 the terms or nature of the course of conduct agreed upon by the entity is a matter for evidence.

5.6.1 the work and functions of each persons employed by the enterprise or associated with the enterprise can be summarized as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking

 GSM

for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

5.6.2 The accused managed the tracking, locating and ultimate shooting of Dan Phiri.

5.7 – 5.8 Yes, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

5.9 – 5.10 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal framework of the SA Police Service and mandate of the legal entity and associated themselves in fact.

6. WHILST EMPLOYED BY THE ENTERPRISE

6.1 Yes, the accused committed the offence of defeating or obstructing the course of justice whilst employed by the enterprise. The work and functions of each person employed by the enterprise or associated with the enterprise,

 GSm

which is executed to advance the objective of the enterprise can be summarized as follows:

Accused 16 as Section Commander provided the team with resources, thereby creating an environment in which the members could work and advance the objective of the enterprise.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspects. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 15 ensured that all the participants are briefed and updated as to the latest information relating to the movements of the suspect that he recived from his informers. He also ensured that the "mbombayi's" are taken along for the operation.

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

GSM

6.2 Accused 15 managed the tracking, tracing and ultimate shooting of the deceased Dan Phiri.

6.3 dealt with at 6.1 above.

6.4 Yes it is alleged that each member of the enterprise formed a common purpose and associated themselves with the tracing, arrest and shooting of Dan Phiri.

6.5.1 It is not clear when the common purpose was formed.

6.5.2 The parties who took part in the execution of the conduct are:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25 Charles John Smith

6.5.3 The terms or nature of the conduct agreed upon was the tracking, locating and shooting of Dan Phiri.

6.5.4 the organisational structure is the same as the one outlined on Page 4 of this submission.

6.5.5 the operational structure of the enterprise is a matter of evidence.

6.5.6 the hierarchical structure of the enterprise has been outlined on page 4 of this submission.

6.5.7 the same as in paragraph 6.1 above.

6.5.8 the affairs, operations and activities of the enterprise have been outlined in detail when the incidents were dealt with from Incident 1, which forms Counts 35 – 38, the killing of Thabo Msimango on 24 May 2008 until Incident 23, which forms Counts 94 – 98, the killing of Qinisani Philangenkosi Gwala on 4 September 2011.

 GSM

6.6 – 6.7 Yes and No, it is alleged in the main argument that the enterprise was a legal entity, the Serious Violent Crime section based at Cato Manor functioning under Durban Organised Crime Unit which is part of the provincial structure of the Directorate for Priority Crimes Investigations (DPCI) which is part of the South African Police Service, a legal entity established by legislation, the SA Police Act 68 of 1995.

6.8 – 6.9 Yes, the State argues in the alternative that members of the Serious Violent Crime section acted loosely as individuals outside the legal mandate of the legal entity and associated themselves in fact.

7. WHILST ASSOCIATED WITH THE ENTERPRISE

7.1 Yes it is alleged that Accused 25 committed the crime of defeating or obvstructing the course of justice jointly with the other accused whist employed or associated with the enterprise.

7.2 The enterprise remains the same in respect of all the offences committed, the only difference is the members who participated in the activities of the enterprise, these are the members who were on duty and were available on 18 March 2009 when the deceased was tracked and shot at along Noordberg road (R614) Tongaat.

7.2.2 The association was by means of conduct that is destined to achieve the same results. These include the tracing of Dan Phiri at Tongaat.

7.2.3 Accused 25 associated himself with the enterprise when he performed functions and executed tasks which advanced the objectives of the enterprise.

7.2.4 Accused 25 kept a close and loyal and friendly relationship with Accused 9, Captain Olivier and General Booysen to the exclusion of his Unit Commander. This trust relationship originated from the time when they were working together within the environment of the Serious Violent Crime section before it was incorporated into Organised Crime.

7.3 Yes, the same names as listed in 6.3 above.

 GSM

7.4 Yes.

7.5 Same as in 6.5 above.

7.6 Yes and No, the enterprise as it is argued is the Serious Violent Crime section of Cato Manor which operated as part of the Durban Organised Crime Unit of the SA Police Service. Whereas the SA Police Service is a legal entity, it cannot be said that SVC section of the Durban Organised Crime is a legal entity on its own. It exists under the auspices of the SA Police Service and the SVC section of Cato Manor was operating under the veil or cover of the SA Police Service.

1.5 Same as 7.6 above.

7.8 Same as 7.6 above

7.9 Same as 7.6 above.

8.CONDUCTING THE AFFAIRS OF THE ENTERPRISE

8.1 The affairs of the enterprise that Accused 25 is alleged to have taken part in or participated in through a pattern of racketeering activities include the

- murder of Dan Phiri that was committed on 18 Marchr 2009.
- The unlawful possession of firearms committed on the same day.
- The unlawful possession of ammunition committed on the same day.
- The defeating the ends of justice committed on the same day.

The other activities that Accused 25 participated in include the predicate offences that are listed on Page 25 of this submission:

Counts 8 – 12 the killing of Magojela and Tembe
Counts 35 – 38 the killing of Thabo Msimango
Counts 39 – 52 the killings of Khanyisani Biyela and Bongani Biyela
Counts 53 – 57 the killing of Thokozani Njapha
Counts 102 – 103 the killing of Sanele Majola

 GSM

Counts 104 – 108 the killing of Nhlanhla Masondo
Counts 109 – 112 the killing of Dan Phiri

8.2- 8.4 The extent of participation of Accused 25 in these activities have been outlined in the Incidents:

Counts 8 – 12 dealt with in Incident 5
Counts 35 – 38 dealt with in Incident 1
Count 39 – 52 dealt with in Incident 9
Counts 53 – 57 dealt with in Incident 12
Counts 102 – 103 dealt with in Incident 3
Counts 104 – 108 dealt with in Incident 8
Counts 109 – 112 dealt with in Incident 11.

8.5 – 8.6 Yes members of the Stanger Taxi Association paid Cato Manor members after the killing of Magojela and Tembe. Sanele Zondi and Bongizwe Mhlongo raised an amount of R750 000, 00 and went to pay Cato Manor police in particular Booysen for this killing. It is inferred that they were paid for this killing too. This killing was also used to get monetary rewards and certificates within the SAPS.

8.9 – 8.8 Yes same as 6.3 above.

COMMON PURPOSE
AD INCIDENT ON THE 18 MARCH 2009: THE SHOOTING OF DAN PHIRI: COUNTS 109 – 112
ACCUSED 5: ERIC NEL
ACCUSED 15: ANTON LOCKEM
ACCUSED 25: CHARLES JOHN SMITH AND

It appears from the predominant facts at the State's disposal that a common pupose to commit the offences outlined can be inferred from the conduct of the members of the enterprise in the commission of the offences which form part of the pattern of racketeering acivity. The incident on the 18 March 2009 cannot be taken in isolation of other incidents or operations of the enterprise, it must be considered in the light of all the incidents as outlines in the table on Page 6 of this submission, Incident 1 on

GSM

24 May 2008 (the killing of Thabo Msimango) until Incident 23 on 3 September 2011 (the killing of Philangenkosi Gwala). One must also not loose sight of the regular briefings which the members of the enterprise get involved in prior to each and every operation where suspects are traced.

The accused who form part of the particular incident as outlined on the table Pages 6 to 23 formed a prior agreement in respect of that particular incident in which they were involved for instance in Count 109 – 112, it is the State's case that the following accused persons did form a common purpose to kill Dan Phiri:-

Accused 5: Eric Nel
Accused 15: Anton Lockem and
Accused 25: Charles John Smith

1.1.1 The is not precisely certain about the time that the accused became party to the prior agreement to commit the offences on 18 March 2009, safe to state that when they met the deceased alongthe Noordberg (R614) at Tongaat a prior agreement to commit the offences that have been listed in Count 109 - 112 was formed by the accused persons.

1.1.2 Same as in paragraph 1.1 above

1.1.3 The terms of the agreement is a matter of evidence.

1.1.4 All the parties involved in the agreement and their roles can be repeated as follows:

Accused 5, 15 and 25 were surveiling the movements of Dan Phiri with the assistance of the driver of the silver grey Jetta motor vehicle with a false deal to sell him a car, in stead lured him to the direction of the Accused 5, 15 and 25 so that they could get him with ease. The Cato Manor police were looking for the deceased for an alleged ATM bombing Nyoni CAS 41/05/2008, 105/5/2008. The deceased was in the company of two (2) passangers who were then arrested.

GSM

Accused 15 and 25 opened the passanger doors and pulled the passangers out of the white Corolla and instructed them to lie down between Dan Phiri's white Corolla and the police vehicle. Accused 5 went to Dan Phiri's side as he was still in a seated position in the car, told him that he had been looking for him for a long time and that he is going to die on that day. The deceased was crying and begging them not to kill him. Accused 5 shot him several times as he was still in a seated position in the car, as he was almost a meter away from the deceased. The deceased was a paraplegic who uses crutches to walk. Cato Mano police had already made up their minds to eliminate him. Accused 15 and 25 placed the passangers under arrest.

1.1.5 Same as 1.1.4 above

1.1.6 The date, time and place of the act are the same as in paragraph 1.1 above.

2 Yes it is alleged that the accused formed an act of association with one another.

2.1.1 Same as in paragraph 1.1.4 above.

2.1.2 Same as in paragraph 1.1.1 above.

2.1.3 Same as in paragraph 1.1.1 above.

2.1.4 Same as in paragraph 1.1.4 above.

2.1.5 Same as in paragraph 1.1.4 above.

3 The State relies on prior agreement in the main argument, in the alternative the State will argue that it can be inferred from the proven facts.

National Director of Public Prosecutions

FROM: Adv M.I. Thenga
Director of Public Prosecutions

DATE: 13 August 2015

RE: LEGAL OPINION – S v NOMGCOBO JIBA

Dear Adv Abrahams

A. Background leading up to the charges against Adv Jiba

1. A policeman known as Johan Booysen who was the Commander of the Cator Manor Unit in KZN, together with other SAPS members under his command, were charged for crimes committed in KZN. The Commander was one of the members charged with racketeering.

   For the racketeering charge to be sustained, section 2(4) of the Prevention of Organised Crime Act No 121 of 1998 stipulates that *"A person shall only be charged with committing an offence contemplated in subsection (1) if the prosecution is authorised in writing by the National Director."*

2. Part 46 of the NPA Policy Directives paragraph 3 also stipulates that a person may only be charged with committing an offence relating to racketeering if the prosecution is authorised by the National Director.

Presently, an amended Part 46 of the NPA Policy Directives which came into being from 15 June 2015, contains the same directive though in paragraph 2 and no longer paragraph 3.

For our purpose, paragraph 3 of Part 46 is applicable in this instance.

3. Section 2(2) of POCA stipulates that *"The court may hear evidence including evidence with regard to hearsay, similar facts or previous convictions, relating to offences contemplated in subsection (1), notwithstanding that such evidence might otherwise be inadmissible, provided that such evidence would not render a trial unfair."*

B. **Is there liability arising out of any action by any authorised person during the performance of his/her duties as stipulated in this law (POCA) Prevention of Organised Crime Act?**

4. **Section 78 of POCA – Liability**

The above-named section in the Act provides that *"Any person generally or specifically authorised to perform any function in terms of this Act, shall not in his or her personal capacity be liable for anything done in good faith under this Act."*

C. **Is the National Director one of the authorised persons as stipulated in this Act?**

5. In this instance, the National Director can authorise in writing a DPP, Investigating DPP and Special DPP, to deal with a specific case or in general.

6. In real terms a certificate to authorise racketeering charges must be authorised in writing by the National Director. This is also provided for in the NPA Policy Directive Part 46 paragraph 3 as stipulated above. Because of this, section 2(4) of POCA must therefore be read with section 78 of the same Act.

D. **Are there any steps to be taken by prosecutors prior to the signing of the Racketeering Certificate by the National Director?**

7. My experience is that the prosecution team together with the investigation team have series of meetings to fully discuss the

G Sm

case in order to give prosecutors the opportunity to guide the investigation along the way.

As soon as the prosecution team is able to draft the Indictment plus the Prosecution Memorandum, they have to make an appointment for a meeting with Adv Anthony Mosing tasked with the coordination of the cases that have racketeering charges among others.

8. The purpose for the meeting is basically to do a presentation to Adv Mosing with a view to get further advise if there is any need to make certain changes in the Prosecution Memorandum or the Indictment, and further to assess the existence of a *prima facie* case of racketeering plus the enterprise and managers or participants in the enterprise.

9. In some instances, Adv Mosing will allow the prosecution team to do the same presentation to the National Director, his/her Deputies plus the Asset Forfeiture DNDPP.

   In the event the presentation take the direction as stated at paragraph 9, any of the Senior Managers present with the National Director pose questions to the team to have any issue(s) clarified or corrected.

10. The prosecution team will be given an opportunity to do the corrections and a further date will normally be given to see if suggested corrections were implemented or a need to do further corrections exists.

    There is also a need to listen to the police, be it the Investigating Officer and his team, so that the same route to try and understand the case or suggest further investigation takes place.

11. When all is done and a corrected document exists, a certificate is normally drafted, requesting that the National Director authorise in writing the racketeering prosecution of such person(s) in accordance with section 2(4) of the POCA.

    Basically the Prosecutor's Memorandum plus the Indictment comply with the provisions of section 2(2) of POCA, evidence around hearsay, similar facts, as long as such evidence would not render the trial unfair.

GSM

I refer to an affidavit of Adv Mosing paragraphs 11 and 12 where the same procedure as explained above, was followed before a certificate for racketeering could be signed by the National Director.

Annexure "A" being copy of the Judgment in *Brenton Frank and 3 others v National Director* paragraph 12 at 11.5 – 11.6, it was explained by Ms Blasessur on affidavit that *"Although the Prosecutor's Memorandum is prepared by the prosecutors who deal with the matter in Court (in casu by Gangai and I), it is the product of many minds."* 11.6 *"In this case it is the product of many telephonic discussions, consultations, emails, meetings and research by and between the aforementioned prosecutors and/or the investigators and/or advocate Johan Kruger (Kruger) and Elijah Mamabolo (both Senior State Advocates from the Office of the NDPP) and/or DDPP (Sankar) and Advocate Kalaivani Govender (Govender)."*

The above is confirmation on how the section 2(4) certificate by the NDPP ended up being signed.

An important aspect of the above referred case was *"the decision arrived at by the court that in considering the contents of the Prosecution Memorandum and its possible negative impact on proper prosecution of this case if disclosed. My view is that the State was entitled to refuse to furnish it in its entirety. It is therefore correct that the NDPP did not intend to detail all the information that was placed before her."* Per court.

E. Coming to the Statement provided by Adv Maema, who was leading the prosecution team, he confirmed various consultations and briefings made by the prosecution team and the investigation team to the NDPP. The above was already explained by the Head of the Special Projects, Adv Mosing.

All the necessary consultations with the NDPP, as already explained by Adv Mosing, led to the written authorisation of the Racketeering Certificate by the NDPP, Adv Jiba.

General Booysen, after he was arrested and later released on bail, launched the application challenging the racketeering decision on the basis of the principle of legality in accordance with section 172 (1)(a) and (b) of the Constitution Act, Act 108 of 1996, that the decision was irrational and not supported by evidence.

G Sm

A decision to oppose the application by the accused in the main case Adv Jiba led to the consultation between their lawyers and such prosecution team where they were advised that:

(i) The decision to prosecute was not reviewable in terms of the Promotion of Access to Information Act 3 of 2000.

(ii) The Prosecution Memorandum should not be made available to the applicants as it is privileged communication between the DPP and ANDPP.

(iii) The court lacked jurisdiction.

The prosecution team then prepared a proposed response to the application of the accused in the main case plus an arch lever file which contained:

(i) Unsigned Statement of Danikas.

(ii) Statement of Ndlondlo.

(iii) Statement of Aiyer.

(iv) Monetary awards.

(v) High Court interdict of a taxi driver who ended up killed by police.

(vi) Clarified role of General Booysen in the management of the enterprise.

Applicant, General Booysen, filed a replying affidavit and that led the team to meet and sent a proposal to Adv Hodes to respond, that never happened till court made a decision on the matter.

Apparently, the judgment indicated that counsel for the State made several concessions and the team then met with counsel who confirmed that he only conceded on the issue around jurisdiction and the court therefore got it all wrong. See paragraphs 14 and 15 of Adv Maema's affidavit.

It is important to note that Adv Chauke confirms Adv Hodes who had under oath in his affidavit said that he only made one concession around the jurisdiction. Adv Chauke was in court when the matter was argued. Adv Hodes is prepared to have a record of

GSM

the proceedings obtained, which will substantiate his contentions in this matter. See paragraphs 7 and 8 of Adv Hodes' affidavit.

On the other hand, Adv Maema's contention is that *"It cannot be correct that the ANDPP could have lied under oath. She acted on the advice of the DPP and the prosecution team and that inaccuracies about the dates in the statements was caused by counsel's failure to show the team the statements before filing them."*

What he, Adv Maema is saying is that had counsel provided the draft statement before filing, proper corrections could have been made.

F. **Charges preferred against Adv Jiba justified or not**

(i) I have already referred to the procedure that had to be followed before a request for the Racketeering Certificate could be authorised in writing by the NDPP.

(ii) The requirements stipulated by section 2(2) of POCA around the type of evidence that a court hearing a case of racketeering may entertain.

(iii) In the case in issue, the affidavits of Adv Maema, Mosing, Chauke and the legal representative of the then Acting NDPP, Adv Hodes contain a lot of information and clarify what actually took place that led to the non-filing of the other information crucial in making the racketeering charge more clearer.

(iv) The advise which the legal representative provided the prosecution team plus Adv Jiba, more particularly the fact that the Prosecution Memorandum is a privileged communication between the DPP and ANDPP and therefore should not be made available to the applicants. See Adv Maema's affidavit paragraph 8 bullet 2.

(v) Both Adv Chauke and Hodes confirm in their separate affidavit that the only concession made in court by Adv Hodes before Gorven J was around the jurisdiction and nothing more. See Adv Hodes' affidavit paragraphs 7 and 8.

Apparently Adv Chauke was the only member of the team present in court when the case was argued and he

GSM

personally heard Adv Hodes making one concession around the jurisdiction of court.

(vi) There is also an important affidavit around the availability or non-availability of a witness, Mr Aris Danikas. His lawyer in South Africa explained in detail the reason why his statement was never signed under oath. (See affidavit by Julian Bret Knight – lawyer.)

G. **The incomplete information before court**

In paragraph 34 line 6-8 the court as per Gorven said that *"If it is shown to be inaccurate and thus misleading to the court, she must also know that it is important to explain and, if appropriate correct any inaccuracies."*

The above is a confirmation that the court did not have full information on hand which information was unfortunately sitting with the legal representative and not properly filed as it was supposed to be. See the affidavit of Adv Maema, paragraphs already cited in this document.

The NPA had, out of the above, prevented Adv Jiba from appealing. She in fact had to remove papers already filed for purposes of an appeal because the then NDPP instructed that the matter must never be appealed.

In conclusion, Adv Jiba was merely performing her function as provided for in the POCA and as a result must never be demoralised in her functions.

She is moreover protected by the provision as already indicated in section 78 of POCA.

This is why it is my respectful opinion that Adv Jiba should not be prosecuted and that the charges against her be withdrawn.

Kind regards

PROSECUTION MEMORANDUM

A. INTRODUCTION

1. The accused in these matters are the members of the South African Police Services assigned to the Durban Organised Crime Unit based in Cato Manor and National Intervention Unit. Accused 1 is the Provincial Commander of Organised Crime Unit for KwaZulu-Natal.

2. The Durban Organised Crime Unit based in Cato Minor worked under the direct control of accused 1 and 9.

3. Their Area of Jurisdiction is Durban and surrounding areas.

4. The Unit operates from their offices and attend some cases in their Jurisdiction that are assigned to their Unit.

B. BACKGROUND

5. Some of these cases were informal inquests that were held in the Magistrate's courts. These inquests came about as a result of the tampering with the crime scenes by the accused, by among other things, planting firearms next to the bodies of the deceased persons, thus creating an impression that their lives were in danger when effecting arrest.

G SM

6. These acts of tampering with the crime scenes were cover-ups of their unlawful activities.

C. MODUS OPERANDI

7. The accused persons would approach their victims mostly at night with allegations that they have committed certain offences. Instead of arresting them and bring them properly before a court of law for their guilt to be established beyond reasonable doubt, the accused shot and killed all the suspects.

8. There are instances where the accused persons killed people who were not even their suspects.

9. The accused would kill their suspects, plant a firearm next to them and alleged that they were being attacked by the suspects.

D. IDENTIFICATION OF THE ACCUSED

10. Accused 1: **BOOYSEN, JOHAN WESSEL**

A 55 year old male person. His residence is yet to be confirmed. At the relevant period he was the Provincial Commander: Organised Crime for the Province of KwaZulu-Natal. He held the rank of a Director.

28. Accused 12,17,18,19, 20, 21, 22, 23, 24, 28, 29, 30, 31 and 32 in the proposed indictment are not charged with racketeering. They did not commit more than one offence in the predicate offences.

G SM

E. ANALYSIS OF EVIDENCE

THE ENTERPRISE – PROVINCIAL ORGANISED CRIME FOR KWAZULU-NATAL TO WHICH ACCUSED 1 WAS THE COMMANDER

29. The enterprise is defined to include "*any individual, partnership, corporation, association, or other juristic person or legal entity, and union or group of individuals associated in fact, although not a juristic person or legal entity*".

30. The Provincial Organised Crime Unit of the South African Police Services is an enterprise within the meaning of section (1) of the Prevention of Organised Crime Act, Act 121 of 1998 ("POCA), being a legal entity associated in fact.

31. This legal entity provided the accused with the continuity of structure under which to conduct their unlawful activities.

32. Accused 1 was the Commander of the Provincial Organised Crime. Accused 9 was the Commander of the Durban Organised Crime Unit based in Cato Manor. Accused 1 and 9 co-managed the enterprise. Accused 1,2,3,4,5,6,7,8,9,10,11,13,14,15,16, 25, 26 and 27 were participants in the racketeering activities..

33. Accused 12,17,18,19, 20, 21, 22, 23, 24, 28, 29, 30, 31 and 32 in the proposed indictment are not charged with racketeering activities. They did not commit more than one offence in the predicate offences.

G. SUMMARY OF THE CASE

34. The criminal acts of the accused described in the summary of substantial facts were motivated by monetary reward and praises for exceptional performance from the State for solving violent crime, the accused, instead of achieving this purpose by arresting and bringing the alleged criminals before the courts for justice to take its course, they killed the alleged suspects and planted firearms next to the deceased persons to create an impression that their lives were in danger when they killed them. The circumstances under which the alleged suspects were killed, show that the accused acted on the cases described above, at times:

- without the knowledge of the investigating officers assigned to investigate the cases concerned,
- without warrants of arrests,
- without evidence to support the reason for arrest,
- without any need to pursue the deceased persons
- kill the deceased whereas there was ample opportunity to apprehend;
- tamper with the crimes scenes in order to hide the true nature of their criminal acts;
- arrest and release the deceased, after release, pursue the deceased again and kill them;
- kill the deceased despite the High Court Interdict preventing such killing;

GSR

- informing the security company providing body guards for the deceased to remove the said body guards as those body guards will also be in line of fire;

- kill the deceased together with the body, and thereafter inform the security company the result of their failure to heed to the warning of withdrawing the body guard,

- would break into the properties, assault, point firearms and commit theft to whomever is present on scene where they kill the deceased.

- operate in any area which is not under their area of operation and would enter these areas without alerting local police command.

- arrogated powers of 'a tracing unit' without allocated investigating officers.

35. None of these incidents demonstrate that the accused were shot at by the deceased persons or police vehicles were damaged as a result of an attack from the deceased persons. In fact, the facts show that the deceased persons were not in possession of the firearms appearing next to their bodies.

36. No evidence that could prove beyond a reasonable doubt that the deceased persons would have been guilty of the killing of either Superintendent Chonco and/or iNkosi Zondi. The killing of the deceased persons can best be described as 'summary execution' as there was no due process. They were committing crimes instead of solving violent crime.

GSM

H. STATEMENT OF THE LAW

37. Chapter 2 of POCA sets out offences regarding Racketeering. Sub-sections 2(1)(a) – 2(1)(f) require proof of the existence of an **"enterprise"**, **"a pattern of racketeering"**, and **"the accused"**.

38. Section 2(1)(e) of POCA provides that:

Any person who – *"whilst managing or employed by or associated with any enterprise, conducts or participates in the conduct, directly or indirectly, of such enterprise's affairs through a pattern of racketeering activity" shall be guilty of an offence.*

39. Section 2(1)(f) provides that:

Any person who – *"manages the operation or activities of an enterprise and who knows or ought reasonably to have known that any person, whilst employed by or associated with that enterprise, conducts or participates in the conduct, directly or indirectly, of such enterprise's affairs through a pattern of racketeering activity" shall be guilty of an offence.*

40. Section 1 of POCA defines the enterprise as including:

"any individual, partnership, corporate, association, or other juristic person or legal entity, and any union or group of individuals associated in fact, although not a juristic person or legal entity".

41. An enterprise is established by proving that it has:

(a) A common or shared purpose

(b) A formal or informal structure

(c) A system of authority

(d) Continuity

42. A pattern of racketeering activity is defined in Section 1 of POCA as:

"the planned, ongoing, continuous or repeated participation or involvement in any offence referred to in Schedule 1 and includes at

G SM

least two offences referred to in Schedule 1, of which one of the offences occurred within 10 years after the commencement of this Act and the last offence occurred within 10 years [excluding any period of imprisonment] after the commission of such prior offences referred to in Schedule 1"

43. In this matter the relevant sections are Sections 2(1)(e) and 2(1)(f). Accused 1,2,3,4,5,6,7,8,9,10,11,13,14,15,16, 25, 26 and 27 are charged with a contravention of section 2(1)(e). Accused No 1 will be charged with contravening Section 2(1)(f).

44. Accused number 1 and 9 were co-managing the enterprise. As for accused 1 his management is abundantly clear in his Answering Affidavit to the Interdict Application obtained by the deceased **Bongani Mkhize** on 14 November 2008 as well as his visit to a crime scene where the participants in the enterprise had committed crime in his capacity as a Provincial Commander Organised Crime. He also wrote an information note to the Provincial Head: Detective Services for KwaZulu-Natal detailing the circumstances under which **Bongani Mkhize** was killed. He was controlling the affairs of the enterprise. The Provincial Organised Crime of the SAPS constitutes an enterprise within the meaning of Section 1 (1) of POCA. As for accused 9, he was present in the incident at esiKhawini and at Pinetown in his capacity as a commander of the Durban Organised Crime Unit based at Cato Manor.

45. Accused 1,2,3,4,5,6,7,8,9,10,11,13,14,15,16, 25, 26 and 27 were employed by the enterprise. They participated in the conduct of the affairs of the enterprise through a pattern of racketeering activity. The enterprise has continued in **PART A, B** and **C** as described in the proposed indictment. The accused shared together the benefits of the enterprise in the form of monetary rewards and/or certificates of excellence.

G SM

46. All the accused committed more than two offences as set out above. The pattern of racketeering activity contains offences of MURDER, DEFEATING OR OBSTRUCTING THE COURSE OF JUSTICE, POSSESSION OF UNLICENSED FIREAMS AND AMMUNITION. The offences are committed in a planned, ongoing, continuous and repeated occurrence. The offences occurred from 2008 to 2011 thus meeting the requirement that at least one offence must have occurred after 1998 and the other within 10 years of the last offence.

47. Therefore, the accused were acting contrary to the provisions of section 205 of the Constitution of South Africa, Act 108 of 1996.

48. They also acted contrary to the Police Standing Orders issued in terms of section 25 of the South African Police Service Act 68 of 1995.

49. The accused cannot justify their acts in terms of common law private defence nor section 49(2) of the Criminal Procedure Act 51 of 1977.

I. POCA RACKETEERING POLICY

50. It will be impossible to charge the accused individually with all the offences they have committed. Charging the accused together outside the ambit of POCA will result in misjoinders. A POCA prosecution will allow the joining of different participating accused which is otherwise not permissible.

51. A POCA prosecution will enable the State to charge the accused with all offences committed through a pattern of racketeering activity, distinctly and separately.

52. Section 2(2) of POCA allows the court to hear evidence with regard to hearsay, similar facts or previous convictions, relating to offences contemplated against the accused.

53. The planting of the firearms on the crime scene is similar fact evidence.

GSM

J. ANTICIPATED DEFENCES

54. The accused will say that they were defending themselves from attack by the deceased persons, essentially relying on section 49(2) of the Criminal Procedure Act and the Police Standing Order regarding the use of arms.

55. They were not participants in some of the crimes scenes, essentially relying on 'disassociation'.

56. Accused 1 will say he was not on the crime scenes described on the indictment and on the scene of **Magojela Ndimande** and **Sibusiso Tembe** he arrived after the murders were committed.

57. The State will counter these defences with:

- Eyewitnesses
- Ballistics evidence
- Post-Mortem Reports
- Crime Scene Photos
- *modus operandi* demonstrating similar fact
- some of the deceased were not even suspects and were asleep
- They clearly exceeded bounds of self defence
- They received monetary rewards and/or certificates for arrest of violent criminals, whereas in truth, none of the suspects were arrested

K. ASSET FORFEITURE UNIT

58. The matter has not yet been referred to the Asset Forfeiture Unit. There is anticipated financial investigations which will determine the extent of the benefit outside the known SAPS rewards.

GSM

L. CONCLUSION

59. Based on the evidence outlined above, it is recommended that :

(a) Authority be granted for the prosecution of the accused as proposed in the draft indictment; and

(b) Certificates in terms of Section 2(4) of the PREVENTION OF ORGANISED CRIME ACT 121 OF 1998 be issued.

60. *** The proposed indictment is attached.

are guilty of the crimes of

GSM

RACKETEERING OFFENCES:

COUNT 1: Accused 1 only

Contravening Section 2(1) (f) read with Sections 1, 2(2), 2(3), 2(4) and 3 of the Prevention of Organised Crime Act, Act 121 of 1998 –
Managing an Enterprise conducted through a pattern of racketeering activity for the period February 2008 to June 2008.

COUNT 2: All Accused

Contravening Section 2(1) (e) read with Sections 1, 2(2), 2(3), 2(4) and 3 of the Prevention of Organised Crime Act, Act 121 of 1998 –
Participating in the conduct of an Enterprise through a pattern of racketeering activity.

PREDICATE OFFENCES:

COUNTS 3 – 27: Accused as indicated in Column 3 of Annexure "A"

Theft read with Schedule 1 of the Prevention of Organised Crime Act, Act 121 of 1998 and read with Section 51(2) (a) of The Criminal Law Amendment Act, Act 105 of 1997.

COUNTS 28 – 52: Accused as indicated in Column 3 of Annexure "A"

Contravening Section 4(1), read with Sections 1, 20(1)(a) and 21 of the Precious Metals Act, Act 37 of 2005, and read with Schedule 1 of the Prevention of Organised Crime Act, Act 121 of 1998 –
Acquiring, possessing or disposing of an unwrought precious metal.

COUNT 53: Accused 1 only

Contravening Section 4, read with Sections 1, 8 and Schedule 1 of the Prevention of Organised Crime Act, Act 121 of 1998 –
Money Laundering

ALTERNATIVE TO COUNT 53: Accused 1 only

Contravening Section 5, read with Sections 1, 8 and Schedule 1 of the Prevention of Organised Crime Act, Act 121 of 1998 –
Assisting another to benefit from proceeds of unlawful activities.

COUNTS 54 – 78: Accused as indicated in Column 3 of Annexure "B"

Contravening Section 6, read with Sections 1, 8 and Schedule 1 of the Prevention of Organised Crime Act, Act 121 of 1998 –
Acquisition, possession or use of proceeds of unlawful activities.

PREAMBLE

WHEREAS
The Prevention of Organised Crime Act, Act 121 of 1998 (hereinafter referred to as The Act) defines in Section 2 thereof various criminal offences with regard to racketeering;

AND WHEREAS
Section 1(1) of the Act states an "Enterprise" includes

> *". . . ..any individual, partnership, corporation, association, or other juristic person or legal entity, and any union or group of individuals associated in fact, although not a juristic person or legal entity";*

GSM

AND WHEREAS

Section 1(1) of the Act further states that a "Pattern of racketeering activity" means the

> *"...planned, ongoing, continuous or repeated participation or involvement in any offence referred to in Schedule 1 and includes at least two offences referred to in Schedule 1, of which one of the offences occurred after the commencement of this Act and the last offence occurred within 10 years (excluding any period of imprisonment) after the commission of such prior offence referred to in Schedule 1";*

AND WHEREAS

The Act provides that any person who manages the operation or activities of an enterprise and who knows or ought reasonably to have known that any person, whilst employed by or associated with that enterprise, conducts or participates in the conduct, directly or indirectly, of such enterprise's affairs through a pattern of racketeering activity is guilty of anoffence;

AND WHEREAS

The Act provides that any person who, whilst managing or employed by or associated with any enterprise, conducts or participates in the conduct, directly or indirectly, of such Enterprise's affairs through a pattern of racketeering activity, is guilty of an offence;

AND WHEREAS

The State alleges that:

1. Accused 1 is employed as a construction contractor at Impala Mine, Rustenburg and conducted an illegal business by facilitating the selling

G Sm

of a substance containing unwrought precious metals in the form of so called "matte", to an agent authorized in terms of Section 252A of Act 51 of 1977.

2. Accused 1 facilitated the sale of the matte between the mentioned agent and other individuals including, but not limited to, Accused 2 to 5, on different dates and at various places.

3. Accused 1 was involved in twenty five such transactions. All the transactions were initiated by accused 1.

4. Accused 2 to 5, on various occasions acted, either individually or together with another accused or unknown person, together with Accused 1 in fourteen of the said twenty five transactions.

5. Accused 1 acted individually or together with other unknown person/(s), in eleven of the twenty five transactions.

6. Accused 1 individually managed the business and at all relevant times individually formed an Enterprise as defined in Section 1 of the Act.

7. All the accused and other persons, known and unknown to the State as mentioned above, were directly or indirectly involved with the transactions and participated in the conduct of the affairs of the Enterprise and/or were employed by and/or associated with the Enterprise.

8. The accused committed the respective acts set out in counts 3 to 78 below which constitute the pattern of racketeering activities.

9. The accused committed the offences as set out in counts 3 to 78 below in order to benefit the Enterprise, its manager, members, employees and persons directly and indirectly involved therein.

GSM

NOW THEREFORE THE ACCUSED ARE GUILTY OF THE FOLLOWING OFFENCES:

COUNT 1: (Accused 1 only)

Managing an Enterprise conducted through a pattern of racketeering activities

IN THAT prior to and during the period of February 2008 until June 2008, and at or near ZAKHELE and/or NKANINI and/or BLESKOP and/or BOKAMOSO in the district of TLHABANE and/or at or near SWARTKLIP in the district of NORTHAM, the accused unlawfully managed the operations or activities of the enterprise, and knew or reasonably ought to have known, that any person to wit, Accused 2 to 5, and other persons known and unknown to the State, whilst employed by or associated with that enterprise, conducted or participated in the conduct, directly or indirectly, in such enterprise's affairs through a pattern of racketeering activity as set out in counts 3 to 78 below.

COUNT 2: (All accused)

Participating in the conduct of an enterprise through a pattern of racketeering activities

IN THAT the accused prior to but including February 2008 to June 2008, and at or near ZAKHELE and/or NKANINI and/or BLESKOP and/or BOKAMOSO in the district of TLHABANE, and/or at or near SWARTKLIP in the district of NORTHAM, unlawfully, whilst managing or employed by or associated with the enterprise as defined above, conducted or participated in the conduct, directly or indirectly, of the enterprise's affairs through a pattern of racketeering activity as set out in counts 3 to 78 below.

COUNTS 3 – 27: (Accused as indicated in Column 3 of Annexure "A")

Theft

IN THAT upon or about the date as in Column 4 of Annexure "A", and at or near the place and district as in Column 5 of Annexure "A", the said accused did unlawfully and intentionally steal a substance containing unwrought precious metals, which substance was of the weight as mentioned in Column 6 of Annexure "A" and contained the mass of precious metals as mentioned in Column 7 of Annexure "A" and was to the value as mentioned in Column 8 of Annexure "A", the property or in the lawful possession of Anglo Platinum Mine and/or Impala Mine.

COUNTS 28 – 52: (Accused indicated as in Column 3 of Annexure "A")

Acquiring, possessing or disposing of an unwrought precious metal

IN THAT on or about the date as in Column 4 of Annexure "A" and at or near the place and district as in Column 5 of Annexure "A", the accused did unlawfully and intentionally acquire, possess or dispose of, either as principal or as agent, a substance containing unwrought precious metals, which substance was of the weight as mentioned in Columns 6 of Annexure "A" and contained the mass of precious metals as mentioned in Column 7 of Annexure "A" and was to the value as mentioned in Column 8 of Annexure "A", without

(a) being a holder of a refining license;
(b) being an authorized dealer;
(c) being a producer who has won or recovered such unwrought precious metal;

(d) having obtained a certificate from the Regulator authorising him or her to acquire or to dispose of such unwrought precious metal;

(e) such unwrought precious metal exceeding a prescribed mass and being acquired in accordance with a special permit issued by the Regulator for scientific or beneficiation purposes or to make jewellery; or

(f) being the holder of a precious metal beneficiation licence and acting in accordance with the terms and conditions of his or her licence.

COUNT 53: (Accused 1 only)

Money Laundering

IN THAT the Accused prior to but including 7 February 2008 to 11 June 2008 and at or near ZAKHELE and/or BLESKOP and/or BOKAMOSO and/or NKANINI in the district of TLHABANE and/or at or near SWARTKLIP in the district of NORTHAM, unlawfully, whilst he knew or ought reasonably to have known that property to wit the substances containing unwrought precious metals (as set out in Count 28 to 52 in Annexure "A") was the proceeds of unlawful activities or that it formed part of the proceeds of unlawful activities, facilitated transactions between accused 2 to 5 and/or other person/(s) in arranging for a buyer for the abovementioned substances containing unwrought precious metals, for or on behalf of the enterprise; and that this conduct of the accused had the effect of concealing or disguising the nature, source, location, disposition or movement of the said property (substances) or the ownership thereof and therefore enabled or assisted any person who has committed an offence in respect of the said property (substances) to avoid prosecution or to remove or diminish such property, which was acquired, directly or indirectly, as a result of the commission of an offence.

G Sm

ALTERNATIVE TO COUNT 53: (Accused 1 only)

Assisting another to benefit from the proceeds of unlawful activities

IN THAT the Accused prior to but including 7 February 2008 to 11 June 2008 and at or near ZAKHELE and/or BLESKOP and/or BOKAMOSO and/or NKANINI in the district of TLHABANE and/or at or near SWARTKLIP in the district of NORTHAM, unlawfully received substances containing unwrought precious metals (as set out in Counts 28 to 52 in Annexure "A") from either accused 2 to 5 and/or known or unknown person/(s), whilst he knew or ought reasonably to have known that the said accused and/or person/(s) had obtained such property (substances) being the proceeds of unlawful activities and that accused 1 there after entered into an agreement/(s) with the said accused and/or person/(s) and the agent (as the buyer of the said substances), whereby accused 1 utilised the above mentioned proceeds of unlawful activities namely the substances containing unwrought precious metals which was sold, and thereby he made funds available to the said accused and/or person/(s) which resulted in a benefit to the said accused and/or person/(s).

COUNTS 54 – 78: (Accused as indicated in Column 3 of Annexure "B")

Possession or use of the proceeds of unlawful activities

IN THAT on the date as in Column 3 in Annexure "B" and at or near the place and district as in Column 4 in Annexure "B", the accused unlawfully acquired and/or used and/or possessed property to wit money with values as in Column 5 of Annexure "B", which he/they received as payment for selling substances containing unwrought precious metals, whilst knowing or reasonably ought to have known that such property (namely the money

GSM

he/they received) formed part of the proceeds of unlawful activities (namely the selling of substances containing unwrought precious metals) of accused 2 to 5 and/or other person/(s).

Wherefore upon due conviction the said Director of Prosecutions will ask that the accused persons be dealt with in accordance with the law.

SUMMARY OF SUBSTANTIAL FACTS IN TERMS OF SECTION 144(3)(a) OF ACT 51 OF 1977

A COUNT 1 AND 2: RACKETEERING OFFENCES

1. Accused 1 was employed as a construction contractor at Impala Mine, and resided in the Mfidikwe-area where it was a well-known fact that he conducted an illegal business by dealing in substances containing unwrought precious metals in the form of so called "matte".

2. Accused 1 was the manager of the business. He worked together with various other persons, including *Inter alia* Accused 2 to 5, who at times supplied Accused 1 with substances containing unwrought precious metals, the so called "matte".

3. From February 2008 until June 2008, Accused 1 conducted his business by acquiring as much as possible of the said substances containing unwrought precious metals, with the objective of selling same for economical gain. During this period, accused 1 was personally involved in all twenty five transactions. During this period accused 1 as an individual therefor formed the enterprise of the business.

4. On each occasion when Accused 1 had some of the said substance available, he would set up a meeting with the police agent with the aim to sell same to him.

5. On each occasion, the agent and Accused 1 travelled together to the location where the substance would be collected. At this

location, one and/or more of the other accused or person/(s) unknown to the State, supplied the substance to Accused 1.

6. After the completion of the transaction, Accused 1 divided the money received from the agent between himself and the other accused and/or helper.

7. Accused 2 participated in the conduct of the Enterprise and was either directly or indirectly involved therein and/or was employed by the Enterprise. He was involved in three transactions together with Accused nos. 1, 3 and the police agent, after which his involvement with the Enterprise terminated.

8. Accused 3 participated in the conduct of the Enterprise and was either directly or indirectly involved therein and/or was employed by the Enterprise. He was involved in eight transactions together with Accused nos. 1 and 2 and the police agent.

9. Accused 4 participated in the conduct of the Enterprise and was either directly or indirectly involved therein and/or was employed by the Enterprise. She was involved in two transactions together with Accused no. 1, 5 and the police agent.

10. Accused 5 is the other woman involved in the Enterprise. She participated in the conduct of the Enterprise and was either directly or indirectly involved therein and/or was employed by the Enterprise. She was involved in three transactions together with Accused no. 1, 4 and the police agent.

B <u>COUNTS 3 TO 27: THEFT CHARGES</u>

11. The theft charges refer to the substances containing unwrought precious metals ("matte), which was sold to the agent.

G 5m

12. The weight of the stolen substances is set out in Column 6 of Annexure "A" and the mass of precious metals is set out in Column 7 of Annexure "A".

C COUNTS 28 TO 52: ACQUIRING, POSSESSION OR DISPOSAL OF AN UNWROUGHT PRECIOUS METAL

13. These counts relate to the same substances containing unwrought precious metals ("matte"), which were sold to the agent.

14. The Enterprise, through its members, committed theft alternatively, received stolen substances containing unwrought precious metals as such unwrought precious metals may not be acquired, possessed or disposed of without the proper authorization as required by the Precious Metals Act, Act 37 of 2005.

D COUNT 53: MONEY LAUNDERING

15. This count relates to the substances containing unwrought precious metals which were supplied to Accused 1, where after he sold same to the agent.

16. This count refers to the total weight of the substances containing unwrought precious metals involved in all twenty five transactions, the total weight being 3069.799 kg (as set out individually in Column 6 of Annexure "A").

17. Due to the very nature of Accused 1's activities in the illegal business, he knew or ought reasonably to have known that the substances (the so called "matte") formed part of the proceeds of unlawful activities, namely theft.

G Sm

18. In spite of such knowledge, Accused 1 sold the substances to the agent in order to conceal or disguise the fact that the said substances were stolen and to ensure that detection of such theft is untraceable.

19. The money accused 1 received through the sale of the substances benefited himself and the other accused and ensured a financial benefit from their illegal activities.

E COUNTS 54 TO 78: ACQUISITION, POSSESSION OR USE OF THE PROCEEDS OF UNLAWFUL ACTIVITIES

20. These counts relate to the accused receiving money from the agent in return for the supply of the substances (so called "matte"), whilst such substances were stolen.

21. By participating in the sale of the substances and receiving money in return, the accused knew or ought reasonably to have known that such money forms part of the proceeds of unlawful activities of another person, namely the initial theft of the substances (so called "matte") by the accused themselves and/or by other persons.

F GENERAL

22. At all relevant times the accused and others (namely the persons described above), acted in furtherance of a prior criminal agreement and/or a common purpose to commit the offences as set out above, excluding count 53.

23. Precisely when, where, how and/or in what manner the agreement and/or the common purpose were formed, or who all the parties thereto were, is at present unknown to the State. The State, however, alleges that the agreement and/or the common purpose

GSM

was in existence at the latest, shortly before, and continued for the duration of, the commission of the said offences.

Your Ref: NEW MATTER

ZONDO COMMISSION OF ENQUIRY
EVIDENCE LEADERS

Attention: Mr L Groenewald

CC: Ms Shannon Van Vuuren

We refer to the above matter and confirm that we are representing the following NPA officials.

THe follwoing NPA personnel are seeking opportunity to cross examine Mr Mcbride and Booysen.

1. George D. Baloyi
2. Ivy Thenga
3. Sibongile Mzinyathi
4. Anthony Mosing
5. Sello G.Maema
6. Torie Pretorius
7. Adelaide M.A. Modubu
8. Raymond R. Mathenjwa
9. Moipone Noko
10. Matric Lupondo
11. Bulelwa B. Vimbani
12. Marshall Mokgatlhe
13. Molatlhwa M. Mashuga

GSM

Please be advised that there is a real likelihood that this list may be extended to include other NPA personnel as a result of the evidence that has been provided by Mr Johan van Loggerenberg and instructions to make application to cross examine Mr Loggerenberg may be forthcoming shortly.

Regards.

JUDICIAL COMMISSION OF INQUIRY INTO ALLEGATIONS OF STATE CAPTURE, CORRUPTION AND FRAUD IN THE PUBLIC SECTOR INCLUDING ORGANS OF STATE

NOTICE IN TERMS OF RULE 3.3

TO : **Advocate Sello Maema**

EMAIL : gsmaema@npa.gov.za

IN TERMS OF RULE 3.3 OF THE RULES OF THE JUDICIAL COMMISSION OF INQUIRY INTO ALLEGATIONS OF STATE CAPTURE, CORRUPTION AND FRAUD IN THE PUBLIC SECTOR INCLUDING ORGANS OF STATE ("THE COMMISSION"), YOU ARE HEREBY GIVEN NOTICE THAT:

1 The Commission's Legal Team intends to present the evidence of **Advocate Helen Elizabeth Van Jaarsveld ("Van Jaarsveld")** at its hearing held at the Old Council Chamber of the Municipality of the City of Johannesburg, 158 Civic Boulevard Braamfontein, Johannesburg. The presentation of Van Jaarsveld's evidence will commence on a date to be confirmed at a later stage. The evidence in question implicates or may implicate you in unlawful, illegal or improper conduct in the respects set out below.

2 The allegations set out in the evidence of Van Jaarsveld, which when read with the affidavits of Mr Robert McBride, Advocate Karen Van Rensburg and Mr Gustav Nauhaus (which will be sent to you with separate notices in terms of Rule 3.3 of the Commission's rules), implicate or may implicate you in, *inter alia*, allegedly participating in various acts of corruption, bribery, fraud, money laundering and/or tax evasion. In amplification it is alleged that:

GSM

2.1 You were involved in an alleged investigation into a security breach at Sable Hills Waterfront Estate, a residential estate in which former Acting National Police Commissioner, Lieutenant General Phahlane ("**Phahlane**") resided.

2.2 The investigation was being conducted by Major General Mabula ("**Mabula**"), Brigadier Ncube ("**Ncube**"), Brigadier Kgorane ("**Kgorane**"), Lieutenant Colonel Dawood ("**Dawood**") and Colonel Reddy ("**Reddy**") under Potchefstroom Enquiry 1/11/2016 ("the Investigation").

2.3 The Investigation had as its objectives *inter alia*:

2.3.1 the undermining of a criminal investigation being conducted by the Independent Police Investigative Directorate ("**IPID**") against Phahlane; and

2.3.2 the ascertainment of the details of an investigation conducted by Mr Paul O'Sullivan ("**O'Sullivan**") and Ms Sarah-Jane Trent ("**Trent**") into alleged criminal activity by Phahlane, including the identity of the sources of their information.

2.4 In furtherance of the aforesaid objectives and on or about 7 December 2016, Dawood requested that you assist and guide him in obtaining a subpoena in terms of Section 205 of the Criminal Procedure Act of 1977, for "all call related information, IMEI mapping and RICA details" in respect of the cell phones of O'Sullivan and Trent.

2.5 You assisted Dawood in obtaining the aforesaid subpoena.

3 The statement of **Van Jaarsveld** which implicates or may implicate you in the above allegations is annexed hereto marked "**A**". Your attention is drawn to the entire statement.

4 **Annexure HJ1 to HJ4** to the statement of Van Jaarsveld which implicate/s or may implicate you in the above allegations are annexed hereto marked "**B**".

5 Due to the fact that you are implicated or may be implicated by the evidence of Van Jaarsveld, you are entitled to attend the hearing at which that evidence is being presented.

GSM

You are also entitled to be assisted by a legal representative of your choice when that evidence is presented. The full statement of Van Jaarsveld will be uploaded on the Commission's website as soon as he concludes his evidence. The transcript will be uploaded daily.

6 If you wish to:

6.1 give evidence yourself;

6.2 call any witness to give evidence on your behalf; or

6.3 cross-examine the witness

then you must apply, within fourteen (14) calendar days of this notice, in writing to the Commission for leave to do so.

7 An application referred to in paragraph 6 above must be submitted to the Secretary of the Commission. The application must be submitted with an affidavit from you in which you respond to the witness's statement insofar as it implicates you. The affidavit must identify what parts of the witness's statement are disputed or denied and the grounds on which they are disputed or denied.

8 If you wish to apply to cross-examine the witness, your application must follow the requirements of Rule 11.3. In other words, it must be a substantive application on affidavit accompanied by a notice of motion.

9 In the event that you believe that you have not been given a reasonable time from the issuance of this notice to the date on which the witness is to give evidence as set out above and you are prejudiced thereby, you may apply to the Commission in writing for such order as will ensure that you are not seriously prejudiced.

10 Please take note that even if you do not make an application under Rule 3.4:

10.1 in terms of Rule 3.10, the Chairperson may, at any time, direct you to respond in writing to the allegations against you or to answer (in writing) questions arising from the statement; and

GSM

10.2 in terms of Regulation 10(6) of the Regulations of the Judicial Commission of Inquiry into Allegations of State Capture, Corruption and Fraud in the Public Sector including Organs of State GN 105 of 9 February 2018 published in Government Gazette 41436, as amended, the Chairperson may direct you to appear before the Commission to give evidence which has a bearing on a matter being investigated.

11 The witness statement and annexures provided to you are confidential. Your attention is drawn to Regulations 11(3) and 12(2)(c) governing the Commission, which make it a criminal offence for anyone to disseminate or publish, without the written permission of the Chairperson, any document (which includes witnesses' statements) submitted to the Commission by any person in connection with the Commission's inquiry.

12 Any response to or application in regard to this notice must be sent to Advocate André Lamprecht and Ms Shannon van Vuuren at secretary@commissionsc.org.za.

Dear Sir /Madam,

Please find the attached Rule 3.3 Notice in respect of Ms van Jaarsveld 's evidence for your attention.

As referred to in the Rule 3.3 Notice, please also find Annexure A and B attached hereto.

Please note that the Commission is required to comply with all COVID-19 Regulations. Please advise the Secretariat 48 hours in advance at Secretary@commissionsc.org.za if you elect to attend. Protocols, procedures and arrangements in place at the hearing venue will then be communicated to you.

Kindly acknowledge receipt hereof and contact the Secretariat regarding any queries that you may have.

Yours faithfully,

Secretariat

JUDICIAL COMMISSION OF INQUIRY INTO ALLEGATIONS OF STATE CAPTURE, CORRUPTION AND FRAUD IN THE PUBLIC SECTOR INCLUDING ORGANS OF STATE

NOTICE IN TERMS OF RULE 3.3

TO : ADV SELLO MAEMA

EMAIL : gsmaema@npa.gov.za

IN TERMS OF RULE 3.3 OF THE RULES OF THE JUDICIAL COMMISSION OF INQUIRY INTO ALLEGATIONS OF STATE CAPTURE, CORRUPTION AND FRAUD IN THE PUBLIC SECTOR INCLUDING ORGANS OF STATE ("THE COMMISSION"), YOU ARE HEREBY GIVEN NOTICE THAT:

1 The Commission's Legal Team presented the evidence of **MR ROBERT McBRIDE** ("**Mr McBride**") on 11, 12, 15 and 16 April 2019. The evidence of Mr McBride, when read together with the evidence of other witnesses, including Advocate Karen van Rensburg, Advocate Helen van Jaarsveld and Mr Gustav Nauhaus, implicates or may implicate you in unlawful, illegal or improper conduct in the respects set out below.

2 The allegations set out in the affidavit of Mr McBride, read together with the affidavit of Mr Gustav Nauhaus and Ms van Jaarsveld (which have been sent to you as part of a separate Rule 3.3 notice) that implicate or may implicate you in, *inter alia*, allegedly participating in various acts of corruption, bribery, fraud, money laundering and/or tax evasion. In amplification, it is alleged that:

2.1 You improperly and/or unlawfully sought to-

2.1.1 unduly interfere in the investigative independence of the National Prosecuting Authority ("NPA"), the Independent Police Investigative

GSM

Directorate ("**IPID**") and/or the Directorate for Priority Crime Investigation ("**DPCI**") commonly known as the Hawks;

2.1.2 unduly delay and/or decline recommended prosecutions;

2.1.3 participate in the undue persecution of officials of the NPA, IPID and/or the DPCI; and

2.1.4 destabilise the NPA, IPID and/or the DPCI.

2.2 In acting as set out above, you allegedly sought to enable the state capture of the criminal justice system.

3 The statement of Mr McBride which implicates or may implicate you in the above allegations is annexed hereto marked "A". Your attention is drawn to **paragraphs 14, 50, 78 and 87 to 118.**

4 **Annexures Q, R and S** to the statement of Mr McBride which implicate or may implicate you in the above allegations are annexed hereto marked "B".

5 Due to the fact that you are implicated or may be implicated by the evidence of Mr McBride, you are entitled to attend the hearing at which that evidence is being presented. You are also entitled to be assisted by a legal representative of your choice when that evidence is presented. The full statement of Mr McBride will be uploaded on the Commission's website as soon as he concludes his evidence. The transcript will be uploaded daily.

6 If you wish to:

6.1 give evidence yourself;

6.2 call any witness to give evidence on your behalf; or

6.3 cross-examine the witness

then you must apply, within fourteen (14) calendar days of this notice, in writing to the Commission for leave to do so.

GSM

7 An application referred to in paragraph 6 above must be submitted to the Secretary of the Commission. The application must be submitted with an affidavit from you in which you respond to the witness's statement insofar as it implicates you. The affidavit must identify what parts of the witness's statement are disputed or denied and the grounds on which they are disputed or denied.

8 If you wish to apply to cross-examine the witness, your application must follow the requirements of Rule 11.3. In other words, it must be a substantive application on affidavit accompanied by a notice of motion.

9 In the event that you believe that you have not been given a reasonable time from the issuance of this notice to the date on which the witness is to give evidence as set out above and you are prejudiced thereby, you may apply to the Commission in writing for such order as will ensure that you are not seriously prejudiced.

10 Please take note that even if you do not make an application under Rule 3.4:

10.1 in terms of Rule 3.10, the Chairperson may, at any time, direct you to respond in writing to the allegations against you or to answer (in writing) questions arising from the statement; and

10.2 in terms of Regulation 10(6) of the Regulations of the Judicial Commission of Inquiry into Allegations of State Capture, Corruption and Fraud in the Public Sector including Organs of State GN 105 of 9 February 2018 published in Government Gazette 41436, as amended, the Chairperson may direct you to appear before the Commission to give evidence which has a bearing on a matter being investigated.

11 The witness statement and annexures provided to you are confidential. Your attention is drawn to Regulations 11(3) and 12(2)(c) governing the Commission, which make it a criminal offence for anyone to disseminate or publish, without the written permission of the Chairperson, any document (which includes witnesses' statements) submitted to the Commission by any person in connection with the Commission's inquiry.

GSM

12 Any response to or application in regard to this notice must be sent to Advocate André Lamprecht, Ms Shannon van Vuuren and Ms Rachel Niewenhuis at secretary@commissionsc.org.za.

JUDICIAL COMMISSION OF INQUIRY INTO ALLEGATIONS OF STATE CAPTURE, CORRUPTION AND FRAUD IN THE PUBLIC SECTOR INCLUDING ORGANS OF STATE

NOTICE IN TERMS OF RULE 3.3

TO : ADV SELLO MAEMA

EMAIL : gsmaema@npa.gov.za

IN TERMS OF RULE 3.3 OF THE RULES OF THE JUDICIAL COMMISSION OF INQUIRY INTO ALLEGATIONS OF STATE CAPTURE, CORRUPTION AND FRAUD IN THE PUBLIC SECTOR INCLUDING ORGANS OF STATE ("THE COMMISSION"), YOU ARE HEREBY GIVEN NOTICE THAT:

1 The Commission's Legal Team intends to present the evidence of **ADV KAREN HELEN VAN RENSBURG ("Adv van Rensburg")** at its hearing held at the Old Council Chamber of the Municipality of the City of Johannesburg, 158 Civic Boulevard Braamfontein, Johannesburg. The presentation of Adv van Rensburg's evidence will commence on a date to be confirmed at a later stage. The evidence in question implicates or may implicate you in unlawful, illegal or improper conduct in the respects set out below.

2 The allegations set out in the evidence of Adv van Rensburg, which when read with the affidavit of Robert McBride, Helen van Jaarsveld and Gustav Nauhaus (which will be sent to you with a separate notice in terms of Rule 3.3 of the Commission's rules), implicate or may implicate you in, *inter alia*, allegedly participating in various acts of corruption, bribery, fraud, money laundering and/or tax evasion. In amplification, it is alleged that you were participated with an investigating unit, commonly referred to as the Mabulu Team, and that you together with the Mabula Team, either collectively or individually and as part of a common purpose:

GSM

2.1 Assisted the Mabula Team in an investigation into a security breach at Sable Hills Waterfront Estate, a residential estate in which former Acting National Police Commissioner, Lieutenant General Phahlane ("**Phahlane**") resided.

2.2 The investigation was being conducted by Major General Mabula ("**Mabula**"), Brigadier Ncube ("**Ncube**"), Brigadier Kgorane ("**Kgorane**"), Lieutenant Colonel Dawood ("**Dawood**") and Colonel Reddy ("**Reddy**") under Potchefstroom Enquiry 1/11/2016 ("**the Investigation**").

2.3 The Investigation, to your knowledge and with your assistance, had as its objectives *inter alia*:

2.3.1 the undermining of a criminal investigation being conducted by the Independent Police Investigative Directorate ("**IPID**") against Phahlane; and

2.3.2 the ascertainment of the details of an investigation conducted by Mr Paul O'Sullivan ("**O'Sullivan**") and Ms Sarah-Jane Trent ("**Trent**") into alleged criminal activity by Phahlane, including the identity of the sources of their information.

2.4 In furtherance of the aforesaid objectives Dawood requested that you assist and guide him in obtaining a subpoena in terms of Section 205 of the Criminal Procedure Act of 1977, for "all call related information, IMEI mapping and RICA details" in respect of the cell phones of O'Sullivan and Trent.

2.5 In connection with the said Investigation, and acting on your advice and on or about 7 December 2016, Dawood approached Mr Gustav Nauhaus ("**Nauhaus**"), with a view to obtaining a subpoena in terms of Section 205 of the Criminal Procedure Act, 51 of 1977 to obtain the cell phone records of O'Sullivan and/or Trent. Nauhaus, in turn, telephoned Adv van Rensburg, to seek her advice. At the time, Dawood had affidavits from which it appeared that he was:

2.5.1 investigating O'Sullivan for an alleged contravention of Section 1 (b) of the Intimidation Act, 72 of 1982 ("**the Intimidation Act**");

2.5.2 not investigating Trent for any criminal wrongdoing.

2.6 At the time of approaching Nauhaus as aforesaid, there was insufficient evidence of a contravention of Section 1 (b) of the Intimidation Act.

2.7 Nauhaus, acting on the advice of Adv van Rensburg, declined to apply for a subpoena in terms of Section 205 and advised Dawood to approach Adv van Rensburg in the office of the DPP, North Gauteng High Court, Pretoria.

2.8 Dawood then contacted you and advised you of the difficulties he was experiencing in obtaining the aforesaid subpoena.

2.9 You then telephoned Adv van Rensburg and sought to persuade her to apply for the aforesaid subpoena. Adv van Rensburg declined to do so.

2.10 Dawood then approached Advocate Helen van Jaarsveld ("**van Jaarsveld**") in the office of the DPP, North Gauteng High Court, Pretoria and requested her to apply for a subpoena. Van Jaarsveld also declined to apply for the subpoena.

2.11 You then advised Dawood to approach Advocate Vernon Nemaorani ("**Nemaorani**") and request him to apply for the aforesaid subpoena.

2.12 Nemaorani then affixed his signature and date stamp to the subpoena, after which you approached Nauhaus again who completed the application process.

3 The statement of Adv van Rensburg which implicates or may implicate you in the above allegations is annexed hereto marked "A". Your attention is drawn to the entire statement.

4 **Annexures KV1 to KV4** to the statement of Adv van Rensburg which implicate or may implicate you in the above allegations are annexed hereto marked "**B**".

5 Due to the fact that you are implicated or may be implicated by the evidence of Adv van Rensburg, you are entitled to attend the hearing at which that evidence is being presented. You are also entitled to be assisted by a legal representative of your choice when that evidence is presented. The full statement of Adv van Rensburg will be uploaded on the Commission's website as soon as she concludes her evidence. The transcript will be uploaded daily.

6 If you wish to:

6.1 give evidence yourself;

6.2 call any witness to give evidence on your behalf; or

6.3 cross-examine the witness

then you must apply, within fourteen (14) calendar days of this notice, in writing to the Commission for leave to do so.

7 An application referred to in paragraph 6 above must be submitted to the Secretary of the Commission. The application must be submitted with an affidavit from you in which you respond to the witness's statement insofar as it implicates you. The affidavit must identify what parts of the witness's statement are disputed or denied and the grounds on which they are disputed or denied.

8 If you wish to apply to cross-examine the witness, your application must follow the requirements of Rule 11.3. In other words, it must be a substantive application on affidavit accompanied by a notice of motion.

9 In the event that you believe that you have not been given a reasonable time from the issuance of this notice to the date on which the witness is to give evidence as set out above and you are prejudiced thereby, you may apply to the Commission in writing for such order as will ensure that you are not seriously prejudiced.

10 Please take note that even if you do not make an application under Rule 3.4:

10.1 in terms of Rule 3.10, the Chairperson may, at any time, direct you to respond in writing to the allegations against you or to answer (in writing) questions arising from the statement; and

10.2 in terms of Regulation 10(6) of the Regulations of the Judicial Commission of Inquiry into Allegations of State Capture, Corruption and Fraud in the Public Sector including Organs of State GN 105 of 9 February 2018 published in Government Gazette 41436, as amended, the Chairperson may direct you to appear before the Commission to give evidence which has a bearing on a matter being investigated.

11 The witness statement and annexures provided to you are confidential. Your attention is drawn to Regulations 11(3) and 12(2)(c) governing the Commission, which make it a criminal offence for anyone to disseminate or publish, without the written permission of the Chairperson, any document (which includes witnesses' statements) submitted to the Commission by any person in connection with the Commission's inquiry.

12 Any response to or application in regard to this notice must be sent to Advocate André Lamprecht, Ms Shannon van Vuuren and Ms Rachel Niewenhuis at secretary@commissionsc.org.za.

FROM: **G S Maema**
Cato Manor Prosecution Team
DPP South Gauteng

SUBJECT: **DELEGATION TO PROSECUTE ISSUED BY THE THEN ACTING NATIONAL DIRECTOR FOR DEPUTY DIRECTORS**

DATE: **18 JUNE 2014**

INTRODUCTION

During our two (2) meetings with the National Director on 7 April 2014 and 25 March 2014, the issue of delegations was raised and the NDPP requested us to look at the present delegations that we have to ensure that they are in order. The delegations that were issued to the Senior Advocates were done by the then Acting DPP, Adv Simphiwe Mlotshwa and are in order. The only question that warranted consideration was the delegations which were issued to the two (2) Deputies who are part of the team, Maema and Mathenjwa.

SECTION 20 OF THE NPA ACT 32 OF 1998

The section provides for the power to institute and conduct criminal proceedings. Section 20 (1) provides as follows:-

"The power, as contemplated in section 179(2) and all other relevant sections of the Constitution, to

(a) institute and conduct criminal proceedings on behalf of the State;

GSM

(b) carry out any necessary functions incidental to instituting and conducting such criminal proceedings; and
(c) discontinue criminal proceedings,

vests in the prosecution authority and shall, for all purposes, be exercised on behalf of the Republic."

Section 179 (2) of the Constitution provides that the prosecution authority has the power to institute criminal proceedings on behalf of the State and to carry out necessary functions incidental to the instituting criminal proceedings. The NPA Act only repeats what the enabling legislation provides for, except to add the power to discontinue criminal proceedings. It is interesting to note that the power to institute and conduct criminal trials vests in members of the prosecution authority in general and not the DPP or NDPP or prosecutors and it is exercised in the name of the State.

Section 20(4)of the NPA Act provides as follows:-

"Subject to the provisions of this Act, and Deputy Director shall, subject to the control and directions of the Director concerned, exercise the powers referred to in subsection (1) in respect of –

(a) the area of jurisdiction for which he or she has been appointed; and

(b) such offences and in such courts, as he or she has been authorized in writing by the National Director or such person designated by the National Director."

The authority of a Deputy Director to perform his functions emanates from either section 20(4) (a), for the area of jurisdiction for which he has been appointed or in section 20 (4) (b), for such offences and such courts as he has been authorized in writing by the National Director. It is important to note that such Deputy Director shall exercise such powers subject to the control and direction of the Director who has been appointed in that area.

In simple terms, Mr Mathenjwa has jurisdiction in the area for which he has been appointed namely, South Gauteng in terms of section 20(4) (a) as well as for any offences and any court where he has been authorized in writing by the National Director, which will be in KZN, for our purposes.

The delegations that were issued by the then Acting National Director, were issued to the Deputies in terms of section 20(4)(b) of the NPA Act. It regulates the powers of Deputy Directors to exercise prosecution powers referred to in subsection (1) of the Act. Section 20(4)(b) is read with section 21 dealing with prosecution policy, section 22 which deals with general powers of the NDPP and section 24 which deals with the powers and duties of the Directors, Special Directors and Deputy Directors.

The delegations issued by the then Acting National Director specifies the offence for which the Deputies are authorized, namely all offences committed by members of the South African Police Services in the province of KwaZulu-

Natal as well as the courts in respect of which they are delegated to appear, the lower and High Courts within the area of jurisdiction of the KwaZulu-Natal Division. I am of the view that the delegations are in order.

RE: CATO MANOR DELEGATION ISSUED TO ADV MAEMA BY ADV JIBA

---

1. INTRODUCTION:

The NDPP has requested advice as to how this matter may be correctly dealt with given the sensitivity thereof.

2. RELEVANT LEGAL FRAMEWORK:

2.1 I have been provided with a letter written by Ms Jackie Lepinka to the DPP: North West referring to Deputy Director of Public Prosecutions (DDPP) Maema forming part of a "*National Project*" ("*Subject: CATO MANOR KZN*") and a delegation issued by Adv Jiba as the ANDPP to Maema authorising him to perform the powers set out in section 20(1) of the **National Prosecuting Authority Act 32 of 1998** (the Act) in respect of all offences committed by SAPS in KZN.

2.2 The reference to a "*National Project*" raises a number of issues. Section 20(3) of the Act makes the DPPs responsible for the prosecution of all cases committed in their areas of jurisdiction unless the NDPP expressly removes a specific case or category of cases from them. The issue arises as to what can legally be done with any cases so removed. When regard is had to the powers of the NDPP as a whole it is clear that the Act contemplated that the NDPP should exercise oversight over the NPA and intervene only in the decisions of the DPPs on a review basis and should not be the primary decision-maker in individual cases.

2.3 Section 22(9) of the Act authorises the NDPP or a DNDPP authorised by her to conduct a prosecution <u>in person</u>. [Own

emphasis] There is nothing in the Act which enables the NDPP to further delegate this responsibility to any other member of the NPA e.g. a DDPP or State Advocate. A removal of cases from the DPPs could therefore result in a prosecution personally by the NDPP or a DNDPP under this provision.

2.4 Section 5 of the Act however makes provision for the appointment of Investigating or Special Directors in the Office of the NDPP. For the purpose of this advice it is not necessary to deal with the issue of Investigating Directors. As far as Special Directors are concerned they perform their duties as assigned by the President subject to the directions of the NDPP (section 24(3)). They may perform the powers referred to in section 20(1) but when so doing must consult with the DPP where the crime was committed. The NDPP could therefore in terms of these provisions remove a case or category of cases from a DPP and refer them to a Special Director. If in fact the matter in hand was a "*National Project*" then it was strange not to have referred the matter to a Special Directorate which would have permitted direct oversight by the NDPP.

2.5 However from the documents provided it is clear that none of these provisions were applied when providing a DDPP from the North West with a delegation to exercise the powers in terms of section 20(1) in respect of all offences involving SAPS in KZN.

2.6 Having served in the DPP's Office: KZN from 1984 to 1996 I find it extraordinary that a DDPP from another province would be required to be the decision-maker of all cases involving the SAPS in KZN. From personal knowledge I am aware that the process was that all complaints against SAPS were referred to a SDDPP in Pietermaritzburg for decision. All decisions whether or not to prosecute would be taken by State Advocates working under the authority of the SDDPP. In sensitive matters the DPP would be personally appraised before any controversial decision was implemented.

2.7 Section 20(4) of the Act provides as follows in respect of DDPPs:

> "*Subject to the provisions of this Act, any Deputy Director shall, subject to the control and directions of the Director concerned, exercise the powers referred to in subsection (1) in respect of -*
> *(a) the area of jurisdiction for which he or she has been appointed; and*
> *(b) such offences and in such courts, as he or she has been authorised in writing by the National Director or a person designated by the National Director.*"

2.8 Section 24(9) of the Act provides further:

> "*(a) Subject to section 20(4) and the control and directions of a Director, a Deputy Director at the Office of a Director referred to in section 13(1), has all the powers, duties and functions of a Director.*

(b) *A power, duty or function which is exercised, carried out or performed by a Deputy Director is construed, for the purposes of this Act, to have been exercised, carried out or performed by the Director concerned."*

2.9 Since a DDPP is deemed to be exercising the powers of the DPP him-/herself section 15(1)(b) of the Act makes provision for the Minister and **not the NDPP** to appoint DDPPs to the Offices of DPPs. [Own emphasis]

2.10 Although it was legally permissible for Adv Jiba to give Adv Maema the delegation to prosecute **all** SAPS-offences in KZN, this would have had to be preceded by an appointment by the Minister in terms of section 15(1)(b) appointing him as a DDPP in the Office of the DPP: KZN. This is all the more the case where he was now being given responsibility of a whole category of offences committed in the province.

2.11 Due to the fact that he had now been assigned to a new DPP's Office section 32(2)(a) applied and required that he "***must***" then have taken an oath or affirmation "*before commencing to exercise, carry out or perform his or her powers, duties or functions in terms of this Act*". [Own emphasis] In terms of section 32(2)(b)(i) this oath had to have been taken before the Judge President of the KZN High Court or, in his absence, the next most senior Judge.

2.12 It is trite that a prosecutor must have a valid title to prosecute. In fact section 106(1)(h) of the **Criminal Procedure Act 51 of 1977** enables an accused to raise as a special plea that the prosecutor "*has no title to prosecute*". There are numerous decided cases dealing with situations where prosecutors prosecute matters without having a proper delegation. In such cases the convictions are set aside.

3. RECOMMENDATIONS:

3.1 It therefore has to be established whether the Minister appointed Adv Maema as a DDPP in the Office of the DPP: KZN and whether he took the prescribed oath of office. Non-compliance with either one or both of these provisions would mean that he was not legally entitled to deal with cases involving SAPS in KZN and any proceedings he conducted would have been unlawful.

3.2 Due to my involvement in the Mokgoro Inquiry I have had sight of an affidavit deposed to by the ADPP of KZN, Adv Mlotshwa. A copy of this affidavit is attached herewith. In essence he alleges that in respect of the Cato Manor case the prosecution would be conducted by prosecutors in Adv Chauke's Office i.e. DPP: Johannesburg. It would appear that Adv Chauke was playing a leading role in the matter although he is not the DPP where the crimes were committed. Finally he alleged that Adv Jiba told him that the indictment would be signed by himself i.e. Mlotshwa. He indicated that he would only sign the indictment if he was provided

with a report detailing the evidence implicating the accused. Although he was provided with the indictment he did not receive the prosecutor's report despite several attempts by him to obtain it. His acting appointment was cancelled without him ever having seen the requested report.

3.3 If Adv Mlotshwa's allegations are true this raises extremely serious questions regarding the integrity of the Cato Manor prosecution as it would appear that he was being used simply as a rubberstamp to issue the indictment and being deprived of his obligation to satisfy himself as to the cogency of the evidence justifying the arraignment of the accused. Such conduct flies in the face of section 20(4) which placed Adv Mlotshwa in charge of all offences committed in KZN. It would appear that the driving force of the prosecution was in fact Advocates Jiba and Chauke who had no authority under the NPA Act to manipulate the DPP: KZN. The reference in Lepinka's letter to a "*National Project*" also lends credibility to Adv Mlotshwa's allegations.

Kind regards

RE: CATO MANOR DELEGATION ISSUED TO ADV MAEMA BY ADV JIBA

---

1. INTRODUCTION:

The NDPP has requested advice as to how the request of the Deputy Director Maema for written confirmation that he has been removed of the Cato Manor matter may be correctly dealt with given the sensitivity thereof. Adv. Macadam provided an opinion regarding this matter. I differ from the opinion provided and in my memorandum I follow mostly the seriatim paragraphs that were provided by Adv. Macadam.

2. RELEVANT LEGAL FRAMEWORK:

In regard to 2.1

2.1 Not only has there been a letter written by Ms Jackie Lepinka to the DPP: North West referring to Deputy Director of Public Prosecutions (DDPP) Maema forming part of a "*National Project*" ("*Subject: **CATO MANOR KZN***") and a delegation issued by Adv Jiba as the ANDPP to Maema authorising him to perform the powers set out in section 20(1) of the **National Prosecuting Authority Act 32 of 1998** (the Act) in respect of all offences committed by SAPS in KZN, but:

2.1.1 an opinion by Adv. Maema regarding the delegation; and (attached hereto as Annexure "A")

2.1.2. a number of delegations that have been provided to the prosecutors involved. (Attached hereto as Annexures "B 1- 4")

Ad 2.2

Over and above the review of a decision to prosecute or not to prosecute by the NDPP, In the preamble to the NPA Act it is stated clearly "*AND WHEREAS the Constitution provides that the National Director of Public Prosecutions may intervene in the*

prosecution process ... and may review a decision to prosecute or not to prosecute. [Own emphasis] This is more specifically and clearly set out in Section 22 (2) (b) of NPA Act in a separate provision to the provision regarding review *per se*. Thus the NDPP may intervene in the prosecution process if the Policy directives are not complied with and not just on a review basis. By and large I agree with the statement: "*When regard is had to the powers of the NDPP as a whole it is clear that the Act contemplated that the NDPP should exercise oversight over the NPA and intervene only in the decisions of the DPPs on a review basis and should not be the primary decision-maker in individual cases*" but qualify it in this respect that in extra-ordinary cases the NDPP can intervene in the prosecution process in certain cases (and not just in a case of review). The NPA Act makes specific provision that the NDPP can remove a specific case or category of cases from the DPP jurisdiction. I agree that the issue arises as to what can legally be done with any cases so removed.

DISCUSSION

- The Office of the National director shall consist of not only the NDPP, Deputy Nationals but also Special Directors (and Investigating Directors) and other members of the prosecuting authority appointed at or assigned to the Office of the National Director for instance and especially prosecutors who may be appointed to the Office of the National Director (See Section 16 (2) of NPA Act).

- The Cabinet member responsible for the administration of justice-
  (a) Must establish an Office for the prosecuting authority at the seat of each Division of the High Court provided for in terms of section 6 (1); ....

- It is however also stated in subsection (3) "*If a Deputy Director is appointed as the head of an Office established by subsection (1), he or she shall exercise his or her functions subject to the control and directions of a Director designated in writing by the National Director.*" From this it is clear that a "different" Director (from another area) can control and direct a Deputy Director if he is appointed as head of an Office at a seat of a specific High court.

- Section 17 stipulate that the :
  "*(4) The President may, whenever in his or her opinion it is necessary and after consultation with the Minister and the National Director, **transfer and appoint** any Director to any Office contemplated in section 6 (1) or Investigating Directorate, or as a Special Director.* Thus a Director may be transferred and appointed to an Investigating Directorate or as a Special Director.

- It is also clear that a Deputy Director may be specifically appointed in relation to such offences and in such courts as he or she has been authorised in writing by the NDPP. See section 20 (4) (1) (b):
  "*(4) Subject to the provisions of this Act, any Deputy Director shall, subject to the control and directions of the Director concerned, exercise the powers referred to in subsection (1) in respect of-*
  .....

(b) *Such offences and in such courts, as he or she has been authorised in writing by the National Director or a person designated by the National Director.*

- One might must ask why a Deputy Director (that has been appointed to a specific area of jurisdiction), would need a further authorisation from the NDPP for specific offences and appearing in such courts as stipulated by the NDPP. These provision and words are with respect not superfluous. Specific provision has thus been made that the NDPP can in certain circumstances refer such offences and appearing in specific courts, to a particular Deputy Director. In given circumstances where the NDPP deems fit, the NDPP may thus authorised the above in writing. That is with exactly what happened in this instance. Obviously the then NDPP must have felt that the situation was serious enough (especially after a women was killed by the Police, notwithstanding the fact that she obtained - not just an interim order - but a permanent order from the court that the police should not kill her and she was still killed), to justify attention from the National Office and for the NDPP to intervene in the prosecution process. Thus the then NDPP appointed a Deputy Director in writing for a specific area and for specific offences.

- The National Director, as the head of the prosecuting authority, have authority over the exercising of all the powers, and the performance of all the duties and functions conferred or imposed on or assigned to any member of the prosecuting authority by the Constitution, this Act or any other law.[See Section 22 (1) of the NPA Act]

<u>Centralisation:</u>

- Section 22 (3) of the NPA Act makes provision that the National Director if s/he deems it in the interest of the administration of justice, that an offence committed as a whole or partially within the area of jurisdiction of one Director be investigated and tried within the area of jurisdiction of another Director. The NDPP may in writing direct that the investigation and criminal proceedings in respect of such offence be conducted and commenced within the area of jurisdiction of such other Director.

- The National Director has the power to exclude any offence expressly from the jurisdiction, either generally or in a specific case from a Director who has been appointed to an area of jurisdiction [See Section 20 (3) (b) of the NPA Act]. The National Director may also authorise any competent person in the employ of the public service or local authority to conduct prosecutions in respect of statutory offences including municipal laws [Vide :Section 22 (8) (b) of the Act]

- The National Director (or Deputy National Director) have the power to institute and conduct a prosecution in any court in the Republic. [Compare Sect 22 (9)]. This would however be in extremely rare circumstances and an extra ordinary situation.(for instance High Treason trial).

- It is obvious that a Deputy Director can conduct a prosecution. This happens in our courts every day and is done in ordinary cause of events. It is also competent for the NDPP to assign a specific case and category of cases to a Deputy Director. A removal of these

ES M.

cases from DPP's jurisdiction, could therefore not only result in a prosecution "personally by DPP or a DNPP" but a prosecution by a specialist unit like the PCLU for instance could have taken place (obviously after section 24 (3) have been complied with) or the Deputy Director special appointed for this purpose.

- In regard to the statement by adv. Macadam: *"If in fact the matter in hand was a "National Project" then it was strange not to have referred the matter to a Special Directorate which would have permitted direct oversight by the NDPP."* This is exactly what happened later on when this matter was referred to the PCLU. The matter was referred to a special directorate which permitted direct oversight by the NDPP.

- I don't know why the following statement is made: *"However from the documents provided it is clear that none of these provisions were applied when providing a DDPP from the North West with a delegation to exercise the powers in terms of section 20(1) in respect of all offences involving SAPS in KZN."* The delegation by the NDPP (Annexure A from previous correspondence) set out that the following provisions were applied: "section 20 read with sections 21, 22 and 24 of the National Prosecuting Authority Act." (See delegation by the then NDPP)

Ad 2.10

- With respect I see no reason why adv. Maema should have been reappointed or be appointed afresh to the KZN office. He was already appointed by the Minister for the North West. He has taken the oath. The legislation makes specific provision that the NDPP can allocate certain offences in certain courts to him. (Section 20) This was done. Why he should be reappointed or appointed afresh is not clear.

Ad 2.11

- Nowhere in the act is there a stipulation that an official ex abundantly cautela have to take a further oath or affirmation if he is assigned to specific task the NDPP allocated to him or her. With respect that is reading something into the Act that is not required.

3. RECOMMENDATIONS:

3.1 I differ from the opinion that the initial appointment was illegal. My respectful submission is that the team had a valid title to prosecute. With respect the then NDPP must have regarded this matter as serious enough to intervene. Apparently this was also on advice of Adv. Mlotswa to General Mabula. It is the respectful submission that in given circumstance, the NDPP can appoint a Deputy Director in respect of certain offences and in certain courts to handle a matter and there is specific legislative provision for this. The delegation of the advocates was also a matter of concern at that time, and it was discussed and opinions provided. (See the opinion hereto attached hereto as well as all the delegations) The people at that time tried to accommodate the situation as best they could. It would seem that the opinion of Gerhard S Nel was also obtained.

- In regard to recommendations it is with respect not needed to establish whether the Minister appointed the officials involved to Kwa Zulu Natal. That interpretation is with respect not supported by me. Obvious that has not been done. I am of the opinion that the Deputy Directors were legally entitled to deal with cases involving the SAPS in KZN. Specifically the Cato Manor/Booysen matter. I am of the opinion that the proceedings were not unlawful.

- I do not think the integrity of the Cato Manor prosecution is the question here. The Deputy Director that was appointed in writing in this case, merely wants the fact that the appointment is rescinded in writing. The reference in Lepinka letter to "*National Project* "can also lend credibility that the management and team regarded the matter as serious and requiring the attention of the National Office and not one or other nefarious meaning.

- As this matter was investigated by the Mokgoro enquiry and all probability would serve before the Zondo Commission on state capture, it is with respect not needed to re enquire into whole matter and that all documentation is obtained. This with respect is a simple request from a prosecutor, a Deputy Director that in the light that he was appointed in writing and seized with the matter for more than 5 years, requesting his re allocation to be in writing. I can see no harm in providing same to the prosecutor, which must inform a number of interested parties, - like the Judge for more than 5 years - and the investigating officer in the Police and the witnesses under witness protection, that his situation has changed.

have to sign the provisional delegations for those prosecutors and then at that point she indicated to me it is a legal opinion she had procured from legal services.

She particularised the person from whom she got a legal opinion. Advocate Gerhard Nel. I understand he also testified in the Mokgoro Commission whether or not he ever administered that opinion. That being a legal conundrum in the sense that if a Deputy Director is appointed by the Minister is appointed for a specific division and if one looks meticulously at the members of the Team that were forming part
10 of this Team that was sent to KZN.

The Lead Prosecutor was Advocate Maema from North West DPP Office. He was a Deputy DPP and still is a Deputy DPP in North West and appointment specifying as such. So if he goes to lead prosecution in KZN it was going to create a problem. I think another advocate – Advocate Mathenjwa – Ray Mathenjwa – he was also a Deputy DPP in the office of the DPP Gauteng South. Appointed specifically for Gauteng South.

For him to go and prosecute in KZN that was going to be an issue and then with the other members. Advocate Yanni Mlotshwa.
20 Mlotshwa is a Senior Advocate. Though not appointed by the Minister for – specifically for Gauteng South, but his delegation to execute prosecutorial decisions. That delegation would have been assigned – would have been signed by the Head of the Division my colleague, Advocate Chauke.

So it is against that background that my Line Manager at the

GSM

time of Jiba indicated that in terms of the legal opinion that she had procured. I could sign the indictment. I could sign the provisional delegation pending the research and investigation whether or not they can be assigned permanently in that project. So unfortunately I was recalled in 2012. I am not sure, because they are still involved – if the case is still in court as to what is the status of their delegation in the matter.

CHAIRPERSON: But that is what happened in the specific case.

ADV MLOTSHWA: Yes.

10 **CHAIRPERSON:** I am asking about the general practice or a policy whether when you were Acting DPP in KZN you were aware of what policies exit within the NPA or what prescripts – legal prescripts exited that dealt with or governed the situation where a prosecutor will be taken from one province to go and prosecute in another province.

ADV MLOTSHWA: None that I know of.

CHAIRPERSON: Yes.

ADV MLOTSHWA: Yes.

CHAIRPERSON: Do you have any recollection whether the National Prosecuting Authority Act says anything about such things?

20 **ADV MLOTSHWA:** As far as I remember there was nothing in the Act. Except that because of the nature of budget if a prosecutor from – if the DPP requests assistance. We request assistance from the NDPP and then the NDPP will get assistance from a specific DPP who has to dispatch the prosecutor to go and assist. It is then that the issue of budget will be discussed.

GSM

Travelling arrangements and so on and so forth as to which office will have to pick up the tab – to pay the bill. So in this one I was not involved even with the arrangements, accommodation, travelling. I do not know what was – what happened.

CHAIRPERSON: But is your answer that as far as you know or rather that you are not aware of any provision in the National Prosecuting Authority Act that specifically deals with getting a prosecutor from one province to go and prosecute in another province?

ADV MLOTSHWA: That is affirmative Chair.

10 **CHAIRPERSON:** And you are not aware that there were any written policies on this?

ADV MLOTSHWA: None that I recall.

CHAIRPERSON: Are you aware of – were you aware of any practice that may have been followed over the years?

ADV MLOTSHWA: As I have indicated Chair ...(intervenes).

CHAIRPERSON: H'mm.

ADV MLOTSHWA: That it will be the DPP because of some certain considerations feeling that look another division must send a prosecutor, but that require – request will have to go via – the NDPP

20 will make a determination from which division a request can be made to get a prosecutor to go and prosecute in that division.

CHAIRPERSON: So your understanding is that indeed there was a practice?

ADV MLOTSHWA: Yes. Yes.

CHAIRPERSON: And are you saying the practice was that the request

NATIONAL PROSECUTING AUTHORITY OF SOUTH AFRICA

SUBJECT: CATO MANOR PROSECUTION TEAM

DATE: 8 APRIL 2016

Dear Colleagues

As you are aware, the Priority Crimes Litigation Unit (PCLU) reports directly to me. The three Deputy Directors of Public Prosecutions seconded to the PCLU will be the prosecutors in the *Cato Manor matter*, namely, Advocates Sello Maema, Raymond Matherijwa and Jabulani Mlotshwa.

I would like to take this opportunity to extend my deepest and sincerest gratitude to Adv Chauke for his leadership and assistance during his involvement in the matter as well as to Advocates P Futshane, M Ntlakaza and P Moleko for their very sterling work and commitment.

The Acting Special Director of Public Prosecutions and Head: PCLU and the DPP: KZN remain involved in the matter as a direct result of their respective jurisdictional mandates.

Noted

Dear Advocate Abrahams

IN RE: FORMAL COMPLAINT AGAINST MEMBERS OF THE NATIONAL PROSECUTING AUTHORITY: ADVOCATES S MZINYATHI, JP PRETORIUS SC AND S MAEMA (NOW ADDING JJ SMIT SC AND S RAMAITE SC)

1 As you know, we act for Mr Johannes Hendrikus van Loggerenberg (**"our client"**).

2 Your letter dated 6 July 2018 (**"the letter"**), its attachment in the form of a report (**"the report"**) and prior correspondence in the above matter refer.

3 Our client is naturally disappointed with the content of your letter and will be taking legal advice on the best recourse in law to address his legitimate complaint. Our client has nevertheless instructed us to formally record the following:

3.1 The formal complaint registered by our client was intended for your personal attention, in your capacity as National Director of Public Prosecutions (**"NDPP"**), and was submitted in

Werksmans Inc. Reg. No. 1990/007215/21 Registered Office The Central 96 Rivonia Road Sandton 2196 South Africa

terms of the Constitution of the Republic of South Africa (**"the Constitution"**), the National Prosecuting Authority Act (**"NPA Act"**) and the NPA Code of Conduct (**"the Code"**) and Prosecution Policy (**"the Policy"**).

3.2 The complaint set out facts, the sequence of events and substantiating evidence in support of the complaint, as directed against three senior NPA prosecutors, namely Advocates Sibongile Mzinyathi (**"Mzinyathi"**), Jacobus Petrus Pretorius SC (**"Pretorius"**) and Sipho Maema (**"Maema"**).

3.3 The complaint set out how Mzinyathi, Pretorius and Maema had failed to abide by the Constitution, the NPA Act and Prosecution Policy.

4 As the NDPP, to whom Mzinyathi, Pretorius and Maema ultimately account, it was incumbent upon you to have personally considered not only the report as attached to your letter, but also our client's complaint, the facts set out in the complaint, the sequence of events and the substantiating evidence as submitted by us to you on our client's behalf.

5 The report attached to your letter is eminently contestable on a number of grounds and for a number of reasons, bearing in mind that the report does not attach any additional correspondence or records on which it seeks to rely. We do not intend to deal with all of these herein. Suffice at this stage to record:

5.1 The report completely mischaracterises our client's complaint and fails to deal with virtually all of the complaints, facts and evidence, as sent to you in your official capacity as the NDPP, by us on behalf of our client.

5.2 Contrary to what was initially contended by Mzinyathi, Pretorius and Maema in writing and under oath, it is now common cause that no version and/or defence of our client <u>in respect of the charges he now faces</u> exist/s or have/has ever existed. This is only one aspect of the complaint by our client, which is still being ignored, remains unaddressed and was not considered or reflected upon in the report.

5.3 It was initially advanced by the NPA that the version and/or defence of our client in respect of <u>the charges he now faces</u> had been obtained and was considered <u>prior</u> to deciding to prosecute him on <u>the charges he now faces</u>. This has been consistently denied by our client. The report now introduces a new and mutually exclusive version that our client had somehow "*elected*" not to provide his version and/or defence <u>on the charges he now faces</u>. Our client emphatically denies this new and contradictory contention.

GSM

5.4 Crucially, what the report does not address in any manner or form, is the fact that at no stage during the investigative and prosecutorial processes was the version and/or defence of our client sought and considered by the NPA in relation to the charges he now faces on any occasion prior to deciding to prosecute him as is explicitly required by the Prosecution Policy, NPA Act and Constitution.

6 The facts of the matter are rather simple, and none have been addressed or responded to by you nor are they reflected upon in the report:

6.1 Contrary to the NPA's initial stance, the South African Police Services (**"SAPS"**), the Directorate of Priority Crimes Investigations (**"DPCI"**), and the National Prosecuting Authority (**"NPA"**) never sought of our client, nor obtained from our client, a warning statement with respect to the charges reflected in the April 2018 indictment to wit:

6.1.1 any events that allegedly occurred "*between August and September 2008*" at an unspecified date and time and venue; and/or

6.1.2 any allegations concerning "*Mr Helgard Lombard*"; and/or

6.1.3 any allegations relating to an "*unauthorised gratification*" in the amount of "*approximately R100 000-00*"; and/or

6.1.4 any specific allegations with respect to the contents of paragraphs 6.1.1 to 6.1.3 *supra* and Sections 10 (b) and 3 of PRECCA as reflected in the indictment;

6.1.5 The DPCI did in fact request a warning statement from our client with respect to totally different allegations, which were clearly set out in detail in their written request of August 2016 and are reflected in the incomplete warning statement, upon which the NPA now seeks to rely on.

6.1.6 None of the allegations put to our client in August 2016 by the DPCI relate to the charges reflected in the current indictment received in April 2018:

6.1.6.1 Our client was invited by the DPCI in August 2016 to consider providing a warning statement, by giving his version and/or defence in respect of:

GSM

6.1.6.1.1 An allegation relating to persons that had supposedly been under investigation of an investigative unit at the South African Revenue Service (**"SARS"**) and a fundraiser for charitable causes of which he had been involved in since October 2012 only when it came about; and

6.1.6.1.2 An allegation concerning an investigative unit he managed at SARS whilst an employee there, specifically from 2010 onward.

6.1.6.2 The facts show that the warning statement sought by the DPCI was never completed by our client because an undertaking was given by the DPCI to afford our client an opportunity to consider the allegations, obtain necessary records and return to them by 5 September 2016 to conclude the process because the docket had to "*urgently go to the NPA*". This is clearly annotated in the relevant section of the incomplete warning statement and was also recorded during the meeting with the DPCI and our client and his erstwhile attorneys.

6.1.6.3 The facts show that the DPCI did not wait for our client to return to them in order to complete the warning statement as agreed and for him to provide his version and/or defence or not. Instead, prior to the promised date of 5 September 2016,the DPCI unilateral handed the docket, CAS 427/05/2015 over to the NPA. The process of our client concluding his warning statement was therefore interrupted by the DPCI's unilaterally handing over of the docket to the NPA and the NPA accepting such without the benefit of our client's version and/or defence.

6.1.6.4 The facts show that upon becoming aware of this, our client through his erstwhile attorneys, then addressed both the DPCI and NPA, specifically Pretorius, on 2 September 2016, wherein it was i) confirmed that the docket had been handed to the NPA, ii) confirmed that the investigation was complete, and iii) confirmed that our client would consequently address the NPA from that point on.

6.1.6.5 The facts show that our client then sought of Pretorius, still in September 2016, permission to approach the complainant, or alternatively request of the NPA and Pretorius to obtain from the complainant, records and information that our client required in order to exercise his right to provide his version and/or

defence or not, to the NPA and specifically in relation to the allegations as they stood at that stage and were put to him.

6.1.6.6 Our client never received a reply from the NPA or Pretorius to his above request.

6.1.6.7 Consequently, our client never concluded a warning statement even in respect of completely different allegations.

6.1.6.8 Even if our client had completed that warning statement or had decided to decline to do so, it would not have served any purpose in respect of the charges he was ultimately charged with more than eighteen months later by Mzinyathi, Pretorius and Maema. The warning statement and letter from the DPCI clearly set out different allegations that he was requested to respond to and do not relate to the charges reflected in the current indictment.

6.1.7 By stating a wholly new version of events, the report not only contradicts the original stance advanced by the NPA, but in fact compounds the facts set out in the complaint by our client.

6.1.8 The facts which have not been considered and are not addressed in the report are listed in detail in our client's complaint.

6.1.8.1 The Constitution, NPA Act, read with the Code and the Policy obliged the NPA and specifically the relevant prosecutors to do a number of things;

6.1.8.2 Maema, Mzinyathi and Pretorius did not do any of these things;

6.1.8.3 Maema, Pretorius and Mzinyathi clearly i) disregarded the rights of our client when they decided to prosecute him contrary to their obligations in terms of the Constitution, and the NPA Act, the Policy and Code, ii) avoided explaining the reasons for the exercise of their prosecutorial discretion and iii) did not safeguard the rights of our client as an accused person.

6.1.8.4 The decision to prosecute our client was, accordingly, not taken with the care and diligence expected of prosecutors in terms of the Constitution, the NPA Act, the Policy and the Code.

GSM

6.1.8.5 These failures have had profoundly prejudicial consequences for our client and his family.

7 In the result, the formal complaint by our client, in its totality, as addressed to you in your official capacity as the NDPP, still stands.

8 In addition, our client herewith adds NPA advocates JJ Smit SC and Dr Sailas Ramaite SC to his complaint.

9 You are invited, as a last resort, in your capacity as NDPP at the top of its apex structure, to personally consider our client's complaint and to urgently confirm that you will be doing so. In the event that you decide not to do so, we require from you detailed reasons as to why you have elected not to do so.

10 This complaint is clearly a matter of public interest, in the interests of justice and concerns very senior prosecutors of the NPA. In light hereof, it is incumbent upon you as the NDPP to personally consider the complaint and act with the necessary urgency that this complaint clearly deserves.

11 Our client's rights remain strictly reserved.

12 Kindly acknowledge receipt hereof at your earliest convenience.

Yours faithfully

OFFICE OF THE NATIONAL DIRECTOR
TIME:..... H:.....
2018 -06- 29
SIGN:.....
OF PUBLIC PROSECUTIONS

TO: ADV S ABRAHAMS

FROM: DR SILAS RAMAITE SC
ADV JJ SMIT SC

DATE: 11 JUNE 2018

SUBJECT: FORMAL COMPLAINT FROM WERKMANS ATTORNEYS AGAINST ADV S MZINYATHI AND TWO OTHERS

N.D.P.P,

1) On 25 April 2018 you instructed us to investigate the above matter and report to you by 4 June 2018. We drafted and submitted a memo to the three "respondents" and handed it to them on 3 May 2018.

2) They then requested extention of the due date we gave them, twice, and we agreed. We eventually received their response on 4 and 6 June respectively. Hence now this report to you.

3) Please note that we have decided to keep our report as brief as possible because we anticipate possible litigation following upon your decision in this matter and we don't want our report to become an additional issue in any such litigation.

4) Your instruction to us is very simple: to investigate and report to you on the complaint by Werksmans Attorneys against the three officials, with the goal of enabling you to decide whether any steps should be taken against the three officials.

GSM

5) There are a number of very technical issues contained in the complaint of Werksmans Attorneys, as well as in the response by the three officials. Some of these are:

- Is a prosecutor obliged to have a statement obtained (commonly referred to as a warning statement) from an accused or suspect before a decision to prosecute is taken?
- What is the position should new charges be added after a warning statement has been obtained?
- What, exactly, constitutes a warning statement?
- At what stage of the investigation is a suspect or accused entitled to the contents of the docket.
- Is an accused or suspect entitled to the contents of the docket before he gives his (warning) statement and what is the effect if he is denied the contents of the docket.

6). We have decided to refrain from attempting to give a considered legal opinion on these issues because we feel that it is not our mandate to do so. Also, it should rather be left to counsel at the eventual trial (whatever it may be) to do so.

7) However, we will touch on some of the issues in as far as it is required to do so to enable us to make our recommendations to you.

THE COMPLAINT

8) Van Loggerenberg, who is the main figure in this complaint, is an accused, together with two others in a case handled and decided by Adv Maema, agreed to by Dr Torie Pretorius, after consultation with the acting DPP of Gauteng-North.

G Sm

9) Van Loggerenberg, who is accused number three in the case, stands indicted of contraventions of the POCA Act, details of which are not relevant at this moment.

10) After it was decided to prosecute him, he brought an application, together with his two co-accused, for a stay of prosecution, on the basis that he was not given an opportunity to present an explanation by way of a warning statement, on the charges against him.

11) Adv Mzinyathi deposed to the answering affidavit in the application in his capacity as acting Deputy National Director in charge of the NPS.

12) This affidavit was confirmed by Dr Torie Pretorius in the form of a confirmatory affidavit.

13) In his affidavit, Adv Mzinyathi, inter alia, states as follows:

Par.61 "The decision to prosecute was taken after due consideration of the evidence under oath contained in the docket, with consideration also of the warning statements that were provided to the investigators. Obtaining of the versions of the Applicants is an investigative task, which was dealt with by the police"

Par.70 He quotes from a letter dated 14 March 2018 by Dr Pretorius, thereby incorporating it into his affidavit, where Dr Pretorius states: "The versions of the three Applicants as contained in the warning statements were considered before the decision to prosecute was taken"

Par.76 He quotes from a letter written by himself, dated 28 March 2018, thereby incorporating it into his affidavit in which he said: "The decision to prosecute was taken after due consideration of evidence under oath

contained in the docket, plus the warning statements that were provided to the investigators"

Par.117 He also states that: "I dispute that a decision to prosecute was taken without consideration of warning statements" and

Par.119 "It is not clear what is meant by the allegation that the warning statements were not ever completed. In any event, the Applicants failed to respond to an invitation to supplement the warning statements in September 2016"

14) In his confirmatory affidavit, Dr Pretorius states that he confirms the contents of Adv Mzinyathi's affidavit.

15) These aversions are clearly in reply to the direct statement in the founding affidavit of the complainant, where he states in paragraph 46 that: "In my case, in particular, no warning statement was ever sought from me in respect of any of the charges that I now face."

16) In the document that is apparently regarded as complainants warning statement, the following appears:

16.1) He was warned of "Contravention of Section 4 of Prevention of Corrupt Activities, Act 12 of 2004 and section 3 of The National Strategic Intelligence Act 39 of 1994." No further particulars are given.

16.2) The person who completed the prescribed form of the warning statement, then noted that "The suspect was given a chance/opportunity to consult with his lawyers" and this resulted in "The suspect will consult with this legal team to answer questions which were asked/ see page 3 paragraph 5 (c)"

GSM

16.3) On page 3, paragraph 5 (e), it is written that "The suspect has requested an opportunity to consider his position and take legal advice such that he may respond by 5 September 2016" (This document was completed on 25 August 2016)

16.4) In the part of the document that normally contains the actual statement or version of a suspect, it is written:
"Refer to page 3 paragraph 5 (c)"

16.5) Paragraph 5 (c) is a bit confusing because it states " The suspect indicated that he

a) _____

b) _____

c) Would personally see to the drawing up of the statement and would furnish me with the statement on 2016-09-05" However, it appears that par 5(c) was scratched out. It is more likely that it was not paragraph 5 (c) that is referred to, but rather paragraph 5 (e). This is the total content of the "warning statement" that is relevant to the issue at hand.

17) Succinctly put, the complaint against Adv Mzinyathi and Dr Pretorius is that they "misrepresented facts under oath in papers which were to be presented before a High Court and / or withheld material facts which were to be presented before a High Court" This, obviously relates to their version that they had considered the contents of the warning statement of Van Loggerenberg, when it seems from the document itself that there is no "content" to the warning statement that could have been considered.

18) The complaint against Adv Maema is that he took a decision to prosecute without a version having been given by the suspect/accused, Van Loggerenberg, (contrary to the NPA Policy)

GSM

THE MERITS OF THE COMPLAINT

19) The warning statement of an accused or suspect is normally taken at an early stage of an investigation, in fact as soon as it can be established what the charge or charges against the person is.

20) Usually it happens before a person is formally charged but sometimes it happens after he is charged, depending on the circumstances.

21) When a case is presented to a prosecutor, he or she always checks whether the suspect/accused has given his/her version by way of a warning statement. This is always important because it discloses the defence of the person and it may also contain very useful admissions.

22) A prosecutor would consider a warning statement to have content, and qualify as a statement when

- It indeed contains a version by the suspect or
- It states that the suspect declines to make a statement.

23) It is a fact, that since the adoption of the Constitution, we find that more and more suspects/accused, follow the route of declining to make a statement. The prosecutor then has no choice but to take a decision without the version of the accused/suspect.

24) On 2 September 2016, Attorneys Allan Levin and Associates wrote to Dr Torie Pretorius on behalf of Van Loggerenberg and stated, inter alia, as follows:

Par.7 "We re-iterated our request that our client be afforded a copy of the docket. The Hawks investigators advised that, notwithstanding the recordial in their letter addressed to our offices that the investigation

G Sm

was complete, the docket would be provided only when our client had been charged."

and

Par.8 "..... In the absence of the content of the docket, our client is not in a position to meaningfully consider the request that he make a submission that might assist your office to arrive at a decision whether to prosecute him or not"

25) This, in our opinion is a clear indication that Van Loggerenberg had declined to make a statement before it was decided to proceed with the prosecution against him, which happened only in March 2018. It is also our opinion that nothing turns on the fact that the decision not to submit a statement appears on a separate document, other than the warning statement itself. Fact is, when the decision to prosecute was taken, it was known that Van Loggerenberg did not wish to submit a statement.

26) In his affidavit, Adv Mzinyathi each time refers in plural, to statements. Remember, he was referring to all three applicants, and the other two, had in fact made statements. In any event, as discussed in par 22 above, Van Loggerenberg's warning statement, together with the letter referred to in par 24 above can surely be considered as a version of what Van Loggerenberg wanted to do.

27) We accept the explanation from Adv Mzinyathi and Dr Pretorius when they state:

"It must be borne in mind that the affidavit in issue had nothing whatsoever to do with the warning statement in particular or the evidence against the accused in general. It was prepared in haste in opposition to an urgent application to strike the matter from the roll until the NDPP had considered the accused's representations"

28) This is in line with another fact that totally vitiates any notion of any intention to deceive or mislead on the part of Adv Mzinyathi and Dr

GSM

Pretorius. The fact is that the "warning statement" that forms the basis of this complaint, in actual fact was included in the papers that supported the founding affidavit of Van Loggerenberg for the stay of prosecution. It was there for all to see, the court included, so how could anybody attempt to deceive the court with the relevant document right there in front of it?

CONCLUSION

29) We find that by the time a decision to prosecute was taken, there was in fact a "statement" by Van Loggerenberg to indicate that he declined to make a statement.

30) We find that the reference to the statement by Adv Mzinyathi and Dr Pretorius in their affidavits does not contain the element of deceit nor was it done in an attempt to misrepresent or withhold any facts.

RECOMMENDATION

31) We recommend that no action be taken against Adv Mzinyathi, Dr Pretorius and Adv Maema..

MEMORANDUM

TO: **THE NATIONAL DIRECTOR**
ADV MENZI SIMELANE

FROM: **G S MAEMA**
ACTING DPP
SOUTHERN GAUTENG

SUBJECT: THE STATE VERSUS GLEN AGLIOTTI MURDER TRIAL ON THE SOUTHERN GAUTENG ROLL ON 3 FEBRUARY 2010

DATE: **3 FEBRUARY 2010**

OFFICE REFERENCE:

A: INTRODUCTION

Having been requested by the National Director to look in to the appropriateness of having the same prosecution team dealing with both the Selebi trial and the Agliotti murder trial, I requested the prosecution team to give me a briefing and I consulted Adv JJ Smit as well as Adv Mzinyathi and I applied my mind to the issues and came to the conclusion that it is in the interest of justice that the prosecution team and the investigation team should continue with the trial as they now stand.

The Selebi trial has been postponed until the 1st March 2010 pending the appeal by the Department of State Security to the Constitutional Court. The judge indicated that the parties must be ready for trial and the case will run to finality on 1 March 2010. The Agliotti murder trial is on the roll this morning and the State and the Defence have agreed to

GSM

approach the court for a postponement so that the Selebi trial is finalized prior to the commencement of the Agliotti murder trial.

B: BACKGROUND

Both the cases are so intrinsically linked that the accused persons and witnesses are common or the same. The one case revealed facts which are common to both cases and the investigation team considered them the same. When the DSO got involved in the investigation on the request of the DPP, Southern Gauteng the matter was being investigated by the police who were following wrong clues at the time. They were consulting with Straton who on the State case as it now stand is a main accused person with Agliotti. The case docket which was received from the police is available still in the same condition when the investigation was taken over.

THE STATE CASE

The State case is basically that the Keeble murder was an assisted suicide plan that originated from the financial difficulties which Kebble had in his minning business. When the plan started, Nassif discussed it with Kebble's father who confirmed it in his affidavit. This plan is confirmed by four (4) independent sources:-

- Nassif's statement which also taken independent from anybody
- Shoultz' statement also taken independently
- Glen Agliotti 's version in his bail application and lastly
- The detailed cell phone billing which shows the number of calls the involved parties made amongst them at the time.

The prosecution team met and consulted the family of the deceased, Kebble and informed them of the facts (that this is an assisted suicide), and the prosecution plan in 2007. The family understandably has their own different view. As regard the shooting itself, there are no cartridges, no fingerprints, no blood or other objective exhibits to assist the investigation. The firearm allegedly used was cut up and thrown into the sea with no trace. The vehicle used by the shooters was brought for repairs at the garage of one of the shooters and returned the following day. The DSO started their investigation a year after shooting incident had occurred.

The Section 204 witness statements

Clinton Nassif's statement was taken down by his attorneys who approached the State. The affidavit linked Agliotti to the Kebbles,and to huge fraud within the JCI related to the Springlights account amounting to about R24 million. The affidavit gave us information on the Brett Kebble murder, the hit list compiled by Agliotti and Strutton. One of the potential victims was Muldenhole who was subsequently shot in Cape Town on instructions of Kebble. The docket was closed by the SAPS as a drive by shooting with unidentifiable assailants. Muldenhole was part of the finance company that worked with Investec Bank to remove Kebble (the deceased) from the Board of Directors.

GSM

Clinton Nassif's section 204 statement had conditions that other shooters also be offered indemnity to become section 204 witnesses. His counsel who assited him with his statement was Barry Roux Sc. Other 204 statement of Shultz was prepared by his lawyer Ian Small Smith.

The Section 204 deals were discussed with the then NDPP, Adv Pikoli, the then Head of the DSO, Adv Leonard McCarthy in the presence of Kaleane Pillay, the Legal Advisor of the then NDPP. The Section 204 agreements are contracts which have legal consequences should there be any non compliance. I am convinced that without the 204 deals the killing of the deceased cannot be solved. The prosecution team is very confident of their case and of a conviction. They would have preferred Stratton's extradition application to have been finalized so that he could be tried with Agliotti. The Stratton extradition application has been submitted to the Australian authorities and is pending.

The accused, Glen Agliotti has also asked for 204 indemnity and was declined or never offered indemnity as he is on the State case one of the senior planners of the assisted suicide alongside with Stratton.

PROPOSAL AND RECOMMENDATION

It is recommended that the prosecution team as well as the investigation team be left to proceed with the state case as it is presently. I submit that it will be in the interest of justice and a successful prosecution that the team should be supported to carry on with the case. It was of course not anticipated that the Selebi case would have taken so long and it is the State Security Department that is approaching the Constitutional Court. The Section 204 statements are the only option that the State has to use to prove the case. There is no other independent objective corroboration of the 204 witnesses which compels the State to use more of the shooters to lend some degree of credence in the state version. I found nothing untoward with the procedure followed and I support it. I would have done the same if I were involved in the beginning. Taking Adv G Nel out of the picture will affect the strength of the prosecution team as he was involved in the negotiations with all the attorneys and advocates for the Section 204 witnesses. I therefore request that the prosecution team and investigation team be left intact. My suggestion will be that I add one (1) of my Junior advocates in the office so that he is afforded an opportunity to learn from the court process.

Kind Regards

GS Maema

Suspect Identification	Lt Gen. Dramat and others
Investigator	Task Team
Assignment	Investigations
Reporting Staff Member	Innocent Khuba

1. BACKGROUND

1.1 The Independent Police Investigative Directorate received a complaint of alleged renditions involving members of the DPCI headed by General Sibiya. The case was reported as result of parliamentary question by Cope Member of Parliament and an

GSM

article by Sunday Times. The case was referred to the Independent Police Investigative Directorate by Civilian Secretariat for further investigation.

2. SUMMARY OF ALLEGATIONS

The following allegations were made:

2.1 It is alleged that between 04/11/2010 and 31/01/2011 Captain M L Maluleke, Warrant Officer Makoe and Constable Radebe, through the direction of General Sibiya and Lt General Dramat, conducted operations in Soweto and Diepsloot to trace Zimbabwean Nationals. The suspects were wanted in connection with the murder of a Zimbabwean police Colonel in Bulawayo. The members were accompanied by Zimbabwean Police. Five Zimbabweans were arrested in Diepsloot and detained at various stations as illegal immigrants and others for fictitious crimes. They were allegedly assaulted by SAPS members and Zimbabwean Police and transported to Beit Bridge where they were handed over to the Zimbabwean Authorities. Four of them were reported murdered in the hands of Zimbabwean Police.

2.2 According to the allegation, Major General Sibiya was also part of the operation.

3. CONSTITUTIONAL AND STATUTORY MANDATE

3.1 Section 206(6) of the Constitution of the Republic of South Africa provide that, on receipt of a complaint lodged by a Provincial Executive, an independent Complaints body established by the national legislation must investigate any alleged misconduct or offences allegedly committed by members of SAPS.

3.2 Section 28 (a) (h) of the Independent Police Investigative Directorate Act 1 of 2011 provides that the Directorate must investigate any matter referred to as a result of a decision of the Executive Director, or if so requested by the Minister, an MEC or the Secretary as the case maybe, in the prescribed manner.

4. AVAILABLE EVIDENCE

4.1 STATEMENTS OBTAINED FROM INDEPENDENT WITNESSES

The following witnesses were interviewed and statements obtained.

Now included Statement A no's

Shepard Chuma A1: He will state that on Friday 05/11/2010 at 20h00 he was at 6954 John Malatjie Street Diepsloot together with Nelson, Maqhawe and Witness standing when they were approached by two unknown Black males. One of them produced an appointment card and the other produced a firearm and ordered them to lie down. He will further state that one of the Police Officer then took out a paper and started reading names like Mthelisi Sibanda, Godi Dube, Prichard Chuma and John. He asked them whether they know such people but none of such names were known to them. The officer was wearing a cowboy hat and they heard other police officers calling him Cowboy. Few minutes later, Cowboy asked the other Police Officers about where to detain them. While they argued about the place to detain them, the other officer suggested that General Sibiya be consulted to provide direction in the matter. A short

GSM

while later General Sibiya alighted from a Black BMW. He will state that they were assaulted and when they arrived at Orlando Police Station one of the Officers called "Leburu" took his R300 which was in a wallet in his back pocket. They were detained and on 2010/11/06 at 12h00 the officer called "Cowboy" came and took the finger prints of his co-accused but his fingerprints were not taken. He was informed that his finger prints will be taken at Musina.

On Monday 2010/11/08 at 12H00 Cowboy came to collect them. They were taken into a marked vehicle of Orlando SAPS driven by the officer in uniform. They followed Cowboy who was driving a white Nissan D/C. They were taken to a certain place called Bronkhorspruit where they were moved into a Toyota being handcuffed. They were then taken to Musina and they arrived at 17h00. They took one officer at Musina whom Cowboy said he will make matters easy for them to cross the border. He will further state that at the border, Cowboy went to Home Affairs office and few minutes later came back. They were transported in a Nissan D/C and crossed the border with Cowboy using a wrong lane but they were never stopped. When they were on the other side Zimbabwean police came and placed handcuffs on top of other handcuffs and Cowboy came and removed his handcuffs. They were taken to a Zimbabwean police car. He will state that they were interrogated by the Zimbabwean Police Officers about a Zimbabwean police Colonel who was killed. They were placed in separate cells and after 11 days he was released. When he enquired about his friend he was told that he was killed by the Zimbabwean police.

Maghawe Sibanda A2: He will state that on 05/11/2010 at 20h00 he was at his residential place in Diepsloot when he was approached by two Black Males who identified themselves as Police Officers. They instructed them to lie down and they cooperated with them. Few minutes later there were many cars of Police Officers in civilian clothes and they started searching them. He will further state that they were assaulted and the police also took R500-00 which was in his pocket. There was another police officer wearing Cowboy hat reading names on the paper and asking them whether they knew the names of such people. He will state further that he saw General Sibiya coming out of a black BMW and gave instruction that they should be taken to Orlando SAPS.

Nelson Ndlovu A3: He will state that on 05/11/2010 at 20h00 he was at his younger brother's residential place in Diepsloot when he was approached by two Black Males who identified themselves as Police Officers. They ordered them to lie down and then started to assault them. He identified one of the Police Officer by the nickname Leburu. After their arrest the Police Officers argued about where they should detain them and one of them suggested Randburg. General Sibiya gave the instruction that they must be detained at Orlando SAPS. They were then taken to Orlando SAPS but Shepard Chuma and Witness went with the police to show them where John stays.

Bongani Henry Yende A4: He will state that he is a member of the South African Police Services attached to Crime Intelligence. During October 2010 he was nominated to be a member of Task Team called Tactical Operations Management Section (TOMS) which was led by General Sibiya. On 2010/11/05 he received a call from W/O Makoe of DPCI in Gauteng who was also part of TOMS informing him that General Sibiya wanted them to meet in order to look for four suspects who are wanted in.

connection with the murder of police Colonel in Zimbabwe. He then went to Fourways Shopping Center with Constable Desmond Campbell who was also part of TOMS to meet with W/O Makoe. On their arrival at the Shopping Center W/O Makoe also introduced two Zimbabwean police to them. He will further state that he was informed by W/O Makoe that the two officers came through the office of General Dramat. At that time General Sibiya was seated in a navy-blue BMW and he could not go and greet him. They went to Diepsloot together with Captain Maluleke (also known as Cowboy), W/O Jawuke and Constable Leburu Radebe to identify the house of the suspects.

Captain Maluleke came back and informed them that he left the two officers observing the movements of the suspects at their residence. On their arrival at the suspect's place of residence, Captain Maluleke searched the suspects and confiscated their passports. There were four men who were lying on the ground and the two Zimbabwean police said that the four men are wanted in connection with murder of a Zimbabwean police Colonel in Bulawayo. The suspects were taken to Orlando and detained as illegal immigrants. On 23/11/2010 he was briefed by W/O Makoe that the two suspects who were arrested were subsequently killed in Zimbabwe. He will further state that the suspect Prichard Chuma was detained in Alexandra Police station. He will further state that Captain Maluleke was reporting directly to General Sibiya and whenever torture of the suspects was to be carried out, he condoned it.

Petros Jawuke A5: He will state that during October 2010 he was nominated to be part of a Task Team Called "TOMS" in Gauteng Province and that the team operated under the command of General Sibiya. On 2010/11/05 in the evening he received a call from W/O Makoe that their Commander Gen. Sibiya wanted all TOMS members to meet in Fourways because there was a Colonel who was murdered. He will state that he collected W/O Ndobe and rushed to Fourways where they met with other members.

He will state that W/O Makoe instructed him to join Captain Cowboy Maluleke and Constable Leburu Radebe to identify the suspects address. On their arrival at the identified house they found a car standing outside but there was no one inside the car. He will state that four men came to the vehicle and that they arrested them and detained them at Orlando Police Station as illegal immigrants but not the Zimbabwe murder case as indicated at the beginning of the tracing process.

He will further state that on 2010/11/23 the second operation was arranged and that he got a call from W/O Makoe that their Commander General Sibiya wanted them to meet at Diepsloot Shoprite. General Sibiya was present in the second operation. They went to Diepsloot where an African Male Pritchard Chuma was found and arrested for murder of the Colonel in Zimbabwe.

Desmond Campbell A6: He will state that on 2010/11/05 General Sibiya arranged with W/O Makoe to call them for operation at Diepsloot for tracing wanted suspects in a murder case where a Colonel was killed. He received a call from Constable Radebe that they have already arrested the suspects.

He will further state that the suspects were assaulted since he heard screams but did not take part in the assault of the suspects. The suspects were arrested in connection with a murder of the police Colonel in Zimbabwe. He will state that the four suspects

GSM

were then detained at Orlando Police Station as illegal immigrants and not on the Zimbabwe Murder case of the Colonel. On 22/11/2010 until the early hours of 23/11/2010 Prichard Chuma was arrested and detained in Alexandra. He never saw General Sibiya being involved in the operation but that there was a person who was always seated in the black tinted BMW and W/O Makoe referred to the person as General Sibiya.

Alfred Ndobe A7: He will state that during October 2010 he was nominated to be part of Task Team called "TOMS" in Gauteng Province headed by General Sibiya. On 2010/11/05 Gen. Sibiya arranged with W/O Makoe to call them for operation at Diepsloot for tracing wanted suspects in a murder case where a Colonel was killed. He was not aware that the suspects that they were tracing were needed in a Zimbabwe case. He received a call from Constable Radebe that they have already arrested the suspects.
The suspects were assaulted by General Sibiya, Captain Cowboy and W/O Makoe. He will state that the four suspects were then detained at Orlando Police Station as illegal immigrants but not on the Zimbabwe murder case of the murdered Colonel.

Desmond Campbell A11-Additional statement: He will state that he was based at Johannesburg Central Crime Intelligence before receiving a call up instruction from Provincial DPCI head , Gauteng Major General Sibiya too report at Gauteng TOMS office. On 22/11/2010 of which he cannot remember the exact time they detained Prichard Chuma whom he does not know whether is related to Shepard Chuma. He will further state that he witness an assault on 2010/11/05 on Zimbabwean Nationals carried out by Captain Maluleke, W/O Makoe and Constable Leburu. He will further state that on 2010/11/05 and 22 to 23/11/2010 when they carried out the operation, there would be a figure seated in a black BMW whom Warrant Officer Makoe referred as Major General Sibiya.

Andrew Mark Sampson A12: He will state that he is a White Male self employed as a Project Manager of House Constructions. He knew Maqhawe Sibanda as a sub-contractor on his building sites. He will state that Mr. Sibanda vanished for a week and resurfaced again. He was informed by Mr. Sibanda that his disappearance was as result of his arrest in connection with the alleged murder of a Zimbabwean Colonel. He was taken to Beit Bridge but released along the way and he had to find his way back because he did not have money and his cell phone was confiscated by the police. He will state that he was requested by Mr. Sibanda to call the said police Captain for his cell phone. He called the police Captain and he confirmed that the cell phone will be returned. He does not know whether such phone was finally returned to Mr. Sibanda.

Sibongile Mpofu A24: She will state that she is a neighbor of the deceased Johnson Nyoni. She will state that she witnessed a group of unknown Policemen assaulting the deceased who was lying down on the furrow of running water as it was raining. She will state that the deceased was assaulted by means of being kicked with booted feet. She will state that she cannot recall the exact date but it was during January 2011.She will state that the deceased was also pepper sprayed on his face and that he was having bloodied mucous coming out of his nostrils.

GSM

She will state that she was standing at the distance of about 20 meters when she witnessed the incident and that it was still in the morning around 10:00. She will state that she never saw what happened inside the shack. She will state that she learnt that the deceased was indeed murdered after a month from his younger brother. She will state that she may not be able to identify them if she can see them again.

Reasons Mhlawumbe Sibanda A20: He will sate that on November 2010, on the date in which he cannot remember the date he visited his ex-girlfriend Brightness Nka Ncube who was staying with his distant sister Rachel Ncube. He slept over and in the middle of the night he was woken up by the police looking for John the boyfriend of Rachel. He was assaulted by a police whom he cannot identify, since it was in the dark. There was another Police Officer who was flashing a cellphone on their faces trying to identify them. He will further state that John was not there and they were freed when they indicated to the police that none of them was John.

Rachel Ncube A21: She will state that she is the wife of the deceased John Nyoni. It was on 26/11/2011 at 10h00 when she was in her shack with her husband Johnson Nyoni when police arrived and started assaulting him. The police entered the shack and said that they were looking for a firearm which they alleged that her husband used to kill a policeman in Zimbabwe. There were five (5) police vehicles, and her husband was taken away by the police and that was the last time she saw him. In February 2011 she received a call from Bikinis Nyoni, the brother of the deceased that Johnson Nyoni has died.

Brightness Nka Ncube A22: she will state that she is the sister-in –law of the late Johnson Nyoni. On the 5th or 6th of November while she was asleep she was woken up by the police who pretended to be Johnson Nyoni and later changed to indicate that they are in fact Police Officers. She will further state that she was assaulted by the police who were looking for Johnson Nyoni. The police freed them after they realized that Johnson was not amongst them. She learned later that Johnson Nyoni was murdered by the police in Zimbabwe.

Madala Bhekisisa Nyoni A23: He will state that he is the brother of late Johnson Nyoni and on 01 March 2011 he telephonically contacted his brother in law Orbed Ndlovu from Bulawayo in Zimbabwe who informed him that his brother Johnson Nyoni is late and was found at Central Mortuary in Bulawayo. He will further state that he then went to Bulawayo in Zimbabwe and at the mortuary he found the body of his brother. The body of Johnson Nyoni had a bullet wound on the collar (neck) just above the chest and it exited at the back. There was an information note attached to the body stating that Johnson Nyoni was involved in the crossfire at Gwanda in Zimbabwe. He will further state that he attended Johnson Nyoni's funeral which was held at Tsholotsho in Zimbabwe.

4.2 STATEMENTS OF MEMBERS AT ORLANDO POLICE STATION

The following statements were obtained from members of SAPS based at Orlando police station who are witnesses in the case.

Brigadier Mthokozelwa Zangwa A25: He will state that he is a Station Commander of Orlando Police Station. He became aware of the allegation of deportation of Zimbabwean foreign Nationals in 2012. He will state that as part of his own investigation he perused the registers to check if there were indeed Zimbabwean nationals detained at Orlando Police Station. According to OB 279/11/2010 the said Foreign Nationals were arrested by Captain M L Maluleke. He also discovered that the Foreign Nationals were detained until 08/11/2010. The procedure is that when a person is arrested and is suspected to be illegal immigrant, Home Affair official is called to verify the status of the person before he or she is taken to Lindela for deportation. He does not know why the procedure was not followed by the police in this case. He will further state that Captain Maluleke confirmed that he indeed took the said Foreign Nationals to Beit Bridge.

Thomas Pixane Setagane A26: He is a member of SAPS stationed at Orlando. On 08/11/2010 Captain Maluleke came to the holding cells with four foreign national namely Dumisani Witness Ndeya, Nelson Ndlovu, Maqhabane Sibanda and Shepard Chuma. The four Foreign Nationals were registered on the OB and cell register. He will state that it was for the first time for him to experience a situation where a member of DPCI arrest and detain a person for being an illegal immigrant.

Padlie Abrina Papo A27: She will state that she is a Constable and that during the time of incident she was still a trainee. On 2010/11/08 at 05h45 she reported on duty and she was posted at the cells. On the same day she was tasked by W/O Marule to write the Occurrence Book. She made entries as directed and not as she observed because she was a Trainee.

4.3 STATEMENTS OF HOME AFFAIRS OFFICIALS

Nolwandle Qeba 29: She will state that she is a Director responsible for Deportation. She will further state that the incident that took place in 2010 occurred before she joined the department but upon being informed of the facts of the case by her juniors, she realized that members of the SAPS did not comply with the procedure when they deported the four Zimbabwean Foreign Nationals. She stated that a member of SAPS is not allowed to deport any person without the involvement of Home Affairs. The person suspected to be illegal foreigner must be verified by the Immigration Officer and the High Commissioner or the Embassy must confirm that such person is their citizen.

Peter Ndwandwe A28: He will state that he is an Assistant Director with the Department of Home affairs in Soweto. He started knowing about the incident involving four Zimbabwean Foreign Nationals in 2012 when he was contacted by Mr. M Matthews who is a Chief Director at their Head Office. He will further state that the four Zimbabwean nationals were not supposed to be deported because from 20/09/2010 to 31/12/2010 there was DZP which is Dispensation for Zimbabwean Project initiated by the Minister to allow all Zimbabweans without legal documents to stay in the country for 90 days in order to apply for legal documents. There is no Zimbabwean who was supposed to be deported on the basis of illegal documents during that period.

He will also further state that in 2012, few days after receiving a call from Mr. M Matthews a Police Officer by the name of Maluleke visited his office and showed him Home Affairs documents with signature and asked him whether he could identify any-

signature on the documents. He told Mr. Maluleke that the signature does not belong to any of his people. The documents were copies and Mr. Maluleke left in a hurry without showing him the documents in full.

He will further state that no police officer is allowed to deport any person and any person suspected to be an illegal foreigner must be screen by Immigration Officer.

Job Jackson A33: He will state that he is an Acting Deputy Direct responsible for the day to day running of Lindela Holding facility. In his statement he outlined the process involved in the deportation of a person from Lindela. He will further state that the incident took place before he was transferred to Lindela.

Potiswa Skosana A31: She will state that she is an Immigration Officer Station at Soweto. She will further state that the form Warrant of Detention of Illegal Foreigner (BI-1725) was discontinued in 2008 and that the Notification of Deportation Form must be accompanied by the fingerprints. She will further state that in all cases police call them to screen the illegal foreigners before such persons are taken to Lindela.

Johannes Lodewickus A30: He will state that he is a Deputy Director in the Department of Home Affairs at Soweto. He confirmed that the number on the Detention Warrant and Notification of Deportation form provided by the police does not belong to any Home Affairs official in Soweto.

Richard Peter Elberg A37: He state that he is an Immigration Officer based at Beit Bridge. He will further state that when SAPS bring an illegal foreigner at Port of Entry they must hand in a Body Receipt form and not the Detention Warrant. The Warrant of Detention is not a deportation document and must not be produced or stamped at Port of Entry.
He will dismiss the allegation that the stamp used on the documents claimed to be Home Affairs documents by the police is a deportation stamp.

Kobela Margret Mohlahlo A39: She will state that she is an Immigration Officer based at Beit Bridge and she had been a custodian of Stamp 20 since 2010. She had been in control of stamp 20 and when she is not in the office the stamp would be locked in the safe. She is the only person in possession of the key. She will state that on the 7th and 8th of November 2010 she was off duty and the stamp was locked in the safe. She does not know how stamp 20 appears on the documents which the police claim to be deportation papers because on the day in which the documents were stamped she was off duty and the stamp was locked in the safe.

4.4 STATEMENTS OF MEMBERS OF SAPS IN LIMPOPO

Ndanduleni Richard Madilonga A51: He will state that he is a Police Officer in the South African Police Service holding a rank of Lieutenant Colonel stationed at Thohoyandou SAPS as a Commander of Crime Prevention.

He will further state that the statement is additional to the statement he signed with a member of the Hawks from Pretoria. He wants to clarify certain issues pertaining to his previous statement.

Before he was transferred to Thohoyandou SAPS, he was working at Beit Bridge Police Station as a Commander. His duties included Crime Prevention, liaison with the Immigration Officials and other police officials from other stations.

In 2010, two weeks before the 8th November, there was a convoy of vehicles from Zimbabwe entering into South Africa. As he was suspicious, he approached them. The convoy was approaching the Immigration Offices. When he approached them, one of them introduced himself to him as the leader of the group and he told him that he is Superintendent Ncube from the Homicide Unit in Harare. He then requested him if they could not find a place to sit down and discuss.

Superintendent Ncube told him that he was going to Pretoria to meet General Dramat. He said to him that maybe he knew about the Chief Superintendent who had been murdered. He said that the suspects were in Gauteng and he had organized with General Dramat to assist them in tracing the suspects.

He will state that he told Superintendent Ncube that he has to verify with his seniors about the arrangements. He was given a number of General Dramat by Superintendent Ncube. He called Colonel Radzilani to verify the information but she requested that he should call Brigadier Makushu who was a Provincial Head Protection and Security Services. He then called him on his cell phone and explained to him that there are police from Zimbabwe who are intending to have a meeting with General Dramat. Brigadier Makushu told him that he was not aware of the visit but if the people are saying that they are going to meet the General, he should call General Dramat directly. He phoned General Dramat on his cell phone and he responded by saying that he is aware of the Zimbabwean police and he must let them come.

For the period of two weeks, he never heard anything from Superintendent Ncube and his group. After two weeks he received a call from Superintendent Ncube who told him that he was in town and he wanted to say goodbye. He went to town and met with them in front of Tops bottle store. They bought liquor and they left to the border. He did not escort them; they went to the border and crossed to Zimbabwe. They did not discuss anything about the operation they had in Gauteng with General Dramat.

The following day after the departure of Zimbabwean police, he received a call from Captain Maluleke who is also known as "Cowboy". It was on 08 November 2010 between 16 and 17:00, when he called and introduced himself as Cowboy and I asked as to who is Cowboy. He said that he is a Captain Maluleke and was with him at Paarl in Cape Town in 2005. When he said that he is Captain Maluleke, he remembered very well who he was. Captain Maluleke asked him where he was, and he said he had already crossed the checkpoint. He was told to stop and wait for him. After thirty minutes he arrived and was driving a Sedan which he thinks is a BMW. He was with a male person who was seated on the front passenger seat. He then entered into the vehicle after the passenger had moved to the back seat.

While he was on the front passenger seat heading to the border gate; he told him that the Zimbabwean police whom he assisted some weeks back were looking for suspects in connection with the death of police chief in Zimbabwe, and now they have found them. He told him that he was sent by his big bosses to assist in deporting them because the country does not have extradition agreement with Zimbabwe. He said that since the Zimbabwe police entered the country there had been busy trying to trace the suspect.

GSM

IVZ

While they were driving he realized that there were other BMW cars which were following them and he knew that it was a convoy. Captain Maluleke told him that suspects are in the vehicle behind them. He said that that there are two suspects and the third one is still not yet found. He will further state that he never stopped anywhere at the border and no documents were stamped for the purpose of deportation.
When they arrived at the Zimbabwean side the vehicle stopped and immediately all the vehicles were surrounded by Zimbabwean police. They then pulled the suspects from the back seat of the vehicle behind them. He knew that they were Police Officers because he had been working at the border for a long time and he knew them. He even saw the vehicles that crossed two weeks ago when Superintendent Ncube entered the country.
Thereafter one of the Zimbabwean police came and thanked them and said that they must not use the other gate but use the one they used when they entered.
Captain Maluleke told him that what happened is top secret and people must not know about it.
In 2012 of which he cannot remember the month and date, Captain Maluleke phoned and told him that there is a person from Head Office who will be coming for investigation and that he must cooperate with him.
Later a person came to Thohoyandou and he had a draft statement. He was told that there is a problem with the operation which was once done by the Hawks and they would like his statement to be in a particular format. He told him that the statement is for covering up and the parliament has some issues about the operation. He will further state that he read the statement and realize that it was to close the gaps and not a true reflection of what happened.

Brigadier Joseph Makushu A53: He will state that in 2010 he was the Head of Security and Protection Services responsible for eight Borders of which one of them is Beit Bridge. He will further state that Colonel Madilonga was one of his team members posted at Beit Bridge reporting under Colonel Radzilani. He remembers receiving a call from Colonel Madilonga in 2010 requesting permission to allow Zimbabwean Police who were going to see Major General Dramat. He then instructed him to call General Dramat directly because he did not want to be involved in the operation which he was not previously informed about. He will further state that it was the last time he spoke to Colonel Madilonga about the Zimbabwean Police.

Colonel Dovhani Sharon Radzilani A54: She will state that in 2010 she was the direct supervisor of Colonel Madilonga at the Beit Bridge Port of entry. She will further state that in 2010 Colonel Madilonga informed her about the Zimbabwean Police who were about to enter the country to see Major General Dramat. She cannot remember whether he informed her telephonically or he came to her office. She will further state that she told Colonel Madilonga to speak with Brigadier Makushu about the issue.

4.5 **STATEMENTS OF TOMS MEMBERS IN GAUTENG AND PRETORIA**

Lt Col Neethling A55: He stated that he is a member of South African Police Services stationed at the Directorate of Priority Crimes, Provincial Office in Gauteng. In November 2010 of which he cannot remember the exact date, he received a request from Captain Maluleke to assist in arresting a suspect in the Fourways area. He met with Captain Maluleke at Diepsloot who then led him to the spot where the suspect

GSM

JI

was. Captain Maluleke walked towards him and briefed him, informing him that he is investigating a case of murder of a Zimbabwean police officer.
He did not ask any question because he knew Captain Maluleke to be working for "Cross Border Desk" at the Head Office of the Hawks. He also did not ask question because he knew that Captain Maluleke was representing the Head Office. He considers himself to be less knowledgeable in Cross Border crimes than Captain Maluleke. He discussed the tactical approach of the operation with his team since he considered the operation to be high risk. He positioned himself at the back of the vehicle convoy down a very narrow alley leading to an informal structure. There were three Police Officers whom later he discovered that they were Zimbabwean police. They were dressed in neat trousers, collar shirts and suits jackets.

After 15 minutes his members came out and informed him that they found the intended target and that Captain Maluleke had arrested him. They drove out of the settlement and stopped at the shopping center. Captain Maluleke informed him that they also have to arrest other suspects in Soweto. He was informed the next day that other two suspects were also arrested.

He also remember receiving a call from Captain Maluleke requesting escort of high risk suspects to Musina since he had to hand them over to Zimbabwean Authorities. He did provide a team to escort the suspects. He believes he must have reported such arrests to Major General Sibiya.

Captain Arnold Boonstra A60: He will state that in November 2010 (a date and time of which he cannot remember) he was requested by Lt Col Neethling to assist in tracing the suspects who were wanted by Captain Maluleke. He went to Diepsloot shopping Centre and waited for the members involved in the operation to come and fetch him. They came in a convoy and he followed. It was at night and he cannot remember the exact time.. He approached Lt Col Maluleke known as Cowboy to provide him with the case number or reference number. He gave him a reference number from the file he was holding. He also told him that the suspects were wanted in connection with murder of a Police Colonel in Zimbabwe. He also mentioned that the police Colonel was killed during the Shoprite robbery. He does not remember precisely whether he said Shoprite robbery took place in Zimbabwe or South Africa.

The operation moved to Soweto but he did not see people who were arrested. He did not witness any assault because he was not near the operation..He just heard Lt Col Maluleke saying that he will detain the suspects in Soweto.

Captain Ernest Nkosi A77: He will state that on 22/11/2013 after the operation which was carried out at Diepsloot he was requested by Lt Col Maluleke from DPCI Head office to take suspect Prichard Chuma to Alexandra Police station for detention but without the case number. He detained the suspect at Alexandra Police Station free of any injuries. He will further state that he wrote the cell number of Lt Col Maluleke in the Occurrence Book.

Warrant Officer PJD Selepe A56: He will state that he is employed by DPCI in Gauteng on a rank of a Warrant Officer. In November 2010 of which he cannot remember the exact date he received a call from his Commander Lt Col Neethling

GSM

requesting him to assist Captain Maluleke in escorting a suspect. He told him that Captain Maluleke will provide details of the trip.

He then called Captain Maluleke who confirmed that he needed assistance to transport a suspect to Musina. He requested him to use his vehicle because it had a blue light. He was in possession of BMW 330 with registration number TJH588 GP. He cannot remember the details of the trip but he remembers arranging with Captain Maluleke to meet at Alexandra Police Station on 23/11/2010 as recorded in the Occurrence Book to book out the said suspect. Captain Maluleke arrived and was driving a Nissan Hard body Double Cab.
Captain Maluleke told the officer at the Service Centre the name of the suspect and the suspect by the name of Prichard Chuma was brought to him. Captain Maluleke handcuffed the suspect and took him to the BMW. He then drove the vehicle being escorted by Captain Maluleke. He did not know what the suspect was wanted for and that he was just carrying out the request of his commander. He was told by Captain Maluleke that the suspected should be taken to Silverton Police station. He drove the suspect to Silverton where he was booked in the cells. He does not remember whether he booked the suspect himself or Captain Maluleke did it. After booking the suspect Captain Maluleke told him that on 24/11/2010 he must assist in escorting the suspect to Musina.

On 24/11/2010 he went to Silverton DPCI's office as directed telephonically by Captain Maluleke. When he arrived the following day, he discovered that the suspect he transported the previous day was no longer in the cells in Silverton Police Station but with Captain Maluleke. He was then brought to his vehicle and after he sat down, Captain Maluleke placed iron legs on him. They then drove to Musina while Captain Maluleke was providing escort. Captain Maluleke was in the company of a female person not known to him.

On arrival at Musina Captain Maluleke signaled using the head lights that they have to proceed straight to the border. He then proceeded to the border and when they arrived, they found the entry gate having a long queue. He used the exit gate as entrance gate. The police stopped them before they proceeded any further but when he put the blue light of his vehicle on, they gave way. He stopped in front of the police station at Beit Bridge and Captain Maluleke came over to his car, released iron legs from the suspect and headed to the Community Service Centre. He then went back and slept over in Polokwane.

Warrant officer Glyani John Sambo A59: He will state that on 23/11/2010 he was officially on duty at Silverton Police station when Detective Warrant Officer Selepe brought a black male Prichard Chuma. The prisoner was booked in as a transit without body receipt. He will further state that W/O Selepe was with an unknown African male. On 24/11/2010 W/O Selepe came and book out the prisoner Prichard Chuma from Silverton Police station to Beit Bridge under Bulawayo Case number 1337/11/2010. The same prisoner was received by the African male who was with W/O Selepe the previous day and he signed the Occurrence Book as a Captain.

McIntosh Polela A76: He will state that in December 2010 to May 2013 he was employed by South African Police Services as a spokesperson for the DPCI. He was reporting directly to Lt General Dramat and Brigadier Mashigo. He will further state that

5 NOV 2010
NOT
DPCI

he remember one time being introduced to the Zimbabwean Police who were having a meeting with General Dramat. He cannot remember when and how the meeting was conducted since he was not part of the meeting. In 2011 he received an inquiry from Mzilikazi wa Africa who wanted to be clarified of renditions of Zimbabwean nationals. A meeting was held between him and Lt General Dramat, Col Basi and Captain Maluleke to discuss the issue. During the meeting Captain Maluleke denied to have handed any person to Zimbabwean Authorities without the involvement of Home Affairs. Lt General Dramat also denied having known any renditions of the Zimbabwean nationals. He will further state that he telephonically contacted Major General Sibiya to find out whether he knew about the renditions of Zimbabwean nationals and he denied having knowledge of such. He will further state that he does not remember an incident in which he moved from house number to house number three at the DPCI office and Lt General Dramat addressing the people about the arrest of the Zimbabwean nationals.

Masocha Rodgers Nhlamu A80: he will state that on 11/11/2011 he received an investigation from his commander Colonel Basi by giving him a copy of a newspaper article that reads' "HAWKS AND SA POLICE ARRESTING SUSPECTS AND SENDING THEM OVER THE BORDER TO BE MURDERED". He will further state that he investigated the case by interviewing members of the Hawks Lt Col Maluleke who also gave him copies of warrants of detentions of the following individuals, Dumisai Witness Ndeya born 1987/05/10, Nelson Ndlovu born 1985/11/14, Mäqhawe Sibanda born 1988/07/13 and Shepard Chuma born 1988/07/15. He also approached Interpol and checked whether the above suspects were on the list of wanted suspects. He obtained the statement of Lt Col Neethling, Major General Sibiya, and Mr WCR Voster. He will further state that during the investigation he was unable to find the person who leaked the documents to the media.

4.6 STATEMENTS OF TRT MEMBERS WHO ASSISTED IN THE ARREST OF JOHNSON NYONI.

Avhashoni Desmond Takalani A62: He is employed by the South African Police Services in Gauteng stationed at Johannesburg Central Police station under the TRT unit. On 2011/01/12 at 11h00 in the morning he was on duty in a full uniform posted at Diepsloot for Crime Prevention purpose. While busy with his duties with other members of TRT unit from Johannesburg Central, they received a request from members of the Hawks (DPCI) TOMS who were at Diepsloot SAPS to provide backup in the arrest of wanted suspect. When they arrived at Diepsloot SAPS, he decided to remain outside while others were briefed inside the station. From the station the vehicles proceeded to the Squatter Camp. Along the way his co-workers informed him that there was a suspect who was being traced at the Squatter Camp.

When they arrived at the place where the suspect was, he remained inside the vehicle because it was raining and he did not have a rain coat. He saw the suspect when they brought him to the vehicle. After members of the Hawks and Crime Intelligence who were unknown to him arrested the suspect, they were requested to escort the suspect to Silverton DPCI offices. They escorted the suspect and at Silverton DPCI offices he saw Captain Maluleke who was wearing a Cowboy hat with two unknown African males who were travelling in a white BMW with Zimbabwean registration numbers.

Captain Maluleke further said that they were Zimbabwean police who came to take the suspect, referring to the suspect whom they had just arrested at Diepsloot.
While they were with the suspect, he told them that some weeks back he was in Zimbabwe attending a funeral of some of the people he committed crime with and also knew they were after him. He was telling them when Captain Maluleke and Zimbabwean police were inside the offices.
They were requested to take the suspect to Pretoria Moot SAPS for detention. Before they went to Pretoria Moot SAPS, photos of all members involved in the operation were taken. When they arrived at Pretoria Moot Polices station, Captain Maluleke detained the suspect and they then knocked off.

Johannes Mpati Moatshi A61: He will state that in January 2011 he was on duty posted at Diepsloot as a result of xenophobic violence prevalent at the time. At 13h00 on that particular day, he received a call via two ways radio from his commander to go Diepsloot police station. When he arrived with his colleagues he found the commander of Diepsloot Police station who introduced them to Captain Maluleke who was with two males persons and a female. The two male persons and a female were introduced as members of Crime Intelligence. Captain Maluleke informed them that there is a person who has committed serious cases in Zimbabwe and he is very dangerous. Captain Maluleke further said that the suspect was with the informer and had to be arrested. He will further state that they went into Diepsloot where the suspect and the informer were pointed out. After the arrest of the suspect they went to a certain shack where members of Crime Intelligence conducted a search but nothing was found. They were told by Captain Maluleke to transport the suspect to DPCI offices in Silverton. At Silverton Captain Maluleke requested them to book the suspect at Moot Police with the instruction that no visitor is allowed for the suspect. He cannot remember the name of the suspect but he remembers taking photos with the officers from Zimbabwe.

Sello John Phaswana A64: His statement corroborates that of Avhashoni Desmond Takalani in all material aspects.

Tshatoa Jacob Seletela A63: His statement corroborates that of Avhashoni Desmond Takalani and that of Sello John Phaswana in all material aspects.

Matsobane Silas Mokoatlo A78: His statement corroborates that of Avhashoni Desmond Takalani and that of Sello John Phaswana as well that of Tshatoa Jacob Seletela.

Andries Nxumalo A65: will state that around 11 or 26 January 2011 he was working in Diepsloot as a result of xenophobic violence at that time. He heard over the radio that they were wanted at Diepsloot Police station. When he arrived at the station he found Captain Maluleke, two male officers and one female who were introduced to him as members of Crime Intelligence. He will further state that Captain Maluleke requested them to assist in the arrest of Zimbabwean National who committed serious crimes in Zimbabwe. Together with his colleagues they went to a section in Diepsloot where the suspect was said to reside. The suspect was arrested and taken to DPCI offices in Silverton; he participated in a photo shoot with members of Zimbabwean Police. After the photo shoot, they took the suspect to Moot Police station for detention.

Constable Hosea Tshabalala A83: He will state that on 26/11/2011 he was officially on duty posted at Diepsloot. While still on duty was requested together with his colleagues to assist them in tracing a suspect who was involved in the murder of Zimbabwean Colonel in Zimbabwe. Constable Rikhotso and his female co-worker briefed them that the suspect was with the informer. When they arrived at the exact place, they found the suspect standing in front of the tuck-shop. They arrested him and took him to his room where they found a woman with a small baby. Constable Rikhotso and his female colleague search the room. The suspect was taken to Silverton at the DPCI offices were they found two Zimbabwean police officers. He will further state that the suspect informed him that some few weeks while he was in Zimbabwe he attended the funeral of his colleague who was killed by the Zimbabwean police and the same Zimbabwean police will kill him when he arrive in Zimbabwe. He was requested to detain the suspect at Moot police but he cannot remember the person who made the request.

4.7. STATEMENTS OF CRIME INTELLIGENCE MEMBERS WHO TRACED AND ARRESTED GORDON DUBE AND JOHNSON NYONI.

Masingita Rikhotso A67: He will state that in January 2011 of which he cannot remember the exact date he went to Wierdabrug police station at the CIAC office which is responsible for profiling and identification of crime hot spots. When he arrived he found Constable Sombhane who was working at the CIAC office. Constable Sombhane gave him a list of wanted suspects and on top of the list was Gordon Dube who was wanted in connection with murder in Zimbabwe and robberies in South Africa. He came back to his office and organizes with his contact to look for Gordon Dube it took two week to find a wanted suspect. He will further state that his contact informed him that he found Gordon Dube and together with his colleagues they went to Thembisa in order to apprehend the suspect. He was informed that the suspect will be coming since he wanted to buy bullets from someone. He will further state that while they were in Thembisa they managed to see the suspect and when he moved the pursued until they arrested his in Diepsloot. They found the suspect in possession unlicensed firearm. He saw the same firearm with captain Maluleke at the Hawks offices after it was returned from ballistic testing. The suspect was taken to Wierdabrug to detention. Again in January 2011 he received information from Captain Maluleke who requested him to look for John Nyoni. He then tasked his informer again to assist in the arrest of Nyoni. On 26/11/2011 he went to Diepsloot having organized with his Contact to arrest John Nyoni. When he arrived the Contact pointed out the suspect and he was arrested. After they arrested John Nyoni, his house was search but nothing was found. They took the suspect to Silverton DPCI offices. They were assisted by members of TRT. He will further state that he participated in the photo shoot with the Zimbabwean police. He also heard Captain Maluleke requesting members of the TRT to take the suspect to Moot Police station.

Plantinah Mokgobu A69: She will state that she is employed by the South African Police Services stationed at Crime Intelligence in Pretoria with a rank of Constable. On 12/01/2011 while in the office they received information from their Contact/informer and he tipped them off about a crime that was going to take place at Diepsloot. They then proceeded there with a backup of members from Ivory Park Police Station where they effected the arrest of Gordon Dube at Diepsloot.

GSM

In January 2011 they received information from CIAC at Wierdeburg regarding the wanted suspect John Nyoni. The person they liaised with at CIAC was Constable Sombhane who also gave them the number of Captain Maluleke. She also spoke to Maluleke over the phone while they were there. They then drove to the Hawks offices to meet with Captain Maluleke who told them that the suspect has murdered a police officer in Zimbabwe;

They then tasked their Contact/Informer to look for the suspect, who did and the suspect was arrested. After the arrest of John Nyoni, they all proceeded to the Hawks offices where they gathered together for a photo shoot. Captain Maluleke exchanged the taking of photos with the Zimbabwean police. The photo of the suspect was also taken and the exhibit which is a firearm was also photographed. After the photo shoot she went to the shop, but when she came back she was told that General Dramat was with Colonel McIntosh and he had just addressed the people in her absence. She felt that she missed out on the speech of General Dramat but her colleagues told her that he was just congratulating them for a job well done.
Superintendent Ncube from Zimbabwe who was wearing black shirt and spectacles told us that he will be sending us letters of congratulation from Zimbabwe. She still recalls that later they were called by Brigadier Britz from Crime Intelligence Provincial office, and he showed them an appreciation letter from Zimbabwean government. He told them that they would be called by Provincial Commissioner Mzwandile Petros to meet with them as a result of their good work. She does not know what happened to John Nyoni thereafter.

Emmanuel Dinizulu Mkasibe A68: His statement corroborates that of Platinah Mokgobu in all material aspects. He will state further that shortly after the photos were taken, he saw General Dramat of the Hawks. General Dramat was with the spokesperson of the Hawks known to him as Colonel McIntosh Polelo. They then gathered together and Captain Maluleke introduced General Dramat and the spokesperson. General Dramat addressed and thanked them for arresting the suspect. General Dramat warned them not tell anyone about the operation we had just done.

After he said that he left and Captain Maluleke told us that he was organizing a celebration braai. While they were busy enjoying themselves, a lady working at the Hawks offices with Captain Maluleke came and joined them. She wanted the meat to take home because there was too much meat. She was requested to download the photos from the camera by Captain Maluleke.

He will state further that he then decided to follow her to the office. When she downloaded the photos he requested her to print the photos for him. She agreed and printed many photos which he took home and still have them even now.

Constable Polelo Fortune Mngwenya A75: He will state under oath that on the 26/01/2011 he was called by his colleagues after the arrest of Johnson Nyoni to join them at DPCI offices in Silverton for a braai. He will further state that when he arrived he found Zimbabwean police and some of his colleagues participating in a photo shoot. Shortly after the photo shoot Lt General Dramat came and thanked them for the job well done. He will further state that Lt General Dramat was wearing a white shirt and a red tie.

GSM

Statement of Brigadier A G Britz of Crime Intelligence A79: He will state that During January and February 2011, Constable Rikhotso and his female colleague visited his office and informed him that they arrested two Zimbabweans who were involved in a spate of arm robberies and recovered a firearm. He congratulated them without enquiring the details of the case. In March 2011 he received a letter which was addressed to Col Ntenteni from CID Provincial Headquarters in Zimbabwe Bulawayo-Zimbabwe. A copy of the letter is attached to his statement. He then arranged with Col Ntenteni to send the officers to the next Crime Intelligence Provincial Management meeting in order for them to be congratulated. After the management meeting he also wrote a letter to Lt General Toka's signature to the Provincial Commissioner in order for him to congratulate the members. On 15/07/2011 he received four letters from the Provincial Commissioner thanking members for good work. He will further state that he had no prior knowledge that the suspects arrested were wanted in connection with the murder of Zimbabwean police.

STATEMENTS OF DIEPSLOOT SAPS MEMBERS REGARDING GORDON DUBE

Avhasei Witness Rambuda A72: He will state that in January 2011 he was working Diepsloot as a Detective. There were three suspects who were arrested after they were involved in the shooting incident with the police. They recovered a firearm which was booked into SAPS 13 and received exhibit number SAPS 13/31/2011. He was involved in the charging of the suspects and they were attending court at Attridgeville.
After some few days he received a call from Captain Maluleke of the Hawks asking him to go to Ballistic Pretoria and collect the firearm as he had already made arrangement with them. He collected the firearm and handed it Captain Maluleke. Captain Maluleke told him that he has a case he is investigation against one of the suspects. He informed him that the firearm belongs to Zimbabwe. He typed a letter a letter on his computer acknowledging the firearm but he does not remember where he put the letter.

He will further state that Captain Maluleke told him that he had made an arrangement with the prosecutor at Atteridgeville to withdraw the case so that he could be able to transport the suspect and the firearm to Zimbabwe.

Warrant Officer Isaac Dlamini A70: He will state that in January 2011 docket Diepsloot Cas 93/01/2011 was assigned to him for further investigation. The docket had three suspect arrested for possession of unlicensed firearm and ammunition. The names of the suspects were Menzi Dube, God Dube and Sidingumunzi Dumani. He received a call from "Cowboy" Maluleke of the Hawks to hand the Case dockets Diepsloot Cas 93/01/2011 to his office in Silverton. He said the docket had to be investigated together with other dockets wherein God Dube is a suspect. He further said that the firearm which is an exhibit in his docket was used to kill a senior officer in Zimbabwe. Captain Maluleke took the docket and gave them acknowledgement of receipt.

He will further state that Captain Cowboy in the presence of Constable Rambuda told him that he will facilitate the release of the suspect from prison and he will talk to the

Prosecutor to withdraw the case. After sometimes seeing that the docket was under his name, he opened a duplicate and sent it to the prosecutor. The prosecutor decided to decline to prosecute and the duplicate docket was filed.

Lean Meyer A73: He will state that he was investigating several cases wherein Godi Dube was a suspect. The cases were as follows, Wierdabrug Cas 531/12/2010, Wierdabrug Cas 220/02/2010, Wierdabrug Cas 147/11/2010, Wierdabrug Cas 1022/12/2010, Wierdabrug Cas 310/10/2010 and Diepsloot 93/01/2011. He was informed by Captain Maluleke from the Hawks that suspect Alfred Godi Dube was also wanted in Zimbabwe. According to Maluleke he was also wanted for murder as per Bulawayo CR 438/09/2010. He will further state that he booked out suspect Godi Dube and handed him to Captain Maluleke. Captain Maluleke informed him that suspect Gordon Dube will be handed over to the Zimbabwean government through immigration channels.

Sindy Daisy Dorcus Sombhane A74: She will state that during 2010 and 2011 she was based at Wierdabrug attached to Crime Intelligence unit. During 2010 she gave Constable Rikhotso a list of wanted suspects in Wierdabrug. She also met Captain Maluleke at Wierdabrug who told her that he is looking for a suspect known as Godi Dube. She contacted Constable Rikhotso and informed him that Captain Maluleke was at Wierdabrug inquiring about Godi Dube. She gave him the contact numbers of Captain Maluleke.

She will further state that on the 11/01/2011 she saw the name of Godi Dube on the cell Register and decided to call Constable Rikhotso. Constable Rikhotso confirmed that he arrested Godi Dube the previous night (11/01/2011). She went to the cells and interviewed Godi Dube who said he would get a lawyer because the police assaulted him.

5. DOCUMENTARY EVIDENCE ACQUIRED FROM VARIOUS POLICE STATIONS

5.1.1. EXTRACTS FROM OCCURRENCE BOOKS & SAPS 14 REGISTERS

The Investigation at Orlando Police Station uncovered the following:

Specific reference to OB 276 to 279 (A8): The entries made from 04h10 of 06/11/2010 to 12h00 of the 08/11/2010 confirm that Captain M L Maluleke of the DPCI with force number 0622729518 arrested Dumisani Witness Ndeya, Nelson Ndlovu, Maqhabane Sibanda and Shepard Chuma.

Specific Reference to OB 429 (A9): Entry made at 11h00 of 08/11/2010 confirm that that Captain M L Maluleke of the DPCI with cell number 0827729518 booked out Dumisani Witness Ndeya, Nelson Ndlovu, Maqhabane Sibanda and Shepard Chuma to Beit Bridge.

GSM

SAPS 14 (A10) : The cell register dated 2010/11/05 to 2010/11/08 indicates that the following suspects were charged and detained, Dumisani Witness Ndeya, Nelson Ndlovu, Maqhabane Sibanda, Shepard Chuma. The reason for detention of the suspects as per register is stated as 'illegal Immigrants'. The entry was made by Sergeant Thomas Pixane Setage who also later confirmed this in a sworn statement.

The Investigation at Alexandra Police Station uncovered the following;

OB entry 22/11/10 (A57/1): The entry made on 22/11/2010 shows the booking of Prichard Chuma by Captain Nkosi. However Nkosi wrote the name and contact numbers of Captain Maluleke as the person who is the Investigating Officer of the case.

OB entry 23/11/2010 (A57/2): The entry dated 23/08/2010 shows the booking out of Prichard Chuma by Warrant Officer Selepe.

The Investigation at Silverton Police Station uncovered the following;

OB entry 23/11/12 A58/1: Warrant Officer Selepe booked in Prichard Chuma at Silverton Police station with Bulawayo case number.

OB entry 24/11/2012 A58/2: Warrant officer Selepe booked out Chuma to Beit Bridge. However Captain Maluleke also signed, acknowledging the release of Prichard Chuma into his hands/custody.

The Investigation at Pretoria Moot Police station uncovered the following;

OB entry 26/01/11 (A66/1): Warrant Officer Johannes Mpati Moatshi booked in Johnson Nyoni by the instruction of Captain Maluleke for Fraud.

OB entry 28/01/11 (A66/2): Captain Maluleke booked out Johnson Nyoni to Beit Bridge for Fraud.

SAPS 14: Captain Maluleke appended his signature on the entry and it shows that the release of Johnson Nyoni to Captain Maluleke was for extradition purpose.

The Investigation at Wierdabrug Police Station uncovered the following;

OB entry 12/01/12 (A71/1): Gordon Dube, Andrew Dube, Dumani Stimusy were detained for possession of unlicensed firearm. The same firearm was found to belong to the murdered Zimbabwean Police Officer.

Body Receipts SAPS 216 (A71/2): They show that Gordon Dube, Andrew Dube and Dumani Stimusy were received from court on 14/01/2011 together but on 28/01/2011 Gordon Dube was not amongst the other suspects. Pretoria Prison records show that Dube was release on the 28th January 2013 to Constable Meyer of Wierdabrug Police station.

Copies of case dockets linking Gordon Dube, which were discontinued after Gordon Dube's deportation (B20).

No docket or copies could be found regarding this case.

Wierdabrug Cas 310/10/2010:

This is house robbery case linked to Gordon.

5.2 DOCUMETARY EVIDENCE ACQUIRED FROM DPCI OFFICES:

Success report dated 04/02/2011 (A82/3): The report was addressed to General Dramat, General Hlatshwayo and General Toka with a heading that reads, "CONSOLIDATED SUCCESS REPORT:MOST WANTED FUGITIVE:WANTED FOR MURDER AND ROBBERY: DPCI TOMS REF: 3/12/2010: AND ZIMBABWE (BULAWAYO CR 348/09/2010): WITNESS DUMISANI NKOSI@NDEYA: ZIMBABWEAN NATIONALS AND OTHERS.
The report bears reference 14/02/01 and was signed by Col Leonie Verster. Paragraph "A1" of the report states that on 05/11/2010, General Dramat held a meeting with Zimbabwean police at DPCI offices about the Nationals who shot and killed one of their senior officers. Paragraph "3" states that Captain Maluleke was tasked to trace and arrest the said Nationals. The report also covers the arrest of Gordon Dube and appreciation of TRT members and members of Crime Intelligence.

Success report dated 11/11/2013 (A82/1-82/2): The report bears reference number 26/02/1 and again addressed to Deputy National Commissioner DPCI. The person to whom enquiries must be directed is Captain Maluleke whereas the signatory is Col P J Selundu. Paragraph "1" of the report states that the Zimbabwean Police visited the office of the Divisional National Commissioner regarding Zimbabwean Nationals who were hiding in South Africa. The report further stated the arrest of Dumisani Witness Vundla @ Ndeya and Shepard Chuma.

Overtime and Itineraries of Captain Maluleke (B18): On 08/11/2010 went to Beit Bridge (Limpopo) for investigation and claimed overtime. On 24/11/2010 he went to Beit Bridge and also claimed overtime. On 28/01/2011 he went to Beit Bridge and also claimed overtime. All this dates corresponds with cellphone records and OB entries indicating the dates in which the suspects were booked out from the stations.

5.3 EVIDENCE ACQUIRED FROM CAPTAIN MALULEKE'S SEIZED LAPTOP (A89).

Success report ref: 26/2/1 and 14/02/01: They were generated in Captain Maluleke's laptop before being signed by Col L Verster and forwarded to General Dramat. The report recovered from the computer has a different reference number but same content. Report 14/02/01 has reference 0627239-8/5

Letter to Diepsloot Station Commander: The recovered letter states that the firearm which was found in Gordon Dube's possession and handed to Captain Maluleke after ballistic examination was taken to Zimbabwe permanently.

Emails by Captain Maluleke: He sent e-mails circulating more than 20 photos of both the suspects arrested and the members involved in the operation. The emails where sent to the PA of General Dramat, Phumla, Zimbabwean Police and members of Crime

Intelligence. He also sent email to Zimbabwean police trying to find out how they travelled back home and that he is still tracing the remaining suspects..

Photos: More than 70 photos were found, the majority of them relate to the operation involving Zimbabwean Nationals. Zimbabwean police appear on the photos and the white BMW with clear Zimbabwean registration number.

Letter to Home Affairs dated 08/11/2010: The letter was addressed to home affairs requesting assistance in the Deportation of the Zimbabwean nationals involved in the murder of Zimbabwean police. Even though the letter is dated 08/11/2010, it was generated in November 2011, shortly after the news about illegal deportation of Zimbabwean nationals hit the media.

Letter to stakeholders dated 20/08/2012: The letter was generated the same day indicating that in August 2010 General Sibiya and General Dramat went to Zimbabwe to discuss matters of cooperation on cross border crimes. General Sibiya was appointed as the coordinator on the cooperation issue between two countries. Other letters about the arrest of Zimbabwean national in connection with the murder of Zimbabwean police refers to the cooperation agreed during the same meeting.

Documents regarding Bongani Moyo's case: This case is separate from the events that led to the arrest and deportation of the Zimbabwean Nationals into the hands of Zimbabwean authority. However it is a clear case of return of favor by Zimbabwean authorities to South Africa. In terms of the documents retrieved, Bongani Moyo escaped from Boksburg prison on 2011/03/28, a month and half after South Africa deported illegally the Zimbabwean nationals who were wanted by Zimbabwean authorities. An amount of R50 000 rewards was also provided for any information that could lead to the arrest of Moyo. Captain Maluleke stated that his informer told him that Moyo was on his way to cross the border in South Africa after being shot by Zimbabwean police. According to the formal statement of Captain Maluleke, he arrested Moyo on the 13/05/2011 after he was found in the vehicle that crossed the border into South Africa. The other information retrieved provides contrary account of what happened. In a letter routed to General Dramat he stated that he went to Zimbabwe and conducted an operation with Zimbabwean police at Moyo's home village on 11/05/2011. Moyo was subsequently shot at transported to the border with the help of Zimbabwean police.

Statement of Bongani Moyo: he will state under oath that in May 2011 he was in Zimbabwe Bulawayo busy speaking over the cellphone when Zimbabwean police arrived at his house. After identifying him they assaulted him and handcuffed him. They put him in the bakkie and drove to the bush, where they ordered him to lie down. They then shot him on both knees. He was then taken to Central Hospital in Zimbabwe where he was treated before released to the hands of the Zimbabwean Police. After being release he was transported to Beit Bridge by seven Zimbabwean police. He will further state that they were travelling in a white Toyota Fortuner and he was handed to the South African Police at Beit Bridge.

5.4 DOCUMENTARY EVIDENCE FROM HOME AFFAIRS

Warrant of Detention of Illegal Foreigners (BI-1725) – This document was produced by the SAPS as a proof that Shepard Chuma, Witness Ndeya and Nelson Ndlovu were detained for being illegal foreigners and they were seen by an Immigration Officer. However the signature that appears on the docket does not belong to any member of Home Affairs in Gauteng and the appointment number 037152 does not exist.
It was also uncovered that the BI-1725 used was discontinued in 2008 according to Home Affairs and in 2010 it was no longer part of the official documents of Home Affairs. The stamp on both documents clearly shows that whosoever completed the document used the old form already completed and deleted affiliated information to put the information of the three foreign nationals. The handwriting expert in her findings has indicated that the signature in each document does not resemble the sampled signature provided by members of Home Affairs.

Notification of The Deportation of an Illegal Foreigner (DHA-1689) documents were produced by SAPS as proof that the Nelson Ndlovu, Shepard Chuma and Maqhawe Sibanda were deported through Belt Bridge Border. However the form has been wrongly stamped and does not have finger prints of the deportee as required.
The stamp number 20 belonging to Belt Bridge was used and such stamp is not for that purpose. The stamp is individualized and belongs to Immigration Officer Kobelo Margret Mohlahlo who on the day in which the stamp was used was off duty and the stamp was locked in the safe, she is the only person in possession of the key to the safe.

Belt Bridge Duty Roster – This is a duty register used by Immigration Officers at Belt Bridge. The register confirms that Immigration Officer Kobelo Margret Mohlahlo was off duty on 7th and 8th of November 2010.

Belt Bridge Movement data: The data entails information pertaining to the entry and exit of people who were identified by Colonel Madilonga as members of Zimbabwean police who approached him with a request to see Lt General Dramat.

? **Expert report on the Home Affairs Documents A81/1 and A81/2**: The documents which were handed by Col Basi which are Notification of the deportation of the Illegal Foreigner and Warrant of Detention were sent to the forensic laboratory for analysis.

5.5 EVIDENCE IN TERMS OF SECTION 205 OF THE CRIMINALPROCEDURE ACT.

Cellphone record of Major General Sibiya (0725953168): Upon perusal of the cellphone records it was discovered that Major General Sibiya communicated with officers who were involved in the operation, e.g. Captain Maluleke and sent more than 20 SMS to Major General Dramat (0825515311). However Major General Dramat never responded to the SMS. The same automated SMS were sent to Lt General Lebeya at 0825751899. These SMS were sent at various milestone of the operation as deduced from witnesses' statements and documentary proofs.

Cellphone records of Captain "Cowboy" Maluleke (0827729518): The interaction between Major General Sibiya and Captain Maluleke was also found in a form of

received and outgoing calls. Captain Maluleke also communicated with General Dramat in terms of outgoing SMS at a very important milestone of the operation. However General Dramat never responded to the SMS which he received from Captain Maluleke at 23:12:15 on 05/11/2010. He also called Zimbabwean number twice between the 5th November 2010 and 8th November 2010. The number called on these two occasions is the same and was called at times preceding critical milestones of the operation. Captain Maluleke also called Colonel Madlionga on 08/11/2010 at 19:10:47, when he was approaching Musina. The information is also corroborated by Colonel Madlionga.

Cellphone records of Lt Colonel Naethling (0827787624): He was directly reporting to Major General Sibiya. He contacted General Sibiya telephonically and in his statement he stated that he believed he reported the operation to Major General Sibiya.

Cell Phone records of Lt Col Madlionga: He is police officer who was posted at the border during the operation. He assisted Captain Maluleke to cross the border with the suspects. He contacted Lt General Dramat when he well come the Zimbabwean police the first time. His cellphone records his interaction with Captain Maluleke in line with his statement.

22 OCT 2012 Josiah hv Ellis

5.6 STATEMENTS OF SENIOR MEMBERS OF SAPS

Lt General Mkhwanazi: He will state that in late 2011 when he was an acting National Commissioner of South African Police Services, he heard on the news when Minister Hadebe was commenting about the alleged death of Zimbabwean Citizens as a result of being handed to the Zimbabwean Authorities by South African Police Services. He immediately contacted the Head of the DPCI Lt General Dramat and inquired about the issue. Lt General Dramat confirmed that members of his unit did transport the Zimbabwean Citizens but as illegal immigrants. He then summoned Lt General Dramat to his office. Lt General Dramat came with an officer who was introduced to him as "Cowboy". He was informed that Cowboy was in charge of the group that transported the Zimbabwean Citizens. Cowboy said that he was investigating a case of ATM bombing which led him to the Zimbabwean Citizens. After he realized they were not linked to the case he decided to transport them to Beit Bridge because they did not have valid documents. Cowboy further said that he got valid deportation documents from Home Affairs before he could transport them. He will further state that he could not understand why Cowboy did not hand over the immigrants to Home Affairs. When he asked whether it was necessary to transport illegal immigrants, Lt General Dramat could not offer any explanation.

Lt General Lebeya: He will state that when he commented on the success report regarding the Zimbabwean Nationals arrested, he only did it as a practice. He will further state that Major General Sibiya has an automated messaging which includes his number wherein automated success report or information is sent. He cannot remember what all the messages were about, which he received on 05/11/2010.

5.7 STATEMENT ON HOW DIEPSLOOT Cas 390/07/2011 WAS INVESTIGATED

New - E/o Statements

Innocent Humbulani Khuba A100: He will state that he is a member of Independent Police Investigative Directorate base in Limpopo. On 23 October 2012 he received a case docket from Mr. Sesoko and appointment letter to conduct investigation in all cases of alleged assault against Major General Sibiya. The docket received is Diepsloot Cas 390/07/2012. He also received a copy of the letter which was sent to Mr Sesoko by Major General Sibiya complaining about the conduct of North West Task Team which was tasked to investigate cases against him including Diepsloot Cas 390/07/2012. He was informed by Mr Sesoko who was the National head of IPID of investigation that the reason he was appointed to be the new Task Team Leader was that Major General Sibiya complained against the North West Task Team. He was advised to assemble a team that would assist me in the investigation of these cases. The team assembled comprised of the following individuals; Mr Kenneth Ratshitali, Mr. L Maphetho, Mr N Mulaudzi and Mr T Mashaphu who are all investigators from Limpopo Provincial office. They worked under his guidance and took instructions directly from him as the team leader.

Emails! Madlonga Strat Cases!

Upon his perusal of Diepsloot Cas 390/07/2012 and other accompanying documents, he discovered that the Independent Police Investigative Directorate received a complaint of alleged renditions involving members of the DPCI headed by Lt General Dramat from Civilian Secretariat. The case was reported as result of parliamentary question by Cope Member of Parliament and an article by Sunday Times. The docket had following statements obtained by members of South African Police Services, the statement of Shepard Chuma, Maqhawe Sibanda, Nelson Ndlovu, Bongani Henry Yende, Petros Jawuke, Desmond Campbell, Alfred Ndobe, Andrew Mark Sampson, Reason Mhlawumbe Sibanda, Rachael Ncube, Brightness Nka Ncube, Madala Bhekisisa Nyoni and Sibongile Mpofu. There were also copies of Occurrence Book and cell Registers from Orlando police station regarding the detention and booking out of the following individuals, Dumisani Witness Ndeya, Nelson Ndlovu, Maqhawe Sibanda and Shepard Chuma.

He took over the case for further investigation in terms of Section 206(6) of the Constitution of the Republic of South Africa which provides that, on receipt of a complaint lodged by a Provincial Executive, an independent Complaints body established by the national legislation must investigate any alleged misconduct or offences allegedly committed by members of SAPS. It was also in terms of Section 28 (1) (f) and (h) of the Independent Police Investigative Directorate Act 1 of 2011 that the decision to investigate the case was made.

On 13 November 2012, a letter requesting an interview with Home Affairs officials and documents regarding the movement of people at Musina Beit Bridge port of entry was e-mailed to Mr. Ndlovu of the Deportation section at Home Affairs Head Office in Pretoria. On 08/02/2013 the permission was granted after he had a meeting with Mr. M Mathews, the Chief Director responsible for deportation and mending of Port of Entries. Prior to the interview with Home Affairs officials, he visited Orlando Police station on 10/01/2013 and interviewed Brigadier Zangwa and other members stationed at Orlando. He received copies of the Occurrence Book and cell registers include a color copy of the Sunday Newspaper regarding the incident. On 28/01/2013 he was called by the former Executive Director who gave him the following documents stating that she received them from the Secretary of Police, report on Illegal Renditions dated

G-Sm

V

25/06/2012 accompanied by Warrants of Detention (BI-1725) for the following individuals, Dumisani Witness Ndeya, Shepard Chuma, Nelson Ndlovu and three Notification of the Deportation of an Illegal Foreigner (DHA-1689) for Nelson Ndlovu, Shepherd Chuma and Maghwawe Sibanda. The documents are file in the docket as per A36. An enlarged copy of death certificate was made from a copy of Sunday Times Newspaper he received from Brigadier Zangwa dated 23/10/2011 titled " journey to death in an unmarked car" and is filed as per A35.

On 15/02/2013 he went to Home Affairs Department in Pretoria and interview Peter Ndwandwe and Nolwandle Qaba about the incident and process involved in the deportation of undocumented persons or illegal immigrants. He received a copy of DZP policy from Mr Ndwandwe and the Immigration Act. On 21/02/2013 he went to Soweto and obtained the statements of the following individuals, Johannes L. Broodryk, Patiswa Skosana and Job Jackson. Job Jackson who is the Manager of Lindela Holding facility for illegal immigrants gave him a printout of all people who were deported during the DZP period which covers the time of the alleged deportation of the Zimbabwean Nationals. The list is filed as A34 in the docket.

On 25/02/2013 he went to Belt Bridge and obtained a statement of Peter Elberg. He also gave him an example used copy of Notice of Deportation which is filed as A38 and Duty Rooster for the period 5 November 2010 to 13 November 2010 which is filed as per A40. On 26/02/2013 he went to Turfloop and obtained statement of Magret Mohlahlo, an immigration officer whose stamp was allegedly used in the documents that resulted in deportation of Zimbabwean Nationals.

During the investigation of the case he visited the office of Lt General Dramat on 07/03/2013 and a meeting was held between Lt General Dramat and him. He will further state that at that stage the investigation had not uncovered any evidence relating to the involvement of Lt General Dramat or any other senior officer of DPCI. The meeting was held at Lt General Dramat's office which is located at Silverton. During the meeting, Lt General Dramat was informed about the allegation of kidnapping and assault leveled against members of DCPCI most especially Captain Maluleke who is now a Lt Colonel. He said that he had sanctioned internal investigation in the matter and the outcome of the investigation cleared Lt Colonel Maluleke of any wrong doing. When I asked him whether they were any Zimbabwean police who visited the DPCI offices, he said that there were no Zimbabwean police who came into the country regarding the alleged matter and that all Zimbabwean Nationals were deported through Home Affairs for being illegal immigrants. Lt General Dramat was requested to provide statement with regard to the formation of TOMS, his knowledge about the DZP, source documents that informed the internal investigation, his report to parliament and knowledge about the involvement of Zimbabwean police in the operation of TOMS. He informed me that the request should be forwarded to Col Basi and he would hand all the necessary documents including his sworn statement to him.

On 07/03/2013, shortly after the meeting he generated and emailed a letter to Col Basi. On 19/04/2013 he met with Col Basi in front of the Interpol building on Pretorius Street in Pretoria. He handed to him a brown envelope containing following documents, cell phone records of Captain Maluleke, Lt Col Neethling and Major General Sibiya. There were also copies of sworn statements of, Willem Carel Stephanus Vorster, Andree

GJM

Neethling, Captain Maluleke, Vincent Selotole, Major General Sibiya, Warrant Officer Makoe, Ndanduleni Madilonga and Warrant Officer Rodgers Nhlamu. Attached to the copy of the statement of Warrant Officer Nhlamu were copies of the following documents, Warrant of Detention (BI-1725) for the following individuals, Dumisani Witness Ndeya, Shepard Chuma and Nelson Ndlovu. There were also three Notification of the Deportation of an Illegal Foreigner (DHA-1689) for the following individuals, Nelson Ndlovu, Shepherd Chuma and Maqhawe Sibanda. The Warrant of Detention and Notification of the Deportation forms attached to Warrant Officer Nhlamu statement appeared to be similar to the one received from Secretariat via the former Acting Executive Director Ms. K Mbeki on 28/01/2013. The Warrants of Detention and Notifications of Deportation received from Warrant Officer Nhlamu were the one sent to the Forensic Lab for analysis on 10/06/2013 and 21/08/2013. The documents given to him by Col Basi also include search result report from Interpol indicating that Dumisani Witness Ndeya, Nelson Ndlovu, Maqhawe Sibanda and Shepard Chuma were not in the wanted list. However there was no statement of Lt General Dramat in the envelope handed to him. The documents handed to him are filed in the docket as per A41-A50.

In April 2013 he called Constable Radebe and Warrant Officer Makoe for the purpose of obtaining their warning statements. He never compelled anyone to implicate Senior Members of the DPCI. However, he informed them that they can arrange a service of a lawyer in order for them to be guided during the process. Shortly after speaking with them he received a call from Lt Col Maluleke who told me that he was not supposed to request warning statements from his people because on the day he arrested Zimbabwean Nationals he was the lead man and Constable Radebe and Warrant Officer Makoe were taking instructions from him. He informed him that he cannot answer on their behalf and that when his turn comes he will be informed accordingly. He will further state that on the day set for interview none of the above members came for the interview.

On 08/04/2013 he interviewed Ndanduleni Madilonga and obtained his statement. On 15/04/2012 he went to Beit Bridge and interview Col Radzilani and obtained her statement. The following day he interviewed Brigadier Makushu in Polokwane and obtained his statement.
On 27/06/2013 he interviewed Lt Col Neethling in his office and obtained his statement. On 29/06/2013 he met with Warrant Officer Selepe at East gate in Johannesburg and obtained his statement. After being provided with information regarding the arrest and the transportation of Prichard Chuma to the boarder, Silverton and Alexander original SAPS 10 (occurrence books) were uplifted. Copies of the SAPS 10 are filed in the docket as per A57 and A58.

On 10/07/2013 he met with Ms. L Verster at Protea-Coin for the interview. She gave information regarding the success reports resulting from the arrest of Witness Ndeya and other Zimbabwean Nationals. She also assisted him by phoning Supply Chain of DPCI and obtained the serial number of Captain Maluleke's laptop which he used during 2010 and 2011. On the same day he generated a letter to Col Mabuyela who was assigned by Brigadier Kadwa to assist him with documents or items needed from the DPCI offices for the purpose of investigation. He hand-delivered the letter to Col Mabuyela on 11/07/2013, requesting the following things, Dell Laptop with serial number CNOJF242486436BL3424 which was assigned to Lt Col Maluleke, approved

GSM

overtime claims for Lt Col Maluleke for the following period 01/11/2010-31/01/2011, approved trip itineraries' for Lt Col Maluleke for the period 01/11/2010-31/01/2011, Telkom call record for Lt Col Maluleke for the period 01/11/2010-31/03/2011, record regarding the disposal and if not yet disposed, the handset used by Lt Col Maluleke, record of successes of operations conducted between 01/11/2010-31/03/2011 and logbooks of vehicles used by Lt Col Maluleke for the period 01/11/2010-28/02/2011. On 12/07/2013 he went to meet with Col Mabuyela and he received success reports which are filed as per A82/1-A83/3.

The success report filed as per A82/3 contains names of officials who assisted in the arrest of Gordon Dube who are members of TRT and Crime Intelligence. On 16/07/2013 he went to Johannesburg Central Police Station and obtained the statements of members of TRT. One of the members by the name of Avhashoni Desmond Takalani (A62/2) had photos at home of Johnson Nyoni and Zimbabwean Police. He went to his house on the same day and collected the two photos which are filed as per A62/1. On 18/07/2013, he emailed a letter to the Commander of Crime Intelligent Pretoria Central, Col Ntenteni requesting interview with his members who are mentioned is success report dated 04/02/2011 (A82/3). On 25/07/2013 he went to Crime Intelligence offices in Pretoria and obtain the statements of the members. The interview with the members also revealed that the arrest of Gordon Dube and Johnson Nyoni was also known by Brigadier Britz. On 16/07/2013 a letter was generated and emailed to Brigadier Britz requesting a meeting for the purpose of interview and obtaining statement. He interview Brigadier Britz on 26/07/2013 and after the interview Brigadier Britz promised to write his own statement. He collected Brigadier Britz statement from his office on 22/08/2013 which is situated at Old Stock Exchange building in Johannesburg. He also received Report number GO-D-004-D which is admission details of Gordon Dube from Correctional Services which is filed as per A84/3 and SAPS 206 (body receipts) filed as per A81-A82.

He also discovered that Gordon Dube was facing number of charges in South Africa including murder. Statements of Isaac Diamini and Avhashoni Rambau were obtained in connection with Diepsloot Cas 93/01/2011 which they were investigating (A70 and A72). Original SAP 10 (Occurrence Book) was uplifted from Wierdabrug Police Station and copies are filed as per A71. Statement of Constable Meyer from Wierdabrug was obtained in relation to cases he was investigating against Gordon Dube and how he booked him out of prison and handed him to Captain Maluleke to be transported to Beit Bridge. He also obtained copies of the following dockets which are cases against Gordon Dube Diepsloot Cas 93/01/2011, Wierdabrug Cas 147/11/2010, Wierdabrug Cas 310/10/2010, Wierdabrug Cas 431/10/2010 and Wierdabrug Cas 531/12/2010. All the copies of the docket are filed under B22 Arch file.

On 16/07/2013, he received a Laptop Dell Col Mabuyela and Warrant Officer Danie bearing serial number CNJF24286436BL3424. The Laptop was handed to Precision Forensics on 31/07/2013 at 18h00. The report from Precision Forensic was received on 22/08/2013 and is filed as per A89 arch file.

In October 2011 he approached the Head of DPCI accompanied by Mr. Sesoko who was an Acting Head of Investigation for IPID requested his warning statement. He was advised to seek an assistance of a lawyer for the purpose of guiding him before the warning statements is obtained. He agreed and informed them that he will telephonically contact Mr. Khuba regarding the suitable date. He will further state that he received a call from a person who introduced himself to him as Adv. P Seleka

GSM

representing Lt General Dramat. He requested questions in writing and summary of the allegation which was e-mailed to him. After he received the questions, he was informed via e-mail that Lt General Dramat is represented by a new company and they will continue to liaise with him. He emailed the questions and after two weeks he received a copy of his statement and is file as per A94.

On 22/10/2013 he called Lt General Lebeya and requested an interview with regarding Renditions as his name appears on one of the success reports. On 23/10/2013 he met with Lt General Lebeya and interviewed him about the deportation of Zimbabwean Nationals in connection with the death of senior officer in Zimbabwe. After the interview he requested that he send questions in writing and that he would be able to respond to them. The questions were drafted and emailed to him the same day. On 07/11/2013 he received a call from his office to collect his statement including accompanying documents. The following documents were attached on his statement, copy of e-mail regarding documents requested from DPCI, mandate of TOMS, unsigned success report regarding Witness Ndeya and other success reports not related to the Diepsloot Cas 390/07/2012.

In November 2013 he engaged Captain Boonstra to arrange for a meeting between him and the two officers, Constable Radebe and Warrant Officer Makoe. Captain Boonstra informed him telephonically that he informed Warrant Officer Makoe and that Constable Radebe was attending training at Hamanskraal. He tried to contact him on 0737313808 for a warning statement but he was not reachable. In late November 2013, he again requested Captain Boonstra to assist but he informed him that the members were informed and they do not want to cooperate.

During the investigation of the case no one was either intimidated or assaulted. He never requested or forced any witness to implicate any person.

6. ANALYSIS OF EVIDENCE AND FINDINGS.

The following findings were made;

- The operation carried out by TOMS to arrest Zimbabwean foreign nationals in Diepsloot in connection with the murder of Zimbabwean police Colonel was led by Captain M L Maluleke also known as Cowboy. According to the letter retrieved from Captain Maluleke's laptop, there was a meeting in August 2010 held between Zimbabwean Authorities, General Dramat and General Sibiya wherein General Sibiya was appointed as a coordinator regarding cooperation between two countries. The obligation to assist Zimbabwe in tracing wanted suspects should have emanated from the agreement of the same meeting as cited in success reports addressed to General Dramat and other senior officials. The letter dated 2010/07/29 addressed to Commissioner Chibage of Zimbabwe by Lt General Dramat request a meeting on 05/08/2010 to discuss operational matter but limited to fugitive of serious crime like robberies, cash in transit and extradition.
- There is enough evidence that shows that General Dramat did not only know about the operation that led to renditions of Zimbabwean Nationals but sanctioned it through the following ways;
  - ***The Zimbabwean police came into the country for the purpose of arresting the wanted Zimbabwean Nationals and Lt General Dramat directed that they be allowed to proceed since they were coming to***

GSM

see him. The statement of Lt Colonel Madilonga clearly spell out that the police from Zimbabwe were received by him and he contacted General Dramat who confirmed that they were coming to him. Colonel Madilonga's version is corroborated by Brigadier Makushu and Colonel Radzilani. The cellphone records of Lt General Dramat and Beit bridge Telekom records (Col Madilonga's extension) show that General Dramat received a call from 015534 6300 at 20h56 on 04/11/2010. This corroborates the version of Madilonga, Lt Col Radzilani and Brigadier Makushu about the call made in connection with the Zimbabwean police. According to Lt Col Madilonga he was informed that the purpose of the Zimbabwean police to enter into the country was to arrest Zimbabwean Nationals wanted in connection with the murder of Senior Police Officer in Zimbabwe.

- *Evaluation of the above findings*: In the entire cellphone records of Lt General Dramat requested for the period 20/10/2010 to 28/02/2011, the number 0155346300 only appear once which rules out any form of communication before 04/11/2010 and after the said date. This supports his version that he called Lt General Dramat in connection with the Zimbabwean police.

- ***He held a meeting on 05/11/2010 with Zimbabwean police planning the operation***. Success report dated 04/02/2011 addressed to General Dramat, General Hlatshwayo and General Toka with a heading that reads, "CONSOLIDATED SUCCESS REPORT:MOST WANTED FUGITIVE:WANTED FOR MURDER AND ROBBERY: DPCI TOMS REF: 3/12/2010: AND ZIMBABWE (BULAWAYO CR 348/09/2010): WITNESS DUMISANI NKOSI@NDEYA: ZIMBABWEAN NATIONALS AND OTHERS. The report bears reference 14/02/01 and was signed by Col Leonie Verster. Paragraph "A1" of the report states that on 05/11/2010, General Dramat held a meeting with Zimbabwean police at DPCI offices about the Nationals who shot and killed one of their senior officers. He appointed Captain Maluleke to be a lead person during the operation.
  - *Evaluation of the above findings*: The success report signed by Leonie Verster was traced to Lt Col Maluleke's laptop as picked from the retrieved deleted data. The report was amended on 26/01/2011 and 31/01/2011 before it could be emailed to a female officer, Warrant Officer Thabiso Mafatla on 09/02/2011 at 14h32. There is no material difference between the document retrieved from the laptop and that found at the Hawks offices during investigation. This proves that Leonie Verster did not generate success report but only signed the report drafted by Captain Maluleke. The date of the meeting between Zimbabwean Police and General Dramat which took place on 05/11/2010 coincide with the date of the 4th of November 2010 which according to cellphone records; General Dramat was called at 20h56 by Lt Col Madilonga seeking permission to allow Zimbabwean Police to enter into the country. Since the Zimbabwean Police where at Beit Bridge between 20h00 and 21h00, it is logical that they arrived in Gauteng late at night, leaving them with the opportunity to have the meeting with General Dramat in the morning of the 5th of November 2010 as stated in the Success Report.

- ***He committed the government resources into the operation***: Apart from other resources used, on 08/11/2010 Captain Maluleke went to Beit Bridge (Limpopo) for Transporting Zimbabwean Nationals and claimed overtime. On 24/11/2010 he went to Beit Bridge and also claimed overtime. On 28/01/2011 he went to Beit Bridge and also claimed overtime. All this dates corresponds with cellphone records and OB entries indicating the dates in which the suspects were booked out from the stations.
  - *Evaluation of the above findings*: Despite the fact that General Dramat as an Accounting Officer did not sign any claim of Captain Maluleke, delegating responsibility to Major General Sibiya to assist the Zimbabwean Police in tracing wanted suspects invariably commit government resources into an unlawful operation that amount to a criminal offense.

- ***He congratulated officers for arresting Johnson Nyoni and advised them to keep it a secret***: According to Constable Mkasibe and Mgwenya, shortly after the photos were taken, they saw General Dramat of the Hawks walking towards them from house number 1. General Dramat addressed them and thanked them for arresting the suspect. He warned them not tell anyone about the operation they had just done.
  - *Evaluation of the above findings*: Words of appreciation from General Dramat show both interest in the arrest of the Zimbabwean Nationals and his knowledge of the unlawfulness of the operation. If the operation was lawful he would not have warned them not to tell anyone about it.

- ***He received communication regarding successes and photos of the operation through his Personal Assistance Phumla***: According to the information retrieved from the seized laptop, Captain Maluleke sent e-mails circulating more than 20 photos of both the suspects arrested and the members involved in the operation. The emails where sent to the PA of General Dramat, Phumla, Zimbabwean Police and members of Crime Intelligence.
- ***He was kept informed of the developments in the operations that led to the arrest of wanted Zimbabwean Nationals***: The cellphone records of General Sibiya shows 30 SMS sent to General Dramat at various milestones of the operation. He also received an SMS from Captain Maluleke shortly after the arrest of Zimbabwean Nationals. He never responded to any of the SMS which may suggest that they were only informing him of the progress.
- ***Report to parliament in response to the allegation***: A copy of the letter sent by Zimbabwean authority to Col Ntenteni clearly mention the names of people whom General Dramat in his report to parliament stated that they were deported for being illegal immigrants. The letter clearly indicates that the suspects were wanted for murdering Superintendent Chatikobo of Bulawayo on 18th September 2010. It goes further to state that there was

G5m

joined operation between South African Police and Zimbabwean police to trace and arrest the suspects.

- There is evidence and witnesses corroborate each other that General Sibiya was both at the scene and planning venue. The meeting held between IPID and General Dramat on 2013/03/07 confirmed that General Sibiya was appointed to be the Head of TOMS which he created to trace wanted suspects. The telephone records of both Captain Maluleke and Major General Sibiya show interaction between them at various milestones of the operation. Following suggest the involvement of General Sibiya;
  - Witness stated that he was seen during the operation that took place on 22/11/2010 which led to the arrest of Prichard Chuma
  - In other operations cellphone record of Warrant Officer Makoe, Captain Maluleke and Col Neethling clearly show continuous contacts with General Sibiya during and shortly after the operation. Col Neethling also stated that he should have reported progress to General Sibiya during the operation. However the call phone records of General Sibiya does not place him at the scenes and planning venues as claimed by witnesses. It is also clear that some of the witness claim to have heard that General Sibiya was in the car rather than seeing him personally.
  - The meeting held in Zimbabwe wherein General Sibiya was appointed as a coordinator on cooperation matters involving the two countries suggests that the operation could not have been done without his knowledge more so because his Gauteng Team was involved in the operation. However this inference cannot provide prima facie case that he was involved.

- There is no evidence for the involvement of Former General Mzwandile Petros. However he addressed a letter dated 31/05/2011 to Provincial Head of Crime Intelligence in Gauteng appreciating the good work that members of Crime Intelligence have done when they arrested Zimbabwean Nationals involved in the murder of Senior Police Officer in Zimbabwe. The letter was as a result of a request made by Former General Toka of Crime Intelligence requesting General Mzwandile Petros to appreciate members of Crime Intelligence.
- There is also no evidence that suggest that Lt General Toka, Lt General Lebeya and Major General Hlatshwayo was involved except that they received communication regarding this matter.
- The involvement of Captain Maluleke as a foot soldier in the operation has overwhelming evidence. The following evidence against Captain Maluleke where uncovered;
  - The documents which the police claimed to be valid Home Affairs documents used in the deportation of the four Zimbabweans are forged and have employee number that does not exist in the Home Affairs Department. The Warrant of Detention of Illegal Foreigner (BI-1725) document was produced by the SAPS as a proof that Shepard Chuma, Witness Ndeya and Nelson Ndlovu were detained for being illegal foreigners and they were seen by an Immigration Officer. However the signature that appears on the documents does not belong to any member of Home Affairs in Gauteng and the appointment number 037152 does not exist.

It was also uncovered that the BI-1725 used was discontinued in 2008 according to Home Affairs and in 2010 it was no longer part of the official documents of Home Affairs. The stamp on three documents also clearly shows that whosoever completed the documents used an old form already completed and deleted affiliated information to put the new information of the three foreign nationals. The Notification of the Deportation of an Illegal Foreigner (DHA-1689) documents were produced by SAPS as proof that Nelson Ndlovu, Shepard Chuma and Maqhawe Sibanda were deported through Beit Bridge border. However the forms were wrongly stamped and do not have fingerprints of the deportees as required.

The stamp number 20 belonging to Beit Bridge was used and such stamp is not for deportation purpose. The stamp is individualized and belongs to Immigration Officer Kobelo Margret Mohlahlo who on the day in which the stamp was purported to be used was off duty and the stamp was locked in the safe and she is the only person in possession of the key. The stamp could have been easily duplicated.

There is a duty roster used by Immigration Officers at Beit Bridge, which confirms that Immigration Officer Kobelo Margret Mohlahlo was off duty on the 7th and 8th of November 2010.

- The cellphone record also show Captain Maluleke contacting Zimbabwean number in the morning of the 08th November 2010 shortly before booking the suspects to Beit Bridge.
- On 23/11/2010 on the request of Captain Maluleke, Warrant Officer Selepe booked out Prichard Chuma from Alexander Police station. He transported him to Beit Bridge border on 24/11/2010, to be handed to the Zimbabwean Police. Captain Maluleke provided escort, handed him over to Zimbabwean Authorities and Prichard Chuma was never seen again.
- The Zimbabwean Nationals were arrested and detained during DZP period which gave the Zimbabwean grace period of 90 days to apply for valid documents. During the DZP which is Dispensation for Zimbabwean Projects, all Zimbabweans were given 90 days to stay in the country in order to apply for legal documents and surrender illegally obtained South African ID's without consequence. The project according to Home Affairs started on 20 September 2010 and ended in 31 December 2010 with extension which ultimately ended in July 2011. The letter retrieved from Captain Maluleke's laptop addressed to home affairs requesting assistance in the Deportation of the Zimbabwean nationals involved in the murder of Zimbabwean police (dated 08/11/2010) was generated in 08 November 2010 shortly before he booked out the Zimbabwean Nationals out of Orlando Police station. It is doubtful that the permission was acquired given the time at which the Zimbabwean Nationals were booked out. In addition, he cited the DZP as a challenge in the deportation of Zimbabwean Nationals and he wanted assistance from Home Affairs. This does not only show that he was aware of the Dispensation for Zimbabwean Projects which gave Zimbabwean Nationals grace period, but also that there was ulterior motive way above deportation on the basis of being illegal immigrants.
- The request that Captain Maluleke made to Constable Meyer, Detective Constable Rambuda, Warrant Officer Dlamini in connection with the Gordon Dube demonstrate the extent to which he was ready to go in order

GSM

to handover the suspect to the Zimbabwean police. The suspects was awaiting trial prisoner who was connected in five cases including murder. Statements of Constable Rambuda and Meyer provide valuable evidence that Captain Maluleke took Gordon Dube to Zimbabwe even though he was facing serious charges (five cases including murder) in South Africa. Statements provided to Constable Meyer by Captain Maluleke states that Gordon Dude was handed to Zimbabwean police and was sentenced to life imprisonment. He also acknowledges in a letter retrieved from the laptop that he handed back the firearm permanently to Zimbabwean authority.

- The OB entry dated 28/01/11 shows that Captain Maluleke booked out Johnson Nyoni to Beit Bridge for fraud. However at Silverton, the investigation uncovered that a case of Fraud against John Nyoni and Mike Dube was opened on 28/01/2011 (Silverton Cas 566/01/2011), the same day in which Johnson Nyoni and Gordon Dube were transported to Beit Bridge. The warning statement of Mike Dube, whom it was discovered that his real name is Shadrack Wisley Kebini, stated that his cousin was communicating with the police in a deal in which he was to collect jewelry. After the deportation of the suspect to Zimbabwe, the case against John Nyoni and Mike Dube was withdrawn and never continued. This case was used as a decoy for to go on wild chase, following the wrong leads. Both suspects were persuaded to be involved in the collection of jewelry because one of them has a name similar to the Zimbabwean National wanted for murder, Johnson Nyoni.
- The e-mails retrieved from Captain Maluleke's laptop also show communication with Zimbabwean police where he asked them about the trip going back home and that he would continue to trace remaining suspects. He also exchanged photographs with them of the suspects and the team involved in the operation.
- The overtime claim of Captain Maluleke corresponds with the dates on SAP 10's from various stations regarding the booking out of the Zimbabwean Nationals. On 08/11/2010 he transported Zimbabwean Nationals to Beit Bridge. The itinerary shows that on 08/11/2010 he went to Beit Bridge and came back on 10/11/2010 and claimed a total of R1845-00. On 24/11/2010 he went to Beit Bridge and came back 26/11/2010 and claimed a total of R1845-00. On 28/01/2011 he went to Beit Bridge and claimed a total of R552-00. The records also correspond with his cell record towers recordings.

The following members' involvements were found limited to two incidents which took place on 05/11/2010 and 20-22/11/2010; Constable Radebe, Captain S E Nkosi and Warrant Officer Makoe. They were involved in the assault of Zimbabwean Nationals during arrest.

RECOMMENDATION

GSM

Based on the available evidence, the Independent Police Investigative Directorate recommends that Lt General Dramat, Major General Sibiya, Lt Col M Maluleke, Constable Radebe, Captain S E Nkosi and Warrant Officer Makoe be charged criminally for;

- Kidnapping
- Defeating the ends of justice,
  - Assault and theft (only applicable to Captain M L Maluleke, Warrant Office Makoe, Constable P M Radebe and Captain S E Nkosi)

Suspect Identification	Lt Col M Maluleke
Investigator	Task Team
Assignment	Investigations
Reporting Staff Member	Innocent Khuba

1. BACKGROUND

1.1 The Independent Police Investigative Directorate received a complaint of alleged renditions involving members of the DPCI headed by General Sibiya. The case was reported as result of parliamentary question by Cope Member of Parliament and an article by Sunday Times. The case was referred to the Independent Police Investigative Directorate by Civilian Secretariat for further investigation.

GSM

2. SUMMARY OF ALLEGATIONS

The following allegations were made:

2.1 It is alleged that between 04/11/2010 and 31/01/2011 Captain M L Maluleke, Warrant Officer Makoe and Constable Radebe, through the direction of General Sibiya and Lt General Dramat, conducted operations in Soweto and Diepsloot to trace Zimbabwean Nationals. The suspects were wanted in connection with the murder of a Zimbabwean police Colonel in Bulawayo. The members were accompanied by Zimbabwean Police. Five Zimbabweans were arrested in Diepsloot and detained at various stations as illegal immigrants and others for fictitious crimes. They were allegedly assaulted by SAPS members and Zimbabwean Police and transported to Beit Bridge where they were handed over to the Zimbabwean Authorities. Four of them were reported murdered in the hands of Zimbabwean Police.

2.2 According to the allegation, Major General Sibiya was also part of the operation.

3. CONSTITUTIONAL AND STATUTORY MANDATE

3.1 Section 206(6) of the Constitution of the Republic of South Africa provide that, on receipt of a complaint lodged by a Provincial Executive, an independent Complaints body established by the national legislation must investigate any alleged misconduct or offences allegedly committed by members of SAPS.

3.2 Section 28 (a) (h) of the Independent Police Investigative Directorate Act 1 of 2011 provides that the Directorate must investigate any matter referred to as a result of a decision of the Executive Director, or if so requested by the Minister, an MEC or the Secretary as the case maybe, in the prescribed manner.

4. AVAILABLE EVIDENCE

4.1 STATEMENTS OBTAINED FROM INDEPENDENT WITNESSES

The following witnesses were interviewed and statements obtained.

Shepard Chuma A1: He will state that on Friday 05/11/2010 at 20h00 he was at 6954 John Malatjie Street Diepsloot together with Nelson, Meqhawe and Witness standing when they were approached by two unknown Black males. One of them produced an appointment card and the other produced a firearm and ordered them to lie down.
He will further state that one of the Police Officer then took out a paper and started reading names like Mthelisi Sibanda, Godi Dube, Prichard Chuma and John. He asked them whether they know such people but none of such names were known to them. The officer was wearing a cowboy hat and they heard other police officers calling him Cowboy. Few minutes later, Cowboy asked the other Police Officers about where to detain them. While they argued about the place to detain them, the other officer suggested that General Sibiya be consulted to provide direction in the matter. A short while later General Sibiya alighted from a Black BMW. He will state that they were assaulted and when they arrived at Orlando Police Station one of the Officers called "Leburu" took his R300 which was in a wallet in his back pocket. They were detained

MCS HI GSM

and on 2010/11/08 at 12h00 the officer called "Cowboy" came and took the finger prints of his co-accused but his fingerprints were not taken. He was informed that his finger prints will be taken at Musina.

On Monday 2010/11/08 at 12H00 Cowboy came to collect them. They were taken into a marked vehicle of Orlando SAPS driven by the officer in uniform. They followed Cowboy who was driving a white Nissan D/C. They were taken to a certain place called Bronkhorspruit where they were moved into a Toyota being handcuffed. They were then taken to Musina and they arrived at 17h00. They took one officer at Musina whom Cowboy said he will make matters easy for them to cross the border. He will further state that at the border, Cowboy went to Home Affairs office and few minutes later came back. They were transported in a Nissan D/C and crossed the border with Cowboy using a wrong lane but they were never stopped. When they were on the other side Zimbabwean police came and placed handcuffs on top of other handcuffs and Cowboy came and removed his handcuffs. They were taken to a Zimbabwean police car. He will state that they were interrogated by the Zimbabwean Police Officers about a Zimbabwean police Colonel who was killed. They were placed in separate cells and after 11 days he was released. When he enquired about his friend he was told that he was killed by the Zimbabwean police.

Maqhawe Sibanda A2: He will state that on 05/11/2010 at 20h00 he was at his residential place in Diepsloot when he was approached by two Black Males who identified themselves as Police Officers. They instructed them to lie down and they cooperated with them. Few minutes later there were many cars of Police Officers in civilian clothes and they started searching them. He will further state that they were assaulted and the police also took R500-00 which was in his pocket. There was another police officer wearing Cowboy hat reading names on the paper and asking them whether they knew the names of such people. He will state further that he saw General Sibiya coming out of a black BMW and gave instruction that they should be taken to Orlando SAPS.

Nelson Ndlovu A3: He will state that on 05/11/2010 at 20h00 he was at his younger brother's residential place in Diepsloot when he was approached by two Black Males who identified themselves as Police Officers. They ordered them to lie down and then started to assault them. He identified one of the Police Officer by the nickname Leburu. After their arrest the Police Officers argued about where they should detain them and one of them suggested Randburg. General Sibiya gave the instruction that they must be detained at Orlando SAPS. They were then taken to Orlando SAPS but Shepard Chuma and Witness went with the police to show them where John stays.

Bongani Henry Yende A4: He will state that he is a member of the South African Police Services attached to Crime Intelligence. During October 2010 he was nominated to be a member of Task Team called Tactical Operations Management Section (TOMS) which was led by General Sibiya. On 2010/11/05 he received a call from W/O Makoe of DPCI in Gauteng who was also part of TOMS informing him that General Sibiya wanted them to meet in order to look for four suspects who are wanted in connection with the murder of police Colonel in Zimbabwe. He then went to Fourways Shopping Center with Constable Desmond Campbell who was also part of TOMS to meet with W/O Makoe. On their arrival at the Shopping Center W/O Makoe also

GSM

introduced two Zimbabwean police to them. He will further state that he was informed by W/O Makoe that the two officers came through the office of General Dramat. At that time General Sibiya was seated in a navy blue BMW and he could not go and greet him. They went to Diepsloot together with Captain Maluleke (also known as Cowboy), W/O Jawuke and Constable Leburu Radebe to identify the house of the suspects.

Captain Maluleke came back and informed them that he left the two officers observing the movements of the suspects at their residence. On their arrival at the suspect's place of residence, Captain Maluleke searched the suspects and confiscated their passports. There were four men who were lying on the ground and the two Zimbabwean police said that the four men are wanted in connection with murder of a Zimbabwean police Colonel in Bulawayo. The suspects were taken to Orlando and detained as illegal immigrants. On 23/11/2010 he was briefed by W/O Makoe that the two suspects who were arrested were subsequently killed in Zimbabwe. He will further state that the suspect Prichard Chuma was detained in Alexandra Police station. He will further state that Captain Maluleke was reporting directly to General Sibiya and whenever torture of the suspects was to be carried out, he condoned it.

Petros Jawuke A5: He will state that during October 2010 he was nominated to be part of a Task Team Called "TOMS" in Gauteng Province and that the team operated under the command of General Sibiya. On 2010/11/05 in the evening he received a call from W/O Makoe that their Commander Gen. Sibiya wanted all TOMS members to meet in Fourways because there was a Colonel who was murdered. He will state that he collected W/O Ndobe and rushed to Fourways where they met with other members.

He will state that W/O Makoe instructed him to join Captain Cowboy Maluleke and Constable Leburu Radebe to identify the suspects address. On their arrival at the identified house they found a car standing outside but there was no one inside the car. He will state that four men came to the vehicle and that they arrested them and detained them at Orlando Police Station as illegal immigrants but not the Zimbabwe murder case as indicated at the beginning of the tracing process.

He will further state that on 2010/11/23 the second operation was arranged and that he got a call from W/O Makoe that their Commander General Sibiya wanted them to meet at Diepsloot Shoprite. General Sibiya was present in the second operation. They went to Diepsloot where an African Male Pritchard Chuma was found and arrested for murder of the Colonel in Zimbabwe.

Desmond Campbell A6: He will state that on 2010/11/05 General Sibiya arranged with W/O Makoe to call them for operation at Diepsloot for tracing wanted suspects in a murder case where a Colonel was killed. He received a call from Constable Radebe that they have already arrested the suspects.

He will further state that the suspects were assaulted since he heard screams but did not take part in the assault of the suspects. The suspects were arrested in connection with a murder of the police Colonel in Zimbabwe. He will state that the four suspects were then detained at Orlando Police Station as illegal immigrants and not on the Zimbabwe Murder case of the Colonel. On 22/11/2010 until the early hours of 23/11/2010 Prichard Chuma was arrested and detained in Alexandra. He never saw General Sibiya being involved in the operation but that there was a person who was

always seated in the black tinted BMW and W/O Makoe referred to the person as General Sibiya.

Alfred Ndobe A7: He will state that during October 2010 he was nominated to be part of Task Team called "TOMS" in Gauteng Province headed by General Sibiya. On 2010/11/05 Gen. Sibiya arranged with W/O Makoe to call them for operation at Diepsloot for tracing wanted suspects in a murder case where a Colonel was killed. He was not aware that the suspects that they were tracing were needed in a Zimbabwe case. He received a call from Constable Radebe that they have already arrested the suspects.
The suspects were assaulted by General Sibiya, Captain Cowboy and W/O Makoe. He will state that the four suspects were then detained at Orlando Police Station as illegal immigrants but not on the Zimbabwe murder case of the murdered Colonel.

Desmond Campbell A11-Additional statement: He will state that he was based at Johannesburg Central Crime Intelligence before receiving a call up instruction from Gauteng Provincial DPCI Head, Major General Sibiya to report at Gauteng TOMS office. On 22/11/2010 of which he cannot remember the exact time they detained Prichard Chuma whom he does not know whether is related to Shepard Chuma. He will further state that he witnessed an assault on 2010/11/05 on Zimbabwean Nationals carried out by Captain Maluleke, W/O Makoe and Constable Leburu. He will further state that on 2010/11/05 and 22 to 23/11/2010 when they carried out the operation, there would be a figure seated in a black BMW whom Warrant Officer Makoe referred as Major General Sibiya.

Andrew Mark Sampson A12: He will state that he is a White Male self employed as a Project Manager of House Constructions. He knew Maqhawe Sibanda as a sub-contractor on his building sites. He will state that Mr. Sibanda vanished for a week and resurfaced again. He was informed by Mr. Sibanda that his disappearance was as result of his arrest in connection with the alleged murder of a Zimbabwean Colonel. He was taken to Beit Bridge but released along the way and he had to find his way back because he did not have money and his cell phone was confiscated by the police. He will state that he was requested by Mr. Sibanda to call the said police Captain for his cell phone. He called the police Captain and he confirmed that the cell phone will be returned. He does not know whether such phone was finally returned to Mr. Sibanda.

Sibongile Mpofu A24: She will state that she is a neighbor of the deceased Johnson Nyoni. She will state that she witnessed a group of unknown Policemen assaulting the deceased who was lying down on the furrow of running water as it was raining. She will state that the deceased was assaulted by means of being kicked with booted feet. She will state that she cannot recall the exact date but it was during January 2011. She will state that the deceased was also pepper sprayed on his face and that he was having bloodied mucous coming out of his nostrils.

She will state that she was standing at the distance of about 20 meters when she witnessed the incident and that it was still in the morning around 10:00. She will state that she never saw what happened inside the shack. She will state that she learnt that the deceased was indeed murdered after a month from his younger brother. She will state that she may not be able to identify them if she can see them again.

Reasons Mhlawumbe Sibanda A20: He will sate that on November 2010, on the date in which he cannot remember the date he visited his ex-girlfriend Brightness Nka Ncube who was staying with his distant sister Rachel Ncube. He slept over and in the middle of the night he was woken up by the police looking for John the boyfriend of Rachel. He was assaulted by a police whom he cannot identify, since it was in the dark. There was another Police Officer who was flashing a cellphone on their faces trying to identify them. He will further state that John was not there and they were freed when they indicated to the police that none of them was John.

Rachel Ncube A21: She will state that she is the wife of the deceased John Nyoni. It was on 26/01/2011 at 10h00 when she was in her shack with her husband Johnson Nyoni when police arrived and started assaulting him. The police entered the shack and said that they were looking for a firearm which they alleged that her husband used to kill a policeman in Zimbabwe. There were five (5) police vehicles, and her husband was taken away by the police and that was the last time she saw him. In February 2011 she received a call from Bikinis Nyoni, the brother of the deceased that Johnson Nyoni has died.

Brightness Nka Ncube A22: she will state that she is the sister-in –law of the late Johnson Nyoni. On the 5th or 6th of November while she was asleep she was woken up by the police who pretended to be Johnson Nyoni and later changed to indicate that they are in fact Police Officers. She will further state that she was assaulted by the police who were looking for Johnson Nyoni. The police freed them after they realized that Johnson was not amongst them. She learned later that Johnson Nyoni was murdered by the police in Zimbabwe.

Madala Bhekisisa Nyoni A23: He will state that he is the brother of late Johnson Nyoni and on 01 March 2011 he telephonically contacted his brother in law Orbed Ndlovu from Bulawayo in Zimbabwe who informed him that his brother Johnson Nyoni is late and was found at Central Mortuary in Bulawayo. He will further state that he then went to Bulawayo in Zimbabwe and at the mortuary he found the body of his brother. The body of Johnson Nyoni had a bullet wound on the collar (neck) just above the chest and it exited at the back. There was an information note attached to the body stating that Johnson Nyoni was involved in the crossfire at Gwanda in Zimbabwe. He will further state that he attended Johnson Nyoni's funeral which was held at Tsholotsho in Zimbabwe.

4.2 STATEMENTS OF MEMBERS AT ORLANDO POLICE STATION

The following statements were obtained from members of SAPS based at Orlando police station who are witnesses in the case.

Brigadier Mthokozelwa Zangwa A25: He will state that he is a Station Commander of Orlando Police Station. He became aware of the allegation of deportation of Zimbabwean foreign Nationals in 2012. He will state that as part of his own investigation he perused the registers to check if there were indeed Zimbabwean nationals detained at Orlando Police Station. According to OB 279/11/2010 the said Foreign Nationals were arrested by Captain M L Maluleke. He also discovered that the

Job Jackson A33: He will state that he is an Acting Deputy Direct responsible for the day to day running of Lindela Holding facility, in his statement he outlined the process involved in the deportation of a person from Lindela. He will further state that the incident took place before he was transferred to Lindela.

Potiswa Skosana A31: She will state that she is an Immigration Officer Station at Soweto. She will further state that the form Warrant of Detention of Illegal Foreigner (BI-1725) was discontinued in 2008 and that the Notification of Deportation Form must be accompanied by the fingerprints. She will further state that in all cases police call them to screen the illegal foreigners before such persons are taken to Lindela.

Johannes Lodewickus A30: He will state that he is a Deputy Director in the Department of Home Affairs at Soweto. He confirmed that the number on the Detention Warrant and Notification of Deportation form provided by the police does not belong to any Home Affairs official in Soweto.

Richard Peter Elberg A37: He state that he is an Immigration Officer based at Beit Bridge. He will further state that when SAPS bring an illegal foreigner at Port of Entry they must hand in a Body Receipt form and not the Detention Warrant. The Warrant of Detention is not a deportation document and must not be produced or stamped at Port of Entry.
He will dismiss the allegation that the stamp used on the documents claimed to be Home Affairs documents by the police is a deportation stamp.

Kobela Margret Mohlahlo A39: She will state that she is an Immigration Officer based at Beit Bridge and she had been a custodian of Stamp 20 since 2010. She had been in control of stamp 20 and when she is not in the office the stamp would be locked in the safe. She is the only person in possession of the key. She will state that on the 7th and 8th of November 2010 she was off duty and the stamp was locked in the safe. She does not know how stamp 20 appears on the documents which the police claim to be deportation papers because on the day in which the documents were stamped she was off duty and the stamp was locked in the safe.

4.4 STATEMENTS OF MEMBERS OF SAPS IN LIMPOPO

Ndanduleni Richard Madlionga A51: He will state that he is a Police Officer in the South African Police Service holding a rank of Lieutenant Colonel stationed at Thohoyandou SAPS as a Commander of Crime Prevention.
He will further state that the statement is additional to the statement he signed with a member of the Hawks from Pretoria. He wants to clarify certain issues pertaining to his previous statement.
Before he was transferred to Thohoyandou SAPS, he was working at Beit Bridge Police Station as a Commander. His duties included Crime Prevention, liaison with the Immigration Officials and other police officials from other stations.
In 2010, two weeks before the 8th November, there was a convoy of vehicles from Zimbabwe entering into South Africa. As he was suspicious, he approached them. The convoy was approaching the Immigration Offices. When he approached them, one of them introduced himself to him as the leader of the group and he told him that he is

MS HI GSM JK

Superintendent Ncube from the Homicide Unit in Harare. He then requested him if they could not find a place to sit down and discuss.
Superintendent Ncube told him that he was going to Pretoria to meet General Dramat. He said to him that maybe he knew about the Chief Superintendent who had been murdered. He said that the suspects were in Gauteng and he had organized with General Dramat to assist them in tracing the suspects.

REMOVAL 1

For the period of two weeks, he never heard anything from Superintendent Ncube and his group. After two weeks he received a call from Superintendent Ncube who told him that he was in town and he wanted to say goodbye. He went to town and met with them in front of Tops bottle store. They bought liquor and they left to the border. He did not escort them; they went to the border and crossed to Zimbabwe. They did not discuss anything about the operation they had in Gauteng with General Dramat.
The following day after the departure of Zimbabwean police, he received a call from Captain Maluleke who is also known as "Cowboy". It was on 08 November 2010 between 16 and 17:00, when he called and introduced himself as Cowboy and I asked as to who is Cowboy. He said that he is a Captain Maluleke and was with him at Paarl in Cape Town in 2005. When he said that he is Captain Maluleke, he remembered very well who he was. Captain Maluleke asked him where he was, and he said he had already crossed the checkpoint. He was told to stop and wait for him. After thirty minutes he arrived and was driving a Sedan which he thinks is a BMW. He was with a male person who was seated on the front passenger seat. He then entered into the vehicle after the passenger had moved to the back seat.

REMOVAL 2

While they were driving he realized that there were other BMW cars which were following them and he knew that it was a convoy. Captain Maluleke told him that suspects are in the vehicle behind them. He said that that there are two suspects and the third one is still not yet found. He will further state that he never stopped anywhere at the border and no documents were stamped for the purpose of deportation.
When they arrived at the Zimbabwean side the vehicle stopped and immediately all the vehicles were surrounded by Zimbabwean police. They then pulled the suspects from the back seat of the vehicle behind them. He knew that they were Police Officers because he had been working at the border for a long time and he knew them. He even saw the vehicles that crossed two weeks ago when Superintendent Ncube entered the country.
Thereafter one of the Zimbabwean police came and thanked them and said that they must not use the other gate but use the one they used when they entered.
Captain Maluleke told him that what happened is top secret and people must not know about it.
In 2012 of which he cannot remember the month and date, Captain Maluleke phoned and told him that there is a person from Head Office who will be coming for investigation and that he must cooperate with him.
Later a person came to Thohoyandou and he had a draft statement. He was told that there is a problem with the operation which was once done by the Hawks and they would like his statement to be in a particular format. He told him that the statement is for covering up and the parliament has some issues about the operation. He will further state that he read the statement and realize that it was to close the gaps and not a true reflection of what happened.

Brigadier Joseph Makushu A53: He will state that in 2010 he was the Head of Security and Protection Services responsible for eight Borders of which one of them is Beit Bridge. He will further state that Colonel Maditonga was one of his team members

posted at Beit Bridge reporting under Colonel Radzilani. He remembers receiving a call from Colonel Madilonga in 2010 requesting permission to allow Zimbabwean Police who were going to see Major General Dramat. He then instructed him to call General Dramat directly because he did not want to be involved in the operation which he was not previously informed about. He will further state that it was the last time he spoke to Colonel Madilonga about the Zimbabwean Police.

Colonel Dovhani Sharon Radzilani A54: She will state that in 2010 she was the direct supervisor of Colonel Madilonga at the Beit Bridge Port of entry. She will further state that in 2010 Colonel Madilonga informed her about the Zimbabwean Police who were about to enter the country to see Major General Dramat. She cannot remember whether he informed her telephonically or he came to her office. She will further state that she told Colonel Madilonga to speak with Brigadier Makushu about the issue.

4.5 STATEMENTS OF TOMS MEMBERS IN GAUTENG AND PRETORIA

Lt Col Neethling A55: He stated that he is a member of South African Police Services stationed at the Directorate of Priority Crimes, Provincial Office in Gauteng. In November 2010 of which he cannot remember the exact date, he received a request from Captain Maluleke to assist in arresting a suspect in the Fourways area. He met with Captain Maluleke at Diepsloot who then led him to the spot where the suspect was. Captain Maluleke walked towards him and briefed him, informing him that he is investigating a case of murder of a Zimbabwean police officer.
He did not ask any question because he knew Captain Maluleke to be working for "Cross Border Desk" at the Head Office of the Hawks. He also did not ask question because he knew that Captain Maluleke was representing the Head Office. He considers himself to be less knowledgeable in Cross Border crimes than Captain Maluleke. He discussed the tactical approach of the operation with his team since he considered the operation to be high risk. He positioned himself at the back of the vehicle convoy down a very narrow alley leading to an informal structure. There were three Police Officers whom later he discovered that they were Zimbabwean police. They were dressed in neat trousers, collar shirts and suits jackets.

After 15 minutes his members came out and informed him that they found the intended target and that Captain Maluleke had arrested him. They drove out of the settlement and stopped at the shopping center. Captain Maluleke informed him that they also have to arrest other suspects in Soweto. He was informed the next day that other two suspects were also arrested.

He also remember receiving a call from Captain Maluleke requesting escort of high risk suspects to Musina since he had to hand them over to Zimbabwean Authorities. He did provide a team to escort the suspects. He believes he must have reported such arrests to Major General Sibiya.

Captain Arnold Boonstra A60: He will state that in November 2010 (a date and time of which he cannot remember) he was requested by Lt Col Neethling to assist in tracing the suspects who were wanted by Captain Maluleke. He went to Diepsloot shopping Centre and waited for the members involved in the operation to come and fetch him. They came in a convoy and he followed. It was at night and he cannot

M-S HH GSM RZ

remember the exact time. He approached Lt Col Maluleke known as 'Cowboy' to provide him with the case number or reference number. He gave him a reference number from the file he was holding. He also told him that the suspects were wanted in connection with murder of a Police Colonel in Zimbabwe. He also mentioned that the police Colonel was killed during the Shoprite robbery. He does not remember precisely whether he said Shoprite robbery took place in Zimbabwe or South Africa.

The operation moved to Soweto but he did not see people who were arrested. He did not witness any assault because he was not near the operation. He just heard Lt.Col Maluleke saying that he will detain the suspects in Soweto.

Captain Ernest Nkosi A77: He will state that on 22/11/2013 after the operation which was carried out at Diepsloot he was requested by Lt Col Maluleke from DPCI Head office to take suspect Prichard Chuma to Alexandra Police station for detention but without the case number. He detained the suspect at Alexandra Police Station free of any injuries. He will further state that he wrote the cell number of Lt Col Maluleke in the Occurrence Book.

Warrant Officer PJD Selepe A56: He will state that he is employed by DPCI in Gauteng on a rank of a Warrant Officer. In November 2010 of which he cannot remember the exact date he received a call from his Commander Lt Col Neethling requesting him to assist Captain Maluleke in escorting a suspect. He told him that Captain Maluleke will provide details of the trip.

He then called Captain Maluleke who confirmed that he needed assistance to transport a suspect to Musina. He requested him to use his vehicle because it had a blue light. He was in possession of BMW 330 with registration number TJH588 GP. He cannot remember the details of the trip but he remembers arranging with Captain Maluleke to meet at Alexandra Police Station on 23/11/2010 as recorded in the Occurrence Book to book out the said suspect. Captain Maluleke arrived and was driving a Nissan Hard body Double Cab.
Captain Maluleke told the officer at the Service Centre the name of the suspect and the suspect by the name of Prichard Chuma was brought to him. Captain Maluleke handcuffed the suspect and took him to the BMW. He then drove the vehicle being escorted by Captain Maluleke. He did not know what the suspect was wanted for and that he was just carrying out the request of his commander. He was told by Captain Maluleke that the suspected should be taken to Silverton Police station. He drove the suspect to Silverton where he was booked in the cells. He does not remember whether he booked the suspect himself or Captain Maluleke did it. After booking the suspect Captain Maluleke told him that on 24/11/2010 he must assist in escorting the suspect to Musina.

On 24/11/2010 he went to Silverton DPCI's office as directed telephonically by Captain Maluleke. When he arrived the following day, he discovered that the suspect he transported the previous day was no longer in the cells in Silverton Police Station but with Captain Maluleke. He was then brought to his vehicle and after he sat down, Captain Maluleke placed iron legs on him. They then drove to Musina while Captain Maluleke was providing escort. Captain Maluleke was in the company of a female person not known to him.

On arrival at Musina Captain Maluleke signaled using the head lights that they have to proceed straight to the border. He then proceeded to the border and when they arrived, they found the entry gate having a long queue. He used the exit gate as entrance gate. The police stopped them before they proceeded any further but when he put the blue light of his vehicle on, they gave way. He stopped in front of the police station at Beit Bridge and Captain Maluleke came over to his car, released iron legs from the suspect and headed to the Community Service Centre. He then went back and slept over in Polokwane.

Warrant officer Givani John Sambo A59: He will state that on 23/11/2010 he was officially on duty at Silverton Police station when Detective Warrant Officer Selepe brought a black male Prichard Chuma. The prisoner was booked in as a transit without body receipt. He will further state that W/O Selepe was with an unknown African male. On 24/11/2010 W/O Selepe came and book out the prisoner Prichard Chuma from Silverton Police station to Beit Bridge under Bulawayo Case number 1337/11/2010. The same prisoner was received by the African male who was with W/O Selepe the previous day and he signed the Occurrence Book as a Captain.

McIntosh Polela A76: He will state that in December 2010 to May 2013 he was employed by South African Police Services as a spokesperson for the DPCI. He was reporting directly to Lt General Dramat and Brigadier Mashigo. He will further state that he remember one time being introduced to the Zimbabwean Police who were having a meeting with General Dramat. He cannot remember when and how the meeting was conducted since he was not part of the meeting. In 2011 he received an inquiry from Mzilikazi wa Africa who wanted to be clarified of renditions of Zimbabwean nationals. A meeting was held between him and Lt General Dramat, Col Basi and Captain Maluleke to discuss the issue. During the meeting Captain Maluleke denied to have handed any person to Zimbabwean Authorities without the involvement of Home Affairs. Lt General Dramat also denied having known any renditions of the Zimbabwean nationals. He will further state that he telephonically contacted Major General Sibiya to find out whether he knew about the renditions of Zimbabwean nationals and he denied having knowledge of such. He will further state that he does not remember an incident in which he moved from house number to house number three at the DPCI office and Lt General Dramat addressing the people about the arrest of the Zimbabwean nationals.

Masocha Rodgers Nthlemu A80: he will state that on 11/11/2011 he received an investigation from his commander Colonel Basi by giving him a copy of a newspaper article that reads' "HAWKS AND SA POLICE ARRESTING SUSPECTS AND SENDING THEM OVER THE BORDER TO BE MURDERED". He will further state that he investigated the case by interviewing members of the Hawks Lt Col Maluleke who also gave him copies of warrants of detentions of the following individuals, Dumisai Witness Ndeya born 1987/05/10, Nelson Ndlovu born 1985/11/14, Maqhawe Sibanda born 1988/07/13 and Shepard Chuma born 1988/07/15. He also approached Interpol and checked whether the above suspects were on the list of wanted suspects. He obtained the statement of Lt Col Naethling, Major General Sibiya, and Mr WCR Voster. He will further state that during the investigation he was unable to find the person who leaked the documents to the media.

4.6 STATEMENTS OF TRT MEMBERS WHO ASSISTED IN THE ARREST OF JOHNSON NYONI.

Avhashoni Desmond Takalani A62: He is employed by the South African Police Services in Gauteng stationed at Johannesburg Central Police station under the TRT unit. On 2011/01/12 at 11h00 in the morning he was on duty in a full uniform posted at Diepsloot for Crime Prevention purpose. While busy with his duties with other members of TRT unit from Johannesburg Central, they received a request from members of the Hawks (DPCI) TOMS who were at Diepsloot SAPS to provide backup in the arrest of wanted suspect. When they arrived at Diepsloot SAPS, he decided to remain outside while others were briefed inside the station. From the station the vehicles proceeded to the Squatter Camp. Along the way his co-workers informed him that there was a suspect who was being traced at the Squatter Camp.

When they arrived at the place where the suspect was, he remained inside the vehicle because it was raining and he did not have a rain coat. He saw the suspect when they brought him to the vehicle. After members of the Hawks and Crime Intelligence who were unknown to him arrested the suspect, they were requested to escort the suspect to Silverton DPCI offices. They escorted the suspect and at Silverton DPCI offices he saw Captain Maluleke who was wearing a Cowboy hat with two unknown African males who were travelling in a white BMW with Zimbabwean registration numbers. Captain Maluleke further said that they were Zimbabwean police who came to take the suspect, refering to the suspect whom they had just arrested at Diepsloot.
While they were with the suspect, he told them that some weeks back he was in Zimbabwe attending a funeral of some of the people he committed crime with and also knew they were after him. He was telling them when Captain Maluleke and Zimbabwean police were inside the offices.
They were requested to take the suspect to Pretoria Moot SAPS for detention. Before they went to Pretoria Moot SAPS, photos of all members involved in the operation were taken. When they arrived at Pretoria Moot Polices station, Captain Maluleke detained the suspect and they then knocked off.

Johannes Mpati Moatshi A61: He will state that in January 2011 he was on duty posted at Diepsloot as a result of xenophobic violence prevalent at the time. At 13h00 on that particular day, he received a call via two ways radio from his commander to go Diepsloot police station. When he arrived with his colleagues he found the commander of Diepsloot Police station who introduced them to Captain Maluleke who was with two males persons and a female. The two male persons and a female were introduced as members of Crime Intelligence, Captain Maluleke informed them that there is a person who has committed serious cases in Zimbabwe and he is very dangerous. Captain Maluleke further said that the suspect was with the informer and had to be arrested. He will further state that they went into Diepsloot where the suspect and the informer were pointed out. After the arrest of the suspect they went to a certain shack where members of Crime Intelligence conducted a search but nothing was found. They were told by Captain Maluleke to transport the suspect to DPCI offices in Silverton. At Silverton Captain Maluleke requested them to book the suspect at Moot Police with the instruction that no visitor is allowed for the suspect. He cannot remember the name of the suspect but he remembers taking photos with the officers from Zimbabwe.

Sello John Phaswana A64: His statement corroborates that of Avhashoni Desmond Takalani in all material aspects.

Tshatoa Jacob Seletela A63: His statement corroborates that of Avhashoni Desmond Takalani and that of Sello John Phaswana in all material aspects.,

Matsobane Silas Mokoatlo A78: His statement corroborates that of Avhashoni Desmond Takalani and that of Sello John Phaswana as well that of Tshatoa Jacob Seletela.

Andries Nxumalo A65: will state that around 11 or 26 January 2011 he was working in Diepsloot as a result of xenophobic violence at that time. He heard over the radio that they were wanted at Diepsloot Police station. When he arrived at the station he found Captain Maluleke, two male officers and one female who were introduced to him as members of Crime Intelligence. He will further state that Captain Maluleke requested them to assist in the arrest of Zimbabwean National who committed serious crimes in Zimbabwe. Together with his colleagues they went to a section in Diepsloot where the suspect was said to reside. The suspect was arrested and taken to DPCI offices in Silverton; he participated in a photo shoot with members of Zimbabwean Police. After the photo shoot, they took the suspect to Moot Police station for detention.

Constable Hosea Tshabalala A83: He will state that on 26/11/2011 he was officially on duty posted at Diepsloot. While still on duty was requested together with his colleagues to assist them in tracing a suspect who was involved in the murder of Zimbabwean Colonel in Zimbabwe. Constable Rikhotso and his female co-worker briefed them that the suspect was with the informer. When they arrived at the exact place, they found the suspect standing in front of the tuck-shop. They arrested him and took him to his room where they found a woman with a small baby. Constable Rikhotso and his female colleague search the room. The suspect was taken to Silverton at the DPCI offices were they found two Zimbabwean police officers. He will further state that the suspect informed him that some few weeks while he was in Zimbabwe he attended the funeral of his colleague who was killed by the Zimbabwean police and the same Zimbabwean police will kill him when he arrive in Zimbabwe. He was requested to detain the suspect at Moot police but he cannot remember the person who made the request.

4.7. STATEMENTS OF CRIME INTELLIGENCE MEMBERS WHO TRACED AND ARRESTED GORDON DUBE AND JOHNSON NYONI.

Masingita Rikhotso A67: He will state that in January 2011 of which he cannot remember the exact date he went to Wierdabrug police station at the CIAC office which is responsible for profiling and identification of crime hot spots. When he arrived he found Constable Sombhane who was working at the CIAC office. Constable Sombhane gave him a list of wanted suspects and on top of the list was Gordon Dube who was wanted in connection with murder in Zimbabwe and robberies in South Africa. He came back to his office and organized with his contacts to look for Gordon Dube. It took two weeks for the contact to trace the suspect. He will further state that his contact informed him that he found Gordon Dube and together with his colleagues they went to Thembisa in order to apprehend the suspect. He was informed that the suspect will be

MB MT GSM VL

coming since he wanted to buy bullets from someone. He will further state that while they were in Thembisa and they managed to spot the suspect. When he moved they pursued him until they arrested him in Diepsloot. They found the suspect in possession unlicensed firearm. He saw the same firearm with captain Maluleke at the Hawks offices after it was returned from the ballistics. The suspect was taken to Wierdabrug to for detention. Again in January 2011 he received information from Captain Maluleke who requested him to look for John Nyoni. He then tasked his informer again to assist in the arrest of Nyoni. On 26/11/2011 he went to Diepsloot having organized with his Contact to arrest John Nyoni. When he arrived the Contact pointed out the suspect and he was arrested. After they arrested John Nyoni, his house was search but nothing was found. They took the suspect to Silverton DPCI offices. They were assisted by members of TRT. He will further state that he participated in the photo shoot with the Zimbabwean police. He also heard Captain Maluleke requesting members of the TRT to take the suspect to Moot Police station.

Plantinah Mokgobu A69: She will state that she is employed by the South African Police Services stationed at Crime Intelligence in Pretoria with a rank of Constable. On 12/01/2011 while in the office they received information from their Contact/informer and he tipped them off about a crime that was going to take place at Diepsloot. They then proceeded there with a backup of members from Ivory Park Police Station where they effected an arrest on Gordon Dube at Diepsloot.

In January 2011 they received information from CIAC at Wierdeburg regarding the wanted suspect John Nyoni. The person they liaised with at CIAC was Constable Sombhane who also gave them the number of Captain Maluleke. She also spoke to Maluleke over the phone while they were there. They then drove to the Hawks offices to meet with Captain Maluleke who told them that the suspect has murdered a police officer in Zimbabwe.

They then tasked their Contact/informer to look for the suspect, who did and the suspect was arrested. After the arrest of John Nyoni, they all proceeded to the Hawks offices where they gathered together for a photo shoot. Captain Maluleke exchanged the taking of photos with the Zimbabwean police. The photo of the suspect was also taken and the exhibit which is a firearm was also photographed. After the photo shoot she went to the shop, but when she came back she was told that General Dramat was with Colonel McIntosh and he had just addressed the people in her absence. She felt that she missed out on the speech of General Dramat but her colleagues told her that he was just congratulating them for a job well done.
Superintendent Ncube from Zimbabwe who was wearing black shirt and spectacles told us that he will be sending us letters of congratulation from Zimbabwe. She still recalls that later they were called by Brigadier Britz from Crime Intelligence Provincial office, and he showed them an appreciation letter from Zimbabwean government. He told them that they would be called by Provincial Commissioner Mzwandile Petros to meet with them as a result of their good work. She does not know what happened to John Nyoni thereafter.

Emmanuel Dinizulu Mkasibe A68: His statement corroborates that of Platinah Mokgobu in all material aspects. He will state further that shortly after the photos were taken, he saw General Dramat of the Hawks. General Dramat was with the spokesperson of the Hawks known to him as Colonel McIntosh Polelo. They then

gathered together and Captain Maluleke introduced General Dramat and the spokesperson. General Dramat addressed and thanked them for arresting the suspect. After he said that he left and Captain Maluleke told us that he was organizing a celebration braai. While they were busy enjoying themselves, a lady working at the Hawks offices with Captain Maluleke came and joined them. She wanted the meat to take home because there was too much meat. She was requested to download the photos from the camera by Captain Maluleke.

Removal 3

He will state further that he then decided to follow her to the office. When she downloaded the photos he requested her to print the photos for him. She agreed and printed many photos which he took home and still have them even now.

Constable Polelo Fortune Mnqwenya A75: He will state under oath that on the 26/01/2011 he was called by his colleagues after the arrest of Johnson Nyoni to join them at DPCI offices in Silverton for a braai. He will further state that when he arrived he found Zimbabwean police and some of his colleagues participating in a photo shoot. Shortly after the photo shoot Lt General Dramat came and thanked them for the job well done.

Removal 4

Statement of Brigadier A G Britz of Crime Intelligence A79: He will state that During January and February 2011, Constable Rikhotso and his female colleague visited his office and informed him that they arrested two Zimbabweans who were involved in a spate of arm robberies and recovered a firearm. He congratulated them without enquiring the details of the case. In March 2011 he received a letter which was addressed to Col Ntenteni from CID Provincial Headquarters in Zimbabwe Bulawayo-Zimbabwe. A copy of the letter is attached to his statement. He then arranged with Col Ntenteni to send the officers to the next Crime Intelligence Provincial Management meeting in order for them to be congratulated. After the management meeting he also wrote a letter to Lt General Toka's signature to the Provincial Commissioner in order for him to congratulate the members. On 15/07/2011 he received four letters from the Provincial Commissioner thanking members for good work. He will further state that he had no prior knowledge that the suspects arrested were wanted in connection with the murder of Zimbabwean police.

STATEMENTS OF DIEPSLOOT SAPS MEMBERS REGARDING GORDON DUBE

Avhasei Witness Rambuda A72: He will state that in January 2011 he was working Diepsloot as a Detective. There were three suspects who were arrested after they were involved in the shooting incident with the police. They recovered a firearm which was booked into SAPS 13 and received exhibit number SAPS 13/31/2011. He was involved in the charging of the suspects and they were attending court at Attridgeville. After some few days he received a call from Captain Maluleke of the Hawks asking him to go to Ballistic Pretoria and collect the firearm as he had already made arrangement with them. He collected the firearm and handed it Captain Maluleke. Captain Maluleke told him that he has a case he is investigation against one of the suspects. He informed him that the firearm belongs to Zimbabwe. He typed a letter a letter on his computer acknowledging the firearm but he does not remember where he put the letter.

He will further state that Captain Maluleke told him that he had made an arrangement with the prosecutor at Atteridgeville to withdraw the case so that he could be able to transport the suspect and the firearm to Zimbabwe.

Warrant Officer Isaac Dlamini A70: He will state that in January 2011 docket Diepsloot Cas 93/01/2011 was assigned to him for further investigation. The docket had three suspect arrested for possession of unlicensed firearm and ammunition. The names of the suspects were Menzi Dube, God Dube and Sidingumunzi Dumani. He received a call from "Cowboy" Maluleke of the Hawks to hand the Case dockets Diepsloot Cas 93/01/2011 to his office in Silverton. He said the docket had to be investigated together with other dockets wherein God Dube is a suspect. He further said that the firearm which is an exhibit in his docket was used to kill a senior officer in Zimbabwe. Captain Maluleke took the docket and gave them acknowledgement of receipt.

He will further state that Captain Cowboy in the presence of Constable Rambuda told him that he will facilitate the release of the suspect from prison and he will talk to the Prosecutor to withdraw the case. After sometimes seeing that the docket was under his name, he opened a duplicate and sent it to the prosecutor. The prosecutor decided to decline to prosecute and the duplicate docket was filed.

Lean Meyer A73: He will state that he was investigating several cases wherein Godi Dube was a suspect. The cases were as follows, Wierdabrug Cas 531/12/2010, Wierdabrug Cas 220/02/2010, Wierdabrug Cas 147/11/2010, Wierdabrug Cas 1022/12/2010, Wierdabrug Cas 310/10/2010 and Diepsloot 93/01/2011. He was informed by Captain Maluleke from the Hawks that suspect Alfred Godi Dube was also wanted in Zimbabwe. According to Maluleke he was also wanted for murder as per Bulawayo CR 438/09/2010. He will further state that he booked out suspect Godi Dube and handed him to Captain Maluleke. Captain Maluleke informed him that suspect Gordon Dube will be handed over to the Zimbabwean government through immigration channels.

Sindy Daisy Dorcus Sombhane A74: She will state that during 2010 and 2011 she was based at Wierdabrug attached to Crime Intelligence unit. During 2010 she gave Constable Rikhotso a list of wanted suspects in Wierdabrug. She also met Captain Maluleke at Wierdabrug who told her that he is looking for a suspect known as Godi Dube. She contacted Constable Rikhotso and informed him that Captain Maluleke was at Wierdabrug inquiring about Godi Dube. She gave him the contact numbers of Captain Maluleke.

She will further state that on the 11/01/2011 she saw the name of Godi Dube on the cell Register and decided to call Constable Rikhotso. Constable Rikhotso confirmed that he arrested Godi Dube the previous night (11/01/2011). She went to the cells and interviewed Godi Dube who said he would get a lawyer because the police assaulted him.

5. DOCUMENTARY EVIDENCE ACQUIRED FROM VARIOUS POLICE STATIONS

MS HI GSM

5.1.1. EXTRACTS FROM OCCURRENCE BOOKS & SAPS 14 REGISTERS

The investigation at Orlando Police Station uncovered the following:

Specific reference to OB 276. to. 279 (A8): The entries made from 04h10 of 06/11/2010 to 12h00 of the 08/11/2010 confirm that Captain M L Maluleke of the DPCI with force number 0822729518 arrested Dumisani Witness Ndeya, Nelson Ndlovu, Maqhabane Sibanda and Shepard Chuma.

Specific Reference to OB 429 (A9): Entry made at 11h00 of 08/11/2010 confirm that that Captain M L Maluleke of the DPCI with cell number 0827729518 booked out Dumisani Witness Ndeya, Nelson Ndlovu, Maqhabane Sibanda and Shepard Chuma to Bell Bridge.

SAPS 14 (A10) : The cell register dated 2010/11/05 to 2010/11/08 indicates that the following suspects were charged and detained, Dumisani Witness Ndeya, Nelson Ndlovu, Maqhabane Sibanda, Shepard Chuma. The reason for detention of the suspects as per register is stated as 'illegal Immigrants'. The entry was made by Sergeant Thomas Pixane Setage who also later confirmed this in a sworn statement.

The investigation at Alexandra Police Station uncovered the following:

OB entry 22/11/10 (A57/1): The entry made on 22/11/2010 shows the booking of Prichard Chuma by Captain Nkosi. However Nkosi wrote the name and contact numbers of Captain Maluleke as the person who is the investigating Officer of the case.

OB entry 23/11/2010 (A57/2): The entry dated 23/08/2010 shows the booking out of Prichard Chuma by Warrant Officer Selepe.

The investigation at Silverton Police Station uncovered the following:

OB entry 23/11/12 A58/1: Warrant Officer Selepe booked in Prichard Chuma at Silverton Police station with Bulawayo case number.

OB entry 24/11/2012 A58/2: Warrant officer Selepe booked out Chuma to Bell Bridge. However Captain Maluleke also signed, acknowledging the release of Prichard Chuma into his hands/custody.

The investigation at Pretoria Moot Police station uncovered the following:

OB entry 26/01/11 (A66/1): Warrant Officer Johannes Mpati Moatshi booked in Johnson Nyoni by the instruction of Captain Maluleke for Fraud.

OB entry 28/01/11 (A66/2): Captain Maluleke booked out Johnson Nyoni to Bell Bridge for Fraud.

SAPS 14: Captain Maluleke appended his signature on the entry and it shows that the release of Johnson Nyoni to Captain Maluleke was for extradition purpose.

MS HT GSM VL

The Investigation at Wierdabrug Police Station uncovered the following:

OB entry 12/01/12 (A71/1): Gordon Dube, Andrew Dube, Dumani Stimusy were detained for possession of unlicensed firearm. The same firearm was found to belong to the murdered Zimbabwean Police Officer.

Body Receipts SAPS 216 (A71/2): They show that Gordon Dube, Andrew Dube and Dumani Stimusy were received from court on 14/01/2011 together but on 28/01/2011 Gordon Dube was not amongst the other suspects. Pretoria Prison records show that Dube was release on the 28th January 2013 to Constable Meyer of Wierdabrug Police station.

Copies of case dockets linking Gordon Dube, which were discontinued after Gordon Dube's deportation (B20).

Diepsloot Cas 93/01/2011:

The case docket was opened after Gordon Dube was found in possession of an unlicensed firearm. The original docket was handed to Captain Maluleke and a duplicate docket had to be constructed without some of the statements in the original docket. The suspect Gordon Dube was attending court in terms of admission detail report of Pretoria Central Correctional Services and the body receipt form both filed as per A84/1 and A84/2 respectively.

Wierdabrug Cas 531/12/2010:

The case docket was opened after Gordon Dube allegedly robbed a certain business at Olievenhoutbosch where a shot was fired. An empty cartridge was successfully linked with a firearm which Gordon Dube was found in possession off in Diepsloot Cas 93/01/2011. There is also a copy of a statement made by Captain Maluleke indicating that because of the seriousness of the cases committed by Gordon Dube in Zimbabwe, Dube was handed over to Zimbabwean Government and he was sentenced to life imprisonment.

Wierdabrug Cas 220/02/2010:

The case docket was opened after Gordon Dube allegedly murdered a person at Serebeti area. The projectile found in the body of the deceased was linked to the firearm recovered from Gordon Dube during his arrest as per Diepsloot Cas 93/01/2011. Gordon Dube was still attending court with the next court date set for 30/03/2011. Captain Maluleke also submitted a statement in which he indicated that because of the seriousness of the cases committed by Gordon Dube in Zimbabwe, Dube was handed over to Zimbabwean Government and he was sentenced to life imprisonment.

Wierdabrug Cas 43/10/2010:

This murder case docket links Gordon Dube through cell records and ballistic result. Captain Maluleke also submitted a statement in which he indicated that because of the seriousness of the cases committed by Gordon Dube in Zimbabwe, Dube was handed over to Zimbabwean Government and he was sentenced to life imprisonment.

Wierdabrug Cas 147/10/2010

This attempted murder docket links through ballistic result. Captain Maluleke also submitted a statement in which he indicated that because of the seriousness of the cases committed by Gordon Dube in Zimbabwe, Dube was handed over to Zimbabwean Government and he was sentenced to life imprisonment.

Wierdabrug Cas 1022/12/2010:

No docket or copies could be found regarding this case.

Wierdabrug Cas 310/10/2010:

This is house robbery case linked to Gordon.

5.2 DOCUMETARY EVIDENCE ACQUIRED FROM DPCI OFFICES.

Success report dated 04/02/2011 (A82/3): The report was addressed to General Dramat, General Hlatshwayo and General Toka with a heading that reads, "CONSOLIDATED SUCCESS REPORT:MOST WANTED FUGITIVE:WANTED FOR MURDER AND ROBBERY; DPCI TOMS REF: 3/12/2010: AND ZIMBABWE (BULAWAYO CR 348/09/2010): WITNESS DUMISANI NKOSI@NDEYA: ZIMBABWEAN NATIONALS AND OTHERS.

REMOVAL 5

The report also covers the arrest of Gordon Dube and appreciation of TRT members and members of Crime Intelligence.

Success report dated 11/11/2013 (A82/1-82/2): The report bears reference number 26/02/1 and again addressed to Deputy National Commissioner DPCI. The person to whom enquiries must be directed is Captain Maluleke whereas the signatory is Col P J Selundu. The report further stated the arrest of Dumisani Witness Vundla @ Ndeya and Shepard Chuma.

Overtime and Itineraries of Captain Maluleke (B18): On 08/11/2010 went to Beit Bridge (Limpopo) for investigation and claimed overtime. On 24/11/2010 he went to Beit Bridge and also claimed overtime. On 28/01/2011 he went to Beit Bridge and also claimed overtime. All this dates corresponds with cellphone records and OB entries indicating the dates in which the suspects were booked out from the stations.

MS HI GSM

5.3 EVIDENCE ACQUIRED FROM CAPTAIN MALULEKE'S SEIZED LAPTOP (A87).

Success report ref: 26/2/1 and 14/02/01: They were generated in Captain Maluleke's laptop before being signed by Col L Verster and forwarded to General Dramat. The report recovered from the computer has a different reference number but same content. Report 14/02/01 has reference 0627239-8/5

Letter to Diepsloot Station Commander: The recovered letter states that the firearm which was found in Gordon Dube's possession and handed to Captain Maluleke after ballistic examination was taken to Zimbabwe permanently.

Emails by Captain Maluleke: He sent e-mails circulating more than 20 photos of both the suspects arrested and the members involved in the operation. He sent email to Zimbabwean police trying to find out how they travelled back home and that he is still tracing the remaining suspects..

Photos: More than 70 photos were found, the majority of them relate to the operation involving Zimbabwean Nationals. Zimbabwean police appear on the photos and the white BMW with clear Zimbabwean registration number.

Letter to Home Affairs dated 08/11/2010: The letter was addressed to home affairs requesting assistance in the Deportation of the Zimbabwean nationals involved in the murder of Zimbabwean police. Even though the letter is dated 08/11/2010, it was generated in November 2011, shortly after the news about illegal deportation of Zimbabwean nationals hit the media.

Letter to stakeholders dated 20/08/2012: The letter was generated the same day indicating the trip to Zimbabwe to discuss matters of cooperation on cross border crimes.

Removal 6

Documents regarding Bongani Moyo's case: This case is separate from the events that led to the arrest and deportation of the Zimbabwean Nationals into the hands of Zimbabwean authority. However it is a clear case of return of favor by Zimbabwean authorities to South Africa. In terms of the documents retrieved, Bongani Moyo escaped from Boksburg prison on 2011/03/28, a month and half after South Africa deported illegally the Zimbabwean nationals who were wanted by Zimbabwean authorities. An amount of R50 000 rewards was also provided for any information that could lead to the arrest of Moyo. Captain Maluleke stated that his informer told him that Moyo was on his way to cross the border in South Africa after being shot by Zimbabwean police. According to the formal statement of Captain Maluleke, he arrested Moyo on the 13/05/2011 after he was found in the vehicle that crossed the border into South Africa. The other information retrieved provides contrary account of what happened. In a letter he states that he went to Zimbabwe and conducted an operation with Zimbabwean police at Moyo's home village on 11/05/2011. Moyo was subsequently shot at transported to the border with the help of Zimbabwean police.

Removal 7

Statement of Bongani Moyo: he will state under oath that in May 2011 he was in Zimbabwe Bulawayo busy speaking over the cellphone when Zimbabwean police arrived at his house. After identifying him they assaulted him and handcuffed him. They put him in the bakkie and drove to the bush, where they ordered him to lie down. They

then shot him on both knees. He was then taken to Central Hospital in Zimbabwe where he was treated before released to the hands of the Zimbabwean Police. After being release he was transported to Beit Bridge by seven Zimbabwean police. He will further state that they were travelling in a white Toyota Fortuner and he was handed to the South African Police at Beit Bridge.

5.4 DOCUMENTARY EVIDENCE FROM HOME AFFAIRS

Warrant of Detention of Illegal Foreigners (BI-1725) – This document was produced by the SAPS as a proof that Shepard Chuma, Witness Ndeya and Nelson Ndlovu were detained for being illegal foreigners and they were seen by an Immigration Officer. However the signature that appears on the docket does not belong to any member of Home Affairs in Gauteng and the appointment number 037152 does not exist.
It was also uncovered that the BI-1725 used was discontinued in 2008 according to Home Affairs and in 2010 it was no longer part of the official documents of Home Affairs. The stamp on both documents clearly shows that whosoever completed the document used the old form already completed and deleted affiliated information to put the information of the three foreign nationals. The handwriting expert in her findings has indicated that the signature in each document does not resemble the sampled signature provided by members of Home Affairs.

Notification of The Deportation of an Illegal Foreigner (DHA-1689) documents were produced by SAPS as proof that the Nelson Ndlovu, Shepard Chuma and Maqhawe Sibanda were deported through Beit Bridge Border. However the form has been wrongly stamped and does not have finger prints of the deportee as required.
The stamp number 20 belonging to Beit Bridge was used and such stamp is not for that purpose. The stamp is individualized and belongs to Immigration Officer Kobelo Margret Mohlahlo who on the day in which the stamp was used was off duty and the stamp was locked in the safe, she is the only person in possession of the key to the safe.

Beit Bridge Duty Roster – This is a duty register used by Immigration Officers at Beit Bridge. The register confirms that Immigration Officer Kobelo Margret Mohlahlo was off duty on 7th and 8th of November 2010.

Beit Bridge Movement data: The data entails information pertaining to the entry and exit of people who were identified by Colonel Madilonga as members of Zimbabwean police who approached him with a request to see Lt General Dramat.

Expert report on the Home Affairs Documents A81/1 and A81/2: The documents which were handed by Col Basi which are Notification of the deportation of the Illegal Foreigner and Warrant of Detention were sent to the forensic laboratory for analysis.

GSM

5.5 EVIDENCE IN TERMS OF SECTION 205 OF THE CRIMINAL PROCEDURE ACT.

CELLPHONE RECORD OF MAJOR GENERAL SIBIYA (0725953168) AND (0724798484)	
Reason for 205 application	**Findings**
To test the version of the witnesses who alleged to have seen Major General Sibiya at the crime scene	*Major General Sibiya was never at the crimes scenes or planning area as alleged by members of Crime Intelligence.*

CELLPHONE RECORD OF LT GENERAL DRAMAT (0825515311)	
Reason for 205 application	**Findings**
To verify whether he had interaction with the Zimbabwean Authority regarding the arrests of Zimbabwean Nationals. To clarify as alleged by the witnesses whether he received Zimbabwean police in relation to the murder case of a senior officer in Zimbabwe	*The entire cellphone record of Lt General Dramat does show any interaction with the Zimbabwean counterparts. However the fact that Zimbabwean police might have entered the country is confirmed by photographs but there is no evidence that they were with Lt General Dramat. The photos show them with members of the TRT, Captain Maluleke and members of Crime Intelligence.*

ADDED new 1

CELLPHONE RECORD OF MAJOR GENERAL HLATSWAYO (0828051210)	
Reason for 205 application	**Findings**
To test the version that Captain Maluleke was reporting direct to Major General Hlatshwayo regarding cross border issues. During the interview with the said General she denied having known about the Zimbabwean police and requested us to do apply for 205 in order to clear her name.	*Her interaction with Captain Maluleke confirms her version that she did not know anything about the arrest and deportations of Zimbabwean Nationals. She was never at the scene or at Fourways Shopping center where the alleged planning took place.*

ADDED new 2 Maluleke & Hlatshwayo

CELLPHONE RECORD OF LT GENERAL LEBEYA (0825751899)	
Reason for 205 application	**Findings**
To verify the automated SMS send by Major General Sibiya and whether when he signed on one of the success report he had more information about the operation.	*The evidence shows that he did not know anything about the operation that led to the arrest of the Zimbabwean Nationals.*

ADDED new 3

CELLPHONE RECORD OF CAPTAIN MALULEKE (082 7729518)	
Reason for 205 application	**Findings**
To test the version of the witnesses who alleged that Captain Maluleke led the operations that led to the arrest of Zimbabwean Nationals.	*There is prima facie case against Captain Maluleke.*

DELETED

MS HI GSM

CELLPHONE RECORD OF CAPTAIN NKOSI, W/O MAKOE AND CONSTABLE RADEBE (0834373227), (0723050697), (0824198303) AND (0737313808)	
Reason for 205 application	Findings
To test the version of the witnesses who alleged that they were at the crime scenes and they took money and assaulted the Zimbabwean Nationals.	*The record confirms that they were at the scene even though the allegation of theft is not corroborated*

CELLPHONE RECORD OF LT COL MADILONGA (078 520 9741) AND (0713550548)	
Reason for 205 application	Findings
To test his version in which he alleged that he received a call from Captain Meluleke on 08/11/2010 regarding the deportation of Zimbabwean Nationals .	*Their interaction confirms the version of Madilonga.*

5.6 STATEMENTS OF SENIOR MEMBERS OF SAPS AND SECRETARIAT

Lt General Mkhwanazi A99: He will state that in late 2011 when he was an acting National Commissioner of South African Police Services, he heard on the news when Minister Radebe was commenting about the alleged death of Zimbabwean Citizens as a result of being handed to the Zimbabwean Authorities by South African Police Services. He immediately contacted the Head of the DPCI Lt General Dramat and inquired about the issue. Lt General Dramat confirmed that members of his unit did transport the Zimbabwean Citizens but as illegal immigrants. He then summoned Lt General Dramat to his office. Lt General Dramat came with an officer who was introduced to him as "Cowboy". He was informed that Cowboy was in charge of the group that transported the Zimbabwean Citizens. Cowboy said that he was investigating a case of ATM bombing which led him to the Zimbabwean Citizens. After he realized they were not linked to the case he decided to transport them to Beit Bridge because they did not have valid documents. Cowboy further said that he got valid deportation documents from Home Affairs before he could transport them. He will further state that he could not understand why Cowboy did not hand over the immigrants to Home Affairs. When he asked whether it was necessary to transport illegal immigrants, Lt General Dramat could not offer any explanation.

Lt General Lebeya A97: He will state that when he commented on the success report regarding the Zimbabwean Nationals arrested, he only did it as a practice. He will further state that Major General Sibiya has an automated messaging which includes his number wherein automated success report or information is sent. He cannot remember what all the messages were about, which he received on 05/11/2010.

Ms: Jennifer Irish-Qhobosheane A100: She will state that she is the Head of the Civilian Secretariat and the Secretary of Police. She became aware of the allegations

of renditions on 22/10/2011 when she saw an article in a Sunday Times newspaper entitled, "Journey to death in an unmarked car". The Minister requested a detailed response from the DPCI to be submitted to him in writing. She received two official responses in a form of information notes to the Minister. Based on the different information supplied to the Minister of Police, the Minster felt that the matter needed further inquiry to establish whether there is any evidence that the SAPS might have violated international laws and procedures and/or South African laws.

ADDED NEW 6

Warning Statement of Lt General Dramat A94/1: He will state that he is the Deputy National Commissioner of the South African Police Services. He unequivocally point out that at no stage during his correct role as the National Head of the DPCI did he ever personally authorize the unlawful and intentional depriving of a person liberty, or movement, and/or his custodians of control on any basis whatsoever.
He will further sate that never authorized anyone or sanctioned the kidnapping any of the Zimbabwean Nationals. He knows of no action that he took or authorize which was aimed at defeating the administration of Justice.

ADDED NEW 7

Warning Statement of Major General Sibiya A101: He will state that he was never appointed as the head of TCMS. However he received reports from his members regarding successes as routine. He was never part of the operation that arrested the Zimbabwean National who was wanted in connection with the murder of Zimbabwean Colonel in Zimbabwe.

Warning statement of Lt Col Mahlangu Mkuleke A88: He exercised his right to remain silent.

5.7 **STATEMENT ON HOW DIEPSLOOT Cas 390/07/2011 WAS INVESTIGATED**

A100 in original

Innocent Humbulani Khuba A102: He will state that he is a member of Independent Police Investigative Directorate base in Limpopo. On 23 October 2012 he received a case docket from Mr. Sesoko and appointment letter to conduct investigation in all cases of alleged assault against Major General Sibiya. The docket received is Diepsloot Cas 390/07/2012. He also received a copy of the letter which was sent to Mr Sesoko by Major General Sibiya complaining about the conduct of North West Task Team which was tasked to investigate cases against him including Diepsloot Cas 390/07/2012. He was informed by Mr Sesoko who was the National head of IPID of investigation that the reason he was appointed to be the new Task Team Leader was that Major General Sibiya complained against the North West Task Team. He was advised to assemble a team that would assist me in the investigation of these cases. The team assembled comprised of the following individuals, Mr Kenneth Ratshitali, Mr. L Maphetho, Mr N Mulaudzi and Mr T Mashaphu who are all investigators from Limpopo Provincial office. They worked under his guidance and took instructions directly from him as the team leader.

Upon his perusal of Diepsloot Cas 390/07/2012 and other accompanying documents, he discovered that the Independent Police Investigative Directorate received a complaint of alleged renditions involving members of the DPCI headed by Lt General Dramat from Civilian Secretariat. The case was reported as result of parliamentary

GSM

question by Cope Member of Parliament and an article by Sunday Times. The docket had following statements obtained by members of South African Police Services, the statement of Shepard Chuma, Maqhawe Sibanda, Nelson Ndlovu, Bongani Henry Yende, Petros Jawuke, Desmond Campbell, Alfred Ndoba, Andrew Mark Sampson, Reason Mhlawumbe Sibanda, Rachael Ncube, Brightness Nka Ncube, Madala Bhekisisa Nyoni and Sibongile Mpofu. There were also copies of Occurrence Book and cell Registers from Orlando police station regarding the detention and booking out of the following individuals, Dumisani Witness Ndeya, Nelson Ndlovu, Maqhawe Sibanda and Shepard Tshuma. There were also four Detention Warrants, four Deportations Notifications and a copy of Witness Ndeya's death certificate.

He took over the case for further investigation in terms of Section 206(6) of the Constitution of the Republic of South Africa which provides that, on receipt of a complaint lodged by a Provincial Executive, an Independent Complaints body established by the national legislation must investigate any alleged misconduct or offences allegedly committed by members of SAPS. It was also in terms of Section 28 (1) (f) and (h) of the Independent Police Investigative Directorate Act 1 of 2011 that the decision to investigate the case was made.

On 13 November 2012, a letter requesting an interview with Home Affairs officials and documents regarding the movement of people at Musina Bell Bridge port of entry was e-mailed to Mr. Ndlovu of the Deportation section at Home Affairs Head Office in Pretoria. On 08/02/2013 the permission was granted after he had a meeting with Mr. M Mathews, the Chief Director responsible for deportation and mending of Ports of Entry. Prior to the interview with Home Affairs officials, he visited Orlando Police station on 10/01/2013 and interviewed Brigadier Zangwa and other members stationed at Orlando. He received copies of the Occurrence Book and cell registers include a color copy of the Sunday Newspaper regarding the incident.

On 15/02/2013 he went to Home Affairs Department in Pretoria and interview Peter Ndwandwe and Nolwandle Qaba about the incident and process involved in the deportation of undocumented persons or illegal immigrants. He received a copy of DZP policy from Mr Ndwandwe and the Immigration Act. On 21/02/2013 he went to Soweto and obtained the statements of the following individuals, Johannes L. Broodryk, Patiswa Skosana and Job Jackson. Job Jackson who is the Manager of Lindela Holding facility for illegal immigrants gave him a printout of all people who were deported during the DZP period which covers the time of the alleged deportation of the Zimbabwean Nationals. The list is filed as A34 in the docket.

On 25/02/2013 he went to Bell Bridge and obtained a statement of Peter Elberg. He also gave him an example used copy of Notice of Deportation which is filed as A38 and Duty Rooster for the period 5 November 2010 to 13 November 2010 which is filed as per A40. On 26/02/2013 he went to Turfloop and obtained statement of Magret Mohlahlo, an Immigration officer whose stamp was allegedly used in the documents that resulted in deportation of Zimbabwean Nationals.

During the investigation of the case he visited the office of Lt General Dramat on 07/03/2013 and a meeting was held between Lt General Dramat and him. He will further state that at that stage the investigation had not uncovered any evidence relating to the involvement of Lt General Dramat or any other senior officer of DPCI. The meeting was held at Lt General Dramat's office which is located at Silverton.

During the meeting, Lt General Dramat was informed about the allegation of kidnapping and assault leveled against members of DCPCI most especially Captain Maluleke who is now a Lt Colonel. He said that he had sanctioned internal investigation in the matter and the outcome of the investigation cleared Lt Colonel Maluleke of any wrong doing. When I asked him whether they were any Zimbabwean police who visited the DPCI offices; he said that there were no Zimbabwean police who came into the country regarding the alleged matter and that all Zimbabwean Nationals were deported through Home Affairs for being illegal immigrants. Lt General Dramat was requested to provide statement with regard to the formation of TOMS, his knowledge about the DZP, source documents that informed the internal investigation, his report to parliament and knowledge about the involvement of Zimbabwean police in the operation of TOMS. He informed me that the request should be forwarded to Col Basi and he would hand all the necessary documents including his sworn statement to him.

On 07/03/2013, shortly after the meeting he generated and emailed a letter to Col Basi. On 19/04/2013 he met with Col Basi in front of the Interpol building on Pretorius Street in Pretoria. He handed to him a brown envelope containing following documents, cell phone records of Captain Maluleke, Lt Col Neethling and Major General Sibiya. There were also copies of sworn statements of, Willem Carel Stephenus Vorster, Andree Neethling, Captain Maluleke, Vincent Selotole, Major General Sibiya, Warrant Officer Makoe, Ndanduleni Madilonga and Warrant Officer Rodgers Nthlamu. Attached to the copy of the statement of Warrant Officer Nthlamu were copies of the following documents, Warrant of Detention (BI-1725) for the following individuals, Dumisani Witness Ndeya, Shepard Tshuma, Nelson Ndlovu and Maqhawe Sibanda. There were also four Notifications of the Deportation of an Illegal Foreigner (DHA-1689) for the following individuals, Nelson Ndlovu, Shepherd Chuma, Maqhawe Sibanda and Witness Ndeya. The Warrant of Detention and Notification of the Deportation forms attached to Warrant Officer Nthlamu statement appeared to be similar to the one received from Secretariat which were already part of the docket. The Warrants of Detentions and Notifications of Deportation received from Warrant Officer Nhlamu were the one sent to the Forensic Lab for analysis on 10/08/2013 and 21/08/2013. The documents given to him by Col Basi also include search result report from Interpol indicating that Dumisani Witness Ndeya, Nelson Ndlovu, Maqhawe Sibanda and Shepard Tshuma were not in the wanted list. However there was no statement of Lt General Dramat in the envelope handed to him. The documents handed to him are filed in the docket as per A41-A50.

In April 2013 he called Constable Radebe and Warrant Officer Makoe for the purpose of obtaining their warning statements. He never compelled anyone to implicate Senior Members of the DPCI. However, he informed them that they can arrange a service of a lawyer in order for them to be guided during the process. Shortly after speaking with them he received a call from Lt Col Maluleke who told me that he was not supposed to request warning statements from his people because on the day he arrested Zimbabwean Nationals he was the lead man and Constable Radebe and Warrant Officer Makoe were taking instructions from him. He informed him that he cannot answer on their behalf and that when his turn comes he will be informed accordingly. He will further state that on the day set for interview none of the above members came for the interview.

H1

G sm

On 08/04/2013 he interviewed Ndandulani Madilonga and obtained his statement. On 15/04/2012 he went to Bell Bridge and interview Col Radzilani and obtained her statement. The following day he interviewed Brigadier Makushu in Polokwane and obtained his statement.
On 27/06/2013 he interviewed Lt Col Neethling in his office and obtained his statement. On 29/06/2013 he met with Warrant Officer Selepe at East gate in Johannesburg and obtained his statement. After being provided with information regarding the arrest and the transportation of Pritchard Chuma to the boarder, Silverton and Alexander original SAPS 10 (occurrence books) were uplifted. Copies of the SAPS 10 are filed in the docket as per A57 and A58.

On 10/07/2013 he met with Ms. L Verster at Protea-Coin for the interview. She gave information regarding the success reports resulting from the arrest of Witness Ndeya and other Zimbabwean Nationals. She also assisted him by phoning Supply Chain of DPCI and obtained the serial number of Captain Maluleke's laptop which he used during 2010 and 2011. On the same day he generated a letter to Col Mabuyela who was assigned by Brigadier Kadwa to assist him with documents or items needed from the DPCI offices for the purpose of investigation. He hand-delivered the letter to Col Mabuyela on 11/07/2013, requesting the following things, Dell Laptop with serial number CNCUF242486436B13424 which was assigned to Lt Col Maluleke, approved overtime claims for Lt Col Maluleke for the following period 01/11/2010-31/01/2011, approved trip itineraries' for Lt Col Maluleke for the period 01/11/2010-31/01/2011, Telkom call record for Lt Col Maluleke for the period 01/11/2010-31/03/2011, record regarding the disposal and if not yet disposed, the handset used by Lt Col Maluleke, record of successes of operations conducted between 01/11/2010-31/03/2011 and logbooks of vehicles used by Lt Col Maluleke for the period 01/11/2010-28/02/2011. On 12/07/2013 he went to meet with Col Mabuyela and he received success reports which are filed as per A82/1-A83/3.

The success report filed as per A82/3 contains names of officials who assisted in the arrest of Gordon Dube who are members of TRT and Crime Intelligence. On 16/07/2013 he went to Johannesburg Central Police Station and obtained the statements of members of TRT. One of the members by the name of Avhashoni Desmond Takalani (A62/2) had photos at home of Johnson Nyoni and Zimbabwean Police. He went to his house on the same day and collected the two photos which are filed as per A62/1. On 18/07/2013, he emailed a letter to the Commander of Crime Intelligent Pretoria Central, Col Ntenteni requesting interview with his members who are mentioned is success report dated 04/02/2011 (A62/3). On 25/07/2013 he went to Crime Intelligence offices in Pretoria and obtained the statements of the members. The interview with the members also revealed that the arrest of Gordon Dube and Johnson Nyoni was also known by Brigadier Britz. On 16/07/2013 a letter was generated and emailed to Brigadier Britz requesting a meeting for the purpose of interview and obtaining statement. He interview Brigadier Britz on 26/07/2013 and after the interview Brigadier Britz promised to write his own statement. He collected Brigadier Britz statement from his office on 22/08/2013 which is situated at Old Stock Exchange building in Johannesburg. He also received Report number GO-D-004-D which is admission details of Gordon Dube from Correctional Services which is filed as per A84/3 and SAPS 206 (body receipts) filed as per A81-A82.
He also discovered that Gordon Dube was facing number of charges in South Africa including murder. Statements of Isaac Blamini and Avhashoni Rambau were obtained

In connection with Diepsloot Cas 93/01/2011 which they were investigating (A70 and A72). Original SAP 10 (Occurrence Book) was uplifted from Wierdabrug Police Station and copies are filed as per A71. Statement of Constable Meyer from Wierdabrug was obtained in relation to cases he was investigating against Gordon Dube and how he booked him out of prison and handed him to Captain Malulaka to be transported to Belt Bridge. He also obtained copies of the following dockets which are cases against Gordon Dube Diepsloot Cas 93/01/2011, Wierdabrug Cas 147/11/2010, Wierdabrug Cas 310/10/2010, Wierdabrug Cas 431/10/2010 and Wierdabrug Cas 531/12/2010. All the copies of the docket are filed under B22 (arch file).

On 16/07/2013, he received a Dell Laptop from Col Mabuyela and Warrant Officer Danie bearing serial number CNJF242864366L3424. The Laptop was handed to Precision Forensics on 31/07/2013 at 18h00. The report from Precision Forensic was received on 22/08/2013 and is filed as per A89 (arch file).

In October 2013 he approached the Head of DPCI accompanied by Mr. Sesoko who was an Acting Head of Investigation for IPID requested his warning statement. He was advised to seek an assistance of a lawyer for the purpose of guiding him before the warning statements is obtained. He agreed and informed them that he will telephonically contact Mr. Khuba regarding the suitable date. He will further state that he received a call from a person who introduced himself to him as Adv. P Seleka representing Lt General Dramat. He requested questions in writing and summary of the allegation which was e-mailed to him. After he received the questions, he was informed via e-mail that Lt General Dramat is represented by a new company and they will continue to liaise with him. He emailed the questions and after two weeks he received a copy of his statement and is file as per A94.

On 22/10/2013 he called Lt General Lebeya and requested an interview with regarding Renditions as his name appears on one of the success reports. On 23/10/2013 he met with Lt General Lebeya and interviewed him about the deportation of Zimbabwean Nationals in connection with the death of senior officer in Zimbabwe. After the interview he requested that he send questions in writing and that he would be able to respond to them. The questions were drafted and emailed to him the same day. On 07/11/2013 he received a call from his office to collect his statement including accompanying documents. The following documents were attached on his statement, copy of e-mail regarding documents requested from DPCI, mandate of TOMS, unsigned success report regarding Witness Ndeya and other success reports not related to the Diepsloot Cas 390/07/2012.

In November 2013 he engaged Captain Boonstra to arrange for a meeting between him and the two officers, Constable Radebe and Warrant Officer Makoe. Captain Boonstra informed him telephonically that he informed Warrant Officer Makoe and that Constable Radebe was attending training at Hamanskraal. He tried to contact him on 0737313808 for a warning statement but he was not reachable. In late November 2013, he again requested Captain Boonstra to assist but he informed him that the members were informed and they do not want to cooperate.

On 02 December 2013 he requested Principal Investigator Mr Mdunge based at East London IPID office to obtain a statement of Bongani Moyo who is serving his sentence at Kokstad Correctional Services A98. On 21/12/2013 he requested Mandla Mahlangu who is a Principal Investigator based in Gauteng IPID office to obtain a statement of a former acting National Commissioner Lt General Mkhwanazi A99. On 17/02/2014 he obtained a statement of the Secretary of Police Ms J Irish-Qhobosheane and is filed as

per A100 with the attachments of her internal inquiry. I also obtained the results of Lt Col Madlongo's statement analysis from Precision Forensics.

During the investigation of the case no one was either intimidated or assaulted. He never requested or forced any witness to implicate any person.

6. ANALYSIS OF EVIDENCE AND FINDINGS:

The operation carried out by TOMS to arrest Zimbabwean foreign nationals in Diepsloot in connection with the murder of Zimbabwean police Colonel was led by Captain M.L Maluleke also known as Cowboy.

Captain Maluleke was appointed as the head of cross border desk at the DPCI office to assist in the coordination and apprehending of cross border crimes fugitives. In this responsibility he manns the desk alone thereby forging very strong ties with the law enforcement agencies of the neighboring countries such as Zimbabwe and Mozambique. His unique role and the fact that he was based at DPCI head office gave him the respect that even officers at the ranks of colonels and captains carried out his request without questions. This is corroborated by Lt Colonel Neethling who stated that he was requested by Captain Maluleke to assist in both tracing of the Zimbabwean Nationals and providing escort for their transportation to Beit Bridge border. He further stated that he felt obligated to assist because Captain Maluleke was based at DPCI head office and responsible for Cross border desk. During the interview with Ms. Leonie Verster who was the direct commander of Captain Maluleke, she stated that Captain Maluleke carried out his responsibility on cross border desk without supervision from her and she did not know much of what was happening. Captain Boonstra who worked under the command of Lt Col Neethling also stated that the operation which led to the arrest of Zimbabwean Nationals was led by Captain Maluleke. He inquired about the case number which the Zimbabwean nationals were sought for and a Bulawayo case number was given to him. Captain Nkosi corroborates many of Gauteng TOMS members that his participation in the operation was as a result of Captain Maluleke's request.

However the important question to ask is whether a crime was committed in the arrest and deportation of Zimbabwean national. The documents sourced from Interpol clearly outline the procedures which are to be followed by any law enforcement agency of any country if they want suspect/s who are in another country. During the Interview with Warrant Officer Kgomo of Interpol coupled with the search done on Interpol database, it was established that procedures were not followed since the Zimbabwean Nationals arrested were not on the list of wanted fugitives and no warrants were issued in their names. The following evidences were found and can be analyzed as follows,

- ***The arrest of Dumisani Witness Ndeya, Nelson Ndlovu, Maqhawe Sibanda and Shepard Tshuma on 05/11/2010.***

The operation that led to the arrest of Dumisani Witness Ndeya, Nelson Ndlovu, Maqhawe Sibanda and Shepard Tshuma was led by Captain Maluleke with a backup of the Gauteng TOMS members and Crime Intelligence. None of the participants in the operation ever stated that a request was made by any senior official of the DPCI requesting them to assist Captain Maluleke. The statements of members of Crime Intelligence who participated in this operation corroborate each other in that the group firstly met at Fourways Shopping Centre. The TOMS AVL

also confirms, backed by the cellphone records of Captain Maluleke and Warrant Officer Makoe. However the claims made by Bongani Henry Yende (A4), Petros Jawuke (A5) and Desmond Campbell (A6) that Major General Sibiya was at the planning venue (Fourways Shopping Complex) could not be substantiated. The cellphone record of Major General Sibiya were analyzed by an expert and indicated that at the time of the alleged planning, Major General Sibiya was in Pretoria. None of the witnesses who claim that Major General Sibiya was at Fourways ever saw him in person but allude that they were informed by Warrant Officer Makoe that Major General Sibiya was in the blue BMW. This information highlights the depicting false picture that can be created by hearsay evidence. It is immaterial of how many people heard Warrant Officer Makoe saying that Major General Sibiya was in a blue BMW at Fourways Shopping Center but the evidence from the analysis of his cellphone records proves otherwise.

After planning at Fourways shopping Centre, Captain Maluleke went Diepsloot where two Zimbabwean Nationals were arrested. Other members who assisted Captain Maluleke in the arrest of Zimbabwean Nationals cannot be charged of any crime of kidnapping because they were rendering assistance to a normal police operation without any prior knowledge whether Captain Maluleke followed the procedures required in the arrest of a fugitive wanted by the law enforcement agency of another country. It also need to be proven that Captain Maluleke new that the Zimbabwean Nationals were wanted by the Zimbabwean police and deliberately arrested or requested assistance in their arrest without following the correct procedures as required in terms of the law.

Shepard Tshuma (1) stated that one of the officer known as 'Leburu' took his wallet which was in his back pocket and removed R300-00. Constable Radebe was identified by other members of Crime Intelligence as "Leburu" and together with Warrant Officer Makoe carried out assaults on Zimbabwean Nationals while they were lying down. There was nothing wrong for Constable Radebe known as 'Leburu' and Warrant Officer Makoe to provide assistance to a police operation but stealing money and carryout assault on anyone constitute both theft and assault. However it is important that the version of the victim be corroborated in order to sustain a prima facie case against Warrant Office Makoe and Constable Radebe. From the available evidence it is clear that there is corroboration that Zimbabwean nationals were assaulted, but there is no medical evidence to prove such. It is also noteworthy that members of the DPCI contradict members of Crime Intelligence who corroborates the victims. If the assault did take place, it could also have been witnessed by members of DPCI. If the members of Crime Intelligence witnessed the assault why did they not stop it, or even immediately report what they witnessed. Because they had legal duty to act, the credibility of their version becomes questionable.

There is also insufficient evidence to prove that Constable Radebe took money from Shepard Tshuma. In addition Maqhawe Sibanda (A2) claim that the police took his R500-00 but the identity of the officer who took the money is unknown.

Shepherd Tshuma (A1) stated that at the time of their arrest, Major General Sibiya alighted from the black BMW and came to where they were lying. This version is disapproved by the cellphone records of Major General Sibiya which shows that at the time of the arrest he was not at the scene. It is also inconsistent with the evidence provided by Petros Jawuke (A5) and Desmond Campbell (A6) who stated that they heard that General Sibiya was in a blue BMW and did not see him in person. Captain Boonstra and Lt Col Neethling corroborate each other in that

MS HI GSM

while they were aware of the presence of Zimbabwean police at the scene, Major General Sibiya was not at the scene. After the four Zimbabwean Nationals were arrested, they were taken to Orlando police station where they were detained. With specific reference to OB 276 to 279 (A8), entries made from 04h10 of 08/11/2010 to 12h00 of the 08/11/2010 confirm that Captain M L Maluleke of the DPCI with force number 0622729518 arrested Dumisani Witness Ndeya, Nelson Ndlovu, Maqhabane Sibanda and Shepard Chuma. Again with specific reference to OB 429 (A9), entry made at 11h00 of 08/11/2010 confirm that that Captain M L Maluleke of the DPCI with cell number 0827729518 booked out Dumisani Witness Ndeya, Nelson Ndlovu, Maqhabane Sibanda and Shepard Chuma to Beit Bridge. The telephone records of Captain Maluleke also show his movement from Orlando Police station until Beit Bridge in Musina. The statement of Lt Col Ndandulani Madilonga and his cellphone records confirms that he received a call from Captain Maluleke when he was approaching Musina on 08/11/2010. According to Lt Colonel Madilonga (A51) he assisted Captain Maluleke to cross the border and the two Zimbabwean Nationals who were in the vehicles were handed to the Zimbabwean police.

The documents used in the deportation of the Zimbabwean Nationals were part of the internal investigation conducted by Warrant Officer Nthlamu (A80). In his statement he outlined the documents received from Captain Maluleke as four warrants of detentions and four notices of deportations. The documents which the Captain Maluleke claimed to be valid Home Affairs documents used in the deportation of the four Zimbabweans appear to have been forged as they have employee number that does not exist in the Home Affairs Department. The Warrant of Detention of Illegal Foreigner (BI-1725) document was produced by Captain Maluleke as a proof that Shepard Chuma, Witness Ndeya and Nelson Ndlovu and Maqhawe Sibanda were detained for being illegal foreigners and they were seen by an Immigration Officer. However the signature that appears on the documents does not belong to any member of Home Affairs in Gauteng and the appointment number 037152 does not exist.

Poliswa Skosana (A31) an Immigration Officer stated that BI-1725 used was discontinued in 2008 and in 2010 it was no longer part of the official documents of Home Affairs. The stamp on four documents according to the handwriting expert, shows that whosoever completed the documents used an old form already completed and deleted affiliated information to put the new information of the four foreign nationals. The Notification of the Deportation of an Illegal Foreigner (DHA-1689) documents were produced by Captain Maluleke as proof that Witness Ndeya, Nelson Ndlovu, Shepard Chuma and Maqhawe Sibanda were deported through Beit Bridge border. According to Peter Elberg (A37) the forms were wrongly stamped and do not have fingerprints of the deportees as required.

The stamp number 20 belonging to Beit Bridge was used and such stamp is not for deportation purpose. According to Immigration Officer Kobelo Margret Mohlahlo (A39) the stamp is individualized and belong her and on 08/11/2010 she was off duty and the stamp was locked in the safe. This is confirmed by the duty roster which clearly shows that on the 7th and 8th of November 2010 Immigration Officer Kobelo Margret Mohlahlo was off duty. The stamp could have been easily duplicated.

The letter retrieved from Captain Maluleke's laptop provides a vital clue that his engagement in the operation did not receive the blessing of his superior. The letter was addressed to the Director General of Home Affairs requesting assistance in

the Deportation of the Zimbabwean nationals involved in the murder of Zimbabwean police. Protocol dictates that a letter to such a senior person in the Home Affairs department could not have been signed off by an officer at a rank of Captain but could have needed the head of the DPCI. However the letter retrieved clearly shows that Captain Maluleke was the author and he also wrote his name as an approving authority of the request. In addition when the renditions issue hit the media at the end 2011, acting National Commissioner of the South African Police Services Lt General Mkhwanazi (A99) called the head of DPCI Lt General Dramat to explain what happened. Lt General Dramat attended the meeting with Captain Maluleke and for the entire duration of the meeting, Captain Maluleke explained why he arrested Zimbabwean Nationals. If Lt General Dramat had full knowledge of the purpose of the arrest, he could have provided explanation or justification during the meeting thereby convincing the acting National Commissioner that the operation was both lawful and necessary. It is in the same breath that Captain Maluleke provided a report to Lt General Dramat which was used as a basis to respond to a parliamentary question.

- ***The arrest of Prichard Chuma on 23/11/2010***

On 23/11/2010 and operation led by Captain Maluleke was carried out at Diepsloot and Soweto in search of Prichard Chuma who was wanted in connection with a murder of Zimbabwean police Colonel. The investigation did not gather much in relation to the arrest of Prichard Chuma. However the statement of Lt Col Neethling, Captain Nkosi and Warrant Officer Selepe are at the center of the arrest and deportation of Prichard Chuma. In this operation Desmond Campbell (A6) and Petros Jawuke claim that Major General Sibiya was involved. Desmond Campbell stated that he saw a person seated in a BMW whom Warrant Officer Makoe referred as Major General Sibiya. It is clear that members of Crime Intelligence had been trying hard to pull Major General Sibiya into the operation. This can be deduced from the following quotations in their statements, "I saw a figure in a BMW and Warrant Officer Makoe referred to him as General Sibiya" and "I heard that General Sibiya was in a blue BMW". These remarks justify the drawing of an inference that members of crime intelligence tried hard to implicate Major General Sibiya, most especially because his cellphone records provide concrete alibi that he was not at the crime scene.

The involvement of Captain Maluleke in the arrest and transportation of Prichard Chuma provide for a prima facie case of kidnapping. With specific reference to an OB entry dated 22/11/10 (A57/1) made on 22/11/2010 Captain Nkosi booked in Prichard Chuma at Alexandra Police Station. However Nkosi wrote the name and contact numbers of Captain Maluleke as the person who is the Investigating Officer of the case. In his statement he stated that he was personally requested by Captain Maluleke to detain Prichard Chuma at Alexandra Police station.

With specific reference to OB entry dated 23/11/2010 (A57/2)) Warrant Officer Selepe booked out Prichard Chuma from Alexandra Police station for a Bulawayo case. He confirmed in his statement that he was requested by Lt Col Neethling to assist Captain Maluleke. Lt Col Neethling corroborates Warrant Selepe in that he was requested by Captain Maluleke to provide assistance and requested one of his members. Warrant Officer Selepe stated that he transported Prichard Chuma with Captain Maluleke on 24/11/2010 to Bell Bridge. The version of Warrant Officer Selepe is corroborated by cellphone records and lineraries of Captain Maluleke.

MS HI GSM

Maluleke. Captain Maluleke was with two male persons and a female who were introduced as members of Crime Intelligence. Captain Maluleke informed them that there was a person who committed serious cases in Zimbabwe and he is very dangerous. After the arrest of Johnson Nyoni, he was taken to DPCI head office in Silverton. At the DPCI offices photos were taken and members of TRT and Crime Intelligence corroborate each other in that regard. However Constable Mkasibe stated that Lt General Dramat came to house number 3 from house number 1 and addressed them. There were six members of TRT and none of them ever mentioned the incident. If is true that he addressed them, other people could have had a recollection of the incident more so because Lt General Dramat is the head of the DPCI. According to Constable Mkasibe and Constable Mugwenya, Lt General Dramat was with Colonel Potelo when he addressed them but Colonel Potelo cannot remember such event. It is clear that the version Mugwenya and Mkasibe are not corroborated and therefore do not provide basis for a prima facie case against Lt General Dramat.

However there is corroboration in that Captain Maluleke was the driver of the operation that led to the arrest of Johnson Nyoni. He met with members of Crime Intelligence and tasked them to look for Johnson Nyoni after they successfully traced and arrested Gordon Dube. The OB book at Moot Police station clearly shows that John Nyoni was booked in by a member of TRT and booked out by Captain Maluleke.

The Zimbabwean Nationals were arrested and detained during DZP period which gave the Zimbabwean grace period of 90 days to apply for valid documents. During the DZP which is Dispensation for Zimbabwean Projects, all Zimbabweans were given 90 days to stay in the country in order to apply for legal documents and surrender illegally obtained South African ID's without consequence. The project according to Home Affairs started on 20 September 2010 and ended in 31 December 2010 with extension which ultimately ended in July 2011. The letter retrieved from Captain Maluleke's laptop addressed to home affairs requesting assistance in the Deportation of the Zimbabwean nationals involved in the murder of Zimbabwean police (dated 08/11/2010) was generated on 08 November 2010 shortly before he booked out the Zimbabwean Nationals out of Orlando Police station. It is doubtful that the permission was acquired given the time at which the Zimbabwean Nationals were booked out. In addition, he cited the DZP as a challenge in the deportation of Zimbabwean Nationals and he wanted assistance from Home Affairs. This does not only show that he was aware of the Dispensation for Zimbabwean Projects which gave Zimbabwean nationals a grace period, but also that there was ulterior motive way above deportation on the basis of being illegal immigrants.

The e-mails retrieved from Captain Maluleke's laptop also show communication with Zimbabwean police where he asked them about the trip going back home and that he would continue to trace remaining suspects. He also exchanged photographs with them of the suspects and the team involved in the operation.

The overtime claim of Captain Maluleke corresponds with the dates on SAP 10's from various stations regarding the booking out of the Zimbabwean nationals. On 08/11/2010 he transported Zimbabwean Nationals to Beit Bridge. The itinerary shows that on 08/11/2010 he went to Beit Bridge and came back on 10/11/2010 and claimed a total of R1845-00. On 24/11/2010 he went to Beit Bridge and came back 26/11/2010 and claimed a total of R1845-00. On 28/01/2011 he went to Beit Bridge and claimed a total of R552-00. The records also correspond with his cellphone movement as depicted by towers recordings.

GSM

7. FINDINGS

- The IPID investigation established that Captain Maluleke led the operation that resulted in the arrest of Zimbabwean nationals wanted in connection with the murder of a Zimbabwean senior police officer. The evidence gathered clearly shows that the Zimbabweans Nationals were not wanted in connection with ATM bombing as initially claimed and they were not deported for being illegal immigrants.
- There is overwhelming evidence that Captain Maluleke was not only the lead person but also used his position of being the only member of the "Cross Border Desk" to acquire cooperation in an operation he knew that it did not follow the legal procedure.
- It was found that the claim made by Shepard Tshuma that Constable Radebe took his R300-00 could not be corroborated. Maqhawe Sibanda (A2) also made a claim that the police took his R500-00 but the identity of the officer who took the money is unknown.
- There are contradictions with regard to assault by Captain Maluleke, Captain Nkosi, Warrant Officer Makoe and Constable Radebe.
- It was also found that the senior members of DPCI could not have known that Captain Maluleke did not follow procedures as it is the duty of the officer in question to comply with the legal imperatives of the particular operation. He generated a letter to the Director General of Home Affairs and still put his name as an approving authority thereby confirming that he did not want his seniors to either know or become aware of his activities.
- The success report that claim that Lt General Dramat had a meeting with the Zimbabwean police lacks detail about the meeting itself. There is no indication of what was discussed and who was part of the meeting. It is on that basis that a prima facie case cannot be premised on speculation, but need corroborated facts.
- The evidence that suggest that Major General Sibiya was at the scene during the arrest of Zimbabwean nationals is contradicted by cell phone evidence that suggest he was nowhere near the scene. It is clear that members of Crime Intelligence had been trying hard to pull Major General Sibiya into the operation. This can be deduced from the following quotations in their statements, "I saw a figure in a BMW and Warrant Officer Makoe referred to him as General Sibiya" and "I heard that General Sibiya was in a blue BMW". The cellphone record of Major General Sibiya was acquired and analyzed by an expert, it was discovered that at the time the witnesses claim that he was at Fourways Shopping Centre, he was in Pretoria.
- There is no evidence for the involvement of Former General Mzwandile Petros. However he addressed a letter dated 31/05/2011 to Provincial Head of Crime Intelligence in Gauteng appreciating the good work that members of Crime Intelligence have done when they arrested Zimbabwean nationals involved in the murder of Senior Police Officer in Zimbabwe. The letter was as a result of a request made by Former General Toka of Crime Intelligence requesting General Mzwandile Petros to appreciate members of Crime Intelligence.
- There is also no evidence that suggest that Lt General Dramat, Lt General Toka, Lt General Lebeya and Major General Hlatshwayo were involved.

8. RECOMMENDATION

Based on the available evidence, the Independent Police Investigative Directorate recommends that no charges should be brought against Lt General Dramat and Major General Sibiya. The investigation established that there is no prima facie case against them. However with regard Lt Col M Malulekе, there is a prima facie case to sustain charges of kidnapping and defeating the ends of justice.

INTERNAL MEMORANDUM

TO : ADV M A CHAUKE
DIRECTOR OF PUBLIC PROSECUTIONS

FROM: Z J VAN ZYL SC
DEPUTY DIRECTOR OF PUBLIC PROSECUTIONS

SUBJECT: DIEPSLOOT CAS 390/07/2012'

DATE: 27 JUNE 2014 how did Van Zyl get told it was best "dealt" with by DPP North Gauteng - if it only went there in January 2015!

Dear Sir

1 You handed me the above matter and an internal memorandum dated 14 February 2014 from Adv M Mosing (Special Projects Division) sometime late in February 2014. You will recall that I had a quick look at it and indicated a provisional view that the matter is best suited to be dealt with by our Head Office. That opinion was based on the clear international ramifications of the matter. I furthermore indicated that I required some time to study the content of the 6 lever arch files and another thinner file to confirm my provisional view.

2 Before I could do this, I was approached by Mr I H Khuba (who introduced him to me as the investigating officer from IPID with cell no 084 702 2741). Mr Khuba was accompanied by his colleague Mr Glen Angus (with cell no 0835655320).

3 These gentlemen approached me on 7 March 2014 in my office. Mr Khuba explained to me that he needed the whole docket for further investigation and that they would return the files on Friday 14 March 2014. I insisted that they both sign for the docket, which they did. They also supplied their contact details and I handed all the files to them. The files were not returned to me as agreed and I was not contacted by them. * *

4 I approached the representative of IPID who attended our "police meeting" on 8 May 2014 about the whereabouts of the docket. He said that he was unaware of the matter. I then gave him the names and

GSM

contact details of Messrs Khuba and Angus, as well as my contact details. Nothing happened.

5 I phoned both Messrs Khuba and Angus on 30 May 2014 and left messages enquiring about the whereabouts of the docket. I received a message from Mr Khuba that the matter had been returned to our Head Office. I managed to get hold of Mr Khuba on 18 June 2014 and he informed me that Mr McBride had taken a decision that the matter "... had to be returned to the NDPP". He said that there had been a meeting with the NDPP and the matter was then returned there. I wanted to know who the docket had been handed to. He said that he would find out. It bothered me that the investigating officer could not supply this information.

6 I then phoned adv Mosing and could not get hold of him. I also phoned Adv BT Moeletsi who had apparently drafted the internal memorandum dated 13 February 2014. Adv Moeletsi re-called the matter, but knew nothing about the whereabouts of the docket.

7 I phoned Mr Khuba on 23 June 2014 and asked him why he lied to me when he uplifted the docket. I told him that they never intended to return the docket. He said that he still had one thing to do. He denied lying to me, but did not deny that they never intended to return the docket to me, despite me making that statement several times. Mr Khuba stated that docket had been handed to "... the NDPP's secretary" but he could not provide any name.

8 I phoned and managed to get hold of Adv Mosing on 27 June 2014. Adv Mosing stated that the docket had not been returned to him. All he further knew was that the decision that the matter had to be dealt with in this division was taken by Adv Jiba DNDPP and that he had about 3 weeks ago received a telephonic enquiry about witnesses who were being protected in this matter. He was then told that the matter was now being dealt with in North Gauteng office of the DPP.

9 I am worried about the whereabouts of the docket as it had been uplifted from me under seemingly false pretenses, as I was also not later informed that it would not be returned to me or this office and as the people who drafted a report for the DPP of this office do not have any information about its whereabouts. I think that it would be prudent to establish from the NDPP Mr Nxasana that the docket did indeed reach his office.

10 I appreciate that this may be much to do about nothing, and that everything is fine, but prefer to be rather safe than sorry.

Kind Regards

Z J VAN ZYL SC
DEPUTY DIRECTOR OF PUBLIC PROSECUTIONS
GAUTENG LOCAL DIVISION, JOHANNESBURG

ANNEXURE "A" **Case no: A16/212 /2016**

THE STATE VERSUS

1. **HUMBULANI INNOCENT KHUBA**
2. **MATTHEWS SESOKO**
3. **ROBERT McBRIDE**

(Hereinafter referred to as accused 1 – 3 respectively)

Count No. 1

FRAUD

Whereas Accused 1 had received instructions from the former Acting Executive Director of the Independent Police Investigative Directorate (IPID) around October 2012 to conduct an investigation into the rendition of Zimbabwean nationals by members of the Directorate for Priority Crimes Investigations (DPCI) to Zimbabwe;

AND

Whereas Accused 1 had conducted an in-depth investigation into the said rendition of Zimbabwean nationals by members of the DPCI with the assistance and or co-operation of other institutions such as the National Prosecution Authority (NPA), who were providing guidance to the investigation;

AND

GSM

Whereas Accused 1 having finalised the said investigation into the illegal rendition of the Zimbabwean nationals, compiled a report (herein referred to as the First Report) and submitted it to the National Prosecution Authority (NPA) on 22 January 2014. The First Report recommended to the National Prosecution Authority in accordance with Regulation 5(1) issued under the IPID Act 1of 2011 that:-

- Lt General Dramat
- Major General Sibiya
- Lt Colonel Maluleke
- Constable Radebe
- Captain Nkosi and
- Warrant Officer Makoe

be charged criminally for the following offences:-

- Kidnapping and
- Defeating the ends of Justice;

There was a further recommendation that Lt Colonel Maluleke, Warrant Officer Makoe, Captain Nkosi and Constable Radebe be charged for assault and theft;

AND

Whereas Accused 3 subsequent to his appointment as Executive Director of the IPID on 3 March 2014 requested an update on all high profile matters handled by the IPID including the rendition matter, Accused 1 and a witness were directed and or instructed by Accused 3 to retrieve the rendition docket from the South Gauteng NPA office on 7 March 2014,

GSM

Therefore the accused are guilty of the crime of fraud

IN THAT on or about the **5th day of March 2014 to 8 April 2014** and at or near IPID National Head Office, in **Pretoria** in the Regional Division of Gauteng, the Accused, unlawfully altered the First Report by amongst others:-

- removing information linking Lt General Dramat and Major General Sibiya from Pages 9, 16, 20, 21, 28 and 30 of the First Report;
- adding certain new paragraphs on Pages 23, 24, 25, 26, 29 and 30;
- changing the recommendation from the one mentioned above to recommending that "no charges should be brought against Lt General Dramat and Major General Sibiya. The investigation established that there is no prima facie case against them".

  AND

- continued to make assertions and averments in other judicial processes that Lt General Dramat and Major General Sibiya were exonerated from any liability in the rendition of Zimbabwean nationals' matter,

Whereas Accused 3 knew when he made the assertions and averments in other judicial processes that he had no legal authority to exonerate anybody from any liability,

GSM

with the intention to falsely present to the National Prosecution Authority that the said Lt General Dramat and Major General Sibiya are not implicated in the rendition of the Zimbabwean nationals when in fact the accused knew when they made such false representations that there was evidence in the docket and the First Report, which implicated Lt General Dramat and Major General Sibiya in the said rendition of the Zimbabwean nationals,

thereby produced the Second Report which was completed on 8 April 2014 and submitted to a different NPA office and to the potential prejudice of the National Prosecution Authority in particular and or the administration of justice in general.

GSM

ANNEXURE "B" **Case no: A16/212 /2016**

THE STATE VERSUS

ALLEGED CONTRAVENTION OF THE INTERCEPTION OF COMMUNICATIONS ACT 1992: BROOKLYN CAS 427/5/2015: BRIGADIER XABA

1. The case docket has been perused.

2. It has been decided to decline prosecution. The following are some of the considerations:

It appears that Mr McBride was performing functions in terms of section 29(2) and 33 of the IPID legislation after a formal complaint was submitted to his office by General Sibiya who had suspicions that the two (2) officials from Crime Intelligence who visited the DPCI offices in Gauteng, where he was based prior to his suspension, were looking for a device which has recorded information that could implicate him in any wrong doing. When he could not ascertain what the purpose of the visit to his office was from his lawyers, he decided to ask IPID to conduct the investigation.

Although the IPID Act empowers the Directorate to enter the premises of any police offices and seize documents or objects which could be used in the investigation of possible offences, Crime Intelligence of the SAPS have certain procedures that must be complied with to seize related objects. The Data 6 device was taken by IT officials in the offices of Mr McBride and taken straight to the offices of State Security to determine the capabilities of the device. It was found that it does not store information, it only encrypts from the sender and decrypts at the receiver of information. The device was in any way discontinued within the SAPS and replaced with the Secure e-mail application.

GSM

It is clear that the IPID Head had no intention to deprive the police of the equipment permanently; the idea was to pursue an investigation. There was no intention to defeat the ends of justice and to commit theft.

3. The case docket Brooklyn CAS 427/05/2015 is returned herewith.

Dear Minister

TO FUND AN INTELLIGENCE CAPABILITY WITHIN NIA IN SUPPORT OF SARS

1. **PURPOSE**

To seek approval to fund a special capability within NIA to supply SARS and law enforcement with the necessary information to address the illicit economy.

2. **DISCUSSION**

2.1 Collecting tactical intelligence invariably means penetrating and intercepting organised criminal syndicates. This is an activity for which SARS does not presently have the capability (including the legislative mandate to manage clandestine activity).

2.2 Discussions are taking place with National Intelligence to supplement SARS intelligence capability. NIA is willing to create a ring fenced capability, provided funds are made available to cover personnel costs. All other costs will be covered by NIA. NIA is willing to formalise the above-mentioned arrangement into a MOU.

2.3 We therefore request that NIA's budget be increased to fund the creating of this special capability.

2.4 The estimated personnel costs are as follows:

2007/2008	R13,1 Million
2008/2009	R17,2 Million
2009/2010	R18,6 Million

BROOKLYN CAS 427/05/2015

PIETER LESLEY JONKER sates under oath in English

1.

I am an adult male, 47 years of age with ID number 681002 5261 088, residing at No 4 Brits Avenue, Wierda Park Centurion. I am employed as the head of operations for Manitou South Africa, No 122 Plane Road, Spartan, Kempton Park with contact number (011) 975 7770. I can also be contacted at 082 828 6711.

2.

During the period from 2000 to 2008 I was employed as a Senior Special Investigator, assigned to the Directorate Special Operations at the office of the National Director Public Prosecutions, VGM Building, Weavind Park, Pretoria with telephone (012) 845 6000. I was attached to the Special National Projects Unit and reported directly to Mr Andrew Leask.

3.

On 18 September 2015, I was interviewed by members of the Directorate for Priority Crime Investigation, better known as the Hawks. I was informed that they are busy conducting an investigation, Brooklynn CAS 427/05/15 whereby The South African Revenue Services better known as SARS is the complainant. I was further informed that the investigation was not directed at someone specific and that the investigation was dealing with the misappropriation of government funds. I was told that I am not a suspect and that the interview was aimed at trying to establish the way in which certain claims relating to the Scorpions C Funds were done and dealt with. I was told that they were in possession of documentation and information showing that I was directly involved with certain claims and wanted to know what role I played.

4.

I was shown a C Fund claim (Request for Advance) dated 22 June 2007 with reference number 19/07 and asked whether I could remember this claim. I recalled this claim as I was the person who had compiled the claim and signed it off before it was presented to Mr. Andrew Leask for recommendation. The claim was recommended and sent to Advocate Sipho Mlambo who in turn recommended the claim and forward it for processing. This all happened on the same date, 22 June 2015

5.

I was handed more documents relating to the mentioned claim which were marked annexure "A" and annexure "B". Annexure "A" related to a document from Protech Security Services and indicated the equipment that had to be procured. The document depicted a number of equipment, codes and amounts which I cannot remember. I was asked if I knew who this company was and responded by saying that I knew that the owner was an adult male known to me as Helgaard Lombard. He was the same person who supplied and installed the equipment.

GSM

BROOKLYN CAS 427/05/2015

PIETER LESLEY JONKER sates further that:-

6.

Annexure "B" I recall as a document from advocate Welsh recommending certain covert equipment to be procured as part of this claim. I am satisfied that all the equipment procured was delivered to the DSO.

7.

I was shown an internal letter from the then Head of Operational Support Advocate John Welch to Mr. Andrew Leask dated 22 June 2007. I cannot recall the exact contents of the letter but do recall that the correspondence referred to Project Bad Guys and formed part of the claim. I was also shown a letter from the Operational Head of the Scorpions Advocate Thanda Mngwengwe to Mr. Andrew Leask dated 22 June 2007. I cannot recall the details of the communication as I have not been placed in possession of this or any of the other documents.

8.

I was also shown a document indicating that I had signed on three different occasions for cash mounting to the amount of R 1 426 382-26, relating to the claim mentioned above. The document that I was shown indicated that I received an amount of R 460 000-00 on 10 July 2007. Further to this, I also received R 960 000-00 on 17 July 2007 and a third amount of R 6 382-26 on 15 August 2007. Added up, this amounts to an amount of R 1 426 382.26. I confirm that the signatures on the document is mine and that the money that I have signed for was handed over to the person/s who made payment.

9.

Further to this, I was asked about tender procedures and how processes should work when equipment is acquired. This claim relates to the procurement of covert equipment and covert services and in my view could never form part of an open tender process.

10.

I have no reason to suspect that anything untoward regarding this claim was done. This claim was approved by the head of the Directorate of Special Operations and the chief financial officer.

11.

I know and understand the contents of the above written statement.
I have no objection to taking the prescribed oath.
I consider the prescribed oath to be binding to my conscience.

Affidavit

I, the undersigned, Helgard Lombard, do hereby state under oath that I am an adult male with Identity Number 570817 5018 087, and 57 years of age, employed by the South African Revenue Service (SARS) and am attached to the Physical Security and Protection (Support) unit, whose offices are situated at Riverwalk Office Park, Block A, Corners Garsfontein and Matroosberg Road, Ashlea Gardens, Pretoria, with telephone number (Office) 012- 340 3126.

Installation of Security Equipment at the Offices of the Directorate Special Operations (DSO) during 2007

BACKGROUND

I was appointed at SARS on 01 March 2007 by Andries Janse van Rensburg also known as Skollie and Charl Fourie, who represented SARS at that time. I formed part of the surveillance capability that SARS introduced to conduct surveillance and special operations on tax evaders.

During April or May 2007, Skollie asked me whether it will be possible to plant eavesdropping equipment in one of the DSO's offices. I told him that it would be difficult but possible providing that he obtains the necessary approval in accordance to RICA Act, Act 70 of 2002. The conversation ended on this note.

ENQUIRY

Skollie called me one day in June or July 2007 and told me that the DSO contacted him out of the blue for a quotation to install security systems in their offices. They needed to install ten or eleven of these systems because they were sure that the SA Police Service (SAPS) got into their offices to gain access to sensitive documents. Skollie made an appointment for us to meet with Adv. Gerrie Nel and Andrew Leask, Head of the Special Investigation unit at the DSO.

They told us that the following security equipment needed to be installed in order to detect intrusions in time, to remotely view it and to have record of it should it be necessary:

Initial request

a. CCTV cameras, overt and concealed cameras complete with digital video recorders and microphones.

GSM

A34

b. Equipment to monitor these CCTV cameras remotely, i.e. GSM 3G-routers and remote viewing software to be used with cellular telephones. The cellular telephones were to be included.
c. Audio recorders, headphones and switches to remotely activate the microphone and recorder. This was to be used during interviews and or meetings as required.
d. Wireless alarm systems that would report to their cellular telephones to alert them of an intrusion. The alarm system consists of the alarm panel in a tamper box, Passive Infrared (PIR) detectors, door contacts, key pads, remote control keyrings and sirens. It also included the SIM-cards that were installed in the alarm panels to send out SMS-messages relating to responses from the alarm panel, i.e. intrusion signals, arm or disarm signals, time messages, low battery information, etc.

Follow-up requests

e. A "White Noise Generator", complete with audio spectrum analysis software, that will prevent eavesdropping equipment to work properly when they were in sensitive meetings (the "Generator" creates noise that eliminates the capability of a microphone to capture voice or sound).
f. At the end of the initial project (October 2007) I was also requested to provide the DSO with cellular telephones with high-end encryption functionality on it to enable them to communicate without being intercepted.
g. In November / December 2007 I also arranged that a biometric access system be installed on one of the floors (offices).

I prepared a quotation and I think I handed it to Skollie to present to the DSO. It might also be that I have sent them quotations in this process as I cannot remember.

ACCEPTANCE

The DSO accepted the quotation and informed Skollie about it. Skollie made it clear that the installation cannot be discussed in the group as it was a sensitive installation and that the information cannot be leaked at any stage.

I made contact with the DSO and they arranged that the money, approximately R900, 000.00 (nine hundred thousand) was paid to me. It was paid in cash to me. A second amount of R250,000.00 was paid to me to procure and deliver the follow-up equipment requirements.

INSTALLATION PROCESS

I started with the security systems installation process sometime in July 2007. Initially Skollie accompanied me to assist me with the installations, which mainly took place after hours. The

A34

reason for this was so as not to expose the installation to the rest of the DSO personnel who might have had links with the SAPS. After about two or three weeks Skollie one evening told Adv. Gerrie Nel and Andrew Leask that he has to leave for Germany for business and will most probably not see them for quite a while. This was a lie because Skollie never left the RSA but was just looking for an excuse not to assist any further with the installations.

I am not a hundred percent sure but I think that I have concluded about seven or eight of the installations by the end of August or beginning of September 2007 (the installation was concluded in December 2007). Due to poor signal in the area, as well as a bug in the 3G-routers, it often happened that the routers hung up and that one could not remotely monitor the CCTV systems. I have asked Andrew Leask if they would mind if I connect remotely with these systems to make sure that the routers did not hung up because it needs a "hard reset" when this happened. A "hard reset" is when you remove power from the router and then restart it.

Both Adv. Gerrie Nel and Andrew Leask ask me during this time whether Skollie was in Germany and I had to lie by admitting that he left for Germany whilst carrying on with the installations.

REQUEST FOR MONITORING OF MEETINGS

About a week or two in September 2007, Skollie ask me to monitor meetings of the DSO. I told Skollie that I cannot adhere to his request unless he (SARS) has an Act 70 approval to conduct eavesdropping and that is the only way that we could do that. It was during this time that it also became known that Commissioner Jackie Selebi could be arrested on corruption charges regarding his relationship with Glenn Agliotti. It was also during this time that Adv. Vusi Pikole, Head of the NPA, was suspended.

About a week to ten days after Skollie's initial request to monitor meetings of the DSO, he called me late one night (it was after 21:00) and said that he just had a meeting with Mr. Ivan Pillay who came from a meeting with President Mbeki. He said that he has the "go-ahead to monitor the DSO meetings". I have asked him how did they (him and Mr. Pillay) got the Act 70 approval and Skollie said that "how do you think the Judge will refuse a request from the President?" I have asked Skollie what the scope of the Act 70 approval was because it could not have been a blanket approval to do what we want. Skollie's answer was that the President wants to know exactly what the DSO had against Commissioner Selebi and secondly, whether there is anyone else of the President's high ranked officials, e.g. Ministers, Director Generals, etc, that would be arrested. He said that the President said could not afford another scandal like this and that the DSO did not inform him about their plans to arrest Commissioner Selebi. The President did not want to be caught off-guard again.

A34

'I have asked Skollie who knew about the Act 70 approval and he said that it was only six people; President Thabo Mbeki, Min. Trevor Manual, Comm. Pravin Gordhan, Mr. Ivan Pillay, him (Skollie van Rensburg) and I. I believed Skollie because of the following various reasons:

a. Need-to-know principle. When the unit started, Skollie made it clear to everyone that the unit runs on the need-to-know principle and nothing that he discussed with anyone needs to be discussed with any other member in the group. He told us that he will incorporate a member in a group if it was necessary and that if he found out that we discussed operations with each other, we would have been in trouble. The need-to-now principle is an excepted principle in enforcement and intelligence units; it was therefore acceptable for most of the units' members as most of us had intelligence and or law enforcement backgrounds.
b. We could only discussed operations with him or Mr. Ivan Pillay. We never had an opportunity to meet with Mr. Ivan Pillay and Skollie conveyed everything that Mr. Pillay said to the group. Skollie could call Mr. Pillay at any time but kept all team members away from him. The only other person that I knew that had direct access to Mr. Pillay was Charl Fourie, one of the founder members, or more senior members, in the group.
c. I was told by various people that Mr. Pillay was a very senior ANC member and that he could pick up the telephone and make an appointment with the President any time he wants to. Skollie also told me, or us, on more than one occasion, that Mr. Pillay and he meet the Minister of Finance every now and then but that he meets the Deputy Minister every two weeks to discuss progress and to receive instructions.
d. I was told by Charl Fourie that when he and his wife were invited to dinner one night at Mr. Pillay's house, Ms. Jesse Duarte and her husband also arrived at Mr. Pillay's house and he confirmed that Mr. Pillay is a very senior person in the ANC.
e. I was also told that the President Zuma was one of the people that joined Mr. Pillay's surprise 55th birthday day party that was held in Durban. I was not sure though that this party was in 2007.
f. Skollie did not tell me to start monitoring the meetings of the DSO immediately but only gave me the instruction between a week and or a week-and-a-half later, i.e. adequate time to obtain approval for an Act 70 approval. Moreover, he called me in the evening "after Mr. Pillay came back from a meeting with President Mbeki" and instructed me to go ahead with monitoring of the DSO offices.

I also did not asked him for the Act 70 approval as Skollie was a senior SARS official (Grade 9 – Executive Manager's level) and the reports would have been forwarded to Mr. Ivan Pillay (Deputy Commissioner of SARS) in any way. I also need to mention that I previously did an Act 70 , or Act 127, Installation for the DSO, which also did not show me the approved Act 70

document. I also accepted the instruction in this case because the DSO explained that the evidence would most probably have to be used in court.

MONITORING OF MEETINGS

I started to monitor the meetings as instructed and gave Skollie verbal feedback on what I found. Skollie called me, or told me in person, that Mr. Pillay said that he wanted the conversations and or evidence on CD. Skollie would then produce the report and CD to Mr. Pillay to confirm the reports' information on the CD if necessary.

As far as I can remember I only monitored and gave information regarding the case of Commissioner Jackie Selebi through to Skollie and ignored other non-related discussions.

One night, I would guess it was mid-November 2007, Andrew Leask said that he needed a flash drive for a document he needs to complete at home. He did not have his flash drive with him as he borrowed it to his child for some reason. I offered him a flash drive I had with me.

Andrew returned the flash drive to me a day or two later. I am not sure of the date but I think I opened the flash disk that night or a day or two later. I discovered that there was still a document on the flash disk and when I opened it, it contained information about Commissioner Jackie Selebi, amongst others, money he received in respect of the corruption charges against him. I took the flash drive to Skollie and told him I think that they now have everything that the President was looking for and that it was not necessary to continue with the monitoring.

I am not hundred percent sure but I think it was that same day that Skollie arranged with Mr. Pillay that I meet with him and Skollie to discuss the information that was on the flash disk. Skollie pre-warned me that when I greet Mr. Pillay I must not give him a firm handshake because he has an illness that affects his bones and that I could hurt him by a firm handshake. I must also call him "sir" or "mister Pillay" as he likes it.

I met Mr. Pillay and assured him that I did not download the information from Andrew Leask's laptop. As far as I can remember I asked him whether I must still carry on with the monitoring of the meetings regarding Commissioner Selebi's case. He confirmed that I must carry on with the monitoring unless it is unsafe to do so. At no time Mr. Ivan Pillay told me to stop the operation. Skollie said that I will continue with the monitoring and will cease monitoring when it is not safe to do so. I felt uncomfortable with the task and told Skollie so when we left. I also went back one night thereafter (after 21:00*) and asked Skollie to terminate the operation but he insisted that I do my work (*I was already in bed but got up and drove to his house in Irene for this appointment).

I guess I made one further recording relating to Commissioner Selebi's case end November beginning December 2007 (I am not sure) and hand it to Skollie. I then unexpected and without an appointment, went to Skollie's house (It might have been the day after I handed him the CD). I wanted to discuss the situation again with him.

When I got to Skollie's house he opened the gate for me and I let me in. I asked him what he was doing and he said he was writing the report on the CD information I gave him regarding Commissioner Selebi's case. I started reading what he was writing and became extremely upset because he was manipulating the information that was on the CD and added fictitious information that was never said or took place. I speak under correction if I say that he wrote something about more arrests that the DSO was going to make and that they are not doing what they are supposed to do (also see his "coup" theory below). I confronted him with the nonsense he wrote and he said that if I am so upset about the way he writes reports he will delete it. He then deleted the report and confessed that Johan de Waal wrote all the other reports in anyway. I confronted him with the fact that Johan de Waal also knew about the operation as he originally said only six people are aware of the operation. I think at this stage he confessed that Charl Fourie also knew about the operation right from the start.

What happened after this is not clear as I was extremely upset about the situation (It is now quite a while since it took place). I know however, that I managed to make an appointment with Mr. Ivan Pillay through Charl Fourie (not sure) and that he accompanied me to Mr. Pillay's house. I am also not sure whether Johann van Loggerenberg joined us that night or on a follow-up meeting but he was also informed by Mr. Pillay about the situation (Mr. Pillay said that he needed Johann to assist him with the situation). I told Mr. Pillay what happened and that he cannot trust any of the information he received from Skollie because Skollie distorted the truth. Mr. Pillay said that I must leave it in his hands and that he will deal with it.

Thereafter many meetings took place to discuss the operation and Skollie. On one of the meetings (I think it was the second meeting) Mr. Pillay said that if I ever was confronted with this operation he would say that he gave the instruction. I then asked him if the President did not task him and about the existence of the Act 70 approval. Mr. Pillay then denied that the President ever gave the instruction and or arranged the Act 70 approval but said that he will take responsibility for it. Mr. Pillay said that he and Johann van Loggerenberg will deal with the Skollie-matter (It is not clear but if I recall correctly either Charl Fourie or Johan de Waal attended these meetings with me).

Mr. Pillay told us to carry on with our work and still have interaction with Skollie whilst they will proceed with a plan to take action against Skollie.

CONTINUATION WITH WORK AFTER THE EXPOSURE OF SKOLLIE VAN REENSBURG

GSM

After my fallout with Skollie, Charl Fourie or Johan de Waal called me to Skollie's house to assist with a virus that Skollie had on his laptop. He visited pornographic sites and picked up a virus that at any time connected to a pornographic site. Skollie said that his son borrowed his laptop to do research for a task and thereafter his laptop reacted funny and connected to these sites. I have formatted the laptop's hard drive with a program called DBAN and re-loaded a Window OS on the laptop.

This must have happened in mid-December 2007 and everyone in the unit (don't know what it was called then) went on leave.

In 2008 I started communicated with the rest of the team to find out whether they also found Skollie to be controversial at times. Quite a lot of controversial facts came to the fore amongst others:

a. That my first appointment letter in SARS was falsified on instruction from Skollie because I decided to join the SSA rather than SARS. SARS gave me a better salary offer than the SSA and this was contained in the letter. I later received an original and official SARS offer to sign again.
b. Skollie falsified Johann van Loggerenberg's signature on claim forms but with the "approval" of Johann van Loggerenberg.
c. Skollie told Charl Fourie that they must "knock" the Chinese and stole their money. He will get SAPS to arrest the Chinese for running illegal businesses.
d. There was an incident regarding a file that Skollie wanted to hand over to the Mail and Guardian. It allegedly contained an incident between HR and Johann van Loggerenberg. Skollie travelled to Cape Town to see Mr. Pillay and on return said that Mr. Pillay said that I stole the file out of his office during a TSCM investigation.
e. Skollie told Johan de Waal to phone the papers and say that that he is from the FAG (Frustreerde Afrikaanse Groep). They are going to commit sabotage to encourage violence in South Africa.
f. Skollie manipulated team members to steal items out of shops. These members stole amongst others a cricket bat as well as dog food out of the shops "as a test that they can successfully operate under pressure". Afterwards he just laughed at them and said that he needed these items. The members went back to these shops and paid for the goods out of their own pockets.
g. Skollie bribed someone at the Surveyor General's office to purchase a second or third farm in Standerton. This piece of farm could not be sub-divided but Skollie bribed the person to do it.
h. Skollie told us that "we" have the power to decide who will next govern South Africa. He said the "we" could execute a "coup" by deciding to whom the group ("we") are going to

GS

give the "evidence" we got from the DSO monitoring operation. This would have divided the country and he could decide who have to take over.

i. Skollie also tried to setup a confrontation between now President Zuma and a person called "Snyders" somewhere in KZN. This also did not work out for him.

Approximately in April \ May 2008, I was seconded to SARS (Anti Corruption and Security) to assist with the planning and installation of security at SARS sites nationally. I distanced myself from Skollie and the team and concentrated on the work at ACAS. In April 2009 I was permanently transferred to ACAS.

We have had several meetings in 2008 where we also had the opportunity to take a severance package and leave SARS. This might have been an eye blind to get rid of Skollie but I decided to stay.

I was also present when Johan de Waal and Charl Fourie confronted Skollie over a cell phone telling him that they disclosed all his misrepresentations, lies and dealings to Mr. Pillay and that they are finished with him. I also told him during this conversation that I am now aware that he lied to me and mislead me whilst he was in a position of trust and authority. He just said "dankie vir dit" (thank you for that) and nothing else that I can remember. Johann van Loggerenberg was also present during this conversation.

I heard that Skollie chose to take a severance package and part with SARS. I later heard that his remaining contract salary was paid out to him.

We also had a meeting with Skollie after he left. I could initially not remember this meeting that took place in 2008 but Johan de Waal showed me minutes that were taken during this meeting and I could recall the conversation (See attached Annexure A). I still cannot remember where at Centurion Mall it took place but do remember the conversation.

After I have read the minutes on 19 March 2015, I told Johan de Waal that we have to discuss this immediately with Commissioner Tom Moyane as I am no longer going to keep it secret because it will damage the image of SARS should it leak out. We then drove to the Commissioner's Office and told the Commissioner that we need a critically urgent meeting with him. Commissioner Moyane immediately put time aside for us, invited the Acting COO, Mr. Jonas Makwakwa to the meeting and listened to what we had to tell.

I know and understand the content of this statement.

I have no objection to taking the prescribed oath.

I consider the prescribed oath to be binding on my conscience.

Mr Helgard Lombard

I am pleased to inform you that SARS wishes to employ you on a permanent basis as a Specialist Agent at Customs Border Control Unit commencing on 1 March 2007. This is a grade 7 position. Particulars regarding your all inclusive remuneration package are as follows:

Pensionable salary	R 352,209.92 pa
Additional Cash allowance	R 7,044.20 pa
Medical aid cash allowance	R 15,937.32 pa
Housing allowance	R 11,170.44 pa
Motor Finance	R 68,500.00 pa
Service Bonus (13th cheque)	R 29,350.83 pa
Employers contribution to Pension Fund	R 45,787.29 pa
TOTAL REMUNERATION PACKAGE:	**R 530,000.00 pa**

In general your appointment will be subject to the terms and conditions applicable to SARS. You will be required to sign an employment contract with your Line Manager immediately upon accepting this offer.

Membership of a SARS accredited Medical Aid Scheme is compulsory, unless proof can be provided that you are registered as a dependant on your spouse's / life partner's medical scheme. Kindly note that non-compliance with the medical aid conditions will render this offer null and void and that such a course of action will automatically lead to termination of the employment relationship.

Please indicate acceptance of this offer within 5 working days by signing below and agreeing to the date of commencement. **This offer is subject to the pre-employment screening results.**

It will be appreciated if you would report for duty to Eddie Kotze at 1st Floor Block A, Head Office, Brooklyn on the above mentioned date.

Congratulations on your appointment. We look forward to working with you.

Yours Faithfully,

LINE MANAGER _____ MANAGER: HR _____

I Helgard Lombard **accept** the offer as tabled above, and will assume duty on the above mentioned date.

SIGNED: _____ DATE: 15 Feb 07

I _____ **do not accept** the offer as tabled above,

PERSONNEL: CONFIDENTIAL

AGREEMENT
ENTERED INTO AND BETWEEN

THE SOUTH AFRICAN REVENUE SERVICE (hereinafter called the Employer),

represented by Ivan Pillay in his capacity as General Manager: Enforcement and Risk of the one part

and

Helgard Lombard

NATIONAL ID
5708175018087
EMPLOYEE ID

LOCATION
Head Office
(hereinafter called the Employee) of the other part.

1. The Employer hereby undertakes to engage the Employee and the Employee hereby agrees to serve the Employer in a permanent capacity on the following terms and conditions with effect from 1 March 2007.

2. The Employee shall serve the Employer as Specialist Agent at such place as may from time to time be directed by the Employer, or any other employee duly authorised thereto, in this respect.

3. The Employer shall pay the Employee an all inclusive remuneration package, in the Republic of South Africa currency, at the rate of R 530,000.00 **per annum**. It will be payable on the fifteenth day of each month and should the fifteenth fall on a Saturday, Sunday or public holiday, on the last working day preceding such Saturday, Sunday or public holiday. A breakdown of the package is reflected in the offer letter. Pay increases will be in accordance with provisions of wage agreements.

4. As a permanent employee, the Employee is obliged to be a member of the Government Employees Pension Fund. Membership of a SARS accredited medical aid scheme is compulsory, unless proof as a dependant of a spouse's/life partner's medical aid scheme is furnished.

5. From time to time in order to attract and retain staff, the Employer negotiates and implements improvements in remuneration and the structuring of service benefits. It is, therefore, a pre-requisite that the employee is still in service on the date, on which such improvements are implemented, for them to benefit. Any employee who has left the services of SARS prior to the date on which the Employer implements such improvements, will not be eligible for such salary adjustments and/or service benefits, nor any pro-rata portion thereof.

GSM

6. When required to perform duties away from his/her headquarters, the Employee shall travel at the Employer's expense and shall be paid a subsistence allowance in accordance with the relevant policy guidelines.

7. The Employee shall, subject to the exigencies of the Employer and during the currency of this Agreement, be entitled to the normal conditions of service that apply at any point in time.

8. The Employee shall faithfully and diligently devote the whole of his/her time to the service of the Employer and shall undertake such duties as the Employer, or any employee duly authorised thereto in this respect, shall require of him/her. He/she shall comply with the rules and orders governing the particular office, post or institution, at or in which such Employee may be stationed or employed.

9. The Employee shall not, without the express prior written consent of the permanent head of the organisation under which the Employee's office resorts, perform or undertake to perform remunerative work outside the Employer's service, whether within or outside official working hours.

10. The Employee shall at such intervals as the Employer may direct, report fully on the results obtained and knowledge acquired by him/her in any research work done by him/her, both during and outside official working hours.

11. The Employee further undertakes not to communicate to any person outside the Employer's service or to publish either during the currency of this Agreement or after the termination thereof, any results so obtained by him/her, in the course of his/her official duties, without the written consent of the Employer to such communication or publication.

12. Notwithstanding anything to the contrary contained in clause 1 hereof, the employee may terminate this Agreement at any time during the currency thereof on giving one month's notice in writing to the other party. The Employer may, however, accept a shorter period of notice in an exceptional case, using his/her own discretion.

13. The Employer may terminate this Agreement summarily or after notice of less than one month as he/she may deem expedient in the event of a breach of the terms of this Agreement by the Employee, or in the event of the Employee's misconduct, including misconduct as contemplated in the current provisions: Provided that it shall be competent for the Employer before exercising his/her rights under this clause to suspend the Employee from his/her office, making enquiry into any such breach of contract or misconduct and nothing herein contained shall debar the Employer, after such enquiry, from declaring this Agreement terminated as from the date of such suspension.

14. The Employee may terminate the Agreement on such shorter notice as circumstances may render necessary on satisfying the Employer that such termination is imperative on account of the Employee's ill-health occasioned without the Employee's default.

GSM

15. The Employer's representative shall not in any way be personally liable for any claims or other matters arising from this Agreement.

16. Any matters arising from this Agreement, which are not specifically provided for herein, shall be dealt with in accordance with the provisions of the *South African Revenue Service Act of 1997* and such terms and conditions as determined by SARS in terms of that Act.

17. The interpretation of this Agreement shall be governed by the laws of and the legal principles applied in the Republic of South Africa.

18. The Employee submits to the jurisdiction of the courts of the Republic of South Africa in the event of any legal proceedings arising from the provisions of this Agreement.

19. The Employee agrees not to divulge or discuss the offered remuneration with colleagues, as the Employer regards such matters as confidential.

THUS DONE AND PASSED by the parties hereto at the places and on the dates respectively set opposite their names.

---

ng and careful consideration, I have finally concluded to apply for a transfer to Anti-corruption and ecurity. Although the prospects in my current post seems to be exciting with regard to future development, I am lso of the opinion that I can contribute meaningful in ACAS as a security technology specialist with a pertinent ole to play in securing SARS assets and assist in the collection of evidence to clamp down on corruption within ARS.

base my decision on my opinion that:

- If one can remove corrupt officials, it will not only be a deterrent for fraudsters in the SARS domain in general but will also reduce the illicit economy by most probably fifty percent. If the perpetrators know that the changes are very good that their illicit goods will be seized and destroyed by SARS officials, they will look for other more vulnerable markets and avoid South Africa.

CONFIDENTIAL

GSM

SARS Enforcement

NTEROFFICE MEMORANDUM

- If one installs the appropriate security technology on these customs sites, purposefully monitor it and act when necessary, it will already be a detergent for corrupt officials and will hamper the endeavors of criminals to import or export illicit goods.

- Proper planning and discreet placement of security technology will reduce guarding cost noticeably and will in many cases be more reliable that human resources (A human can only cover a limited area whereas security technology stays in place and relatively spoken, cover a much bigger area). The cost saving on these operational expenses can then be utilized to combat the illicit economy on border posts and harbours.

n this regard, I see my role in ACAS as follows:

- dvice management with regard to the installation of physical security technology, covering the areas of:

  i. CCTV systems.
  ii. Alarm systems.
  iii. Access systems.
  iv. Electric fences.
  v. Metal detection equipment.
  vi. X-ray equipment.
  vii. Perimeter protection equipment.

- Inspect the quality of workmanship of security technology installations nationally to ensure compliance with SARS installation standards.

- Inspect security equipment system-settings to ensure stable and reliable operations.

- Manage and monitor the competency of National Control Room surveillance operators.

- Conduct research to mitigate deficiencies within current employed security technology.

- Employ high technology equipment to assist anti-corruption investigations with the collection of evidence.

- Conduct Technical Surveillance Countermeasures (TSCM) in SARS sensitive areas and offices.

- Train anti-corruption investigators to conduct static, foot and mobile surveillance in order to empower them to do close watch on alleged corrupt SARS officials and collaborators.

- Employ high technology equipment to track and locate people and assets that are of interest in SARS mandated investigations.

GSM

CONFIDENTIAL

SARS Enforcement

INTEROFFICE MEMORANDUM

Employ high technology surveillance equipment to monitor assets, sites and material that are of interest to SARS in the execution of its mandated and required duties and functions.

Your favorable consideration will be appreciated.

Thank you for your order.

Below you will find your cleverbridge reference number. For the most prompt and accurate service, always refer to this reference number in any communication with us regarding this order.

Your cleverbridge reference number 1611514

Payment Information

Your credit card has been successfully authorized. Please note that the charge on your credit card will appear in the name of "www.cleverbridge.net".

Your Products

Qty.	Product Name	Delivery
1	Ashampoo® Security Pack 2 339.98 instead of $119.96 - 227.89 instead of $79.98	e-mail

If you do not already have the product installed, you can download it here.

1	Ashampoo® AntiSpyWare 2 (incl. 1 year signature updates)	e-mail

Your license key: AASWB0-77094E-E8OF03

Important Information for entering your License Key

Please note that the code is case-sensitive (i.e. take note of upper and lower case lettering) and that there should be no blank spaces before or after the code. Otherwise the program will identify the code as incorrect.

Also, please be sure not to mix up the letters O and I with the numbers 0 (zero) and 1 (one). In some cases both the letter and the number are used, thereby we recommend entering the license code using copy and paste. To do this, mark the code using the left mouse button, then press the right mouse button and choose "copy". Afterwards, go back to the program, right-click in the field where the code should be input, and choose the option "paste".

If you do not already have the product installed, you can download it here.

1	Ashampoo® AntiVirus (incl. 1 year signature updates)	e-mail

Your license key: AAVRA0-770200-B8C1AC

Important Information for entering your License Key

Please note that the code is case-sensitive (i.e. take note of upper and lower case lettering) and that there should be no blank spaces before or after the code. Otherwise the program will identify the code as incorrect.

Also, please be sure not to mix up the letters O and I with the numbers 0 (zero) and 1 (one). In some cases both the letter and the number are used, thereby we recommend entering the license code using copy and paste. To do this, mark the code using the left mouse button, then press the right mouse button and choose "copy". Afterwards, go back to the program, right-click in the field where the code should be input, and choose the option "paste".

If you do not already have the product installed, you can download it here.

1	Ashampoo® FireWall PRO	e-mail

Your license key: A8FPA0-77002B-495809

Important Information for entering your License Key

Please note that the code is case-sensitive (i.e. take note of upper and lower case lettering) and that there should be no blank spaces before or after the code. Otherwise the program will identify the code as incorrect.

Also, please be sure not to mix up the letters O and I with the numbers 0 (zero) and 1 (one). In some cases both the letter and the number are used, thereby we recommend entering the license code using copy and paste. To do this, mark the code using the left mouse button, then press the right mouse button and choose "copy". Afterwards, go back to the program, right-click in the field where the code

Important information for entering your License Key

Please note that the code is case-sensitive (i.e. take note of upper and lower case lettering) and that there should be no blank spaces before or after the code. Otherwise the program will identify the code as incorrect.

Also, please be sure not to mix up the letters O and I with the numbers 0 (zero) and 1 (one). In some cases both the letter and the number are used, thereby we recommend entering the license code using copy and paste. To do this, mark the code using the left mouse button, then press the right mouse button and choose "copy". Afterwards, go back to the program, right-click in the field where the code should be input, and choose the option "paste".

Section 1

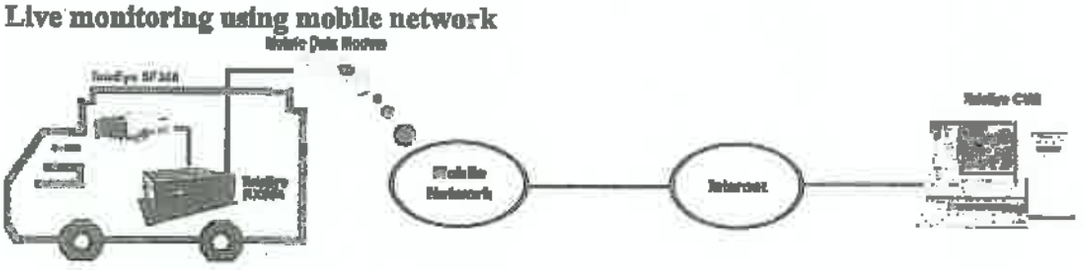
Introduction

1. Introduction

***Tele*Eye** RX504 is a robust video recording server designed for fleet security applications. By using the award-winning SMAC-M multi-streaming video compression technology, ***Tele*Eye** RX504 delivers no compromise performance on simultaneous recording and transmission via mobile network.

***Tele*Eye** RX504 can continuously record videos of every single detail during the vehicle in service. By connecting ***Tele*Eye** RX504 to a mobile data modem, the driver can push a button to trigger the ***Tele*Eye** RX504 to send an alarm and seamless video back to the central monitoring station via mobile networks such as HSDPA, UMTS, EDGE or GPRS in an emergency situation. In conjunction to a WiFi gateway, the recorded data can be reviewed and extracted to the central storage server via a WiFi network after the vehicle returning back to the depot.

Live monitoring using mobile network



Video extraction and playback via WiFi

2. Features

- 4 video, 16 alarm inputs; 4 relay outputs
- Recording up to 25/30fps on D1; 100/120fps on CIF resolution
- Live monitoring via HSDPA, UMTS, EDGE and GPRS (require mobile data modem)
- Playback and video extraction via WiFi (require WiFi gateway)
- Fast detachment and shock protection design

3. Package contents

1. ***Tele*Eye** RX504
2. NULL modem cable C03FF
3. WX-30 installation CD version 3.10.04
4. Hard disk mounting screws with rings

GSM

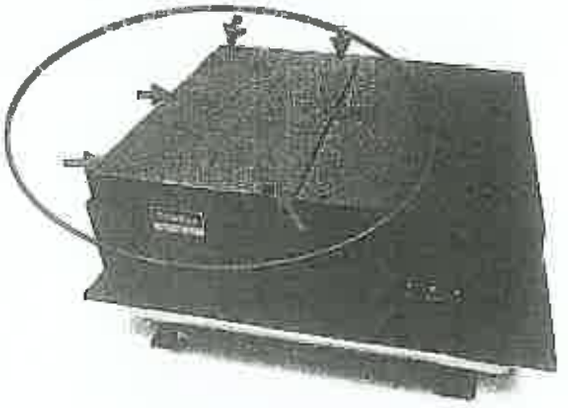
Item	Description
1. RS-485 (IN / OUT)	For telemetry use
2. Power terminal	Connect to input power (10-24V DC)
3. Alarm IN Relay Out	External alarm input and relay output
4. Power adaptor	*Reserved*
5. FUSE	3Amp protection fuse socket
6. Ethernet	RJ45 socket for network connection
7. USB	For connecting 3G USB modem
8. RS-232	Connect NULL modem cable for setup use
9. Audio	*Reserved*
10. Video Out	Video output BNC type connector
11. Video In	Video input BNC connectors

Section 2

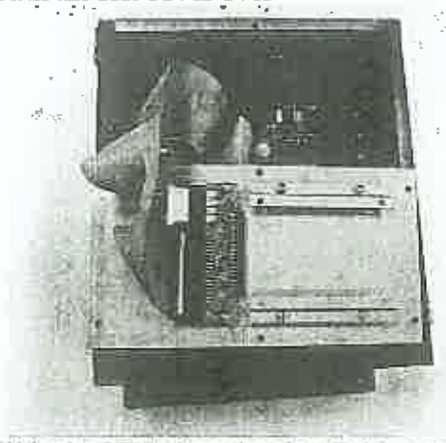
Installation

1. Install Hard Disk

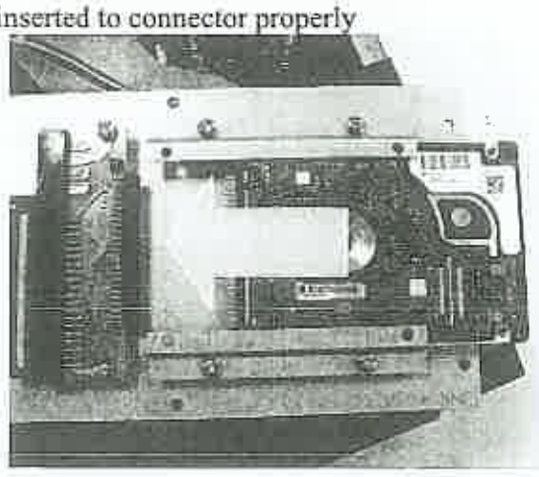
1. Remove left cover screw



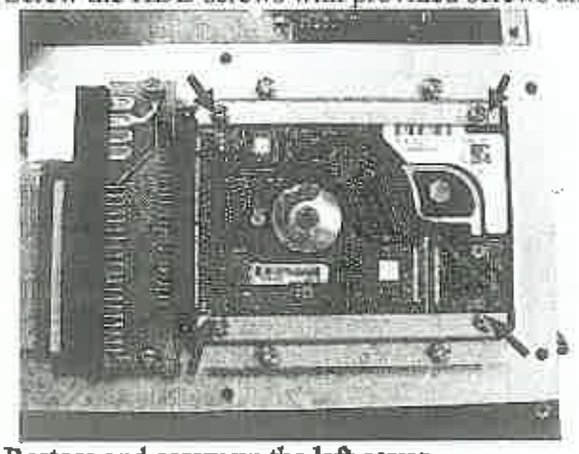
2. Turn the left cover over



3. Slide the HDD into the slot. Take care for the hard **disk pins, make sure all pins be** inserted to connector properly



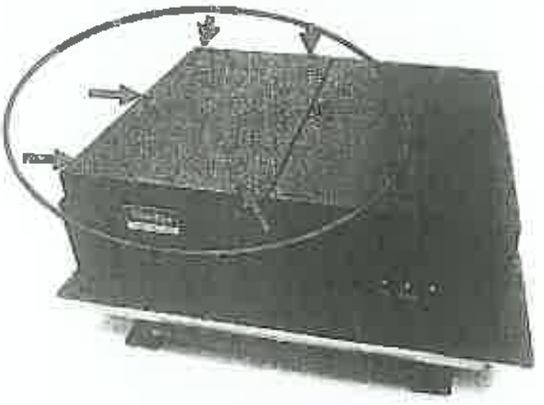
4. Screw the HDD screws with provided screws and rings.



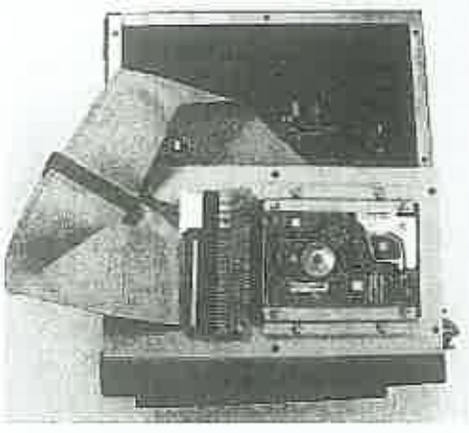
5. Restore and screw up the left cover

2. Remove Hard Disk

1. Remove left cover screw as shown in following figure

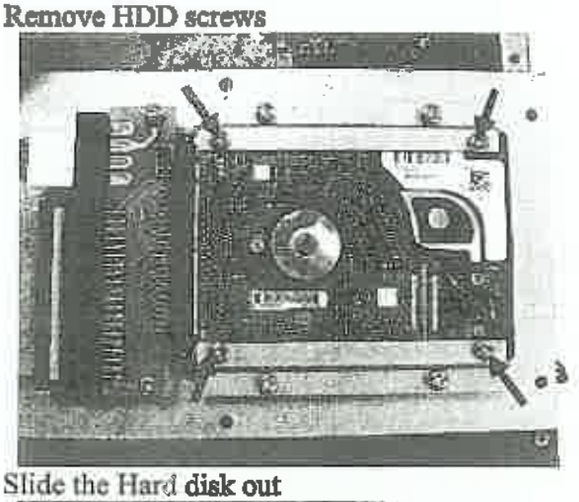


2. Turn the left cover over as shown in the following figure

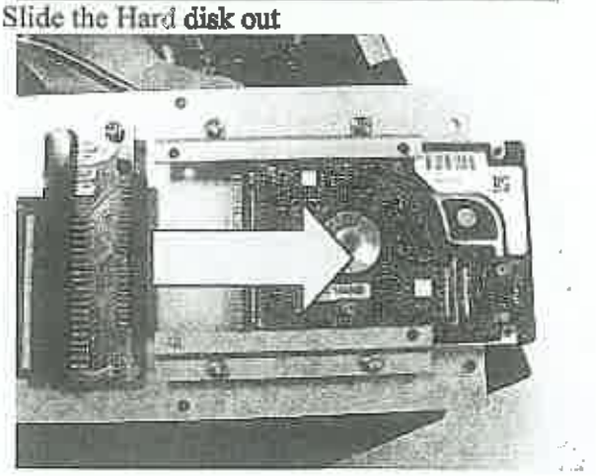


GSM

3. Remove HDD screws

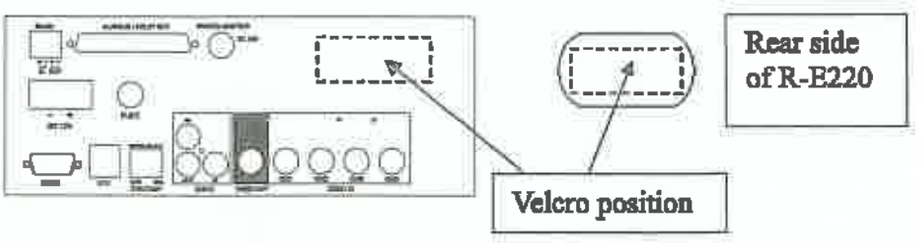


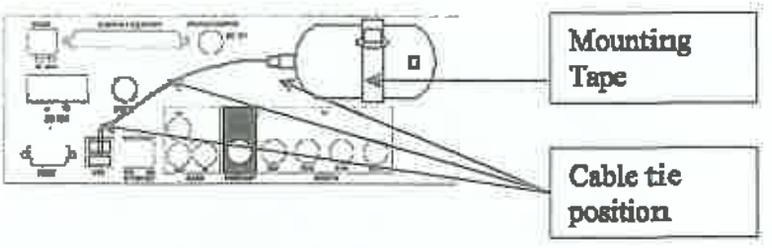
4. Slide the Hard disk out



3. Mobile data modem Installation

1. Stick provided Velcro to R-E220 and RX504's rear panel, then stick together as following figure:



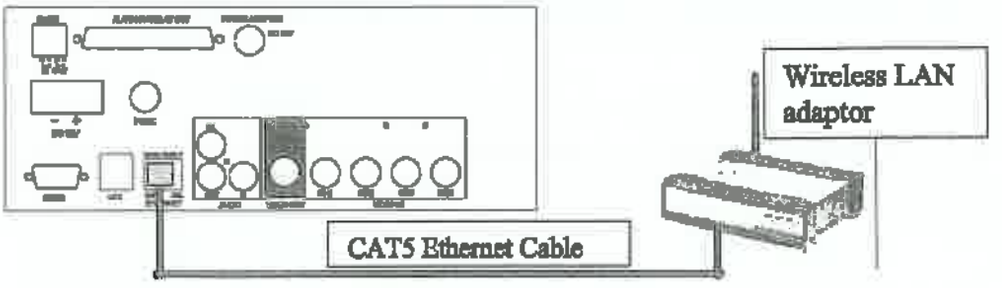


2. Tighten the mounting tape at RX504 real panel
3. Use provided cable tie to fix USB cable on RX504's rear panel

G 5m

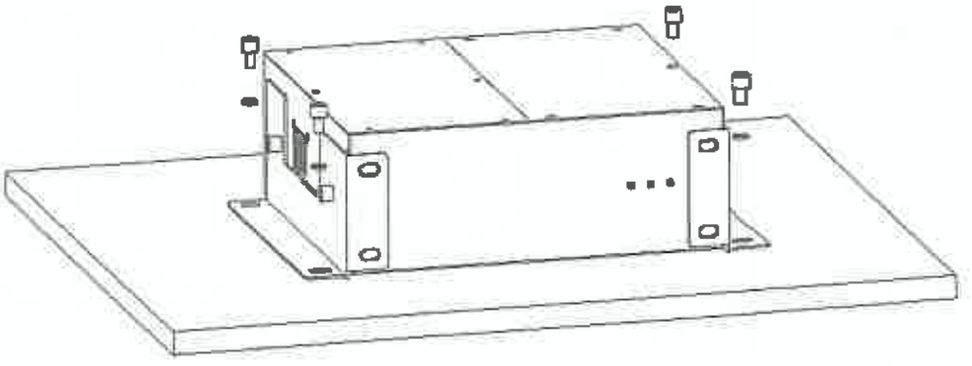
4. Wireless LAN adaptor installation

1. Only use Wireless LAN Client with CAT5 cable interface, connect the Wireless Client to RX504's Ethernet socket.

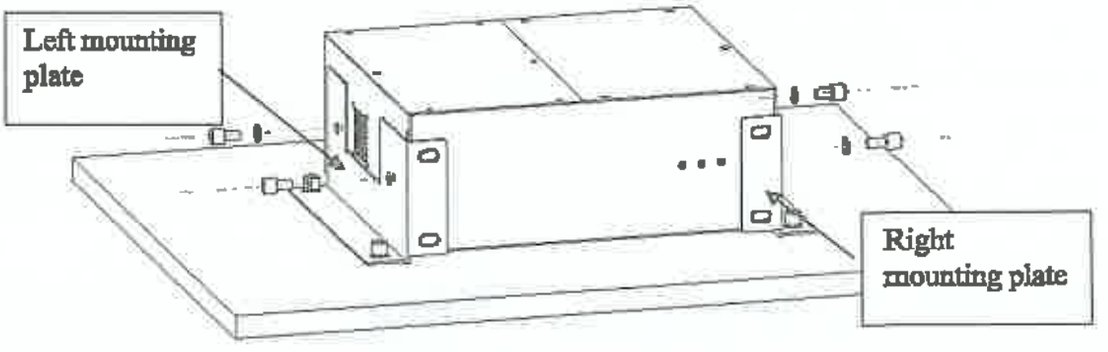


5. Mount to vehicle

1. Horizontal mount
   i. Measure the position of the mounting screws and drill holes on the mounting surface
   ii. Screw up the screws on the mounting surface

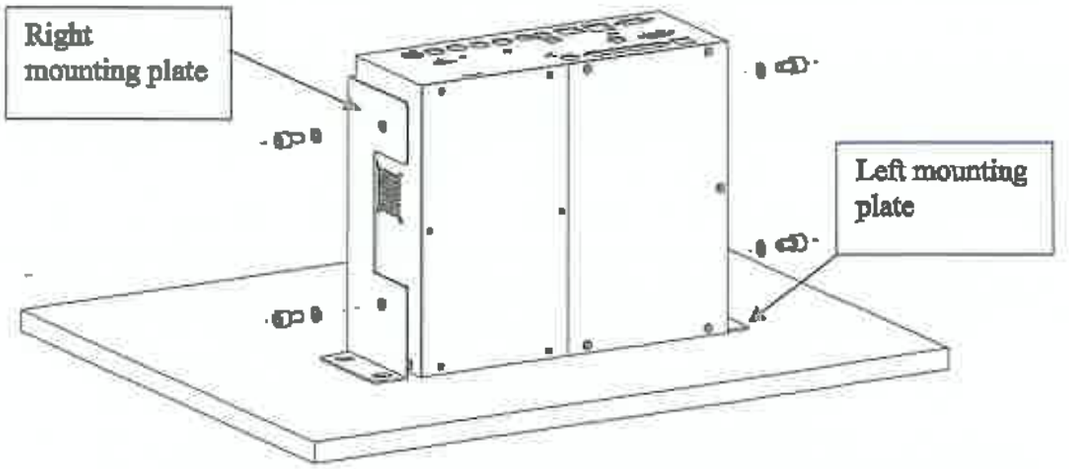


2. Vertical mount
   i. Remove four side mounting screws on RX504 as shown follow



GSM

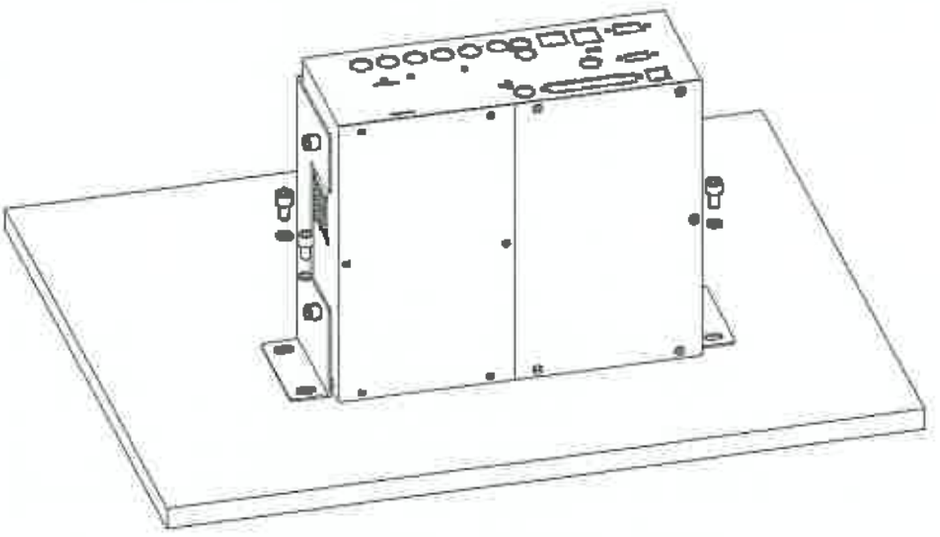
ii. Switch left and right mounting plate as shown in the following figure



iii. Rotate to RX504 front panel face down and screw up the side mounting screw to RX504

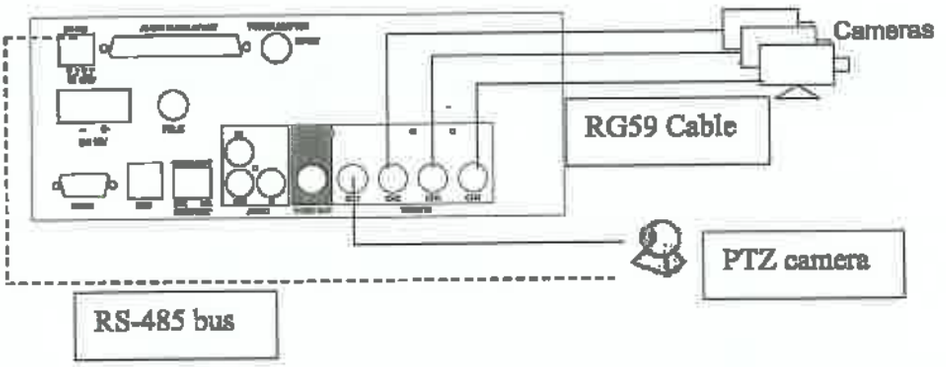
iv. Measure the position of the mounting screws and drill holes on the mounting surface

v. Screw up the screws on the mounting surface



GSM

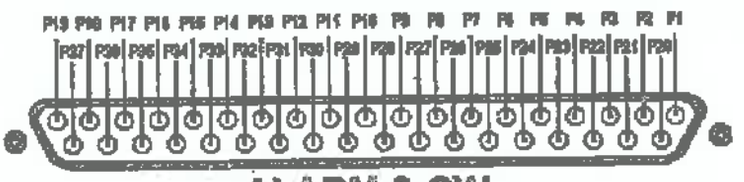
6. Video installation



For fix cameras, connect cameras to video inputs using RG59 cable. For PTZ cameras, connect camera's video output to RX504's video input using RG59 cable, and connect RS-485 to RX504's RS-485 out.

7. Alarm installation

***TeleEye* RX** supports up to 16 alarm ports in that order with tamper detection for connecting with alarm sensors, 4 additional input sensors and 4 relay ports for control. The definitions of alarm and relay control ports are shown in the following diagram.



Pin assignment for *TeleEye* RX

Pin 1	ALARM 1	Pin 20	GND
Pin 2	ALARM 2	Pin 21	GND

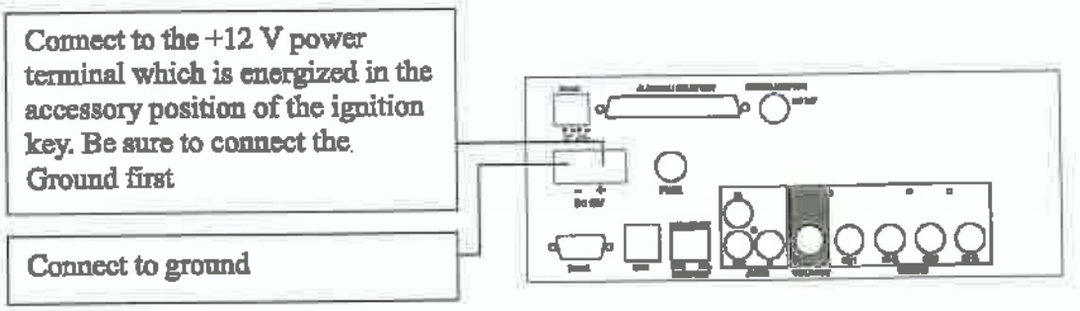
Pin 19	N/A		

GSM

8. Power connection



1. Connect RX504 Ground terminal to car ground.
2. Connect RX504 +12 V terminal to the +12 V power terminal which is energized in the accessory position of the ignition key.

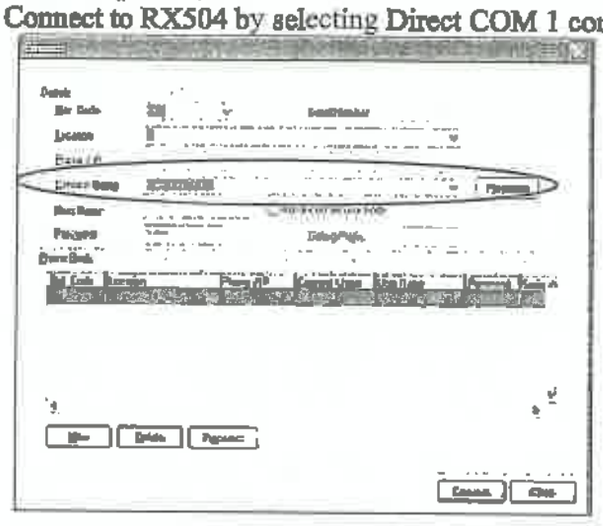
GSM

Section 3

Basic Setup

1. Before setup

1. Prepare a Laptop with COM port which running Windows XP
2. Install provided ***TeleEye*** WX-30 software
3. Power up RX504
4. Connect RX504 to PC by using provided NULL modem cable
5. Run ***TeleEye*** WX-30
6. Click Connections > Connect
7. Click Properties, select 57600 bit rate
8. Connect to RX504 by selecting Direct COM 1 connection

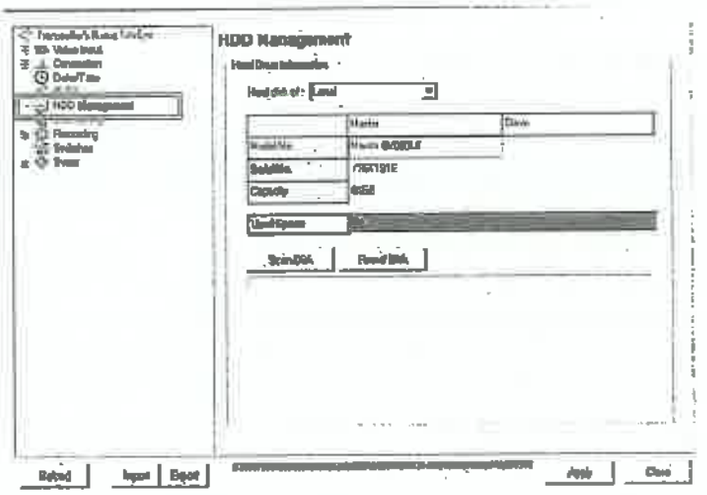


2. Format Hard Disk

New Hard Disk need to be formatted before use.

1. Click **Transmitter -> Settings**
2. Click **[HDD Management]** option on **{Transmitter Setup}** panel to enter **{HDD Management}** panel.

GSM

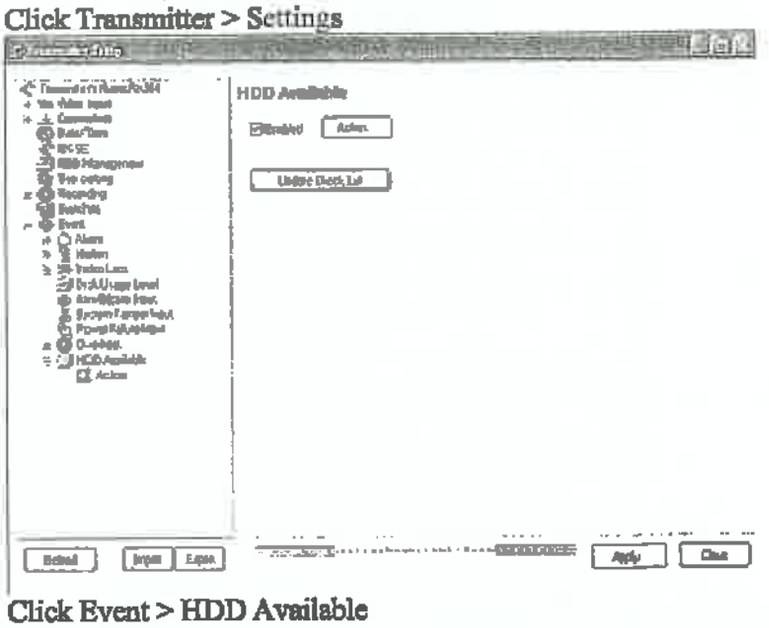


3. Click [Format Disk] to start format the Hard Disk.
4. RX504 will need to restart after Hard Disk format.

3. Hard Disk available event

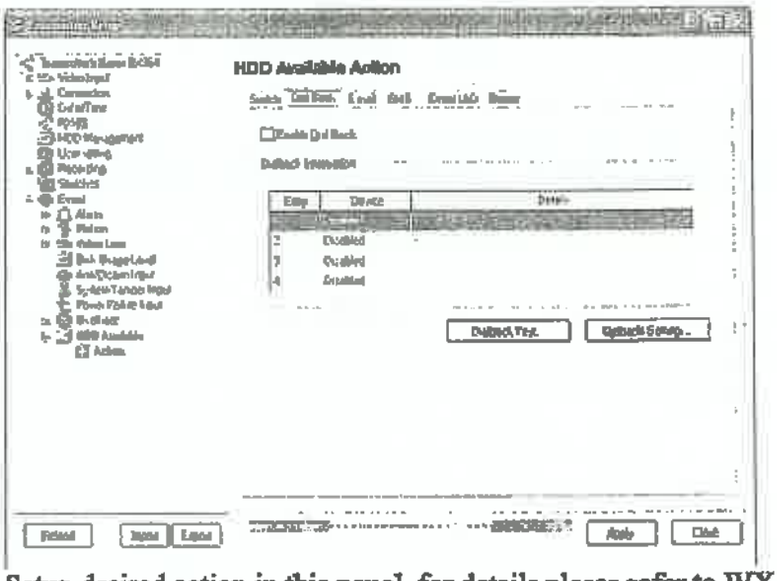
Hard Disk available event triggers when any HDD failure or HDD changes happen. It is recommended to enable this event after format Hard Disk. Like other events, it can associate with dialback, E-mail and buzzer action etc.

1. Click Transmitter > Settings



2. Click Event > HDD Available
3. Check Enable
4. Click Action

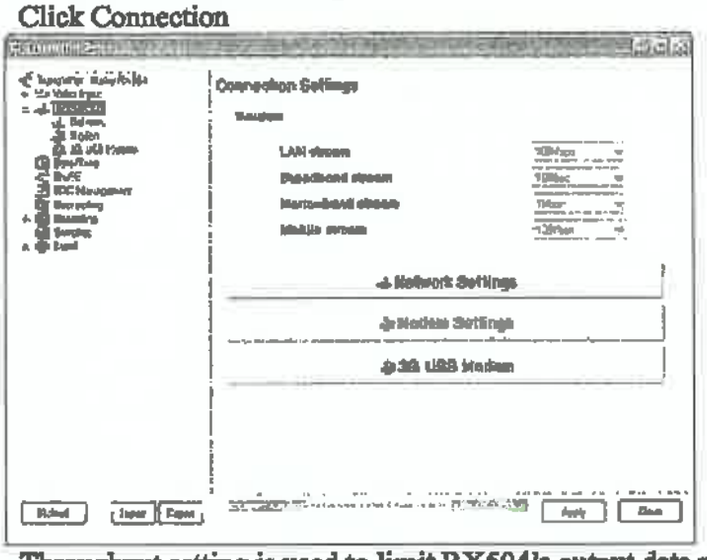
G sm



5. Setup desired action in this panel, for details please refer to WX-30 User manual.
6. Click [Update Check List] after change or format Hard Disk.

4. Network setup

1. Click Transmitter > Settings
2. Click Connection

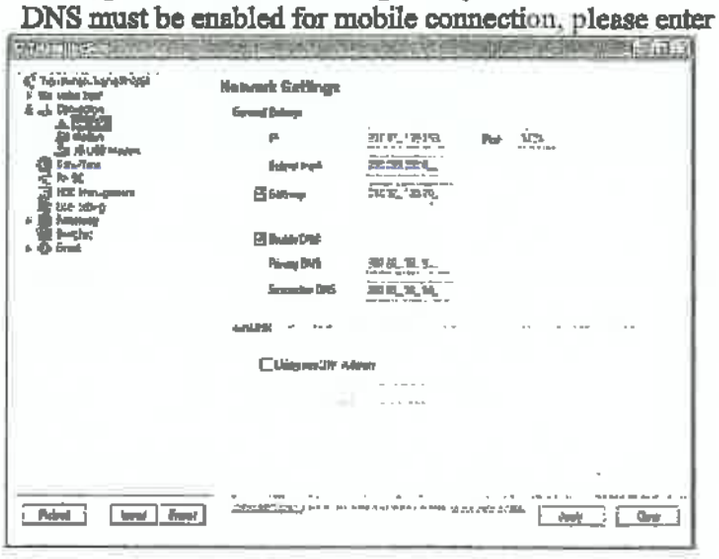


3. Throughput setting is used to limit RX504's output data rate at individual video stream.
4. Select 100Mbps for LAN stream
5. Narrowband throughput, following are suggested initial throughput for reference only.
   - HSDPA / UMTS: 512kbps
   - EDGE: 64kbps
   - GPRS: 19.2kbps

   Noted that mobile data rate varies with different environment. If video delayed, please select lower throughput.
6. Click Network Settings

GSM

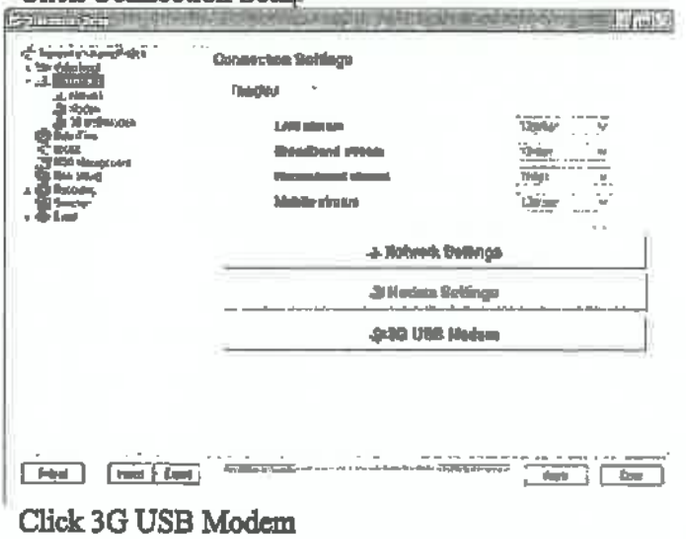
7. Set IP, port, subnet mask and gateway
8. DNS must be enabled for mobile connection, please enter valid DNS addresses.



5. Mobile data modem setup

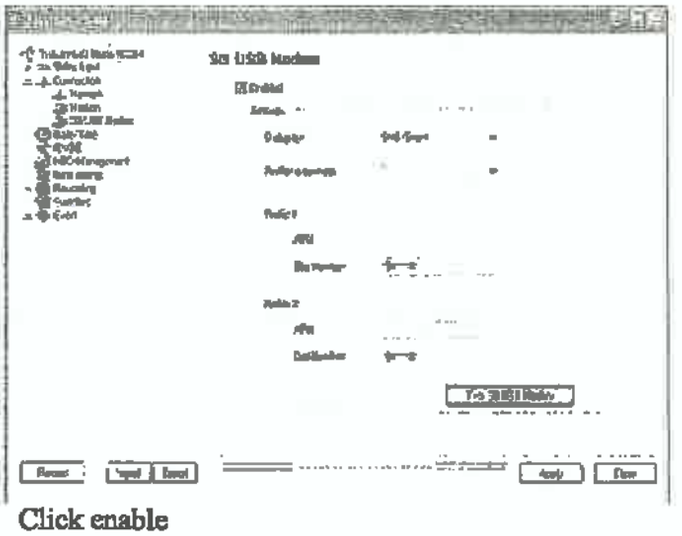
Make sure the mobile service provider support streaming at Internet connection.

1. Click Connection Setup



2. Click 3G USB Modem

GSM



3. Click enable
4. Set dialup mode: Start up and SMS / Event
    1. In SMS / Event mode, RX504 will dial up to Internet only when event trigger a dialback action or receive a valid dialback SMS message. This mode is recommended to user who do not has real IP for mobile network connection
    2. Startup mode will dial up to Internet when RX504 power up. This mode is only suitable for user who has real IP for mobile network connection.
5. RX504 support 2 profiles, select desired profile according to the SIM card.
6. Enter APN and dial number of the SIM card, according to telecom service provider's setting
7. Click Test 3G USB Modem to test the configuration
8. Click Apply to save settings

GSM

Section 4

Operation

1. Live operation through mobile data modem

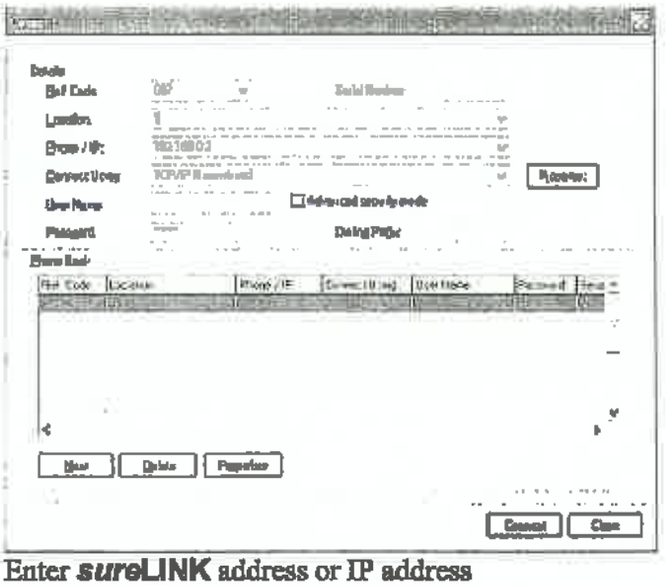
1. SMS / Event mode
    1. Run ***TeleEye*** WX-30
    2. Click standby and enter password

    3. Select Narrowband

    4. Click ... button and set listen port

    5. Click OK
    6. Send SMS to the SIM card's number using the following format:
    7. teip<space><dialback ip><space><port><space>endip
       e.g. teip 202.73.90.90 2048 endip
    8. RX504 will dialback to the given IP once received the SMS.
2. Startup mode
    1. Run ***TeleEye*** WX-30
    2. Click connect

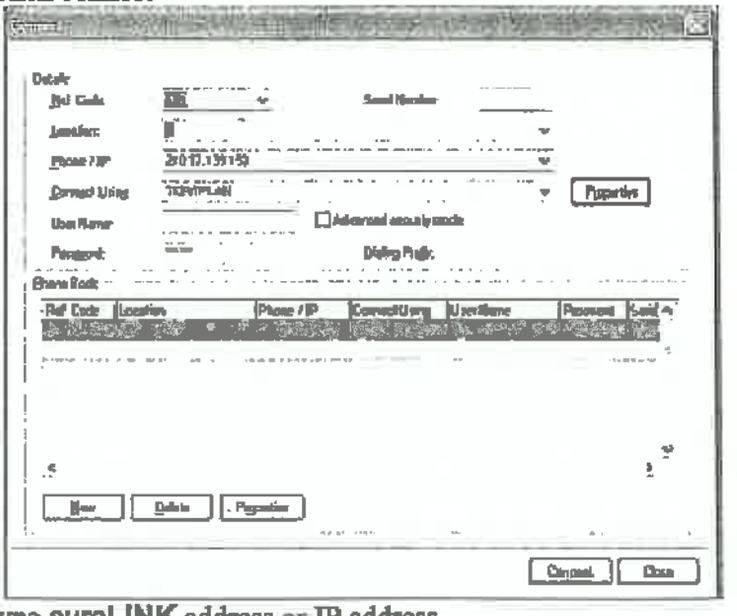
GSM



3. Enter ***sure*LINK** address or IP address
4. Select TCP/IP Narrowband
5. Enter password
6. Click Connect

2. Live operation through LAN / wireless LAN

1. Run ***Tele*Eye** WX-30
2. Click connect

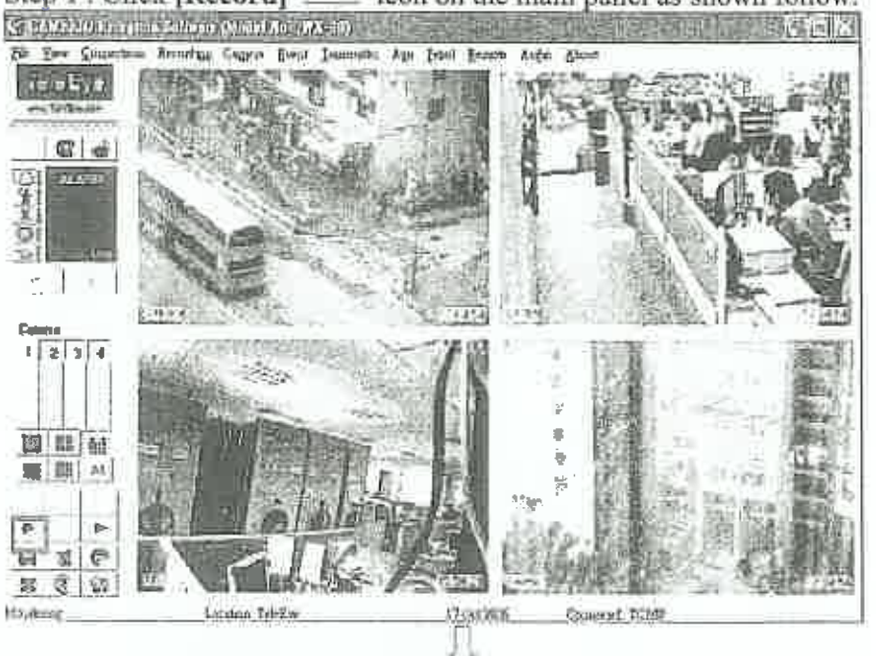


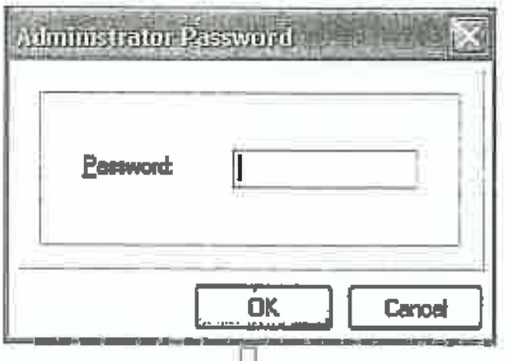
3. type ***sure*LINK** address or IP address
4. Select TCP/IP LAN
5. Enter password
6. Click Connect

3. Recording

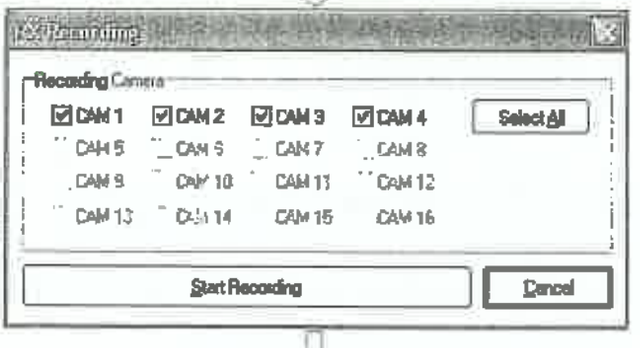
Manual Recording Procedure :

Step 1 : Click **[Record]** icon on the main panel as shown follow.





Step 2 : **Enter the administrator password.**



Step 3 : **{RX Recording} panel pop up. Click the checkbox to select the camera for recording. [Select All] is to select all cameras for recording.**

Step 4 : **Press [Start Recording] to start recording now.**

6 sm

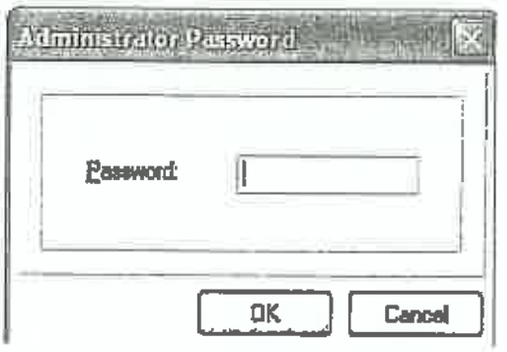
4. Video extraction

Extract footage for back up purpose. This function can back up the data stored in the transmitter into local hard disk. User only need to select the amount of memory and starting time for back up and the function will calculate the end time automatically.

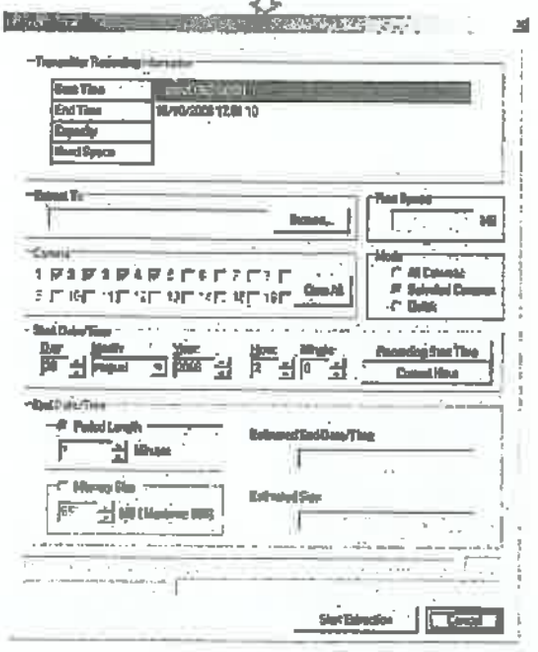
It is recommended to use LAN / wireless LAN connection to achieve maximum extraction speed. See Section 4.2.

Step 1: Click [Transmitter] > [Setup] > [recording]

Step 2: Click on [Footage Extraction] button



Step 3 : {Administrator Password} panel will pop up. Input the administrator password and click [OK].

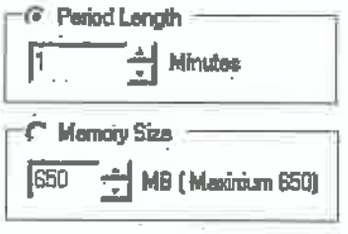


Step 4 : {Footage Extraction} panel will pop up. Click [Browse..] to choose a folder for extraction.

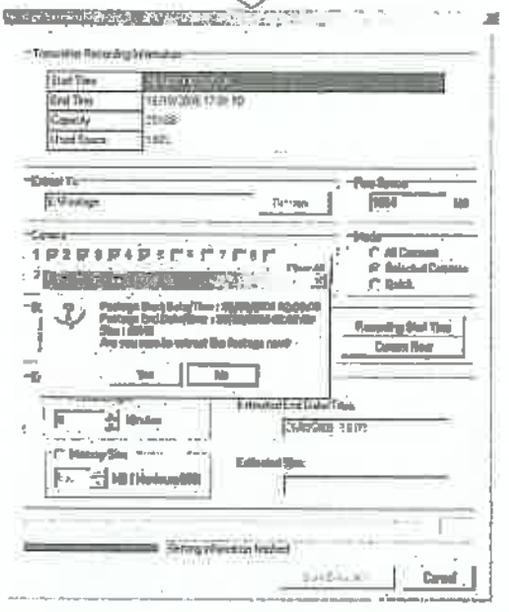
Step 5: In {Footage Extraction} panel, select camera(s) for footage extraction.

Gsm

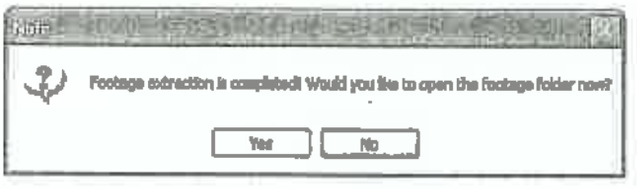
Step 6: Select mode for footage extraction.
Note: Lower frame rate for quick mode.



Step 7 : Input Start Date / Time and Period Length / Footage Size in the boxes provided.
(Note(Optional):
1. Click [Recording Start Time] to select start time of the recording log.
2. Click [Current Hour] to select current hour of the transmitter.)
Click [Start Extraction] to start.



Step 8 : A {Format} panel will pop up. Click [Yes] to continue



Step 9 : When the extraction is finished, {Note} will pop up. Click [Yes] or [No] to choose open the footage folder or not.

☞ Backup will not be successful if --

1. Two sites carrying out backup process in the remote site at the same time.
2. Recording retention process carrying out at the same time.

GSM

Appendix 1

Limited Warranty

Conditions, Limitations and Liabilities of This Warranty:

1. Signal Communications Ltd. (hereinafter called ***Tele*Eye**) provides free repairing labour and free repairing parts for the first 12 months. Please present the Warranty Card and the original invoice when you are asking for service support.
2. In case of applicable, ***Tele*Eye** staff shall request a remote access inspection or trouble shooting through internet, PSTN, ISDN, or mobile media.
3. When service is required, the Customer is responsible for all the transportation costs.
4. Outdoor services are not included. Subject to ***Tele*Eye**, outdoor services will be provided at extra charges.
5. This warranty does not extend to cover any damages or malfunction resulting from disaster, environmental factor, abnormal humidity/temperature, improper voltage, electrostatic discharge, misuse, negligence, ignorance, accident, mold, or repairs /modifications made by any person(s) other than the authorized personnel of ***Tele*Eye**.
6. ***Tele*Eye** reserves the right to charge Customer an inspection fee, on-site service fee or cost of parts if (i) no fault in the equipment can be found during inspection or (ii) the defect is caused at conditions those mentioned in point 5 above or (iii) Customer fail in providing access methods to the site or the equipment, e.g. specified access permit or key. Such determination is up to the sole discretion of ***Tele*Eye**.
7. The warranty is void if any of the cabinet seal has been removed or opened if there is any such sign not being made by any authorized personnel of ***Tele*Eye**.
8. Under no circumstance shall ***Tele*Eye** be liable for any damages to any parties so caused by the usage of the above specified equipment or so caused during service provision.
9. The conditions, limitations and liabilities of this warranty card may be extended to further terms and conditions or superseded by other terms and conditions when otherwise specified on any of the products.
10. Customer shall be responsible for backing up the data contained in the disk products.
11. ***Tele*Eye** shall have no responsibility arising out of any damage to, or loss of the data contained in the disk products.
12. All the above determinations are up to the sole discretion of ***Tele*Eye**.

G Smith

Appendix 2

sureLINK Technology

sureLINK technology is available in **TeleEye RX**, which enables you to connect to the **TeleEye RX** with broadband dynamic IP Internet connection. If you can only use broadband dial-up account to connect to the Internet through your computer, **sureLINK** provides a solution for sharing the Internet connection between your computer and the **TeleEye RX**.

sureLINK is a group of additional functions, services and software provided for the **TeleEye RX** so as to make it connect to the Internet in any connection methods. Such function can only be used if you have applied for this service. After you have done so, you also need to configure the **TeleEye RX** to make **sureLINK** available. This section will help you to configure and use it.

By using of **sureLINK** technology, the powerful **TeleEye RX** can work on broadband Internet economically. You can perform a cost effective and convenient remote live video monitoring anytime and anywhere.

sureLINK Address

You can apply for a **sureLINK** address (domain name), such as *www.hkpublic.teleeye.teleeye.net*, for your **TeleEye RX**. You can use this name to login or browse the built-in web server **. One of the advantages is that you are not required to memorize the IP address (e.g. 210.177.50.156) of the **TeleEye RX**. Since the **sureLINK** address is fixed while the IP address may change periodically (in case when dynamic IP is used), you do not need to worry about the expiration of the IP address. The **sureLINK** address can also be used in **TeleEye RX** web browsing to see live video on standard web browser (e.g. IE, Netscape).

Refreshing Rate

When **sureLINK** address feature is enabled, the **TeleEye RX** will periodically update its current IP address to our database to ensure that the **sureLINK** address is always forwarded to a valid IP. You can set this update period through WX-30 software.

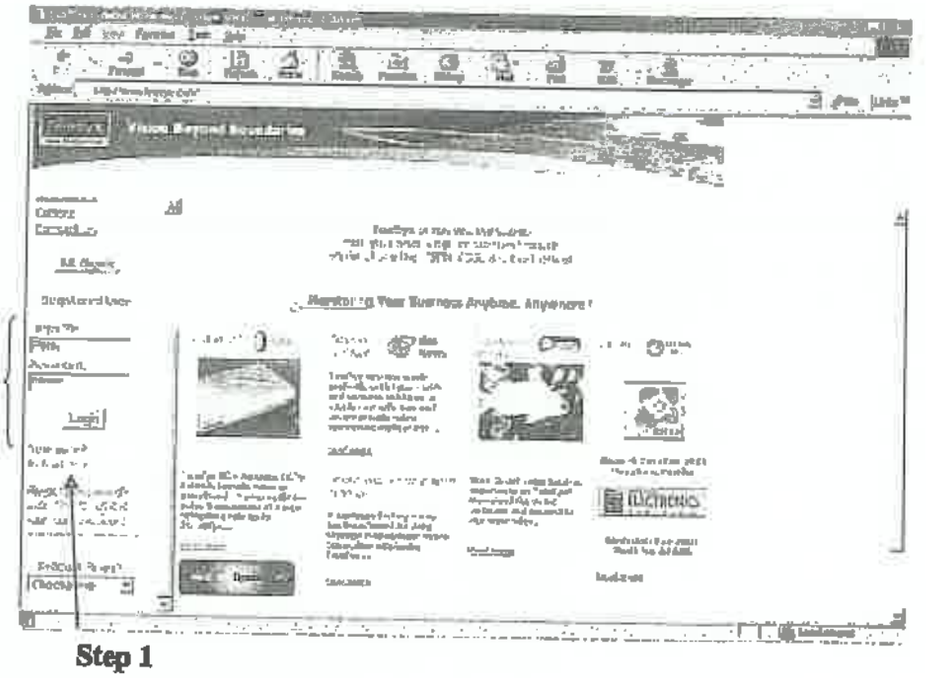
DNS Services:

Assigned when the **TeleEye RX** can directly access the Internet without the help of **TeleEye** Proxy Server

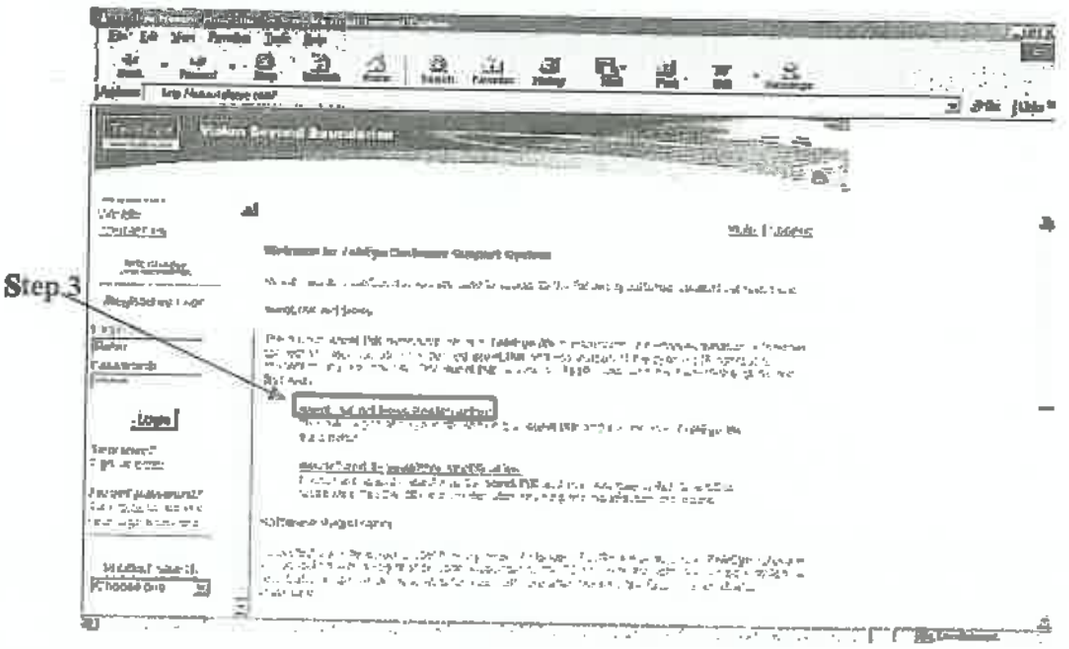
GSM

How to Apply for *sureLINK* Address

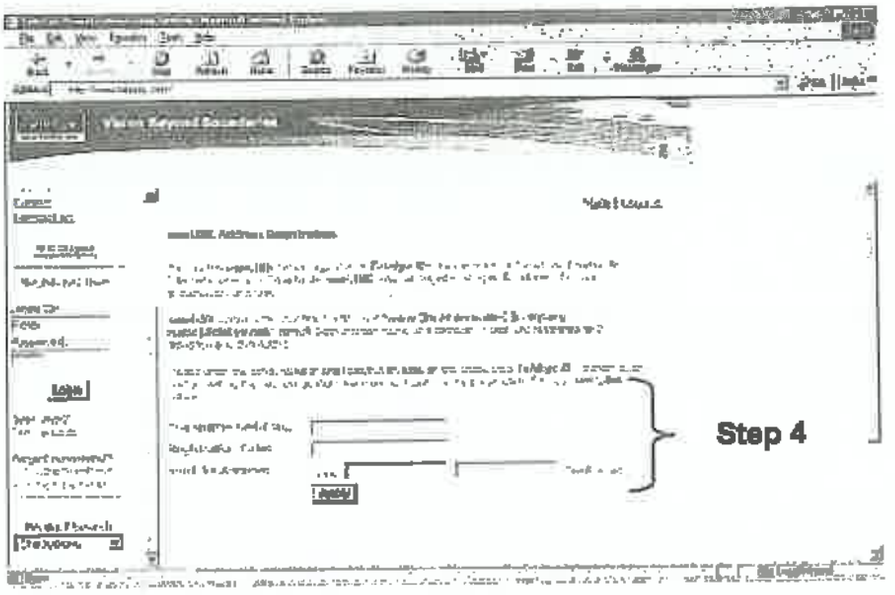
You can apply for ***sureLINK*** by visiting our web site at ***http://www.TeleEye.com***



1. **Sign up to create your user account**
2. **Login the page using your registered name and password.**
3. **Click *sureLINK* Address Registration button**



GSM



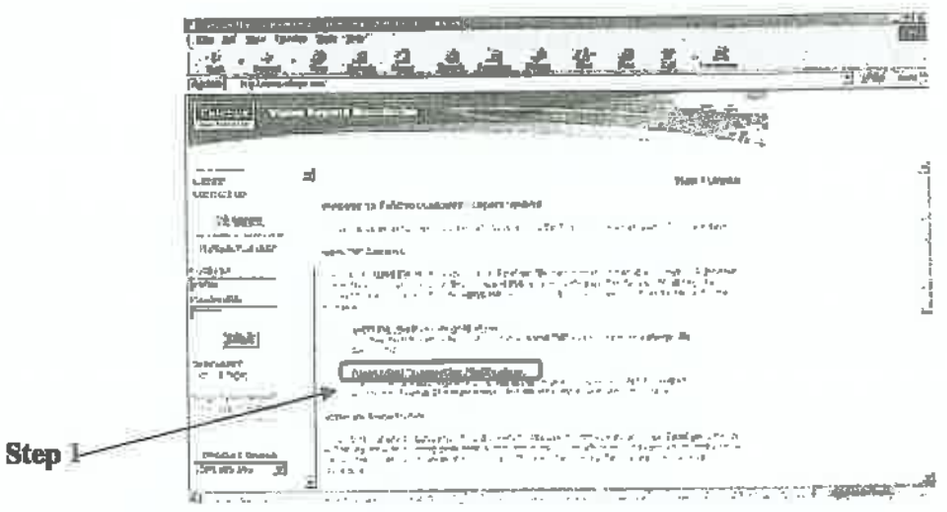
4. Enter a ***sure*LINK** address (**Domain Name**), your ***Tele*Eye RX Serial No.** and **Registration Code** in the fields provided respectively. Then click the **Apply** button. The process is then completed.

After we receive your domain name registration for your ***Tele*Eye RX**, your application will be processed. Normally, it requires about 2 to 3 working days to activate ***sure*LINK** for your ***Tele*Eye RX**. You will receive a notification e-mail when your ***sure*LINK** service is ready.

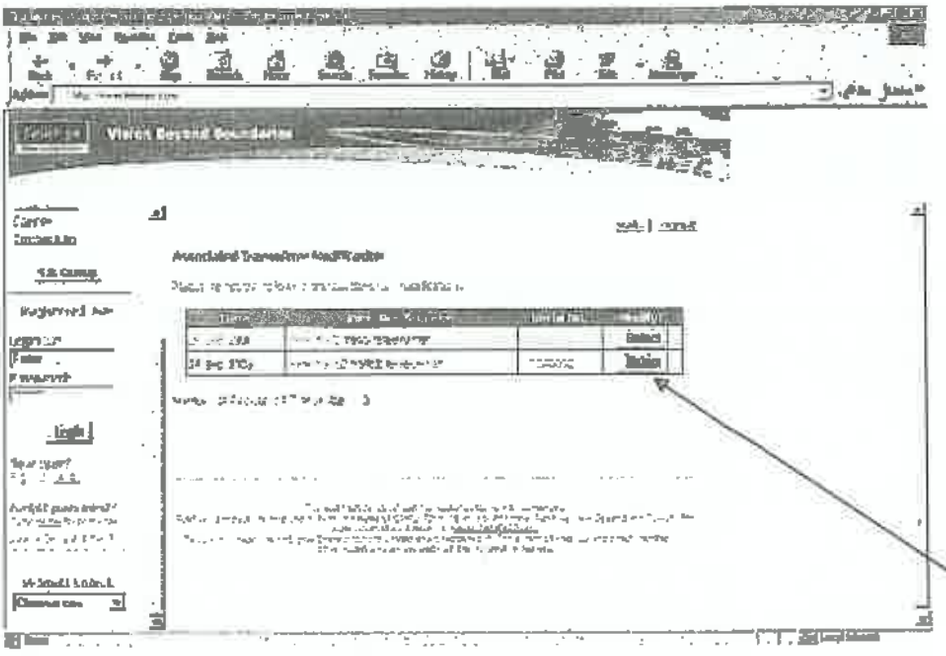
Video Server Modification

Since the ***sure*LINK** (Domain name) address corresponds to a single transmitter, if you change from one transmitter to another one, you have to inform us to update our database record. To do this, you can visit our ***Tele*Eye** Product Support again and follow the steps as below:

1. Transmitter Modification > Select a ***sure*LINK** address (**Domain Name**) you want to modify

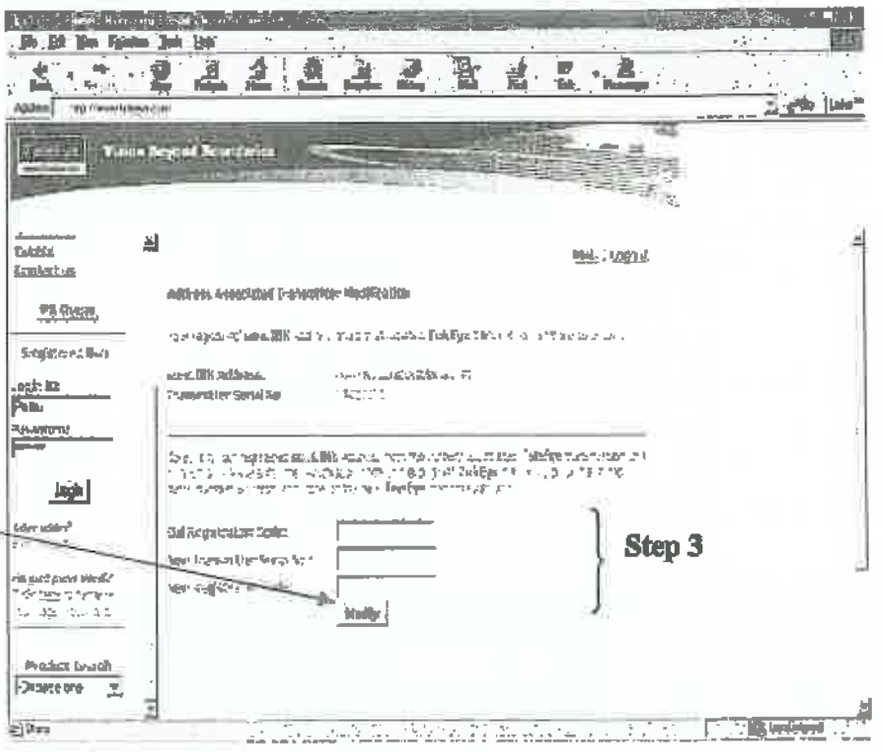


GSM



Step 2

2. **Enter the Old Registration Code, New Transmitter Serial Number and New Registration Code at each field provided. Click Modify button to submit the form.**

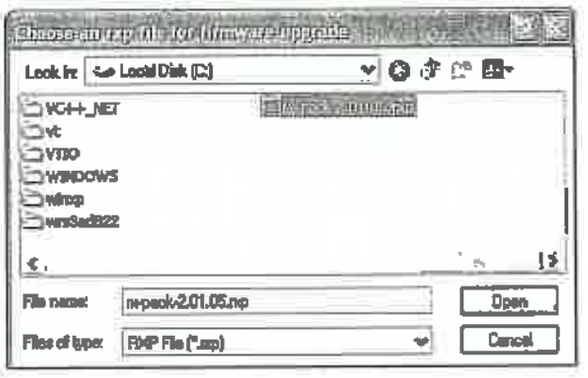


If the above procedure is completed successfully, the *sure*LINK will be effective immediately.

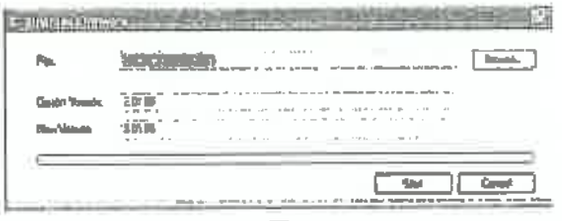
Appendix 3

Firmware Upgrade

Step 1 : Click Transmitter -> Settings On {**Transmitter Information**} panel, click **[Upgrade Firmware]**



Step 2 : A panel **[Choose an RX file for firmware upgrade]** will pop up.
Choose the rxp file and click **[Open]**.



Step 3: A panel **[Upgrade Firmware]** will pop up and click **[Start]** to start upgrading.

Step 4: A warning message will pop up, click **[Yes]** to continue

Step 5: Wait until the progress bar became full.
*****Do not close the panel until upgrading finished.***

Kcsm

Appendix 4

Security Mode

On RX504, there are 2 security modes: BASIC and ADVANCED. User can either choose BASIC security mode for simple usage or ADVANCED security mode for multiple user accounts and flexible access right. The comparison of the security modes can be found in the following table:

Description		Basic Security Mode	Advanced Security Mode
Number of account		2	20

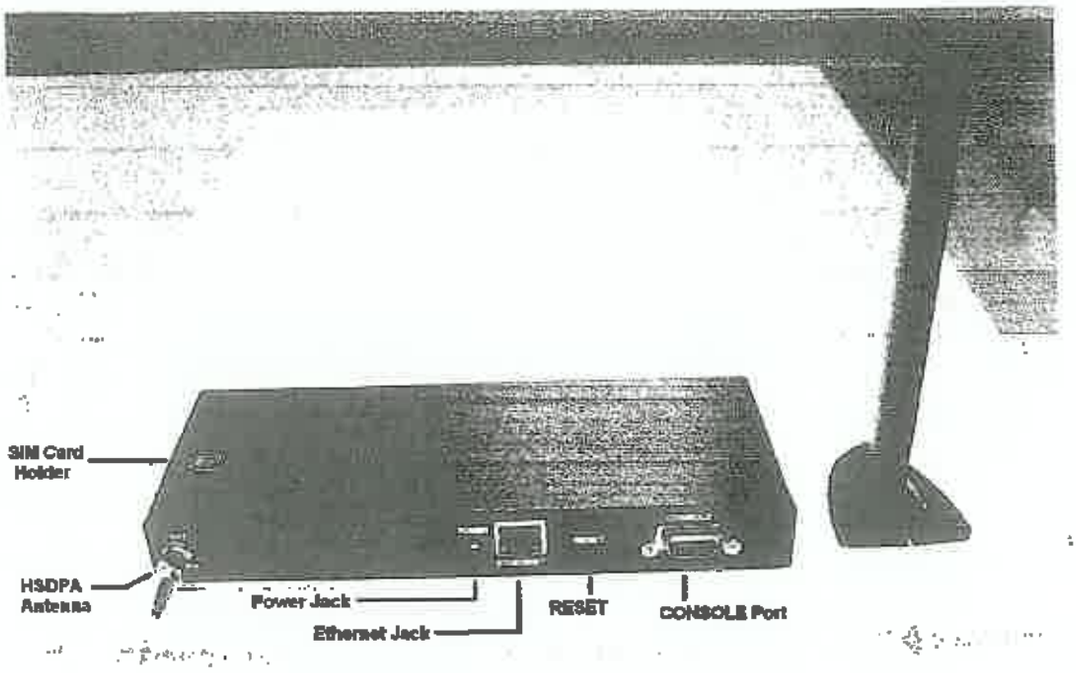
HSDPA-220C Wireless Router

1. Back panel description



HSDPA Router

SIM card holder : Please insert SIM card into SIM card holder same direction as shown on top panel.

HSDPA Antenna: Please install HSDPA Antenna on this position.

Power Jack: Please plug in power adaptor. It is 12VDC 2A.

Ethernet Jack: Plug in RJ45 cable.

Console port: It is for debug purpose during in production.

2. Front Panel:

USB port is for adding extra USB device. It is reserved for dedicate purpose. It will be based on what customer needs. So far it can be implemented for ADSL's failover back up purpose.

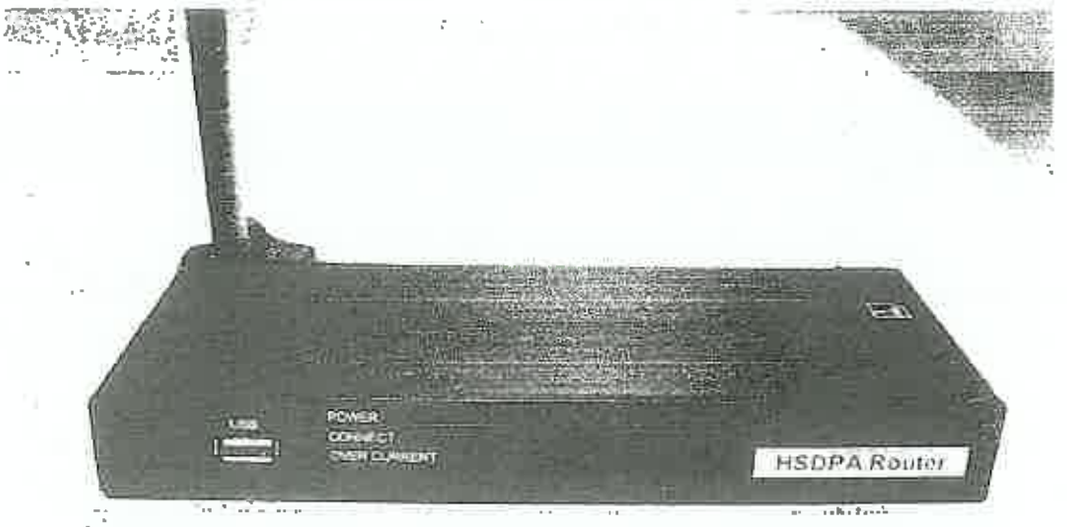
LED descriptions:

POWER: To show it provides power as standard USB 5V 500mA.

CONNECT: Once device is under router control, the LED will be ON.

OVER CURRENT: If device drain more power then LED will be ON.

Mosm



Installation

1. Package. It includes
   1 piece Router, 1pc HSDPA GSM antenna, 1 piece Power adaptor, 1 piece RJ45 LAN cable.

Fig-1

Fig-2

2. Installation. Insert SIM card into SIM card holder .SIM card can be pushed out by presing in plastic rod as Fig-2

   Plug in RJ45 LAN cable both to Router & PC. Install GSM antenna into "HSDPA ANT" position as shown on Fig-1. Plug in power adaptor. LEDs will be ON.

3. Software setup

   a. Under Windows, Control panel - LAN network – Content- Internet Protocol (TCP/IP), select fix IP & DNS address. Please enter following setting as Fig-3.
      Enter followings:
      IP address: 192.168. 0.100
      Subset Mask: 255.255.255.0
      Default Gateway: 192.168.0.1
      DNS address :168.126.63.1

Gsm

b. Please type in http://192.168.0.1 into IE browser, then PC will link to Router automatically.

```
C:\>ipconfig

Windows IP Configuration

Ethernet adapter 區域連線:

        Connection-specific DNS Suffix  . :
        IP Address. . . . . . . . . . . . : 192.168.0.100
        Subnet Mask . . . . . . . . . . . : 255.255.255.0
        Default Gateway . . . . . . . . . : 192.168.0.1
```

Enter this address for browser

b. After setup software pop up, type in password & user name as "admin" for both as default at 1st time as Fig-4.

4. Mode

It can select PPP auto or bridge mode.

User ID, Password for network.

PIN is for entering PIN code on SIM card. If PIN code is disabled, then column will not be shown

Initial string is for initializing HSDPA modem. For GPRS attachment, it will be **+CGDCONT=1,"IP","internet"** please check with your service provider to confirm such information. Please be aware that high case and lower case characters are matter.

Tel Number: is either *99# or *99***1# for modem to dial in most of case. Please check with service provider to confirm.

Apply & Reboot: Once default value has been changed, please click on this to make sure new settings will be applied. Otherwise it may not change the default value.

Once setting is finished, click on "**Connect**" to have router to link to HSDPA data network.

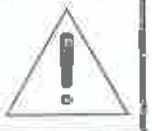
CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN



CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure. It may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

WARNING

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

CAUTION:

USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.

WARNINGS

Do not expose the equipment to rain or moisture.

Do not remove the cover from the equipment.

Do not insert anything into the equipment through the ventilation holes.

Do not handle the mains lead with wet hands.

Do not cover the ventilation with any items such as tablecloths, newspapers, curtains, etc.

No naked flame sources, such as lighted candles, should be placed on the equipment.

When disposing of used batteries, please comply with governmental regulations or environmental public instruction's rules that apply in your country or area.

Do not place anything about 0.1 meter above the top panel.

Make a space of about 0.1 meter around the unit.

No objects filled with liquids, such as vases, shall be placed on the apparatus.

When the switch is in the OFF position, the equipment is not completely switched off from MAINS.

Copyright

Recording and playback of any material may require consent. For further information refer to the following US ordinances:

- Copyright act of 1956
- Dramatic and Musical Performance Act 1958
- Performers Protection Acts 1963 and 1972
- any subsequent statutory enactments and orders

SEQ 29/2021-2319

IMPORTANT SAFETY INSTRUCTIONS

READ BEFORE OPERATING EQUIPMENT

This product was designed and manufactured to meet strict quality and safety standards. There are, however, some installation and operation precautions which you should be particularly aware of.

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacture's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Additional Safety Information!

- This product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to.
- Apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
- When the switch is in the OFF position, the apparatus isn't completely switched-off from the MAINS.

SEQ 29/2021-2320

NOTE TO CATV SYSTEM INSTALLER:

This reminder is provided to call the CATV (Cable-TV) system installer's attention to Article 820-40 of the NEC, which provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE:

Changes or modifications may cause this unit to fail to comply with Part 15 of the FCC Rules and may void the user's authority to operate the equipment.

SEQ 29/2021-2321

CE marking (only EU version)

CE **English**
This product is in conformity with the EMC directive and low-voltage directive.

CE **Française**
Cet appareil est conforme á la directive EMC et á la de directive sur les basses tensions.

CE **Deutsch**
Dieses Gerät entspricht den EMC-Richtlinien und den Richtlinien für Niederspannungsgeräte.

- Customer Registration Document

SEQ 29/2021-2326

Introduction

Thank you for selecting the Marantz Professional PMD660 Portable Solid State Recorder.
The PMD660 is an audio recorder that records in digital audio formats onto a Compact Flash™ memory card (CF card) or Microdrive™.
CF cards, also used in digital cameras, are widely available at consumer electronics retailers and computer resellers.

Features

- Stereo (2 channels) and mono (1 channel) audio recording and playback.

- Audio inputs may be from :
  - the built-in microphone(s),
  - condenser or dynamic microphone(s) connected to the MIC IN jacks, or
  - line level audio sources connected to the LINE IN jack.

- Audio outputs may be from :
  - the built-in speaker,
  - headphones connected to the PHONES jack, or
  - analog audio devices such as an amplifier or other devices connected to the LINE OUT jack.

- Records onto various types of CF cards.
  (Please refer to the Marantz Professional web site www.d-mpro.com for what kind of media are recommended.)

- Computer compatible
  The PMD660 records directly onto CF cards.
  Recordings can be transferred to your desktop or laptop computer by removing the CF card from the PMD660 or by connecting the PMD660 to your computer via the USB port. Audio recorded in the popular MP3 compression format is directly available for intranet or Internet file sharing.
  - MS-DOS™ and Windows compatible file system.

- Easy one control recording
  Simply push the REC button.

- Automatic recording
  The PMD660 can be set to stop recording when there is silence (Silent Skip) and automatically start when sound resumes. The PMD660 can be set to automatically add an EDL mark to the track at each such starting point.

- Manual and automatic record level control (ALC).

- Two different recording formats :
  - Compressed recording using MPEG1 Layer III (MP3) mono and stereo.
  - MP3 compressed at 128kbps (stereo) or 64kbps (mono).
  - Uncompressed recording using 16-bit linear Pulse Code Modulation (PCM).

SEQ 29/2021-2327

- Security – CF cards
  For security, the CF card compartment door can be secured with a screw. Requiring a tool to open the CF card compartment reduces casual removal of the CF card.

- Pre-Recording memory buffer records 2 seconds of audio before recording is started.

- Playback aids
  A common problem with lengthy voice or other recordings is difficulty in locating one or more specific passages for playback. The PMD660 has several ways to mark specific record starting points.

- Tracks
  - A new track (file) is automatically started each time you begin a recording.
  - It is not possible to record over a previously recorded track unless it is first erased.
  - An Auto Track feature can add tracks every minute or other selected recording intervals. (Minute track: Setting the interval to one minute provides a new track every minute of a recording. This permits navigation of a large audio recording by time.)
  - A new track can be started during recording by pressing the REC button (if the "Manual Trk" preset is turned On).

- EDL marks*
  EDL (Edit Decision List) marks can be created during recording manually or automatically. EDL marks help you find specific points in the recording.
  - During playback, you can instantly locate EDL marks.
  - Up to 255 EDL marks can be added to a CF card. EDL marks are numbered consecutively starting at one. During recording, you can manually add an EDL mark by pushing the MARK button. EDL marks can also be added automatically.

  * The EDL marking system is proprietary to Marantz Professional solid state recorders.

- Virtual Track
  Virtual Track allows you to set an in point and an out point within a file for later immediate playback access.

- Copy Segment
  Copy Segment works just like the copy and paste function of your standard word processing program. It allows you to "highlight" a section of a track(file) by setting an in point and an out point, and then paste that section into a new track(file) without destroying the original track(file).

- Setup
  Three menu selectable Presets make it easy to switch between your commonly used input, recording format and other menu selections.

- Time / Date stamp
  A built-in date and time generator marks (stamps) the beginning of each track.

- There are three ways to power the PMD660 ;
  - Included AC adapter.
  - AA Alkaline batteries (4 hours).
  - Rechargeable Ni-MH batteries.

- REMOTE jack for optional Marantz Model RC600PMD permits a wired remote for controlling the recording process.

SEQ 29/2021-2328

Preparation

Installing the carry strap

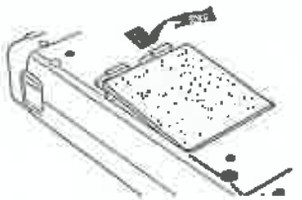
1. Put the carry strap through the shaft of PMD660.

2. Put the carry strap through the stopper of PMD660.

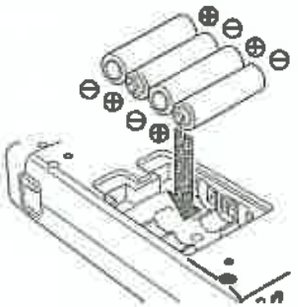
3. Secure the carry strap by putting it through the second stopper.

Installing batteries

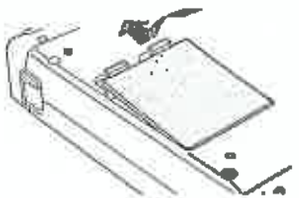
1. Remove the battery compartment.



2. Insert the new batteries (AA type) with correct +/ -polarity.



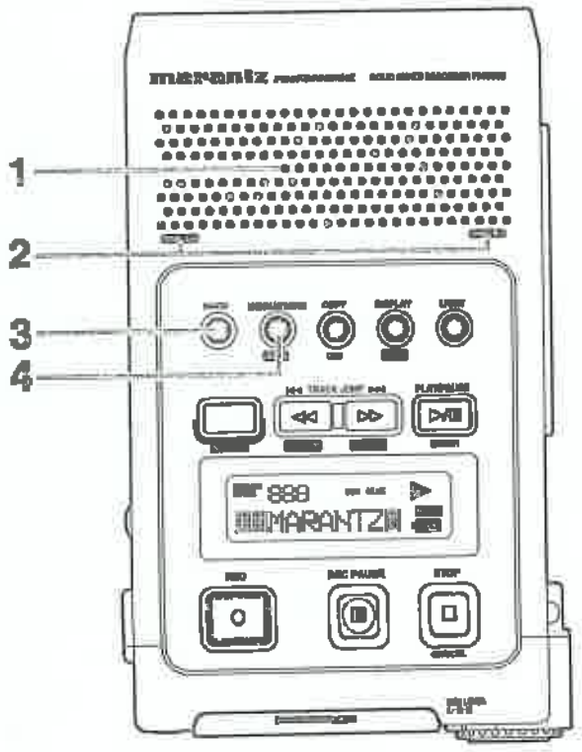
3. Close the battery compartment.



SEQ 29/2021-2329

Controls and Connections

Top side



1. Speaker
When "Output" in the preset menu is set to "SP/HP" or "SP/HP+LINE", the played back audio signal is output the internal speaker. Headphones plugged into the PHONES jack mute the internal speaker. HP/SPK VOL controls the built-in Speaker and Headphone volume.
See Page 44, How to select an output for playback.

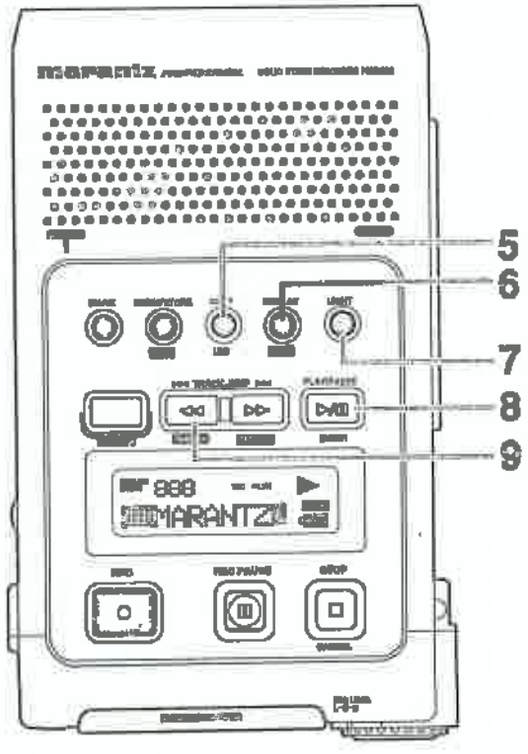
2. MIC (Internal microphones)

3. MARK button
Push the MARK button to add an EDL Mark manually during pause, recording, or playback.
Adding an EDL Mark during recording introduces an audible click in the recording when using the internal microphone.

4. MENU / STORE / EDIT button

- **MENU**
  Menu, accessed from stop by pushing the MENU button, lets you set or change recording and playback parameters, such as changing inputs and setting the Date and Time.
- **STORE**
  Push the STORE button while in the preset menu to write menu changes and return to stop mode.
  See page 41, How to set or change the preset parameters.
- **EDIT**
  Edit menu, accessed from stop by pushing and holding the SHIFT button then pushing the EDIT button, lets you erase tracks, erase EDL marks and format the CF card.

SEQ 29/2021-2330



5. COPY / USB button

- **Copy (Copy segment)**
  During playback, push the COPY button to copy mode and setup the start point and end point.
  See page 29, How to Virtual Track and Copy Segment.

- **USB**
  Push and hold the USB button while you turn on the PMD660's POWER switch.
  The CF card in the PMD660 appears as an external drive on a connected computer. It may also be removed for data transfer.
  See page 36, How to connect via the USB port.

6. DISPLAY / LOCK button

- **DISPLAY**
  Push to tab through alternate information displays.
  Displays are slightly different in Stop, Record and Play.
  See Page 40, Display, for more information.

- **LOCK**
  Secures the PMD660 in its present state during Record, Playback or Stop.
  Push and hold the SHIFT button while pushing the DISPLAY/LOCK button to lock all functions except the LIGHT button.

SEQ 29/2021-2331

7. LIGHT button

Push the LIGHT button to momentarily turn the Display light on.

Push and hold for one second to switch the Display light on. Push to switch the Display light off.

8. PLAY/PAUSE / ENTER button

- **PLAY/PAUSE (playback)**

  From stop, push to begin playback.

  During playback, push to pause playback.

  During play - pause, push to resume playback.

- **ENTER (menu)**

  During menu functions, push to accept the current setting and switch to the next menu item to be set.

9. TRACK JUMP ⏮ / ◀◀ / MARK- button

- **TRACK JUMP ⏮**

  During playback, push to jump to the previous track.

  If pushed while playing, the first track jumps to the last track on the CF card.

- **◀◀**
  - During playback, push and hold the ◀◀ button to "rewind" and do a 2X speed audible search in the reverse direction. Release to return to normal forward playback.
  - During play - pause, push and hold the ◀◀ button to rewind quickly. The rewind is at 10X speed for three seconds, then it automatically speeds up to 140x speed.

Note:

If the ◀◀ button is held past the beginning of a track, the rewind will continue into the previous track.

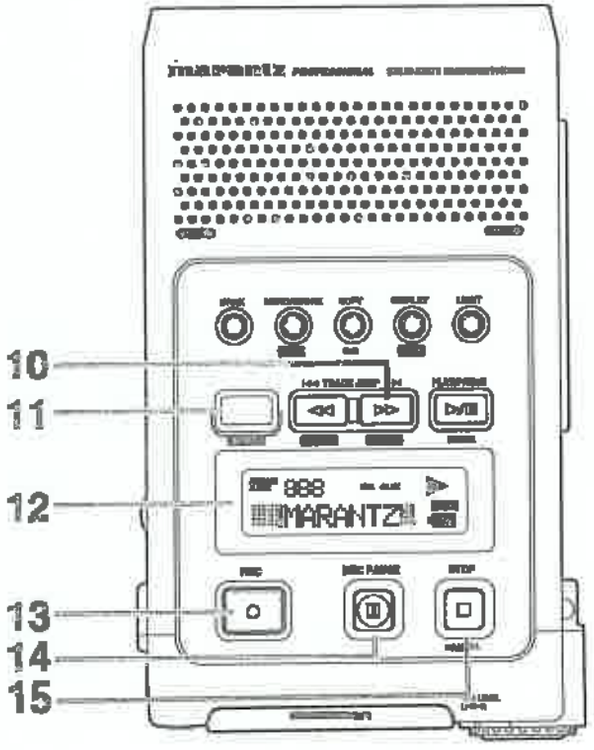
During Edit menu and Menu functions, push the ◀◀ button to increment a parameter in the - direction.

- **MARK-**

  From Stop push and hold the SHIFT button while pushing the Mark- button to tab through the EDL marks on the CF card.

  To start playback from the displayed EDL Mark, push the PLAY/PAUSE button.

SEQ 29/2021-2332



10. TRACK JUMP ⏭ / ⏩ / MARK+ button

- **TRACK JUMP ⏭**
  During playback, push to jump to the next track.
  If pushed while playing, the last track jumps to the first track on the CF card.

- **⏩**
  - During playback, push and hold the ⏩ button to "fast forward" and do a 2X speed audible search in the forward direction. Release to return to normal forward playback.
  - During play - pause, push and hold the ⏩ button to fast forward quickly. The fast forward is at 10X speed for three seconds, then it automatically speeds up to 140x speed.

Note:
If the ⏩ button is held past the end of a track, the fast forward will continue into the next track.
During Edit menu and Menu functions, push the ⏩ button to increment a parameter in the + direction.

- **MARK+**
  From Stop, push and hold the SHIFT button while pushing the Mark+ button to tab through the EDL marks on the CF card.
  To start playback from the displayed EDL Mark, push the PLAY/PAUSE button.

SEQ 29/2021-2333

11. SHIFT button
Push and hold the SHIFT button while you push other buttons (white labels) to activate alternate functions.

12. Display
Labels, icons and alphanumeric messages on the display communicate the status of PMD660.

13. REC button
From Stop, push to start recording.
From Record - pause, push to resume recording.
During recording, push to increment the track (start a new audio file), if "Manual Trk" is turned on in the Preset menu.

14. REC PAUSE button
From Stop, push to enter record - pause. This allows you to check your record level prior to recording.
During recording, push to pause.
The REC indicator will flash when paused.

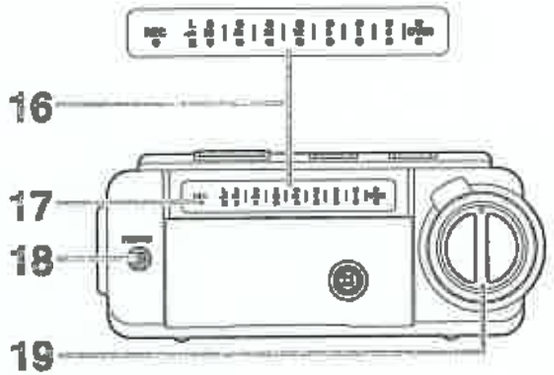
15. STOP / CANCEL button

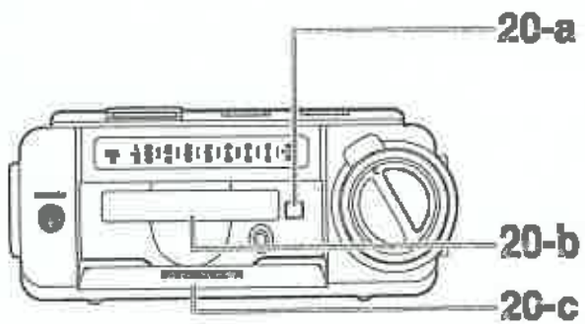
- **STOP**
  During recording, push to stop recording and end the track (file).
  During playback, push to stop playback and end the playback session.
  When you resume, playback starts at the beginning of the current track.

- **CANCEL**
  During menu operations, push to cancel all entries made and return to stop mode.

SEQ 29/2021-2334

Front side





16. Level meter
The louder the sound input to the recorder on the Left/Right channel, the more LED lights are displayed. When the "Meter Mode" of preset menu is "Peak Only", only a peak level is displayed. (page 52)

17. REC Indicator
Red indicator light is lit and steady during Record and flashing during Record pause.

18. PHONES jack
Stereo headphones are plugged into this jack.
Set "Output" of the preset menu to SP/HP (See Page 44).

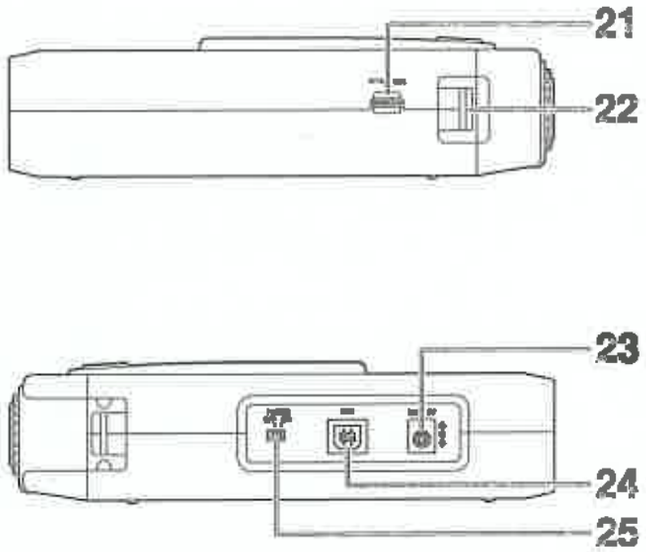
19. REC LEVEL controls
Turn to adjust the record level when the "LevelCont" of preset menu is "Manual" or "ALC+Manual".
The inside control (Right channel) and outside control (Left channel) turn together, unless you hold one while turning the other.
The optimum record level is when the level meter goes as close to 0dB as possible but does not go OVER.

20. CF card compartment
Pull the card door open to access the CF card.

20-a. Card eject button
20-b. CF card slot
20-c. CF card door

SEQ 29/2021-2335

Left / Right side



21. HP/SPK VOL control
Turn to adjust the volume of headphones plugged into the PHONE jack or the built-in speaker. Audio on the built-in speaker is automatically interrupted when recording with the internal microphone.

22. Carry strap shaft
Attach the supplied carry strap here.

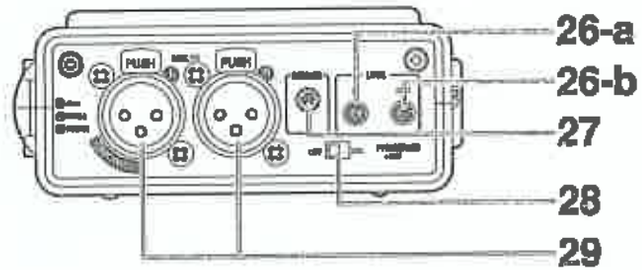
23. DC IN jack
Plug the supplied AC adapter in this jack.
The power supplied is 2.0A at 5V DC.
The PMD660 automatically switches to adapter power if it was running on battery power. If AC power is interrupted by a power outage or unplugging the adapter, the PMD660 automatically switches to battery power.

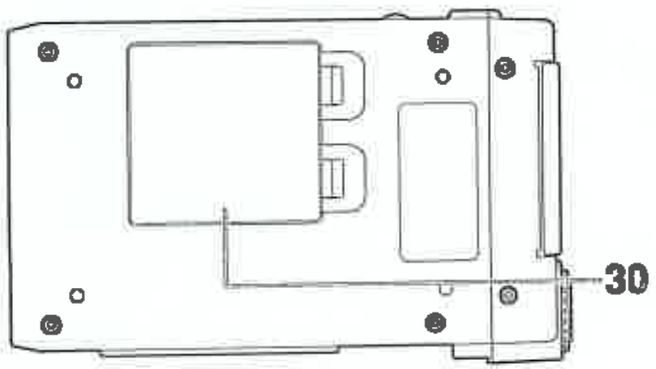
24. USB port
Plug the supplied USB cable in this port and connect the other end to your computer.

25. POWER switch
Slide to turn Power on or off.

SEQ 29/2021-2336

Rear side





26. LINE IN/OUT jack
Plug external line level audio devices in this jack.

a. LINE IN
Plug stereo audio cable in this jack to record from the output of an external unit.

b. LINE OUT
Plug stereo audio cable in this jack to connect to the input of an amplifier or other external unit..
Set "Output" of the preset menu to "LINE" or "SP/HP+LINE" (See Page 44).

27. REMOTE jack
This jack accepts the optional wired remote Marantz model RC600PMD. Model RC600PMD connects via a TRRS (Tip Ring Ring Sleeve) connector.
Model RC600PMD permits:
- Starting recording (Same as the REC button).
- Pausing recording (Same as the REC PAUSE button).
- Adding EDL marks (Same as the MARK button).

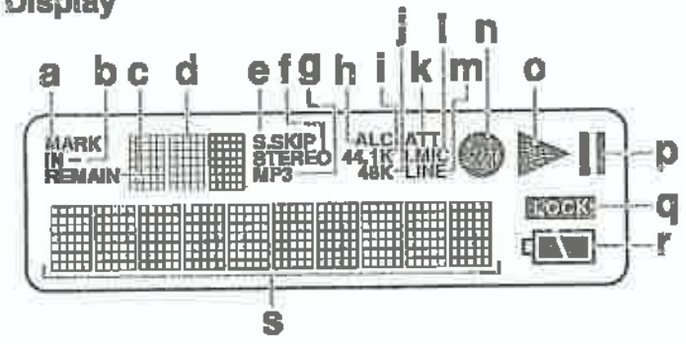
28. PHANTOM power switch
Switch to on to provide +48V of power for a condenser microphone(s).

29. MIC IN jacks
Plug external microphones in the MIC IN jacks.
For mono recording, use the Left jack.

30. Battery compartment
Pick and pull to open the Battery compartment.

SEQ 29/2021-2337

Display



a. MARK
The MARK label appears when the number displayed on the upper alphanumeric display refers to EDL marks.

b. IN-
The IN- label appears when the beginning (start point) of Copy segment function has been set.

c. REMAIN
The REMAIN label appears to indicate remaining time.

d. Upper alphanumeric display
Displays track number, number of tracks on CF card, EDL mark number, number of EDL's on CF card.

e. S.SKIP
The S.SKIP label appears when Silent Skip is enabled.

f. STEREO
The STEREO label appears when the recording channel is stereo.

g. MP3
The MP3 label appears when the audio file is MP3.

h. ALC
The ALC label appears when the PMD660 automatically responds to changes in recording input level.

i. 44.1K
The 44.1K label appears when the recording audio wave(s) is 44,100 samples per second.

j. 48K
The 48K label appears when the recording audio wave(s) is 48,000 samples per second.

k. ATT
The ATT label appears when input from a microphone(s) connected to the MIC IN jacks is cut by -20dB.

l. I.MIC/MIC
The I.MIC label appears when input selected for recording is the internal microphone. The MIC label appears when external microphone(s) is selected.

m. LINE
The LINE label appears when input selected for recording is the LINE IN jack.

n. Record
The Record symbol appears when the PMD660 is in record mode. It appears with the Play symbol when recording and appears flashing when in record - pause.

o. Play
The Play symbol appears when the PMD660 is in playback, playback pause, recording, or recording pause.

p. Pause
The Pause symbol appears when the PMD660 is in playback pause or recording pause.

q. LOCK
The Lock symbol appears when the PMD660 is in key lock.

r. Battery
The Battery symbol appears in most displays to indicate battery usage.

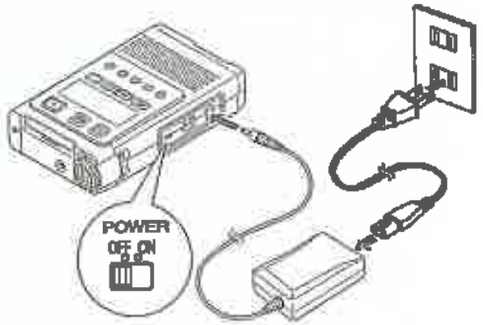
s. Lower alphanumeric display
Displays a variety of information including remaining time, clock time, menu settings, etc.

SEQ 29/2021-2338

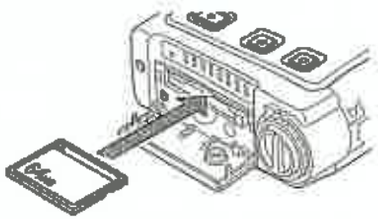
Basic operation

The PMD660 comes factory preset for recording voice using its built-in (internal) microphone.
These are settings for recording a meeting, not settings for recording a vocal performance.

1. Unpack the AC adapter and the PMD660.
   a. Plug AC adapter into 100 - 240VAC power.
   b. Plug the adapter jack into the PMD660 at DC IN.



2. Install a CF card.
   See page 17 for installing a CF card.



Note: Outside of the USA, a CF card is not included.

3. Slide the POWER switch to turn on.

a. A full display will appear. Wait for the PMD660 to initialize.

b. The display will change to this display for a newly formatted CF card.

SEQ 29/2021-2339

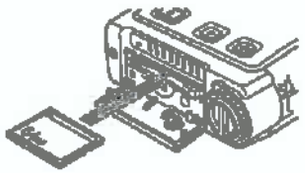
CF cards

The PMD660 records onto various types of CF (Compact Flash) cards.
Please refer to the Marantz Professional web site at www.d-mpro.com for what kinds of media are recommended.

To insert a CF card

a. Open the CF card door.

b. Fully insert the CF card.



c. Close the CF card door.

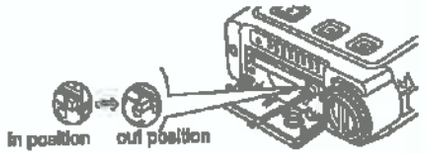
Note:
If the CF card door won't latch, check that the Card eject button is in the click in position.

To eject a CF card

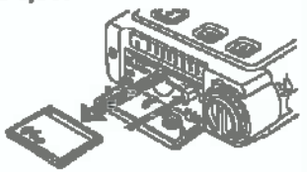
a. Slide the POWER switch to turn off.

b. Open the CF card door.

c. Push the card eject button so it is in click out position.



d. Push the Card eject button and remove the CF card.



- If the CF card door opens while power is on, "Door Open" is displayed and the PMD660 turns off.
- If recording is in progress, opening the CF card door automatically stops recording and writes critical track information to properly close the file before powering off.

SEQ 29/2021-2340

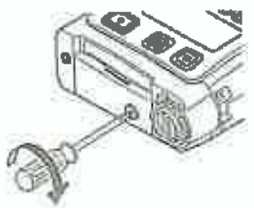
CF card security

The supplied CF card compartment security screw requires using a small Phillips screwdriver to open the CF card compartment door. This reduces the possibility that the CF card will be misplaced or stolen.

a. Remove the plastic pin and then the retainer.

b. Insert the screw.

c. Tighten the screw with a small Phillips screwdriver tight enough so the screw cannot be removed with a fingernail.



CF card Format

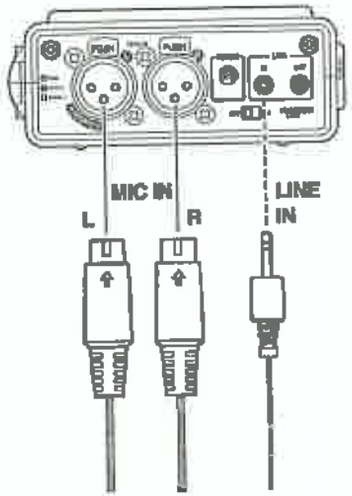
Formatting a CF card **erases all audio files on the CF card** and prepares it for use in the PMD660.
If the CF card is formatted other than FAT16 or FAT32 (FAT=file allocation table), please format in your computer.

Setup the **"Format"** in the Edit menu. (page 28)

SEQ 29/2021-2341

Recording

Connection Diagram



Recording Procedure

1. Slide the POWER switch to turn on.

2. Push the REC button to begin recording.

The Rec indicator will be lit and steady while recording.
The display will show the information display of recording.
(page 40)

SEQ 29/2021-2342

3. Push the REC PAUSE button to pause recording.

4. Push the STOP button to stop recording and end the track (close the audio file).

The display will show the information display of stop.

Audio Inputs for recording

Audio Inputs for recording are selected using the Input Menu.

Channel : Stereo

Display	Input Menu
I. MIC	Internal Mic Recording (Stereo, L/R ch)
MIC	External Mic Recording (Stereo, L/R ch)
LINE	LINE Recording (Stereo, L/R ch)

Channel : Mono

Display	Input Menu
I. MIC	Internal Mic Recording (Mono, L ch)
MIC	External Mic Recording (Mono, L ch)
LINE	LINE Recording (Mono, L ch)

Setup the **"Input"** (page 44) and **"RecChannel"** (page 46) of the preset menu.

SEQ 29/2021-2343

Recording Format parameters

The PMD660 can record in several compression algorithms.

- Compressed recording using MPEG1 Layer III (MP3) mono and stereo.
- Uncompressed recording using 16-bit linear Pulse Code Modulation (PCM).

Channel : Stereo

RecFormat	Sampling Rate	Bitrate	File Extension
MP3-44.1kHz	44.1kHz	128 kbps	.mp3
MP3-48kHz	48kHz	128 kbps	.mp3
PCM-44.1kHz	44.1kHz	1412 kbps	.wav
PCM-48kHz	48kHz	1536 kbps	.wav

Channel : Mono

RecFormat	Sampling Rate	Bitrate	File Extension
MP3-44.1kHz	44.1kHz	64 kbps	.mp3
MP3-48kHz	48kHz	64 kbps	.mp3
PCM-44.1kHz	44.1kHz	705.5 kbps	.wav
PCM-48kHz	48kHz	768 kbps	.wav

The record file of PCM is BWF (Broadcast Wave Format). (Europe only)

Setup the **"Rec Format"** and **"RecChannel"** of the preset menu. (page 46)

Recording time chart

All times are approximated record times.
Different media manufacturers allow more or less space for error correction and the like on their respective products.

	bit rate	64 kbps	128 kbps
	.mp3	mono	stereo
CARD SIZE	32 MB	1:08	0:33
	64 MB	2:13	1:06
	128 MB	4:26	2:13
	256 MB	8:52	4:26
	340 MB	11:46	5:53
	512 MB	17:44	8:52
	(1 GB) 1024 MB	35:28	17:44
	(2GB) 2048MB	70:56	35:28
	(4GB) 4096MB	141:52	70:56

	fs	44.1 kHz	
	PCM	mono	stereo
CARD SIZE	32 MB	0:06	0:03
	64 MB	0:12	0:06
	128 MB	0:24	0:12
	256 MB	0:48	0:24
	340 MB	1:04	0:32
	512 MB	1:36	0:48
	(1 GB) 1024 MB	3:13	1:35
	(2GB) 2048MB	6:27	3:13
	(4GB) 4096MB	12:54	6:27

	fs	48 kHz	
	PCM	mono	stereo
CARD SIZE	32 MB	0:05	0:02
	64 MB	0:11	0:05
	128 MB	0:22	0:11
	256 MB	0:44	0:22
	340 MB	0:59	0:29
	512 MB	1:28	0:44
	(1 GB) 1024 MB	2:57	1:28
	(2GB) 2048MB	5:55	2:57
	(4GB) 4096MB	11:51	5:55

SEQ 29/2021-2344

Recording Level Control

The recording level control lets you select the type of input level control.

- At Manual, you control the input level with the REC LEVEL controls.

  - The inside control(Right Channel) and outside control (Left Channel) turn together unless you hold one while turning the other.
  - The optimum record level is when the level meter goes as close to 0dB as possible but does not go OVER.

- At ALC (Automatic Level Control), the PMD660 automatically responds to changes in input level.

- At ALC+Manual, ALC is selected and fine tuning of the recording level is enabled.

Setup the **"LevelCont."** of the preset menu. (page 51)

Microphone Attenuator

The microphone attenuation switch permits the direct use of microphones that differ in sensitivity.

- At 0dB, No microphone attenuation.
- At -20dB, Input from a microphone(s) connected to the MIC IN jacks is cut by -20dB.

Setup the **"Mic Atten."** of the preset menu. (page 52)

Pre Record

When PreRecord is on and the PMD660 is in record pause, it 'listens to' the selected audio input(s) and continuously buffers 2 seconds of audio.
Then, when record is started, the PMD660 writes the previously buffered 2 seconds of audio to the card & continues to record from there.

Setup the **"PreRecord"** of the preset menu. (page 47)

Silent Skip (Automatic Pause Recording)

Silent Skip automatically pauses recording when there is a period of silence and resumes recording when sound resumes.

The Silent Skip Menu setting permits:

- Turning Silent Skip On or Off.
- Adjusting the margin sound level that defines silence in -60dB, -54dB, -38dB or -20dB.

Setup the **"Silent Skip"** of the preset menu. (page 50)

Add a Track manually

When Manual Trk (Manual Track Incrementing) is On during recording, push the REC button to increment the track.
A new track is created at that point.
The continuity of sound is not guaranteed and depends on the speed of a card or the file size.

Setup the **"Manual Trk"** of the preset menu. (page 47)

SEQ 29/2021-2345

Add a Track automatically

With Auto Trk(Automatic Track incrementing) on, a new track is begun automatically at specified intervals of recording time.
Automatic Track can be set to increment every 1, 5, 10, 15 or 30 minutes, or every 1, 2, 6, 8, 12 or 24 hours.
Automatic Track makes finding a particular point in a recording easier. For example, if a new track begins every minute during playback, the Minute Track makes finding a particular passage easier because of the relationship between track numbers and time. During playback, you can select track 4 to play approximately the 3rd minute of recording. To go directly to the beginning of the 10th minute, select track 11, etc.

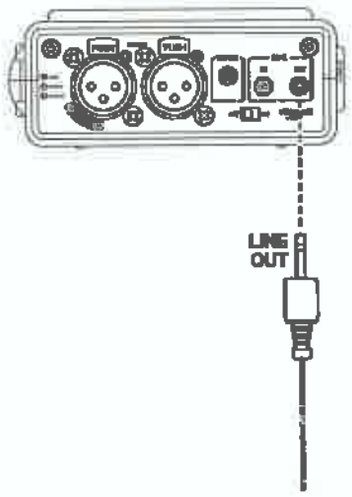
Track #	Recording time minutes:seconds
1	0:00 – 1:00
2	1:01 – 2:00
3	2:01 – 3:00

The continuity of sound is not guaranteed and depends on the speed of a card or the file size.

Setup the **"Auto Trk"** of the preset menu. (page 48)

Playback

Connection Diagram



SEQ 29/2021-2346

Playback Procedure

1. Slide the POWER switch to ON.

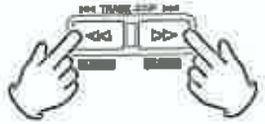
2. Push the PLAY/PAUSE button to begin playback.

The PLAY indicator will be lit and steady while in playback.

3. Push the PLAY/PAUSE button again to pause playback.

4. Push the STOP button to stop playback.

Track Access



- TRACK JUMP ⏮
  During playback, push to jump to the previous track.
  If pushed while playing the first track, it jumps to the last track on the CF card.

- TRACK JUMP ⏭
  During playback, push to jump to the next track.
  If pushed while playing the last track, it jumps to the first track on the CF card.

Search

-
  During play - pause, push and hold the ◀◀ button to rewind quickly. The rewind is at 10X speed for three seconds, then it automatically speeds up to 140X speed.

-
  During play - pause, push and hold the ▶▶ button to fast forward quickly. The fast forward is at 10X speed for three seconds, then it automatically speeds up to 140X speed.

Notes:
- If the ▶▶ button is held past the end of a track, the fast forward will continue into the next track.
- If the ◀◀ button is held past the beginning of a track, the rewind will continue into the previous track.

SEQ 29/2021-2347

Audible Search

- During playback, push and hold the ◄◄ button to "rewind" and do a 2X speed audible search in the reverse direction. Release to return to normal forward playback.

- During playback, push and hold the ►► button to "fast forward" and do a 2X speed audible search in the forward direction. Release to return to normal forward playback.

Audio outputs for playback

Audio outputs for playback are selected using the Output Menu. Selections are:

- The built-in speaker or headphones connected to the PHONES jack. (SP/HP)
- Analog audio devices such as an amplifier or other device connected to the LINE OUT jacks. (LINE)

Setup the "Output" of the preset menu. (page 44)

Note:

When SP/HP+LINE is selected, signal is output from the Line output as well as from the speakers or headphones. The line output in that case can be controlled using the HP/SPKVOL on the left side of the unit.
The initial setting is SP/HP+LINE.

EDL Mark

EDL (Edit Decision List) marks can be created during recording manually or automatically. EDL marks help you find specific points in the recording.

- The EDL marking system is proprietary to Marantz.
- During playback, you can instantly locate EDL marks.
- Up to 255 EDL marks can be added to a CF card.
- EDL marks are numbered consecutively starting at one.
- During recording, you can manually add an EDL mark by pushing the MARK button. EDL marks can also be added automatically.

Add an EDL mark manually

Push the MARK button to add an EDL Mark manually during pause, recording or playback.
During recording, adding an EDL Mark introduces an audible click in the recording when using the internal microphone.

Search the EDL mark

- MARK+

From Stop or playback, push and hold the SHIFT button while pushing the Mark+ button to tab through the EDL marks on the CF card.
To start playback from the displayed EDL Mark, push the PLAY/PAUSE button.

SEQ 29/2021-2348

- MARK-

From Stop or playback, push and hold the SHIFT button while pushing the Mark- button to tab through the EDL marks on the CF card.
To start playback from the displayed EDL Mark, push the PLAY/PAUSE button .

Add an EDL mark automatically

The Auto Mark Menu item turns the automatic EDL mark feature Off or On.
See page 25 to manually add EDL marks.

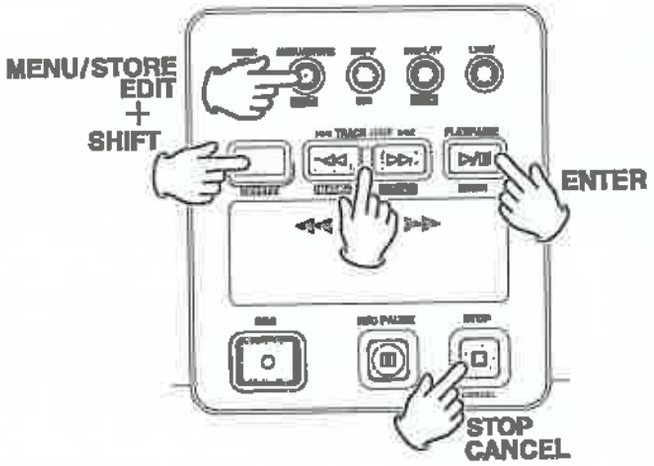
- If Auto Mark is on and the machine is in record - pause, when recording is resumed a mark will be added.
- If Auto Mark is on and the PMD660 is recording audio below the sound threshold for more than three seconds, audio that crosses the threshold will cause a mark to be added.

The Auto Mark Menu setting permits:
- Turning Auto Mark On or Off.
- Adjusting the margin sound level that defines silence in -60dB, -54dB, -38dB or -20dB.

Setup the "**Auto Mark**" of the preset menu. (page 49)

Edit

Edit menu, accessed from stop by pushing and holding the SHIFT button then pushing the MENU/STORE EDIT button, lets you erase tracks, erase EDL marks and format the CF card.



Edit mode includes:
1. **Trk Erase**
2. **TrkMkErase**
3. **AllMkErase**
4. **Format**

SEQ 29/2021-2349

1. Trk Erase (How to erase tracks)

TrkErase lets you erase a selected track.
After identifying the track number you want to erase.

1. Select the Trk Erase Edit menu choice:
   While in stop, push and hold the SHIFT button then push the MENU/STORE EDIT button.
   "Trk Erase" will appear in the display.

2. Push the ENTER button.
   The Display switches to track number flashing.

3. Push the the ◄◄ or ►► button until the track number you want to erase is flashing.

4. Push the ENTER button.
   "Executing" will be displayed until Trk Erase is finished.
   Then "Completed" will be displayed.
   • Display returns to step 3 so you can erase another track.

5. Push the STOP/CANCEL button to cancel.

Note:
The related virtual track(s) and EDL marks associated with the erased track will also erase.

2. TrkMkErase (How to erase all EDL marks within one track)

TrkMkErase lets you erase all of a track's EDL marks.
Decide on which track's EDL marks you want to erase.

1. Select the TrkMkErase Edit menu choice:
   While in stop, push and hold the SHIFT button then push the MENU/STORE EDIT button.
   "Trk Erase" will appear in the display.

2. Push the ◄◄ or ►► button until "TrkMkErase" is displayed.

3. Push the ENTER button.
   The Display switches to track number flashing.

4. Push the ◄◄ or ►► button so the track number whose EDL marks you want to erase is flashing.

5. Push the ENTER button.
   "Executing" will be displayed until TrkMkErase is finished.
   Then, "Completed" will be displayed
   • Display returns to step 4 so you can erase another track's EDL marks.

6. Push the STOP/CANCEL button to cancel.

Note:
EDL marks will automatically be renumbered.

SEQ 29/2021-2350

3. AllMkErase (How to erase all EDL marks)

AllMkErase lets you erase all EDL marks on the CF card.

1. Select the AllMkErase Edit menu choice:
   While in stop, push and hold the SHIFT button then push the MENU/STORE EDIT button.
   "Trk Erase" will appear in the display.

2. Push the ◄◄ or ►► button until "AllMkErase" is displayed.

3. Push the ENTER button.
   The Display switches to "All" flashing.

4. Push the ENTER button.
   "Executing" will be displayed until AllMkErase is finished.
   Then "Completed" will be displayed.
   The PMD660 and display return to stop mode.

5. Push the STOP/CANCEL button to cancel.

4. Format (How to format a CF card)

Format lets you **erase all audio files on the CF card** and prepares it for use in the PMD660.
If the CF card is formatted other than FAT16 or FAT32 (FAT=file allocation table), please format in your computer.

1. Select the Format Edit menu choice:
   While in stop, push and hold the SHIFT button then push the MENU/STORE EDIT button.
   "Trk Erase" will appear in the display.

2. Push the ◄◄ or ►► button until "Format" is displayed.

3. Push the ENTER button.
   The Display switches to "OK?" flashing.

4. Push the ENTER button.
   "Executing" will be displayed until Format is finished.
   Then "Completed" will be displayed.
   The PMD660 and display return to stop mode.

5. Push the STOP/CANCEL button to cancel.

SEQ 29/2021-2351

Virtual Track and Copy Segment

The Marantz Professional PMD660 is the first solid state recorder to incorporate new file editing features like Virtual Track and Copy Segment. Designed with the field reporter in mind, they provide a host of quick and easy to use ways of locating and accessing segments of audio that everyone can utilize.

Virtual Track

Virtual Track allows you to set an In point and an Out point within a file (or across multiple files of the same RecFormat and RecChannel) for later, immediate access. Files marked as Virtual Tracks are stored in the PMD660 and can be accessed quickly by entering the PMD660 in Virtual Playback mode.

See Page 30, Creating a Virtual Track.
See Page 32, Entering Virtual Track Playback mode.

Note:

Because Virtual Tracks are really just location information stored on the card, creating Virtual Tracks requires pratically no memory on your card reserving valuable space for actual recorded material.

Copy Segment

Copy Segment operates exactly like Virtual Track except, instead of storing In and Out points for immediate playback access, Copy Segment physically turns your "highlighted" section into a new and separate file, without destroying the original source file(s).

See Page 31, Using Copy Segment to create a new file.

Virtual Track Edit mode

In addition, Virtual Playback mode has an edit menu that allows you to turn one Virtual Track into a new file, all Virtual Tracks into new files, erase a Virtual Track, and erase all Virtual Tracks.

See Page 33, Virtual Track EDIT mode.

SEQ 29/2021-2352

Creating a Virtual Track

1. During playback, push the COPY/USB button when the audio reaches your desired In Point.

"SetAs IN?" is displayed.

2. Push the PLAY/PAUSE button to store the In point.

"IN-" will flash in the display to indicate the In point has been stored and playback of the file resumes.

3. Continue to let the PMD660 play to your desired Out point, or use the standard transport controls like the ▶▶ or ▶▶I buttons to span greater time lengths.

4. When you have reached your desired Out point, push the COPY/USB button.

"SetAs OUT?" is displayed.

5. Push the PLAY/PAUSE button to store the Out point.

"StoreV. Tr?" is displayed.

6. Push the PLAY/PAUSE button to store your segment as a Virtual Track. "Executing" will be displayed momentarily, and then the display will read "Completed." To playback your created Virtual Track, see page 32, Entering Virtual Playback.

SEQ 29/2021-2353

Using Copy Segment to create a new file

1. During playback, push the COPY/USB button when the audio reaches your desired In Point.

"SetAs IN?" is displayed.

2. Push the PLAY/PAUSE button to store the In point.

"IN-" will flash in the display to indicate the In point has been stored and playback of the file resumes.

3. Continue to let the PMD660 play to your desired Out point, or use the standard transport controls like the ▶▶ or ▶▶I buttons to span greater time lengths.

4. When you have reached your desired Out point, push the COPY/USB button.

"SetAs OUT?" is displayed.

5. Push the PLAY/PAUSE button to store the Out point.

"StoreV. Tr?" is displayed.

6. Push the ◀◀I or ▶▶ button until the display reads "Copy SEG?"

SEQ 29/2021-2354

7. Push the PLAY/PAUSE button to start the Copy process.

"Executing" will be shown on the display.

When the copy procedure is completed, the display will show "Completed" for 1 sec. and then returns to stop mode with your new file as the current track.

Notes:

- When a copy area spans across two or more tracks, a track is connected and copied.
- When the copy area spans across files of different RecFormat or RecChannel, it can not copy.
- The copy area can not exceed 80 minutes.
- When copying a PCM segment, processing time is real time.
- When copying an MP3 segment, processing time is at 8X speed.

Entering Virtual Playback mode

Now that you have created a Virtual Track, to play it back you must put the PMD660 into Virtual Track Playback mode.

1. From stop mode, push the COPY/USB button to enter Virtual Playback mode.

"V. Tr Play" will be shown on the display.

2. Push the PLAY/PAUSE button to play the first Virtual Track. If you have more than one Virtual Track, you can push the ◀◀ or ▶▶ button until the track you wish to play is displayed in the upper numeric display. Then push the PLAY/PAUSE button.

3. To exit Virtual Track Playback mode:
   If a Virtual Track is playing press the STOP button twice.
   If the PMD660 is in Virtual Track Playback mode and stopped, simply push the STOP button once.

SEQ 29/2021-2355

Virtual Track EDIT mode

Just like regular playback mode, Virtual track has its own EDIT mode. Within this EDIT mode, you have the ability to turn one of your Virtual tracks into a new file, all Virtual Tracks into new files, erase a Virtual Track, and erase all Virtual Tracks.

1. To enter Virtual Track EDIT mode, push and hold the SHIFT button and then push the MENU/STORE/EDIT button, while in Virtual Track Playback mode.

See next Frame, How to convert a Virtual Track to a new file.
See Page 34, How to convert all Virtual Tracks to new files.
See Page 34, How to erase a Virtual Track.
See Page 35, How to erase all Virtual Tracks.

Copy SEG?
[How to convert a Virtual Track to a new file]

When in Virtual Track EDIT mode, "Copy SEG?" lets you copy a single Virtual Track to a new file.

After indetifying the track to copy:

1. Select the "Copy SEG?" Edit menu choice:
   While in Virtual Track Play mode, push and hold the SHIFT button and then push the MENU/STORE/EDIT button."Copy SEG?" will appear in the display.

2. Push the ENTER button.
   The display switches to the Track number blinking in the upper numeric display.

3. Push the ◄◄ or ►► button until the Track number you want to copy is flashing.

4. Push the ENTER button.
   "Executing" will be displayed while the copy process works. Then "Completed" will be displayed for one second. The display returns to step 3 so you can copy another track.

5. Push the STOP/CANCEL button to cancel.

SEQ 29/2021-2356

Copy SEG A?
[How to convert all Virtual Tracks to new files]

When in Virtual Track EDIT mode, "Copy SEG A?" lets you copy all of your Virtual Tracks to new files.

1. Select the "Copy SEG A?" Edit menu choice:
   While in Virtual Track Play mode, push and hold the SHIFT button and then push the MENU/STORE/EDIT button.
   "Copy SEG?" will appear in the display.

2. Push the ◄◄ or ►► button until the display reads"Copy SEG A?"

3. Push the ENTER button.
   The display switches "All" blinking in the upper numeric display.

4. Push the ENTER button.
   "Executing" will be displayed while the copy process works.
   Then "Completed" will be displayed for one second.
   The PMD660 and display returns to stop mode.

5. Push the STOP/CANCEL button to cancel.

VT Erase?
[How to erase a Virtual Track]

When in Virtual Track EDIT mode, "VT Erase?" lets you erase a single Virtual Track.

After indetifying the track to erase:

1. Select the "VT Erase?" Edit menu choice:
   While in Virtual Track Play mode, push and hold the SHIFT button and then push the MENU/STORE/EDIT button.
   "Copy SEG?" will appear in the display.

2. Push the ◄◄ or ►► button until "VT Erase?" is displayed.

3. Push the ENTER button.
   The display switches to the Track number blinking in the upper numeric display.

4. Push the ◄◄ or ►► button until the Track number you want to erase is flashing.

5. Push the ENTER button.
   "Executing" will be displayed while the erasing process works.
   Then "Completed" will be displayed for one second.
   The display returns to step 4 so you can erase another track.

6. Push the STOP/CANCEL button to cancel.

SEQ 29/2021-2357

AVT Erase?
[How to erase all Virtual Tracks]

When in Virtual Track EDIT mode, "AVT Erase?" lets you erase all Virtual Tracks from memory.

1. Select the "AVT Erase?" Edit menu choice:
   While in Virtual Track Play mode, push and hold the SHIFT button and then push the MENU/STORE/EDIT button.
   "Copy SEG?" will appear in the display.

2. Push the ◄◄ or ►► button until "AVT Erase?" is displayed.

3. Push the ENTER button.
   The display switches to the "All" blinking in the upper numeric display.

4. Push the ENTER button.
   "Executing" will be displayed while the erasing process works.
   Then "Completed" will be displayed for one second.
   The PMD660 and display returns to stop mode.

5. Push the STOP/CANCEL button to cancel.

SEQ 29/2021-2358

USB mode

The PMD660 records directly onto CF cards.
Recordings can then be transferred to your desktop or laptop computer by removing the CF card from the PMD660, or by connecting the PMD660, to your computer via the USB port.
Audio recorded in the popular MP3 compression format is directly available for intranet or internet file sharing.

Computer compatible

On your computer you can then:
- log and archive audio files
- play audio files

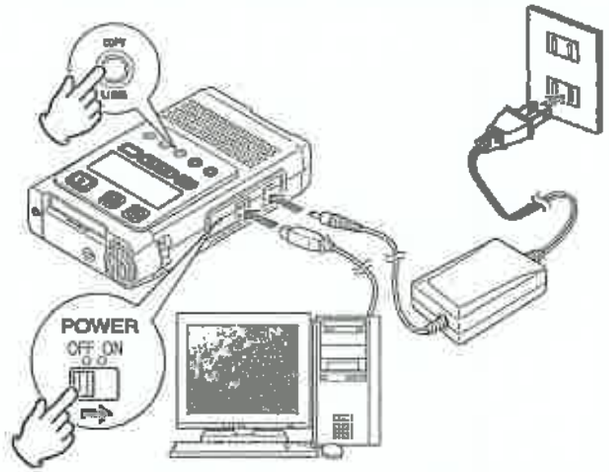
Save audio files to:
- your hard drive
- a floppy
- a CD-R disc

- post streaming audio files on your web site
- use software and your computer to transcribe digital recordings

How to connect via the USB port

The CF card in the PMD660 appears as an external drive on a connected computer.

1. Connect the cable to the PMD660 and your computer.



2. From power off, push and hold the COPY/USB button while turning on the PMD660's POWER switch. "USB" is displayed.

SEQ 29/2021-2359

- The PMD660 cannot be used while in USB mode.
- The CF card in the PMD660 appears as a removable device on your computer.
- The audio files are in a folder that is named MPGLANG1.
- Power off and back on to resume recording or playback on the PMD660.

The AC adapter is highly recommended when transferring data files from the PMD660 to your computer. Insufficient battery power during a data transfer may result in corrupted or unusable file(s).

Notes:

- Do not leave the PMD660 connected to your computer in USB mode without the AC adapter plugged in. Eventually battery power will drain.
- The USB connection can only be made active when the PMD660 is off (neither during recording nor playback).

CAUTION:

- Only copy audio files (tracks) to other volumes.
- Do not modify or delete the EDL file.
- If the EDL and Virtual Track file is missing or damaged PMD660 will not be able to recognize EDL marks and Virtual Tracks.
- Do not remove a CF card during USB mode. Data and the CF card can be damaged.

Diagram of file structure

A file titled PMD660 will appear on your computer.
EDL,Virtual Track and a folder (directory) titled MPGLANG1 will also appear.
Files within the MPGLANG1 folder are numbered from aaaaa001 through the number of tracks recorded to a maximum of aaaaa999.
("aaaaa" depends on the Machine ID parameter).
The file extension will be .mp3 or .wav depending on the "Rec Format" parameter that is set for the recording.

```
Root---PMD660.EDL
     |----PMD660.CPY
     |----MPGLANG1
          |---aaaaa001.MP3
          |---aaaaa002.MP3
          |---aaaaa003.MP3
```

Changes made to file names or structures on your computer will prevent file recognition and playback in the PMD660.

Machine ID

An audio track (file) has Machine ID information. This information is included in a file name. For example, if the Machine ID is "aaaaa", the first file is numbered "aaaaa001.wav" or "aaaaa001.mp3".
Default setting is MZ000.

If "1" is set as the machine ID, audio files recorded using the PMD660 can be played on the PMD570/670.
The machine ID should be 5 characters long to allow playback on the PMD671.

Setup the **"Machine ID"** of the preset menu. (page 54)

SEQ 29/2021-2360

Additional Functions

Battery

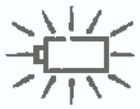
Battery setup
The PMD660 operates on 4 standard AA size Alkaline, or NI-MH batteries.
Setup the "**Battery**" of the preset menu.
(page 53)

Battery Indicator
The Battery symbol appears in most displays to indicate battery life.

indicates that the battery is fully charged.

Indicates that the battery, is half charged. Record or playback time is available.

indicates that the battery charge is getting low. Battery charge is required as there is little record or playback time available.



flashing indicates that the battery is very low!

- If Beep is set to On, the PMD660 will beep.
- If the PMD660 continues to operate, it will automatically shut down.
- If recording, it will write track information, stop recording and power off.
- If in playback, it will stop playback and power off.

Auto power off
If the PMD660 is not operated for 15 minutes during stop or play pause, power can be automatically shut off to conserve battery life.

Setup the "**AutoPowOff**" of the preset menu. (page 53)

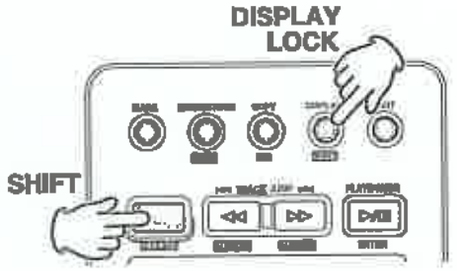
Beep Alarm
When battery charge can provide no more Power and Beep is set to On, the battery indicator will flash and the PMD660 will beep and power off.

Setup the "**Beep**" of the preset menu. (page 54)

SEQ 29/2021-2361

Key lock

The key lock secures the PMD660 in the state it is in during Record, Playback or Stop.
Push and hold the SHIFT button while pushing the DISPLAY/ LOCK button to turn KEY LOCK on. All buttons and functions will cease to operate with the exception of the LIGHT button.



Set Date and Time

The date and time are written on each audio track (file) when the track is started. When an audio track is viewed on a computer, this date and time appears as when the file was 'created'. (US date form is illustrated.)

Setup the "**Date/Time**" of the preset menu. (page 45)

LED level meter

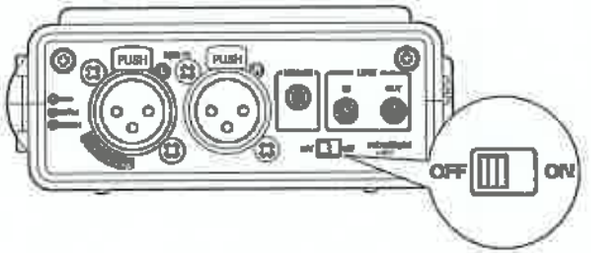
The Level LED lets you select the type of level meters.

- At Normal, the level meter(s) display is normal.
- At Peak Only, the level meter(s) displays only a peak level.

Setup the "**Meter Mode**" of the preset menu. (page 52)

Phantom Power

Switch Phantom to ON to provide +48V of power for a condenser microphone(s).



ON: +48V is supplied to power condenser microphone(s).
OFF: No microphone power is supplied.

It takes a few seconds to begin recording audio after switching ON/OFF.

Microphone recommendations

Professional condenser microphone(s) (which require additional power from either the PMD660's phantom power or from another source) are recommended because they provide greater sensitivity and higher quality audio recording.

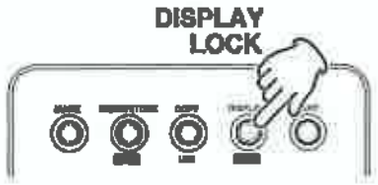
Dynamic microphone(s) can be used, but they do not yield optimum audio quality recordings in some applications.

Consult with your local dealer to select the appropriate microphone(s) for your specific application. In many cases, they can demonstrate the various performances and characteristics of microphones for your use.

SEQ 29/2021-2362

Display

Push the DISPLAY / LOCK button to alternate information displays.



Displays are slightly different in Stop, Record and Play.

- **During Stop:**
  - Remaining record time for the CF card (Default display)
  - ↓
  - Total EDL marks on CF card.
  - ↓
  - Current clock date
  - ↓
  - Current clock time
  - ↓
  - Remaining record time for the CF card (Default display)

- **During Record:**
  - Elapsed record time of the current track (Default display)
  - ↓
  - Remaining record time for the CF card
  - ↓
  - Recording date information
  - ↓
  - Recording time information
  - ↓
  - Recording track name (Machine ID) information

  - Elapsed record time of the current track (Default display)

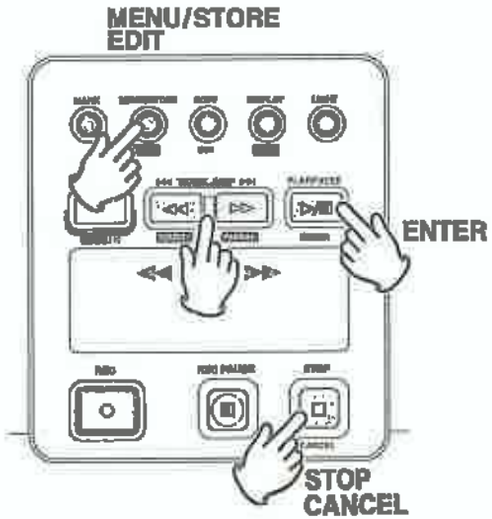
- **During Playback:**
  - Elapsed play time of the current track (Default display)
  - ↓
  - Remaining playing time on the current track
  - ↓
  - Recorded date information
  - ↓
  - Recorded time information
  - ↓
  - Playing track name (Machine ID) information
  - ↓
  - Elapsed play time of the current track (Default display)

SEQ 29/2021-2363

Preset Setup

Presets lets you set or change recording and playback parameters, such as changing Inputs and setting the Date and Time.

Three menu selectable Presets make it easy to switch between your commonly used input, recording format and other menu selections.



General Menu procedure

1. With the PMD660 at Stop, Push the MENU/STORE EDIT button.
2. Push the ◄◄ or ►► button to choose the Preset number.
3. When displayed, push the ENTER button to select that Preset number choice.
4. Push the ◄◄ or ►► button to tab through the sub menu display.
5. When the desired parameter or value is displayed and flashing, push the ENTER button to select it.
6. Repeat steps 2-5 as desired.
7. When finished, push the MENU/STORE EDIT button to store your changes, or push the STOP/CANCEL button to cancel them.

Preset defaults

The default Menu settings for Preset 1, 2 and 3 can be restored by the Default Menu choice. (pages 42 and 43.)

SEQ 29/2021-2364

Table of Preset defaults (USA)

Display	Selection range	Default Setting		
		Preset1	Preset2	Preset3
1. Input	INT MIC/ MIC/ LINE	INT MIC	MIC	MIC

SEQ 29/2021-2366

1. Input (How to select input(s) for recording)
Audio input(s) for recording are selected using the Input Menu.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button until Input is displayed.
5. Push the ENTER button while Input is displayed. The input choice(INT MIC, MIC or LINE) is flashing.
6. Push the ◄◄ or ►► button to tab through the input choices.
7. When correct, push the ENTER button. Display returns to Input.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

Note:
When you choose the INT MIC input, the I.MIC label is displayed. When you choose the MIC input, the MIC label is displayed. When you choose the LINE input, the LINE label is displayed.
The PMD660 records only from the selected input. For example, if the input selected is LINE and no input source is connected to the LINE IN jacks, the PMD660 will record silence. Watch the level meters while in record pause. If the level stays at one display bar, check for the proper input selection.

2. Output (How to select output for playback)
Audio output for playback is selected using the Output Menu.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button until Output is displayed.
5. Push the ENTER button while Output is displayed. The output choice (LINE, SP/HP or SP/HP+LINE) is flashing.
6. Push the ◄◄ or ►► button to tab through the output choices.
7. When correct, push the ENTER button. Display returns to Output.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

Note:
The PMD660 plays back only through the selected output. For example, if the output selected is LINE, no sound output is available in the speaker or headphones (SP/HP) or vice versa.

SEQ 29/2021-2367

3. Date/Time (How to set or change the Date and Time)
The date and time are written on each audio track(file) when the track is started. When an audio track is viewed on a computer, this date and time appears as when the file was 'created'.(US date form is illustrated.)

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so Date/Time is displayed.
5. Push the ENTER button while Date/Time is displayed. The Date and time information will be displayed with the month flashing. (Europe : the day flashing)
6. Push the ◄◄ or ►► button until the current month is displayed.
7. Push the ENTER button to confirm the month. The day will be flashing. (Europe : the month flashing)
8. Push the ◄◄ or ►► button until the current day is displayed.
9. Push the ENTER button to confirm the day. The year will be flashing.
10. Push the ◄◄ or ►► button until the current year is displayed.
11. Push the ENTER button to confirm the year. The hour will be flashing.
12. Push the ◄◄ or ►► button until the current hour is displayed.
13. Push the ENTER button to confirm the hour. The minute will be flashing.
14. Push the ◄◄ or ►► button until the current minute is displayed.
15. Push the ENTER button to confirm the minute.
16. Date/Time will be displayed.
17. If you are finished making Menu changes to the Preset, push the MENU/STORE/EDIT button to save your changes.
    (or push the STOP/CANCEL button to cancel all changes)
18. Display returns to stop mode.

Note:
The Date/Time setting will remain for about 5 years if the PMD660 is not plugged in.
Date/Time setting applies to all three presets.

SEQ 29/2021-2368

4. Rec Format

(How to set or change the Rec Format parameters)

The PMD660 can record in several compression algorithms. See explanation and chart below.

- First, determine the input connection you want to record from; INT MIC, MIC, or LINE.
- Second, set the Preset Menu Input choice to correspond with the connection.

RecChannel in menu	Rec Format in menu	bit rate	file extensions
Stereo	PCM-44.1K	1412k	.wav
	PCM-48K	1536k	.wav
	MP3-44.1K	128k	.mp3
	MP3-48K	128k	.mp3
Mono	PCM-44.1K	705.6k	.wav
	PCM-48K	768k	.wav
	MP3-44.1K	64k	.mp3
	MP3-48K	64k	.mp3

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so Rec Format is displayed.
5. Push the ENTER button while Rec Format is displayed. The Rec Format choice(PCM 44.1K, PCM-48K, MP3-44.1K or MP3-48K) is flashing.
6. Push the ◄◄ or ►► button to tab through the Rec Format choices.
7. When correct, push the ENTER button. Display returns to Rec Format.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

5. RecChannel

(How to set or change the RecChannel parameters)

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so RecChannel is displayed.
5. Push the ENTER button while RecChannel is displayed. The RecChannel choice (Stereo or Mono) is flashing.
6. Push the ◄◄ or ►► button to tab through the RecChannel choices.
7. When correct, push the ENTER button. Display returns to RecChannel.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

SEQ 29/2021-2369

6. PreRecord
When PreRecord is on and the PMD660 is in record pause, it 'listens to' the selected audio input(s) and continuously buffers 2 seconds of audio. When recording begins, the 2 second pre record buffer is written at the beginning of the new track. The 2 seconds give you time to start recording without missing the first seconds of audio.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so PreRecord is displayed.
5. Push the ENTER button while PreRecord is displayed. The PreRecord choice (On or Off) is flashing.
6. Push the ◄◄ or ►► button to tab through the PreRecord choices.
7. When correct, push the ENTER button. Display returns to PreRecord.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

7. Manual Trk
When Manual Trk incrementing is On during recording, push the REC button to increment the track. A new track is created at that point. A slight break might be heard during playback.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so Manual Trk is displayed.
5. Push the ENTER button while Manual Trk is displayed. The Manual Trk choice (On or Off) is flashing.
6. Push the ◄◄ or ►► button to tab through the Manual Trk choices.
7. When correct, push the ENTER button. Display returns to Manual Trk.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

SEQ 29/2021-2370

8. Auto Trk

With Auto Trk (Automatic Track Incrementing) on, a new track begins automatically at specified intervals of recording time.

- Automatic Tracks are silent. Playback across an Automatic Track does not produce any sound.
- Automatic Track can be set to increment every 1, 5, 10, 15 or 30 minutes, or every 1, 2, 6, 8, 12 or 24 hours.
- Automatic Track makes finding a particular point in a recording easier.

For example, if a new track begins every minute during playback :

- The Minute Tracks make finding a particular passage easier because of the relationship between track numbers and time.
- You can select track 4 to play approximately the 3rd minute of recording.
- You can go directly to the beginning of the 10th minute by selecting track 11, etc.

Track #	Recording time minutes:seconds
1	0:00 – 1:00
2	1:01 – 2:00
3	2:01 – 3:00

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so Auto Trk is displayed.
5. Push the ENTER button while Auto Trk is displayed. The Auto Trk choice (Off, 1, 5, 10, 15 or 30 minutes, or 1, 2, 6, 8, 12 or 24 hours) is flashing.
6. Push the ◄◄ or ►► button to tab through the Auto Trk choices.
7. When correct, push the ENTER button. Display returns to Auto Trk.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

Note:

If you intend to transfer your PMD660 audio recording to a CD, the Auto Track function makes the CD easily navigable without requiring any post production to divide files into tracks.

SEQ 29/2021-2371

9. Auto Mark

The Auto Mark Menu item turns the automatic EDL mark feature Off or On. See page 25 to manually add EDL marks.

- If Auto Mark is on and the machine is in record - pause, when recording is resumed a mark will be added.
- If Auto Mark is on and the PMD660 is recording audio below the sound threshold for more than three seconds, audio that crosses the threshold will cause a mark to be added.

The Auto Mark Menu setting permits :

- Turning Auto Mark On or Off
- Adjusting the margin sound level that defines silence in -60dB, -54dB, -38dB, or -20dB.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so Auto Mark is displayed.
5. Push the ENTER button while Auto Mark is displayed. The On or Off will be flashing.
6. Push the ◄◄ or ►► button to toggle between On and Off.
7. When correct, push the ENTER button. The display switches to sound level flashing.
8. Push the ◄◄ or ►► button to change the margin of sound level choices (-60dB, -54dB, -38dB or -20dB).
9. When correct, push the ENTER button. Display returns to Auto Mark.
10. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
11. Display returns to stop mode.

Note:

The Auto Mark and Silent Skip features use the same level setting.
As the level of Auto Mark is changed, that of Silent Skip also changes automatically.

SEQ 29/2021-2372

10. Silent Skip

Silent Skip automatically pauses recording when there is a period of silence and resumes recording when sound resumes. This feature is often referred to as voice activated recording.

Silent Skip looks for sound below a preset level for three seconds time.

When that occurs, the PMD660 switches to record pause. When a signal above the preset level is input, recording resumes.

The Silent Skip Menu setting permits :

- Turning Silent Skip On or Off.
- Adjusting the margin of sound level that defines silence in -60dB, -54dB, -38dB or -20dB.

When the Auto Mark menu choice is at On, resumption of recording after a record pause by Silent Skip adds an EDL mark.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◁◁ or ▷▷ button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◁◁ or ▷▷ button so Silent Skip is displayed.
5. Push the ENTER button while Silent Skip is displayed. The On or Off will be flashing.
6. Push the ◁◁ or ▷▷ button to toggle between On and Off.
7. When correct, push the ENTER button. The display switches to sound level flashing.
8. Push the ◁◁ or ▷▷ button to change the margin sound level choices (-60dB, -54dB, -38dB or -20dB).
9. When correct, push the ENTER button. Display returns to Silent Skip.
10. Push the ◁◁ or ▷▷ button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
11. Display returns to stop mode.

Note:

The Auto Mark and Silent Skip features use the same level setting.
As the level of Auto Mark is changed, that of Silent Skip also changes automatically.

SEQ 29/2021-2373

11. LevelCont.
The level control allows you to select the type of input level control for recording.

- At Manual, you control the input level with the REC LEVEL controls.
- At ALC, the PMD660 automatically responds to changes in input level.
  (ALC: Automatic Level Control = Automatic Gain Control)
- At ALC+Manual, ALC is selected and fine tuning of the recording level is enabled.

With ALC (Automatic Level Control) on:
If recording is quiet, the input level is increased.
If recording is loud, the input level is decreased.
This is a desirable feature when recording a meeting with several speakers because a speaker close to the microphone and/or with a loud voice will be automatically recorded at a reduced level. A quiet speaker will be recorded at an increased level and is less likely to have their input missed.
ALC is usually undesirable when recording music (voice or instrument) because the transitions in input level may be audible in the recording. This can make the recording 'hissy' by raising the level during quiet passages and recording ambient noise.
The REC LEVEL controls do not work when the ALC is selected.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so LevelCont is displayed.
5. Push the ENTER button while LevelCont is displayed. The LevelCont choice (Manual , ALC or ALC+Manual) is flashing.
6. Push the ◄◄ or ►► button to tab through the LevelCont choices.
7. When correct, push the ENTER button. Display returns to LevelCont.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

SEQ 29/2021-2374

12. Meter Mode

The Meter Mode lets you select the type of level meters.

- At Normal, all the level meters are displayed.
- At Peak Only, the level meter(s) displays only a peak level.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so Meter Mode is displayed.
5. Push the ENTER button while Meter Mode is displayed.
   The Meter Mode choice (Normal or Peak only) is flashing.
6. Push the ◄◄ or ►► button to tab through the Meter Mode choices.
7. When correct, push the ENTER button.
   Display returns to Meter Mode.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

Note:

When Peak Only is set, the battery life will be extended.

13. Mic Atten.

The Mic Atten. let you select the direct use of microphones that differ in sensitivity.

- At 0dB there is no microphone attenuation.
- At -20dB, Input from a microphone(s) connected to the XLR MIC IN jacks is cut by -20dB.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so Mic Atten is displayed.
5. Push the ENTER button while Mic Atten is displayed.
   The Mic Atten choice (0dB or -20dB) is flashing.
6. Push the ◄◄ or ►► button to tab through the Mic Atten choices.
7. When correct push the ENTER button.
   Display returns to Mic Atten.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

SEQ 29/2021-2375

14. AutoPowOff

If the PMD660 is not used for 15 minutes during stop or play - pause, power can be automatically shut off to conserve battery life.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so AutoPowOff is displayed.
5. Push the ENTER button while AutoPowOff is displayed. The AutoPowOff choice (On or Off) is flashing.
6. Push the ◄◄ or ►► button to tab through the AutoPowOff choices.
7. When correct, push the ENTER button. Display returns to AutoPowOff.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to accept the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

15. Battery

The PMD660 operates on 4 standard AA size Alkaline, or NI-MH batteries.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button so Battery is displayed.
5. Push the ENTER button while Battery is displayed. The Battery choice (Alkaline or NIMH) is flashing.
6. Push the ◄◄ or ►► button to tab through the Battery choices.
7. When correct, push the ENTER button. Display returns to Battery.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to accept the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

SEQ 29/2021-2376

16. Beep

When battery charge is depleted and Beep is set to On, the PMD660 will beep.
If the PMD660 is not used for 15 minutes during stop or play - pause, power can be automatically shut off to conserve battery life. (See AutoPowOff page 53.)
If AutoPowOff and Beep are both set to On, the PMD660 will beep to alert you that the power is shutting off.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button until Beep is displayed.
5. Push the ENTER button while Beep is displayed. The Beep choice (On or Off) is flashing.
6. Push the ◄◄ or ►► button to tab through the Beep choices.
7. When correct, push the ENTER button. Display returns to Beep.
8. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
9. Display returns to stop mode.

17. Machine ID

An audio track (file) has Machine ID information.
This information is included in the file name.
For example, if the Machine ID is "aaaaa", the first file is numbered "aaaaa001.wav" or "aaaaa001.mp3".

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button until Machine ID is displayed.
5. Push the ENTER button while Machine ID is displayed. The first character of the Machine ID will be flashing.
6. Push the ◄◄ or ►► button to select the characters. To end the machine ID, select the space character (fully lit and flashing).
7. When correct, push the ENTER button. The next position will be flashing. Repeat steps 6 and 7 until all Machine ID characters are correct. When the space character is selected, the display returns to the Machine ID, so proceed to step 9.
8. After the last character, push the ENTER button. The display returns to the Machine ID.
9. Push the ◄◄ or ►► button to select other Menu choices for editing. When editing the Preset is complete, push the MENU/STORE/EDIT button to store the changes, or push the STOP/CANCEL button to exit Menu mode without making any changes.
10. Display returns to stop mode.

Note:
The Machine ID setting applies to all three presets.

SEQ 29/2021-2377

18. Default
The Default menu choice resets all Menu (not Edit menu) items in the Preset to their default values.
This is convenient if you are setting up a new Preset configuration because you do not have to check all the settings - you know they are at the default.

Note:
US defaults are used for illustration.
See page 42, 43 for a table of menu defaults.
Defaults are listed for each menu item.

1. From stop, push the MENU/STORE/EDIT button.
2. Push the ◄◄ or ►► button to select Preset 1, 2 or 3.
3. Push the ENTER button to accept the selected Preset.
4. Push the ◄◄ or ►► button until Default is displayed.
5. Push the ENTER button while Default is displayed.
   The OK? is flashing.
6. Push the ENTER button.
   Display returns to stop mode.

Troubleshooting

Should problems occur, it is often unnecessary to consult your dealer or technical service department. On the basis of the following checks, you may be able to rectify a number of conditions yourself without difficulty. If the condition cannot be remedied after the following check, please consult your dealer, contact our Sales Office or Tech Support Centre near you which are listed in D&M Professional website below.

SEQ 29/2021-2378

The PMD660 does not turn on.
- Install fresh batteries.
- Check AC adapter connections.

The PMD660 turns on then turns itself off.
- Install fresh batteries.

The PMD660 seems to record, but there is no sound on playback.
- Check input settings.
  (For example, if LINE input is selected and no input is connected to the LINE IN jack, the PMD660 will record silence. The PMD660 will not playback.)
- Check output settings.
  (For example, if the output selected is LINE, no sound output is available in the speaker or headphones (SP/HP) or vice versa.)

There is no audio playback through headphones or internal speaker.
- Check HP/SPK VOL control setting.
- Check a different track or CF card.
- Check output setting.

The PMD660 will not record.
- Check that the maximum of 999 tracks have not been recorded.
- Check that the PMD660 acknowledges the CF card.

No signal from microphone input.
- Check input selection.
- Check REC level control settings.
- Check if microphone(s) require(s) Phantom power.

There is excessive noise on the PMD660.
- Check cable connections and/or replace cable.
- Check for proper gain levels.

Playback on a PC results in poor sound.
- Check quality of PC sound card and program.
- Check frequency conversion program.*

* The PMD660 records audio files with a sampling frequency of 48kHz. Some PC programs convert the files to 44.1kHz (using a sample rate converter). Only high quality sample rate converters should be used.

PC cannot read files
- Check the capability of the PC program. Some playback and editing programs do not support MP3 or Broadcast Wave (.wav) formats.

If the PMD660 exhibits erratic behavior, the microprocessor can be reset by powering off, disconnecting AC power and removing batteries.

Care and Maintenance
Use a soft cloth slightly moistened with mild detergent solution.
Media cards that are heavily used should be occasionally reformatted to avoid audio problems due to fragmentation.

SEQ 29/2021-2379

Error Message

Display	Description
CF Card	
No Card	No CF card inserted, or card is not detected.
Unformat	CF card is formatted other than FAT16 or FAT32.
Full Card	Remaining capacity of CF card is less than a few kbytes.
Full 999	The number of tracks on the CF card has reached the 999 maximum.
Full Mark	The number of EDL marks on the card has reached the 255 maximum.
No Track	Track file is not detected.
VBR	VBR file is forwarded or rewinded.
No Mark	Mark of track file is not detected.
Can not...	Invalid operation.
LowBattery	Battery voltage is low.
Need DC IN	AC adapter is not connected to PMD660.
Bad File	The menu setting of the file setting is not detected or file error.
Err FS	Version up file or file system error.
Full V99	Copy track (Virtual Track) file is 99 track.
No V.Track	Copy track (Virtual Track) file is not detected.
Limit 80m	Copy track (Virtual Track) time set to over 80 minutes.
Err Format	Not supported file format.
Others	
Err DSP	DSP processing error.
Err Card	Card or File error.
Err RTC	RTC processing error.
Err EEPROM	EEPROM error.
Err SRAM	SRAM error.
Err Flash	Flash ROM error.

LIMITED WARRANTY

Your Marantz Professional product is warranted against manufacturer defects in material and workmanship for a period of one year parts and labor.

Except as specified below, this warranty covers defects in material and workmanship. The following are not covered under warranty:

1. Damage, deterioration, malfunction or failure to meet performance specifications resulting from:
   a) Accidents, acts of nature, misuse, abuse, neglect or unauthorized product modification.
   b) Improper installation, removal or maintenance, or failure to follow supplied instructions.
   c) Repair or attempted repair by a non-Marantz authorized agent.
   d) Any shipment (claims must be presented to the carrier).
   e) Any cause other than a defect of manufacturing.
2. Cleaning, check-ups with no fault found or changes incurred for installation, removal or reinstallation of the product.
3. Any serialized product on which the serial number has been defaced, modified or removed.
4. Batteries and battery chargers.
5. Accessories, including but not limited to: cables, mounting hardware and brackets, cleaning accessories, power cords and adapters, and carry cases.

SEQ 29/2021-2382

Non-transferable warranty
This Warranty may be enforced only by the original purchaser.

What We Will Pay For
We will pay for all labor and material expenses for items covered by the warranty.

How You Can Get Service (Americas only)

1. If your unit needs service in the USA, contact our service referral at the appropriate telephone number indicated below. We will advise you of the name and location of one or more authorized service centers from which service may be obtained. Please do not return the unit directly to us.
2. You must pay any shipping charges if it is necessary to ship the product for service. If the necessary repairs are covered by the warranty, we will pay return shipping charges to your location anywhere in the United States or its territories.
3. Whenever warranty service is required, you must present the original dated sales receipt or other proof of date purchased.

Limitation of Implied Warranties
All implied warranties, including warranties of merchantability and fitness for a particular purpose, are limited in duration to the length of this warranty.

Exclusion of Damages (Americas only)
Liability for any defective product is limited to repair or replacement of the product at manufacturer's option. Manufacturer shall not be liable for damage to other products caused by any defects in Marantz products, damages based on inconvenience or loss of use of the product, or any other damages, whether incidental, consequential, or otherwise.

Some States do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations and exclusions may not apply to you.

How State Law Relates to the Warranty (Americas only)
This warranty gives you specific legal rights, and you may have other rights which may vary from State to State.

Marantz Professional Service Number (Americas only):
Marantz Professional Factory Service (630) 741-0330, toll free within the US (866) 405-2154.

Products purchased outside of the United States, its possessions or territories.

This warranty is enforceable only in the United States and its possessions or territories.

Marantz Professional products Sales Office Site:
For inquiries or information on repair service of Marantz Professional Products, please contact our Sales Office or Tech Support Centre near you which are listed in D&M Professional website below.

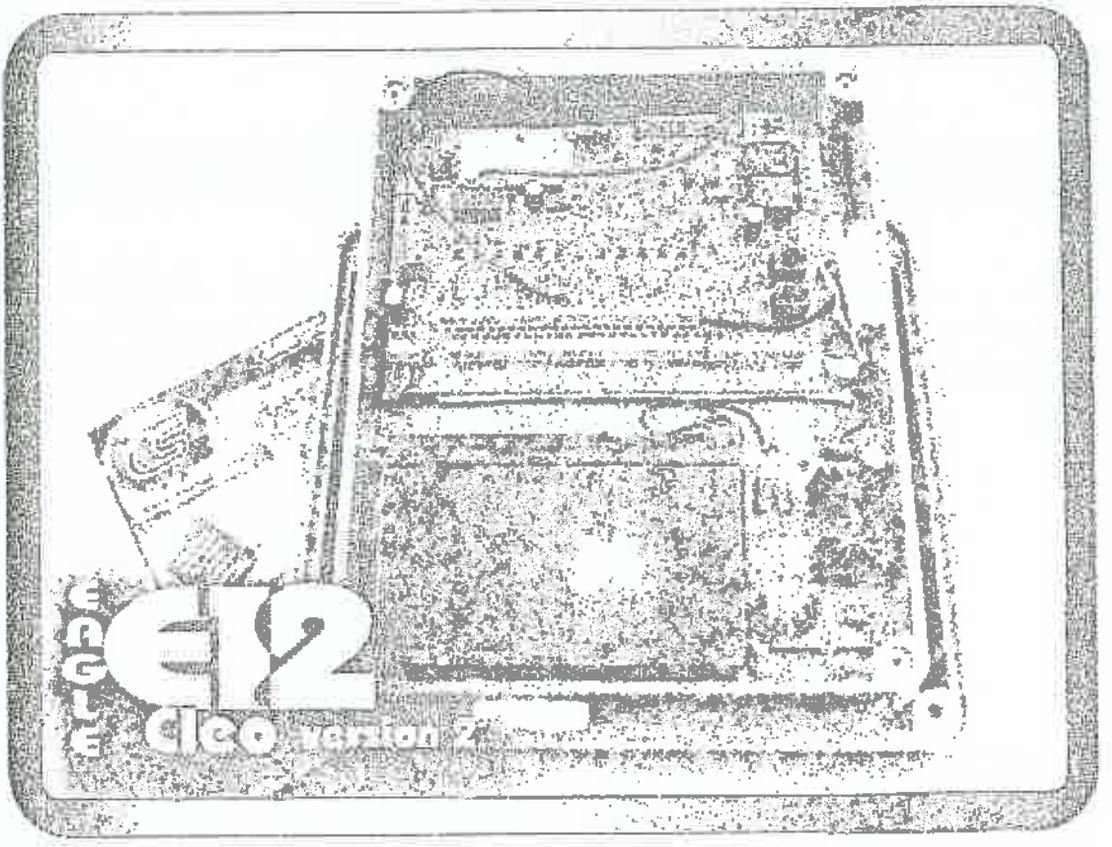
GSM



CellSecure E12 Cleo Security System – User Manual

The CellSecure E12 Cleo is a 12 Zone fully supervised wired and 12 Zone fully supervised wireless Alarm system with Keypad, Key Ring Transmitter and GSM SMS capability. All events (alarm activation, deactivation, panic, etc.) will be sent directly to up to 6 Cell phone numbers via SMS (4 user cell phones, 1 base number and 1 tracking base number). The users can also control functions of the Cleo from their cell phones via SMS.

The Cleo Panel Kit comes complete with a 3 Amp Power supply and charger, 7 Amp Battery, 3 Amp Plug in Transformer, GSM and 433 MHz Aerials.

The Cleo can be operated by Cell Phone, Keypad and remote key ring transmitter.

The Cleo can also be sub divided (Partitions) into 2 separate alarm systems each one controlled by its own user's cell phones, Keypads or Remote key ring Transmitters.

In addition the Cleo has 4 Programmable outputs that can be used to activate an Alarm transmitter to a reaction company or can be used to activate lights, air conditioners etc from a cell phone.

GSM

1. Functions and Operating procedures of the E12

The E12 can be operated in 4 different modes. Each mode activates different zones and reacts differently when the system is activated by a sensor. Zones are the areas that need protection. The active zones for each mode can be set up by the user.

The E12 can be controlled by 12 different key ring remote controls, 5 keypads and 12 user codes (same codes used for keypad and cell phone control). The 24 zones (12 wired, 12 wireless) are protected by a possible 12 wired sensors and 24 wireless sensors. A total of 36 sensors can be connected to the E12, distributed over 24 zones. 12 Zones can be monitored by the 24 wireless sensors and the other 12 zones are monitored by 12 wired sensors.
The 24 zones can also be divided into 2 different groups (Partitions). These 2 groups will function independently of each other, meaning that the E12 will function as 2 separate alarm systems. For Example, one partition can be in Off mode, while the other is in Away Mode.

NOTE: The Partition's are only programmable remotely via the CellSecure programming software.

1.1. Modes of Operation

The following modes of operation can be used:

- Away Mode
- Stay Mode
- Monitor Mode
- Away / Monitor Mode
- Off Mode

1.1.1. Away mode: (Normally activated when leaving the premises)

- When away mode is activated the E12 will respond with 1 beep on the internal siren, the away button on the keypad will light up and a "security system armed" SMS will be sent. An alarm armed telemetry signal will also be sent if connected to a standard alarm transmitter.
- The messages are fully programmable, but the default message is "Away mode Group A" or "Away Mode Group B". In the SMS the person's name that armed the unit as well as the address where the unit is located, will also be displayed.
- If By "System Timer" is displayed, then the alarm was activated by a timer.
- Any detection, in any 1 of the active zones in Away mode will result in the siren sounding for 4 minutes unless another sensor is activated, then the siren will continue for 4 minutes after the last detection. An alarm SMS will be sent and an 'Alarm Activated' Telemetry signal will be sent to the Armed Response Company if connected. Example of such an SMS is "Alarm Garage at Cellsecure 142 Botha ave Lyttelton".

GSM

- The siren will continue sounding and an ALARM SMS will be sent each time there is an activation of a sensor to indicate that various sensors in the premises are been activated and that the alarm is not from only 1 sensor.
- Gas will also be triggered if connected and the "gas enabled" option was selected (**$XXXXG1** – Gas enabled; **$XXXXG0** – Gas disabled). See section 1.3.2.
- After switch off the relevant zone numbers on the keypad will remain on to indicate which zone was activated. This indication serves as an additional memory of activation.

Activating Away mode:

- Away mode can be activated by a key ring remote, a base station, a cellular phone, keypad or timer.
- To activate the system by remote, the blue button must be pressed once.
- To activate the system by cellular phone or base station, **$XXXXA** must be sent to the E12 via SMS. In this message, **XXXX** is the user four digit, numeric pin code the same as the user would use on the keypad that can only be changed by the Master user.
- To activate by keypad: Type user password, press away button and press enter.
- The timer will activate the alarm at a pre-programmed time, if enabled. See section 1.3.1
- The E12 will respond with one beep on the internal siren and the necessary SMS and telemetry signal (Alarm Armed) will be sent.

Deactivating Away mode:

- Activate Off Mode. See section 1.1.3.

1.1.2. Stay mode: (Normally activated when retiring for the night.)

- When Stay mode is activated by the keypad or Key Ring, the E12 will respond with 1 beep on the internal buzzer.
- Any detection in any of the zones programmed to be active in Stay mode will cause the buzzer to beep for 1 minute and should the alarm not be switched off within this time, the siren will start to sound and the ALARM SMS messages will be sent and an 'Alarm Activated' Telemetry signal will be sent to the Alarm Response Company if connected. At this time the alarm also switches to Away mode.
- Any further activation will cause the siren to sound and an ALARM SMS to be sent and an 'Alarm Activated' Telemetry signal will be send to the Alarm Response Company if connected. The siren will sound for 4 minutes each time a sensor is activated.
- When Stay Mode is activated by SMS the E12 will respond with 1 beep on the internal buzzer and an Alarm Armed Stay Mode SMS will ONLY be sent to the Cell Numbers programmed into the E12 not to the Base number and also the telemetry outputs will not be activated.
- Any detection in any of the zones programmed to be active in Stay mode will cause the buzzer to beep for 1 minute and an SMS will be sent to the Cell

Numbers. Should the alarm not be switched off within this 1 minute buzzer time, the siren will start to sound and the ALARM SMS messages will be sent to the Base and cell numbers. An 'Alarm Activated' Telemetry signal will also be sent to the Alarm Response Company if connected. At this time the alarm also switches to Away mode.

Activating Stay mode:

- Stay mode can be activated by a key ring remote, SMS, or a keypad.
- To activate Stay mode by remote, the Yellow and Blue buttons must be pressed simultaneously.
- To activate Stay mode by cellular phone or base station, **$XXXXS** must be sent to the E12's control panel via SMS. In this message the **XXXX** is the user four digit, numeric pin code the same as the user would use on the keypad that can only be changed by the Master user.
- The system will respond as described above if activation was successful.

Deactivating Stay mode:

- Activate Off Mode. See section 1.1.3.

1.1.3. Off Mode: (Activated when at home)

- No zone is active when the E12 is in Off Mode.
- Selecting OFF Mode will result in different responses depending on the mode the system was in before activating OFF mode.
- If the E12 was in Away Mode, the E12 will respond by sounding twice on the internal siren, only if the system was not activated by a sensor while in Away mode, and a system Off ("Disarmed") SMS message will be sent. An 'Alarm disarmed' telemetry signal will also be sent.
- If the E12 was activated by a sensor while in Away mode, the system will respond by sounding four times on the internal siren and a system Off ("Disarmed") SMS message will be sent. This is an additional warning function to let the occupant know that the premises were entered.
- If the E12 was in panic mode with the siren sounding the siren will stop when Off mode is activated.
- The messages are fully programmable, but the default message is "System OFF Mode Group A/B". In the SMS the name of the person who disarmed the unit as well as the address where the unit is located, will also be displayed.
- If "By system Timer" is displayed, the system was deactivated by the timer.

Activating Off Mode:

- Off Mode can be activated by key ring remote, a base station, a cellular phone, keypad or timer.
- Press the yellow button on the key ring remote control once or send **$XXXXO** to the E12 via SMS.
- To disarm the system by keypad, enter user code and press enter.

Gsm

- The response given by the system is described above.

- ***Deactivating Off Mode:***
- Off mode is deactivated by switching to any other mode (see the other paragraphs for more detail).

1.1.4. Monitor Mode: (Used to monitor activity in zones without alarm activation)

- Like all other modes, the active zones can be defined by the user.
- If the E12 is switched to monitor mode by the Keypad or Key Ring then any activation of a sensor in one of the active zones will result in the buzzer sounding 6 times. The corresponding zone number on the keypad will light up and stay on.
- If the E12 is switched to monitor mode by SMS then any activation of a sensor in one of the active zones will result in the buzzer sounding 6 times and an SMS will be sent to the cell numbers only, No SMS will be sent to the Base number and the telemetry outputs will not activate.
- The corresponding zone number on the keypad will light up and stay on.
- Every active zone will only send a maximum of 4 trigger events by SMS.
- If the E12 is switched to monitor mode by SMS The E12 will send a 'Monitor mode activated' SMS.

Activating Monitor Mode:

- Monitor mode can be activated by SMS, key ring remote or keypad.
- To activate by SMS, send **$XXXXM** to the E12.
- To activate by Key ring remote, press the blue and red button simultaneously.
- To activate by keypad, enter user code, press the monitor button and press enter.
- The E12 will respond with 3 beeps on the internal buzzer.

Deactivating Monitor Mode:

- Switch the E12 to Off Mode.

1.1.5. Away Monitor Mode: This is an Alternative Away Mode with different functions for the zones that have been programmed to be on in Away and Monitor Modes.

- The Away Monitor Mode combines the functions of zones on in Away Mode and Zones on in Monitor Mode in the following Way.
- Zones that are only on in Away mode when activated will result in the Siren sounding for 4 minutes and an alarm SMS being sent to the Base number and cell numbers, The telemetry Alarm output will also be activated.
- Any further activation of these zones will result in the siren sounding again and the SMS's and telemetry signals being sent.
- Zones that have been selected to be on in the Away and Monitor modes will when activated result in the siren beeping 4 times and an alarm SMS ONLY

GSM

being sent to the Cell Numbers. No SMS will be sent to the base number and the telemetry outputs will not be activated.

Activating Away Monitor mode:

- Away mode can only be activated by a base station, a cellular phone, or keypad.
- To activate the system by cellular phone or base station, **$XXXXAM** must be sent to the E12 via SMS. In this message, **XXXX** is the user four digit, numeric pin code the same as the user would use on the keypad that can only be changed by the Master user.
- To activate by keypad: Type user password, press away button then the MON button and then press enter.

The E12 will respond with one beep on the internal siren and the necessary SMS to the cell numbers only will be sent.

The E12 can also send the following panic signals:

1.1.6. Silent Panic: (Activated when in immediate danger)

- When the E12 receives a Silent Panic signal a Silent Panic SMS will be sent.
- Also, a panic telemetry signal will be sent to the armed response company if connected.
- If the E12 receives multiple Silent panic signals it will re send the Silent Panic SMS and telemetry signal.
- The name of the person who activated Silent Panic will be included in the SMS.
- Example: "Silent Panic Mode activated By Jack at Eagle Wireless 142 Botha ave Lyttelton".

Activating Silent Panic:

- Silent panic can be activated by SMS, keypad, key ring remote control or panic button.
- To activate by cellular phone, send **$XXXXH** to the E12, where **XXXX** is the 4 digit numeric password.
- To activate by key ring remote, press the red button once.
- To activate by keypad, press the trouble button followed by enter.
- The panel will respond with a 10 second beep on the internal buzzer.
- If silent panic is activated by panic button, only the sms and telemetry signals will be sent, no 10 second long beep.

1.1.7. Panic: (Activated when in immediate danger)

- When the E12 receives a panic signal the internal buzzer and siren will start sounding for 4 minutes and a Panic SMS will be sent.
- Also, a panic telemetry signal will be sent to the armed response company if connected.
- The trouble (TRBL) button on the keypad will light up.

GSM

- Each time the E12 receives a panic signal; it will reset the siren timer and resend the Panic SMS.
- The name of the person who activated Panic will be included in the SMS.
- The siren can be stopped before the 4 minutes is up by switching to Off Mode.
- The default panic message is "Panic".

Activating Panic:

- Press the red and yellow button on the remote control simultaneously.
- Panic is activated via SMS by sending the E12 the following message: **$XXXXP**, Where **XXXX** is a four digit numeric pin code.
- Panic can also be activated by keypad. Press the trouble button, followed by 2nd function, followed by the enter button.

Deactivating Panic:

- Panic can be deactivated by switching to Off Mode. See section 1.1.3.

1.1.8. Resetting the E12:

This can only be done when the E12 is in Off Mode. After resetting, the E12's sensor tamper detectors will switch off for 1 hour. All the memory lights, if on, will switch off.

- Reset by key ring remote: Press all 3 buttons simultaneously.
- Reset by key pad: Press the Memory button (Mem) followed by enter.
- Reset by SMS: Send **$XXXXr** to the E12, where **XXXX** is one of the 4 digit, numeric user passwords.
- The E12 will respond with 6 beeps on the internal buzzer.
- Each time reset is activated the E12 Cleo will send a reset SMS.

1.1.9. Keypad Duress

A keypad duress signal can be sent if a user is forced to disarm the Alarm. It's a discreet way of letting the Armed Response Company and other users know of the situation.

This Duress signal is sent by entering the user password, but changing the last digit in the password to the next higher digit when disarming the alarm. E.g. 1234 would be changed to 1235 and 1450 to 1451.

1.2. Access Control and Security

The E12 can recognize 12 user passwords and 1 master password. Each user password is a 4 digit numeric password and the master password is a 6 digit numeric password. The same user passwords are used for keypad- as well as SMS commands and each user password can be assigned to a name.

The Master password is used for programming purposes.

Advanced RF encrypting technology is used for key ring remote control security.

1.3. Other functions

1.3.1. Auto Arm / Disarm Time:

GSM

The E12 can be programmed to switch to AWAY Mode at a specific time of day every day. This is very useful for Commercial applications where the E12 will arm at, for example, 18:00 every night. The E12 also has a built in calendar, enabling the timer to take into account weekends but NOT holidays. No activation or deactivation will take place on weekends by the system timer these will have to be manual.

Both partitions (See section 1.4) can be armed and disarmed separately by the system timer at different times.

When the E12 Armes, it will respond with 1 beep on the internal siren, the away button will light up and a security system armed SMS will be sent. In the SMS By "System Timer" is displayed when the E12 is armed by this timer.

1.3.2. GAS discharge activation option:
The GAS discharge will be triggered every time the alarm is activated by a sensor or by means of a remote control or cellular phone.
The activation of GAS is counted and timed and a low GAS warning will be sent when the GAS canister needs to be replaced.

GAS will be triggered Depending if the GAS is enabled or not. This is done with the following messages: **$XXXXG1** = GAS enabled, **$XXXXG0** = GAS disabled
GAS can be manually triggered by using **$XXXXG9** at any time.

When the gas is triggered, the E12 will deliver a 4 sec spray, which will fill a room of 200 square meters practically instantaneously. A total of 8 bursts of this length can be delivered per canister.
After the doors and windows have been opened, it will take approximately two and a half hours for the gas to dissipate out of the house.

Warning: The gas is hazardous to any living creature. Don't enable the gas discharge option if pets are left in the house while occupants are away from the premises.

1.3.3. Supervision function:
All sensors are supervised by the E12 and should a sensor fail to report to the E12, a supervision failure SMS will be sent.

1.3.4. "Power Supply Battery low" warning function:
A Battery low SMS message will be sent every time the power supply battery voltage drops below a 10.7V. When the battery is charged after the Battery low SMS was sent, a Battery OK SMS will be sent only when the battery voltage stays above 10.7V for 60 minutes.
On power up, a Battery OK message will be sent if the battery voltage is above the predetermined value.

1.3.5. "Sensor Low Battery" warning function:

G. smk

Although the batteries in the sensors can last up to 6 years for low power sensors and 2 years for Hi power sensors, the E12 will detect if a sensor has a battery that has only limited life left and will start to flash the relevant zone LED once per second and beep the buzzer twice. The sensor itself will indicate a low battery by flashing its LED when activated.
A Sensor Low battery SMS will also be sent.

Please note LOW Battery and Supervision Failure are very incessant sounds and should be attended to immediately.

1.3.6. Seismic detector for Panel Tamper:
The E12 also has a built in Seismic detector to detect any tampering with the panel. This detector can be configured for vibration intensity and duration by means of SMS commands.
The Seismic detector will always be on and will always only send an SMS. The siren will never be activated.
The Seismic detector can be disabled by sending **$XXXXq** to the E12.
The Seismic detector can be enabled by sending **$XXXXp** to the E12.

1.3.7. 24-Hour Test Signal:
The E12 will send a 24 hour test SMS at a specified time each day to indicate that the system is still in operation. This 24 hour test SMS can be disabled if necessary. The time of day when the SMS is sent can be specified by the user. This 24 hr test signal is in the form of a status report.

1.3.8. Signal Strength:
Network signal strength can be requested by sending **$XXXXT** to the E12. The E12 will reply with a number out of 31, where 31 is perfect signal strength.

1.3.9. Mains Failed/Restored
The E12 will send a mains failed SMS to all programmed cellular phones every time mains power is disconnected from the panel. The 'TRBL' button will light up as visual indication of mains failed. The trouble button can be switched off by resetting the panel. A 'mains restored' SMS will be sent only when mains power was restored and stable for 5 minutes.

1.3.10. Restore Failure
Every time a wired sensor is activated, the E12 will check the sensor after a certain time interval. If the sensor has not returned to its normal state, the E12 will send a restore failure SMS.

1.3.11. Entry and Exit delay
Zone 1, for group A, and zone 6, for group B, is programmed to have entry and exit delays. When arming the alarm, these zones will not trigger for 60 seconds (Default), allowing time to leave the premises.

GSM

When these zones are triggered, after the alarm has been armed and the first 60 seconds expired, the panel will buzz for 45 seconds (Default) before activating the alarm, allowing occupants to disarm the alarm via keypad. The exit delay time can be changed by the Cellsecure programming software. Entry delay will always be 15 seconds shorter than the programmed exit delay time.

1.4. Group Setup

The group setup is done by the Cellsecure programming software. The 24 zones can be divided into two groups, which can be controlled separately.

Users can be divided amongst these 2 groups. A User in group 1 can control the group one zones only and a user in group 2 can control only group 2 zones. The E12 will function as two separate security systems in this case.

For more information call the Cellsecure call center toll free at 0860 11 26 22.

1.5. Outputs

4 Outputs are available. These can be used to send telemetry signals (Alarm on/off, Panic, Mains on/off, etc) or operate any other electric equipment (Lights, electric locks etc) via SMS. The E12 can be set to use these outputs as telemetry outputs, meaning that a signal will be sent automatically every time the alarm is switched on/off, triggered etc. To set the outputs as telemetry outputs, send **$XXXX)** to the panel via SMS, where **XXXX** is a four digit numeric pin code. The outputs can also be controlled by SMS to switch on/off lights, open/close gates etc. See table 3 for SMS commands. In the table, the pulse command will switch the outputs on and off within a 1 sec interval. These commands will not function if the E12 is configured to use the outputs as telemetry outputs. To set the outputs as SMS outputs, send **$XXXX(** to the panel, where **XXXX** is a four digit numeric pin code.

1.6. Keypad

After installation of the panel, all keypads must be reset by sending the following command via SMS: **$XXXX%**. Buttons 1 and 2 will switch on and the enter button will start to flash. To associate a keypad with a partition, simply press the corresponding number on the keypad (1 for partition one or 2 for partition two). After the button is pressed, the keypad will return to its normal state and any commands entered on the keypad will control only the associated partition.

2. Description of system components

2.1. Remote control

The E12 uses a 3 button remote control. The remote control is used as described in table 2 below.

GSM

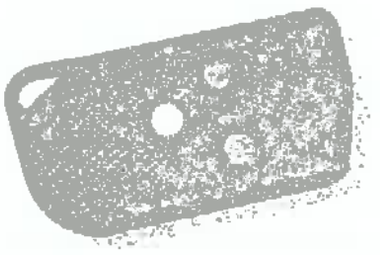


Figure 2.
Remote control.

Remote Buttons	Mode
Yellow	Off mode
Blue	Away mode
Red	Silent Panic
Yellow + Blue	Stay mode
Yellow + Red	Panic
Blue + Red	Monitor Mode
Yellow + Blue + Red	Reset

Table 2. Summary of remote control functions.

2.2. Types of Sensors.

NOTE: E12 Sensors should be used however E6 type of sensors can be used with limited signaling. See Appendix C.

Eight types of sensors can be connected to the E12.

1. Outdoor Passive Infrared Beam Sensors (Low or High power), E6 and E12.
2. Indoor Passive Infrared Sensors (High power), E12.
3. Mini Passive Infrared Medium power, E12.
4. Mini Passive Infrared Low power, E6.
5. Universal Transmitters Hi and Lo Power for doors, Gates etc. E6 and E12.
6. Seismic Transmitter, E6 and E12.
7. Dual Tilt Sensor, E6 and E12.
8. Outdoor OPTEX dual passive infra red sensors with a Universal Hi Power Transmitter, E6 and E12.

Note: there is a radio range difference between Low, Medium and Hi power devices.

Low Power up to 30 meters range.
Medium power up to 50 meters range.
Hi Power up to 150 meters range.

2.2.1. Outdoor Passive Infrared Beam Sensor (Low and High Power).

The Wireless Outdoor Infrared Sensors have been specially designed by Cellsecure to offer maximum performance with the minimum of false alarms in the harsh outdoor environment. The Sensor detects the movement of heat in the infrared spectrum of light. In other words a source of heat such as a human moving past the Sensor field of view (beam) will cause the Sensor to detect and a signal will be sent to the Control panel. The maximum distance that the Sensor will detect is safely 20 meters and at 20 meters the beam is approximately 3 meters wide, however in certain circumstances this could be more. It is recommended that the sensor is used as a proximity sensor and not as a perimeter sensor. Do not use this sensor open ended ALWAYS point towards a wall.

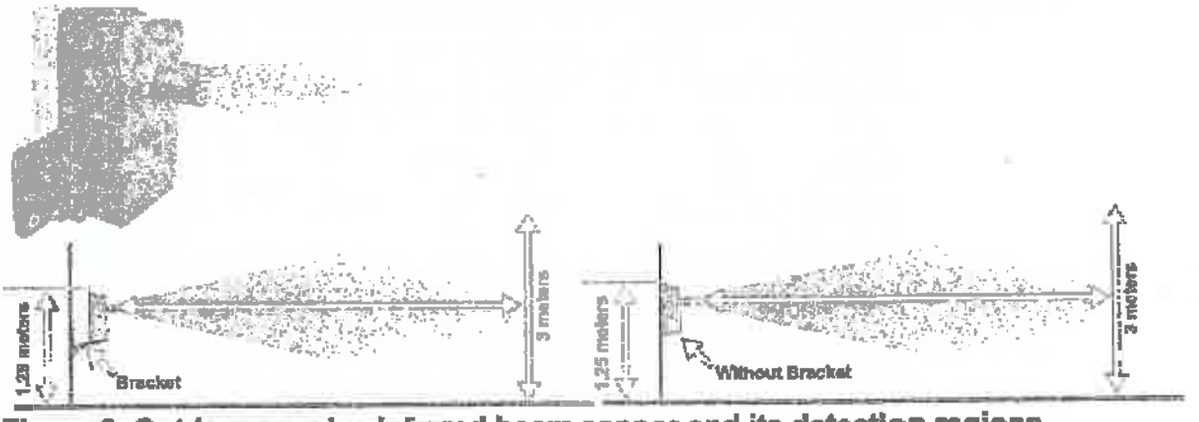

Figure 3. Outdoor passive infrared beam sensor and its detection regions.

2.2.2. Indoor Passive Infrared Wide Angle Sensors (High Power).

The Sensor detects the movement of heat in the infrared spectrum of light. In other words a source of heat such as a human moving past the Sensor field of view will cause the Sensor to detect and a signal will be sent to the Control Panel Control panel. The Sensor will detect movement up to 8-12 meters away from the device, at a hight of 1,8m, and up to 100 degrees wide.

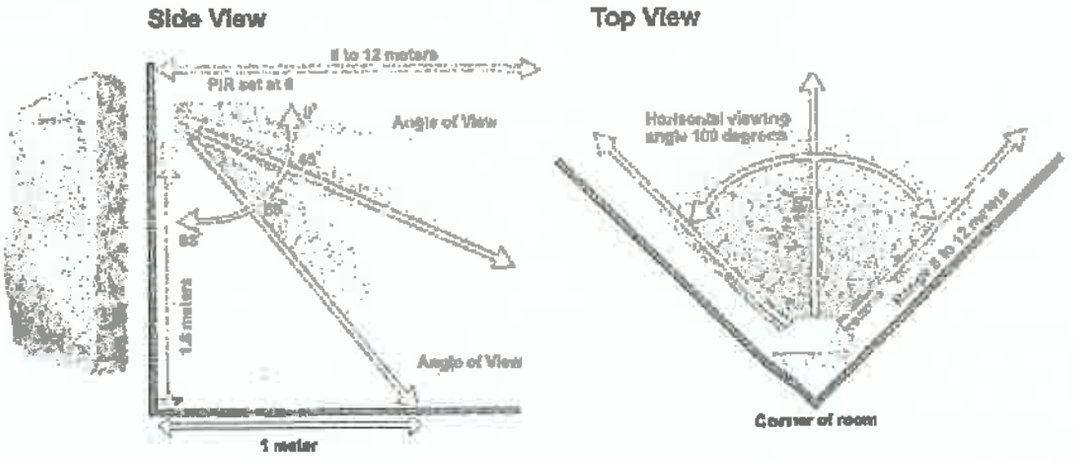

Figure 4.
Indoor Passive Infrared Wide Angle Sensor and its detection regions.

2.2.3. Mini Passive Infrared Low and Medium power

The Sensor detects the movement of heat in the infrared spectrum of light. In other words a source of heat such as a human moving past the Sensor field of view will cause the Sensor to detect and a signal will be sent to the Control Panel Control panel. The Sensor will detect movement up to 8-12 meters away from the device, at a hight of 1,8m, and up to 100 degrees wide.

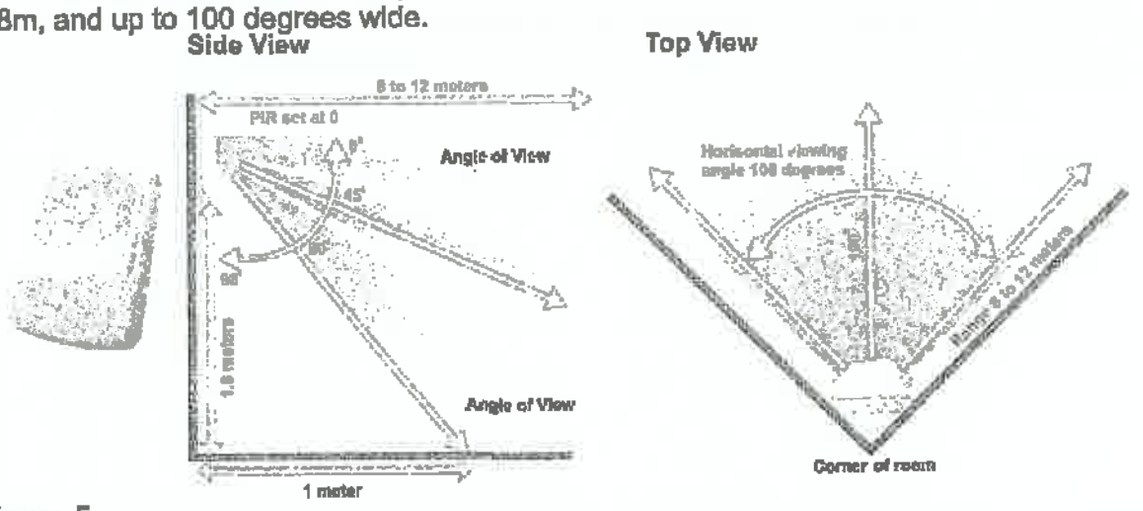

Figure 5.
Mini Passive Infrared Medium power sensor (same detection region as Indoor Passive Infrared Wide Angle Sensors).

2.2.4. Universal Transmitter (Door Guard). Low and High Power.

The Door guard, DG, is actually a universal transmitter with integral panic button and connections for a magnetic contact switch or similar device. The low power DG will send a signal to the control panel when the magnet moves away from the magnetic switch, for example, when a door or window is opened (N/C connector). The Low power DG is equipped with an internal blue strip connector for N/C connections. The high power DG is also equipped with an internal blue strip connector for N/O and N/C connections. The high power DG has a mercury tamper switch.

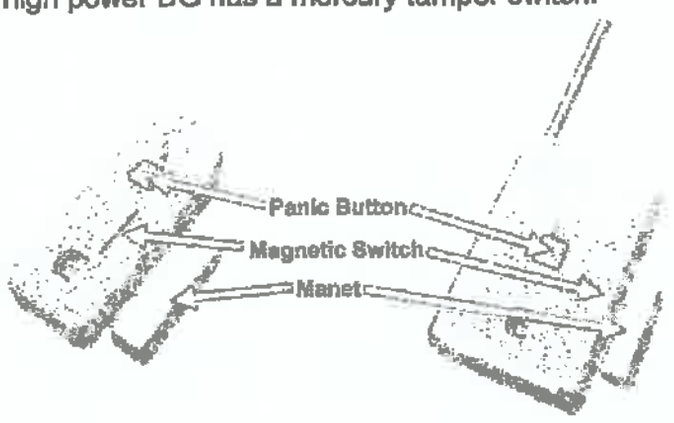

Figure 6.
Low power (left) and high power (right) Universal transmitter or Door-Guard.

G Smith

2.2.5. Seismic Transmitter High Power.
The seismic transmitter can be used to protect safes, vaults and movable assets. It will send a signal to the E12 every time it detects any vibration or movement. Every transmitter has a location and identity, enabling the E12 to recognize where tampering is taking place and communicate this information to the user.

Figure 7.
Seismic Transmitter.

2.2.6. Dual Tilt Sensor High Power.
The Dual tilt sensor will detect when a piece of equipment is tilted, ideal for computers. When the alarm is in away mode and the sensor is tilted a little bit, only an SMS will be sent. Tilting it more will result in an alarm condition. In any other mode only an SMS will be sent. This sensor is ideal for use on hi-fi or computer equipment.

Figure 8.
Dual Tilt Sensor.

2.3. Battery Charger, Battery (Power supply unit (PSU)) and transformer

The E12 Cleo uses a 3 amp PSU along with a 7Amp battery to supply power to the unit when mains power fails.
This battery will enable the E12 to operate without mains power for approximately 3 to 7 days depending on the amount of Wired Sensors. The charger will charge the battery

when connected to mains power. The battery will be fully charged within 24 hrs. The PSU also sends a Mains On/Off signal when the transformer is connected to - or disconnected from the Mains.

PLEASE NOTE: THE E12 CLEO CAN ONLY POWER 12 WIRED DEVICES OF BETWEEN 20 AND 100 MILLIAMPS EACH.

FOR ADDITIONAL DEVICES AN EXTRA POWER SUPPLY IS NEEDED.

2.4. External and Internal sirens

The sirens will sound when the alarm is activated, deactivated or triggered as described in the previous section.

Figure 9.
15Watt external siren (left), 40Watt external siren (middle) and indoor siren (right).

3. Programming the E12 Cleo

For new installations:

Press and hold the Learn button on the E12 Cleo until the LED switches off. (18 sec)

KEYRINGS AND DEVICES NEED TO BE READ INTO THE RECEIVER FIRST.

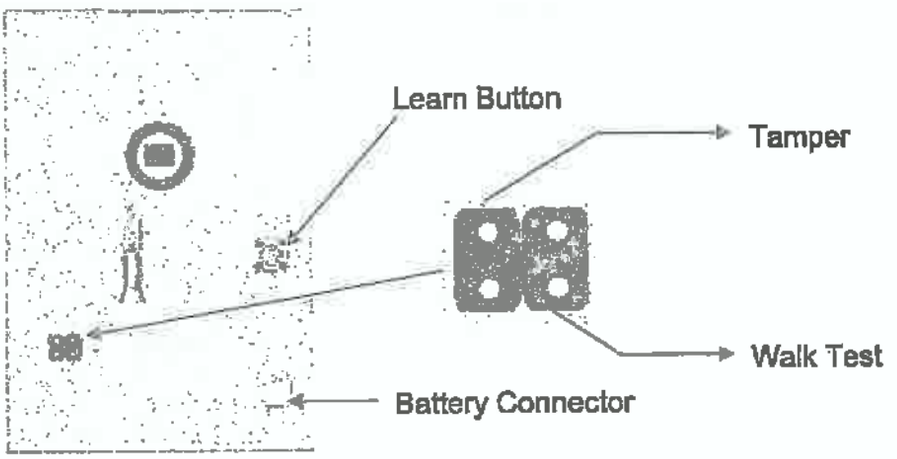
3.1. Learning in Key rings and Sensors

3.1.1. 3 Button Key Ring Remote

1. **Press the Learn Button on the Control Panel the Learn LED should switch on.**
2. **Press the Yellow Button on the 3 Button Remote Control and hold for 3 sec.**
3. **The Control Panel Learn LED may switch off.**
4. **The Control Panel Learn LED should flash and then stop.**
5. **To add more Remotes follow steps 1 – 4.**
6. **To program a remote to 1 of the 12 slots allocated follow the steps in section 3.2 of this document.**

GSM

3.1.2. Outdoor Passive Infrared Sensor Long Range. (HP Outdoor sensor for and E12 Panels)



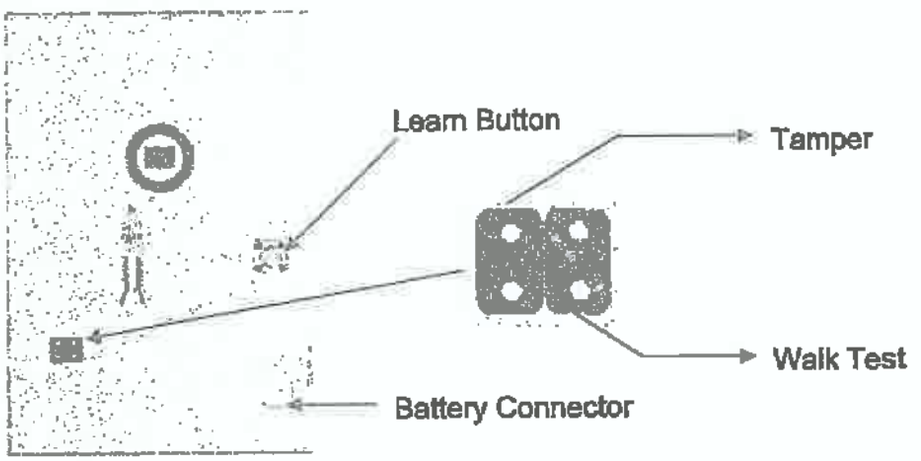
1. Loosen the 4 screws of the Outdoor sensor and carefully remove the back cover.
2. Mounted on the cover is the outdoor sensor electronic board.
3. Connect the Battery the connector can only go one way.
4. Identify the Learn button on the PIR.
5. Press the Learn Button and check that the LED of the sensor comes on and stay's on for 2 to 3 seconds after you release the button.
6. Now press the learn button on the Control Panel the learn LED should switch on.
7. Press the Learn button on the sensor and hold for 3 sec.
8. The Control Panel Learn LED may switch off.
9. The Control Panel Learn LED should flash and then stop.
10. To program this device to a zone follow the steps in section 3.2 of this document.

Connecting the 2 tamper pins will enable the tamper signal. When disconnected, no tamper signal will be generated by the sensor.

The walk test function is used for testing purposes. When the 2 walk test pins are connected, the sensor can send a triggered signal approximately every 10 seconds (opposed to the normal 3 minutes). To save battery power, these pins must be disconnected when testing is completed.

G5m

3.1.3. Indoor Passive Infrared Sensor Long Range. (HP Indoor Sensor for E12 Panels)



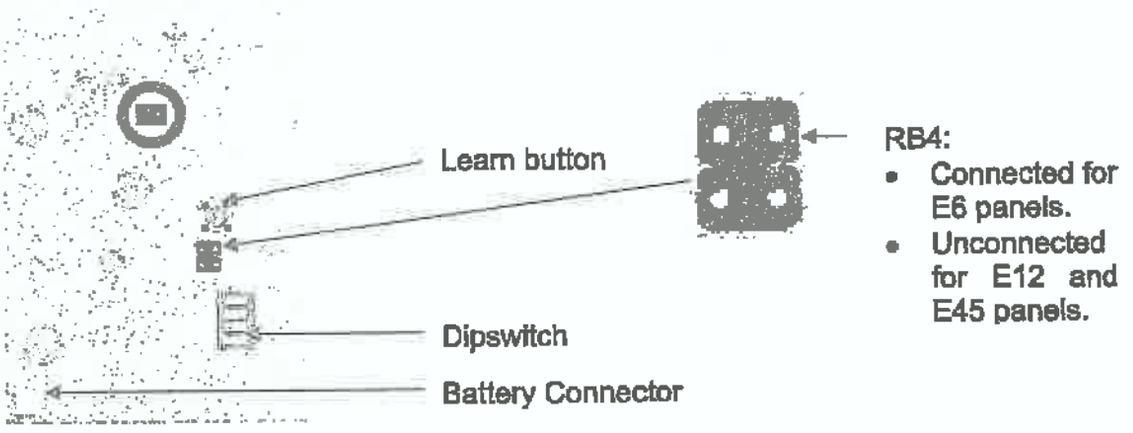
1. Open the Indoor Passive sensor.
2. Identify the Learn Button.
3. Connect the Battery the connector can only go one way.
4. Press the Learn Button and check that the LED of the sensor comes on and stay's on for 2 to 3 seconds after you release the button.
5. Now press the learn button on the Control Panel the learn LED should switch on.
6. Press the Learn button on the sensor and hold for 3 sec.
7. The Control Panel Learn LED may switch off.
8. The Control Panel Learn LED should flash and then stop.
9. To program this device to a zone follow the steps in section 3.2 of this document.

Connecting the 2 tamper pins will enable the tamper signal. When disconnected, no tamper signal will be generated by the sensor.

The walk test function is used for testing purposes. When the 2 walk test pins are connected, the sensor can send a triggered signal approximately every 10 seconds (opposed to the normal 3 minutes). To save battery power, these pins must be disconnected when testing is completed.

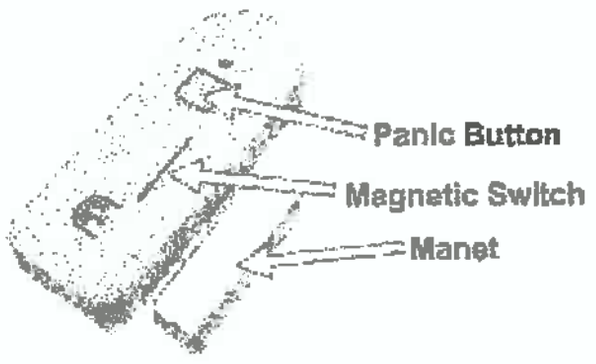
G S

3.1.4. Mini Indoor Passive Infrared sensor



1. For E12 and E45 panels, make sure that there is no LINK connected to RB4. For E6 panels, make sure that the 2 RB4 Pins are connected.
2. Connect the battery. The Connector can only go one way.
3. Press the Learn Button and check that the LED of the sensor comes on and stay's on for 2 to 3 seconds after you release the button.
4. Press the learn button on the panel once and make sure the LED switches on and stays on.
5. Press the Learn button on the sensor and hold for 3 sec.
6. The Control Panel Learn LED may switch off.
7. The Control Panel Learn LED should flash and then stop.
8. To program this device to a zone follow the steps in section 3.2 of this document.

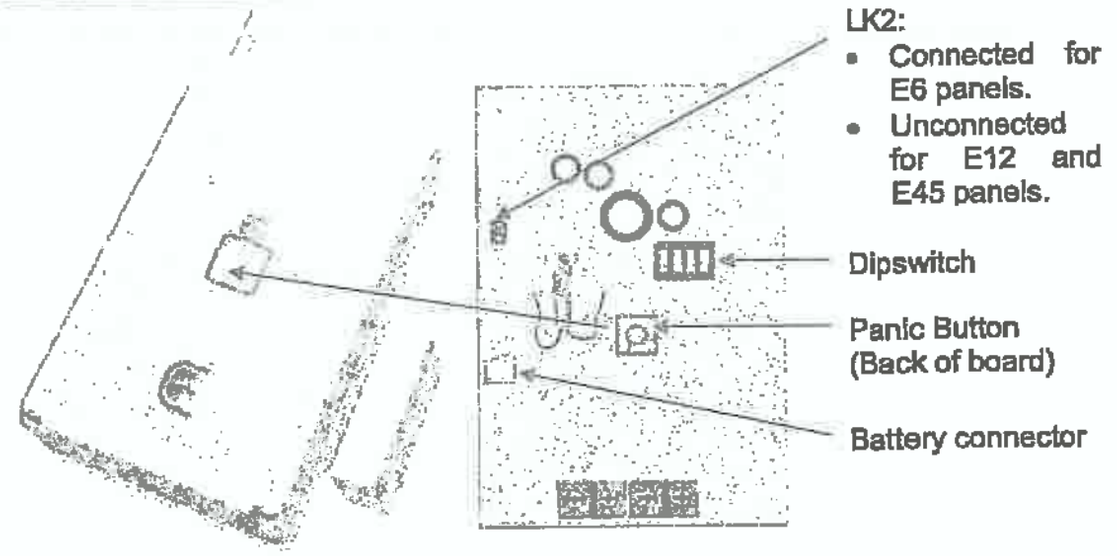
3.1.5. Mini Door Guard



1. Press the Panic Button and check that the LED of the sensor comes on and stay's on for 2 to 3 seconds after you release the button.
2. Press the learn button on the panel once and make sure the LED switches on and stays on.

3. Press the Panic button on the sensor and hold for 3 sec.
4. The Control Panel Learn LED may switch off.
5. The Control Panel Learn LED should flash and then stop.
6. To program this device to zone follow the steps in section 3.2 of this document.

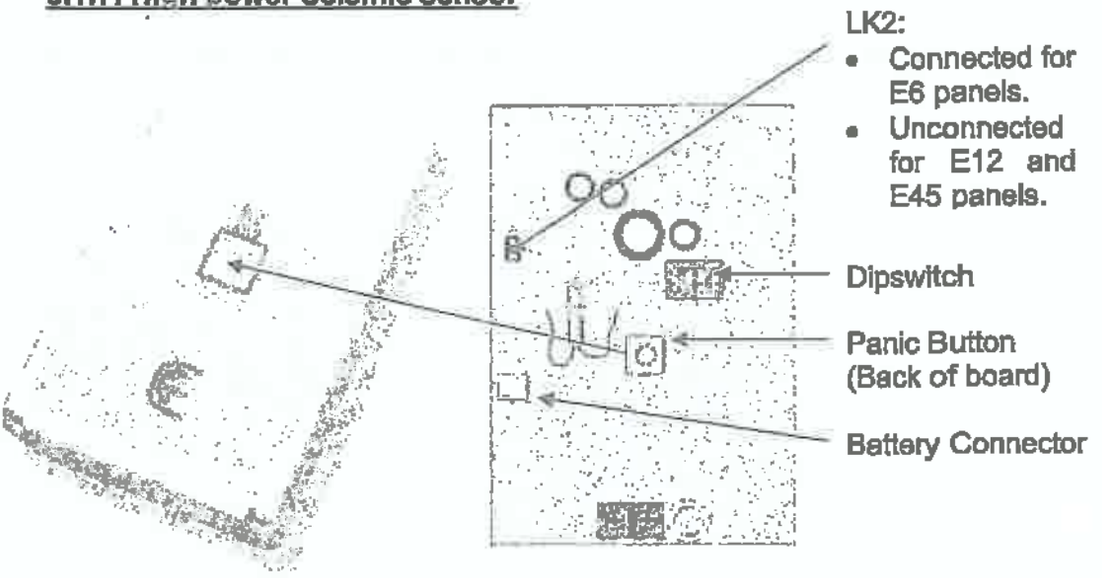
3.1.6. High power door guard



1. Open up the device and check that LK2 is configured correctly.
Check that the battery is connected.
2. Reassemble the unit and Press the Panic Button. Check that the LED of the sensor comes on and stays on for 2 to 3 seconds after you release the button.
3. Press the learn button on the panel once and make sure the LED switches on and stays on.
4. Press the Panic button on the sensor and hold for 3 sec.
5. The Control Panel Learn LED may switch off.
6. The Control Panel Learn LED should flash and then stop.
7. To program this device to a zone follow the steps in section 3.2 of this document.

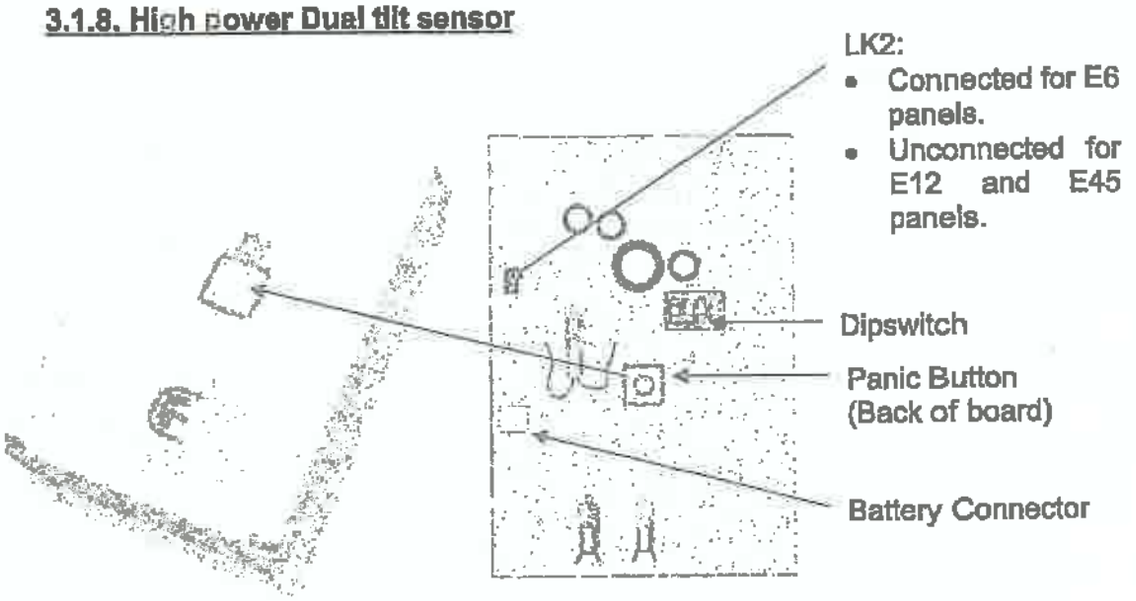
GSM

3.1.7. High power Seismic sensor



1. Open up the device and check that LK2 is configured correctly.
Check that the battery is connected.
2. Reassemble the unit and Press the Panic Button. Check that the LED of the sensor comes on and stays on for 2 to 3 seconds after you release the button.
3. Press the learn button on the panel once and make sure the LED switches on and stays on.
4. Press the Panic button on the sensor and hold for 3 sec.
5. The Control Panel Learn LED may switch off.
6. The Control Panel Learn LED should flash and then stop.
7. To program this device to a zone follow the steps in section 3.2 of this document.

3.1.8. High power Dual tilt sensor



1. Open up the device and check that LK2 is configured correctly. Check that the battery is connected.
2. Reassemble the unit and Press the Panic Button. Check that the LED of the sensor comes on and stays on for 2 to 3 seconds after you release the button.
3. Press the learn button on the panel once and make sure the LED switches on and stays on.
4. Press the Panic button on the sensor and hold for 3 sec.
5. The Control Panel Learn LED may switch off.
6. The Control Panel Learn LED should flash and then stop.
7. To program this device to a zone follow the steps in section 3.2 of this document.

GSM

3.2. Associating Wireless Sensors with zones

Before installing a wireless sensor, the sensor should first be associated with the zone it must be installed in.

1. Switch the E12 to Off Mode.
2. Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
3. Press the trouble button, followed by 2nd function, followed by enter. The program button light and the trouble button light will switch on. All zone numbers which already has one or two sensors associated will also light up.
4. Press the Learn button on the sensor.
5. All zone numbers with less than 2 sensors programmed in will start to flash. If a button doesn't flash, that corresponding zone has 2 sensors programmed in already (Only 2 sensors per zone are allowed).
6. Press the required zone number button (Only flashing buttons). All buttons will stop flashing and the zone numbers with sensors programmed in will stay on. The sensor is now associated with that zone.
7. To program more sensors, start from step 4 above.
8. Press the enter button to exit program mode, when finished.

3.3. Removing Wireless Sensors from zones

Wireless sensors can be removed from a zone by following this procedure.

1. Switch the E12 to Off Mode.
2. Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
3. Press the trouble button, followed by 2nd function, followed by enter. The program button light and the trouble button light will switch on. All zone numbers which already has one or two sensors associated will also light up.
4. Press the zone number button that must be removed (Only switched on buttons). The button will switch off when it is pressed and the sensor is now removed from that zone. If there were 2 devices on that zone both will be removed.
5. To remove more sensors, repeat step 4 above.
6. Press the enter button to exit program mode, when finished.

3.4. Associating Key rings with Users

Each key ring remote must be programmed into the E12 before it can be used. Every remote must be programmed in on a different number, 1-12 (for user 1- 12). The keypad can be used to program in key ring remote controls by following this procedure:

1. Switch the E12 to Off Mode.
2. Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.

3. Press the trouble button followed by enter. The Program button light will switch off and the trouble button light will switch on. The numbers already associated with a remote will also switch on and can not be used again.
4. Press the yellow button on the key ring remote.
5. If it's the first remote to be programmed in, the '1' button will flash, indicating an available space. The flashing button indicates the next available number. Select the flashing number or any number with a button light which is off.
6. Press the selected button. The button light will switch on and stay on.
7. To program in more remotes, start from step 4 above.
8. When finished, press the enter button to exit program mode.

3.5. Removing Key rings

Key ring remotes can be removed from a zone by following this procedure.

1. Switch the E12 to Off Mode.
2. Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
3. Press the trouble button followed by enter. The Program button light will switch off and the trouble button light will switch on. The numbers already associated with a remote will also switch on.
4. Press the key ring number button that must be removed (Only switched on buttons). The button will switch off when it is pressed and the key ring is now removed from that user.
5. To remove more remotes, repeat step 4 above.
6. When finished, press the enter button to exit program mode.

3.6. Programming Active Zones

The keypad can be used to program active zones for all the different modes.

3.7. Programming Active Zones

The keypad can be used to program active zones for all the different modes. Programming by keypad will only work for the partition with which the keypad is associated.

3.7.1. Programming active zones for Away Mode:

Wired Zones:

- Switch the E12 to Off Mode.
- Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
- To program wired zones, press the Away button, followed by enter. The Away button will light up and all the active zones will light up. If no zone buttons light up, no wired zones are active in Away Mode.

- To program a wired zone to be active in Away Mode, press the corresponding zone number button on the keypad. The button will light up, indicating that the zone will be active in Away Mode.
- To deactivate a zone, press the corresponding zone number button on the keypad. The button light will switch off, indicating that the zone will not be active in Away Mode.
- When all the zones have been programmed, simply press enter to return to program mode.

Wireless zones:

- Switch the E12 to Off Mode.
- Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
- To program wireless zones, press the Away button, followed by 2nd function followed by enter. The Away and Prog button will light up and all the active wireless zones will light up. If no zone buttons light up, no wireless zones are active in Away Mode.
- To program a wireless zone to be active in Away Mode, press the corresponding zone number button on the keypad. The button will light up, indicating that the zone will be active in Away Mode.
- To deactivate a zone, press the corresponding zone number button on the keypad. The button light will switch off, indicating that the zone will not be active in Away Mode.
- When all the zones have been programmed, simply press enter to return to program mode.

3.7.2. Programming active zones for Stay Mode

Wired Zones:

- Switch the E12 to Off Mode.
- Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
- To program wired zones, press the Stay button, followed by enter. The Stay button will light up and all the active zones will light up. If no zone buttons light up, no wired zones are active in Stay Mode.
- To program a wired zone to be active in Stay Mode, press the corresponding zone number button on the keypad. The button will light up, indicating that the zone will be active in Stay Mode.
- To deactivate a zone, press the corresponding zone number button on the keypad. The button light will switch off, indicating that the zone will not be active in Stay Mode.
- When all the zones have been programmed, simply press enter to return to program mode.

Wireless zones:

- Switch the E12 to Off Mode.

GSM

- Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
- To program wireless zones, press the Stay button, followed by 2nd function followed by enter. The Stay and Prog button will light up and all the active wireless zones will light up. If no zone buttons light up, no wireless zones are active in Away Mode.
- To program a wireless zone to be active in Stay Mode, press the corresponding zone number button on the keypad. The button will light up, indicating that the zone will be active in Stay Mode.
- To deactivate a zone, press the corresponding zone number button on the keypad. The button light will switch off, indicating that the zone will not be active in Stay Mode.
- When all the zones have been programmed, simply press enter to return to program mode.

3.7.3. Programming active zones for Monitor Mode

Wired Zones:

- Switch the E12 to Off Mode.
- Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
- To program wired zones, press the Monitor button, followed by enter. The Monitor button will light up and all the active zones will light up. If no zone buttons light up, no wired zones are active in Monitor Mode.
- To program a wired zone to be active in Monitor Mode, press the corresponding zone number button on the keypad. The button will light up, indicating that the zone will be active in Monitor Mode.
- To deactivate a zone, press the corresponding zone number button on the keypad. The button light will switch off, indicating that the zone will not be active in Monitor Mode.
- When all the zones have been programmed, simply press enter to return to program mode.

Wireless zones:

- Switch the E12 to Off Mode.
- Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
- To program wireless zones, press the Monitor button, followed by 2nd function followed by enter. The Monitor and Prog button will light up and all the active wireless zones will light up. If no zone buttons light up, no wireless zones are active in Monitor Mode.
- To program a wireless zone to be active in Monitor Mode, press the corresponding zone number button on the keypad. The button will light up, indicating that the zone will be active in Monitor Mode.
- To deactivate a zone, press the corresponding zone number button on the keypad. The button light will switch off, indicating that the zone will not be active in Monitor Mode.

GSM

- When all the zones have been programmed, simply press enter to return to program mode.

3.6 Programming Passwords

The keypad can be used to program user passwords (Default: 1234) and the Master password (Default: 123456):

Programming User Passwords:

1. Switch the E12 to Off Mode.
2. Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
3. Press the MEM button followed by the user number (1-12). Pressing 2, for example, will mean that user password 2 must be programmed in. The selected number button will start to flash.
4. Enter the 4 digit numeric password and press enter.
5. To program the next password start from step 3 above. All 12 user passwords are programmed in the same way.

Programming the Master Password:

1. Switch the E12 to Off Mode.
2. Enter the 6 digit master code, press the program button followed by enter. The program button will light up, showing that the E12 is ready to be programmed.
3. Press the MEM button followed, by 2nd function, followed by enter. The MEM button will start to flash.
4. Enter the 6 digit numeric password and press enter.
5. Press enter a second time to exit program mode.

4. Summary of SMS Commands

In the table below, XXXX is a four digit user password.

Modes and Functions		
Description	**Command**	**Explanation or Default SMS**
Switch to Away Mode	$XXXXA	Away Mode Group A/Group B
Switch to Stay Mode	$XXXXS	Stay Mode Group A/Group B
Switch to Off Mode	$XXXXO	System Off Mode Group A/Group B
Switch to Monitor Mode	$XXXXM	Monitor Mode Group A/Group B
Silent Panic	$XXXXH	Silent Panic Group A/Group B
Panic	$XXXXP	Panic Group A/Group B
Reset E12	$XXXXr	Reset Group A/Group B
Trigger Gas discharge	$XXXXG9	Gas Triggered
Switch Output 1 On	$XXXXB1	Output 1 On
Switch Output 1 Off	$XXXXB0	Output 1 Off
Pulse Output 1	$XXXXB9	Output 1 pulse (Switch On and Off)
Switch Output 2 On	$XXXXC1	Output 1 On
Switch Output 2 Off	$XXXXC0	Output 1 Off
Pulse Output 2	$XXXXC9	Output 1 pulse (Switch On and Off)
Switch Output 3 On	$XXXXD1	Output 1 On
Switch Output 3 Off	$XXXXD0	Output 1 Off
Pulse Output 3	$XXXXD9	Output 1 pulse (Switch On and Off)
Switch Output 4 On	$XXXXE1	Output 1 On
Switch Output 4 Off	$XXXXE0	Output 1 Off
Pulse Output 4	$XXXXE9	Output 1 pulse (Switch On and Off)
Enable/Disable functions + information requests		
Enable Gas discharge	$XXXXG1	Auto Gas Enabled
Disable Gas discharge	$XXXXG0	Auto Gas Disabled
Disable 24 hr test signal	$XXXXV	Disable 24 H
Enable Seismic detector	$XXXXp	Seismic Detector On
Disable Seismic detector	$XXXXq	Seismic detector Off
Request signal strength	$XXXXT	/31 Signal Strength
Request alarm panel time	$XXXXt	Unit will reply with its current time and date setting
Request Timer Settings	$XXXX*	All timer settings will be sent to the requesting Cell phone
Request Base and SMSC numbers	$XXXXI	Base station and SMSC numbers will be given
Request Cell numbers	$XXXXJ	All 4 programmed cell numbers will be given
Status request	$XXXXL	Status of alarm/Mains power/Battery
Request zone setup	$XXXXs	Reports the zone setup for the different modes
Set Outputs as Telemetry outputs	$XXXX)	See Section 1.5
Set Outputs as SMS outputs	$XXXX(	See Section 1.5
Disable SMS sending in Monitor- + Stay mode	$XXXX>	No SMS's will be sent when panel is in monitor or stay mode
Enable SMS sending in Monitor- + Stay mode	$XXXX<	All SMS's will be sent when panel is in monitor or stay mode

Table 3.
Summary of SMS Commands.

Appendix A: Wiring Diagram

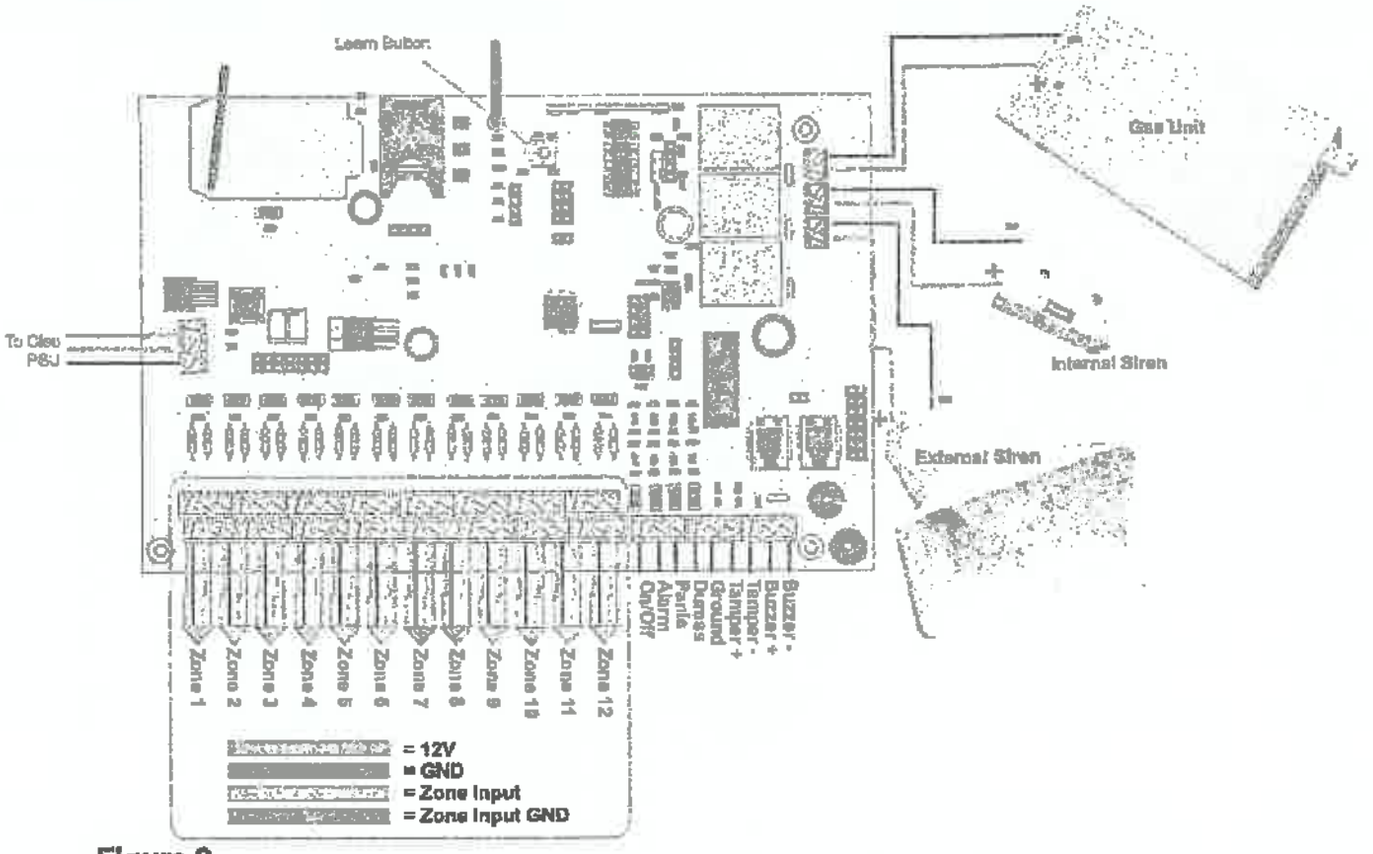


Figure 9.
Wiring diagram for the E12 Cleo.

GSM

Appendix B: Connecting multiple keypads to the E12

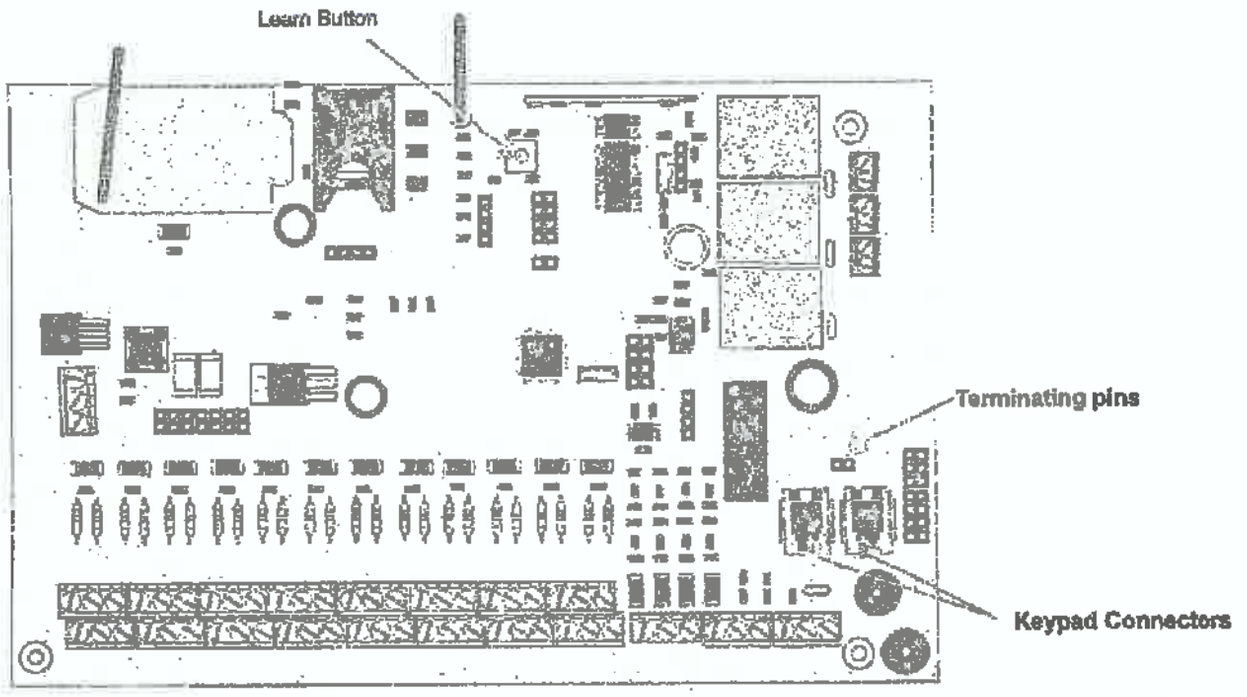

Figure B.1.
E12 Cleo PC board, showing the location of the keypad connectors and keypad terminating pins.

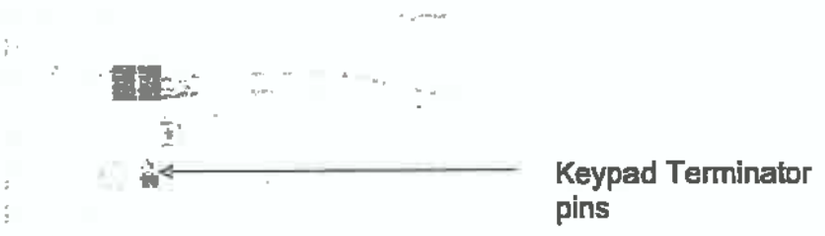

Figure B.2
E12 keypad PC board, showing the location of the keypad terminating pins.

Gsm

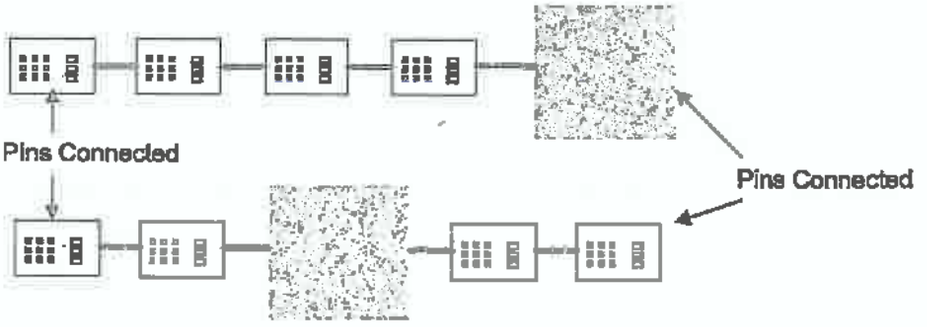

Figure B.3
Keypads connected to panel.

Two keypads can directly connect to the panel, using the connectors shown. To connect more than 2 keypads to the panel, the keypads must be wired in parallel. The keypad terminator pins must be connected for the two devices on the opposite edges of the connection and unconnected for the other devices. Figures B.1 and B.2 shows the location of the keypad terminating pins on the panel and keypad respectively. Figure B.3 shows 4 keypads connected to a panel in two different formats. The keypad terminating pins must be connected as shown in figure B.3.

Appendix C: Dipswitch settings for E6 devices

Settings used with E6 PIR

Function	Dipswitch setting 1 2 3 4
Learn	0 0 0 1
Trigger	1 0 0 1

Use the Learn function setting to learn the device into the panel. After successfully reading in the device, the dipswitch must be set to the trigger function.
Note: To Learn the device in, press the learn button or use TX shunt on older PIR's

Settings used with E6 Door Guard

Function	Dipswitch setting 1 2 3 4
Learn	1 0 0 1
Trigger in away mode	0 1 0 1
Silent in any mode	0 0 1 1

Use the Learn function setting to learn the device into the panel.
Trigger in away mode: Will cause an alarm condition if triggered while the panel is in away mode.
Silent in any mode: Trigger notification via telemetry outputs and keypad only.
Note: To Learn the device in use the NC or NO input, DO NOT USE THE PANIC BUTTON!!

WHEN USING E6 DEVICES, NO TAMPER AND PANIC FUNCTIONS ARE AVAILIBLE! IF THESE FUNCTIONS ARE REQUIRED, USE E12 / E45 DEVICES.

GSM

Resistor Values
R1 = 1K8 Ohm
R2 = 470 Ohm
R3 = 7K5 Ohm

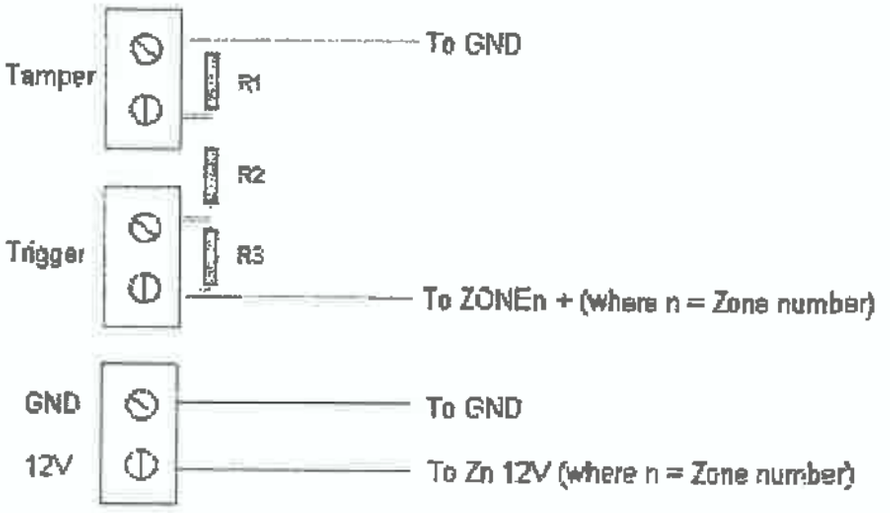

Figure 10. A.1
Connecting a passive infrared sensor to the E12. Also see figure 9 for wiring on the panel's side.

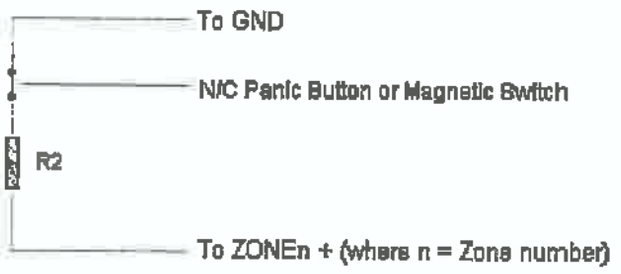

Figure 11.
Connecting a Normally Closed panic button or magnetic switch to the E12 for 24 hour monitoring (Opening the switch will result in a notification message only, no alarm condition). Zone n must be active in Away mode. Also see figure 9 for wiring on the panel's side.

GSM

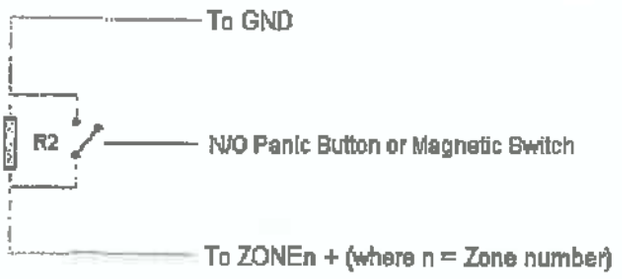

Figure 12.
Connecting a Normally Open panic button or magnetic switch to the E12 for 24 hour monitoring (Closing the switch will result in a notification message only, no alarm condition). Zone n must be active in Away mode. Also see figure 9 for wiring on the panel's side.

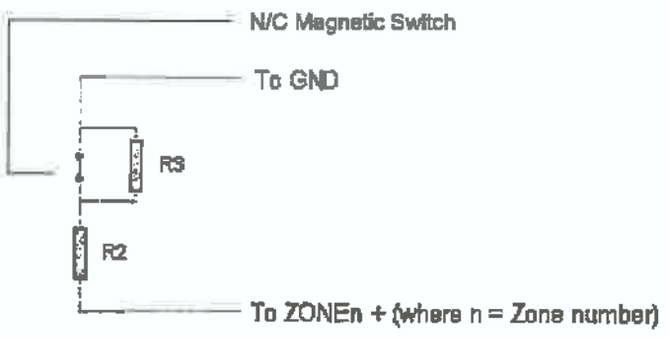

Figure 13.
Connecting a Magnetic Switch to the E12 for normally closed operation (Opening the switch will cause the alarm to trigger, only if the alarm is armed). Also see figure 9 for wiring on the panel's side.

Security Warnings

- Only calls/text messages which are communicated with GOLD LOCK are secure, normal calls/text messages on the device are not secure.
- Prevent access to the secure phone device to people that you don't trust.
- Prevent installation of untrusted software on the secure phone.
- For maximum security - it is recommended to switch off infra red and Bluetooth connections on the secure phone.

Pre Requisites

- Both SIM cards participating in the call must be "data calls" (CSD) enabled
- Phone must be on GSM Network Mode – Go to Menu, Tools, Settings, Network, Network Mode – Choose GSM (Not Dual). The phone must be online with a SIM card inserted prior to changing this setting.

Installation / Un-installation

IMPORTANT NOTE: Please make sure the phone is in GSM mode (See Pre Requisites section for details)

To install the application using a data cable:

- Install the Nokia PC suite (from the CD inside the box)
- Attach the data cable to the USB port of the PC.
- Connect the data cable to the Nokia device.
- Make sure the phone is identified by the PC.
- Double click the SIS Installation file on the PC.
- Follow the on screen instructions to complete the installation.
- From the installed applications menu, click on Gold Lock to activate.
- Confirm service note.
- Wait for 3 minutes while system is initialized (in the background once per phone restart).
- Select Options, Settings, Disable bill warnings, Confirm.
- Select Options, Settings, Enable auto start
- Go to Options, Register.
- Insert your registration code.

To remove the application:

- Open the phone's Application Manager.
- Mark the GOLD LOCK application, choose Options, Remove.
- Confirm the following messages by the uninstaller.

To upgrade – install a newer version

- Perform the steps to remove the old version.
- Perform the steps to install the new version.

Usage Instructions

- **Wait for 3 minutes after installation or phone boot, to enable the encryption software to fully load.**

- **To initiate a call:**

  - Press the "C" button until the GOLD LOCK application appears. You can also call the GOLD LOCK application by pressing the menu button and choosing the GOLD LOCK icon.
  - Type the phone number you wish to call.
  - If you want to choose a number from your contacts list, go to Options => Contacts and choose a contact name from there.
  - To start dialing, press one time on the joystick button, or the green dialing button.
  - You can begin the conversation after the message "Secure Call Started". You may verbally confirm with the recipient side that both red verification codes on screen are identical, as an extra measure of security.

- **To receive a call:**

  - When your phone receives a secure call, the encryption software automatically detects it.
  - Choose "Answer" or "Reject".

- **To send a secure text message during a call:**

  - While in a secure call, choose "Messages", then press on "Create Message".
  - Type the text you wish to send (you can switch between languages and numbers using the PEN key).
  - Press once on the joystick to send the message.

- **Volume control: you can easily raise or lower the hearing volume with the joystick button (to raise push button up, to lower push button down).**

SEQ 29/2021-2428

Memorandum of understanding

Between the

SOUTH AFRICAN POLICE SERVICE

CRIME INTELLIGENCE GATHERING DIVISION

(Herein after referred to as SAPS:CIG)

Herein represented by J. Selebi in his capacity as the National Commissioner of Police

And

THE SOUTH AFRICAN REVENUE SERVICE

(Herein after referred to as SARS)

Herein represented by P.J. Gordhan in his capacity as the Commissioner of the South African Revenue Service

Concerning

Mutual co-operation between the SARS and SAPS:CIG aimed at enhancing the South African state's capacity to address criminal activity and to collect state revenue.

PREAMBLE

1.

Noting the low levels of tax morality in our society, the strong link between serious crime, trans-national crime and tax evasion, the increase in revenue related crimes committed on an organised basis as well as the State's capacity constraints to address organised crime within the Republic of South Africa;

Believing that the deepening of democracy and the promotion of basic human rights amongst other requires an enhancement of the South African state's capacity to address organised criminal activity and to collect state revenue;

Further believing that the strategic collaboration, within the framework of law, between SARS and the SAPS:CIG can assist both institutions in the execution of their respective statutory mandates;

Accordingly a memorandum of understanding is hereby entered into between SARS and the SAPS:CIG as represented by the Commissioner of the South African Revenue Service and he National Commissioner of the SAPS

PURPOSE

2.

This memorandum of understanding:

2.1 Sets out those matters agreed upon by the SARS and the SAPS:CIG (the parties) with regard to the co-operation between them;

2.2 Will serve to strengthen and formalise the existing relationship between the parties in the fields of information sharing, joint enforcement actions and in general mutual co-operation and assistance;

2.3 The purpose of this agreement must provide tends to provide for a suitable mechanism to enable SARS to act in support of SAPS:CIG in matters pertaining to

GSM

common focus areas concerning tax and customs related organised crime in South Africa. To this end SARS has created a dedicated unit of staff who are tasked to collect and analyse departmental intelligence as described in the National Strategic Intelligence Act. In order to ensure that maximum benefit is obtained by SARS in the utilisation of this unit, operational support will be provided by SAPS:CIG. This support will be two-fold:

2.3.1 SAPS:CIG will provide a mechanism to support personnel requirements for identified SARS personnel; and

2.3.2 SAPS:CIG will provide a mechanism whereby operational costs can be managed (SARS will provide all funding relevant to this unit via SAPS:CIG

PRINCIPLES

3.

The parties agree:

3.1 In pursuit of SARS's request to develop a departmental intelligence capability with the mandate to focus on organised tax and customs crimes SAPS:CIG will support SARS;

3.2 Any mechanism or system provided for in terms of this agreement must conform to procedures and policies of both parties and the PMFA;

3.3 To seek synergies and areas of collaboration between both parties on an ongoing basis;

3.4 The SARS departmental intelligence capability will not exceed the functions as described in the National Strategic Intelligence Act and will restrict it's functioning to that of SARS related departmental intelligence

GSM

PERSONNEL REQUIREMENTS

4

4.1 All staff deployed within the SARS unit is fulltime employees of SARS. All rights and consequences flowing from this fact fall within the ambit of SARS as the employer and the identified personnel as employees.

4.2 SAPS: CIG undertakes to manage the payroll for the identified staff in the following manner:

4.2.1 SARS will provide an annual cost to company breakdown for all staff, including salary, allowances, bonuses and other personnel costs.

4.2.2 SAPS: CIG will create a legal entity for the purposes of this agreement,

4.2.3 SAPS: CIG will make funds available to the legal entity that will in turn pay the exact monthly remuneration to the employees. PAYE will be deducted and paid to SARS in the normal sense. The legal entity will in turn, issue annual IRP5's to all employees.

4.2.4 An Individual contract will be entered into between employees and the created legal entity to maintain the status of SARS employees.

4.3 SAPS: CIG will recoup the total cost to company costs from SARS on a quarterly basis.

4.4 Specific aspects pertaining to personnel requirements are elaborated as in the attached annexure being:

4.4.1 Employee / employer relationships

4.4.2 Remuneration

4.4.3 Increases

4.4.4 Tax

4.4.5 Medical aid

4.4.6 Pension fund contributions

4.4.7 Bonuses

4.4.8 Any other salary aspects

4.4.9 Recruitment and selection

4.4.10 Promotion

GSM

4.4.11 Disciplinary and grievance procedures

4.4.12 Unemployment Insurance fund contributions

4.4.13 Workmanship compensation

4.4.14 Injury on duty

4.4.15 Danger allowance

4.4.16 Overtime

4.4.17 Leave

OPERATIONAL FUNDING

5

5.1 The SARS unit will, as any other business unit in SARS, have to conform to the annual and MTEF budgeting cycle. The unit will be required to submit an annual budget, associated to an annual business plan. The budget subject to approval and allocation of the SARS finance division will set out operational and capital expenditure in the format as attached. Subject to SARS executive approval SAPS: CIG will finance the activities of the unit through SAPS finance systems in respect of:

5.1.1 Acquisition of equipment and resources

5.1.2 Travel and subsistence

5.1.3 Payment of informants

5.1.4 Entertainment of sources and clients

5.2 Approval requirements for expenses are set out in more detail as per annexure

JOINT LAW ENFORCEMENT ACTIONS

6.

Joint enforcement action is defined as those investigations where the Commissioner of SARS and the SAPS:CIG or their representatives agree that a pooling of resources between the SAPS:CIG and the SARS is required to successfully engage a criminal syndicate, enterprise or individual. Such pooling of resources may take the form of

GSM

legal information sharing, secondments and resource sharing. It is expected that once a request for such joint action has been made and agreed upon, the investigation will be undertaken as a project with the requestor acting as project manager.

OVERSIGHT MECHANISMS

7

7.1 PFMA

7.2 SARS annual budgeting & MTEF cycle.

7.3 SAPS: CIG secret document on auditing requirements

7.4 Coordinating committee annual and quarterly report meeting on reviewing and approval. The report need to elaborate on:

7.4.1 Costing

7.4.2 Expenditure vs. Cost reconciliation

7.4.3 Operational progress and successes

7.4.4 Expense forecast for next quarter

7.5 All cost subject to approval of formal operational projects by the General Manager: Enforcement & Risk

REVIEW

8.

8.1 This agreement will be reviewed regularly to determine any adjustments, which may be necessary. An amendment is subject to written approval of both parties herein.

8.2 This is a founding general agreement between the parties. Further details with regard to matters agreed to in terms of this agreement will be dealt with between the specific business units of SARS and the SAPS:CIG. Such other specific additional agreements will be in writing and from annexure to this agreement, and

G SM

will only come into effect after being signed by duly authorized representatives of both parties.

ANNEXURES

N

Short report – Meeting with S 23 July 2018-07-23

CF, JdW and HL met with S as requested. The meeting took place at Centurion Mall at 08h00. During this meeting the CF, JdW, told him that they did not answer his call as the team decided to break contact with him. We were just respecting this decision. HL told him that he took his calls as was not really part of the team the past few months.

HL started to tell S that should he be placed in an uncomfortable position due to the work he did for S he will seek personally put in a civil claim against him as S told him that the tasking came directly from the president and he later learned it did not. He also told S that he is unhappy about the continuous lies that S told whilst he was in charge of the team. CF explained that he was upset about S allegations that the team broke into his house and stole his computer. He explained that there was a breached of trust between S and the 3 members that would not recover easily. He confirmed that he was also upset about S's deceitful behaviour. He could also not understand why S send a MXit message to him indicating that he is going to "blow the team out of the water" and that he is "going to see GN" about operation "Sunday evenings".

Johan told S that he was upset because S tried to discourage SF (his fiancé) to apply at SARS because and that he requested CF to assist him in persuading her. He was especially upset after S tried to organize a job for his own wife at SARS.

S replied that he has in his possession a letter signed by PG that they authorized and will carry the legal costs should there be any problems due to operation "Sunday evenings". HL asked for a faxed copy, S said that the letter was with his lawyer and that he will get it from him.

We did not confront him on more issues as we tried to keep the conversation as friendly as possible. JdW and CF left and HL continued to have a meeting with S. S told HL that his insurance does not want to settle his claim because they accuse him of burglar his own house and that the claim is a sham.

Secondly, he asked HL what is going on with the Sonel case. He say-ask me whether HL was the manager of Sonel HL told him that Chief Courier Intelligence was the manager of Sonel and that they employed him as clerk to manager or financial manager or where ever they needed him. He then asked whether he have read the article in Beeld of Sonel.

Comments: It is interesting that he mentioned Sonel and the Beeld. A further interesting point is that Erika Gibson wrote the article in the Beeld

After the meeting we met up with JvL, he again explained the importance of us telling him that IP knows about the things he did wrong, after a lot of persuasion from JvL, JdW form now on called "JdW the brave" called S and told him that he told IP about the profile FvN did for BN via SN and the file he wanted us to hand to the press (S still believes the file was handed to the press).

The end.

GESPREK

MNR S. JANSE VAN RENSBURG & MNR H. LOMBARD: 28 APRIL 2009

MNR LOMBARD: Hoe lyk dit?

MNR VAN RENSBURG: Nee oraait en jy?

MNR LOMBARD: Okay.

MNR VAN RENSBURG: Jy raak nog wit.

MNR LOMBARD: Ja en jy raak nie bruin nie, jy is veronderstel om bruin te wees.

MNR VAN RENSBURG: Hoor my, ek dra 'n hoed.

10 MNR LOMBARD: Dit moet 'n groot hoed wees.

MNR VAN RENSBURG: Nee ek dra 'n hoed en ek smeer salfies. Nee, nee, die son is nie jou maat as jy nie hare het nie.

MNR LOMBARD: Ek glo dit goed.

MNR VAN RENSBURG: Ek het 'n groot hoed wat ek dra, ek smeer my elke dag faktor – hierdie 30 of wat ook al plus – faktor 50. As ek nie smeer nie brand ek moer toe en as jou kop eers gebrand het dan – jy kan nie eers jou gesig trek nie dan is dit seer.

MNR LOMBARD: Jy kan nie 'n hoed op sit dan nie.

20 MNR VAN RENSBURG: Ja jy kan nie jou hare was nie, dis 'n bietjie sensitief, ek is mos baie lig. So verder?

MNR LOMBARD: Net hel baie werk, maar verder gaan dit goed. Daar by jou? Dit moet goed gaan met die boerdery.

MNR VAN RENSBURG: Ja dit gaan aan.

MNR LOMBARD: 'n Pel van my bel my gister, hy is in Tanzanië, hy is daar by 'n goud myn, sekuriteit bestuurder. Hy werk daar want hy kry 'n helse goeie pakket.

MNR VAN RENSBURG: Ek het so 'n paar jaar terug in Tanzanië mos ook gewerk, Dar Es Salaam, op tot bo teen die berg.

30 MNR LOMBARD: Hulle is daar somewhere 80 kilos van die

GSM

SEQ 29/2021-2439

naaste dorp af, 70, 80.

MNR VAN RENSBURG: (Onduidelik)

MNR LOMBARD: Maar hy het ook 'n paar beeste hierso en sy beeste het goed aan gekom. Hy het daar by Wepener 'n plaas. Sy pa is nou oorlede, nou het hy nog 'n plasie geëerf en by Henneman het hy ook 'n plaas. En hy bly self in Virginia, so dis 'n kwessie van so 250 kilos van sy naaste plaas af, of die plase uitmekaar. Hulle het goed - amper sê ek gebroei.

10 MNR VAN RENSBURG: Ja-nee wat, ek het nou Vrydag laat dragtigheid doen, so dan bly jy op hoogte van hoeveel kallers jy kry en die wat nie gevat het nie, dan sê hy vir jou hulle is jonk genoeg, sit nou weer later 'n bul by hulle en die wat jy sien is miskien 'n bietjie ouerig en so, die slag jy uit dan bly jou trop heeltyd in produksie. So jy hou nie 'n dier aan wat oorslaan nie. As hy oorslaan dan kos hy jou geld, jy kry niks terug daar nie. So jy slag uit en dan bly jou kudde so dat as jy 300 koeie het moet jy 300 kaller hê, anders werk dit nie uit nie. Jy kan nie fokken
20 50 daar laat loop nie.

MNR LOMBARD: Hoe lank is hulle dragtig?

MNR VAN RENSBURG: Kyk na sy gekalf het 56 dae daarna dan is haar baarmoeder weer herstel.

MNR LOMBARD: En dan?

MNR VAN RENSBURG: Dan moet ek werk op - ...(onduidelik) vir 270 dae daarna.

MNR LOMBARD: Dan is daar weer 'n kalf. So hulle kan so twee kalwers 'n jaar gee.

MNR VAN RENSBURG: Eintlik net een 'n jaar, want kyk hy
30 skuif aan. Onthou as sy kalf dan is dit plus 56 dae. So

GSM

SEQ 29/2021-2440

die ouens praat van ...(onduidelik) dan klink dit moerse fokken slim. Want as sy September kalf né, 56 dae daarna is sy eers reg vir die bul.

MNR LOMBARD: So jy moet druk vir 'n klomp koeie.

MNR VAN RENSBURG: Ja. Ek hardloop wat ek het wat kallers kry moet ek 450 kallers kry. Dis sonder my skape en varke en sulke goed.

MNR LOMBARD: Jy moet van die varke ontslae raak, jy sien wat gebeur in Mexico.

10 MNR VAN RENSBURG: Ja maar myne toets ek. Die staatsveearts kom doen toetse.

MNR LOMBARD: Maar hulle sê daai vark griep wat hulle van praat in Mexico is nie varke nie, dit het niks te doen met varke nie.

MNR VAN RENSBURG: Dis 'n strain van 'n vark virus wat die mense kry.

MNR LOMBARD: Hulle sê dis meer mens en voël as wat dit engisins met varke te doen het. Dit het niks met vark te doen.

20 MNR VAN RENSBURG: Die staatsveearts kom verniet een keer in ses maande dan kom toets hulle my varke daar.

MNR LOMBARD: Hoe so?

MNR VAN RENSBURG: Vir vark griep.

MNR LOMBARD: Nou maar hoe kom hy nou verniet, is dit nou deel van die staat se - (pouse)

MNR VAN RENSBURG: Die staatsveaarts moet 'n sekere kwota diere 'n jaar toets, onder andere varke en ek is een van die min ouens wat varke het. So nou kom, dan val dit binne, dan sê nou hulle moet 2 000 varke 'n jaar toets, dan kry hulle

30 nie ander boere nie, so hulle kom gratis na my toe - net om

GSM

SEQ 29/2021-2441

hulle kwotas van 2 000 op te maak dan kom hulle elke ses maande na my toe en dan toets hulle die varke - dan trek hulle die bloed.

MNR LOMBARD: So daar is nie juis varke in die land nie. Voer ons in?

MNR VAN RENSBURG: Ja ons voer baie in, maar jy sien dit is goed as 'n verbod op hulle geplaas word dan stoot dit my vark pryse op. Jy kan nou 'n vark geslag - verlede Donderdag toe slag ek 259 kilogram, swaarder as 'n bees.

10 MNR LOMBARD: Jis, 259?

MNR VAN RENSBURG: Ja sweer, 259 hang hy aan die yster daarso.

MNR LOMBARD: Uitgeslag?

MNR VAN RENSBURG: Uitgeslag, swaarder as 'n bees geslag.

MNR LOMBARD: Dan is hy vet. Hoe de hel kry jy daai gewig?

MNR VAN RENSBURG: Nee dis 'n beer. Jou beer - jy sien hy raak te swaar vir my sôe want hy kan hulle nie dek nie. As hy hulle dek dan lê hy hulle in die grond in, dan slag ek

20 hom uit. Maar my gemiddelde op die haak wat ek kry is so 160, 120 kilogram op die oomblik. Ek verkoop hulle nie onder dit nie, want jy kan hulle uitslag so 50 kilogram, dan maak jy jou geld. Maar as jy hom 'n bietjie langer vat, daar is 'n kurwe - hy groei in daai eerste drie maande so, dan begin daai kurwe so maak, dan word hy al hoe platter. Dan eet hy minder maar hy sit meer gewig aan, dan kry jy meer geld - daai laaste kilogram oor 50.

MNR LOMBARD: En die boere in die omgewing, het jy al pelle gemaak?

30 MNR VAN RENSBURG: Daar is 'n boereverenigingmaar 'n ou is

G SM

SEQ 29/2021-2442

te besig, ek hang nie rond daar by hulle nie.

MNR LOMBARD: Ja hulle is mos maar so.

MNR VAN RENSBURG: En in Limpopo(?) – jy het gelees van daai goed in die koerant van die tapes wat gegee is – daai tapes wat ek ...(onduidelik).

MNR LOMBARD: Maar ek moet jou sê – ek gee nie eintlik om nie, dit het eintlik – jy weet daar is nie meer tyd vir speletjies nie, ek het nie tyd vir daai goed nie. So daar kan op wees net wat daar op wil wees. Ek meen in die verlede was ek al so baie mislei dat ek het nou nie meer tyd vir sulke goed nie. Jis ek het baie werk. Ek is more nie hier nie, ek is oormore nie hier nie, nee ek het baie werk, glo jy my maar. So ek kyk nie eers meer na daai goed nie.

MNR VAN RENSBURG: Maar daar het niks teruggekom daarvan na jou toe nie in die afgelope jaar wat ek – (pouse)

MNR LOMBARD: Nee maar daai tapes het ek nou zero mee uit te waai. Net soos ek sê ek is so baie mislei dat daai goed – ek steur my nie aan daai nie. Ek hanteer nie meer daarmee nie, ek doen my werk and that's it. Daai goed is iets van die verlede. 'n Ou moet wegbreek van enige goed af. Soos jy self weet jou baas was verantwoordelik gewees, aanspreeklik gewees vir enige iets. So dit pla my nie juis wat in daai tapes is nie, to be quite honest, want daai speletjies is verby.

MNR VAN RENSBURG: Wat sê ek vir NIA?

MNR LOMBARD: Met wie praat jy by NIA?

MNR VAN RENSBURG: Daar is twee wat op pad is na my toe. Waaroor weet ek nie, want dis al wat dit kan wees is daai.

MNR LOMBARD: Nee, miskien vir jou 'n job aanbied. Nee, soos ek sê Skolla daai tyd is verby en ek het al vir

GSM

SEQ 29/2021-2443

jou gesê, jy weet, wat ek in die Weermag gedoen het en wat ek vir SASS gedoen en vir die DSO gedoen het, dit is iets van die verlede. As iemand my mislei het moet hulle maar die dingès vat, die rap vat. So daai tyd van daai speletjies is verby. Die verkiesing is verby, ek dink dis tyd dat 'n ou skouer aan die wiel sit en begin werk en los daai goed. Kry dit van jou rug af, kry dit verby. Konsentreer op jou boerdery, laat hulle hulle job doen. Dis soos ek dink dit moet werk.

10 MNR VAN RENSBURG: Sê gou vir my en Johan en Charl en daai ouens, hoe gaan dit met hulle?

MNR LOMBARD: Weet jy ek kry nie tyd om met daai ouens te praat nie. Wat ek gehoor het is hulle goed is in plek, as hulle opdragte ontvang skryf hulle nou 'n konsep plan en dit word goedgekeur. Dan werk hulle volgens 'n projek plan en hulle het 'n dashboard waarteen hulle gemeet word. So ek hoor al hulle goed is nou in plek.

MNR VAN RENSBURG: En Charl, is hy nie op pad al Australië toe nie?

20 MNR LOMBARD: O nee ek het nie 'n clue nie hoor.

MNR VAN RENSBURG: Isit?

MNR LOMBARD: Nee ek het nie 'n clue nie. Ek sal jou wys - April afsprake, al die rooi kolletjies, Maart afsprake - ons kan terug gaan - Februarie. So ek het nie tyd vir sulke goed nie. Ek 157 sites wat moet klaar kom waarvan ek dink 39 is ek amper klaar - tot my e-mail om skoon te kom. So daar is net nie ander tyd nie.

MNR VAN RENSBURG: En by die huis hoe gaan dit daarso - die kinders?

30 MNR LOMBARD: Ja ek het so 'n bietjie - Johan is

GSM

SEQ 29/2021-2444

geopereer nou so 'n rukkie terug, maar dit gaan nou goed met hom. En daar by joune?

MNR VAN RENSBURG: Nee goed.

MNR LOMBARD: Cecily, is sy al afgetree?

MNR VAN RENSBURG: Ag ons sal kyk, ons sal nog 'n besigheid gekoop het, so ek sal hier by Julie besluit wat van haar word en die tweeling, want Misha is klaar met skool.

MNR LOMBARD: Hoekom, het jy beeste verkoop?

MNR VAN RENSBURG: Nee ons sal nou kyk, 1 Julie sal ons besluit wat gaan van haar word.

MNR LOMBARD: 1 Julie. En die kinders, Misha?

MNR VAN RENSBURG: Hy is in matriek, hy gaan goed aan. Ons wag nou, hy het nou aansoek gedoen, hy soek mediese keuring. So as hy dit kry dan is hy uit my huis uit, dan gaan hy die pad vat.

MNR LOMBARD: Hy sal dit kry, hy is 'n skerp seun.

MNR VAN RENSBURG: Hy wil deur die Weermag gaan swot.

MNR LOMBARD: Slim.

MNR VAN RENSBURG: Ons het daar 'n brief vir hom ingesit, so ons wag nou maar daar ...(onduidelik). More is die afsny datum ...(onduidelik) maar hulle gaan goed aan.

MNR LOMBARD: Die tweeling ook?

MNR VAN RENSBURG: Die tweeling, ja hulle doen goed. Kyk hulle is nou in Afrikaans Seuns en Meisieskool, maar ek het nou hulle rapporte gekyk in Engels alweer, Afrikaans - hulle het so 'n gemiddeld van 75.

MNR LOMBARD: Dis goed.

MNR VAN RENSBURG: Ja kyk hulle moet die taal leer, hulle het niks in Afrikaans gedoen op laerskool nie, nou moet alles weer in Afrikaans gedoen word.

GRM

SEQ 29/2021-2445

MNR LOMBARD: Ja jy weet dis goed, daai fondasie is gelê vir ewig. Die Engels, hulle sal 100% tweetalig wees vir die res van hulle lewe.

MNR LOMBARD: Jammer ek is so ongeskik, maar soos jy sien dit gaan wild boeta.

MNR VAN RENSBURG: Ja-nee.

MNR LOMBARD: Wat gaan jy more doen?

MNR VAN RENSBURG: Ek moet more in die hof wees op Randburg.

10 MNR LOMBARD: Gaan dit oor daai onderverdeling van daai Thumi ou of wat?

MNR VAN RENSBURG: Nee dis 'n ander stuk grond wat ek gekoop het waar 'n kerk op gesit het, maar hulle wil - wat noem 'n mens dit, die ou het gedink dis sy grond, so hy sit ...,(onduidelik) so nou moet ons in die hof wees daaroor, want hy - (pouse)

MNR LOMBARD: Is dit die ou wat jy geskiet het?

MNR VAN RENSBURG: Nee ek het nie op hom geskiet, ek het op die diere geskiet. So sy moer man, ek bedoel ek kon nie 'n

20 plaas koop en dan kan ek nie self diere daar aanhou nie, toe span ek hom uit. So ons sal nou more in die hof hoor wat sê die regter. Ek was nou al twee keer in die hof gewees en dan daag hulle nie op nie. So more moet ons daar wees en dan word dit soos 'n skikkingsverhoor - dis nie 'n hof sitting hoor ek. So die regter sit voor en hy sal nou as arbiter optree en as daar enige iets uitkom dan sal hy dit sommer 'n hofbevel maak. Jy sien want daai gebou wat hulle daar het is R80 000,00 werd en van 1 Junie af betaal ons grondbelasting, so ek betaal die belasting en hulle sit

30 daarso, dis my grond, dis my gebou.

GSM

SEQ 29/2021-2446

MNR LOMBARD: Jy betaal grondbelasting van 1 Julie af?

MNR VAN RENSBURG: Ja.

MNR LOMBARD: Nou hoeveel is dit, het hulle jou al gesê?

MNR VAN RENSBURG: Ja maar jy kry 'n klomp korting. Kyk die munisipaliteit gee niks vir jou nie. Hulle gee nie vir jou riool nie, hulle gee nie water, krag, hulle gee niks nie, so dis net op die grond. Dan kry jy vir die volgende vyf jaar korting. So die eerste jaar is 100%, 75, 50, 25, so jy betaal in elk geval niks vir die jaar nie. Maar dit gaan nou oor die waardasies, want jy betaal 'n sekere persentasie op die waardasie van die grond.

MNR LOMBARD: Dit gaan die vleis pryse – dit gaan al die kos pryse die lug in jaag, want ek meen hoe moet jy dit herwin?

MNR VAN RENSBURG: Jy kan dit weer teen die belasting afskryf as jy iets maak. Die ouens het nie – die voerkrale self sukkel, want dis nie hulle wat die pryse op sit nie, dis die supermarkte. Want ek bedoel voer kostes is net so duur soos 'n melkery, ek meen jou kos is baie duur om vir 'n dier in 'n hok te gee, so hulle ...(onduidelik) iets soos 30% van die verskillende voerkrale het toegemaak.

MNR LOMBARD: 30% - dis 'n helse lot.

MNR VAN RENSBURG: Onthou 'n ou wat 100 beeste melk 'n maand het 'n voer rekening op die oomblik van so R45 000,00 'n maand, dis voor winter né, dis nog nie winter nie, waarvaan hy 50 000 in kry uit sy melk rekening uit. So hy maak R5 000,00. Uit daai R5 000,00 moet hy die krag, die lone en die seep en goed nog betaal, so hy maak geen wins nie. Dis hoe die melkerye maak deesdae en dieselfde met die

G SM

SEQ 29/2021-2447

voerkrale. Ja ons kyk maar, ons kry ons - as ons kyk alles wat ek nou gekoop het, ek kry nog R14,01 'n kilo. (Agtergrond gesprek) Jy kan maar gaan as jy wil, ek gaan gou klaar rook, dan sal ek ry as jy haastig is.

MNR LOMBARD: Nee ek wag laat jy klaar gerook het. Ek kan maar so vyf minute wag. Nou toe ek pad hiernatoe is begin daai briek van my skreeu. So wat ek nou moet doen is, nou moet ek nog eers weer na dinges toe gaan, wat noem jy hierdie simpel plekke, Hi-Q of een van daai goed en sê sit gou vir my remblokke voor aan.

MNR VAN RENSBURG: Kyk as jy die blokkie self gaan koop dan vra hulle R120,00 om dit gou in te sit.

MNR LOMBARD: Jis ek kan onthou laas keer het hulle my gelooi, sommer 500 en iets.

MNR VAN RENSBURG: Ja maar dan het jy dit by hulle gekoop - Midas, as jy by hulle koop en jy vat die part na hulle toe, dan kos dit jou R120,00 as hulle dit gou in sit. Ek doen dit met ...(onduidelik) daai Peugeot, hy het 'n klomp strond wat jy moet losmaak - hy sit hier bo - jy kan doen.

MNR LOMBARD: Nee ek gaan nie eers daaraan dink om te doen nie.

MNR VAN RENSBURG: Dan koop ek dit dan kos dit my 'n paar honderd Rand by Midas en dan vat ek hulle, dan sê hulle vir my hulle vra vir my 125, dan is dit klaar. Ek het nou vanoggend my kar laat diens, 7-uur, hulle het 'n express service deesdae.

MNR LOMBARD: Ek het gehoor van die express service.

MNR VAN RENSBURG: Ek sit hom 7-uur by hulle op die vloer, 10 oor 8 gee hulle hom vir my.

MNR LOMBARD: Maar jy maak 'n afspraak dan of so iets.

GSM

SEQ 29/2021-2448

MNR VAN RENSBURG: Ek vra vir hulle – hulle vra vir jou: express of the works. Dan sê ek nee, gee vir my express. Ek het hom op die kop 7-uur ingegee en 10 oor 8 toe kry hom. Toe het hulle daai ding se 50 000 diens gedoen – remme vervang, al sy olies, al sy filters en twee belde – twee belde wat op 50 vervang moet word. Dis vervang, die rekenaar is ingestel, alles, en ek kry hom 10 oor 8. Hy is nou nie gewas nie, maar dit is mos nou – hoekom wil jy hom langer hou. Vat ek hom, daar ry ek.

MNR LOMBARD: As ek hom wil laat was dan gaan ek na 'n wassery toe en ek stop en ek laat die ding daar doen.

MNR VAN RENSBURG: Nee maar dit is baie vininger en geriefliker as wat jy nou – al die Mitsubishi garages is mos nou toe hierso, hulle het almal Midrand toe geskuif, dis net in die stad wat jy nou kry. So dan hang jy daar rond, Cecily kan my nie optel nie. Dis vir my moer gerieflik. Teen die tyd wat jy 'n koffie vat dan kry jy jou kar.

MNR LOMBARD: So baie plekke het toegemaak.

MNR VAN RENSBURG: Ja.

MNR LOMBARD: Okay thanks, as jy weer hier kom, gee 'n skree, dan drink ons 'n koffie.

MNR VAN RENSBURG: Nee gaaf.

MNR LOMBARD: Enjoy daai boerdery, ek wens dit was ek.

MNR VAN RENSBURG: Dit het maar sy eie frustrasies en goed.

MNR LOMBARD: As jy opstaan elke oggend oggend met vars lug.

MNR VAN RENSBURG: Nee toegegee, maar soos ek sê hy het ook maar sy eie frustrasies. Dis selde of ooit jy werklik 'n beplanning kan uitsit vir langer as 'n week, want as jy opstaan die oggend dan sê die plaas vir jou wat om te doen,

CSM

SEQ 29/2021-2449

want dan is daar 'n krisis.

MNR LOMBARD: Nee ek het gedog dis darem nou al verby.

MNR VAN RENSBURG: Nee, wat nou gebeur is, sê nou maar soos vanoggend toe bel hulle my, sê hulle nee daar het 'n bees weggeraak deur die nag, nou moet hulle hom gaan soek – hy spring oor 'n draad. SMS terug, nee hulle het haar gekry. Die ander plaas wat ek het is weerskante van 'n teerpad. Vanoggend 5-uur dan bel Jaco, sê hy nee daar het 'n kar deur die draad gery.

10 MNR LOMBARD: 'n Kar?

MNR VAN RENSBURG: H'm hulle rol deur die draad – in die afgelope twee weke nou in hierdie – die vakansie dag, fok almal deur my draad. Daar was nou al twee taxis wat sommer van die pad af ry, moer toe. Dis nie sy probleem nie. Nou moet jy wag dat hulle hom uit sleep, dan maak jy die drade reg, anders loop jou diere uit – sulke goed. 5-uur vanoggend, 'n kar deur die draad. Nouja, wag vir die polisie en wie ook al dat hulle hom wegsleep.

MNR LOMBARD: Dan moet jy draad toemaak.

20 MNR VAN RENSBURG: Dan moet ek nou weer die fokken draad ... (tussenbei)

MNR LOMBARD: Maar kan jy nie daai geld terugeis van sy versekering of iets nie?

MNR VAN RENSBURG: Ag wat, dit help nie.

MNR LOMBARD: Dis nie soveel nie.

MNR VAN RENSBURG: Dis almal hierdie nuwe pikkewyne, jy weet hulle het nie eers versekering nie. Jy weet en draad is duur, jy weet 'n rol draad van 800 meter betaal ons R1 400,00 voor.

30 MNR LOMBARD: Jy weet dis staal.

GSM

SEQ 29/2021-2450

MNR VAN RENSBURG: Dis sonder - dis net draad. Soos ek sê dan het jy nou 'n mooi dag vir jouself beplan.

MNR LOMBARD: Okay dan is jy reg, dan kan jy nou gaan.

MNR VAN RENSBURG: En as jy nou opstaan die oggend dan span jy drade tot 10-uur, soek 'n bees of dinges, dan is die hele dag in sy moer in.

MNR LOMBARD: Ai.

MNR VAN RENSBURG: Want ons ent nou, as jy ent dan vat dit jou so twee dae vir die winter ente. Dan begin jy vroeg in die oggend. Jy weet jy kan nie nou hier 10-uur, 11-uur begin nie. So dit staan weer oor na more toe.

MNR LOMBARD: Dit is winter. Ek sê vir jou ek ry met my kar, as jy nou gaan kyk is die heater vol aan.

MNR VAN RENSBURG: Okay Helgard.

MNR LOMBARD: Okay boeta, goed gaan, as jy weer hierso is, soos ek sê gee 'n skree, dan drink ons koffie. Dalk het ek 'n bietjie meer tyd.

MNR VAN RENSBURG: Dis doodreg, dankie.

MNR LOMBARD: Sien vir jou.

GSM

Installation of Security Equipment at the Offices of the Directorate Special Operations (DSO) during 2007

BACKGROUND

My meeting with SARS Commissioner T. Monyane and Acting COO, Jonas Makwakwa, on 19 March 2015 at Hilton House refers.

I was appointed at SARS on 01 March 2007 by Andries Janse van Rensburg also known as Skollie and Charl Fourie, who represented SARS at that time. I formed part of the surveillance capability that SARS introduced to conduct surveillance and special operations on tax evaders.

During April or May 2007, Skollie asked me whether it will be possible to plant eavesdropping equipment in one of the DSO's offices. I told him that it would be difficult but possible providing that he obtains the necessary approval in accordance to RICA Act, Act 70 of 2002. The conversation ended on this note.

ENQUIRY

Skollie called me one day in June or July 2007 and told me that the DSO contacted him out of the blue for a quotation to install security systems in their offices. They needed to install ten or eleven of these systems because they were sure that the SA Police Service (SAPS) got into their offices to gain access to sensitive documents. Skollie made an appointment for us to meet with Adv. Gerrie Nel and Andrew Leask, Head of the Special Investigation unit at the DSO.

They told us that the following security equipment needed to be installed in order to detect intrusions in time, to remotely view it and to have record of it should it be necessary:

<u>Initial request</u>

a. CCTV cameras, overt and concealed cameras complete with digital video recorders and microphones.
b. Equipment to monitor these CCTV cameras remotely, i.e. GSM 3G-routers and remote viewing software to be used with cellular telephones. The cellular telephones were to be included.
c. Audio recorders, headphones and switches to remotely activate the microphone and recorder. This was to be used during interviews and or meetings as required.

GSM

d. Wireless alarm systems that would report to their cellular telephones to alert them of an intrusion. The alarm system consists of the alarm panel in a tamper box, Passive Infrared (PIR) detectors, door contacts, key pads, remote control keyrings and sirens. It also included the SIM-cards that were installed in the alarm panels to send out SMS-messages relating to responses from the alarm panel, i.e. intrusion signal, arm or disarm signals, time messages, low battery information, etc.

Follow-up requests

e. A "White Noise Generator", complete with audio spectrum analysis software, that will prevent eavesdropping equipment to work properly when they were in sensitive meetings (the "Generator" creates noise that eliminates the capability of a microphone to capture voice or sound).

f. At the end of the initial project (October 2007) I was also requested to provide the DSO with cellular telephones with high-end encryption functionality on it to enable them to communicate without being intercepted.

g. In November / December 2007 I also arranged that a biometric access system be installed on one of the floors (offices).

I prepared a quotation and I think I handed it to Skollie to present to the DSO. It might also be that I have sent them quotations in this process as I cannot remember.

ACCEPTANCE

The DSO accepted the quotation and informed Skollie about it. Skollie made it clear that the installation cannot be discussed in the group as it was a sensitive installation and that the information cannot be leaked at any stage.

I made contact with the DSO and they arranged that the money, approximately R900, 000.00 (nine hundred thousand) was paid in cash to me. A second amount of R250,000.00 was paid to me to procure and deliver the follow-up equipment requirements.

INSTALLATION PROCESS

I started with the security systems installation process sometime in July 2007. Initially Skollie accompanied me to assist me with the installations, which mainly took place after hours. The reason for this was so as not to expose the installation to the rest of the DSO personnel who might have had links with the SAPS. After about two or three weeks Skollie one evening told Adv. Gerrie Nel and Andrew Leask that he has to leave for Germany for business and will most probably not see them for quite a while. This was a lie because Skollie never left the RSA but was just looking for an excuse not to assist any further with the installations.

GSM

I am not a hundred percent sure but I think that I have concluded about seven or eight of the installations by the end of August or beginning of September 2007 (the installation was concluded in December 2007). Due to poor signal in the area, as well as a bug in the 3G-routers, it often happened that the routers hung up and that one could not remotely monitor the CCTV systems. I have asked Andrew Leask if they would mind if I connect remotely with these systems to make sure that the routers did not hung up because it needs a "hard reset" when this happens. A "hard reset" is when you remove power from the router and then restart it.

Both Adv. Gerrie Nel and Andrew Leask ask me during this time whether Skollie was in Germany and I had to lie by admitting that he left for Germany whilst carrying on with the installation.

REQUEST FOR MONITORING OF MEETINGS

About a week or two in September 2007, Skollie ask me to monitor meetings of the DSO. I told Skollie that I cannot adhere to his request unless he (SARS) has an Act 70 approval to conduct eavesdropping and that is the only way that we could do that. It was during this time that it also became known that Commissioner Jackie Selebi could be arrested on corruption charges regarding his relationship with Glenn Agliotti. It was also during this time that Adv. Vusi Pikole, Head of the NPA, was suspended.

About a week to ten days after Skollie's initial request to monitor meetings of the DSO, he called me late one night (it was after 21:00) and said that he just had a meeting with Mr. Ivan Pillay who came from a meeting with President Mbeki. He said that we got the "go-ahead to monitor the DSO meetings". I have asked him how did they (him and Mr. Pillay) got the Act 127 approval and Skollie said that "how do you think the Judge will refuse a request from the President?" I have asked Skollie what the scope of the Act 127 approval was because it could not have been a blanket approval to do what we want. Skollie's answer was that the President wants to know exactly what the DSO had against Commissioner Selebi and secondly, whether there is anyone else of the President's high ranked officials, e.g. Ministers, Director Generals, etc, that would be arrested. He said that the President said could not afford another scandal like this and that the DSO did not inform him about their plans to arrest Commissioner Selebi. The President did not want to be caught off-guard again.

I have asked Skollie who knew about the Act 127 approval and he said that it was only six people; President Thabo Mbeki, Min. Trevor Manual, Comm. Pravin Gordhan, Mr. Ivan Pillay, him (Skollie van Rensburg) and I. I believed Skollie because of the following various reasons:

a. Need-to-know principle. When the unit started, Skollie made it clear to everyone that the unit runs on the need-to-know principle and nothing that he discussed with anyone needs

GSM

to be discussed with any other member in the group. He told us that he will incorporate a member in a group if it was necessary and that if he found out that we discussed operations with each other, we would have been in trouble. The need-to-now principle is an excepted principle in enforcement and intelligence units; it was therefore acceptable for most of the units' members as most of us had intelligence and or law enforcement backgrounds.

b. We could only discussed operations with him or Mr. Ivan Pillay. We never had an opportunity to meet with Mr. Ivan Pillay and Skollie conveyed everything that Mr. Pillay said to the group. Skollie could call Mr. Pillay at any time but kept all team members away from him. The only other person that I knew that had direct access to Mr. Pillay was Charl Fourie, one of the founder members, or more senior members, in the group.

c. I was told by various people that Mr. Pillay was a very senior ANC member and that he could pick up the telephone and make an appointment with the President any time he wants. Skollie also told me, or us, on more than one occasion, that Mr. Pillay and he meet the Minister of Finance every now and but that he meets the Deputy Minister every two weeks to discuss progress and receive instructions.

d. I was told by Charl Fourie that when he and his wife were invited to dinner one night at Mr. Pillay's house, Ms. Jesse Duarte and her husband also arrived at Mr. Pillay's house and he confirmed that Mr. Pillay is a very senior person in the ANC.

e. I was also told that the President Zuma was one of the people that joined Mr. Pillay's surprise 55th birthday day party held in Durban. I was not sure though that this party was in 2007.

f. Skollie did not tell me to start monitoring the meetings of the DSO immediately but only gave me the instruction between a week and or a week-and-a-half later, i.e. adequate time to obtain approval for an Act 127 approval. Moreover, he called me in the evening "after Mr. Pillay came back from a meeting with President Mbeki".

I also did not asked him for the Act 127 approval as Skollie was senior SARS official and the reports would have been forwarded to Mr. Ivan Pillay (Deputy Commissioner of SARS) in any way. I also need to mention that I previously did an Act 127 installation for the DSO, which also did not show me the approved Act 127. I also accepted the instruction in this case because the DSO explained that the evidence would most probably have to be used in court.

MONITORING OF MEETINGS

I started to monitor the meetings as requested and gave Skollie verbal feedback on what I found. Skollie called me, or told me in person, that Mr. Pillay said that he wanted the conversations and or evidence on CD. Skollie would then produce the report and CD to Mr. Pillay to confirm the reports' information on the CD if necessary.

GSM

As far as I can remember I only monitored and gave information regarding the case of Commissioner Jackie Selebi through to Skollie and ignored other non-related discussions.

One night, I would guess it was mid-November 2007, Andrew Leask said that he needed a flash drive for a document he needs to complete at home. He did not have his flash drive with him as he borrowed it to his child for some reason. I offered him a flash drive I had with me.

Andrew returned the flash drive to me a day or two later. I am not sure of the date but I think I opened the flash disk that night or a day or two later. I discovered that there was still a document on the flash disk and when I opened it, it contained information about Commissioner Jackie Selebi, amongst others, money he received in respect of the corruption charges against him. I took the flash drive to Skollie and told him I think that they now have everything that the President was looking for and that it was not necessary to continue with the monitoring.

I am not hundred percent sure but I think it was that same day that Skollie arranged with Mr. Pillay that I meet with him and Skollie to discuss the information that was on the flash disk. Skollie pre-warned me that when I greet Mr. Pillay I must not give him a firm handshake because he has an illness that affects his bones and that I could hurt him by a firm handshake. I must also call him "sir" or "mister Pillay" as he likes it.

I met Mr. Pillay and assured him that I did not download the information from Andrew Leask's laptop. As far as I can remember I asked him whether I must still carry on with the monitoring of the meetings regarding Commissioner Selebi's case. He confirmed that I must carry on unless it is unsafe to do so. Skollie said that I will continue with the monitoring and will cease monitoring when it is not safe to do so. I felt uncomfortable with the task and told Skollie so when we left. I also went back one night thereafter (after 21:00) and asked Skollie to terminate the operation but he insisted that I do my work.

I guess I made one further recording relating to Commissioner Selebi's case end November beginning December 2007 (I am not sure) and hand it to Skollie. I then unexpected and without an appointment, went to Skollie's house (it might have been the day after I handed him the CD). I wanted to discuss the situation again with him.

When I got to Skollie's house he opened the gate for me and I went in. I asked him what he was doing and he said he was writing the report on the CD information I gave him regarding Commissioner Selebi's case. I started reading what he was writing and became extremely upset because he was manipulating the information that was on the CD and added fictitious information that was never said or took place. I am under correction if I said that he wrote something about more arrests that the DSO was going to make and that they are not doing what they are suppose to do (also see his "coup" theory below). I confronted him with the nonsense

GSM

he wrote and he said that I am so "f...g" upset about the way he writes reports he will delete it. He then deleted the report and confessed that Johan de Waal wrote all the other reports in anyway. I confronted him with the fact that Johan de Waal also knew about the operation as he originally said only six people are aware of the operation. I think at this stage he also confessed that Charl Fourie also knew about the operation right from the start.

What happened after this is not clear as I was extremely upset about the situation (It is now quite a while since it took place). I know however, that I managed to make an appointment with Mr. Ivan Pillay through Charl Fourie (not sure) and that he accompanied me to Mr. Pillay's house. I am also not sure whether Johann van Loggerenberg joined us that night or on a follow-up meeting but he was also informed by Mr. Pillay about the situation (Mr. Pillay said that he needed Johann to assist him with the situation). I told Mr. Pillay what happened and that he cannot trust any of the information he received from Skollie because Skollie distorted the truth. Mr. Pillay said that I must leave it in his hands and that he will deal with it.

Thereafter many meetings took place to discuss the operation and Skollie. On one of the meetings (I think it was the second meeting) Mr. Pillay said that if I ever was confronted with this operation he would say that he gave the instruction. I then asked him if the President did not task him and about the existence of the Act 127 approval. Mr. Pillay then denied that the President ever gave the instruction and or arranged the Act 127 approval but said that he will take responsibility for it. Mr. Pillay said that he and Johann van Loggerenberg will deal with the Skollie-matter (it is not clear but if I recall correctly either Charl Fourie or Johan de Waal attended these meetings with me).

Mr. Pillay told us to carry on with our work and still have interaction with Skollie whilst they will proceed with a plan to take action against Skollie.

CONTINUATION WITH WORK AFTER THE EXPOSURE OF SKOLLIE VAN RENSBURG

After my fallout with Skollie, Charl Fourie or Johan de Waal called me to Skollie's house to assist with a virus that Skollie had on his laptop. He visited pornographic sites and picked up a virus that at any time connected to a pornographic site. Skollie said that his son borrowed his laptop to do research for a task and thereafter his laptop reacted funny and connected to these sites. I have formatted the laptop's hard drive with a program called DBAN and re-loaded a Window OS on the laptop.

This must have happened in mid-December 2007 and everyone in the unit (don't know what it was called then) went on leave.

GSM

In 2008 I started communicated with the rest of the team to find out whether they also found Skollie to be controversial at times. Quite a lot of controversial facts came to the fore amongst others:

a. That my first appointment letter in SARS was falsified on instruction from Skollie because I decided to join the SSA rather than SARS. SARS gave me a better offer than the SSA and this was contained in the letter. I later received an original and official SARS offer to sign again.
b. Skollie falsified Johann van Loggerenberg's signature on claim forms but with the "approval" of Johann van Loggerenberg.
c. Skollie told Charl Fourie that they must "knock" the Chinese and stole their money. He will get SAPS to arrest the Chinese for running illegal businesses.
d. There was an incident regarding a file that Skollie wanted to hand over to the Mail and Guardian. It allegedly contained an incident between HR and Johann van Loggerenberg. Skollie travelled to Cape Town to see Mr. Pillay and on return said that Mr. Pillay said that I stole the file out of his office during a TSCM inspection.
e. Skollie told Johan de Waal to phone the papers and say that that he is from the FAG (Frustreerde Afrikaanse Groep). They are going to commit sabotage to encourage violence in South Africa.
f. Skollie manipulated team members to steal items out of shops. These members stole amongst others a cricket bat as well as dog food out of the shops "as a test that they can successfully operate under pressure". Afterwards he just laughed at them and said that he needed these items. The members went back to these shops and paid for the goods out of their own pockets.
g. Skollie bribed someone at the Surveyor General's office to purchase a second or third farm in Standerton. This piece of farm could not be sub-divided but Skollie bribed the person to do it.
h. Skollie told us that "we" have the power to decide who will next govern South Africa. He said the "we" could execute a "coup" by deciding to whom the group ("we") are going to give the "evidence" we got from the DSO monitoring operation. This would have divided the country and he could decided who have to take over.
i. Skollie also tried to setup a confrontation between now President Zuma and a person called "Snyders" somewhere in KZN. This also did not work out for him.

Approximately in April \ May 2008, I was seconded to SARS (Anti Corruption and Security) to assist with the planning and installation of security at SARS sites nationally. I distanced myself from Skollie and the team and concentrated on the work at ACAS. In April 2009 I was permanently transferred to ACAS.

We have had several meetings in 2008 where we also had the opportunity to take a severance package and leave SARS. I decided to stay.

I was also present when Johan de Waal and Charl Fourie confronted Skollie over a cell phone telling him that they disclosed all his misrepresentations, lies and dealings to Mr. Pillay and that they are finished with him. I also told him during this conversation that I am now aware that he lied to me and mislead me whilst he was in a position of trust and authority. He just said "dankie vir dit" (thank you for that) and nothing else that I can remember. Johann van Loggerenberg was also present during this conversation.

I heard that Skollie chose to take a severance package and part with SARS. I later heard that his remaining contract salary was paid out to him.

We also had a meeting with Skollie after he left. I could initially not remember this meeting in 2008 but Johan de Waal showed me minutes that were taken during this meeting and I could recall the conversation. I still cannot remember where at Centurion Mall it took place but do remember the conversation.

After I have read the minutes on 19 March 2015, I told Johan de Waal that we have to discuss this immediately with Commissioner Tom Moyane as I am no longer going to keep it secret because it will damage the image of SARS should it leak out. We then drove to the Commissioner's Office and told the Commissioner that we need a critically urgent meeting with him. Commissioner Moyane immediately put time aside for us, invited the Acting COO, Mr. Jonas Makwakwa to the meeting and listened to what we had to tell.

If I do remember any additional facts regarding this operation and or important information relating to the years 2007/2008, I will immediately inform Commissioner T. Moyane and Acting COO Jonas Makwakwa.

MNR C. FOURIE & MNR H. LOMBARD: 6 MEI 2015

MNR LOMBARD: Charl, kan jy my hoor?

MNR FOURIE: Yes ek hoor jou Helgard.

MNR LOMBARD: Wat sê hy?

MNR FOURIE: Kan jy gesels?

MNR LOMBARD: Ja, ja ek het nou spesiaal uitgekom om te gesels.

MNR FOURIE: Ag ek is jammer man, ek het nie - hy het netnou vir my gesê hy gaan my - daai storietjie né, dis uit in die media.

MNR LOMBARD: Hallo?

MNR FOURIE: Daai storietjie né van wat julle my vertel het van wat gebeur het is uit in die media.

MNR LOMBARD: Dis uit die media?

MNR FOURIE: Die media weet dit, die media weet van daai storie, iemand het dit vir die media vertel Helgard.

MNR LOMBARD: H'm en wie sal dit wees?

MNR FOURIE: Nee ek weet nie wie dit gedoen het nie. Ek is gebel, ek het nou net 'n oproep gehad van - wat is sy naam - Adrian Lackay af.

MNR LOMBARD: Ja?

MNR FOURIE: Toe vra hy vir my of jy en Johan geswaai het, hy sit by Sam Sole. Hy het my gevra het julle geflip. Sy woorde was: het Johan en Helgard ...(onduidelik). Toe sê ek vir hom: ek verstaan nie. Toe sê hy vir my - toe sê hy vir my hy sit by Sam Sole en hulle twee het gepraat oor moeilikheid en hy wil hê ek moet met Sam Sole praat.

MNR LOMBARD: Wie is Sam Sole?

MNR FOURIE: Hy is 'n verslaggewer vir die Mail &

GSM

SEQ 29/2021-2463

Guardian Helgard.

MNR LOMBARD: Is hy 'n verslaggewer van die Mail & Guardian?

MNR FOURIE: Yes Helgard.

MNR LOMBARD: So?

MNR FOURIE: So ek het vir hom gesê: luister hier laat ek – jy weet ek gee nie om as – jy weet om vir die media te vertel wat ons nie gedoen het nie, maar wanneer 'n mens begin praat oor wat 'n mens gedoen het as ons die dag ...(onduidelik) jy weet dan kan daar potensiële – 'n storietjie daaraan wees. Nou ek bedoel hierdie storie is moeilik en ek wil rêrig nie deel daarvan wees nie, maar jy weet ek was deel van dit – ek was deel van dit en ek was deel van julle span, so – julle moet maar net vir my sê – ek het gedink miskien moet ek dalk vir SARS bel hieroor.

MNR LOMBARD: Ja weet jy die belangrikste ding vir my is om te weet – daai ou, die ou wat dit gegee het, wie het almal ...(onduidelik) jy gesê nou-nou daai – die polisie het dit gebruik, wat noem hulle daai operasie?

MNR FOURIE: Wat ek het, ek het gevra, ek het op een of ander stadium in die gesprek gevra en my memory sê vir my dit was Johan van Loggerenberg gewees, oor hierdie operasie of dit nie 'n kak spul is nie. My memory is, wat ek het is, dis vreemd in my memory want ek onthou ...(onduidelik) van – jy weet – hierdie gesig van Johan wat sê: nee man, dis alles uitge-sort. Nou kan ek nie onthou of hy vir my gesê het dis uitge-sort met daai Lalla ou en of ek in my kop die sommetjie gemaak het want Lalla was die heeltyd daar by Ivan in die kantoor – of nou nie die heeltyd nie, maar ek het hom gereeld daar gesien.

G Sm

SEQ 29/2021-2464

MNR LOMBARD: Okay so jy het vir Lalla daar gesien.

MNR FOURIE: Ja Relala het in die kantoor gesit, so ek het gewonder, jy weet of dit rerig goedgekeur is of nie. Maar hy het nie vir my 'n fokken dokument gegee of wat ook al nie, so ek kan nie vir jou sê daai ding was goedgekeur nie, daar is 'n kans dat dit nie was nie. En dan obviously dan is daar - moet daai mense obviously verduidelik. Verstaan, dit meen nie jy of Johan moet daai rap vat nie. Wat is vir julle gesê, dis die vraag obviously, op watter voorwendsel het jy dit gedoen? Jy het ook 'n brein jy weet, so hulle gaan vir jou vra - jy weet mos hierdie is - jy is mos nou al lankal in die game, jy weet mos hierdie is nie reg nie.

MNR LOMBARD: Die een wat vir my gesê het dit moet gedoen word, soos daai voël wat sê: dis hy en twee siele. Toe sê hy daar is. Toe sê ek maak seker.

MNR FOURIE: Jy sien dan het jy dieselfde - nee dan het hulle vir jou gesê. Ek het nie so direk gevra nie want ek kan nie onthou wat is die naam van die wet nie, maar ek het verstaan dan is hierdie 'n wettige operasie miskien gewees, ek weet nie. Maar die ding is dis maar net jy weet - (pouse)

MNR LOMBARD: Hy bel my toe 'n week en 'n half later een aand hier na 9-uur, na 10-uur, toe sê hy - hy kom nou net van Ivan af en Ivan was by Mbeki gewees en ... (tussenbei)

MNR FOURIE: By Mbeki?

MNR LOMBARD: Ja want hy het vir my gesê Ivan gaan sien Mbeki wanneer hy kan en hy en Ivan ontmoet die deputy commissioner elke tweede week. So hoe vêr die planne is

GSM

SEQ 29/2021-2465

weet ek nie.

MNR FOURIE: Nee maar Ivan sal nie met Thabo Mbeki gaan praat.

MNR LOMBARD: Sal hy nie met hom praat nie?

MNR FOURIE: Nee man hy was mos nou nooit 'n fan van Thabo Mbeki nie, ek dink nie hy sou nie. Wel ek weet nou nie, ek is nou hierdie moerse ANC ingeligte nie, maar ek bedoel ons het geweet dat hy - sy sentiment was definitief nie in daai rigting - ek weet nie - maar ek bedoel dit beteken nie dat hy nie met hom daaroor sou gepraat het nie.

MNR LOMBARD: Okay, okay.

MNR FOURIE: Maar dude, so wat ek net wil sê is die - ek weet nie ... (tussenbei)

MNR LOMBARD: Maar hoe het Adrian Lackay aan die vis gekom?

MNR FOURIE: Adrian Lackay het vir my - hy het vir my omtrent seker 20 minute voor ek jou gebel het, of 10 minute gebel en vir my gesê hy sit by Sam Sole en Sam Sole wil met my praat. En hy vir my gevra of julle ge-flip het.

MNR LOMBARD: Serious?

MNR FOURIE: Die ding is wat jy moet - dis iemand, iemand binne-in 'n baie klein sirkeltjie moes met die media gepraat het en dit sou - ek weet nie wie weet dat die gesprek met - wie die gesprek met die dinges gehad het nie, maar dit moet iemand wees wat - ek weet nie of julle dit bespreek het met Johan of iemand nie, maar ... (tussenbei)

MNR LOMBARD: Johan wie?

MNR FOURIE: Johan van Loggerenberg.

MNR LOMBARD: Johan van Loggerenberg was dan die dag saam daar by toe ons by die kiddies daar by die hospitaal

was.

MNR FOURIE: Nee, nee ek praat van - ek praat van hoe - oor die feit dat hierdie storie uitgekom het - hoe weet Adrian Lackay?

MNR LOMBARD: Ja-nee ek weet nie.

MNR FOURIE: Oor die media.

MNR LOMBARD: Ek weet nie.

MNR FOURIE: Johan in elk geval - jy weet solank julle die waarheid praat is ek saam met julle Helgard, jy moet bel as ek kan help. Ek wil rêrig probeer om nie enige pressure nou op my te sit nie, maar ek bedoel ek sal my verantwoordelikheid nakom. As julle my hulp nodig het sê net vir ...(onduidelik) as hy met my kan praat met respek - né, as Johan 'n opdrag het om nie met te praat nie, ek respect dit. Maar hy moet my net sê, jy weet ek hou nie daarvan as hy my ignoreer nie.

MNR LOMBARD: Nee, hy kon nie want hy was by ander mense wat hy nie kon praat nie.

MNR FOURIE: Nee maar ek het hom gister al geteks, ek wil net hê hy moet weet hy moet my respekteer.

MNR LOMBARD: Nee, ek gaan vir hom sê hoor in any way.

MNR FOURIE: En ja ek sal in geval met hom ook - hom ook net praat oor wat gebeur. So ek het maar my responses - ek het nou al nie net van - dis nie net 'n ding van Sam Sole wat my wil praat, voorheen het die Beeld my ook gebel. Wel ek sê nou die Beeld, maar ek ken vir Adriaan Basson en Adriaan het vir my gevra en ek sê maar vir hulle ek kan nie met hulle oor die goed praat nie. Ek was happy om vir hulle te sê dat daai is 'n klomp kak, ek bedoel dit is - jy weet as hulle oor hierdie tipe goed begin praat dan weet ek nie,

GSm

jy weet ek – (pouse)

MNR LOMBARD: Okay. Hallo?

MNR FOURIE: Adrian – ek sal net vir hom sê. (ONDERBREKING)

MNR LOMBARD: Hallo?

MNR FOURIE: Ja ek wou net gesê het as dit nie verder nodig is om daaroor te praat nie dan is dit cool, ek sal graag wil uit dit uit bly, maar as ek 'n responsibility het en ek moet back wat julle sê en julle het backup nodig, want ek weet julle gaan die waarheid praat, dan sal ek saam met julle staan.

MNR LOMBARD: Okay, thanks hoor, ek waardeer.

MNR FOURIE: Okay Helgard.

MNR LOMBARD: Goed gaan eers.

MNR FOURIE: Okay bye.

MNR LOMBARD: Right bye.

EINDE VAN EERSTE GESPREK

MNR FOURIE: Hallo.

MNR LOMBARD: Yes.

MNR FOURIE: Jirre jy is hard om in die hande te kry man ...(onduidelik).

MNR LOMBARD: Ja ek was so deurmekaar wees, ek het eers gedink jy het op my ou SMS gereageer, toe nou op die nuwe een.

MNR FOURIE: Was jy al by die commissioner?

MNR LOMBARD: Nee nog nie.

MNR FOURIE: Okay. As jy gaan né, maar dit gaan ten to one te laat wees, want as jy te laat gaan dan gaan – jy weet, kyk as ek toestemming kan kry dan kan ek dit wat die Beeld wil sê – ek het nie met jou heeltmaal gepraat oor wat

G Sm

SEQ 29/2021-2468

die Beeld gesê het nie en ek het net vir jou vertel van dinges en ek het net vir jou gesê Adrian het my gebel.

MNR LOMBARD: Ja.

MNR FOURIE: Die Beeld se girl het vir my gesê, dis nou die Pauley girl, het basies vir my gebel en vir my gevra of die volgende versions waar is. Sy weet net dis 'n groot ding en sy moet dit met iemand check. Ek kon vir haar niks sê nie want ek het vir haar gesê ek kan nie met haar praat nie. Maar wat hulle basies - die storie wat sy basies gekry het van haar kant af is die hele storie soos wat julle dit vir my vertel het. Maar die storie sê dat wat gebeur het is dat Skollie is ge-fire oor hierdie breuk en dat hy dit basies op sy eie gedoen het en vir ons gesê het daar is magtiging en toe Johan en Ivan nou daarvan uitvind het hulle hom ge-fire.

MNR LOMBARD: Okay.

MNR FOURIE: Nou ek kon nie met haar praat nie, verstaan, want ek kan nie, ek het toe laat sy vir my tik en ek het vir haar terug getik en gesê ek kan nie met haar praat nie, dat ek dit net op rekord het. Jy weet ek bedoel as julle dit wil hê dan kan ek dit met hulle reg maak, maar ek kan dit nie reg maak, jy weet want dis nou wat daar gaan staan dink ek.

MNR LOMBARD: Ja maar dis 'n - jy weet ons kan nie - ek kan jou nie sê wat die waarheid is nie.

MNR FOURIE: Nee, nee, nee maar - sê gou vir my wat - wat my indruk was né dat daar was duidelik - Ivan en Johan van Loggerenberg het duidelik daai ding volgens my ge-sanction. Ek het nie die idee gekry hulle weet nie wat daar gebeur nie, of is dit moontlik gewees, of dink jy dis

'n moontlike ...(onduidelik) daai?

MNR LOMBARD: Nee hulle het ... (tussenbei)

MNR FOURIE: In jou kop dink jy?

MNR LOMBARD: Kyk ek weet ... (tussenbei)

MNR FOURIE: Het hulle hom ge-fire oor hy daai gedoen het? Het hulle vir hom gesê: wat de fok is jy mee besig, hou op daarmee - hy het nie opgehou nie en toe fire hulle hom.

MNR LOMBARD: Nee, nee ek was een aand saam met hom daar toe het Ivan vir my gesê gaan aan met die storie. Maar as jy ongemaklik voel hou op. En toe het ek seker ...(onduidelik) almal stuur nou net Whatsapps - twee dae later het ek na hom toe gery, toe sê ek vir Skollie - laat nag - ek voel glad nie tevrede hiermee nie, jy het vir my nog nie die dokumente gegee wat jy belowe het jy gaan vir my gee nie, ek wil nie hiermee aan gaan nie. Toe sê hy maar hy sal vir my die dokumente bring. Toe net die volgende oggend of die week, of die oggend daarna, toe ry ek soontoe, toe vang ek hom waar hy besig is met - om - daai goed te tik - maar hy lieg.

MNR FOURIE: O hy tik dit verkeerd, ja.

MNR LOMBARD: Ja hy maak asof hierdie ouens geen werk doen nie, asof hulle sit en hulle jaag net aan en hulle is net polities georiënteerd. Toe sê ek vir hom: watse gemors is dit? En dis toe waar die hengse fight ontstaan het. Toe sê hy: man, moenie worry in elk geval oor die ander nie, Johan het dit gedoen. Toe daarna het ek eers uitgevind dat Jan ook weet, maar ek dink ek was saam met Jan na Ivan toe, want ek kon - ek weet nie wie die afspraak gekry het by Ivan nie, toe het Ivan gesê: man as hierdie ding sou uit kom sal

GSM

SEQ 29/2021-2470

ek sê ek het die opdrag gegee. Maar ek weet nie wie was saam met daai aand, dit was of jy of Johan.

MNR FOURIE: Ja ek kan nie dit onthou nie, maar jy weet ek kom agter ek onthou baie swak. Kyk ek het definitief daarvan geweet obviously en ek het die indruk gehad dat hierdie goed is goedgekeur. Maar op die oomblik die storie wat Johan van Loggerenberg vir die Beeld vertel het is dat – dis wat die Beeld my vertel het. Beeld het vir my gevra wat was die maatskappy se naam. Hulle wil weet wat is die privaat maatskappy se naam. Hulle het jou naam genoem, hulle het Johan se naam genoem, hulle het gesê julle twee het daai operasie gedoen onder die wanindruk wat Skollie julle gebring het dat dit goedgekeur is. En toe sê hulle vir my ... (tussenbei)

MNR LOMBARD: Nee dis nie 'n wanindruk nie.

MNR FOURIE: Ivan en Johan het daarvan uitgevind en daarom is Skollie ge-fire.

MNR LOMBARD: Skollie is ge-fire oor baie goed. Hy is ge-fire oor ...(onduidelik).

MNR FOURIE: Die indruk wat vir my geskep word is dat die ding op Skollie afgeskuif word.

MNR LOMBARD: Okay.

MNR FOURIE: Maar jy weet wat ook nie heeltemal reg is nie. Jy weet ek het hoë agting vir Ivan, jy weet ek hou nie so baie van Johan nie, maar jy weet – ek bedoel dis nie die waarheid nie en ek het net gedink as hulle wou gehad het ek moet met magtiging met hulle praat en vir hulle sê daai is nie die waarheid nie, sodat daar nie 'n klomp kak – maar jy sien hierdie goed gaan in die koerant, dan gaan dit 'n heen en weer fokken storie wees.

G S M

SEQ 29/2021-2471

MNR LOMBARD: Ek sal net graag wil hê dit moet – die waarheid moet nou uit kom.

MNR FOURIE: Ja, so die Beeld gaan nou weer een of ander halwe waarheid skryf en ek bedoel ek kan dit reg maak, maar die ding is ek weet nie – ek het nou glad nie die oproepe gevat nie. Dinges het my weer gebel, Adrian Lackay, ek het nie die oproep gevat – ek het nie die oproep gevat nie en toe ek jou probeer bel toe bel daar onmiddelik 'n ander nommer terug en toe antwoord ek, toe is dit Adrian. Toe sê ek vir hom: nee, nee, nee ek maak vir Rynard aan die slaap, ek kan nie praat nie. Toe sit ek net die foon neer.

MNR LOMBARD: Nee, ek het eers later die vermoede gekry dat dit nie die waarheid was nie, toe hy nie vir my die goed wou gee nie en hy dit vir niemand wou gee nie. En op 'n stadium het Ivan ook vir my gesê hy het nie opdrag gegee nie, maar ek en Ivan was toe alleen en dis nou jare na die tyd and that's it. So –

MNR FOURIE: Het Ivan gesê jare na die tyd hy het nie opdrag gegee nie?

MNR LOMBARD: Ja nou seker laas jaar of so. So ek is gevang wat dit betref.

MNR FOURIE: So Ivan het toe basies ontken dat hy daai – dat hy dit gemagtig het?

MNR LOMBARD: Ja maar hy het altyd die goed ontvang van die begin af en lyk my baie mense het daarvan geweet.

MNR FOURIE: Ja, ja, ja, Cliffie het daarvan geweet, ek weet hy het my daaroor gepraat dink ek.

MNR LOMBARD: Cliffie, hoe weet hy daarvan?

MNR FOURIE: Cliffie – ek weet nie, ek dink dinges het met hom gepraat, seker maar Ivan of iemand. Ek weet

GSM

SEQ 29/2021-2472

nie, hy het op 'n stadium het hy – ek dink Peter het daarvan geweet, ek weet nie.

MNR LOMBARD: Sjoe, all right, so ek is maar – in die hele ding voel ek soos die – (pouse)

MNR FOURIE: Ja, misbruik né.

MNR LOMBARD: Ja, ek sal nie die woord noem nie. Maar dankie dat jy my gebel het en laat weet het.

MNR FOURIE: Yes soos ek sê ek is – vir my is dit obviously soos wat jy enige ou sal – nie wil deel wees hiervan nie, maar ek kon nie julle nie dit sê nie, ek was gefok(?) in die opsig dat ek daai oproepe kry, dat ek nie dit vir julle moet sê nie. En as ek kan op 'n manier help, sê maar vir die commissioner – gaan jy hom nog sien, ek verstaan jy gaan hom sien?

MNR LOMBARD: Ja, ja ek het gevra vir 'n afspraak.

MNR FOURIE: So jy sal – ek het jou nou in die hande gekry, ek het gedog jy sit by hom.

MNR LOMBARD: H'n-h'n.

MNR FOURIE: So sê maar net dat ek is happy om as hy my toestemming gee, as die commissioner my toestemming gee, is ek happy om met die koerant te praat en die deel – jy weet die gedeelte reg te maak.

MNR LOMBARD: Ja.

MNR FOURIE: Maar jy moet ook vir hom sê jy weet, Ivan – ek het Ivan in daai opsig geken, Ivan het nie ...(onduidelik).

MNR LOMBARD: Hy het wat?

MNR FOURIE: Hy moet daai ding uit sy kop uit kry. Hierdie is 'n Pearl Harbour, hulle vat vir Ivan aan oor iets wat hulle gedink het hy het gedoen wat hy nie gedoen het

GSM

SEQ 29/2021-2473

nie, en nou word al hierdie kak daardeur veroorsaak.

MNR LOMBARD: So jy dink nie Ivan het geweet nie?

MNR FOURIE: Nee, nee ek het geen twyfel daaroor gehad in my hart dat hy het - (pouse)

MNR LOMBARD: Hy geweet.

MNR FOURIE: Ek het geen twyfel in my hart daaroor dat hy - jy weet dat hy daai ding ge-sanction het nie. In my kop was hy okay daarmee, hy het jou nie gestop nie, verstaan jy?

10 MNR LOMBARD: Ja presies.

MNR FOURIE: Want ek bedoel soos ek dit het, het hy vir 'n hele tyd het hy daai goed ontvang sonder dat hy gesê het: ek soek nie hierdie goed nie, stop hierdie goed - of wat ook al.

MNR LOMBARD: Ja.

MNR FOURIE: So as Johan en Ivan nou probeer maak asof Skollie dit gedoen het en hulle het hom probeer stop, dis nie hoe ek dit gehad het nie. Jy weet ek het ook nie alles geweet nie, rondom daardie ding het ek gedink jy weet

20 maar meer as ek.

MNR LOMBARD: Nee ons het mos ... (tussenbei)

MNR FOURIE: Ek het ook nie geweet - (pouse)

MNR LOMBARD: Nee ons het mos in selle gewerk, so wie weet wat doen die ander een.

MNR FOURIE: Ja so ek het nooit geweet wat gesê is in daai tapes nie. Ek dink ek het een keer een keer ietsie gesien toe ek daar was en ek onthou, ek dink ek onthou vir Pierre of iets wat praat en dit is dit. Ek het net een keer ietsie gesien, ek het geen idee wat ooit in daai gestaan het

30 rêrig behalwe vir een gesprek.

G Sm

MNR LOMBARD: Ek kan nie een onthou nie. Dit was net oor sekere aangeleenthede, want ek het vir Skollie gevra wat is die scope van die goed.

MNR FOURIE: Jy sien julle goeters is kompleks oor hoe dit gedoen is.

MNR LOMBARD: Maar moenie dink Skollie het nie geglieg nie hoor, want hy het gesê daai goed het direk van die president af gekom. Toe sê ek: Skollie, ek doen die goed nie sonder 'n 127 nie. Toe 'n week en 'n half later het hy my gebel toe sê hy die goed is nou in plek. Hy bel my laatnag en hy sê Ivan het hom nou gebel en gesê hy kom nou net van Mbeki af, daai goed is - hy het die goed gekry, dis in plek.

MNR FOURIE: Ja jy sien as hy eers begin sulke name noem dan weet jy hy praat kak.

MNR LOMBARD: Hy het vir my gesê hy en Ivan sien die dinges elke tweede week as hy beskikbaar is, die adjunk minister - tonne goed.

MNR FOURIE: But anyway, so ek hoop maar - jy weet ek hoop dat hierdie watsenaam, Tom - hulle ook hulle agendas kan bietjie suiwer. Ek dink hierdie is maar 'n klomp strond van twee kante af Helgard.

MNR LOMBARD: Ons sal sien, maar ek sal graag die waarheid wil weet.

MNR FOURIE: Ja.

MNR LOMBARD: Wie, waar, wanneer, hoekom.

MNR FOURIE: Die tipe van verweer wat Johan van Loggerenberg nou - en ek bedoel tussen my en Johan het ons uitge-figure dit was hy wat met die Beeld gepraat het - die verweer wat hy gooi is duidelik 'n verweer wat my laat dink

RSM

SEQ 29/2021-2475

dat daar nie magtiging was vir hierdie operasie nie. Want hoekom sal hulle dit probeer afskuif op Skollie.

MNR LOMBARD: Presies, ja.

MNR FOURIE: So my versoek is net as hy nodig het, as daai Tom dude nodig het dat ek met die media praat, dat as hy vir my kan toestemming gee binne die frameworks van SARS wetgewing, sal ek dit met hulle reg maak en vir hulle sê wat het gebeur.

MNR LOMBARD: Okay dis reg.

10 MNR FOURIE: Maar anyway.

MNR LOMBARD: Maar dankie baie. Ons praat weer.

MNR FOURIE: Okay Helgard.

MNR LOMBARD: Thanks Charl, lekker slaap.

MNR FOURIE: Okay Helgard bye.

MNR LOMBARD: Bye.

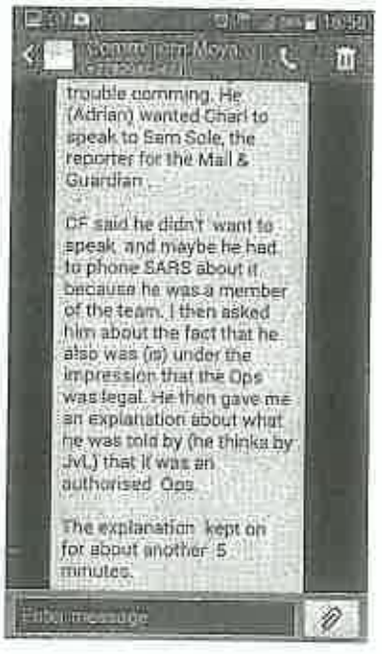
Comm, can I call. I think it is urgent. Helgard.

Commissioner - I received a call today (5 May 2015) at 11:06 from Charl Fourie in Australia stating that he just received a call from Adrian Lacky to find out whether Johan de Waal or I had "flip flop" (spoke out). Charl said that Adrian sat with Sam Sole and they said that there is big trouble comming. He (Adrian) wanted Charl to speak to Sam Sole, the reporter for the Mail & Guardian.

CF said he didn't want to



trouble comming. He (Adrian) wanted Charl to speak to Sam Sole, the reporter for the Mail & Guardian.

CF said he didn't want to speak, and maybe he had to phone SARS about it because he was a member of the team. I then asked him about the fact that he also was (is) under the impression that the Ops was legal. He then gave me an explanation about what he was told by (he thinks by JvL) that it was an authorised Ops.

The explanation kept on for about another 5 minutes.

BACKGROUND

Meeting between Commissioner Tom Moyane, Acting COO Jonas Makwakwa, Johan de Waal and Helgard Lombard on 13 May 2015 at 17:00 refers.

INSTRUCTION

As per your instruction, the two employees Johan de Waal and Helgard Lombard met with members of the DPCI (HAWKS) on 13 and 14 May 2015. The DPCI will now:

a. Register an enquiry.
b. Refer it to their legal department for a decision to register a formal charge.
c. Should a formal charge be registered to investigate the charges; then
d. Refer the matter to the NPA for a decision to prosecute or not.

FOLLOW-UP

The designated police officer will be in direct contact with Commissioner Tom Moyane's office in the near future in this regards.

HELGARD LOMBARD

Subject: geld

Mnr H. Kan jy asseblief die volgende geld trek. Ek het met Skol gepraat en hy se dit is reg.
R684-00 vir Danie vir vorige opleiding by Fonteinedal.
R684-00 vir volgende week se fiksheidsevaluering.
R50-00 x 21 lede vir skietopleiding = R1050-00. (R40-00 per persoon vir skietbaan. R8-00 per persoon vir teikens en R2-00 vir plakkers.)
Ons het kwitansies vir alles.
Dankie

Notes

1. **All assessments are subject to an Audit, which could result in a revised assessment being issued.**
2. **Interest**

   The rate of interest in the Income Tax Act is based on the rate determined by the Minister of Finance in terms of the Public Finance Management Act, 1999.

   2.1 **Section 89(2)** - unless the amount shown under 'Due by you' is paid on or before the 'Second Date' appearing on this assessment, interest at the prescribed rate, calculated from the first 'Due Date' will be payable in respect of each completed month during which any portion of this amount remains unpaid. Payments will be allocated to your account in the following manner: 1st Penalties, 2nd Interest, 3rd Tax.

   2.2 **Section 89*quat*(2)** - Interest on underpayment of provisional tax has been calculated up until the first "Due Date" of this assessment

   2.3 **Section 89*quat*(4)** - Interest on overpayment of provisional tax has been calculated up until the processing date of this assessment.
3. **No cheques exceeding R5 million will be accepted after 1 January 2002 due to the new banking practice.**
4. **Payments:**

   Always use payment reference number: 1178217842T00000000

   Payments can also be made:

   4.1. At any SARS branch office:
   Mondays to Fridays: 08h00 - 15h30
   Closed on Saturdays, Sundays and Public Holidays.

   4.2. Payments by cheque:
   When making payments by cheque, the cheque must bear the full name "South African Revenue Service" and not the abbreviation "SARS" This is to protect clients by reducing the scope for forgery and fraud.

   4.3. Bank payments or via Internet banking to: ABSA, First National Bank, Nedbank, Standard Bank

   For payments, the beneficiary ID must be used as the account number: SARS-ITA

   Payments that do not comply with both the above-mentioned payment reference number and the beneficiary ID will not be accepted.

   In terms of section 89 of the Income Tax Act where any day specified for any payment to be made, under the provision of this Act, falls on a Saturday, Sunday or public holiday, such payment must be made not later than the last business day prior to such Saturday, Sunday or public holiday.
5. **Change of address** - Notify your nearest SARS branch office immediately of any change of address.
6. **Any amount representing a credit balance is followed by a minus (-) sign.**
7. **Tax due amounting to R100 or less need not be paid, but will be included in your next assessment.** However, read note 2 above.
8. **Credit amounts of less than R100 are not refunded but will be included as a credit in your next assessment.**
9. As there is an unavoidable delay between the date of payment and the date of processing of the payment into your account, any receipts issued to you after the 'Balance of account' date shown on this assessment have not been taken into account on this notice.
10. Any document, rules or legislation referred to below, are available from any SARS branch office, the address indicated on the first page of this assessment or from the SARS website at www.sars.gov.za
11. **Delivery** - For purposes of note 13 - 14 below, 'delivery' means: handing, sending by registered mail, telefaxing or transmitting by electronic means (e-mail) the document to the relevant SARS person.

GSM

However, where the document was faxed or e-mailed, the original signed document must be handed to the relevant SARS person or sent by registered mail to that person within 10 days of it being so telefaxed or e-mailed.

12. Date of the assessment - For purposes of note 13 - 14 below, 'date of assessment' means the date indicated on the first page of such assessment as the due date or, where a due date is not so indicated, the date of such assessment.

13. Reasons for the assessment -

13.1. If you are aggrieved by this assessment, and you are of the view that adequate reasons for the assessment have not been provided to you, you may by written notice delivered to SARS at the address indicated on the first page of the assessment within 30 business days after the date of the assessment, request SARS to furnish reasons for the assessment.

13.2. Your written notice must indicate an address, at which you will accept notice and delivery of such reasons.

13.3. You also have the right to request reasons for the assessment in terms of section 5 of the Promotion of Administrative Justice Act No. 3 of 2000 where you are of the view that the assessment materially and adversely affected your rights, in which event you may request reasons in the manner contemplated in that Act.

14. Correction to the assessment -

14.1. Should you not agree with this assessment or you want to revise your original declaration, you may complete a Request for Correction (RFC) on the [illegible] submitted an IT12S or IT12C return.

14.2. The RFC must be submitted to the address indicated on the first page of this assessment notice or to any SARS branch office within 30 business days of the date of this assessment.

15. Objection against the assessment -

15.1. You may object to this assessment. The objection must comply with the prescribed objection forms:

i) Notice of Objection (NOO) for individual taxpayers who have submitted an IT12S or IT12C return

ii) ADR1 for any other taxpayer.

15.2 The objection must be delivered to the address indicated on the first page of this assessment within 30 business days of the date of assessment

15.3. Where, however, you have requested reasons in terms of note 13 above, the objection must be delivered to the address indicated of the first page of this assessment within 30 business days of either the date of the notice issued by SARS that adequate reasons have been provided, or the date that reasons were furnished by SARS, as the case may be.

15.4. If the objection is not delivered at the address indicated on the first page of the assessment it will be deemed to be invalid and will not be considered.

15.5. Reasons must be given for any late submission of your objection - In this regard please study the guidelines set out in the SARS Interpretation Note 15 of 2003.

16. Obligation to pay tax (including interest or penalties) - Your obligation to pay the amount due in terms of the assessment is not suspended by any objection or appeal. SARS will consider a motivated application for such suspension of payment pending the finalisation of the objection and appeal (in this regards see section 88 of the Income Tax Act).

For office use only.

GSM 23.2

I, the undersigned, **Helgard Lombard**, an adult male with identity number 570817 5018 087, and residing at 327 Theuns van Niekerk Street, Wierda Park, Centurion, 0149 declare under oath as follows:

1.

I am currently employed by the South African Revenue Services (SARS), situated at Riverwalk Office Park, Matroosberg Road (Erf4), Ashlea Gardens X6, Pretoria in the capacity of Manager Technical Physical Security with the effect April 2009. I am currently suspended and can be contacted at 0832709922.

2.

The contents of the affidavit in question pertains to the investigation of the South African Police Service (SAPS) into the existence and operations of an alleged SARS Rouge Unit (Brooklyn CAS 427\5\2015) and more particular to an operation called "Sunday Evenings".

3.

I am aware that the statement which I am about to make, may incriminate me with regard to contraventions of the provisions of the Regulations of Interception of Communications and Provision of Communication Related Information Act, 2002 (Act 70 of 2002). However on 17 May 2016 the Priority Crimes Litigation Unit and more particular, the Acting Special Director of Public Prosecutions informed me and my Legal Representative that they were prepared to use me as a witness in terms of Section 204 of Act 51 of 1977 and requested me to furnish the investigation team with my draft statement in terms of the said section. I was therefore afforded the opportunity to make a statement subject to the provisions of the said Section 204. The provisions of the said section have been explained to me and I understand it.

3.1 I have been informed that I am not obliged to make the statement and do so on my own free will.

GSM

3.2 The National Prosecution Authority (NPA) did not promise me any indemnity from prosecution or amnesty for any crime or any other reward should I make this statement.

3.3 I also understand that the decision to be called as a state witness lies with the Prosecuting Authority.

3.4 I understand that my status as a witness will depend on me giving my full co-operation to the South African Police Service and to the Prosecuting Authority.

3.5 I understand that by making the statement I am not entitled to claim any immunity against prosecution. Furthermore, I understand that should I fail to co-operate as aforesaid or should I not make a full disclosure, my status as a witness may be reviewed.

3.6 I understand that should I later be prosecuted the contents of this statement may **NOT** be tendered in evidence against me except in a case of perjury.

I have already furnished the investigating team with an undated and unsigned draft statement.

I was however requested on 2 September 2016 to elaborate in detail (if possible) on some of the facts as contained in the said draft statement as well as other relevant facts including detailed information of my involvement in all projects that I lead \ conducted while I was a member off SPU \ NRG \ HRIU. This request was done in the form of questions that were directed to me.

4.

My legal representative informed me that the National Prosecution Authority (NPA) or the SAPS may file an application in terms of Section 71 of the Tax Administration Act, nr. 28 of 2011 requiring SARS to disclose information referred to in subsection 2 of the said Section. I was also informed that the said information refers to information, which may, *inter alia*, reveal evidence that:

GSM

- "an offence (other than a tax offence) has been or may be committed in respect of which a court may impose a sentence of imprisonment exceeding five years;
- may be relevant to the investigation or prosecution of the offence"

I was further informed that the National Commissioner of the South African Police Service indeed obtained an order in terms of Section 71. However, the contents of the said order is not applicable on the information that is requested from me.

On 29 September 2016 my legal representative handed me a letter dated 27 September 2016 in which the Commissioner of SARS, Mr. Tom Moyane, authorized me in terms of the power vested in him in terms of Chapter 6 of the Tax Administration act, Act 28 of 2011 to release confidential SARS information in my possession to the SAPS (the HAWKS) in an endeavour to assist the HAWKS in the investigation under Brooklyn CAS427/05/2015. The said information refers to information required and requested by the HAWKS.

The Commissioner, as the complainant in the investigation in question, declared in paragraph 3 of the said letter that I will not be disciplined and \ or criminally prosecuted as a result of my roll in assisting the HAWKS in this regard.

I now wish to make a detailed affidavit that is based on my recollection of the relevant events over the last ten years. However, I make the affidavit in question subject to the provisions of Section 204 of the Criminal Procedure Act, 1997.

INTRODUCTION

5.

I have been employed by the South African Defence Force (SADF) during 1984 and was transferred to Chief Staff Intelligence (Counter Intelligence: Operations) during 1986.

GSM

In June 1988, I have been instructed by Chief Staff Intelligence to establish a covert office with the aim to conduct counter intelligence operations on espionage activities aimed at the SADF and its related institutions. I indeed established such a covert office and the office specialized mainly in surveillance operations, which included surveillance based on security technology. The said office was highly effective in surveillance and counter surveillance operations with the effect that the South African National Defence Force (SANDF) continued with the facility after 1994 without any changes. The office received its instructions from and reported to Defence Intelligence (Counter Intelligence).

6.

In 1996 I was appointed as the Manager, Technology for the facility, started to do research and specialized in surveillance technology. During this period, the focus moved from conducting counter intelligence operations for the SANDF Intelligence (DI) to assist other government departments as well. The office, *inter alia*, assisted the SAPS and had joined operations with the NIA. I was involved in operations with SAPS and the DSO. I gave surveillance training to the surveillance team of the DSO in September 2001 and assisted them with technical surveillance. I assisted the DSO and SAPS with their Witness Protection Program by installing security equipment to safeguard the witnesses.

7.

In March 2002, I resigned from the SANDF and accepted an employment offer from Harmony Gold Mining Company Limited as "Group Technical Manager: Security". My main function was to employ current security technology to protect the assets of the company against theft and malicious actions. It included the installation and maintenance of CCTV systems, alarm systems, electric fencing, access control systems as well as the introduction of centralized control rooms situated in Gauteng and the Free State.

8.

At the end of 2005, I received a call from either Charl Fourie or Johan de

GSM

Waal, informing me that the South African Revenue Service (SARS) planned to establish a similar office as the one I have run at the SANDF (DI). He enquired whether I would be interested to join this unit in a technical capacity as this unit will investigate and collect information on taxpayers and / or crime syndicates that are not tax compliant. I indicated to the person who called me that I will indeed be interested as it is challenging and that I am sure that I could positively contribute to the endeavours of such a unit. The said person then informed me that I could expect a call from a certain Mr Andries Janse van Rensburg, (known as "Skollie"), who would like to interview me. He also mentioned that Janse van Rensburg was previously employed at NIA. I did not know Janse van Rensburg at that stage.

9.

Janse van Rensburg called me late in 2005 or early in 2006 and arranged a meeting in Centurion. We met and Janse van Rensburg enquired about my technical knowledge. He asked me a few questions, inter alia, whether it will be possible to install CCTV, but to view it remotely, namely not in the close proximity of the installation. I told him that it will be possible, but that there are a few factors that have to be considered before such an installation could be done e.g. availability of ADSL or GPRS to stream video. After the meeting, I did not hear from Andries Janse van Rensburg until the last quarter of 2006.

Charl Fourie contacted me late in 2006 to conduct a few psychological tests, i.e. integrity tests, IQ tests as well as a few other tests. It was said that only those who pass these tests would be appointed at SARS. Charl Fourie, a qualified Clinical Psychologist, facilitated these tests and Johannes Muller assisted him. Andries Janse van Rensburg (Skollie) was also present.

10.

In May or June 2006 (I am not sure) the South African Secret Service (SASS) invited me for an interview and undertook to make me an offer should I be successful in obtaining a Top Secret Clearance. SASS indeed made me an offer which I accepted, but SARS followed with a better offer.

11.

I informed Charl Fourie that I have accepted an offer from SASS, but he informed me that a letter from SARS would follow suit. Charl Fourie and Skollie Janse van Rensburg indeed provided me with a SARS offer. A day or two later I received another SARS offer to sign. The only difference between the two offers was that the second letter had the SARS logo on it while the first one was a letter without the logo. Charl Fourie later told me that he and Janse van Rensburg gave me the first letter just to ensure that I will accept the SARS offer and that they produced the letter themselves - it was not an original SARS offer. The SARS offer was much better than the SASS offer and I had to decline the SASS offer. I accepted the SARS offer because, I had to take in consideration that I only had fifteen years left to build up a reasonable pension and a higher salary would contribute to a higher pension.

I cannot recall that I signed any performance agreements and was monthly remunerated by SARS.

EMPLOYMENT

12.

I commenced my employment at SARS on 1 March 2007 as a "Specialist Agent" at "Customs Border Control Unit" **(Annexure A).** I presumed that the term "Specialist Agent" referred to my experience in physical and technical surveillance. I reported directly to Mr Andries P. Janse van Rensburg (Skollie) and he reported to Mr Ivan Pillay, General Manager, Enforcement and Risk. Mr Pillay was also the Deputy Commissioner of SARS. The employees of the newly formed unit were told that they would not be exposed to other SARS employees because, the unit might have to investigate them if necessary. As a result of this, the unit's employees would work from home as instructed by Janse van Rensburg. The unit used guesthouses and other venues for meetings so as not to be exposed to SARS employees. Later members of the group rented other venues that were not so expensive in an effort to save money.

13.

The unit was informed to operate on a "need-to-know" basis and members of the unit were not to discuss any operation with each other unless approved by Janse van Rensburg. The unit was divided into cells to carry out specific SARS related investigations \ operations. This was to adhere to the "need-to-know" principle. All communication was directed to Janse van Rensburg who made the decision of who might communicate with whom in respect of operations. Communication to and from Mr Ivan Pillay was done through Janse van Rensburg. The only other person that I was aware of that had direct communication with Mr Ivan Pillay at the time, was Chari Fourie.

Mr Eddie Kotze managed the unit's administration and Mrs Rita Hayes assisted Mr Ivan Pillay with administrative communication between the unit and him.

14.

During the early stages of my employment, Janse van Rensburg enquired from me whether it was possible to install eavesdropping equipment in one of the DSO's offices. I told him that it will be possible, but with the necessary approval in terms of the provisions of Act 70 of 2002. I told him that it will be possible to install such equipment in any place with the said authorisation and the assistance of someone in the target area, namely an operational co-worker. The conversation ended on that note. I am not sure of the exact date of this conversation. It could have been between March and May 2007.

15.

Janse van Rensburg called me in June 2007 and informed me that the DSO contacted him unexpectedly for a quotation to install security systems in their offices. He further informed me that they needed to install a few systems because, they suspected that the South African Police Service (SAPS) entered their offices to gain access to sensitive documents regarding their investigations. Janse van Rensburg made an appointment for us to

meet with Adv. Gerrie Nel and Andrew Leask, Head of the Special Investigation Unit at the DSO. Janse van Rensburg instructed me not to inform them that we are SARS employees because, we can use the opportunity to earn money for the unit. He instructed me therefore to make sure that I include profit that the unit could use. Adv. Gerrie Nel and Andrew Leaks informed us that they needed concealed and overt equipment to be installed in order to detect intrusions real time and remotely view it. This meant that they could monitor their offices from anywhere in South Africa, should they become aware of an intrusion. They would then have record of the said intrusions.

The initial request was for:

- CCTV cameras, overt and concealed, complete with digital video recorders and microphones.
- Equipment to monitor these CCTV cameras remotely, i.e. GSM 3G-routers and remote viewing software.
- Alarm systems at earmarked offices.
- Access system in the Special Investigation Unit's area.
- Boardroom protection to counter eavesdropping devices.
- Window tint. **(Annexure B).**

The scope later changed in order to procure equipment to support the CCTV system and to add to the audio capability in the offices. Andrew Leask gave these instructions to me verbally. The following equipment was procured for this purpose:

- Cellular telephones with remote viewing software installed on it.
- Digital audio recorders and concealed microphones.

Adv. Nel and Andrew Leask requested an additional quotation for cellular telephone encryption. The said quotation was given to the DSO in November \ December 2007 for an amount of R 247,500.00. This included the cellular device as well as military specification software. I had to register with the Department of Communications as a "Cryptography Service Provider" to provide the equipment to the DSO. I did so on 21 August 2007 and paid an annual fee until **(Annexure C).** I do not have a copy of the "Encryption

equipment" quotation that was given to the DSO. I am also not sure who presented the final quotation to the DSO, whether it was Janse van Rensburg or myself. In July 2007, Janse van Rensburg contacted me and informed me that the DSO accepted the quotation.

16.

After the DSO accepted the quotation, I realized that I had to open a new bank account to manage the funds of the said installation. However, my wife reminded me that we had an ABSA Flexi-savings account (nr 9062196036) of which she was the account holder. The account holder was indicated as H. Lombard trading as Protech.

The said account was approximately opened in 2001 \ 2002 (I am not sure of the exact date) and was previously used for small security installations that I did in my personal capacity while I was employed at Harmony Gold Mine. The said account was dormant at the time because, I did not do any installations for some time.

I decided to use the said account for the installation in question in order to separate the said funds from my personal funds. This was much easier for bookkeeping purposes and also made reconciliations easier. I could provide the bank statements to Janse van Rensburg for audit purposes but, he never audited it.

The name "Protech" describes the services that I am able to render. I was a so-called one-man-business and I was of the opinion that I was not obliged to register it at CIPRO. I also discussed the situation with Janse van Rensburg and he gave approval that I could use this bank account, because the unit did not have its own bank account.

17.

On 12 July 2007 an investigator, Piet Jonker of the DSO, called me and told me that he had money with him and wanted to hand it to me, being funds for the installation in question. It was quite a surprise because, I expected an electronic transfer of the money into "H. Lombard T\a Protech"-bank account. He handed me R300,000.00 cash and I deposited it into the said

GSM

account **(Annexure D)**. On 17 July 2007 I received the rest of the money to make up the amount that was on the quotation. The amount was R600,705.46 **(Annexure D)**. I am not sure whether the DSO brought the said amount to me or whether I collected it from them at their offices. I also deposited the said amount into the said bank account.

In general I had to get verbal authorization from Janse van Rensburg before I could spend any money. The only exception was money that I could spend on the DSO-project although I had to inform him about it. I have sent a memorandum to Janse van Rensburg to confirm verbal authorisations that he gave me to spend some of the money on SARS projects but, he never provided me with such document. **(Annexure E)**.

INSTALLATION

18.

I commenced with the said security system installation in July 2007.

Initially Janse van Rensburg accompanied me to assist with the installations, which mainly took place afterhours when we did the installations at Adv. Gerrie Nel's office. The reason for this was not to expose the installation to the rest of the DSO personnel in the building who might have had links with the SAPS. One evening, after about two or three weeks, Janse van Rensburg informed Adv. Gerrie Nel and Andrew Leask that he had to leave for Germany for business and will most probably not see them for quite a while. They discussed the so-called places that he would visit. This was a lie because, Janse van Rensburg never left the RSA, but was looking for an excuse not to assist any further with the installations.

19.

During this time, our unit was busy with strategic as well as other planning at CSSI, CSSI House, 28 Augrabies Road, Waterfall Office Park, in Midrand. Frans van Niekerk acquired the said location from CSSI at no cost or at a special price for SARS. Janse van Rensburg used to call me out of the

GSM

meetings and informed the other members of the unit that it was a special operation that we ran and that they need not to know what it was all about. It did not upset anyone because, it was this *modus operandi* that the unit followed and no questions were asked. I used this time to acquire equipment and consumables for the said installations. When I commenced with the installations at VGM Building in Weavind Park, I installed during the day to complete the installations. Janse van Rensburg used to excuse me from workshops and meetings so that I could complete the work.

Due to poor signal in the area, as well as a bug in the 3G-routers, it often happened that the routers hung up whereafter one could not remotely login to monitor the CCTV systems. I requested Andrew Leask if they would mind if I connect remotely with these systems to make sure that the routers did not hung up because, it needed a "hard reset" when this happened. A "hard reset" is when you remove power from the router and then restart it. Andrew Leask gave me verbal permission to remotely monitor these in order to do these maintenance checks.

Both Adv. Gerrie Nel and Andrew Leask ask me during this time whether Janse van Rensburg was in Germany and I had to lie by admitting that he left for Germany whilst carrying on with the installation.

I concluded the installation in December 2007.

20.

The following equipment was installed in the VGM Building as well as the DSO offices:

- **See Annexure F** – Equipment Distribution list with legend and abbreviations
- **See Annexure G** – IP Address settings and IMEI numbers of TeleEye DVRs, Router IMEI numbers and mobile phone viewing license keys
- **See Annexure H** – Available Equipment Serial numbers and "owners"
- **See Annexure I** – NPA Alarm Systems Cellular numbers and access codes
- **See Annexure J** – Software license keys

GSM

- **See Annexure K: Equipment User Manuals, detail equipment specifications and capabilities)**
  - TeleEye RX504 DVR – In particular page 1 and 2
  - Marantz PMD660 – In particular from page 19 onwards
  - Cleo E12 Alarm Panel – In particular page 1 to 9

The Digital Video Recorders could have been accessed by any expert on the equipment and could download recordings from the unit. The distributor of the equipment in South Africa has the expertise to assist someone to reset the password on a DVR, but with the interaction of the manufacturer of the equipment. I am therefore of the opinion that with assistance of the said experts that Adv Nel, Leask and anyone who is acquainted with the systems could access the DVRs. As far as I can remember, the DVRs were set up in the "Basic Security Mode" with the username "Administrator" and password "000000". The occupants of the offices where I installed the equipment had knowledge of the equipment that have been installed and had access to the equipment. There was no server at all as the data were stored on the equipment's hard disk drive. Each DVR had an 80GB hard disk drive (HDD) installed and all video was recorded on this HDD. When the HDD reached its maximum storage, it started to overwrite the oldest data. A Notebook could be used to download data (video and audio) from the HDD of a DVR and could then be stored on the HDD of a notebook. I used this method to download data (video and audio) from the various DVRs that I had to monitor **(see Annexure L – Asset list for the SARS Notebook serial number).** These laptops are with SARS. After downloading the data (video and audio), I burnt CDs of it and handed the CDs to Janse van Rensburg. Thereafter I deleted the said data from the Notebook that I had used and therefore do not have any copies of it.

The communication between the DVRs was APN-driven. This means that all the SIM-cards in the routers had an IP address in the same IP range **(see Annexure G).** In other words, all the routers could "see" each other. When you connect to a specific IP address, it would then forward the communication to the DVR and enable the operator to have control over the DVR.

The access system had a 120GB Notebook with a Seagate HDD that served as a server for the access system. I cannot remember the passwords and \ or codes of any other of the said installed equipment.

In the presence of my legal representative, I pointed out (as far as possible) the offices and boardrooms where the equipment was installed.

Equipment bought, but not installed, was handed over to the DSO (I am not sure to whom). I do not have any knowledge of where the said equipment is currently.

INSTRUCTION TO MONITOR MEETINGS

21.

In mid-September 2007, Janse van Rensburg requested me to monitor meetings of the DSO. I told Janse van Rensburg that I could not adhere to his request unless he (SARS) had an Act 70/2002-approval to conduct eavesdropping and that it was the only way that we could do this. It was during this time that it became known that Commissioner Jackie Selebi could be arrested on corruption charges regarding his relationship with Glenn Agliotti. It was also during this time (2007) that President Thabo Mbeki suspended Adv. Vusi Pikole (Head of the NPA) from his duties.

22.

About a week to ten days after Janse van Rensburg's initial request to monitor meetings of the DSO, he called me late one evening (it was after 21:00) and informed me that he just had a meeting with Mr. Ivan Pillay who came from a meeting with President Mbeki. He informed me that we got permission to proceed to monitor the DSO- meetings. I asked him how did they (himself and Mr. Pillay) obtained the Act 70/2002-approval and Janse van Rensburg answered me: "How do you think the Judge or a Policeman will refuse a request from the President?" I asked Janse van Rensburg what the scope of the said approval was because, it could not have been a blanket approval to do what we (SARS) required. Janse van Rensburg's answer was

HGSM

that the President wants to know exactly what the DSO had against Commissioner Selebi and secondly, whether there was anyone else of the President's high ranking officials, e.g. Ministers, Director Generals, etc, that would be arrested. He said that the President told Mr Ivan Pillay that he could not afford another scandal like this and that the DSO did not even informed him about their intension to arrest Commissioner Selebi. Janse van Rensburg further said that the President did not want to be caught off-guarded.

23.

I asked Janse van Rensburg who else knew about the Act 70/2002-approval and he said that it was only six people, i.e. President Thabo Mbeki, Minister Trevor Manual, Commissioner Pravin Gordhan, Mr Ivan Pillay, himself and me. I believed Janse van Rensburg because, of the following reasons:

- Janse van Rensburg was a former employee of the National Intelligence Agency (NIA) and knew exactly what was needed to obtain an Act 70 / 2002-approval. He was also issued with "Top Secret" clearances, which was an indication that he was supposed to be trustworthy.
- We could only discuss operations with him or Mr Ivan Pillay because of the "need-to-know" principle. We never had an opportunity to meet with Mr. Ivan Pillay personally except when in a group.
- Janse van Rensburg conveyed all Mr. Pillay's instructions to the unit members. Janse van Rensburg could call Mr Pillay at any time, but kept all team members away from him. The only other person that I knew that had direct access to Mr. Pillay was Charl Fourie, one of the founder members, and a senior member in the group.
- I was told by various people that Mr Pillay was a very senior ANC member and that he could pick up the telephone and make an appointment with the President at any time. Janse van Rensburg also told me / us, on more than one occasion, that Mr. Pillay and he met the Minister of Finance every fortnight, but that he met with the Deputy Minister every two weeks to discuss the progress of the unit and to receive new instructions.

- Charl Fourie told me that when he and his wife were invited to dinner at Mr. Pillay's house, Mrs Jesse Duarte and her husband also arrived at Mr Pillay's house. Fourie confirmed that Mr Pillay is a very senior person in the ANC.
- I was also told that the now President Jacob Zuma was one of the people that joined Mr Pillay's surprise 55th birthday party held in Durban.
- Janse van Rensburg did not request me to start monitoring the meetings of the DSO immediately after I had asked him for the Act 70 / 2002-approval, but only gave me the instruction a week or a week-and-a-half later being adequate time to obtain an Act 70 / 2002-approval.
- I was aware of the possibility that the unit would have been seconded to the SAPS (CIG), which would have made the Act 70/2002-requests through the SAPS possible **(Annexure M)**.

I did not ask Janse van Rensburg to see the Act 70/2002-approval as he was a senior SARS official (Grade 9) and the reports would have been forwarded to Mr Ivan Pillay (Deputy Commissioner of SARS) in any way.

If it was an unauthorized and illegal operation, Mr Ivan Pillay could have stopped the operation after he received the first report from Janse van Rensburg.

MONITORING OF MEETINGS

24.

I commenced to monitor the meetings as requested at the end of September or beginning of October 2007 and gave Janse van Rensburg verbal feedback on what I found. Janse van Rensburg told me that Mr. Pillay requested the conversations and / or evidence with regard to Commissioner Selebi, on CD. My modus operandi in monitoring the conversations regarding CommissionerSelebi was to download all meetings and conversations that Andrew Leask (head of the investigation against Commissioner Selebi) had. I

then listen whether they were discussing Commissioner Selebi in this meeting or conversation and if this was confirmed, I downloaded it. I downloaded one conversation where they discussed the possible leak they had regarding the DSO's investigations. In the conversation, they suspected Adv Jiba to be the leak. Janse van Rensburg then wrote the report and handed it and the CD to Mr Pillay to verify the information on the CD if necessary.

25.

On a certain day in mid-November 2007, Andrew Leask needed a flash drive for a document he needed to complete at home. He did not have his flash drive with him as he borrowed it to his child for some reason. Whilst I was busy with the installation in his office, I offered him a flash drive. Andrew Leask returned the flash drive to me a day or two later. I am not sure of the date, but I think I opened the flash disk that evening or maybe a day or two later. I discovered that there was still a document on the flash disk and when I opened it, it contained information with regard to Commissioner Jackie Selebi, and about money he received in respect of the corruption charges against him. I took the flash drive to Janse van Rensburg and told him that I am of the opinion that they now obtained everything that the President required and that it was not necessary to continue with the monitoring.

26.

I am not sure, but I think it was that same day, Janse van Rensburg arranged a meeting with Mr Ivan Pillay. He told me that Mr Pillay wanted to discuss the information that was on the flash disk with me. Janse van Rensburg told me that I must call him "sir" or "mister Pillay" because, he liked it.

I met Mr. Pillay personally for the first time and assured him that I did not download the information from Andrew Leask's laptop. I asked him whether I must continue with the monitoring of the conversations regarding Commissioner Selebi's case. He confirmed that I must continue unless it is unsafe to do so. Janse van Rensburg said that I will continue with the

monitoring and will cease monitoring when it is not safe to do so. I felt uncomfortable with the task and told Janse van Rensburg so when we left. I also requested Janse van Rensburg to terminate the operation, but he insisted that I do my work.

27.

I made one further recording relating to Commissioner Selebi's case at the end of November beginning December 2007 (I am not sure of the date) and handed it to Janse van Rensburg. I then unexpectedly and without an appointment, went to Janse van Rensburg's house (it might have been the day after I handed him the CD). I again wanted to discuss the situation with him.

On my arrival, I asked him what he was doing and he said that he was compiling a report regarding the information on the said CD that I gave him in respect of Commissioner Selebi's case. I read the report and became extremely upset because, he was manipulating the information that was on the CD and added fictitious information that was never said and \ or took place. If I am not mistaken, he stated that the DSO was going to make more arrests and that they were "not doing what they are supposed to do". I confronted him with the nonsense he wrote and he answered me by saying that if I am so "fucking" upset about the way he compiles reports, he will delete it. He then deleted the report and confessed that Johan de Waal did all the other reports \ transcriptions. I confronted him with the fact that Johan de Waal also knew about the operation as he originally informed me that only six people were aware of the said operation. He then confessed that Charl Fourie also knew about the operation.

28.

I was extremely upset about the situation. I recall however, that I managed to make an appointment with Mr. Ivan Pillay through Charl Fourie (not sure) and that he and Johan de Waal accompanied me to Mr Pillay's house. I am also not sure whether Johann Van Loggerenberg joined us that evening or on a follow-up meeting, but Mr. Pillay informed him in my presence about the "Sunday Evenings-operation". Mr Pillay said that he needed Van

Loggerenberg to assist him with the said situation. I told Mr Pillay what happened and that he cannot trust any of the information he received from Janse van Rensburg because Janse van Rensburg distorted the truth. Mr Pillay told me that I must leave it in his hands and that he will deal with it.

29.

A few meetings took place to discuss the operation and Janse van Rensburg's behaviour. In one of the meetings Mr. Pillay said that if I was ever confronted with this operation he would say that he gave the instruction. I then asked him whether the President was aware of the said operation and the existence of an Act 70/2002-approval. Mr Pillay then denied that the President ever gave the instruction and or arranged the Act 70/2002-approval, but said that he will take responsibility for it. Mr. Pillay said that he and Johann van Loggerenberg would deal with the Janse van Rensburg-matter. I cannot recall whether Charl Fourie and \ or Johan de Waal attended these meetings.

Mr Pillay told us to carry on with our work and to interact with Janse van Rensburg while they will take action against Janse van Rensburg.

CONTINUATION WITH WORK AFTER THE EXPOSURE OF A.P. JANSE VAN RENSBURG

30.

Approximately, in April \ May 2008, I was seconded to SARS, Anti Corruption and Security (ACAS) unit to assist with the planning and installation of security at SARS sites nationally. I distanced myself from the unit and Janse van Rensburg because, I was disappointed in the way the unit was managed and specifically with the management of Janse van Rensburg. I concentrated on the work at ACAS. In April 2009, I was permanently transferred to ACAS after my first request for a transfer to ACAS in 2008 was lost or not processed. We had several meetings in 2008 where we were given the opportunity to take a financial package and leave SARS. I decided to stay.

I was also present when Johan de Waal and Charl Fourie confronted Janse van Rensburg over a cellular telephone telling him that they disclosed all his misrepresentations, lies and dealings to Mr. Pillay. The cellular telephone was on speakerphone. I also told him during this conversation that I am now aware that he lied to me and mislead me regarding the DSO-operation while he was in a position of trust and authority. He just said "dankie vir dit" (thank you for that). Johann van Loggerenberg was also present during this conversation. Janse van Rensburg took a financial package in 2008 and parted with SARS.

31.

We also had a meeting with Janse van Rensburg after he left. I could initially not remember this meeting in 2008, but, Johan de Waal showed me minutes that were taken by Charl Fourie during this meeting. The said minutes are a true reflection of the facts that were discussed during this meeting **(See Annexure N)**.

The following abbreviations for the persons present at the meeting were used:

- CF = Charl Fourie
- HL = Helgard Lombard
- JdW = Johan de Waal
- S = Skollie

Reference was also made to people that was not present at the meeting:

- PG = Pravin Gordhan
- IP = Ivan Pillay
- FvN = Frans van Niekerk
- JvL = Johann van Loggerenberg

At this meeting that took place on 23 July 2008 at 08:00, I told Janse van Rensburg that if the DSO operation was illegal, I will institute a "civil claim" against him to recover all costs. Janse van Rensburg confirmed in the presence of all at this meeting the legality of the DSO-operation and said

HL GSM

that he had a letter with him, signed by Commissioner, Pravin Gordhan, that SARS authorised the said operation and that they will carry the legal costs should there be any "problems" due to the operation "Sunday Evenings". I requested a fax copy of this letter, but did not receive it.

I then broke all communications with Janse van Rensburg, but in April 2009 he called me and requested an urgent meeting. We met on 28 April 2009 at approximately 10:00 and during this meeting, Janse van Rensburg told me that he has a meeting with two NIA members. Janse van Rensburg asked me what he must tell them if it is about the DSO-operation. I told Janse van Rensburg that he could tell them whatever he want to because my superiors will have to take the "rap" for the instructions they gave me. **(Annexure O).**

REPORTING THE DSO OPERATION TO THE SAPS (HAWKS)

32.

KPMG was appointed by Commissioner Tom Moyane to investigate allegations of a "Rogue" SARS Unit as reported in the newspapers.

On 19 March 2015, Johan de Waal told me that he received an e-mail from KPMG asking questions about "Operation Sunday Evenings" (the DSO-operation). They retrieved an e-mail from the PC Laptop of Rita Hayes, with the minutes of the meeting held with Janse van Rensburg on 23 July 2008 and forwarded it to Johan de Waal. According to Johan de Waal they wanted to know why I threatened Janse van Rensburg with a civil case if his instructions were illegal **(Annexure N).**

33.

After I read the minutes dated 23 July 2008, I told Johan de Waal that we have to discuss the DSO-operation immediately with Commissioner Tom Moyane as I am no longer going to keep it secret because it will damage the image of SARS should it leak out. We then drove to the Commissioner's Office and told the Commissioner that we need an urgent meeting with him.

GSM

Commissioner Moyane immediately put time aside for us, invited the Acting COO, Mr. Jonas Makwakwa, to the meeting and listened to what we had to say.

After I gave Commissioner Moyane and Acting COO Makwakwa a comprehensive briefing about the DSO operation ("Operation Sunday Evenings"), the Commissioner had a one-on-one talk with Johan de Waal. Mr Jonas Makwakwa and I left the office. In Mr Jonas Makwakwa's office, he (Makwakwa) promised me that I do not have to worry about anything, as I will not lose my work. He also promised that SARS would look after Johan de Waal and myself and will provide us with legal representation if necessary.

34.

After the meeting that Commissioner Moyane had with Johan de Waal, Mr Makwakwa and I returned to the Commissioner's office. Mr Makwakwa repeated his promise that he made to me in the presence of the Commissioner. The Commissioner then said that I must see him as my "Psychiatrist" and that I must tell him everything that I have not told him yet. I told the Commissioner that I furnished him with all the facts regarding the said operation.

When we left the Commissioner's office on 19 March 2015, he requested us, both Johan de Waal and myself, to provide him with a signed memorandum of what I told him as well as soft a copy (a flash disk thereof) of the signed document the next day. The next day I gave Commissioner Tom Moyane and the Acting COO Jonas Makwakwa a signed memorandum confirming what I told them on 19 March 2015 **(Annexure P)**.

35.

On 6 May 2015, I received a call from Charl Fourie in Australia, stating that he received a call from Adrian Lackay (former spokesperson of SARS). He enquired whether Johan de Waal or I spoke out about the operation (DSO-operation). Adrian Lackay indicated that he was with Sam Sole, a reporter from the Mail & Guardian, who stated that big trouble was eminent. Adrian Lackay wanted Charl Fourie to talk to Sam Sole, but Fourie refused. Fourie

GSM

then carried on by saying that he is, or was, also under the impression that the operation was legal. He also said that someone told him (he thought it was Johann van Loggerenberg) that it was an authorised operation **(Annexure Q)**.

I immediately informed Commissioner Tom Moyane, Acting COO Jonas Makwakwa and Adv. Theresa Kannemeyer (HR) via SMS about the conversation and told them that the Mail & Guardian was probably going to publish an article relating to the DSO-operation **(Annexure R)**. I am not aware who leaked this confidential information to the media because, this is a dismissible offence for a SARS employee to divulge confidential and /or unauthorized information to the media **(Annexure S)**.

36.

On Wednesday, 13 May 2015, Acting COO Jonas Makwakwa phoned me and requested that Johan de Waal and myself must be at Commissioner Moyane's office at 17:00. Johan de Waal and myself met with Commissioner Moyane and Mr Makwakwa at his office and the Commissioner informed us that the Mail & Guardian wanted input from SARS regarding the DSO-operation. Commissioner Moyane told us that SARS would provide us with legal assistance as we executed the DSO-operation **as per a SARS instruction.**

Commissioner Moyane then instructed us to report the matter to the SAPS (HAWKS) and he phoned a General to assist us. The General was not available as he was in Cape Town, but referred us to Lieutenant-Colonel Maluleke who met us at the Pretoria-North Police Station.

Johan de Waal and I informed him and a Warrant Officer (also from the HAWKS) about the DSO-operation.

37.

I provided Colonel Maluleke with an unsigned document on 14 May 2015, being the Memorandum that I handed to Commissioner Moyane on 20 March 2015. Colonel Maluleke explained to Johan de Waal and myself the possible steps that will follow before a case would be registered. Commissioner

GSM

Moyane, as well as Acting COO Makwakwa, wanted feedback regarding our meeting with the HAWKS and I gave feedback to the Commissioner and the Acting COO on 14 May 2015 **(Annexure T)**.

On Sunday 17 May 2015, Colonel Maluleke contacted me and requested me to meet him at General Piet Joubert Building, i.e. the DCPI (HAWKS) offices, at 17:30. Colonel Maluleke requested me to sign the said document I gave him, but I called Adv. Theresa Kannemeyer and she advised me not to sign the document. She explained that I could incriminate myself without proper legal advice. I handed the phone to Colonel Maluleke and she spoke to him.

He accepted her explanation. He said that I could sign an affidavit at an appropriate time.

FINANCES

38.

When I commenced my employment at SARS, it was said that the SARS unit in question would most probably be seconded to NIA to work exclusively on state revenue-related cases. I had to hand in a budget of high technology equipment that the unit would need but, it was more of a wish list. I am of the opinion that it was to calculate costs should the unit be seconded to work under the auspices of NIA. It was soon clear that the unit would not be seconded to NIA. It was said that if the unit needs equipment, it would be best if they raise the money themselves although SARS already approached the SAPS (CIG) to second the unit to them to "enhance the South African State's capacity to address criminal activity and to collect state revenue" **(Annexure M)**. The negotiations with the SAPS (CIG) were unsuccessful and the said SARS unit had to buy their own equipment to do their work. I am not aware whether such equipment was bought. The unit was dissolved in 2015.

GSM

I believed that the installation of security systems at the DSO was from the onset an official operation because of the following:

- Janse van Rensburg did not inform the DSO that he actually was a SARS employee when they first contacted him for a quotation. However, I cannot confirm that the DSO was aware of it.
- Janse van Rensburg told me that it was an official operation and indicated that I must not discuss it with the rest of the unit.
- I accompanied Janse van Rensburg when we met Adv Gerrie Nel and Andrew Leask to give input regarding the security installation should it be necessary. Janse van Rensburg did not mention that we were SARS employees. The meeting took place during working hours although we worked from our homes.
- Janse van Rensburg approved the quotation before it was handed to the DSO. I got instructions from Janse van Rensburg to make sure that I included "profit" that the unit could use.
- Once the first payment of R 300,000.00 was made on 12 July 2007, I had to get authorization from Janse van Rensburg to spend the money. This changed soon and Janse van Rensburg gave me verbal authorization to buy the equipment and consumables for the installations at DSO without me contacting him. Janse van Rensburg usually called me regarding expenses of the unit such as to buy equipment or pay cash to members of the unit **(Annexure D & U)**.
- Janse van Rensburg called me out of official meetings to attend to the DSO security installations and mentioned to the other unit members that we are busy with an official operation. This happened more than once while the unit was busy with planning sessions at the CSSI House in Midrand. CSSI (Pty) Ltd in Midrand is a global data recovery laboratory and data storage specialist company, supplying a host of branded products, software and data storage services from data storage supply; hard drives, backup systems, data migration to digital forensics and data archival services.

GSM

- Janse van Rensburg signed off my kilometres travelled for the purpose of the installation as official kilometres travelled.
- The fact that the DSO, Adv. Gerrie Nel and Andrew Leask, contacted Janse van Rensburg for the installation of the security equipment was questionable because, the DSO had its own technical capability at the time. There were also quite a few other companies that could have been approached to conduct the security installations.

40.

I reiterate that the unit had to generate its own funds for equipment. However, when the DSO security installation came up, the unit did not have a bank account that it could use for securing generated funds. I proposed to Janse van Rensburg that the unit could use the account as already mentioned in paragraph 16 above. The account was, as stated, with ABSA and the account number was 9062196036 **(Annexure V)**. Janse van Rensburg approved it and I agreed to do a reconciliation of the funds on a regular basis **(Annexure W)**. All the money that I received from the DSO was in cash and deposited into the said bank account **(Annexure V)**.

FINANCE FLOW

41.

I reiterate that I provided the DSO with a quotation **(Annexure B)**. If I am not mistaken, I followed this up with a pro-forma invoice with the exact details that were on the quotation.

42.

I reiterate that Piet Jonker, an Investigator at the DSO, phoned me on 12 July 2007 and informed me that he had R 300,000.00 in cash with him and that he wanted to hand it over to me so that I could commence with the security installations. I signed for the cash that I received and then deposited it into the bank account as mentioned above (ABSA Bank account

GSM

nr. 9062196036). I followed this procedure with all the payments that I received from the DSO. The total amount received was R 900,705.46 for the installation of the security equipment and a further R 247,500.00 on 07 December 2007 for cellular encryption equipment **(Annexure D)**.

43.

I then procured consumables and equipment by paying with my credit card and / or issuing a personal cheque for the payment. This was done because the ABSA bank account 9062196036 was a savings account and did not have a debit card facility. I then added the amounts of the invoices and requested my wife to do a transfer to my credit card or cheque account whichever one I used to pay for the consumables and equipment **(Annexure X)**.

At the service providers where I did not have an account, or where the amount exceeded my credit card limit or cheque overdraft limit, I requested my wife to obtain a "Bank cheque" in the name of the service provider and paid them directly with a "Bank Guaranteed Cheque" **(Annexure X)**.

I have done reconciliations on a regular basis **(Annexure W)**. I have done these reconciliations until 06 May 2008 **(Annexure W:** Reconciliation 06 May 2008**)**. I kept all invoices up and until 09 September 2008 when I did a final reconciliation of the DSO account **(Annexure Y)**.

44.

After Janse van Rensburg decided to take the financial package that SARS offered him, I once again met with Mr Ivan Pillay and Johan van Loggerenberg. I told them that there was an amount of approximately R100,000.00 in the said bank account and enquired from them in which SARS account I should deposit the money. Both of them then answered that there is no provision made for such an account and that I cannot pay the balance over to SARS. SARS would not be able to give an explanation of the money should anyone queried the deposit. Mr Pillay and Johann van Loggerenberg then said that I must take the money and regarded it as a "private installation" should anyone ask. Johan van Loggerenberg then gave me a letter that authorised me to conduct private work. This was the first

GSM

time for me to receive such letter. I attach the said letter as part of **Annexure Z.**

I declared R112,740.00 as profit in the 2008-tax year **(see Annexure W)** and paid an amount of R45,096.00 over to SARS being 40% on the declared additional income **(Annexure Z)**.

I already did a final reconciliation of the DSO account on 9 September 2008 as mentioned in paragraph 42 above. An amount of R 266,840-69 had to be refunded to the DSO. On the same day, I deposited the said amount of R 266,840-69 directly into the DSO Head Office, C–Funds bank account - Standard Bank, Account number 011691379 **(Annexure Y)**. I also supplied the DSO with an Asset List as well as an Asset Distribution list **(Annexure F and H).**

After September 2008, I kept on maintaining the DSO's alarm system account until June 2009 when the two-year contract with CellSecure (Pty) Ltd was terminated **(Annexure X).** I also maintained the data SIM-cards as supplied by TeleEye (Pty) Ltd.

I completed the final reconciliation after "Operation Sunday Evenings" leaked to the media and I reported the DSO-operation to the SAPS (HAWKS) **(Annexure W).**

In this reconciliation, it is clear that I still used some of the money to maintain accounts arising from the DSO-operation **(Annexure W)**.

45.

On request of the investigating team I would like to add the following facts:

45.1 I was requested to elaborate in detail my involvement in all projects that I conducted while a member of the said unit. As far as I can recollect, I was involved in the following projects during the period 2007 to the end of 2008: **(see Annexure AA1 to AA5).**

45.1.1 Task Babu – Pinetown – March \ April 2007. The purpose of this task was to establish whether a certain tax payer was smuggling with abalone. I did a reconnaissance of the area to determine

GSM

whether a video transmitter could be installed to assist in the investigation. The procurement of the equipment was not approved and I just took pictures of the house and area (**see Annexure AA1**).

I was part of the investigating team. I can confirm that Jappi Tshabalala and Sipho Nkomo accompanied me.

45.1.2 Operation Fok Tim – Bramley - May 2007. Information was received that drugs were manufactured on the premises of a person from Chinese origin. After establishing the address, Danie le Roux and myself were present on 28 May 2007 when the SAPS entered the premises of 92 Beryl Street, Bramley.

During a conversation with Mr. Fok, he confirmed that he did not register for tax as his businesses were illegal. A search of his property confirmed that he ran a "Fafi" business from his garage and provided accommodation for approximately twenty (20) Chinese citizens. He also had false documents in his possession.

I handed a report to Itumaleng Leeuw regarding this operation on 04 June 2007 (**see Annexure AA2**).

45.1.3 Operation Erwin – Ladybrand (FS) –June 2007. The purpose of the reconnaissance was to determine whether a full time surveillance investigation had to be conducted to establish the frequency of smuggled abalone that was delivered at a cold storage in Ladybrand.

I was accompanied by Kenny Mphalele and Mike Peega to conduct the initial reconnaissance in Ladybrand (FS) in June 2007. I wrote a reconnaissance report on 02 July 2007 to Mr. A.P. Janse van Rensburg with my recommendations, which included the cost for surveillance equipment. The equipment was never procured and the surveillance operation was not approved (**see Annexure AA3**).

45.1.4 Operation Border Posts – Beit Bridge – October 2007. I did research at Beit Bridge (Musina) to establish whether it was possible to monitor vehicle movement in respect of "ghost exports", bribery, etc by means of employing CCTV cameras that will be monitored remotely (**see Annexure AA4**). Gilbert Gunn and others accompanied me.

(While I was employed at the Anti-Corruption and Security unit, I installed two hundred and seventy four (274) CCTV cameras for the abovementioned purposes)

45.1.5 Operation WDF (Waterfront Duty Free) – Cape Town – February 2008.

The purpose of the investigation (operation) was to determine whether the company supplies duty free stock to businesses and \ or individuals which stock do not qualify for duty free stock (**see Annexure AA5**).

I can only recall that Gilbert Gun accompanied me during the investigation, but cannot recall the other members of the team that also accompanied us.

All information collected during this investigation, was handed over to SARS management.

45.1.6 Operation Abalone – Gansbaai. The purpose of this investigation was to collect information regarding abalone smugglers in the Gansbaai \ Hermanus area.

I cannot recall the exact date of the investigation, but remember that the investigation was done by Danie le Roux and myself. Frans van Niekerk compiled a comprehensive report regarding the smuggling of abalone in the said areas.

GSM

45.2 The unit did not have the means to buy tracking equipment, but I recommended Inkwazi and FinTrack tracking equipment as being reliable.

45.3 As far as I can recollect, I received a SARS identification card during 2007. The said card had a SARS emblem and a photograph of myself, but with another name and surname printed on it. I do not know who instructed the issuing of the said cards. I had the said card for a short period in my possession, but never used it. I later returned the card. I am not aware of what happened to the card.

45.4 When Janse van Rensburg parted with SARS during 2008, Johann Van Loggerenberg communicated through me to the unit. I never received a letter stating that I am the "Acting Head" of the NRG and I never regarded me as the acting head. I cannot recall whether projects were conducted during this period because, I assisted the Anti-Corruption and Security Unit (ACAS) to plan and implement a national rollout of a CCTV camera system with a centralised monitoring facility. During this period, I gave feedback from the unit members to Johann van Loggerenberg. I also reported to ACAS during this time. Although I was seconded to ACAS in 2008/2009, I was permanently transferred to the said unit on 1 April 2009.

I cannot recall whether I have signed a performance agreement.

45.5 I cannot recall whether I have conducted any projects (Crime Intelligence (SAPS) or NIA during the said period. Since 2009, after I joined ACAS, I conducted projects with SAPS (Hawks), SAPS (Crime Intelligence) and SSA on a few occasions.

45.6 While Janse van Rensburg was our manager, he allocated the projects. I am not aware who approved the said projects aware , nor do I know who monitored and evaluated the projects.

When J. Van Loggerenberg took over from Janse van Rensburg, we were made aware that no illegal methods were to be used to obtain information with regard to projects. He approved projects after he

received a detailed motivation, including financial implications and expected outcome of the project. I took it that he evaluated it.

45.7 I am not aware that any member of the unit escorted prominent politicians.

45.8 I left the "NRG" in 2009. While I was doing operations in the said unit, I never used any SARS equipment except those that I bought during the DSO-installation. I was made aware of the existence of a surveillance vehicle but, cannot remember who informed me about it. I have never seen the said vehicle.

Deponent

Signed and sworn to before me at 2016-10-26 pm Wierdsburg 2016. The Deponent having acknowledged that he knows and understands the contents of this affidavit, has no objection to taking the prescribed oath and considers the oath binding on his conscience.

COMMISSIONER OF OATHS

SUPPLEMENTARY AFFIDAVIT

I, the undersigned, **Helgard Lombard**, an adult male with identity number 570817 5018 087, and residing at 327 Theuns van Niekerk Street, Wierda Park, Centurion, 0149 declare under oath as follows:

1.

I already made an affidavit dated 24 October 2016 in which I disclosed the relevant facts.

2.

On 16 March 2018 I was approached by the State with regard to an allegation made by Werksmans Attorneys in a letter directed to the National Directorate of Public Prosecutions dated 12 March 2018. In the said allegation they alleged that I was instructed by Mr. Moyane not to avail myself for a scheduled interview with KPMG in 2015 and that I had to pretend that I was ill.

3.

I want to reiterate what I stated in paragraphs 32 and 33 of my affidavit dated 24 October 2016. On 19 March 2015 myself and Mr. de Waal gave Mr. Moyane and Mr. Makwakwa a comprehensive briefing about the DSO operation ("Operation Sunday Evenings"). I want to add that at this meeting Mr. Moyane instructed us to keep quiet about the said operation and not to discuss it with anyone.

4.

I also want to react to the said allegations from Werksmans Attorneys. On 6 May 2015 I informed Mr. Moyane that I had to avail myself for an interview with KPGM on 7 May 2015. Mr. Moyane requested me to phone him on the morning of 7 May. I in fact phoned him as requested. It was in this conversation that Mr. Moyane instructed me not to avail myself for the said interview and to pretend that I was ill. I obeyed the said instruction.

He further informed me that Mr. Luther Lebelo would phone KPGM and inform them of the fact that I was ill. I never testified before the KPMG Commission. I want to emphasize the fact that I was not ill and was able to testify if necessary.

GSM M.W.

I recorded the abovementioned conversation. All my incoming and outgoing cellphone conversations are recorded. I attach a transcription of the said conversation as Annexure **HL1**. The original recording was at all times in my possession under lock and key. The said original is available if required.

5.

I did not disclose these additional facts in my original affidavit because, at the time I did not consider it relevant to the investigations regarding the unit.

Deponent

Signed and sworn to before me at **Pretoria** on **21 March 2018**. The Deponent having acknowledged that he knows and understands the contents of this affidavit, has no objection to taking the prescribed oath and considers the oath binding on his conscience.

ABBREVIATIONS:

COMMISSIONER TOM MOYANE: TM

HELGARD LOMBARD: HL

Telephone rings

TM: Hi Helgard.

HL: Commissioner, good morning.

TM: Good morning.

HL: I hope you had a good night.

TM: I did.....I did.

HL: (Laughing) That's good.

HL: Commissioner (unclear)?

TM: Just a minute, just a minute, just a minute...

(Silence TM talking to people in the background)

TM: Hallo....

HL: Commissioner?

TM: Just wait, let's deal with case KPMG.

HL: Huh... okay.

TM: Let's deal with it..... you are not going.

HL: Okay.

GSM M.W

CONFIDENTIAL

Annexure HL1

TM: You are not going to them. Ehh.... Luther is going to tell them that you are not well.

HL: Oh... okay.

TM: Ja, you're not well.

HL: Okay.

TM: Hmm... and, and that... eh you... you certainly not well... and therefore... ehm they'll have to organize another day.

HL: Okay.

TM: Ja, you not going today, you're not going tomorrow... so you... you... you have a challenge... Ja, you're not well.

HL: Okay.

TM: They'll... he'll do it on your behalf.

HL: All right... thank you very much.

TM: Ja...

HL: Commissioner must I come through to you?

TM: No, don't come and see me. I'm going through to Maputo now.

HL: Okay.

TM: Ja... so let's discuss it on Monday.

HL: On Monday?

TM: Ja...

HL: ...

TM: Thank you very much for sending me... I just want you to be calm Helgard

HL: Okay... Commissioner.

G.S.M M.W

CONFIDENTIAL

Annexure HL1

TM: You can even don't go to work... don't just go... stay at home, pull your mind together. I am very happy with what you have shared with me ... and just send a message to your immediate superior and said that you are... you are not feeling well and... and... that's it.

HL: Okay but..... Luther

TM: Just for today and then you can...

HL: But Luther will.....

TM: Luther will deal with ..... yah Luther, Luther will... no Luther won't contact you... Luther is going to make an apology on your behalf.

HL: Okay, thank you very much.

TM: Yah...

HL: There is something else that I need to tell you about a trap that they set up for the other six...

TM: Yah...

HL: That I'm not sure you are aware off...

TM: No.

HL: So, eh... when we have time I will discuss it with you. They...

TM: Oh...

HL: Same lady that was at my place last night.

TM: Okay, let's... let's... have a meeting on Monday.

HL: Okay, that's right. Thank you, Commissioner.

TM: Okay, stay at home today, take care of your wife.....

HL: Thank you.

TM: eh..... relax as much as you can... you have me behind you and thank you for sharing some of this things with me.

HL: It's a pleasure..... thank you very much...

GS m

CONFIDENTIAL

Annexure HL1

TM: Thank you..... thank you very much, ... thank you very much.

HL: Okay.

TM: Bye-bye.

HL: Okay ... bye-bye

TM: When they call you, when they call you.....

HL: Yes?

TM: Just say ..... "I am not well" ..... if they do call you from KPMG, say "I am not well", I thought Luther has communicated that with you...

HL: Okay...

TM: Yah

HL: Thank you Commissioner... I'll tell them.

TM: Yah... say (unclear) okay bye..... bye...bye.

HL: Okay...ehm...bye.

BROOKLYN CAS 427/05/2015

A106

GSM24

Izak Johannes Fischer states as follows in English:

1

I am a Colonel in the South African Police Service with persal no 0082476-3, stationed at Crime Intelligence, Head Office, Technical Support Unit, Pretoria. I have 37 years experience in Technical Support with the following qualifications:

1.1 National Diploma - Police Administration
1.2 National Diploma - Elect. Engineering
1.3 National Higher Diploma - Elect. Engineering

2

On the 2nd of February 2016, I was approached to assist in the identification of equipment at the offices of SARS in Brooklyn. The request was made by Col HW Maluleka from Crimes Against the State (CATS). After the on-site investigation was completed, I compiled the following report, using the photo album compiled by Const SP Ndebele, marked Brooklyn CAS 427/05/2015 NCSPT CR06/2016.

3

Photograph 1 shows the inside of the offices where the equipment was displayed. Photograph 2 to 24 shows the equipment to be identified. Photograph 5 shows a Nikon D200 digital camera with two lenses.

4

Photograph 6 shows a photo of nigh sight equipment. The detail on the photo is not enough to determine the make or model of the equipment. This type of equipment is used to take photographs at night or in very dark circumstances.

5

Photograph 7 to 13 shows a mobile digital video recording system. This is a four input and one output system. Four different video/audio feeds can be streamed to this system and watched on the internal screen or an externa monitor. Next to the four inputs and one output, the collapsible antennas for the video/audio inputs can be seen. The monitor is built into the lid of the case, to be accessible when the case is opened. The system also has a battery installed to operate without a connection to outside power. At the front connectors can be seen where outside power (220v ac and 12v dc) can be connected. The digital recorder records video and audio on a removable hard drive. Photograph 22 to 24 shows photographs of connection wires, antennas and audio/video transmitters used with the recorder unit. The cables are used to connect cameras as well as batteries to the four transmitters. The transmitters are then used to transmit audio and video to the equipment (receiver and recorder) described in photos 8 to 12. The transmitters shown operate in the frequency band 1.2 GHZ, generally reserved for law enforcement. Two transmitters have dip-switch settings to select one of four channels available. This feature is to enable the receiver to receive different feeds at the same time and shown on the monitor split in four segments. The other two transmitters do not have visible channel selectors and it is presumed to be fixed on specific channels. No names are shown to determine the make and model of the transmitters. The power output of the transmitters is 500mw that will give it an effective range of 500 to 1000 meters within city limits under ideal circumstances.

6

Photograph 15 to 18 shows photos containing images of pelican protection cases with the supplier's detail as well as the name of the equipment inside. No photos were supplied on the contents of the cases. It is presumed that the contents are Gnome digital audio recorders. It is small in size and after recording it is downloaded to a computer as an audio file. This type of recorder generally has its own propriety authentication system that makes it difficult to alter or change the recorded files. For that reason it is generally sold to law enforcement agencies and used where it is essential to prove the originality of the recording in court.

GSM

7

Photographs 19 to 21 shows photographs of a Sting audio/video body worn digital recorder. The unit is disguised under a person's shirt. One of the top buttons of the shirt is then used as a camera. On photo no 20 the digital camera (disguised as a button) as well as the remote to operate the recorder is shown. The files on the recorder is downloaded to a computer for viewing after the recording.

8

Photographs 26 to 43 shows a working area as well as a safe where similar equipment is stored. All of this photos show the equipment store and equipment stacked and marked. Some of this equipment is new and have not been used and some have been used but is still in a excellent condition. Photograph 40 shows a blue folder that is used as a log to capture particulars of everybody entering the storeroom.

9

I have nothing more to declare in this statement.
I know and understand the contents of this declaration.
I have no objection to taking the prescribed oath.
I consider the prescribed oath to be binding on my conscience.

Date: 19 September 2016

Time: 14:00

Place: Pretoria

(SIGNATURE OF DEPONENT)

I certify that the above statement was taken by me and that the deponent has acknowledged that he knows and understand the contents of this statement. This statement was sworn to before me and the deponent's signature was placed thereon in my presence at Pretoria on 19 September 2016 at 14:00.

GSM 25

AFFIDAVIT

I, the undersigned

JAPPIE TSHABALALA

Do hereby make oath and state in English that:

1.

I am an adult male, with ID number 7605315338086 and employed by the South African Revenue Service (hereinafter referred to as "SARS") as an Operational Specialist Investigator. I am currently employed and based in Tax and Customs Enforcement Investigation's division and in a unit called Preliminary Investigations and Enquiries.

I am employed at 41 Riverwalk Office Park, c/o of Matroosberg and Garsfontein Roads, , Block A, Extension 6, Ashlea Gardens, Pretoria, Gauteng.

My work telephone number is (012) 340 3442 and my mobile number is 082 557 4194.

GSM N. 1

Jappie Tshabalala continues in English under Oath

2.

I am an officer as contemplated in:

Section 6(5) of the Tax Administration Act No 28 of 2011 ("the TA Act"); and

Section 3(1) of the Income Tax Act, Act 58 of 1962 ("the Income Tax Act");

In the exercise of my duties in terms of the TA Act, the Income Tax, and VAT Act, it is *inter alia*, my duty to:

- Conduct investigations into serious tax and customs related offences disrupting organised crime and tax evasion schemes;

- Support the compliance improvement strategies of SARS through targeted enforcement interventions;

- Strengthen strategic relations with internal and external law enforcement stakeholders to enhance the reputation and outcome of enforcement actions of SARS;

- Determine and investigate whether or not persons and/or entities are compliant with their obligations in terms of the TA Act, the Income Tax and VAT Acts.

Jappie Tshabalala continues in English under Oath

- Obtaining of full information in relation to any amount received by or accrued to any person and/or property disposed of for no consideration and/or payment made or liability incurred by any person;

- Ascertaining the correctness of any return, financial statement, document, declaration of facts, valuation or other information in the Commissioner's possession;

- Determination of the liability of any person for any tax, duty or levy and any interest or penalty in relation thereto leviable under the TA Act, the Income Tax and VAT Act;

- Ascertaining whether an offence in terms of the Acts has been committed and also enforcement of any of the Commissioner's remedies under the applicable legislation, to ensure that any obligation imposed upon any person is complied with;

- Performance of any other administrative function which is necessary for the carrying out of the provisions of the Acts;

I am also bound by the Oath of Secrecy of SARS and have duly signed upon my employment at SARS, the applicable secrecy and confidentiality provisions of Chapter 6 of the Tax Administration Act, 2011 and Section 4 of the Customs and Excise Act, 1964;

N.

'Jappie Tshabalala continues in English under Oath

I am exercising the powers conferred upon me in terms of the above Acts and my duties under the provisions of the above Acts, under the control, direction and/or supervision of the Commissioner.

3.

The facts herein contained, except where otherwise stated, fall within my own personal knowledge and are to the best of my knowledge and belief, both true and correct.

However, I further state that where applicable, several critical aspects and specifics like dates, venues, taxpayer/operational details and so forth are not immediately recalled by myself due to them transpiring almost 8 to 9 years ago, but all the best of effort is put into consideration herewith to correctly and truthfully give an honest account to the best of my ability.

4.

On the 1st June 2016, I received a letter from the Directorate for Priority Crime Investigation (DPCI) requesting to conduct an interview and to also take a statement from me. The letter was signed by Brigadier Xaba, who is the Section Head of the Crimes Against the State and TOMS (CATS and TOMS).

In the letter it was mentioned that the interview relates to the activities at the former Special Projects Unit (SPU), the National Research Unit (NRG) and the High Risk Investigation Unit (HRIU) between 2006 and 2014.

GSm N. 4

Jappie Tshabalala continues in English under Oath

The letter requested me to avail myself, as a former member of the SPU and NRG, at the DPCI offices at 218 Visagie Street in Pretoria. The enquiries person stated in the letter was Captain Sewele of Organised Crime – CATS and TOMS.

5.

On the 2nd June 2016 at 09:50 am, I met Brigadier Xaba at the aforementioned offices of CATS and TOMS. Brigadier Xaba introduced himself and some of his colleagues and we proceeded to his office for the interview.

Brigadier Xaba showed me a report and asked me to read it and confirm that it was my report. I did read the report as requested and confirmed that it had indeed been written by me.

This report was written by me on the 14th October 2014 and was marked "Strictly Confidential". I had then handed over this report to my seniors at SARS. The SARS Senior Officers who requested that report and to whom I have given it to are Patrick Moeng and Gene Ravele.

6.

Brigadier Xaba asked me several questions relating to the SPU, the NRG and the HRIU and he requested me to give details as feedback to my answers. I told Brigadier Xaba that I was a member of the SPU and the NRG from 2007 up to until 2009. I also informed Brigadier Xaba that I was never a member or knew of the so-called HRIU.

Jappie Tshabalala continues in English under Oath

My response and answer to a number of questions posed to me by the brigadier, are dealt with herein under.

7.

In the middle of 2007, I was amongst other candidates who were selected from SARS and other external law enforcement agencies and invited to attend an evaluation and assessment programme. We had been included in this assessment and evaluation because of our expertise in matters relating to various taxes. The other candidates were former Scorpions and other intelligence agencies and they possessed with them expertise in tactical operations, surveillance and other intelligence operations.

During the assessments and evaluations, some of it was conducted by Charl Fourie while Johannes Muller was responsible for human resources.

The assessments and evaluations were done at the ABSA Conference and Training Facility which is situated in Montana, Pretoria. I was informed that once successful, I will be included in a team with other members who will be incorporated into a unit called "Special Projects Unit" (SPU) in due course which was to be headed by Andries Janse van Rensburg also known as "Skollie".

G Sm N. SLLL

Jappie Tshabalala continues in English under Oath

8.

To some of us in SARS at this time of the evaluation, it was not the first time that we have seen or met Skollie. The first time I met Skollie was in the year of 2003/4 while working at the then SARS' Special Compliance Unit called "Organised Revenue Crime Unit" (ORCU) which was headed by the late Sihle Mbongwa.

During this time, all members of ORCU received training from KROLL Risk Management and Consultancy at the Persequor Techno-Park venue in Lynwood near the CSIR in a training programme called "Project Moreleta". This is the same venue where most of the Directorate of Special Operations also known as "Scorpions" received their training.

Skollie and Peter Richer were part of the KROLL team that provided various training modules to the team. Also in the KROLL team as a speaker was the renowned Dr. Bennie Fanaroff (now the Director of the SKA Project in South Africa).

9.

At the ABSA Training facility in Montana, during the evaluations and assessments, SPU candidates were given a very short yet intensive evaluation programme. The evaluation included – surveillance techniques, weapons handling and identification tests, explosives recognition tests, operational readiness, sleep-deprivation, and a number of psychometric tests and other related assessments.

GSM N. 7

Jappie Tshabalala continues in English under Oath

10.

During this time of the evaluations, successful members were informed that they will form part of a special unit that is 50% National Intelligence Agency (NIA) and 50% SARS. The members were also informed by Skollie that they would be paid their salaries by NIA but the client would be SARS. The members were also informed that they would all get similar packages of Grade 7 and up and also the same employment benefits.

Successful SPU members were also informed by Skollie that the unit would be working within the illicit economy.

I was amongst the few candidates who were successful and incorporated into the SPU. I was given an appointment letter with the job title of Specialist Agent under the SPU. My job title later changed to Specialist Investigator.

The SPU had an initial proposed mandate at the time. Attached hereto as **Annexure JT 1**

11.

Brigadier Xaba then asked me how I felt at the time when I was joining the SPU for the first time and I responded by telling him that I was very excited and highly motivated as I knew that I was amongst a team of professionals who were all passionate about fighting crime in our country.

Jappie Tshabalala continues in English under Oath

12.

The SPU in 2007 was having around 20 or so members that I can recall. During this time, SPU members were informed that they should no longer report to their normal places of work and respective managers but should wait to be contacted for new reporting protocol. We were told by Skollie to start working from home until such time that we would receive further instructions.

All SPU members were informed by Skollie that they should register new email accounts and have private emails for communication purposes. The other instruction from Skollie was to also have Skype accounts and the usage of Telsip IP phones for communication.

Skollie also instructed SPU members to purchase new vehicles and acquire new, safe and secure residences as they would be well compensated and all will be getting car allowances.

SPU members were also instructed by Skollie to register legitimate businesses which would serve as "cover" due to the fact that SPU members would be operating from their private homes and would therefore attract attention.

Jappie Tshabalala continues in English under Oath

13.

From the onset, the SPU started to operate from different offices around Pretoria and Johannesburg.

SPU utilised the following offices for their meetings:

- Cipherwave Offices in Midrand.
- Irene Farm Village in Irene.
- Waterkloof Guest House in Waterkloof.
- Brooklyn Lodge in Brooklyn.
- Blue Crane Restaurant in Nieuw-Muckleneuck.
- Magnolia Park in Muckleneuck.
- NG Kerk/Church in Wierda Park.

14.

SPU members then received short term training on a number of areas. The SPU did a lot of training exercises in and around Pretoria/Irene/Montana areas. Training involved following live "targets" of vehicles or persons with emphasis on counter-surveillance measures.

SPU Members mostly used the Kenwood two-way radios for communications. SPU Members utilised their own private vehicles as the SPU did not have operational vehicles.

N. 10

Jappie Tshabalala continues in English under Oath

SPU members also used and received a number of equipment for usage during operations. These equipment include -two-way radios and chargers with extra batteries (Kenwood), Telsip IP phones, printers but not everyone in the SPU received, MTN 3G cards, desktop computers and screens, keyboards, cell-phones and laptops. Most of the equipment had SARS barcodes on them.

15.

Initially, the responsibility of drafting the budget for the SPU belonged to Helgard Lombard. He was tasked to draw up a comprehensive list of all the requirements of the unit.

The equipment list included a "wish list" containing the proposed purchases and acquisition of operational vehicles, weapons, hi-tech TSCM equipment, IT equipment and other items. SPU members were also asked to submit ant other item or equipment that they felt would be necessary for operations. I do not know if any of the equipment was ever purchased or acquired, as a draft list was presented to Skollie. The list is attached hereto as **Annexure JT 2**

16.

The SPU was divided into different small teams of 4 or 5 or as the situation required regularly and emphasis was always put on the fact that team members who were

belonging to the same team should not engage with the other teams, especially during operations. This was dubbed the "Golden Rules" of the SPU and members were instructed to adhere to these rules.

SPU team members would receive tasking from Skollie and then those team leaders or project leaders would then choose the resources within the SPU for that particular project.

In line with the mandate, the team would sometimes do tasking that would seem 'unconventional' to attain results. Like the use of setting-up cameras to monitor 'subjects'.

17.

I was personally involved in a number of SPU projects. Some of these projects are:

- Project White Pipe – a drugs related project with national coverage.
- Project Mint – a project aimed at locating two money-printing machines situated in the Newcastle and Utrecht areas.
- Project Hollywood – counterfeit DVD's and piracy.
- Project FTV – clothing, footwear and textiles industry.
- Project ICE – drugs related project.
- Project Basi – drugs related project.
- Project Gold Leaf – tobacco/cigarette project.
- Project Zola Budd – taxi industry project.

Jappie Tshabalala continues in English under Oath

Where necessary, our team members would do observation of subjects like residences, warehouses, vehicles/trucks with containers, persons, offices, etc) to attain results.

We would also use CCTV to monitor the subjects and also relied on extensive research and analysis of our internal systems and open-source information from the internet.

18.

There were a number of challenges in the early stages of the SPU which sometimes hampered production. Some of these challenges were salary matters and unpaid claims of members for operational spending.

SPU members were instructed to create "aliases" or "cover" names to be used during operations. This was done so as to limit the danger and exposure to personal risk that was perceived then to be present to SPU members.

The SPU members were issued with two "high-quality" ID cards with one card bearing the correct details of the member and the other card bearing the 'cover' names and details of the members. At one time at the SPU meeting, members were asked to hand back all the cards. I did hand back the card with my correct details as instructed. I could not hand over the card with my cover details as I could not find it at the time. The copy of the card with the cover details that was issued to me is attached herewith as **Annexure JT 3.** The original card was handed over to

Jappie Tshabalala continues in English under Oath

Brigadier Xaba as requested on the 10th June 2016 during the interview and taking of this statement.

19.

During the leadership of Skollie over the SPU, many meetings were held at the Cipherwave office in Midrand and most meetings were not 'minuted'.

It was only after Mr Johann van Loggerenberg took over as the new Manager of the team that all the meetings were 'minuted' and records kept.

SPU meetings usually occurred once or twice a week (Tuesdays OR Thursdays at 10:00 am) at designated places and issues like operations, tasking, finances, HR, administration, resources/equipment and SARS' organisational interests would be discussed.

20.

At some time, the SPU team was called to an urgent meeting and informed that Skollie was no longer in charge. We were informed that Skollie has left the employ of SARS 'under a cloud' after a 'fall-out' with management of SARS.

We were instructed not to pursue the matter but to continue with our work. The team then operated on a "rotational basis" of leadership with Johan de Waal, Charl Fourie and Helgard Lombard taking up 'guiding and leadership' positions for the team.

Jappie Tshabalala continues in English under Oath

21.

Sometime in 2008, the team was informed by Johan de Waal and Charl Fourie that JVL would take over the team going-forward.

I remember that when JVL came to the team, a number of changes were affected immediately. The team started to work in a structured and coordinated manner.

- Minutes were kept of every meeting.
- JVL engaged with team members regularly and demanded compliance and adherence to matters of discipline and governance.

22.

JVL immediately requested team members to consider 'scrapping' the name of SPU and rather use a name that would almost 'align' to the type of work that the unit was conducting for SARS.

JVL insisted that the team do away with names like "Special" and "Projects" and "Unit" as the implication was that our work was somehow "irregular" and "covert" or even "controversial".

After engagement with team members on the matter, the name National Research Group (NRG) was adopted.

Jappie Tshabalala continues in English under Oath

The team was instructed by JVL to start submitting weekly reports on everything of the unit. It was then that Johan de Waal was elected the as the Acting Manager of the team.

23.

JVL also proposed to the NRG that we should consider having a new mandate. A proposal was presented to the NRG team for approval as the new mandate, attached hereto as **Annexure JT 4**

JVL then introduced the team to projects falling within the illicit economy which SARS needed to immediately engage on. **Annexure JT 5**

24.

During this time, the NRG was also experiencing some internal challenges. A division developed in the NRG along racial lines. For months, many of us who are African in the NRG, still received our existing salary packages of Grade 6 while our white colleagues received their packages ranging from Grades 7 to 8.

We viewed this as extremely unfair as the difference in salary was vast and the level of operations and the risks or dangers involved were the same. We did form an internal group of concerned employees and forwarded our grievances to JVL and Johan de Waal.

Jappie Tshabalala continues in English under Oath

25.

In the NRG, I was working with different team members on different projects that include those mentioned in paragraph 17 above.

But I had personally developed a very strong bond and friendship with Michael Peega ("Mike"). It is for this reason that I shared most of the projects with Mike. Mike was a former Special Forces member and he taught me various tactical and operational techniques to use during operations while at the same time I taught him a lot concerning various aspects of criminal and civil investigations and taxation in general.

From time to time I would engage in weekend odd jobs with Mike. One of these odd jobs would be to offer a close protection and driving service to potential clients. We did these odd jobs as we were travelling a lot in the NRG and sometimes could not afford the expenses associated with being on the roads all the time all over the country.

26.

Mike introduced me to several high-ranking members of the ruling party, most of which he knew personally. We once travelled to Polokwane and Johannesburg with Julius Malema, Fikile Mbalula and Pule Mabe. We were providing a service of Close Protection (bodyguards and drivers) for the clients. We were always paid by the clients for services rendered.

Jappie Tshabalala continues in English under Oath

27.

There were incidents where NRG team members "accidentally met" some of these ruling party members at hotels or airports. There was never a project that was allocated to me by the NRG whereby certain politicians and or their businesses were allocated to me.

Mike was arrested sometime back while working for SARS in the NRG for allegations of rhino poaching. He was later dismissed by SARS. Mike had told the investigators that he had been acting as an NRG agent infiltrating the rhino poaching syndicates.

Mike was acquitted of all charges brought against him in the Nelspruit Court. Since Mike left the employ of SARS, I have always maintained contact with him and assisted him during difficulties.

Mike has always maintained his innocence all the time and I have believed him.

28.

It was reported in past media articles that the NRG has investigated several high-ranking members of the ruling party and also "bugged" the home of the State President.

I state in my personal capacity, and categorically put it on record that:

Japple Tshabalala continues in English under Oath

- I am not aware of any plot, case or investigation into any personal tax affairs of any individual mentioned in the media articles by the NRG.
- I was never involved in any investigation of any political figure within the country – whether be it the ruling party or the opposition.

- I have NEVER bugged nor did any surveillance on the State President and/or any close members of his family and/or members of the ruling party.

I do not know of any NRG activity to either bug or investigate the State President and/or any of the politicians mentioned in the media articles.

29.

Sometime in 2009, we were informed by Johan de Waal that the NRG as a unit was going to be disbanded.

Johan de Waal told us that due to a number of negative publicity that the unit was receiving i.e. Skollie and Mike matters, the NRG was not going to operate anymore. All of us in the NRG were told to either resign or go back to our former positions within SARS.

I have always viewed my time at the NRG and SPU as a secondment and always maintained that I have never left the employ of SARS as this view is strengthened by the fact that my salary was always paid on time like all other SARS employees on

the same date and I have always received my salary advice bearing SARS as my employer.

30.

Once the NRG was disbanded, I was in the group of members that went to report to a new unit in SARS called Illicit Economy Research Unit based at the Doringkloof office in Centurion.

During the disbandment of the NRG, we were requested to submit all equipment like laptops and radios to Johan de Waal. I do not know what happened to this equipment afterwards.

31.

We were also informed by Johan de Waal that those members of the NRG who did not elect to go to work for SARS had simply resigned and that their resignations were received and accepted.

I have never seen nor heard from those members or Johan de Waal again until recently last year in 2015 when I saw them in the SARS office at the Riverwalk Office Park where I am currently based. It is only then that I have established that those members have never resigned from the NRG as previously stated but were working for a unit called High Risk Investigation Unit.

Annexure

Proposed Mandate

The proposed mandate of the Special Project Unit consists of the establishment of a ***Shielded-off*** unit that will operate nationally and internationally with the following objectives:

- The protection of the economy of South Africa
- The collection and analysis of information, through investigation and monitoring of structured organised groups and individuals involved in illegal activities, such as:
    - The illicit economy (Abalone, Tobacco, Drugs, Textiles, Human trafficking and the Importation of second-hand vehicles, etc.)
    - Subjects that are non-compliant
    - Corruption

- The use of legally sanctioned methods to achieve the goals of the South African Revenue Service

- To gather information for SARS that is not readily available to SARS during SARS legally sanctioned investigations.

- To support and enhance the mandate of the World Customs Organisation in combating trans-national crime.

National research unit

Mandated to focus its activities into any action required by the Enforcement Division executive where any or a combination of the following are apparent will be assigned:

• Scope:

o The focus of the unit will be directed towards cases (current or potential) where activities of taxpayers fall within the ambit of organized crime. A particular emphasis will be placed on cross-border and corruption-related activities;

o Activities will be in accordance with Enforcement policies and procedures as approved and amended from time to time.

o The unit will have a national mandate and will be active in all geographic areas in South Africa.

• Activities:

o Actions will primarily be any or a combination of:

§ The identification of key role-players in the illicit economy and collecting sufficient information about them in order to allow SARS to:

• Consider the revenue and customs related non-compliance consequences of their activities

• Focus and prioritizes which activities to direct law enforcement actions towards.

• Additional activities:

o Cases may also be referred to the unit that are under investigation by enforcement units (based on executive approval and prioritization) in SARS that may benefit from information gathered such as:

§ The customs border control unit

§ The national investigations

§ The integrated customs enforcement teams

§ Criminal investigations

§ Internal corruption investigations unit

§ Cases referred to SARS by means of external formal law enforcement units that may necessitate or benefit from our techniques.

§ Cases of such a nature that pre-determined outcomes may necessitate the deviation from current standards and norms.

BROOKLYN CAS 427/05/2015

ERIC KHULEKANI KHWELA states under oath in English

1.

I am an adult African male id no.5610065844087 residing at 1108 Paff Road Booysens Pretoria and employed by South African Revenue Service as a Legal Specialist with our offices situated at 40 Matroosberg Road Ashelea Gardens, Riveralk building Menlyn, with work landline no.012-4333196.

2.

I am the former MK and South African Air Force member. During 2002 I was recruited by Mr Sihle Mbongwa to join SARS as an investigator under Organised Revenue Crime Unit which the unit was dealing with high profile investigations.

3.

During 2003 I attended KROLL training at CSIR on high profile investigation. The training was coordinated by Piet Richer. The instructor was Mr Andries Janse van Rensberg and other. The Training lasted for three months. We were plus or minus 18 members.

4.

After the training our unit was based at Hatfield. Its manager was Mr Sihle Mbongwa and I was a Team Leader. Our unit comprises of auditors, lawyers and investigators and we relied on NIA for intelligence collection. Our mandate was to investigate Tax evaders' related cases.

5.

I became a manager in 2004 after Sihle Mbongwa was moved to SARS head office.AS a manager my mandate was to run the unit effectively.

6.

Mid 2004, the unit was moved to SARS Megawatt Park in Midrand. National Enforcement Unit was formed. The unit mandate was to source cases>I was reporting to Mr Mohamed Latiff a Senior Manager. His office was at Megawatt Park.

7.

During 2007 a Special Project Unit was formed within SARS. Mr Ivan Pillay was a General Manager Enforcement. I approached Mr Ivan Pillay and asked him to allow me to join the SPU.I then stepped down as a manager and moved to SPU.The unit was investigating the illicit cases. Andries Janse van Rensberg was the manager.

8.

I attended the psychometric assessment test which lasted for 2-3 days. Andries Janse van Rensberg was a coordinator while Charl Fourie conducted the test.

M.F

GSM

BROOKLYN CAS 427/05/2015

ERIC KHULEKANI KHWELA states further that:-

8.

After the assessment we were briefed how we were going to operate. We were told to operate from our homes. I was issued with two SARS identification cards. The unit conducted meetings at private places.

9.

places at Hatfield, Iren and Midrand. Sometimes the unit met at Johan de Waal's house at Willows where the members discussed about operations and successes.

10.

I was involved in a surveillance operations where the unit observed the movement of people from the house in Boksburg. I was given a pen with memory stick.

11.

I moved to Durban in 2008 due to the reason that I was underutilised and my mother was sick. I destroyed the SARS identification cards

12.

While I was still a member of SPU I noticed that the unit was operating like an intelligence unit. The unit was doing intelligence work. The unit was involved in conducting surveillance. The plans were design for intelligence collection.

13.

I know and understand the content of this statement.

I have no objection to taking the prescribed oath.

I consider the prescribed oath to be binding upon my conscience.

EK Khwela

BROOKLYN CAS 427/05/2015

Nora Pitsi states under oath in English

1.

I am an adult female 54 years of age with identity number 611113 0719 080 and employed by the National Department of Home Affairs as Director with our offices situated at 230 Johannes Ramokhoase Street, Pretoria Central with Telephone number (012) 406 4347 and mobile phone no.071 462 1475.

2.

My duties entails that of Prevention and Detection under the Branch, Counter Corruption and Security Services, Gauteng at the Department of Home Affairs (hereinafter referred to as Head Office) which is the state mandated Detection and Prevention to conduct evaluation on all DHA processes in order to identify loopholes in the systems, security breaches and prevention of vulnerabilities from fraud and corruption activities within the department.

3.

Before employed by the Department of Home Affairs I was employed by the South African Revenue Services (SARS) from 3rd January 2003 up until 30 November 2010, as a Senior Investigator for Tax and VAT. By virtue of my position, I assumed overall responsibility to investigate irregularities in both Tax and VAT related matters, gather and manage information regarding tax evaders and draft reports and prepare case dockets for prosecution.

4.

On assuming duties by SARS I underwent conducive training by Kroll International, where we were trained in: Report writing, Information analysis, Ground and Technical surveillance and Financial Investigation. The training took a period of approximately 8 months with intervals.

5.

In 2006 I was seconded for two (2) weeks to a unit under the leadership of Mr Eben Schoeman, which we were conducting interception of telephone conversations of public

Nora Pitsi states further that

5

member from KZN community who were involved in defrauding SARS and DHA in (identity) for purpose of obtaining grants.

6.

In 2007 to 2009, I was again seconded as per my request to a newly formed unit named National Research Unit (NRG) under the leadership of Mr Skollie, whom after two (2) weeks of my joining the unit resigned and Johan van Loggerrenberg was called to take over the responsibility of that unit.

7.

My duties were in the unit to conduct surveillance on public members, who were involved in Illicit Cigarette, and counter fake goods under the leadership of Mr Sipho Nkomo. We were working from home and held meetings on weekly basis at either; Brooklyn Guest House or Irene Farm to discuss progress on investigations conducted from different units. I once again received short training on surveillance conducted by Mr Helgard Lombard for a period of a week.

8.

Equipment allocated in the unit were laptops and two-way phones for purposes of communication during surveillance. In my unit of Illicit Cigarette, we worked at KZN identifying places where there was possibilities of conducting illegal production or manufacturing of cigarettes, I also worked on surveillance or information gathering on counter fake goods and pirating of goods in the area of Johannesburg for purposes of ensuring that businesses conducted were legal or illegal and then submit a report to head of unit, Mr Sipho Nkomo. In 2009 the unit was disbanded and we were told that everybody has to go back to their normal work places, and most of SARS personnel were relocated to a unit named Illicit Economy. However, Mr Charl Fourie had relocated to Australia with his family, Mr Itumeleing Leeuw was said to have been working for DTI, Mr Keith was said to have gone back to SAPS where he worked before joining NRG and Mr Nkomo went back to Metro Police.

BROOKLYN CAS 427/05/2015

DILLO DANIEL NYAPHUDI states under oath in English.

1

I am an adult male 42 years of age id no.7402035467084 residing at 721 Prosperity Road Roodepoort and currently employed by the South African Revenue Service (SARS) as a Senior Manager with our offices situated at 41 Matroosberg Road Ashley Garden Pretoria. My mobile number is 082 461 7052.

2.

The facts and /or circumstances herein contained fall within my own personal knowledge unless otherwise stipulated and to the best of my believe true and correct.

3.

On the 3rd June 2016, I was served with a subpoena in terms of section 205 of the Criminal Procedure Act 51 of 1977 by Captain Freddy Sewele, the investigating officer of Brooklyn CAS 427/05/2015.I was requested to provide information about the my role as a former member of the South African Revenue Service (SARS) unit known as the National Research and any other information related to the establishment of the unit. The subpoena listed eleven questions that had to be answered in the form of a sworn statement.

4.

Around 2006, I was a team leader in the National Enforcement Unit (NEU) of SARS. My line manager was Eric Khwela (Jabu). Jabu indicated during that time that he does not want to continue as a Manager. He then approached Mr Ivan Pillay (IP) to convey his wish to step down as a Manager. Ivan Pillay informed him about the new Unit that will be formed soon and asked him to submit his CV. Jabu requested my CV and submitted it with his. Both of us were called in for an "assessment" in Pretoria with 38 other candidates. The assessment took place from the 5th to the 7th December 2006. The schedule of the assessment is attached as **Annexure A.**

5.

About 22 candidates (including myself and Jabu) were selected to form a new unit called Intelligence Operations Unit (IOU).I was appointed as a Specialist and Andries Janse van Rensburg (Skollie) was in charge of the Unit. Skollie was also using the name Pieter Steenkamp. Skolie was reporting to directly to IP. The team started operating in January 2007 but the members were formally appointed in February 2007. Normal SARS recruitment policy did not apply when I was recruited. According to SARS Policy, the following should be done prior to the appointment of staff members:

GSM

BROOKLYN CAS 427/05/2015

DILLO DANIEL NYAPHUDI states further that:

5.

5.1 Candidates to be appointed in grade 6 and above must first attend an assessment with an independent service provider. The purpose of the assessment is to ascertain the suitability of the candidate for the new role

5.2 The candidates must provide fingerprints for pre-employment screening. The purpose of the screening is to check for adverse credit record, criminal record and .authenticity of qualifications

5.3 Job offer letter signed by Human resources Manager

5.3 Candidates must also be issued with a contract of employment.

None of the above took place when I was appointed in the NRG. The NRG members were appointed as Customs Border Control Unit members but never formed part of Customs. My appointment letter and the lists of the NRG members (excluding Skollie) are attached as **Annexure B and C** respectively. An internal SARS template stipulating the documents required prior to the appointment on an internal candidate in a grade 6 and above is attached as **Annexure D.**

6.

The NRG was responsible for the recruitment of sources, surveillance and exploitation of information on behalf of SARS.The process flow of the Unit is attached as **Annexure E1.** The Project closure template of the unit is attached as **Annexure E2.** A memo outlining the recruitment of a source is attached as **Annexure F.** Other memos that were prepared after surveillance operations are attached as **Annexures G1 and G2.**I was issued with two cards after joining the NRG. The first card has my real name and identity number. The second card has a fictitious name and identity number. It is worth nothing at this juncture that both cards were never issued to other members of SARS. The cards were only issued to NRG members. The card with my correct name and identity number is attached as **Annexure H1** and the card with my fictitious name is attached as **Annexure H2.** The fictitious cards were used in instances where I had to hide my identity from taxpayers or sources.

7.

The NRG did not have offices but used the following venues for meetings:

7.1. Brooklyn Lodge.

7.2. Cypher Wave boardroom in Waterfall Park (Midrand).

GSM

BROOKLYN CAS 427/05/2015

DILLO DANIEL NYAPHUDI states further that:

7.

7.3. Dairy Farm in Irene.

7.4. Various Shopping Malls, i.e. Menlyn Mall.

8.

I was the Project Manager of the following projects while I was a member of the NRG:

8.1. **Project "Dirty Water"**

I was tasked to conduct surveillance with Eric Khwela on certain individuals. The tasking was given to us by Gerrit Jute. The list of the said individuals is attached as **Annexure I.** I was also given profiles of the same individuals. The profiles were obtained from South African Police "SAPS" CAS system. I am not aware if the information was obtained legally from SAPS. The profiles were provided to me by Frans van Niekerk, who was a member of NRG. The profiles are attached as **Annexure J.** The report on the project is attached as **Annexure K.**

8.2. **John Bredenkamp**

The initial tasking from Mr Johann van Loggerenburg was to look at Mr Bredenkamp alleged cigarette smuggling and non-declaration of income. The investigation later included his involvement in the Arms Deal.

8.3. Corro Pump (CK: 1987/28228/23).

The first case allocated to me by Gerrit Jute. I was tasked to handle the source (Andre Leichner with mobile number 0826535964) with Jabu. The source wanted SARS to intervene in his fight against Corro Pump director (Voster).The source wanted SARS to close down Corro Pump so that he may get his machines and stock. The document explaining the above is attached as **Annexure L.** The document was given to me by Jute. Jute instructed me to make sure that Enforcement institutes an audit on Corro Pump as matter of urgency. I asked him to put the request in writing. He then gave me an unsigned memo. The source also handed a file with Corro Pump documents via Jute. I refused to action the case. Prior to leaving the NRG I took the file to Jute and he denied any knowledge of the file. I still have a copy of the file.

8.4. Surveillance Operation in Johannesburg CBD

I was part of a team that conducted surveillance on vendors that were suspected of manufacturing counterfeit DVDs. The team included Itumeleng Leeuw, Kenny Mphahlele and Nora Pitsi. The report was given to Johann van Loggenburg

BROOKLYN CAS 427/05/2015

DILLO DANIEL NYAPHUDI states further that:

9.

I did not receive any formal training whilst I was a member of the NRG, as I have previously attended Intelligence training provided by Kroll SA in 2003. I completed the following modules on intelligence in 2003:

9.1 Intelligence and Evidence-**Annexure M1.1**

9.2. Technical Security, Technical surveillance and TSCM- **Annexure M1.2**

9.3 Operational Security and operational Surveillance **-Annexure M1.3**

9.4 Interviewing skills and psychological profiling- **Annexure M1.4**

I was also provided with the following informal training in the NRG:

8.5 Intelligence 101--**Annexure M1.5**

8.6 Surveillance-**Annexure M1.6**

8.7 Influence Technology-**Annexure M1.7** Operational Security and operational Surveillance **-Annexure M1.4**

The informal training was provided by various members of the NRG .Although I am aware of a list that was compiled to procure bugging and surveillance equipment, I did not use any undercover equipment while I was a member of the NRG.I only used digital cameras when conducting surveillance.

10.

I know and understand the content of this statement

I have no objection to taking the prescribed oath.

BROOKLYN CAS 427/05/2015

DANIE LE ROUX states under oath in English

1.

I am an adult male, 57 years of age with id no. 5911105035086 residing at 27 Avenue 562 Villieria, Pretoria and employed by the South African Revenue Service (hereafter referred to as "SARS") as an Investigator at Preliminary Investigations and Enquiries, Tax and Customs Enforcement Investigations based at Riverwalk, Pretoria, with work telephone number is (012) 340 3395 and cell phone number 082 451 0219.

2.

The full contents of this affidavit fall within my personal knowledge and are, unless otherwise expressly stated, both true and correct.

3.

I joined SARS as an investigator during 2006(estimated). I initially reported to Mr Peter Richer and was involved in internal investigations, mostly concerning the misappropriation of SARS equipment and property, such as theft and robberies of laptops and system breaches by SARS employees (we were a team situated in A Block) I also conducted research on illicit second-hand vehicles, vapour detection RFID and Bio Metrics. The following Electronic equipment was issued by IT Security for the purposes of investigation that I have mentioned above:

1 Cannon camera, in blue canvas caring bag.

1 digital recorder in Pelican case.

1 set of Njala voice transmitters set of 4 units in one Pelican case

1 Sting button video recorder, in protective case

Computers

Printers

Scanners

Network Switches

Gsm

BROOKLYN CAS 427/05/2015

DANIE LE ROUX states further that:

The purpose of each item:

The camera was used for the photographing of evidence in relation to investigations conducted into theft of SARS equipment, and abalone, illicit tobacco products, as well as drug seizures.

The digital recorder was used in the above mentioned investigations in relation to interviews of witnesses or suspects. The recordings were then used for report writing and also for knowledge management of SARS understanding of these illicit activities.

The Njala voice transmitters was intended for use within SARS offices which were under the threat of alleged corrupt officials who were engaged in breaching/hacking of SARS systems. This equipment however was never used and remained safe storage until I returned same to Tony Apsey in October 2014.

The sting button video recorder was also intended for use during seizure investigations as mentioned above, for the capturing of video footage of crime scenes and also to assist in the compiling of reports. This equipment however had defects with the audio and therefore was never used for the intended purposed. It was also kept in safe storage until I return it to Tony Apsey in October 2014.

4.

After Mr Richer left SARS I was transferred to the Customs Modernisation Programme and I was further made responsible to manage all official firearms in SARS as an accredited official institution on 30 December 2007.At that stage, Tonny Appsey instructed me to safeguard the equipment until he requested them back and kept them in SARS firearm safe.

5.

Early 2007 I was approached by Frans van Niekerk and he formed me about the new unit which was to be established at SARS.I became interested and I

GSM

BROOKLYN CAS 427/05/2015

DANIE LE ROUX states further that:

5.

in submitted my CV/ application. I was selected and then I was transferred to the National Research Group, (NRG) and remained a member of the NRG until it was disbanded in 2009. After I joined NRG I attended a tree days evaluation of psychometric test, observation skills and interviewing skills at Montana Absa building. The psychometric test and evaluation was conducted by Mr Charl Fourie and Mr Johannes Muller in the presence Mr van Rensburg (Skollie).We were approximately +- 40 members but only 26 managed to pass the test.

6.

Whilst I was in the NRG I initially report to Mr Andries Janse Van Rensburg (Skollie) and thereafter to Mr Johan Van Loggerenberg. I was mostly responsible to conduct research, assist in projects and the investigation of the illicit trade in cigarettes, abalone, and drugs. I assisted other members of the unit with; their research in Taxis and legal DVD's. My allocated areas of research were;

- Organised tax and customs evasion schemes found within legitimate businesses.
- Illegal drugs.
- Tobacco (counterfeiting and smuggling)

BROOKLYN CAS 427/05/2015
DANIE LE ROUX states further that:-

6.

- Illicit trade in Abalone
- Illegal activities associated with arms, explosives, terror.

7.

The Unit did not have an office and we were told to work from home. The Unit conducted meetings at different places outside SARS premises such as Cipher building in Midrand, Brooklyn Guest house, coffee shops and

BROOKLYN CAS 427/05/2015

DANIE LE ROUX states further that:

7.

restaurants around Pretoria. Mr van Rensburg issued an instruction that members of NRG must have two SARS Id cards, one with the correct names and surname and the other one with false names and surnames to hide our identity. Johan de Waal instructed the NRG members to hand back the SARS real and false id's.

8.

After a project or assignment was concluded a report were drafted and submitted to Mr Van Rensburg and later to Mr Van Loggerenberg. I am not aware of what happened to the projects following the report being submitted, with the exception of the tobacco project.

9.

I was not issued at any stage with any surveillance equipment or listening devices while I was performing functions in the NRG. I am also not aware of any other members of the NRG having been issued with any such surveillance equipment.

10.

During 2009 the Unit was disbanded and I was transferred to the Illicit Economy Research Unit, (IERU). The IERU was also disbanded and I was later integrated into Projects, assisting the Cigarette Project Team..

11.

During 2012, I was transferred to Preliminary Investigations and Enquiries (PI&E) and I am currently performing functions in the Complaints Management and Enquiries (CME) Sub-unit. I report to Mr Nyaphudi who in turn reports to the Mr Posthumus.

BROOKLYN CAS 427/05/2015

DANIE LE ROUX states further that:

12.

During November/December 2013 I was however requested to deliver Notices of Engagement and Requests for Relevant Material to several Tax Payers on behalf of the Tobacco Project Team.

13.

On the 13th October 2014 I handed the following equipment to Tonny Apsey in Riverwalk building:
1 Cannon camera, in blue canvas caring bag.
1 digital recorder in Pelican case.
1 set of Njala voice transmitters set of 4 units in one Pelican case
1 Sting button video recorder, in protective case

14.

Before signing the statement, I have been afforded the opportunity of reading the statement and I am in agreement with the content recorded herein.

15.

I know and understand the contents of this declaration.

I have no objections to taking the prescribed oath.

I regard the prescribed oath as binding on my conscience.

BROOKLYN CAS 427/05/2015

Francois Van Niekerk states in English under Oath that:

1

I am a 53 year male with identification number 6301275060081, working at the South African Revenue Services in Riverwalk , Matroosberg street , Pretoria as an Enforcement Specialist. Residing at 27 Lyster Street, Croydon, Kempton Park with telephone number 0835661753.

2

I applied for a position at the South African Revenue Service in Enforcement in 2002. I started working at the SARS Woodmead office in Johannesburg.

3

During the period I was based at the National Research Group I never received any training neither was I schooled in covert craft.

4

I was issued with a normal SARS identification card. With regards to identification cards there was a list that I drew up with false names for a specific anti-corruption operation. These identification cards had to have an expiry date and were only supposed to be valid for a period of one month .These cards were never produced and never used.

5

I had a SARS laptop for a period and used that to deliver my products.

6

The meetings were held off site at different venues. We met the Irene farm as it was closed to the residence of my manager at the time, A Janse van Rensburg.

7

I worked from home as there was a pending process to obtain offices space for us.

8

I worked on the following projects:

- Abalone
- White pipe – drugs

9

I had two managers:

- A Janse Van Rensburg
- J Van Loggrenberg

GSM

Francois Van Niekerk states further Oath that:

10

I was paid my normal salary from SARS with no extra benefits. I had no company or additional income.

11

There was a document called the rules of play which clearly stipulated what we were allowed to do. I worked on the illicit economy and was looking at the tax act, transgressions and non-compliance of taxpayers.

12

I know and understand the contents of the above declaration

I have no objection in taking the prescribed oath

I considered the prescribed oath to be binding on my conscience.

PROVINCIAL CRIME SCENE INVESTIGATION TEAM PORT ELIZABETH

Affidavit in terms of Section 212 of The Criminal Procedure Act 51 of 1977:

BANDILE BRIGHT BAIN MLUMBI declares under oath in English in accordance with Section 212(6) and (8) (a) of the Criminal Procedure Act 51 of 1977, as follows:

1

I am a Warrant Officer, with PERSAL number 53663837, employed by the State in the South African Police Service and attached to the NATIONAL CRIME SCENE MANAGEMENT at the 7th Floor SOTHONGO PLAZA WEST 271 FRANCIS BAARD STREET PRETORIA CENTRAL, with telephone umber, 012 393 3813. I am employed as a Criminalist Expert, proficient as a scene investigator, . police photographer, video camera operator, draughtsman, forensic fieldworker, laboratory technician, bloodstain pattern analyst, crime scene reconstruction analyst, and fingerprint/shoe print expert.

2

Presently I have 8 years service in the South African Police Service with 6 years employment as a crime scene investigator and CRC functional member. I have completed the three-year Criminalist Expert training program (2009-2011) as presented by the Criminal Record Centre and have been granted fingerprint expert status on 2011-04-15. I have successfully completed the following training courses and programs:

2.1. Advanced Crime Scene course
2.2. Forensic Fieldwork which included: Biology; Toxicology; Ballistics; Fire scene; Firearm Related Chemistry; Metallurgical investigation courses.
..3. Forensic Fingerprint Laboratory Technician course
2.4. Crime Scene Management course: Processing of major crime scenes
2.5. Forensic Biology: DNA Evidence Recovery Crime Scene Examiner course
2.6. Shoe and Tyre tread recovery course
2.7. Poliflare Plus2 and Digital Photography course
2.8. Fingerprint Developing using Chemicals
2.9. Spheron 360 degree Camera Course

3

My daily tasks are the documenting and processing of crime scenes and exhibits for evidence according to the established methodology of forensic science. This includes the comparing and identification of fingerprints, shoeprints and other impression evidence as well as the reconstruction of

GSM

events with the sound principals of scientific method. I regularly present expert testimony of my findings in court. My tasks also include the evaluating and re-investigation of scenes to develop further investigation avenues. I conduct research on a structured basis as well as attend workshops. I regularly present, training intervention, workshops and in-service training in the various fields.

4

On 2016-05-25 at 18:00 on request of Lieutenant Khuzwayo, of National Crime Scene Management, I documented/photographed a pointing out, at DPCI offices Creswell Street, Silverton, Pretoria regarding to a Brooklyn CAS 427/05/2015

5

The pointing out was conduct by Colonel Tshabalala, of Gauteng Tshwane East Detect Coordinator. I photographed the points as instructed by Colonel Tshabalala.

6

On 2016-05-25 at 23:05, after completing photographing the pointing out, I departed.

7

All the photographs were captured digitally with file nr BBM_0597 - BBM_0728. The images were downloaded and authenticated with VeriData iDem software. The master copies are kept as exhibits in safekeeping at the National Crime Scene Management Digital Lab. I prepared a photo album and key from selected images. I confirm that the images are correct and forms part of this affidavit.

8

I know and understand the contents of this statement.

I have no objection to taking the prescribed oath.

I consider the prescribed oath to be binding to my conscience.
