

2013/07/18 7:26:39: Gerhard Bierman: Anoj, I might be 15min late for Finco. I called an urgent NAC from 8-9 on a matter. Regards. GB.

2013/07/18 8:30:58: Anoj Singh: Ok thx. A

2013/07/24 15:23:11: Gerhard Bierman: Anoj. Group Procurement requested separate memo answering your questions. Original submission has provision for signatures on it. We will incorporate in main submission and re-submit. Including APG issue. Gerhard.

2013/07/24 15:28:22: Anoj Singh: I am ok with the memo so u can incorporate into original memo + send to Roschelle + she will print for me. A

2013/07/24 15:28:50: Gerhard Bierman: Thx.

2013/07/24 15:34:19: Gerhard Bierman: Anoj. The original strategy is complete and approved. That will not change, we only answered your questions in order for RFP to be submitted to GCE (original memo). Not all info on new memo relevant for original memo. Will rather update today's memo with last questions, provide for all signatures. On approval of that, you sign original submission (similar to nmpp p70). Are you ok with that? GB

2013/07/24 15:37:44: Anoj Singh: Ok but check purpose + recommendation of memo then. A

2013/07/24 15:37:59: Gerhard Bierman: Will do

2013/07/24 16:15:50: Gerhard Bierman: Anoj. On Manganese confinement my Procurement team wants to strangle me. The view is that by designating a specific company as SD or subcontracting the process will fail fairness, transparency and equitable tests. We have considered options and investigated this previously. It would be great to do this but we are not allowed to. If Transnet chooses to go this route we have to still apply this consistently. We can be prescriptive to ask them to subcontract to a ?% B0 or BWO, but cant stipulate the firm. Your views? GB

2013/07/24 16:18:41: Anoj Singh: Tend to agree with u.

2013/07/24 16:19:51: Gerhard Bierman: Can we proceed on this basis? Any other comments on document?
